Chakras draw energy in from, and transmit energy into, the Unified Fields of each Dimension. Each Chakra carries as its Primary Color the hue associated with the wave-length of the dimensional frequency band to which the Chakra corresponds.

Each Chakra corresponds to a level of the Auric Field and one Axi-A-Tonal Line. Each Hova Body corresponds to a set of 3 Chakras and contains 3 dimensional frequency bands that form the dimensional levels of the Auric Field.

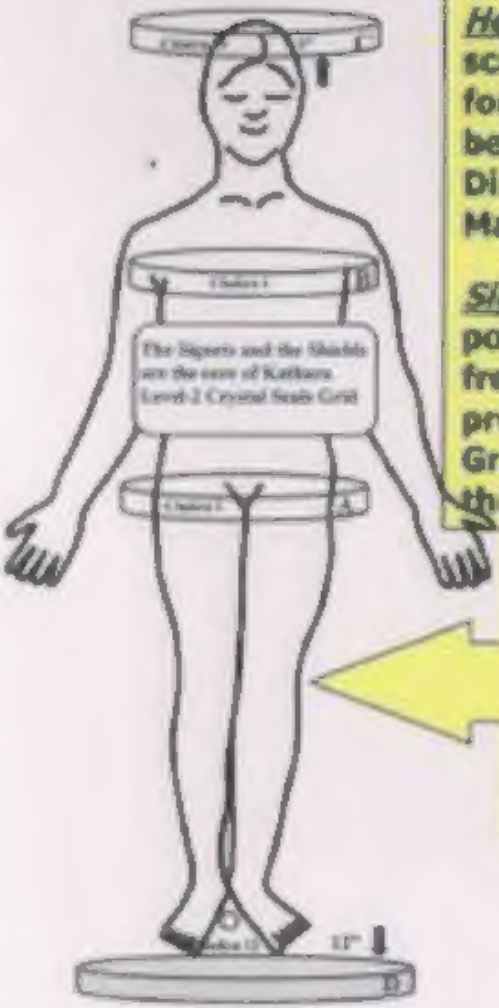
Shields, Signets and the Kathara Grid

K70



Hova Bodies **are spherical scalar wave grids that form tissue capsules between each 3-Dimensional Harmonic of Manifestation.**

Signets **are the core points of consolidated frequency that hold the programs for the Scalar Grid SHIELDS upon which the Hova Bodies manifest.**

When activated, each SHIELD forms a rotating disc of scalar waves that emanate out from the body on a horizontal plane.

Axi-A-Tonal Lines are Points where the rotating, single-axis flash-line sequences from the Seed Crystal Seals cross over & through each other, to form 12 primary vertical flow-lines within the body. The Axi-A-Tonal Lines create the web-work of energy upon which the Kathara Grid Level-3 Diodic Points & DNA manifest.

Each Axi-A-Tonal Line corresponds to a Dimension, DNA Strand, Kathara Center, Chakra & Seed Crystal Seal, & carries the color associated with the primary wave-length of its corresponding dimension.

The 7 Primary Embodied Chakras emerge where the 11th & 12th Axi-A-Tonal Lines cross through each other as they spiral around the Central Vertical Current. Secondary Chakras form in areas where other Axi-A-Tonal lines cross through each other.

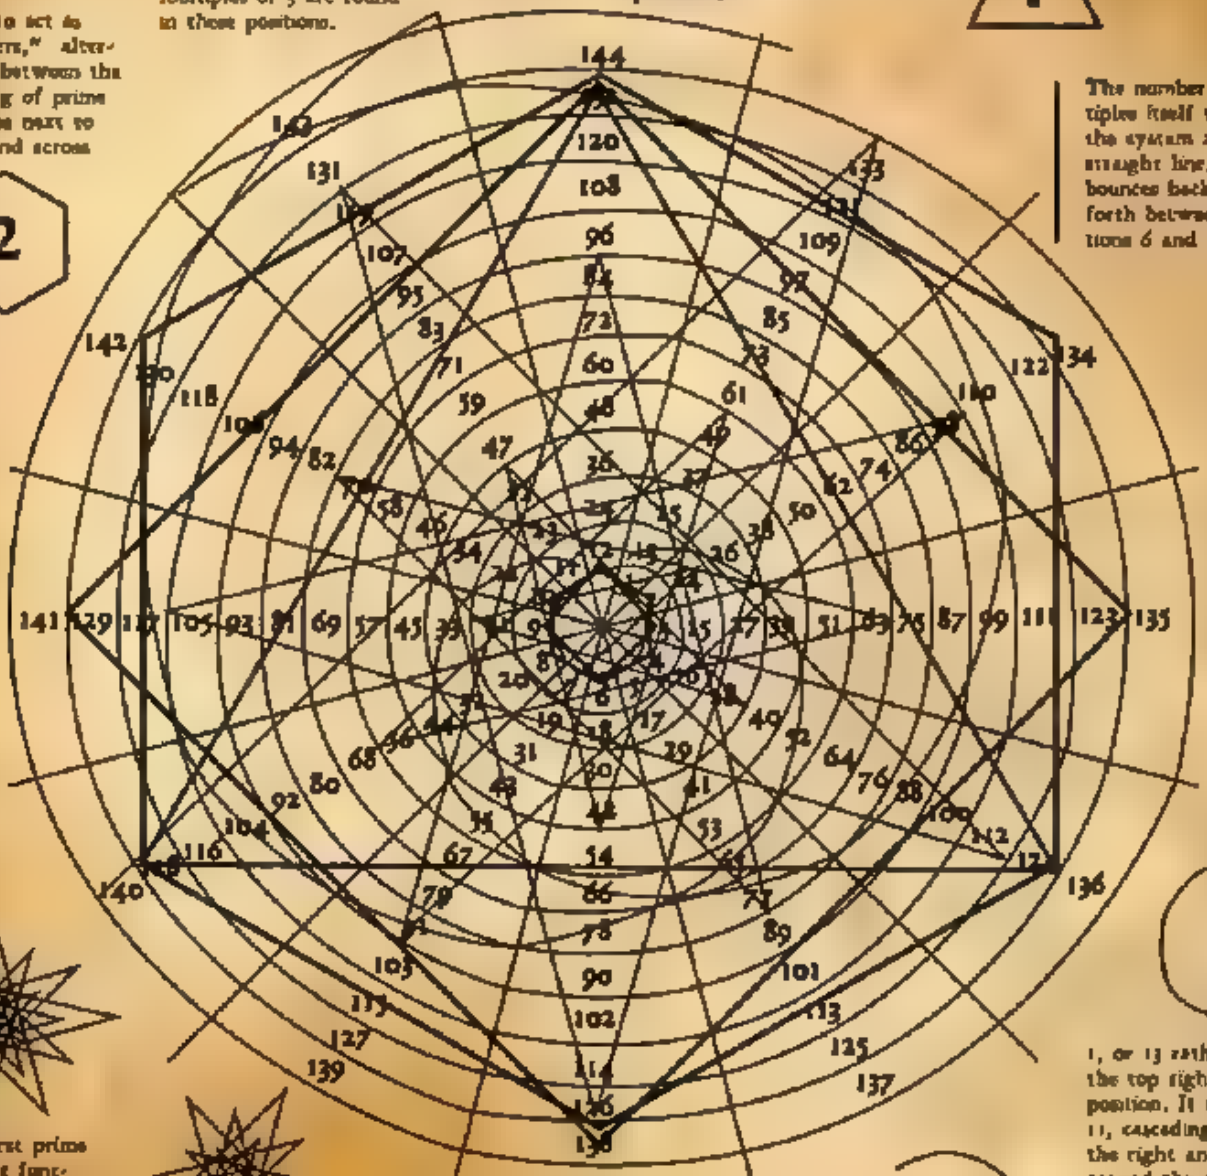
MAP TO MULTIPLICATION



5 is the first prime position. It functions as a star in some respects bouncing back and forth across the system counter clockwise.

7 is the second prime position. It mirrors the path of 5 touching each position exactly opposite criss-crossing 5's path clockwise.

1, or 13 rather, is the top right prime position. It mirrors 11, cascading out to the right and back around the system.

11 is the top left prime position. It cascades out to the left and circles back around the system.

COMPOSITES and PRIMES

as a self organized system

Exceptions to the prime positions occur when primes interact with each other. The first exception (25) to the prime position 1 when 5 multiples by itself, or is squared. The second exception (35) is 5 interacting with 7. All other exceptions are multiples of 5 and 7 or 11 and 13. All squared primes land in position 1. All twin primes (pairs on the sides of 6 or 12 add up to be a multiple of 12.

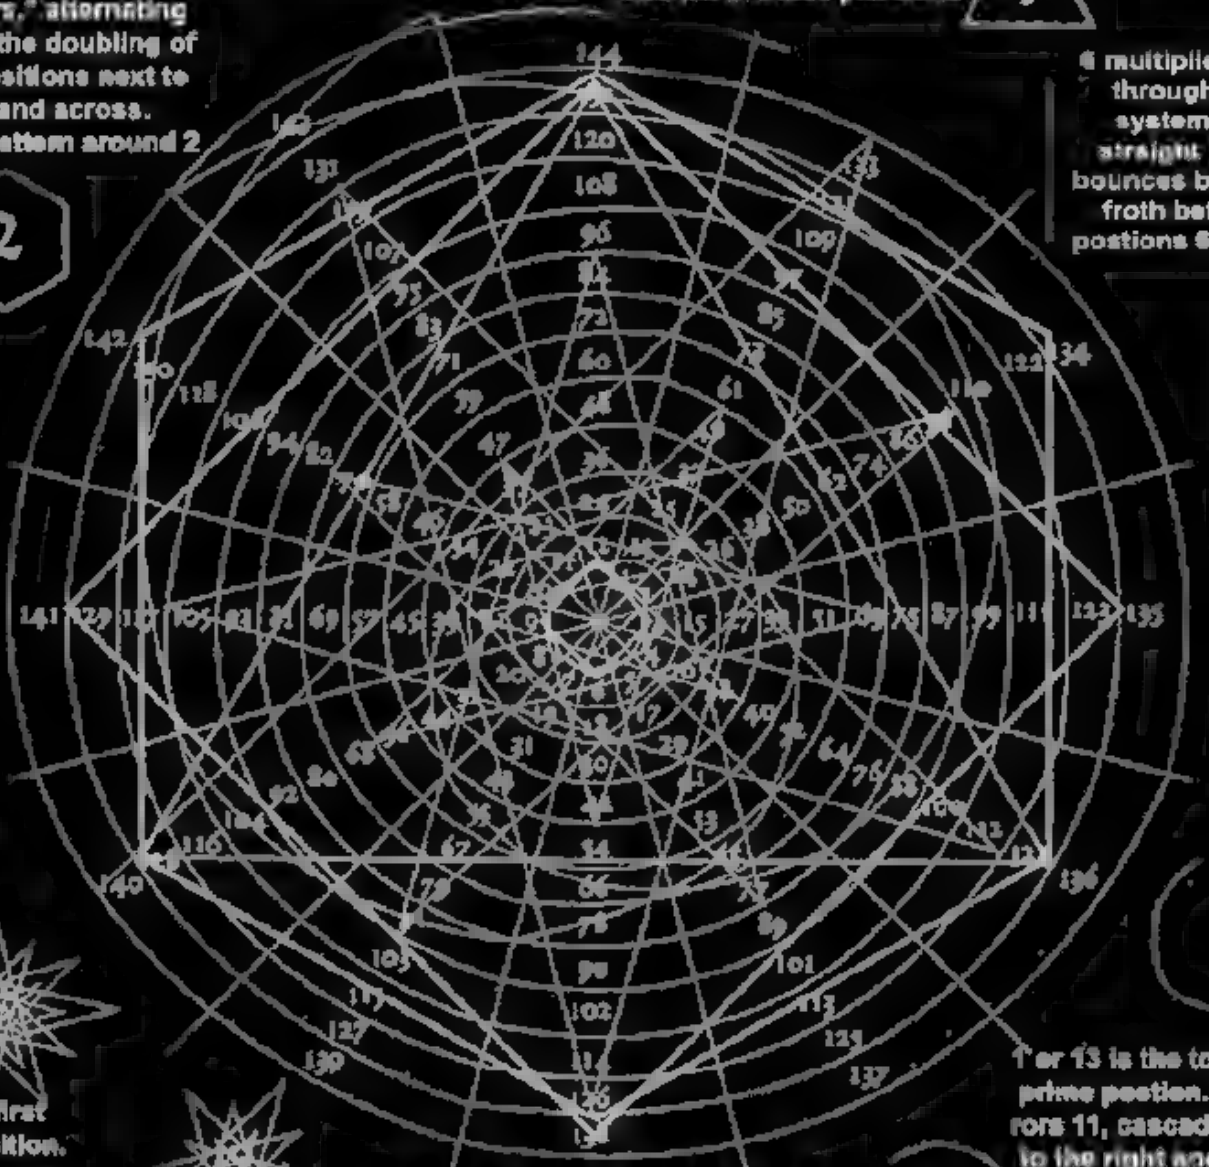
~ Multipication Map ~

3 multiplies itself throught the system as a perfect square. It bounces from position 3, 6,9,to 12. All multiples of 3 are found in these positions.

4 multiplies itself through the system as an Equilateral Triangle. It bounces between positions 4, 8, and 12. All multiples of 4 bounce in these positions

2 and 10 act as "doublers," alternating between the doubling of prime positions next to them and across. See the pattern around 2

6 multiplies itself throught the system as a straight line. It bounces back and froth between postions 6 and 12.



5 is the first prime position. It functions as a star in some respects bouncing back and forth across teh system counter clockwise

7 is the second prime position. It mirrors the path of 5 teaching each position exactly opposite pris-crossing 5's path clockwise.

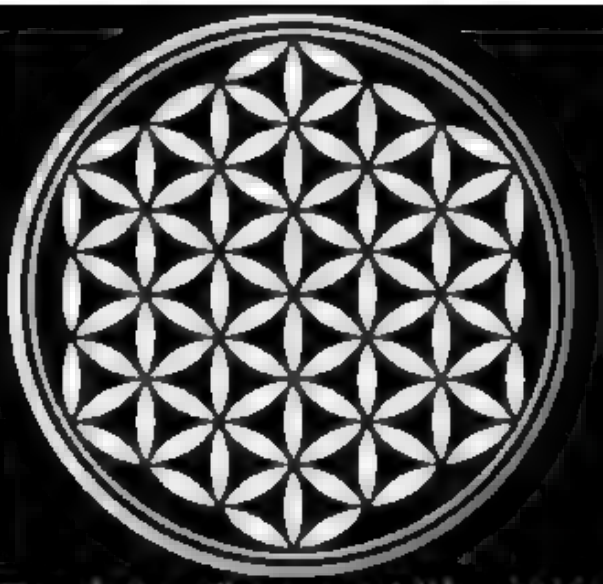
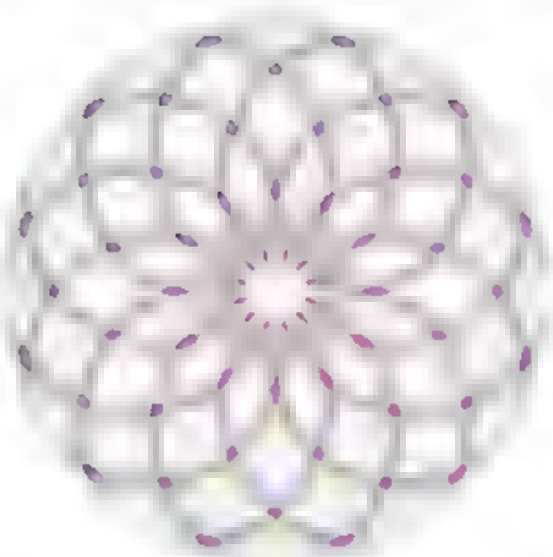
DISPATCHES FROM THE BARNEY GOLF



The false flower of life AKA "Daisy of Death", known as the "Bloom of Doom Metatronic Death Science" technologies. This ancient name was adopted in reference to one of the primary inorganic "energy distortion geometries" used in this "Death Science," the structure of which, in common respects, resembled a "blossom."



The Eternal Life Lotus "Real Flower of Life". Based on 15 Dimensional, Unified Field, Creation Physics. Primal Light Flows (Ke-Ra-Sha) from the Organic Living Cosmos via the center, expanding out from the center, then back into the center, continuously replenishing itself. Your Markaba field use to flow in this way, before the Metatronic distortions occured in our reality.

10 TREE

UNNATURAL

ARTIFICIAL LIFE GRID

Adoption of this artificial life grid means to digress from the original Christos Divine Blueprint of the 12 Tree Grid and manifest Anti-KRYSTIC life forms. When the original creation program of the Krystal Code from God Source is altered or modified in any way, the ability to self-regenerate and ascend is interrupted, leading to Fallen Consciousness and potential destruction and Stardust return to God Source.

ORGANIC

12 TREE

KATHARA GRID

Kathara refers to the Core Structure of the Holographic Universe. Altering the Krystal Code creates limited supply of energy in the Lightbody and the modified coding can not circulate or receive any more energy directly from the eternal God Source. The Metatronic being has to suck energy from other entities, systems and progressively consumes itself, , eventually com to the end of its life cy

THE KRIST CODE
THE ORIGINAL CREATION CODE

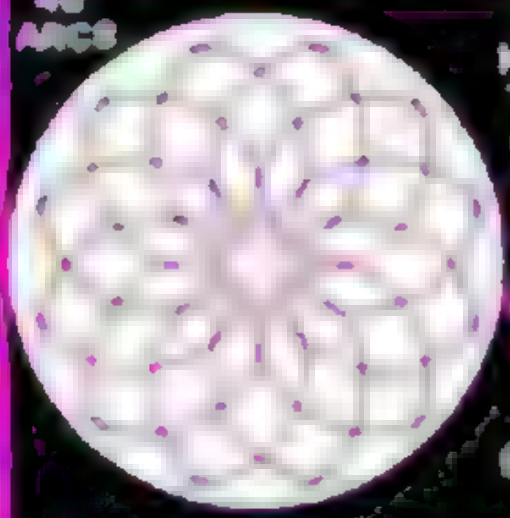
The Krist Code is the Perpetual Motion and Precise Mathematical-Geometrical Instructions for the Creation Program from God Source. The Kathara Lines form the structure framework of the Kathara Grid and exist in precise angular and proportional relationship to each other, according to the ratios of the energy balance SET by the Krist Code. Deviations from the natural Krist Code configuration of "First Creation" create alterations of the energetic balance (inorganic Kathara Grids) causing interruption of the continual self-regeneration (perpetual life) of the manifest forms and the formations of Masms that eventually lead to destruction of the corresponding matter-form via self-annihilation of its own Partiki units.

The original Eternal Nature of God Source itself, and thus that of All Creation, remains always perpetual and constant, due to the mechanisms of Self-healing through Starburst that God-Source intended, imbued and sets in motion, through the directives of the Eternal Life Krist Code: as the foundations for First Creation. Eternal Life emerged from the original encryption set into the first Partiki, called the Krist Code. From this point, Creation emerges and expands and as it does so, the encryption expands and becomes more complex, but is still based on the Krist Code and Base 12 encryption.

45° LOTUS ARCS ALLOWS FOR ETERNAL

THE PERPETUAL LIFE LOTUS
TRUE FLOWER OF LIFE

LIFE BREATHING



The Perpetual Life Lotus is based on the Krystal Spiral or Krist Code mathematics. The Krystal Spiral and the mathematical sequence from which it emerges connect directly from the Zero Point or Central point of all orders. (See Center of Image) The Krystal Spiral perpetually retains a living, breathing connection through the (preservation of what came before), as it expands through each generation. Out of the one comes the many. In the False flower of life (aka Daisy of death) pattern the diagonals are set at 60°.

This is an outdated mathematic and geometrical relationship that prevents the spheres from creating connectivity with the top sphere (which is both like a pyramid), thus preventing back flow return from core source. THE DAISY OF DEATH DOES NOT ALLOW FOR ETERNAL LIFE BREATHING. When spheres can't release and spark correctly, they become cut off from the eternal flows of eternal life currents and become separated. The mathematic code is therefore based on 3 spheres (vesica pisces) instead of the eternal life 3 spheres (infinite pisces/vesica). The Daisy of Death is simply taking the vesica pisces and crisscrossing on it. Once you can spot this 60 degree diagonal vs the 45 degree in Krystalic eternal life curvatures, you can easily differentiate between Krystalic and metatronic reality. Most crop circles are based on this Metatronic geometry of 60° and is a soul harvesting net which forces people's identities to open in ways that (long term) prevents ascension.

Guardian Perspective of the Central Nervous System

- The Planetary Architecture is the Macrocosm Global Magnetic Brain for all of the inhabitants of earth and the Gridlines are its Central Nervous System (messaging through instruction sets) This is the Collective Consciousness
- CNS has been hijacked and damaged through DNA manipulation, planetary logos invasion, perpetration of harmful artificial technologies to enslavement, via electro-magnetic field manipulation (i.e. frequency fences, etc)
- Artificial Technology is siphoning, re-directing forces, reversing energetic currents, using harmful frequencies that impact the bio-energetic field of a human being, nature and the earth
- These factors have damaged natural energy receivers of the planet (grid) and within all inhabitants of earth. "Gridwork" is to repair the planetary brain and its CNS
- This Neurological damage repels the higher frequency Spiritual-energetic bodies from its organic ascension process, repelled from its ability to physically embody
- This Neurological Damage creates schisms in the brain function, and brain diseases as well as other diseases accelerate into deterioration (manic, bi-polar, schizoid are all soul fragmentation) The GEG is one such problem of extreme Bi-Polar Damage
- The CNS can be healed through spiritual energetic causal pathways, which is what we are learning to accomplish with the HGS system

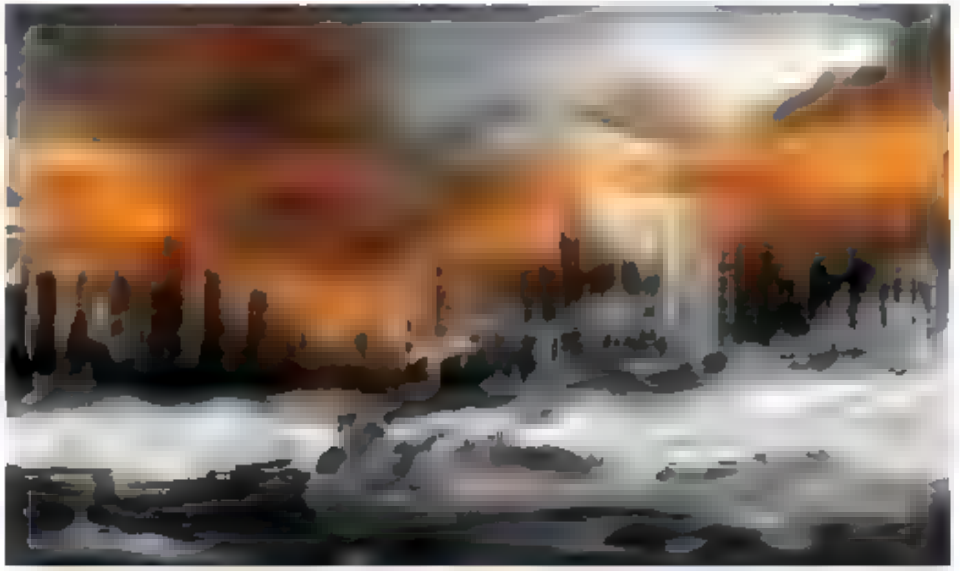
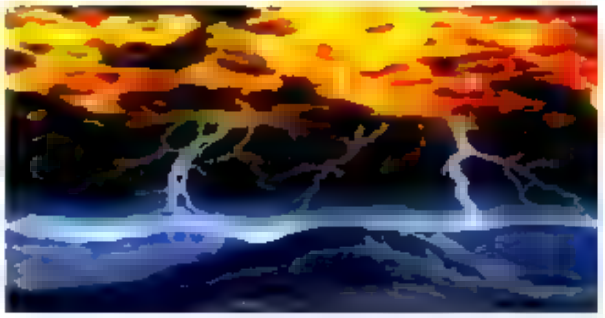
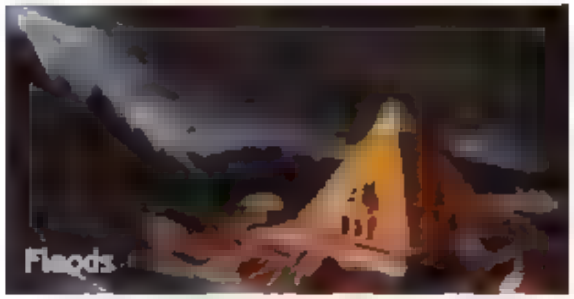
- Holographic Inserts of Alien Technology to project Mind Control Archetypes and self enforced enslavement
- Using the Church of Rome and False Father God Religion to perpetrate the greatest spiritual abuse of human beings
- Mind Control brainwashing through Religious Fear, Persecution based upon Cataclysm, Terrorism and Pestilence wielded by Reptilians to torment humanity
- Armageddon is a Reptilian Software to torment humans from their cellular memories of Atlantis and Lemuria that were erased in conscious mind

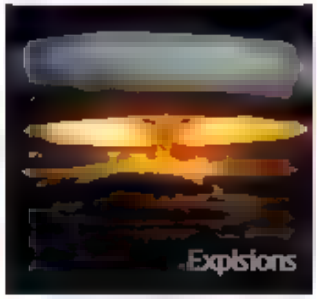




SECOND CATACLYSM ATLANTIS

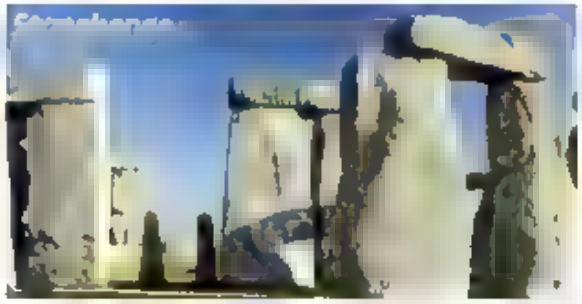
- Annunaki Resistance and Patriarchal Melchizedek decide to take over Inner Earth starts campaign in 30,000 years ago
- Sirians warned them and continued to force massive power generators into the earth
- Several generators exploded and ripped apart the surface continents, more powerful than the previous, killing many again
- Earth tilted on its axis damaging all portals and Stargates
- All the Pyramids and technology disconnected
- Flooding and cataclysm destroyed the colonies





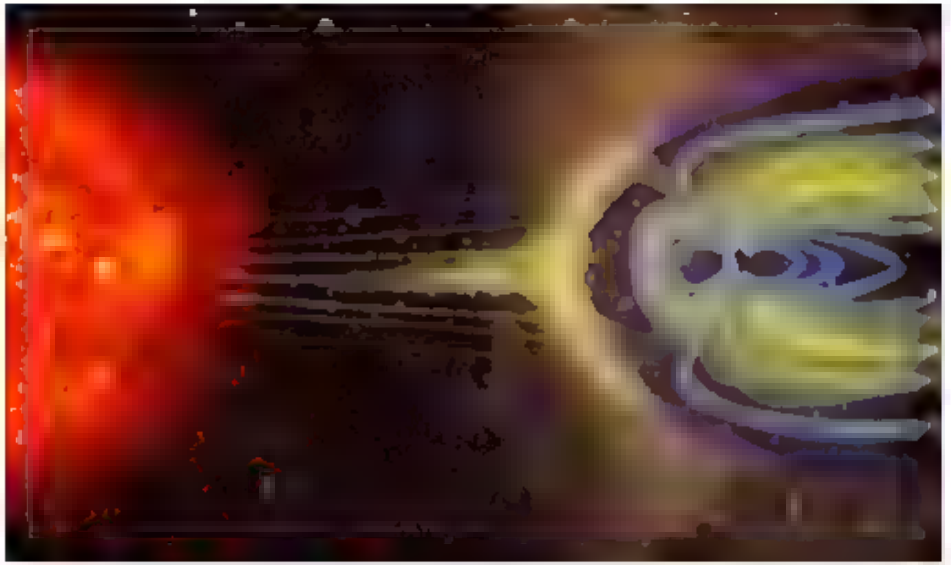
STARGATE PORTAL TAKEOVER

- 25,000 years ago Niburian line of Annunaki takeover the Egypt Solar Stargate 4D, Astral plane FAM and Stonehenge 11D in UK. Install Nets.
- They continue a genocide campaign to infiltrate Human culture. Atlantian colony moved to the Bermuda continue agenda Earth dominion – rapidly digress
- Annunaki stage takeover of ET technology in Egypt portals and plan to capture humans in recycling program, the Astral worker race



CRUCIFIXION IMPLANTS

- Invade Planetary Brain in the Magnetosphere to implant Holographic Technology to project on Left side female blockages 7D to prevent humans from Ascension, MultiD Perception (recycle)
- Crucifixion is represented in the Pictures and Idols of Jesus on the Cross
- This image is used to crucify humanity and keep the implants in place
- Crown of Thorns, Impaled in Hands and feet, Spleen Implant to stop changes to blood chemistry
- Spleen implant stops ability to transcend karmic record in blood and allows superimposed loads to be put on humanity from Aliens
- Karmic loads is a type of miasma and dead energy that is generated as a waste product from inorganic technology pollution on Earth energetic fields
- Miasma increases molecular compaction in matter and is why we have a carbon atom 666



DNA UNPLUGGED - MEMORY ERASED

- DNA damage began 5500 years ago when Babylon-Sumer Invasion
- Erased DNA RACE Memory at Stonehenge except for chosen ones (reptilians)
- Distorted Holographic Tree of Life took out 8D and 12D
- Blocked life force and kundalini natural flow, glands, pineal, pituitary, hypothalamus, thyroid
- Shorten life span and damage immunity, set up for recycling to Astral 4D
- Scrambled geometric codes and morph fields, blocked multidimensional perception
- Rewrote Human History from 5500 years at time of Invasion
- Patriarchal Domination and enslavement agenda for Earth humans

"Floating Buddhas" Elemental Command Cloister Sliders Teams

Each "Personal Cloister" Team is composed of 1 member of each of the following 6 Kryst-Guardian Races. The members of your "Sliders Cloister" (called your ***"Sha-DA' Cloister"***) have accepted service positions to be "on call" to assist you, whenever you telepathically request their presence. they will also "remain with you at all times in-orb" if you request that they do so.

When you request their presence, they will enter **Slide-1 Bi-location Projection** from their primary biological focus of residence, and ***"Orb"*** into the frequency bands of your primary biological focus of residence, to enter a state of ***"Live Conscious Communion"*** with you (either individually or together as the "6-point Sha-DA' Cloister Team", whatever you request). The more you work with your *Sha-DA' Cloister*, the clearer and stronger your communications and contact will become, *they can hear and see you whenever you call them*, but it may take some time for you to expand your own biological "inner sense" to hear, see or feel their presence and communication. Ask them to assist you with expediting your sensory sensitivity to their frequencies and they will work on multiple levels to do so.

At times, for various types of interaction, they will **"de-Orb"** in your reality field to reveal their materialized form, within the "quantum, size & matter-density" appropriate to your reality field. One day, through *Slide-2 Translocation Projection*, you may meet and visit them in their own reality fields of (Milky Way Galaxy) Median-Earth & Ashala-3, (AquAelle M31 Adjugate-Spirit Eiradonis Galaxy) – Shala-3 or (M31-Aquinos Andromeda Galaxy) – Urtha-3.

Calling Your Cloister for Informal Communication

Preparation: 3 "Krystar Breaths" (Inhale command "Rasha-Eira-Krystar-NOW", Exhale out Krystar Vehicle)

A. To request the presence of, and informal communications with, all of your "Cloister's members", when working alone, simply telepathically use the ***"Elemental Orb Call" Command*** below, repeated **3 times**

B. To request the presence of ***a specific individual*** member or members, use the **"Elemental Calling Tone"** pertaining to the member's race group (from *"Floating Buddhas" Chart*) putting the *"Elemental Calling Tone or Tones"* as the **prefix** before the *"Elemental Orb Call" and repeat "Prefixed Elemental Orb Call" Command* 3 times.

"Elemental Orb Call" Command

Ah-ShA'-ah NE'Ra- O'cha- Sa!! repeat 3xs

Calling Your Sha-DA' Cloister for Formal "Sha-DA' Buddha Shield" Elemental Command

Like the *"Sha-Dra' Projection Shield"* used in Elemental Command Group work, the ***"Sha-DA' Buddha Shield"*** is also a mathematical geomantic shield platform that is used to amplify the protection, power and range of Krystic inter-dimensional and elemental frequencies available for use within "intentioned endeavors" in healing, projecting, meditating, manifesting and Grid Work. Unlike the Group Sha-dra Shield, the Sha-DA Buddha Shield (also called the ***"Floating Buddhas Rite"),*** can be achieved *individually*, once you have anchored your 6-member *Sha-DA' Cloister* through your *1st "Floating Buddhas Rite"* To activate your Sha-DA' Buddha Shield first do 3 "Krystar Breaths", next repeat the "Elemental Orb Call" Command above 3 times, then use the procedure of the ***"Floating Buddhas Rite"*** on the following pages.

The *Staah-LEi'-yas* of Translocation Technique

Activating your Jha-DhA Body for Aurora Continuum entry:

The *Staah-LEi'-yas* are specialized Ah-VE'-yas-Elemental ***Transcendental Gate-Co-ordinate Codes*** used for access to the ***Aurora Continuum*** for Biological "Slide-2 Translocation" "Space-Time Travel"

1. Call in Your Cloister (6-Buddhas) from **FOL'09 Technique**, using the ***"Calling Your Cloister For Informal Communication"*** Section, with "**Elemental Orb Call" Command**". **Ah-ShA'ah NERa- O'cha Sal (x3)**

2. Next Call in the ***Ah-JhU-na' E-dO'-nI Ma-Sha-Ya*** (the "Gifting Wizards") Adashi Elemental Command Councils from the Amenti Middle Earth Central Actuality Domain, using the "EDONIC CALL" Command, to open the Aurora Continuum for Jha-DhA' Body activation

3. Now, place your palms one on top of each of the 2 Staah-LE'-Yas Codes, inhale the Codes up the arm cords, into the AzurA, then pull them down into the Kara-nA'dis Sea (near base of breast bone) at the top of the Inhale, and hold a moment as the two codes merge in the Kara-nA dis releasing an Ah-VE-Yas Spark. Exhale slowly, and notice as you exhale that a New Code, called a Sa-A'-Da (Ah-VE'-yas compound encryption code) emerges in 3 places on your body. One copy of the Sa-A'Da emerges as a sphere in each palm, and the third emerges from your Kara-nA dis Sea, and expands to surround your entire body. Breathe gently. This begins activation of the **Transcendental Jha-DhA' Body**. When your light quotient has reached **80% Sha-LA-a** the large "Jha-DhA' Body "**Sa-A-Da ORB**" around you will enable you to "**Slide-2**" Translocate into the **Aurora Continuum** for Space-Time travel. Before this, your Sa-A-Da Orb will allow you to **Slide-1** Bi-location into the Transcendental Aurora Continuum for passage into the "**Seat of Edon**" (*Cockpit of Co-creation") within the in **Amenti Middle Earth Actuality Dominion**. Continue breathing for several minutes, while consciously using each breath to amplify the "Living Water" Hydrolase currents flowing out of your Kara-nA dis into the 3 Sa-A-Da Orbs.

4. To utilize the "Powers of the Staah-LEi'-yas Sa-A-Da to improve conscious direct materialization abilities **once you have completed the steps above**, first use the "**IAMIT Formula**" to create an **A'-Ras** "Symbol Encryption", **Sa'Ras** "Tonal Encryption" and **Dha Ras** "Movement Encryption" to use with "step-5" below

5. Place your A-Ras on a paper in front of you, send a burst of "Living Water" from your AzurA down to your palms, "Spark the Sa-A-Da Orbs" there, then "Cup" your palms over the "A-Ras' Symbol and quietly repeat the Sa'Ras "tonal encryption" as a gentle rhythmic chant, while using the Dha-Ras movement as you "meditatively create your desired materialization" as a new "Encryption for materialization" within your Ah-VE'-yas Vibrational "Water Body". Periodically use the A-Ras, Sa-Ras and Dha-ras as brief "moments of focus" to energize and expedite materialization of your creation. With practice, you will find "things materializing your way" much more often as God Source, the Universe and the Elemental Command Ah-JhU-na joyfully co-create with you.

The IAMIT Formula

Enhancing Materialization

1. **"I"- *Identify*** your desired material zation use journaling and "oppositional analysis" (sting what you know you don't want first then making a "counter-list" describing for each "Don t" what you "Do" desire to experience

2. **"A"- Align** ...w Your chosen desire with the desired Mass Probability via Staah-Lei'yas "Space-T me co-ordinate codes, by using the **The *Staah-Lei-'yas* of Translocation Technique.**

3. **"M"- *Magnetize*** Create an **A'-Ras "Symbol *Encryption*"** a **Sa'Ras *"Tonal Encryption"*** and a **Dha-Ras "Movement Encryption"** specifically for the desire you are materializing, to create a **Sa-A'-Da *Compound Encryption*** to seed within your Ah-VE-Yas V brational Water Body via step-4 above.

4. **"I"- "Intensify**-- Building-up the quantum thrust of the activated Sa-A'-da Encryption by consistently energ zing the Sa-A -da through repetitive use of its Sa-Ra, A-Ra & Dha-Ra Encoding Create emotional thrust by spend ng a b t of time "visualizing and putting your there with you desire materialized. FEEL the joy, freedom, re ease of having your desired thing with you right now

5. **"T" - "Trust-** Offer **"Absolute Trust *in* the Eternal *Design"* & "Absolute *ALLOWANCE in* the Beauty, Safety & Innocence of the Eternal Design's *DIVINE UN-FOLD-MENT"*** in regard to the Divine Right Order & Timing for the materialization of your Sa-A'-da (regardless of the appearance of the Materialized Illusion/Hologram.) **"trust/allow/release"**

With the "I-AM-IT" Formu a, YOU BECOME your desired materialization, by literally creating it n your hologram with your own energetic consciousness power.

Aurora Continuum Time-Travel Technique-1: *Entering the Aurora Continuum*

(Formalized Post-Workshop Version; text copy is provided for home use)

PART A. ***Ah-VE'-yas Breathing:*** "PART-A 12-Step Long-Run" version *Clearing the CaL-Sheath and Progressively Restoring Atomic Integrity, to Maintain and Increase the personal Sha-LA-a Living Light Quotient* (After the initial completion of the "12-Step Long-Run" version of this Technique-1 PART-A, if the "3-Step Short-Run" Version of PART-A-*Steps 10-11-12 only* is used **at least once daily,** this technique progressively transmutes Round-1/Probability-4 Shona-Finite-Light-Atoms into Round-3/Probability-6 Sha-LA'-a-Living-Light-Atoms, through consistently re-connecting the atomic body to the *Ah-VE -yas Vibratory Water-gel Body* of the Aurora Continuum.)

Preparation: Complete 3 "quick rounds" of the **"Krystar Breath"** (Inhale-while mentally commanding "*Rasha-Eira-Krystar*"; hold at top of inhale Then Exhale- while mentally commanding "*NOW*", using exhale breath to push your Krystar Vehicle outward around your physical body.)

1. Call to mind the image of a **Sha-LA-a Light Unit** with its *tri-veca-3-interlocked-spheres* configuration and its small central "*atom*" focus your attention upon the "**top sphere**", the *Ah-VE'-yas Aqua-gel sphere*.

2. Next imagine or visualize the **billions of materialized atoms** that make up your physical body and the "invisible" dimensional atomic layers that make up the layers of your Bio-energetic Field, Light Body ElumEir-adhonna Spirit Body and Aah-JhA Hydro-acoustic Body Now turn your attention to the **billions of Sha-LA-a Light Units** one surrounding each materialized atom, that are implied by the existence of each materialized atom Focus your attention upon the **billions of Ah-VE'-yas Aqua-gel "top spheres"** of the Sha-LA-ea units **each materialized atom is accompanied by a singular Ah-VE'-yas "top sphere"** within the Aurora Continuum, between the *Outer and Middle-Domain Light-Bodies* of the *KaiE Hara Body*

3. Imagine or visualize that you have a **"2nd Body and Bio-field"**, that looks just like your materialized atomic body and Bio-field but is made up of billions of ***Pale-Aqua-Blue Aqua-gel Ah-VE-yas units,*** this is your **" *Endoplasmic Vibratory Ah-VE-yas Body*"** or "*Vibratory Water-gel Body*" Your *Ah-VE-yas Body* exists within the ***Aurora Continuum,*** between the materialized atomic planes of the outer *Probability Dominions* and the core atomic planes of the central *Actuality Dominions.* Move your awareness into your atoms, then sense the ***"spaces between your atoms"*** continue moving your awareness into, through and behind the "spaces between your atoms" to get a **FEELING** of the presence of your ***"Ah-VE'-yas Vibratory Water-gel Body".***

4. Breathe gently and notice that there is a **"dim orange-brown glow"** of inorganic **"Gharoche' energy sludge"** surrounding each of your physical atoms. this inorganic sludge creates a **"Veil Membrane"**, called the **"*CaL Sheath*"**, which is an ***electro-magnetic harness*** (made of inorganic *calorenes*), between your materialized atoms and your Ah-VE'-yas Aqua-gel Body The *CaL Sheath* causes the organic *Tri-Veca* structure of *Shar-LA-a Light Units* to mutate into the polarized *Bi-Veca* structure of *Sho-na Dead-Light Units*, which in turn distorts the structure and polarity of materialized atoms. The mutated atoms of the atomic body and their corresponding Sho-na Light Units can engage **regenesis and heal** to become living Light Sha-LA-a structures, through **reconnection of the atomic body and the organic *Ah-VE'-yas Vibratory Water-gel Body*** within the Aurora Continuum.

Copyright Asha-yana & A'zah-yana Deane, 2009. All Rights Reserved

5. To begin reconnection of your atomic body and your *Ah-VE -yas Vibratory Water-gel Body* **Inhale** into the AzurA (Thymus Gland area) then at the **top of the inhale** draw the breath *from the AzurA down* to the **Kara-nA'dis Seal** (near the bottom of your breast bone), **hold** breath momentarily at the *Kara-nA dis Seal*

6. Next **Exhale slowly and deeply** from the *AzurA* using the *Exhale* to **push a "Flood Wave"** of ***Pale-Aqua-Living-Water-Hydrolase*** from the "*Water-Seed*" in your AzurA **outward through all of the cells and atoms of your atomic body**. Take several AzurA " nhale-Exhale-Breaths", using each Exhale to **saturate** the "Orange-brown Gharoche' sludge **Cal-Sheath**" around your atoms with *Pale-Aqua-Living-Water-Hydrolase*

7. Call to mind the **two *Staah-LEI'-yah* Translocation Codes** (introduced in the April 2009 Sarasota WS Supplement), the Round-1/Probability-4 ***"E-mah'-RA*** ("Elephant") **Code**" and the Round-3/Probability-6 "***ShU' Yhan*** ("Flaming Rose") **Code.** Take a **final inhale, hold** at the AzurA, and visualize or intend the image of the ***2 Staah-LEI'-yah Codes*** as strongly as possible **positioned in your AzurA**.

8. **Exhale firmly** from the AzurA, using the Exhale to ***push billions of copies of the 2 Staah-LEI'-yah Codes*** riding on a *Pale-Aqua-Living-Water-Hydrolase Flood-Wave* outward through all of the cells and atoms of your atomic body and into the "CaL-Sheath sludge" surrounding your atoms.

9. Breathe gently in a relaxed manner, and observe a **mild "fizzing sensation"** (like "Alka-Seltzer" tablets in water) occurring **around your atoms**, as the *2 Staah-LEI'-yah Codes* progressively **dissolve** the inorganic "**CaL-Sheath** Gharoche' Membrane" atomic harness. After a period of this atomic "fizzing sensation", become aware of a new sensation that your **atoms have suddenly "loosened tension and relaxed"**, allowing for the "***spaces between the atoms***" to become **larger and more detectable.**

10. **Inhale slowly and deeply,** and **FEEL** the **inhale breath** enter into all of the "**spaces between your atoms**"; feel the breath pass between the atoms as a **warm, soothing "Back-Flow" Wave of Invisible Air.** ***Hold*** at the top of the inhale and sense the *billions of Ah-VE-yas "top spheres"* of your *Ah-VE'-yas Vibratory Water-gel Body* in the Aurora Continuum **absorb** this warm, soothing "Back-Flow" Wave of Invisible Air

11. **Exhale slowly,** and **FEEL** the *Ah-VE'-yas Vibratory Water-gel Body* begin to **gently vibrate**, as it releases a **"Back-Flow-Return" Wave** of **warm, soothing, *Aqua* Air**, back outward and **into the electron-rings** surrounding the nucleus of **each atom** in your atomic body

12. Take **several more** "*Inhale-Back-Flow/Exhale-Back-Flow-Return* "***Ah-VE'-yas Body Breathing Rounds***", while sensing this "**air-flow" circulating steadily "back and forth**" through the "**spaces-between-your-atoms,** and **FEELING** the "warm, soothing "***Aqua-Air***" of the "Back-Flow-Return, **progressively building and amplifying within the electron-rings of all of your atoms.**

Once you have completed all Steps in PART-A once, you may engage "***Ah-VE'-yas Breathing***" at any time simply by using **PART-A Steps 10-12**, (***PART-A "3-Step Short-Run" Version***) to amplify the Ah-VE -yas Circulation. *Ah-VE'-yas Breathing* can assist to ease fatigue, calm emotions, re-charge energy-levels, harmonize the "Mind-Body-Spirit" system and to facilitate healing and/or manifesting/ materializing objectives. It is also a ***pre-requisite*** to engaging **PART-B *The 33-Day Staah-LEI'-yas Bio-filter Shift & Edonic Awakening.***

PART B. *The 33-Day Staah-LEi'-yas Bio-filter Shift & Edonic Awakening (Engaging the Jha-DA' Body: Slide-1 Bi-location into the Aurora Continuum). Entering the Trans-Time Transcendental Planes of the Aurora Continuum, Perceiving from the Transcendental Jha-DA' State.*

When used, following PART-A, **each night before sleep** for a **period of 33 consecutive nights** ("Short- Run" Version for nights 2-33) this ***Technique-1 PART-B*** will progressively assist to activate within the DNA/RNA/EGO, and to open within the neuro-network structure the ***Round-3/Probability-6 Aurora Continuum Biological Frequency Platforms*** corresponding to the *Aurora Continuum*

Activating and opening the *Round-3/Probability-6 Aurora Continuum Biological Frequency Platforms* creates a **"Bio-filter Shift"** out of the ***Round-1/Probability-4* NET Earth Field,** progressively *Transmuting* the ***Probability-4* Bio-Net Control Filters** (D-1-DNA/RNA Template, D-2-DNA/RNA & D-3 Epi-genetic Overlay/EGO), which keep the embodied consciousness *chemically phase-locked* into *NET-Earth Probability-4* perceptual fields. As the *Probability-4 Bio-Net Control Filters* are progressively disengaged from the *Ah-VE' yas Vibratory Water-gel Body* and corresponding atomic body, the *NET-Earth Probability-6* and *Aurora Continuum Biological Frequency Platforms*, and their inherent *Middle-Earth Actuality Dominion* ***Edonic Code***, are activated in synchronization creating an **"unbroken linear perceptual passage"** through the *Probability-4* to *Probability-6* ***Time-Shift-Leap.*** As the *Probability-6 Aurora Continuum Biological Frequency Platforms* progressively activate and "replace" the *Probability-4 Bio-Net Control Filters* as the ***active encryption*** for materialization, the NET-Earth-Probability-4 *bio-chemical perceptual-phase-lock* progressively **"unlocks"** allowing the reality fields of the *NET-Earth-Probability-6* AND the *Transcendental Planes of the Aurora Continuum and Middle-Earth* to progressively enter the bio-chemical systems and **"perceptual range"** of the embodied consciousness, thus progressively enabling one to become more consciously aware of personal, group and mass activities taking place within the Round-3/Probability-6 *Transcendental Planes* of the *Aurora Continuum and Middle-Earth Actuality Dominion.*

Once the **"33-Consecutive-Nights"** of the ***"Probability Co-ordinate Alignment Phase"*** have been accomplished, the activated Aurora Continuum Biological Frequency Platforms can be ***sustained and progressively enhanced thereafter*** through use of the **"7-Step Short-Run" Version 3 times per week prior to sleep, AND** use of this **"Long-Run" Version** (*technique-1-PARTS A &-B*) prior to sleep **once every 33 days. Eventually, *with consistent practice,*** (time period will be different for each individual), the newly developing neuro-networks associated with the *Aurora Continuum Biological Frequency Platforms* **will enter physical materialization and remain open,** allowing *Jha-DA' Body projection* into the *Aurora Continuum* (and "elsewhere"), to occur ***instantaneously,* with simple *"thought-intention"*, an *Ah-VE'-yas Breath Inhale*** into the "spaces between your atoms" to lock onto your Jha-DA' Body and an ***Ah-VE'-yas Breath Exhale"*** to expand your Jha-DA Body out into the Aurora Continuum (or wherever you desire.)

Note: The Round-3/Probability-6 *Transcendental Planes* of the *Aurora Continuum* are being utilized by the Krystics of the Krystal River Host as the ***"Primary Meeting Planes"*** for interaction with Krystic races and your personal *"Slide-Team"*. At first these Aurora Continuum Planes will be used to develop and enhance skills in ***Slide-1 Jha-DA' Body Bi-location,*** through which personal *direct-cognition communication* and *projection skills* can be progressively enhanced through personal *dream-state* and *conscious-projection interaction* with your "Slide-Team" members. In the future, once further communication/projection skills and *Bio-atomic Capacities* have been developed, the Round-3/Probability-6 *Aurora Continuum Transcendental Planes* will be the Space-Time Co-ordinates used for ***Slide-2 Translocation***, first into the **"Middle Earth"** Edonic Actuality Dominion (and the inter-dimensional Association of Free Worlds' "Seat of Edon" ***"City of the Crystal Temples"***, Solomon's Shield/ Ah-VE'-yas Watchtower *"Cathedral City & Regenesis/Educational Complex"* located there), and later to the Outer Domain **Median-Ascension-Earth**.

PART B. ***The 33-Day Staah-LEi'-yas Bio-filter Shift & Edonic Awakening (Engaging the Jha-DA' Body; Slide-1 Bi-location into the Aurora Continuum):*** PART-B 23-Step Long-Run Version

Activating Your "*Oscillatory Thermo-gel Vapor-Light Ah-VA -yas Body* "

1. Complete PART-A, Steps 1-12

2. Immediately after completing PART-A Step 12 take **3 more** "*Inhale-Back-Flow/Exhale-Back-Flow-Return* "***Ah-VE'-yas Body Breathing Rounds"***, then **HOLD momentarily** at the **"bottom of the Exhale"**, with lungs completely empty

3. Now **Inhale rapidly and firmly**, completely filling lungs with air, and **Hold** momentarily at the "top of the inhale" **Exhale slowly** and **Hold** momentarily at the "bottom of the Exhale"

4. **Next, inhale quickly, then exhale quickly**, and take **several more *"Inhale-Hold/Exhale-Hold"* "*Quickened*" Ah-VE'-yas Breathing Rounds** at a **more rapid pace**, while sensing the corresponding **"Quickening" of the Ah-VE'-yas Circulation** "air-flow", as it circulates **more rapidly "back and forth"** through the **"spaces-between-your-atoms** rapidly and progressively **building and amplifying** the "warm, soothing ***Aqua-Air"*** of the "Back-Flow-Return" **within the electron-rings of all of your atoms.**

5. **FEEL** for a sense of **"building HEAT"** rising up within your atoms, as you continue the "*Quickened"* Ah-VE'-yas Breathing Rounds When you Feel or Sense this "building Atomic Heat", then take a **final slow Inhale** and **momentarily Hold** at the "top of the Inhale", then **Exhale slowly & deeply**

6. Now, breathe several "***Slow, Short and Shallow"* inhale/exhale breaths** while calling to mind the image of the Tri-Veca **Sha-LA-a Light Unit** , focus your attention upon the "**two bottom spheres**" the ***Ah-VA'-yas Electro-Thermo-gel spheres.*** Now turn your attention to the **billions of Sha-LA-a Light Units**, one surrounding each materialized atom, that are implied by the existence of each materialized atom Focus your attention upon the **billions of Ah-VA'-yas Electro-Thermo-gel "bottom spheres"** of the Sha-LA-a units. **each materialized atom is accompanied by a "Phase-Set" of 2 Ah-VA'-yas "bottom spheres"** within the **Middle-Domain-Light-Body ManA Field** of the *KaiE Hara Body* Each Electro-Thermo-gel "bottom-sphere" "*Ah-VA' yas Phase-Set*" of the *Middle-Domain-Light-Body* is connected to a singular *Ah-VE -yas* Aqua-gel "top sphere" within the Aurora Continuum.

7. As you continue Rounds of "*Slow, Short and Shallow" inhale/exhale breaths*, imagine or visualize that you have a **"3rd Body and Bio-field"**, that looks just like your materialized atomic body and Bio-field, and your *Ah-VE -yas Vibratory Water-gel Body*, but this "*3rd Body*" is made up of billions of ***Pale-Blue and Pale-Violet Electro-Thermo-gel Ah-VA'-yas unit Phase-Sets,*** this is your " ***Ecto-plasmic Oscillatory Ah-VA'-yas Body*"** or **"*Oscillatory Thermo-gel Vapor-Light Body*"** Your *Ah-VA' yas Body* exists within the *Middle-Domain-Light-Body ManA Field* of the *KaiE Hara Body* Again, **FEEL** for the presence of your *Endo-plasmic* ***Ah-VE'-yas Vibratory Water-gel Body*** in the *Aurora Continuum*, **then sense the presence** of your *Ecto-plasmic* ***Ah-VA'-yas Oscillatory Thermo-gel Vapor-Light Body"*** as a **thin, Electrified Blue-Violet Vapor** that **"hangs" between your atomic body and your *Ah-VE'-yas Vibratory Water-gel Body***

"Engaging the Jha-DA' Body" for *Slide-1 Bi-location* into the *Aurora Continuum*

8. Once you sense the presence of your *Ah-VA'-yas Oscillatory Thermo-gel Vapor-Light Body* take a **slow, deep Inhale** breath into the *AzurA*, while visualizing or imagining that each of the billions of *Ah-VA'-yas Body "bottom sphere" "Phase-Sets"* **ALL simultaneously "Phase Closed"** as you Inhale **Hold** at the "top of the Inhale" as the Ah-VA-yas Phase-Sets **"Spark", then** sense the **"energy rush"** as a **"Back-Flow-Return-Wave" of Electric-Blue Sparks** releases into the **nucleus** of each of your atoms from the *Ah-VA-yas Oscillatory Thermo-gel Vapor-Light Body*

9. **Exhale slowly and deeply**, and **FEEL** a sensation of **"becoming slightly less dense"** as the atoms of your body that are currently capable ***Transmute*** into Mana-Light. **Inhale gently** and sense that your transmuted Mana-Light atoms suddenly **"Flash-Off, dematerialize, and enter "Hyper-Space"** forming a **Back-Flow Spark-Wave** as their quantum **"pulls gently inward and upward", through the "spaces between the atoms"** and **into the Ah-VE'-yas Body** in the *Aurora Continuum* **Hold** at the "top of the Inhale" as the *Atomic Back-Flow Spark-Wave* completes delivery of the atomic quantum into the *Ah-VE'-yas body*

10. **Exhale** gently, then breathe **several Rounds** of slow deep "*Inhale-Hold-Exhale-Hold*" ***Transmutation Breaths***, each Round creating release of another *Back-Flow Transmuted-Atom Spark-Wave* into the *Ah-VE'-yas Vibratory Water-gel Body* in the Aurora Continuum. As the transmuted atomic quantum enters the *Endo-plasmic Ah-VE'-yas Body*, it draws with it the corresponding aspects of the *Ecto-plasmic Ah-VA'-yas Body*. When Ah-VE-yas-Endo-plasma, Ah-VA-yas-Ecto-plasma and atomic-plasma merge in the Aurora Continuum, the atomic and Sha-LA-a Light unit structure ***Transfigures*** into **Photo-plasma**, forming a **" Photo-plasmic Atomic Replica" of Living-Light-Aqua-gel"** within the Aurora Continuum. This is your **"*Photo-plasmic Jha-DA' Body*"**, your **Transcendental "Atomic Vehicle of Travel"** within the Aurora Continuum

Slide-1-Bi-Location The "Peel-Out"

11. Breathe gently, in a relaxed manner, and focus your attention within your physical-atomic body, becoming **aware of the feeling of its cells and atoms from the "inside out".** Now sense the presence of your Aurora Continuum Photo-plasmic **Jha-DA' Body "*within, around and between*"** the cells and atoms of your atomic body. (The atomic and Jha-DA Bodies currently occupy the "same space", but the atomic body still exists within the Outer-Domain reality field & the Jha-DA Body exists within the corresponding Space-Time Co-ordinates within the Transcendental Planes of the Aurora Continuum).

12. **Inhale slowly** into the **AzurA**, then **further upward** to a "point" just outside of the top of the head over the **"Fontanel"** (Translation Duct-4-Fontanel) **Hold** momentarily at the "top of the Inhale" over the Fontanel.

13. Next, **slowly Exhale a "Wave of Living-Water Hydrolase"** ***downward*** from the Fontanel and **throughout the entire body,** using the "*Exhale Wave*" to create a **"Pale-Aqua Veil"** between the atoms of the physical body and the Photo-plasmic atoms of the Jha-DA Body

14. Breathe gently in a relaxed manner and begin the **"PEEL OUT"**, the ***separation of the physical and Jha-DA' bodies***, and the transfer of consciousness into the Jha-DA State of Aurora Continuum Bi-location. As you breathe gently, focus your attention on FEELING the presence of the Jha-DA Body as similar to a **"Ghost Body"** version of you that is **"still within"** the physical-atomic form. (Note: In technical terms, the **Jha-DA' Body is NOT a "*Ghost Body*"** which is fragmented GharE' spirit often left after improper Bhardoah Transition following physical death; but conceptually and visually the Jha-DA' Body resembles what is commonly considered a "Ghost Body".)

5 Continue gentle **Inhale/Exhale Breathing**. Once you have a "Feel" for the presence of the Jha-DA' "Ghost Body" within you, next, **beginning at the Fontanel** on top of your head, start to "**Peel**" the **Jha-DA' "Ghost Body"** *out of the physical-atomic body*; (Note: You may feel, sense and/or hear a **mild "pulling-apart" sensation/sound** similar to "pulling a piece of adhesive tape off of a piece of glass). Use each **Inhale breath** to "**mentally link-onto" the Photo-plasmic atoms of the Jha-DA' Body "Head"**, then each **Exhale breath** to **PUSH the Jha-DA' Body "Head" forward** until the head of the Jha-DA' Body ***is outside and in front of*** the head of the physical-atomic body (the physical body will be "looking at the back-of-the-head" of the Jha-DA' Body).

16 Continue gentle **Inhale/Exhale "PEEL-OUT Breathing"**, next **moving downward** to the Jha-DA' Body atoms of the **Torso**, again using each **Inhale** breath to "**link onto**" the Jha-DA' Body atoms, and each **Exhale breath** to **PUSH the Jha-DA' Body Torso forward** until the Torso of the Jha-DA' Body is ***outside and in front of*** the Torso of the physical-atomic body (the physical body will now be linked to the Jha-DA' Body from only the hips down.)

17 Continue gentle **Inhale/Exhale "PEEL-OUT Breathing"**, next **moving downward** to the Jha-DA' Body atoms of the **Legs**, again using each **Inhale** breath to "**link onto**" the Jha-DA' Body atoms, and each **Exhale breath** to **PUSH the Jha-DA' Body Legs forward** until the Legs of the Jha-DA' Body are ***outside and in front of*** the Legs of the physical-atomic body.

18. **Inhale** up to the **Fontanel. Hold**, then **Exhale firmly**, using the Exhale breath to "**Stand the Jha-DA' Ghost-Body up in front of you**". Return to gentle breathing and **project a portion of your conscious awareness into the Pineal Gland of the Jha-DA' Body**, then "**open its eyes**", focusing your attention into a "**split-focus**", one portion within your *physical-atomic body* the other within your *Photo-plasmic Jha-DA' "Ghost Body"*. Consciously "**turn your Jha-DA' Body around to face your physical-atomic body**": observe yourself from first one perspective, then the other. Then observe yourself from "*both perspectives simultaneously*" ("Practice makes Perfect" on this one!).

Entering the Aurora Continuum-Engaging the Ah-Jha'-Na

19 With your *Jha-DA' Body facing your physical-atomic body* and your attention in "simultaneous split-focus" (part in each body), **Inhale slowly and deeply** using the *Inhale* to **draw the Jha-DA' Body toward you** first "meeting face to face", then continuing to **draw the Jha-DA' Body *into* your physical body, and *into* the "spaces between the atoms"**. **Hold** at the "top of the Inhale" as your **Jha-DA' body "disappears within you"**, as it passes directly into the Transcendental Planes of the Aurora Continuum through the "spaces between your atoms". **Exhale slowly and gently**, using the Exhale to expand your awareness outward within your Jha-DA' Body in the Aurora Continuum. **You have now entered the Aurora Continuum**, in the "*Jha-DA' State*" of consciousness.

20. Return to **gentle breathing**, with your conscious awareness focused within your Jha-DA' Body. Observe that you, AS your Jha-DA' Body, are now standing within an **Aurora Continuum Corridor** that is lit with dim **Pale-Indigo Light**. Notice that the Corridor stretches outward from "side to side/left and right" as far as the eye can see, but in front and in back of your Jha-DA' Body the Corridor extends outward only several feet. This **Narrow Pale-Indigo Corridor** is one of the numerous 3-dimensional Planes within the Aurora Continuum, and it has long been the "**Place of First Meetings**" between travelers from the Outer Domains and Guardian inhabitants of the Middle Earth Actuality Dominion.

21 Sit your Jha-DA' Body **"down on the floor"** within this *Narrow Pale-Indigo Corridor* and **mentally request that your Ah-JhU'-na GUIDES**, from the Middle-Earth Actuality Dominion Elemental Command **now come to meet you here** to take you on the evening's educational journeys.

22 Breathe gently, relax and sit quietly in your Jha-DA' Body within the Pale-Indigo Corridor, briefly awaiting the approach of your Ah-JhU'na Guides. Observe that a **sensation of vibration** appears **far down the Corridor to your Right**, as **two bright-white Orbs**, (about the size of "dinner plates"), rapidly approach you. As the Orbs come to rest **"sitting on the floor beside you"**, observe that they next **transfigure into two hominid "White-Light Beings", 6'-8' tall,** sitting on the floor of the Corridor beside you. These are your **Ah-JhU'-na Middle Earth Guides**.

A. If you are **feeling "awake and aware"**, and have **a moderate to good visual and sensual connection** to the Aurora Continuum Corridor space, you may **telepathically engage dialogue** with your Ah-JhU'-na Guides, requesting insight, guidance, healing or specific education. If you have no specific requests, the Ah-JhU'-na Guides will, present information and explorations that they are advised by your "Buddha Slide Team" would be valuable to you. They will communicate with you in **"Direct Cognition"**. From this point they may ask you stand up and **"go into Orb"** so that the three of you may **travel "en-Orb" to Middle Earth** for further insight, education, exploration or healing. Allow yourself to **"fall asleep in the physical"** as you **focus within your Jha-DA' Body** and converse, or begin to journey with, your Ah-JhU'-na Guides. Make **"journal notes"** sometime during the following day, on what you remember from the previous night's activities. Continue with PART-B **"7-Step Short-Run" Version** for 32 more consecutive nights.

B. If you have **poor to no visual and sensual connection** to the Aurora Continuum Corridor space, know that, (if you have done all steps to this Technique-1 Parts A & B cumulative "35-Step Long-Run" Version) **your Jha-DA' Body has indeed arrived in the Pale-Indigo Corridor of the Aurora Continuum** but *you may have "lost track of" the part of your consciousness that transferred into the Jha-DA' Body.* (**This is not uncommon** in the beginning to intermediate stages of Jha-DA' Body projection, and is quite common if you are physically overtired). **The part of your consciousness within the Jha-DA' Body IS conscious and aware of itself, and WILL engage with your *Ah-JhU'-na Middle Earth Guides,*** to further your education and ascension-skill development **while you sleep.** Go to sleep as usual, then on the ***next night*, try again**. If you still have poor to no visual and sensual connection to the Aurora Continuum after the second try, again go to sleep as usual, then on the **next day** engage Technique-1/PART-B *The 33-Day Staah-LEi'yas Bio-filter Shift - **Intensive Application***

Aurora Continuum Time-Travel Technique-1 Combined PARTS A & B

"The 7-Step Short Run" Version

Note: Once the **"35-Step Long-Run" Version** (PART-A Steps 1-12, and PART-B Steps 1-23) has been completed in full on "Night-1" of the 33-Day Bio-filter Shift Period, the **Jha-DA' Body has been activated**; (it will automatically return from Aurora Continuum Projections, setting back into the physical-atomic body when the projection is done). If you have ***moderate to good visual and sensual connection*** to the Aurora Continuum Corridor space after running the "35-Step Long-Run" Version on "Night-1" or "second-try-Night-1" then use this **"7-Step Short-Run" Version** from the **second night to the thirty-third night.** (If you are having difficulty entering the Aurora Continuum see Technique-1/PART-B *The 33-Day Staah-LEi'yas Bio-filter Shift & Edonic Awakening*– ***Intensive Application*** After the 33-Night Bio-filter Shift is successfully completed, the Aurora Continuum Biological Frequency Platforms can be *sustained and progressively enhanced* through using this **"7-Step Short-Run" Version 3 times per week** prior to sleep, AND using the **"35-Step Long-Run" Version** (*Technique-1 PARTS A & B*) prior to sleep **once every 33 days. Eventually *with practice*** (time period will be different for each individual), *Jha-DA' Body projection* into the *Aurora Continuum* (and "elsewhere"), will occur ***instantaneously*, with simple *"thought-intention"* and *Ah-VE'-yas Breathing.***

Ah-VE'-yas Breathing (Part-A, Step-12)

1. Take **several** "*Inhale-Back-Flow/Exhale-Back-Flow-Return* ***"Ah-VE'-yas Body Breathing Rounds"***, while sensing this **"air-flow" circulating steadily "back and forth"** through the **"spaces-between-your-atoms,** and **FEELING** the "warm soothing ***"Aqua-Air"*** of the "Back-Flow-Return **progressively building and amplifying within the electron-rings of all of your atoms.**

Slide-1-Bi-Location, The "Peel-Out" (Part-B, consolidated Steps 11-18)

2. Now sense the presence of your Aurora Continuum Photo-plasmic Jha-DA' Body "within, around and between" the cells and atoms of your atomic body **Inhale slowly** into the *AzurA*, then further upward to the **"Fontanel"** (Translation Duct-4-Fontanel) **"Hold** momentarily at the "top of the Inhale" over the Fontanel
3. Next, slowly Exhale a "***Wave of Living-Water Hydrolase***" **downward** from the Fontanel and throughout the entire body, using the "Exhale Wave" to create a **"Pale-Aqua Veil"** between the atoms of the physical body and the Photo-plasmic atoms of the Jha-DA' Body
4. Breathe gently in a relaxed manner and begin the "**PEEL OUT**", separation of the physical body and Jha-DA' "Ghost Body" starting with the **head,** then **torso,** then **legs** Use each **Inhale breath** to **"mentally link onto" the Photo-plasmic atoms of the Jha-DA' Body ,** then each **Exhale breath** to **PUSH the Jha-DA' Body forward,** until the **Jha-DA' Body is outside and in front** of the physical-atomic body
5. **Inhale** up to the **Fontanel. Hold,** then **Exhale firmly,** using the Exhale breath to **"Stand the Jha-DA' Ghost-Body up in front of you"** Return to gentle breathing **project a portion of your conscious awareness into the Pineal Gland of the Jha-DA' Body, "open its eyes"** then **turn your Jha-DA' Body around to face your physical-atomic body.**

Entering the Aurora Continuum-Engaging the Ah-JhU'-Na (consolidated Steps 19-23)

6. With your *Jha-DA' Body facing your physical-atomic body* **Inhale slowly and deeply,** using the *Inhale* to **draw the Jha-DA' Body toward you** and ***into*** the **"spaces between the atoms" of your physical body Hold** at the "top of the Inhale" as your **Jha-DA' body "disappears within you"**, and passes directly into the Transcendental Planes of the Aurora Continuum through the "spaces between your atoms" **Exhale slowly and gently,** using the Exhale to expand your awareness outward within your Jha-DA' Body in the Aurora Continuum
7. Return to **gentle breathing** with your conscious awareness focused within your Jha-DA' Body Observe that you, AS your Jha-DA' Body, are now standing within an **Aurora Continuum Corridor** that is lit with dim, **Pale-Indigo Light. Mentally request that your Ah-JhU'-na GUIDES now come to meet you here.** Observe as **two bright-white Orbs** rapidly approach you and come to rest **"sitting on the floor beside you". Telepathically engage dialogue** with your Ah-JhU'-na Guides.

Technique-1/PART-B *The 33-Day Staah-LEi'yas Bio-filter Shift* ...***Intensive Application***

1. If you find yourself in a "seemingly nowhere state" during "Night-1 Aurora Continuum Time

Travel Technique-1 *"35-Step Long-Run" Version"* **go to sleep as usual**.

2. On the ***next night*** **try again** If you still have poor to no visual and sensual connection to the Aurora Continuum after the second try, again go to sleep as usual

3. On the **next day, "Day-1"**, utilize the **"Daily Self-Speak" Daytime Exercise** from the following *"EXERCISES to Enhance Visual - Sensual Connection to the Aurora-Continuum"* section

4. On the evening of "Day-1", (to be considered your **"Night-1 Start"**) run the *Technique-1* ***"35-Step Long-Run" Version"*** one more time, even if you are still experiencing poor to no visual and sensual connection to the Aurora Continuum), *immediately followed by* the **"Pre-Sleep AARR Auto-suggestion" Nightly Exercise** from the *"EXERCISES to Enhance Visual -Sensual Connection to the Aurora-Continuum"* section.

5. For **33-Consecutive Days and Nights,** continue using the above "daily and evening practice", using the *Technique-1* ***"7-Step Short-Run" Version"*** followed by the **"Pre-Sleep AARR Auto-suggestion" Nightly Exercise** every night other than "*every 7th night*. On **every 7th night**, use the *Technique-1* ***"35-Step Long-Run" Version"***, instead of the *"7-Step Short-Run" Version"*

6. Once or twice a week, at a time of day or evening not associated with your usual nightly sleep time, run the Technique-1 **"35-*Step Long-Run" Version "*** as a "**Sadhu Projection Meditation**"

EXERCISES to Enhance Visual -Sensual Connection to the Aurora-Continuum

"Daily Self-Speak" Daytime Exercise.

At various times throughout the day, take **"A Few Moments of Mindfulness"** and focus upon **observing your *"Self-Speak"*** do you have a "habit" of **"telling yourself that you *can't* do something"** (such as have something you desire, or have inner vision, etc.)? In these *"Mindfulness Moments"*, choose to take responsibility for "catching yourself" when you fall into old negative "self-speak" patterns, and empower yourself by **CORRECTING the negative idea/words with a positive/affirmative statement**, such as **" Maybe BEFORE I was unable, but I am becoming able to do It NOW!...YES I CAN!".** Such "self-created negative idea-filters" will begin to change and dissolve once you have put a quantum of energy behind the "new positive Self-Speak Corrections" that is greater than the cumulative energy quantum held be the old "negative Self Speak pattern"

Before engaging your first "Mindfulness Moment" of the day, employ Aurora Continuum Time-Travel Technique-1 PART-A ***Ah-VE'-yas Breathing*** **"3-Step Short-Run" Version,** then breathe slowly and deeply while "turning your attentions inward" to observe the "Self Speak" that "runs semi-consciously in the background of your more apparent thoughts". If desired, you may use the "Ah-VE'-yas Breathing *3-Step Short-Run*" before your other "Mindfulness Moments" throughout the day, but it is important to use it at **least once, *before the first "Mindfulness Moment"***

Note on "Self-Speak": "***Negative Self-Speak***" (which usually involves telling yourself that you **can't** do or have something you desire, then ***creating a host of reasons to justify why your limitation is so***.) creates a powerful **materialization-encryption** within the *Ah-VE'-yas Vibratory Water-gel Body*, which serves as a **filter** through which your organic "creation power" flows, thus YOU create the condition that you "can't". By **banning the word "CAN'T"** from your "*Self-speak*" *vocabulary*, and substituting for it **"YES, I CAN"** (even if you don't know how just yet, some part of you already DOES know how!), you give the Universe & God-Source "space to enter in and assist you" in co-creating what you desire, in "Divine Right Order and Timing". **Yes, YOU CAN, enter the Transcendent Jha-DA' State,** and the wonderful worlds of ascension that it opens. **Patience, Practice and *Positive Self-Speak*** are some of your greatest tools to actualizing this objective.

Ideally, you will use this exercise daily until it becomes a **natural "self-check habit"** that you can use at any time to **gain clarity** to **"shift yourself to a more positive space"** and to **"get out of your own way"** in creating what you desire, including Jha-DA Body projection.

"Pre-sleep AARR Auto-Suggestion" Nightly Exercise

On "Night-1" of your "*33-Day Staah-Lei-yas Bio-filter Shift and Edonic Awakening-Intensive Application,* use Aurora Continuum Time-Travel Technique-1 ***"35-Step Long-Run" Version",*** immediately followed by this **"Pre-Sleep AARR Auto-suggestion" Nightly Exercise**. Then go to sleep as usual. (Note: Keep a notebook and pen, or recorder, by the bed, in easy reach, for the next morning)

Just prior to sleep, following use of the *"35-Step Long-Run" Version*, simply give yourself the **"auto-suggestion"** ***"I will be awake and aware in the dream state, and I will remember, and record what I remember, upon awakening"***;**(for "short"- AARR-"Awake-Aware-Remember-Record"), then *go to sleep as usual*.** The next morning, **immediately upon awakening,** with as little movement of your physical body as possible, **write down, or speak into a recorder** whatever "snippets", "feelings", impressions or sequences of **"Dream Memory"** that may surface from the previous night's Aurora Continuum excursions.

Note on "Dream" Recall: "*Nightmares*" or "*bad or disturbing dream content*" indicates that you are "*anchoring into conscious remembrance and activating in your DNA/RNA/EGO*" **either** portions of your own personal "mental body, sub-conscious mind or simultaneous-incarnational ***processing***" and/or memory of activities taking place within various regions of the chaotically structured *inorganic planes* of the planetary and galactic fields. **BEHIND and BEYOND** this *chaotic environment* exist the Peaceful, Calming and Enlightening activities that take place within the *Krystic Aurora Continuum*. With **practice** in "*Entering the Aurora Continuum*" you will be able to progressively free yourself from the inorganic *Bio-filters* through which the "*Planes of Chaos*" anchor into your "dream state" waking memory and hologram via the DNA/RNA/EGO, and you will become progressively able to **consciously remember and participate in** activities taking place within the **Aurora Continuum** and within the many Krystic Worlds of the Eternal Life Cosmos.

"The Sadhi Projection Meditation" Exercise

Once or twice a week, at a time of day or evening not associated with your usual nightly sleep time, run the **Technique-1 *"35-Step Long-Run" Version*** "as a "**Sadhi Projection Meditation**" You will be more refreshed and energetic, and less tired when engaging the technique as a "conscious meditation" placed well before your usual sleep-time, which can help you in remaining "awake and aware" through the "consciousness shift" into the Jha-DA' Body The faster you can achieve conscious shift into, and clear memory of, the Aurora Continuum Jha-DA' State, the faster your neuro-networks and DNA/RNA/EGO will activate to engage the Probability-6 *Aurora Continuum Biological Frequency Platforms.* On days when you use the Technique-1 *"35-Step Long-Run" Version"* as a "*Sadhi Projection Meditation*", use the Technique-1 *"7 Step Short-Run" Version"* with the "*Pre-sleep AARR Auto-Suggestion" Nightly Exercise* for your **pre-sleep technique application**.

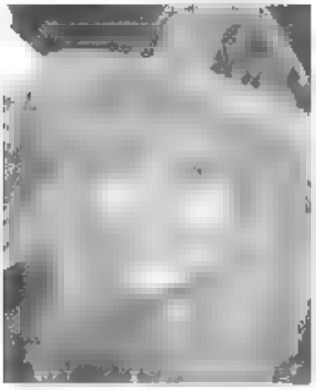
About the Author



Ashayana Deane Ekr MC formerly published as "Anna Hayes", is host of the **Life Empowerment Workshop Series**, founder of the **Kathara Healing Institute** and the **Azurite Temple of the Melchizedek Cloister, Sarasota FL**. Ashayana is author of the **Voyagers, Kathara and Emerald Awakening Series books**, the **Kathara Bio-Spiritual Healing System™**, the **Tangible Structure of the Soul Accelerated Bio-Spiritual Evolution Program™** and the **Amenti and Life Empowerment Series Videos**. Ashayana experienced "**Conscious Birthing**" as an "**Indigo Child**" with open Fetal Integration memory (soul entering fetal body) and reincarnational remembrance since birth. She encountered 28 years of **ritual physical contact** and training with the **Emerald Order Melchizedek Cloister ("EOMC") Priests of UR**. The **EOMC Priests of UR** are living members of the original pre ancient Oraphim-Turaneus am-"Indigo Children" Angelic Human **Grail Line** formally referred to in ancient times as the ***Eteyani*** (*pronounced "E-yon E"*), through which the human lineage was originally seeded 560 million years ago. (Note "**Ur**" **means "light**" in reference to **serving the agenda of enlightenment for all**.) In contemporary times, as they have done since the pre-ancient past, the Eteyan Priests of Ur continue to serve as representatives of the **Guardian Alliance ("GA")**, the primary task force of the **Interdimensional Association of Free Worlds ("IAFW")**, universal service organization.

During childhood, Ashayana was visited many times and escorted to Eteyani learning centers for short periods, by members of the Eteyani Priests of UR, who initiate contact from time to time on the island of **Kauai, Hawaii**. Throughout adolescence, Ashayana kept numerous appointments with the Eteyani Priests, in which she was physically

transported by means of interdimensional spacecraft and Merkaba, to an Emerald Order base near the island of Kauai. Escorted by members of the Eeyan, Ashayana experienced physical **"wave-riding"**, a term used to describe physical teleportation through space time portals via Merkaba Field activation from the Kauai location to an Eeyan educational facility called the **Center for the Advancement of Interdimensional Communication ("CAIC")**. The CAIC physically exists on Earth on what is now the Kauai Hawaii site, but in the future time period that translates into **6520AD** Earth time. (Quantum Physics theory will eventually validate the reality that *time is simultaneous* in nature, and that universal order is multidimensional, facts that presently elude contemporary Earth scientists but stand as common and demonstrable knowledge among the Eeyan and within other advanced inter-time nations.) For her protection, the Eeyan required Ashayana to take a **Vow of Silence** regarding her contact experiences, until she reached adulthood. On numerous longer adolescent visits to the CAIC, which on various occasions extended over several days, Ashayana was reported "missing" and thought by family to be a "run away", a family perception she allowed to remain to account for the extended periods of time in visitation with the Eeyan Priests.

Following a **Near-Death-Experience** at age 18, Ashayana received final training and Ordination in the Emerald Order Melchizedek Cloister Priesthood Order of the Yunasai, through the Eeyan Priests of Ur. (See *"Melchizedek Priesthoods" Voyagers Volume-2*. Melchizedek "initiations" and Cloister "ordinations" are not the same thing; there are 12 Initiation levels for every Cloister Ordination Degree.) Born in this life incarnation as a **Regent** (Level-3 of 6 Ordinate Ministers) of the Melchizedek Cloister Priesthood, Ashayana completed her **Consummate** Level-4 Ordination at age 27, **Elder Consummate** Level-5 Ordination at age 30, and final Eckatic Level 6 Ordination at age 33. In completing Level-6 (of 6) Melchizedek Cloister ordination under mentoring of the Emerald Order Eeyan Priests of UR from the GA, Ashayana was commissioned as a **6th-Degree Melchizedek Cloister Ordinate Eckar**, an incarnate Priest of UR and Emerald Order representative and **Speaker**. Since the time of her conscious Feral Integration, which resulted from accelerated activation of the 4th and 6th DNA Strand Templates that is often characteristic to the Indigo Child Crystal Lyme genetic code, Ashayana understood that she had incarnated in this lifetime to serve as a member of the Eeyan Priests. She is known

among the Eleyani Priests of UR as ***Aneayhea Kananda Ashayana-Tu Melchizedek***.

Through her progressive experiences with the Priests of UR, and personal validation through conscious reincarnational memory since infancy Ashayana understood that what our society calls **'ETs'** are not the "sci-fi aliens" our contemporary culture depicts them to be. Contemporary visitors' responsible for the phenomena of the **New Age and UFO Movements** are the ancient races of interdimensional interTime **Angelic and Fallen Angelic legions** that have been reported throughout human history as the angels, gods, devils and demons within every ancient spiritual tradition. **Eventually science will reveal that such characters of ancient human mythology are in fact part of a greater life-field of biological beings, whose physicality is characteristic to the levels of matter density and dimensional reality fields from which they emerge.** Receiving little religious training as a child, Ashayana's validation of the existence of Angelics and Fallen Angelics came from direct early experience with contact and from extensive memory of humanity's dealings with the same visitor races throughout many different time periods of human evolution. The **Angelic Human** races of the Eleyani Priests of UR, who are capable of sustaining full physical manifestation on Earth or altering their biological orientation at will to engage interdimensional time travel or dimensional ascension, assisted Ashayana in her Fetal Integration process and later in her NDE. Though the Eleyani Priests are capable of, and often utilize remote subtle interdimensional contact, the majority of Ashayana's childhood experiences with them, and numerous contacts in adulthood, were fully **physical in nature**, involving her physical transport to their learning facilities rather than simply "astral body travel."

Since the age of 7, and cumulatively for over 29 years, Ashayana has received private training from the Eleyani Priests of UR, in the teachings of the **Emerald Covenant** and in translation of the ancient *Cuaster-Dona-Teura Plates* or **CDT-Plates**, the **12 Pre-Atlantian Holographic Disc Records** from **246,000BC**. Information pertaining to the CDT-Plates was under high security categorization of the GA until November 1999, when the last missing disc of the 12 CDT-Plate set was finally retrieved by the Eleyani Priests from Earthly Illuminati forces. Ashayana was permitted to release data on the existence, content and history of the 12 CDT-Plates as of May 5th, 2000. The CDT-Plate discs have been in protective custody within the **Azurite-EOMC Eleyani Priests of Ur** family lines since a cataclysmic event that took

place on Earth in 208,216BC. At that time 2 of the 12 discs had fallen into the hands of Human family lines on Earth. The 11th disc was recovered by the Azurites of the GA in the 1600s AD, the 12th disc in November 1999. In many physical encounters of childhood and adolescence, during which she was being trained in CDT-Plate translation, the Elevani Priests permitted Ashayana to hold the **small pale silver CDT-Plate discs** in her hands, which confirmed for her the tangible physical existence of these pre-Atlantrian technological artifacts. As her abilities in physical translation of data from the discs grew, she was then trained in **remote translation** of the CDT-Plates. Remote translation of the CDT Plates would allow Ashayana the capability of frequent CDT Plate translation in adulthood, without the need of the Elevani Priests continually relocating her to the storage facility where the CDT-Plates are kept in protective custody. (See "*CDT-Plates and Emerald Covenant*").

As is customary when CDT Plate translations are initiated on Earth, **three individuals** are chosen by the Elevani Priests to hold one of three **"CDT-Plate Speakers Contracts"**, through which translations of the CDT-Plates are returned to the human collective. Ashayana was chosen, by the Elevani Priests of UR, as the **First CDT-Plate Speaker** and **mentor** to the later Second and Third CDT-Plate Speakers in contemporary times, due to her reincarnational history, much of which she had conscious memory from birth, one of which the Elevani Priests are fully aware. In the "Christ Drama" of 2000 years ago, Ashavana then an Essene woman named **Miriam** (born 5BC, 37AD) had served as the Third CDT Plate Speaker. Miriam served this role in collaboration with 2 Essene men historically known as **John the Baptist** (3BC-34AD), then First CDT-Plate Speaker, and **Jeshua Melchizedek** (12BC-27AD), then Second CDT Plate Speaker and leader of the Essene "Christian Movement" (known as "**Jesus**" in the Bible). Prior to her CDT Plate Speakers Contract as Essene Miriam, with others incarnating from the Elevani collective, Ashayana had served as CDT Plate Speaker and Elevani Priest numerous times during early Lemurian, Atlantian, Hindu, Celtic Druid and Egyptian historical periods. The history of Ashayana's recent reincarnational involvement with CDT-Plate Speaker Contracts on Earth began with her incarnation as *Ashayana-Ta Melchizedek*, an EOMC Elevani Priest of UR, born on Earth in **246,041BC**, during the "Middle Cloister Race Period" of human evolution (500,000BC-208,216BC). During this period Ashavana served as a member of the original EOMC Elevani Priests of UR **Azurite Un-**

versal Templar Security Team, the GA collective responsible for reinstating the Emerald Covenant peace treaty on Earth and providing the CDT-Plates to the Urrite human Cloister Race in 246,000BC.

The Templar (Star gate) Security Team EOMC Elevani Priests of UR have incarnated on Earth at various times to assist in human evolution and protection of Earth's **Halls of Amenti Star Gates**. The EOMC Azurite Universal Templar Security Team has been progressively incarnating on Earth over the last 200 years, especially since 1955, through the Elevan Grail Line genetic lineage, known in contemporary times as the **Indigo Children** (See *Indigo Children and Templar Security Teams*). Presently there are approximately **550,000 Indigo Children** physically incarnate on Earth, just beginning the DNA Template activation cycle through which they will "awaken" to remember their higher aspects of identity and Templar Security Team commissions, many more will be born between 2000-2012. In her present incarnation Ashayana was born as an **Indigo Child Type-1**, incarnating as an original member of the EOMC *Azurite Universal Templar Security Team* for this reason she was chosen and trained since childhood by the EOMC Elevani Priests of Ur from Kauai, Hawaii. As per pre-birth agreements with the Elevani, Ashayana was trained to serve as the First CDT-Plate Speaker 6th-Degree Melchizedek Cloister Eckankar organizer of Azurite Universal Templar Security Teams presently incarnate on Earth and public representative of the Elevani Priests Interdimensional Association of Free Worlds and the Guardian Alliance.

Through over 29 years of frequent physical contact and remote telepathic communication with the Elevani Priests and the CA, Ashayana was trained in a wide variety of subjects including *Melchizedek Cloister Law of One Spiritual Actualization studies, Keyiontic Morphogenetic (matter template) Science, 15-Dimensional Unified Field Physics, Primal Creation Mechanics, Advanced Merkaba-Kundalini-DNA Bio-Regeneresis, Ascension Mechanics, Kathara Core Template Healing, Planetary Templar Star Gate Mechanics, Pre-ancient History, Founders Races and Angelic race evolution, Higher Sensory Perception, and OOB Travel and remote translation of the CDT-Plate Holographic Discs*. Following her NDE at age 18, Ashayana redirected her original interests of pursuing a degree in psychology to continue intensive study with the Elevani Priests. The mother of 3 Indigo Children, she worked in commercial printing and theater management and accepted professional commissions as a fine art still painter, while pursuing Masters studies with the Priests of Ur. In 1996 the Elevani Priests of UR and GA released

Ashayana from her childhood Vow of Silence and requested her services as the First CDT-Plate Speaker, for which she had been trained. In 1997 Ashayana translated the Elevani Priests first chosen introductory dispensations of CDT-Plate teachings, which were published in May 1999 as the **Voyagers Series Books**, Volumes 1 and 2.

Following first release of the Voyagers Books in May 1999, Ashayana continued further translation of CDT-Plate dispensations in a series of workshops called the **Lite Empowerment Workshop Series**, the most expedient method of making the CDT-Plate teachings available to the public (available on video). In November 1999, upon request of the Priests of ER, she founded the **Azurite Templates of the Melchizedek Cloister**, a non profit spiritual service organization presently with over 200 Ordained Melchizedek Cloister ministers in the US and abroad. In February 2000 Level 1 of 12 of the **Kathara Bio-Spiritual Healing System™** holistic core template healing and DNA Template Bio-Regenesis program was translated from the CDT Plates and the **Kathara Healing Institute** and **Kathara Alliance** (**"KA"**) of Kathara Healing Facilitators was added as a department of the Azurite Temple. Since May 2000 the Elevani Priests of ER and Ashayana have worked to awaken and organize groups of the Azurite Universal Templar Security Team and Amenti Planetary Templar Security Team Elevani Indigo Children. Since January 2000, Ashayana and members of the Templar Security Teams have orchestrated global healing endeavors called **Planetary Shields Clinics** or **"PSCs"**. During PSCs the Elevani Templar Security Teams utilize Masters Planetary Templar Grid Mechanics from CDT-Plate translations of the **"The Book of Maps and Keys"**, one of the "lost books of the Bible" translated from the CDT-Plates by Essene Jeshetta Melchizedek in 10AD. (**This and other related Essene books were intentionally "lost" in 325AD at the hands of the Church of Rome's Council of Nicaea**)

PSCs are being initiated by the EOMC Priests of ER and races of the Emerald Covenant, with assistance of the incarnate Templar Security Teams, to assist Earth through and prevent pole shift during the star gate opening cycle of 2000-2017. The last full star gate opening cycle called a **"Stellar Activations Cycle"** or **"SAC"**, occurred in **208,216BC**, resulting in cataclysm, pole shift and de-activation of Earth's Templar (star gate and core energy grid system). PSCs of 2000 have taken Ashayana and Templar Security Teams to **Egypt, Peru** and **England** and various other regions; further PSCs are scheduled for Hawaii, England, Peru and Tibet in 2001-2002. Respected for her in-depth insights on New Science, Spiritual Development, Esoteric Stud-

ies, Pre-ancient History and Extra-ordinary Phenomena, Ashayana has been interviewed on various radio programs such as Janet Russel's "Beyond the Unexplained", the Jeff Rense Sightings" show and SHINE. In October 2000 Ashayana was united in marriage with fellow childhood Priest of UR contactee CDT-Plate Speaker and EOMC Eckar (6th Degree MC Ordinate Minister) **Rev. Michael Deane M.Sc** of England, founder of the **Azurite Temple UK and Europe**.

Together Michael, Ashayana and the Evevan Priests continue the work of CDT-Plate translation and PSCs, and are presently preparing a **Personal-Planetary Studies Masters Course** in Spiritual Development, DNA Bio-Regenesis, Merkaba and Advanced Planetary Temporal Mechanics. The Masters Course will be offered as private classes in Florida and on video through the Azurite Temples and Kathara Healing Institute in 2002. Currently residing in Florida, Michael, Ashayana and Ministers of the Azurite Temples offer non-denominational community support services of **Ministerial Ordinations, Baptisms** and **Marriages** in the ancient **Law of ONE** Melchizedek Order "Inner Christ" spiritual tradition. They periodically offer Spiritual Development, Bio-Regenesis, Kathara Healing and Planetary Healing workshops at home and abroad. In order to make the CDT Plate teachings more easily available to the public, Michael, Ashayana and the staff of Azurite Temple began organization of the **Azurite Educational Resource Library** correspondence programs, currently featuring over 40 audio, video and book products drawn from Ashayana's workshops. As Azurite Temple MC does not solicit donations, proceeds from the Azurite Educational Resource Library fund continuing Human Potential, Spiritual Advancement and Holistic Healing educational outreach programs progressively under development through Azurite Temple.

The Christos Series-*Azurite Press*

Volume 1 ***The Maharata-Book 1 The Christos Within; Reinstating Personal Divinity***

The **Maharata** is the ancient Sacred Text translation of the Founders Race CDT Plates from 246,000BC, which originally contained **590 volumes** and over **500,000 pages** of non-dogmatic, egalitarian **Sacred Spiritual-Science Teachings** covering every aspect of mastering personal and cosmic reality. Before intentional editing and distortion at the hands of Fallen Angelics and **corrupt human power elite**, the teachings of **every traditional religious belief system on**

Earth, from Christianity to Buddhism and Indigenous Tribal Oral Tradition, **originally emerged from re-translations of the Maharata Texts and CDT-Plates**. The Founders Races, via the Azurite Universal Templar Security Team, IAFW and GA, are beginning return of the Maharata Texts in contemporary times in fulfillment of the promise of the *Emerald Covenant*.

Since release of *Voyagers volumes 1 and 2* in May 1999 to the time of this writing in January 2001, Ashayana has conducted over a dozen 6-18 hour public workshop presentations in the US and abroad, each based upon a progressive level of new CDT-Plate translations, many including written handbooks. The *Tangible Structure of the Soul Accelerated Bio-Spiritual Evolution Program* and of course *Kathara Bio-Spiritual Healing System* certification program, Volume-3 *Voyagers Keys to the Secrets of Amenti* and *Angelic Realities-The Survival Handbook* books were also produced. Also during this period of less than 2 years, Ashayana founded the *Azurite Temple* MC and *Kathara Healing Institute*, ordained over 200 MC Ministers, conducted PSCs Planetary Healing Intensives to Egypt, Peru and England, attended numerous other speaking engagements and organized the *Azurite Educational Resource Library* correspondence programs. The *Solar Council* **Fallen Angelic Legions** have **progressively infiltrated Earth culture** since 25,500 BC. In **22,326BC** the MC Elevani **Magi Azurline Priests of UR** from D-6 Sirius B Sol-6 attempted but failed to secure Sol SG-4 under guardian protection. **Pleiadian-Nibiruian-Anunnaki** Fallen Angelic Legions intend to use **Sol-SG-4** and **Battlestar Nibiru** to create **pole shift** between **2003-2008**. **Emerald Covenant Guardian Angelic races** will **attempt to secure Sol-SG-4** from Nibiruian domination **to avert the pole shift "Armageddon" drama** that the Fallen Angelic Legions desire to manifest.
- **GA Signet Council 1, 2 and 3**- The *Amenti Planetary Templar Security Team* and *Inner Earth MC Priests of UR*. Universal Star Gates **D-3 Earth-SG-3**, **D-2 Inner Earth-SG-2**, **D-1 Parallel Earth-SG-1** and Earth's **Halls of Amenti** star gates are under guardianship of the **MC Elevani Master Council** of Oversight directed through the **Sirius B Maharaga** *Council of Azurline*, the *Lyran High Council*, GA Signet Council's 12, 11 and 10, and the *Inner Earth* **Breanoua and Melchizedek Cloister Human race**, **Shamballi** and some **Rama** Mixed Cloister Human races and the **Elevani Grail Line races of Inner Earth**. Inner Earth is presently caught up in the surface Earth drama. **United Resistance** is focusing most of its attentions on attempting to **seize the Inner Earth protected star gates** from Guardian protection. The outcome is yet to be determined and will be greatly influenced by humanity's participation in the drama.

CDT-Plates, Emerald Covenant and the Mass Drama

The information contained within the Voyagers Series Book Kataara Bio-Spiritual Healing System, Tangible Structure of the Su Accelerated Bio-Spiritual Evolution Program and related materials pr duced through the 3 legitimate GA Speakers, represents translation ancient records. These ancient records exist in physical form as a set 12 Silver-metallic discs called the Cloister-Dora Terra Plate Libraries "CDT Plates." The 12 CDT Plates are holographic recording, storage an transmission devices that hold massive amounts of data in encrypte electromagnetic scalar-standing-wave form. Translation of data from th CDT-Plate Libraries is accomplished through initiation of specific fr quency transmissions, through which the discs activate to release the stored data in the chosen form of holographic, audio-visual or digit translation. The 12 CDT Plates were manufactured from a form of str ated-selenite quartz crystal organic to the Density 2 planet Sirius B su rounding a radioactive isotopic core encased in a "hybrid-metal" silve alloy compound organic to Earth.

The CDT Plates were manufactured by the Taran Priests of UR an Maharaja Sirian-Blue Human "Holy Grail Line" races of the Council Azurine, often collectively called the "Azurite" or "Elevan" Races o Density-2 Sirius B GA Signet Council 6 and guardians of D-6 Sirius Star Gate-6 in the Universal Templar Complex (see Voyagers Volume 1). In 246,000 BC CDT-Plates were presented as a gift to th Urtite Human Race, the Seed Race of the contemporary human lineag by the Azurite Races Sirius B, in honor of the Urtites entering th Founders Races Emerald Covenant Co-evolution Agreement peac treaty. The CDT Plates contain massive encrypted tomes of practic physical and spiritual evolutionary advancement teachings presented t the races of our 15-dimensional Time Matrix by the Density Dimensions 13-14-15 Elohei-Elohim-Emerald Order Seraphei-Ser phim Gold Order and Brahma Rama Amethyst Order Melchiedek Clo ter Breneau, the 3 Primary Founders Races in our Time Matrix.

The teachings contained in the CDT-Plates cover the full evolutiona ary history of life evolution in our Time Matrix since the last life wav was seeded 950 billion years ago up to the present. Time is simultaneou in nature, past-present-future exist as multiple sets of interconnecte cycles of evolutionary development that form manifest probabilities

possible experiential action. The CDT Plates also contain "future records" of the many various paths of evolutionary development of human and inter-dimensional, inter-galactic, inter-time races which emerge from free will choices rendered in our present space-time continuum. (Of the existing "probable futures" or Primary Time Vectors of evolutionary development that exist as "future" experiential potentials our present moment choices determine which one of probable evolution we will perceive in manifest form as a future continuum of time emerging from our present space-time coordinate.)

Most valuable to our present time, the CDT Plates contain extensive educational records pertaining to Founders Race Creation Mechanics, "Universal United Field Physics," and "Law of One," "Inner Christ" Sacred Spiritual-Science "Ascension-Merkaba" training. The CDT-Plates also contain the history and details of the Founders Emerald Covenant Co-evolution Agreement peace treaty, humanity's historical relationship to the Emerald Covenant. As designated by the Emerald Covenant restatement of 246,000 BC, the CDT Plates contain the teachings of Masters Templar Mechanics, Planetary Galactic and Universal Star Gate mechanics, DNA Template Bio-Regenesis and Kathara Core Template Healing technologies. These masters teachings were originally provided to the Angelic Human race of Earth in order for humanity to fulfill its eternal "Creation Commission" as guardians and keepers of the Universal Templar Complex.

The CDT Plates have served as an intrinsic part of human evolution on Earth since they were given to the Urrutes in 246,000 BC. The first written translation of part of the CDT-Plate library was rendered by the Urrute human race of Earth, upon receiving the CDT Plates in 246,000 BC. The first written CDT Plate records were a collection of large books collectively called the Maharata (pronounced "Ma-ha-ra-ta" translates into the "the Inner Christos dispensations".) The Maharata text was a collection of over 500,000 pages of condensed text transcription, spanning 590 volumes. The Maharata transcriptions were hand-written on a form of durable textile paper resembling crisp, semi-translucent vellum that was in common use at this time among the Taran civilizations of Density 2. The volumes of the Maharata were compiled in large-format, embossed leather-bound books through a hand rendered process that resembles contemporary "perfect binding." The original Maharata Books were transcribed in the Anuhazi language, the first spoken-written language Unit of the Density 4 Emerald Order Elohei Elohim Anuhazi (Fe. ne dominid) Founders Race out of which all other external language forms in our Time Matrix emerged.

The 12 CDT Plates were kept on Earth in the protective custody of the Urrite human lineage, until the Temple Wars and resulting pole shift of 208,216 BC. Just prior to the 208,216 BC pole shift and decimation of the Urrite human culture, 10 of the 12 CDT Plates were retrieved by the Sirius B Azurite Races and placed under Azurite Universal Templar Security Team protection (see Voyagers Volume I).

The CDT Plates have always been coveted by many interstellar races not only for the practical knowledge they contained, but also due to their dual purpose in relation to obtaining manual access to the 12 Primary Star Gates of the Universal Templar Complex. The 12 CDT-Plates are part of a larger apparatus that included 12 corresponding, larger silver discs called the Signet Shields. The 12 Signet Shields, manufactured at the same time as the CDT-Plates, are a technology through which the 12 Primary Star Gates of the Universal Templar Complex, which span the dimensional fields and galaxies of dimensions 1-12, can be manually activated and opened. The 12 CDT-Plates, designed for interdimensional frequency transmission capacity, can be used to manually activate, from remote locations, the Signet Shields and their corresponding Universal Star Gates; the 12 CDT-Plate discs are the Activators for the 12 Signet Shields. In the wrong hands, the CDT-Plate-Signet Shield technology could bring universal devastation to this Time Matrix, and so the CDT-Plates remained under the highest security possible. On behalf of the Emerald Order Melchizedek Cloister Elohei Eloh m Bureau of Density-5, and their primary Guardian Universal Service organizations (the Azurite Universal Templar Security Team, the IAFW, and the 12 Signet Councils of the GA), CDT-Plate-Signet Shield protection had been commissioned to the Azurite Races the Sirius B Council of Azurlume. The Urrite human lineage of Earth was entrusted with protection of the CDT Plates and Signet Shields in 246,000 BC, when humanity was officially appointed as active co-guardians of the Universal Templar Complex through the Urrites entry into the Emerald Covenant restatement.

The GA Signet Council-6, Council of Azurlume from Sirius B reclaimed 10 of the 12 CDT Plates under their protection in 208,216 BC. Two of the 12 CDT-Plates and all 12 Signet Shields fell into the hands of various competing human and Fallen Angelic Legions on Earth during the course of human evolution since this time. In the 1600s the Azurites secured one of the missing CDT Plates. In November of 1999, the last of the 12 CDT-Plates, once called the "Tables of Testimony" by the Knights Templar races, was retrieved by the Azurites from a contemporary Freemason family line through which possession

of the CDT-Plate had been passed from Atlantean generations. The 12 Signet Shields still remain buried in various hidden locations on Earth. Since the times of the 208,216 BC cataclysm, the Azurite Races of the Seven B Council of Azurine have periodically offered dispensations of knowledge translated from the CDT-Plates to the evolving human cultures of Earth. Translations of the CDT Plates were the first foundations of ALL legitimate spiritual teachings among ALL races of Earth before the genuine CDT-Plate translations were repeatedly compromised, destroyed and distorted into "religious control dogmas" by competing factions of corrupt human power elite and Fallen Angelic visitors. Each time the Azurites effect return of CDT-Plate translations, three CDT Plate Speakers incarnate through the Maharata race line Council of Azurine from Sirius, into the human "Indigo Child" Grail Line on Earth (see Voyagers Volume I) to serve as the three CDT Plate translators or "Speakers".

The First CDT-Plate Speaker is trained for the position from childhood through physical contact with the Azurite Races and Priests of Ur, and serves as mentor for CDT-Plate Speakers Two and Three. The three CDT Plate Speakers are always contemporaries and work closely and cooperatively together collectively presenting on Earth the translations of the CDT Plates to which they are commissioned over a 12 year period of time. The tradition of selecting only three CDT Plate Speakers who are entrusted members of the Emerald Order incarnate in human form is a security measure that has always been employed by the Azurite Races in order to protect the integrity and intended purity of CDT Plate translations. In Atlantian times the most commonly known Third CDT Plate Speaker was a Nibiruan Anunnaki-Atlantean by the name of Thoth. In 22,340 BC Thoth was entrusted by the Emerald Order Melchizedek Cloister and Azurite Races to bring oral translation of parts of one CDT Plate into specific segments of Atlantian culture. During this time Thoth defected from the Emerald Covenant in favor of Nibiruan Anunnaki dominion agendas, translating portions of the CDT Plate into written form in a text that became known as the "Emerald Tablets of Thoth." Thoth presented the Emerald Tablets to the then corrupt Annu Melchizedek Priesthood of Atlantis which culminated in the final destruction of the Atlantean Islands in 9558 BC and subsequent chains of human evolution since the colonization of Sumerian culture. In 2040 BC another attempt to bring translations of the CDT Plates to Earth was rendered through an individual by the name of "Enoch" who served as Second CDT-Plate Speaker in that time period. Enoch's CDT Plate translations consisted

of three volumes of history that were once contained in the Maharata the Book of Amenti the Angelic Rosters and the Book of the Dragon

In 30 BC three Essene CDT-Plate speakers known as John the Baptist Jesus Christ (Jeshua Sananda Melchizedek born 12 BC, see Voyagers Volume 2), and Miriam, collectively translated nine additional books from the CDT-Plates creating the original foundations of what was intended to become the legitimate Christian doctrine These books included Jeshua's Six Books of Process detailing self-generated Ascension Mechanics. Core Template Bio-Regeneses and the Book of Maps and Keys the technical manual for Earth's Halls of Amenti star gates and Planetary Templar Complex system. The translations of Miriam were the three Books of the Cloister, once translated in the Maharata texts detailing cultural structure built upon the Founders Emerald Covenant model The Templar Mechanics books of John the Baptist were not completed as he was murdered prior to completion of CDT-Plate translation. The books of Enoch, Jeshua and Miriam represent 12 of the 25 "Missing Books of the Bible" that were originally part of the legitimate Essene "Grail Line" teachings. The Essene teachings were intentionally edited and distorted in 325 AD, by the Council of Nicea and the Church of Rome, to create the control dogma religion presented as the Canonized Bible The Cathari of Southern France held some of the original Essene records of Jeshua and Miriam until the Church of Rome ordered extermination of the Cathari in 1244 AD Before their demise, the Cathari hid portions of the genuine Essene records along with one of the 12 Signet Shields that had been in their possession These relics will be eventually discovered in contemporary times to validate the teachings of the three CDT-Plate Speakers of present times once these individuals have completed their current commissioned translation of the CDT Plates

Other CDT Plate translations of ancient times were dispensed through Speakers born into Hindu, Chinese, Tiberan, African Egyptian Mayan Incan and Celtic Druidic Grail Lines Since pre-ancient times all CDT Plate translations seeded into every earthly culture have suffered the same fate of destruction or distortion Since 208,216 BC translations of the CDT Plates were repeatedly given by the Priests of Ur Azurite Races in order to prepare Earth humanity for the next scheduled Star Gate Opening Cycle (called a "Stellar Activations Cycle, or "SAC" see Voyagers Volume 2) During the next SAC to follow the famed SAC of 208,216 BC the Angelic Human race of Earth would be called upon by the Azurites and guardian races of the Emerald Covenant, to assist in healing Earth's damaged Planetary

Templar Complex. When the next SAC arrived on Earth, humanity would also be asked to peacefully assist Guardian Angelic Nations in protecting Earth's Halls of Amenti star gates from Fallen Angelic race domination. Since 22,346 BC, all interdimensional races knew that the next probable SAC on Earth would occur between 2000-2017 AD. The Emerald Order Melchizedek Cluster Founders Races, Azurite Races and Nations of the Emerald Covenant are again returning translations of the CDT-Plates to humanity in preparation for their intensified mass visitation that will occur if Earth can be safely guided through the now-commencing 2000-2017 SAC. The three CDT-Plate Speakers of contemporary times will continue to release their commissioned translations of the CDT Plate teachings into the public domain between 1999-2012. Between 2007-2012, if cataclysmic Earth changes can be prevented on Earth during the progressing SAC, Jeshe'ua Sananda Melchizedek, the Second CDT Plate Speaker of 10 AD and the man known as Jesus Christ in the Bible, will again enter physical human incarnation through the Sirius B Council of Azurine. Any beings or interdimensional visitors emerging into Earth's drama that claim to be Jeshe'ua Sananda Melchizedek or Jesus are misrepresenting themselves for the purpose of human manipulation. Jeshe'ua is returning to incarnation as an "INDIGO CHILD" INFANT through the Sirius B Council of Azurine, as he did in 12 BC. Jeshe'ua's scheduled return is intended to herald the beginning of open contact with the inter-galactic Guardian Angelic races of the Emerald Covenant and humanity's long-awaited graduation into the interdimensional inter-galactic communities through officially delivered invitation into another restatement of the Founders Emerald Covenant Co-Evolution Agreement universal peace treaty. Open contact with interdimensional, inter-galactic, inter-time Guardian races will occur through opening of Earth's Halls of Amenti star gates, if cataclysmic Earth changes can be prevented during the 2000-2017 SAC.

In preparation for the 2012 opening of Earth's Halls of Amenti star gates, Jeshe'ua's 2007-2012 foretold "Second Coming" and the mass Angelic Nation contact that these events are scheduled to precede, Jeshe'ua's contemporaries of 10 AD, Miriam and John the Baptist, are already incarnate in human form. The present-day incarnations of Miriam and Joan are currently working closely together to fulfill the First and Second CDT-Plate Speakers Contracts, which are now being progressively translated for public access. The individual holding the Third CDT-Plate Speakers Contract is a woman in the USA, who has also previously served as CDT-Plate speaker during Hindu, Egyptian

and African incarnations of ancient times. All CDT-Plate Speakers work closely together through the established Azurite Temple of the Melchizedek Cloister, FL, an organization created in 1999 at the request of the Emerald Order Elohei Elohim of Density-5, the Priests of Ur Azurite Races of Sirius B and the many IAFW-GA races of the Emerald Covenant. The three CDT-Plate Speakers are presenting foundation teachings of the Emerald Covenant CDT-Plates to assist the Azurite Universal Temporal Security Team, IAFW, GA and Founders Races in preparation for the scheduled 2012 opening of the Halls of Amenti star gates. If Earth changes can be prevented through the 2000-2017 SAC, these events will culminate into humanity's intended graduation into the long awaited and foretold "New Age of Unity, Love, Freedom and Enlightenment."

WHO ARE THE VISITORS AND WHERE DO THEY COME FROM?

- VISITORS WERE CALLED "ANGELS" IN ANCIENT TEXTS; TODAY THEY ARE CALLED "ETs". ANGELS AND ETs ARE THE SAME INTERDIMENSIONAL, INTERSTELLAR RACES.
- VISITORS COME FROM A VARIETY OF DIFFERENT MATTER DENSITY LEVELS WITHIN THE 15-DIMENSIONAL TIME MATRIX.
- TO UNDERSTAND THE LOCATIONS FROM WHICH VISITORS EMERGE, IT IS NECESSARY TO UNDERSTAND THE BASIC STRUCTURE OF THE UNIVERSAL MANIFESTATION TEMPLATE.
- THE UNIVERSAL MANIFESTATION TEMPLATE IS MADE OF FIXED POINTS OF FREQUENCY, WHICH FORM UPON CONDENSED FISSION-FUSION POINTS OF ENERGY UNITS CALLED ANTE-MATTER PARTIKL. THESE FIXED POINTS OF FREQUENCY FORM SCALAR-STANDING-WAVES, WHICH CREATE THE TEMPLATE OF VIBRATIONAL ENERGY THAT IS THE BLUEPRINT WITHIN ALL SPACE-TIME-MATTER MANIFESTATION.
- EARTH SCIENTISTS HAVE NOT YET DISCOVERED THE ADVANCED SCIENCES OF SCALAR-CORE-TEMPLATE MECHANICS. THESE SCIENCES WERE KNOWN IN ANCIENT TIMES & ARE THE STANDARD OPERATIONAL SCIENCE IN ADVANCED FUTURE CULTURES.

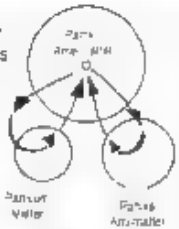
Units of Consciousness, Morphogenetic Fields and Scalar Grids

1 ***Partiki, Partika and Particum***
Smallest units of energy-substance Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity Operate as minute, perpetual motion fission/fusion generators.

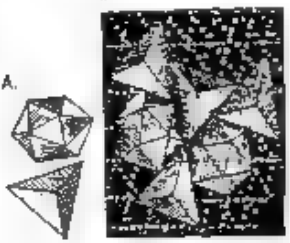


2 ***Partiki Grids*** The fabric of morphogenetic field structure Partiki units group to form interwoven Strands, then Grids of electro-tonal substance, out of which morphogenetic fields are fashioned Out of a Unified Field of Partiki units Partiki Grids form to create the frequency bands that make up dimensional fields and then to form individuated morphogenetic fields

3. Partiki units continue to group or accrete upon the Partiki Grids, forming
A. ***Keylons*** – crystallizations of "frozen light" (standing scalar wave patterns and fixed points of tonal frequency), and
B. ***Keylon Codes*** complex groupings of Keylons, which together form a crystalline template of light spectra, sound frequency electro-magnetism that is the morphogenetic field Crystal Body– the Blueprint upon which matter and identity will manifest.

B.

A.



The **Morphogenetic Field** is made of interwoven **Partiki Grids**. The electro-tonal units of consciousness out of which Partiki Grids form create standing wave patterns **scalar wave grids** which hold the form of consciousness within dimensionalized manifestation. Morphogenetic Fields are thus **Scalar Grids**, that form in specific ordered interrelationship Partiki Grids form upon the *core geometrical-mathematical* structure of the **Kathara Grid**, and so the Kathara Grid represents the core *Scalar Field* upon which forms manifests.

Morphogenetic Fields govern the form of matter manifestation and the evolution of biology and consciousness Morphogenetic Field mechanics thus hold the key to mastery of physical reality and Bio-Spiritual Evolution.

Frequency Bands are cyclic repeatable sequences of *"flashing on and off"* of scalar standing-wave points that create the appearance of manifest wave spectra within a dimensional system. ***Sub-frequency Bands*** are shorter cycle segments of the longer *"flashing on and off"* sequence of the full Frequency Band. Frequency and Sub-frequency Bands make up the foundation wave strata of Dimensions.

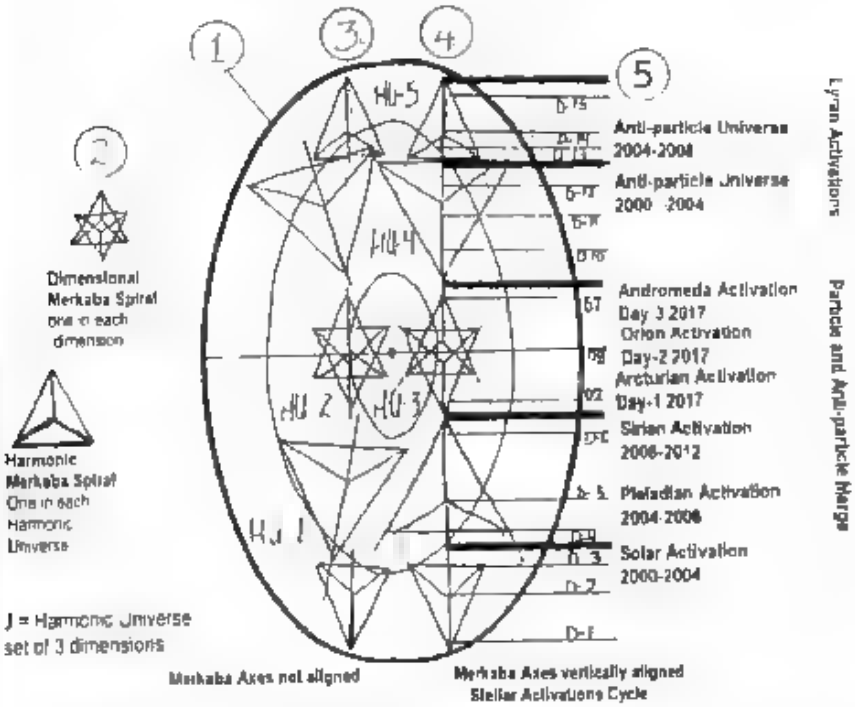
7 PRIMARY METHODS OF VISITOR MANIPULATION

- MONITORING, PHYSICAL AND ASTRAL ABDUCTION
- SCALAR MIND CONTROL – EMP TECHNOLOGIES, SCALAR-PULSE BIO-NEUROLOGICAL BLOCKING, FREQUENCY FENCE, HOLOGRAPHIC INSERT, AUDIO INSERT, FREQUENCY IMPLANTS
- CROP CIRCLES – MASS SCALAR-FREQUENCY TRANSMITERS THAT EFFECT THE SCALAR TEMPLATE OF BIOLOGICAL BODIES (NOT ALL NEGATIVE).
- DISINFORMATION- THROUGH GOVERNMENT INFILTRATES, ET CONTACT , CHANNELING, "ANGEL VISITS"
- PHYSICAL IMPLANTS INSERTED DURING ABDUCTIONS
- SHAPE-SHIFTING AND CLONING INFILTRATION
- ESSENCE DISPLACEMENT –"BODY SNATCHING".

WHY HAVE THE VISITORS RETURNED ?

- THROUGHOUT HUMAN HISTORY HUMANITY WAS ALWAYS AT THE CENTER OF INTERSTELLAR CONFLICT BECAUSE THE HUMAN LINEAGE HAD BEEN CREATED AS A MASTERS RACE TO SERVE AS GUARDIANS AND KEEPERS OF THE INTERPLANETARY TEMPLAR COMPLEX SYSTEM OF TIME PORTALS, STAR GATES AND FREE ENERGY SYSTEMS WITHIN OUR 15-DIMENSIONAL TIME MATRIX.
- ALL PLANETS AND STARS HAVE STAR GATES AT THEIR CORE, WHICH OPEN AND CLOSE AT VARIOUS POINTS IN LONG-TERM CYCLES. EVERY 26,556 YEARS EARTH'S STAR GATES, THE HALLS OF AMENTI, CAN OPEN IF THE PLANETARY CORE FREQUENCY IS HIGH ENOUGH. WHENEVER EARTH'S STAR GATES ARE DUE TO OPEN VISITORS RETURN, EACH SEEKING TO FORWARD ITS OWN AGENDA REGARDING PLANETARY OWNERSHIP AND THE EVOLUTION OF THE HUMAN SPECIES.
- FOR THE FIRST TIME IN 210,216 YEARS (208 216 BC) THE AMENTI STAR GATES WILL OPEN AND EARTH WILL ENCOUNTER A DIMENSIONAL BLEND AND TIME CONTINUUM MERGER. THIS INTERDIMENSIONAL PHYSICS PHENOMENON IS CALLED A STELLAR ACTIVATIONS CYCLE.
- WHATEVER GROUP CONTROLS THE PLANETARY TEMPLAR COMPLEX WHEN THE AMENTI GATES OPEN IN 2012 WILL HAVE DOMINION OVER THE PLANET AND ALSO WILL HAVE ACCESS TO THE CORE UNIVERSAL STAR GATES IN MINTAKA, ORION. THE LAST TIME AMENTI FULLY OPENED POLE SHIFT OCCURRED DUE TO INTRUDER MANIPULATION AND WOULD HAVE AGAIN IF GUARDIAN INTERVENTION HAD NOT BEEN ORCHESTRATED.
- HUMANITY IS PRESENTLY CAUGHT WITHIN AN INTER-STELLAR "STRATEGIC CHESS GAME" OVER WHO WILL CONTROL THE TEMPLAR GATES IN THE 2000-2017 STELLAR ACTIVATIONS CYCLE. IN THE DIAMOND SUN VISION HUMANITY CAN CHOOSE TO BE FREED FROM THE MANY EONS OF INTERSTELLAR MANIPULATION.

The Stellar Bridge



1 One 15 Dimensional Matrix
2 Dimensional Merkaba Spirals (counter-rotating Electro-magnetic Fields)
3 Vertical Merkaba Axes cycle in and out of alignment
4 Every 26 556 years Vertical Axes Align to create the Stellar Bridge – a spiraling bridge of inter-dimensional frequency that moves downward from the Andromeda Star System, through Orion Arcturus Sirius and the Pleiades and connects with Earth via the Solar Em fields, if Earth's core particle pulsation is fast enough
5 Alignment dates of 4 segments of the Stellar Bridge

Earth enters the progressive alignment of the Stellar Bridge between 2000-2017, for the first time in 210,216 years beginning a global Stellar Activations Cycle.

Opening of the 7 Seals
Earth's 7 Primary Vortices Opening and Closing Schedule

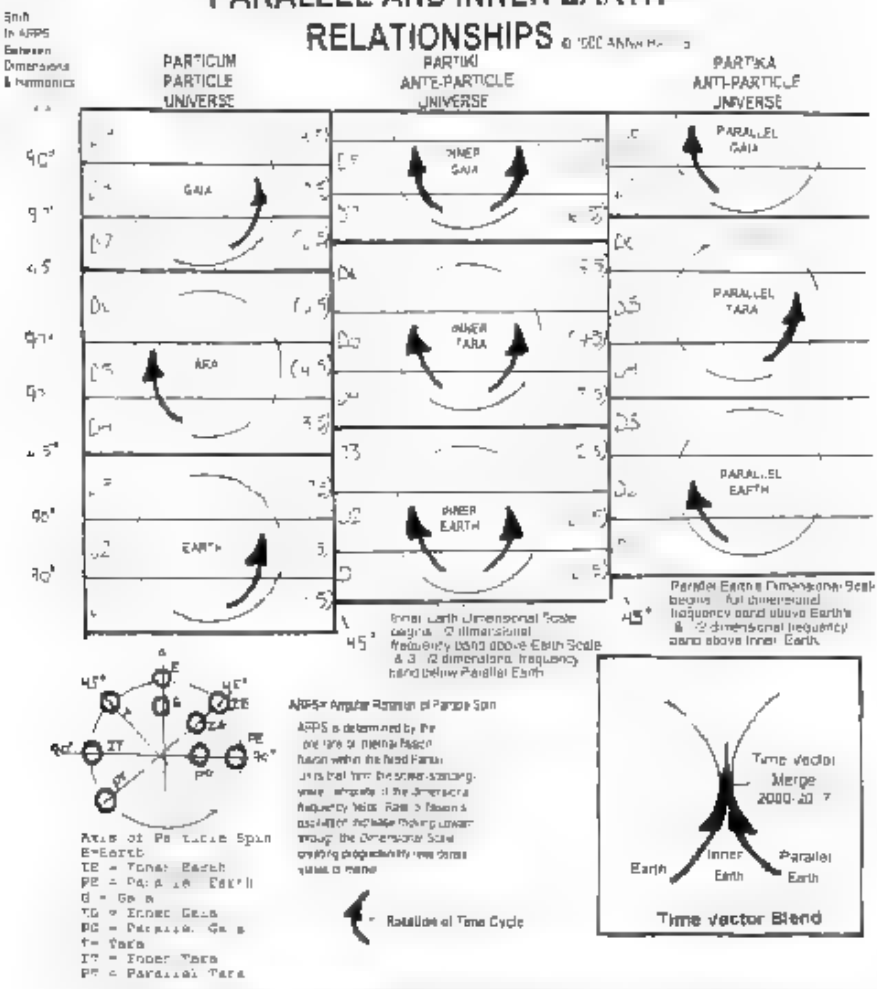
7. **Andes Mts.,South America**(D-7 – D-9)	**1/2012 – 6/2017**	6/2017 –1/2022

The Stellar Bridge alignment infuses Earth with progressively higher dimensional wave spectra causing the frequency seals of Earth's 7 Primary Vortices to progressively open. As each Vortex opens the dimensional wave spectra associated with that vortex begins running through Earth's EM fields, progressively raising the particle pulsation rhythm of the planet, creating a bio-physical Time Acceleration and period of Dimensional Blending that affects everything on the planet. In areas where Earth s EM fields are out of balance tectonic cracking can result. Vortex openings affect climatic patterns and the DNA of biological life forms

Focused group energy working using Keylontic Science technique can assist Earth's Em fields to balance, lessening the potential for tectonic fracturing.

PARALLEL EARTH AND TIME BLEND

- IN THE GREATER STRUCTURE OF PLANETARY PHYSICS EARTH REPRESENTS THE PORTION OF THE PLANETARY BODY STATIONED WITHIN THE FREQUENCY BANDS OF DIMENSIONS 1 THROUGH 3 WITHIN THE PARTICLE UNIVERSE. EARTH HAS ITS COUNTERPART WITHIN THE ANTI-PARTICLE UNIVERSE AS WELL; THIS IS CALLED PARALLEL EARTH. PARALLEL EARTH AND EARTH EACH RUN ON PARALLEL TIME CONTINUUM CYCLES.
- DURING STELLAR ACTIVATION CYCLES, THE TIME CYCLES OF EARTH AND PARALLEL TEMPORARILY BLEND AND MERGE TO FORM ONE CONTINUUM, AND DRAMAS THAT MANIFEST ON PARALLEL EARTH PROGRESSIVELY MANIFEST ON EARTH
- THE PARALLEL EARTH TIME CONTINUUM RUNS AHEAD OF OURS. PRESENTLY THERE IS AN 8-9 YEAR DIFFERENCE. OUR 2000 IS 2008 ON PARALLEL EARTH. THIS DIFFERENCE IN YEARS WILL PROGRESSIVELY SHORTEN BETWEEN NOW AND 2012, WHEN OUR AMENTI GATES OPEN, AND THE TIME CONTINUA WILL FULLY BLEND INTO ONE.
- IN 2000 ON PARALLEL EARTH (1992 HERE), THE BELIL SUN AGENDA VISITOR RACES TOOK OVER AND INSTITUTED ONE-WORLD-ORDER. IN PARALLEL 2003 (1996 HERE), THE BLACK SUN RACES INITIATED WAR WITH THE BELIL SUNS AND TOOK OVER, EMPLOYING THEIR OWN ONE-WORLD-ORDER AGENDA.



Earth Scientists have not yet detected the existence and function of and relationship between Anta and Anta-particle fields that have a different angle of rotational axis in particle spin. The core interdimensional Scalar-frequency Templates upon which all matter forms are built cannot be detected through conventional scientific theory.

RESULT OF ANCIENT TEXT DISTORTIONS

- ALL ANCIENT SPIRITUAL TEXTS WERE ATTEMPTED TRANSLATIONS OF THE HISTORICAL AND SCIENTIFIC RECORDS OF THE CDT-PLATES.
- INTENTIONAL DISTORTIONS IN TEXT TRANSLATIONS, FOR POLITICAL CONTROL, CREATED CONFLICTING RELIGIOUS STORIES OF ORIGINS AMONG VARIOUS CULTURES AND LOSS OF THE KNOWLEDGE OF THE ANCIENT SCIENCES.
- FAMILIES OF HYBRID HUMANS BECAME THE CENTRAL CONTROL GROUPS WITHIN THEIR RESPECTIVE CULTURES AND REPRESSED THE FREEDOM TEACHINGS, USING RELIGION AS A CONTROL TOOL FOR DIRECTING THE MASSES.
- GENERATIONS OF WELL-MEANING PEOPLE UPHELD THE DISTORTED TRUTHS PROMOTED IN THEIR CULTURES AS "THE WORD OF GOD," WHILE BEING DENIED ACCESS TO THE ORIGINAL TRUE SPIRITUAL-SCIENCE TEACHINGS THAT WOULD SET US FREE AND WHICH REPRESENTED THE BIRTHRIGHT OF ALL HUMANITY.
- GENERAL POPULATIONS DIVIDED AGAINST EACH OTHER THROUGH THE EVOLUTION OF POLITICAL AND SOCIOLOGICAL CREEDS THAT EMERGED THROUGH THE DISTORTED SPIRITUAL TEACHINGS

WHY HUMANS REMAIN IN CONFLICT

- SINCE PRE-ANCIENT TIMES THERE ARE 3 CONFLICTING PRIMARY HYBRID-HUMAN RACE LINES INTERMIXED WITHIN THE ROOT RACES OF HUMANITY
- THE EARTH HUMAN ROOT RACES OF THIS 3RD SEEDING, WHICH SPAN ALL ETHNIC LINES, ARE THE LEMURIANS (73,000 YA), THE ATLANTIANS (70,000 YA) AND THE ARYANS (65,000 YA). THERE ARE 7 HUMAN ROOT RACES. THE FIRST 2 POLARIANS AND HYPERBORNEANS, WERE OF ETHERIC MATTER DENSITY. THE REMAINING 2 MUVARIANS AND ELANJHECHI REPRESENT FUTURE RACE CYCLES. OUR 5TH ARYAN RACE WILL EVOLVE TO BECOME.
- GRAIL LINES (DNA TRANSMUTATION CODES)
  URTITES (800,000YA) HEBREW (MELCHIZEDEK+HIBIRU HYBRID) & EGYPTIAN, HOST RACE FOR THE 3RD SEEDING
  UR-ANTRIANS (75,000YA) LEMURIAN HOST
  BREANQUA (72,000 YA) ATLANTIAN HOST
  HIBIRU- (68,000 YA) ARYAN HOST
  MELCHIZEDEK (35,000 YA) HOST OF NEXT RACE CYCLE
  EMERALD, DIAMOND & RUBY SUN HYBRIDS- ORIGINAL HUMAN GENETIC ACCELERATION EXPERIMENTS LAST BEGAN ATLANTIAN PERIOD ABOUT 22,000 BC
- DIGRESSIVE HYBRID LINES- HUMAN ILLUMINATI FAMILY LINES
  BELIL SUNS ANUNNAKI HUMAN LINES LAST INFILTRATION 22,000 BC
  BLACK SUNS NEPHEDEM DRAKON-HUMAN LINES LAST INFILTRATION 10,000BC
- EACH GROUP HAD BEEN GIVEN PARTIAL TEACHINGS OF THE CDT-PLATES (SOME DISTORTED), AND PERIODIC VISITATION, CREATING THE CORE CONFLICTS OVER GOD, POWER AND PLANETARY CONTROL BETWEEN THE HUMAN MASSES
- THE STELLAR GENETIC CODING CAN BE IDENTIFIED WITHIN THE SUB-STRAND DNA MATRICES OF THE DNA STRAND TEMPLATE; TO DO SO REQUIRES MORE SOPHISTICATED TECHNOLOGY THAN CONTEMPORARY EARTH SCIENCE.

PERPETUATION OF THE CONFLICT

- THE CONFLICT BETWEEN THE DIAMOND, BELIL AND BLACK SUN HUMAN HYBRID LINES HAS CONTINUED THROUGH TODAY AND IS NOW BEING ACCELERATED BY VISITING ELOHEI, ANNU AND DRAKONIAN RACES.
- HUMANS FROM DIGRESSIVE HYBRID FAMILY LINES ARE VULNERABLE TO MANIPULATION, BUT CAN HEAL THE DIGRESSIVE DNA TEMPLATE TO REGAIN THE 12-STRAND ORIGINAL HUMAN DNA TEMPLATE.
- EXISTING HISTORICAL HYBRID-HUMAN RACE CONFLICTS ARE NOW BEING AMPLIFIED AS VISITORS FROM THE DIAMOND, BELIL AND BLACK SUN RACES ARE NOW MAKING CONTACT WITH THEIR HYBRID-HUMAN PROGENY TO INCREASE THEIR POPULATIONS AND PERPETUATE THEIR 2000-2017 AGENDAS ON EARTH.
- ABOUT 90% OF ALL HUMAN CONTACTEES AND ABDUCTEES ARE UNKNOWINGLY MEMBERS OF ONE OF THE 3 HYBRID-HUMAN RACES. ALL HUMANS CAN BECOME FREE FROM MANIPULATION IF THEY BECOME AWARE OF THE BIG PICTURE, CONSCIOUSLY CHOOSE WHICH AGENDA THEY DESIRE TO SUPPORT AND TAKE STEPS TO FOSTER THEIR OWN PROTECTION.

EARTH HUMAN RACE LINES
STARSEEDS AND THE DNA SUBSTRAND MATRICES

- THE ORIGINAL HUMAN DESIGN ITSELF IS OF AN EXTRATERRESTRIAL OR "ANGELIC" NATURE IN THAT HUMANS ORIGINALLY INHABITED THE SECOND DENSITY (DIMENSIONS 4-5-6) TIME FIELDS OF EARTH, WHERE EARTH IS CALLED TARA. THE TARAN ORIGINAL HUMAN IS CALLED THE *TURANEUSIAM*. EARTH HUMANITY'S STELLAR GENETIC HERITAGE CAN BE FOUND IN THE *DNA SUB-STRAND MATRICES*. THE MINUTE ELECTRO-TONAL (ELECTRICAL SOUND FREQUENCY) *OR SCALAR-STANDING WAVE TEMPLATES* THAT MAKE UP THE BLUEPRINT FOR HUMAN DNA.

- IN THE EARTH HUMAN LINEAGE KNOWN AS THE *ADAMI-KUDMON HUMAN* 7 *ROOT RACES* AND 5 *CLOISTER RACES* WERE SEEDED. EACH *ROOT RACE* EVOLUTION CYCLE DEVELOPED 1 OF THE *FIRST 5* STRANDS OF DNA WITHIN THE 12-STRAND DNA TEMPLATE. EACH *CLOISTER RACE* CARRIED THE *7TH THROUGH 12TH* DNA STRAND TEMPLATE CORRESPONDING TO THE HIGHER DIMENSIONAL DENSITY SYSTEMS. ROOT RACE INCARNATES ARE CALLED *EARTH SEEDS* AND CLOISTER RACE INCARNATES ARE CALLED *STARSEEDS*. THE CLOISTER RACES KEEP THE 12 STRAND DNA TEMPLATE POTENTIALS ALIVE WITHIN THE EARTH HUMAN GENE POOL, AND REPRESENT THE *ADVANCED STAGES* OF HUMAN EVOLUTION.

- THE CLOISTER RACE HUMAN *12-STRAND DNA TEMPLATE* IS KNOWN AS THE *DIAMOND SUN DNA*. CONSCIOUSNESS INCARNATING INTO DIAMOND SUN CLOISTER RACE BIOLOGY ENTERS FROM THE *10TH THROUGH 12TH DIMENSIONS*. INCARNATIONS IN *ROOT RACE BIOLOGY* ENTER FROM THE *3RD THROUGH 6TH DIMENSIONS*. ALL ROOT RACE HUMANS HAVE THE POTENTIAL TO RECEIVE GENETIC ACCELERATION THROUGH *BIO-REGENESIS TECHNOLOGY* THAT WILL ALLOW FOR REGENERATION OF THE 12-STRAND CLOISTER RACE DNA TEMPLATE.

- THROUGHOUT THE COURSE OF EARTH HUMAN HISTORY THERE HAS BEEN FURTHER HYBRIDIZATION WITH VARIOUS INTERSTELLAR RACES, CREATING MORE VARIETIES OF STARSEEDS AMONG THE EARTHSEED ROOT RACE POPULATIONS.

AT VARIOUS TIMES IN EARTH HUMAN EVOLUTION CERTAIN FAMILIES OF *CLOISTER RACE* HUMANS WERE FURTHER *GENETICALLY ENHANCED* THROUGH HYBRIDIZATION WITH THE *SEED RACE* OUT OF WHICH THE ORIGINAL "ANGELIC" *TURANEUSIAM* HUMAN LINEAGE EMERGED. THE SEED RACE OF THE HUMAN IS CALLED THE *ORAPHIM*.

THE *ORAPHIM* HUMAN SEED RACE IS A *COMPOSITE GENETIC CODE* OF *SIRIAN AZURITE* FROM DENSITY-2 (DIMENSIONS 4-6), *LYRAN-SIRIAN ANUHAZI* FROM DENSITY-3 (DIMENSIONS 7-9), *ELOHEI EMERALD ORDER* FROM DENSITY-4 (DIMENSIONS 10-12) AND THE *FOUNDERS RACE MELCHIZEDEK CLOISTER BRENOUA* FROM DENSITY-5 (DIMENSIONS 13-15).

THE HUMAN CLOISTER ORAPHIM HYBRID IS KNOWN AS AN *EMERALD ORDER ORAPHIM*. IN CONTEMPORARY TIMES THEY ARE REFERRED TO AS "*INDIGO CHILDREN*". THE DNA TEMPLATE OF AN EO-ORAPHIM HAS A *24-48 DNA STRAND POTENTIAL*, WHICH ALLOWS FOR *BIOLOGICAL IMMORTALITY* AND FULL *BIOLOGICAL TRANSMUTATION* OUT OF THE DIMENSIONALIZED TIME MATRIX WHEN FULLY ACTIVATED.

THE EMERALD ORDER ORAPHIM *24-48 STRAND DNA TEMPLATE* (WHICH CONTAINS WITHIN IT THE ORIGINAL HUMAN 12-STRAND DNA TEMPLATE, PLUS THE ADDITIONAL CODING) IS CALLED THE *EMERALD SUN DNA*. ORAPHIM HUMANS ARE KNOWN AS THE *PRIMARY "GRAIL" LINES*, THOSE CARRYING THE "*HOLY GRAIL*", OR DNA TEMPLATE DESIGN THAT CAN FULLY TRANSMUTE OUT OF MATTER AND HOLD ULTRA-TERRESTRIAL (BEYOND-TIME) CONSCIOUSNESS IN EMBODIMENT. CONSCIOUSNESS INCARNATING INTO THE *EMERALD SUN ORAPHIM BIOLOGY* ENTERS FROM A MINIMUM OF THE *13TH DIMENSION*. THE PRIMARY GRAIL LINES AMONG EARTH HUMANS, ENTERED INTO EARTH'S GENE POOL 800,000 YEARS AGO, LATER BECAME THE LINEAGE THROUGH WHICH *JESHEUA MELCHIZEDEK S "CHRISTIAC" FAMILY LINES* EMERGED FOLLOWING HIS BIRTH IN 12BC.

THE EMERALD SUN ORAPHIM "FOUNDERS" GENOME ACCELERATES THE EVOLUTION OF EARTH HUMAN POPULATIONS. THE EMERALD AND DIAMOND SUN ORAPHIM AND CLOISTER RACE HYBRID-HUMANS COLLECTIVELY REPRESENT THE *PRIMARY GRAIL LINES* OR "CHRISTIAC" LINES AMONG EARTH HUMAN POPULATIONS.

- A *SECONDARY GRAIL LINE* EMERGED WITHIN EARTH HUMAN POPULATIONS ABOUT 248,000 YEARS AGO THROUGH HYBRIDIZATION WITH THE *NEPHILIM RACE*. THE NEPHILIM RACE IS A HYBRID RACE OF *CLOISTER HUMAN* FROM PREVIOUS EARTH SEEDINGS COMBINED WITH THE *SIRIAN ANUNNAKI* RACE STRAIN. THE NEPHILIM RACE BIOLOGY CONTAINS THE 9 THROUGH 11 STRAND DNA TEMPLATE OF THE DENSITY-3 & 4 (DIMENSIONS 9-11) *RUBY ORDER NEPHILIM-ELOHIM*. THE NEPHILIM-ELOHIM *9-11 STRAND DNA TEMPLATE* IS CALLED THE *RUBY SUN DNA*. IT ALLOWS FOR BIOLOGICAL TRANSMUTATION INTO THE ETHERIC THROUGH PRE-MATTER HYDRO-PLASMIC FORMS OF DIMENSIONS 9-11. CONSCIOUSNESS INCARNATING IN THE *RUBY SUN BIOLOGY* ENTERS FROM THE *9TH THROUGH 11TH DIMENSIONS*.

- THE RUBY SUN NEPHILIM-ELOHIM HUMAN LINEAGE LATER BECAME THE FAMILY LINES OF *PHARAOH AKHENATON* AND THE "CHRISTIAC" *SECONDARY GRAIL LINE* OF *JESHEWUA AHUMBRA* AFTER HIS BIRTH IN 7BC. THE RUBY SUN NEPHILIM-ELOHIM HYBRID RACE ASSISTS IN THE EVOLUTION OF EARTH HUMAN RACES THAT HAVE SUFFERED GENETIC DIGRESSION DUE TO DETRIMENTAL HYBRIDIZATION WITH THE *SIRIAN ANUNNAKI* AND *ANUNNAKI-DRAKONIAN* REPTILIAN RACES.

- *TWO OTHER PRIMARY HYBRID HUMAN STARSEED* LINES EXIST AMONG THE ROOT RACE POPULATIONS, BOTH CARRYING *DIGRESSIVE DNA TEMPLATES* THAT BLOCK THE ABILITY OF FULL BIOLOGICAL TRANSMUTATION OUT OF TIME, AND ALLOW FOR LIMITED EMBODIMENT OF HIGHER DIMENSIONAL CONSCIOUSNESS. THESE ARE THE *ANNU-ELOHIM* LINES OF DIGRESSIVE ANUNNAKI AND NEPHILIM RACES AND THE *NEPHEDEM-DRAKONIAN* REPTILIAN HUMAN LINES.

- THE ANNU-ELOHIM HYBRIDS HAVE UP TO *11 STRAND DNA TEMPLATE* POTENTIAL, CALLED THE *LOW BELIL SUN DNA*. THE *NEPHEDEM-DRAKONIAN HYBRID* HAS A *10-STRAND DNA TEMPLATE* POTENTIAL CALLED THE *BLACK SUN DNA*. LOW BELIL AND BLACK SUN BIOLOGY CAN TRANSMUTE NO HIGHER THAN *DENSITY-2*.

- DIGRESSIVE HYBRID STRAINS CAN RECEIVE BIO-REGENESIS TO HEAL DNA TEMPLATE DISTORTIONS. BELIL SUN HYBRIDS ARE INCARNATE *ANNU-ELOHIM*. BLACK SUNS ARE INCARNATE *SERAPHIM*.

- RUN BY THE ANNU-ELOHIM LOW BELIL TEMPLAR AND AXIOUS SUN SIRIAN, PLEIADIAN, ARCTURIAN, ANDROMEDAN AND ORION RACE LINES AND OTHERS DESIRING TO LIMIT THE EVOLUTIONARY POTENTIAL OF THE EARTH-HUMAN LINEAGE.
- OBJECTIVE IS TO GENETICALLY DIGRESS EARTH-HUMANS OUT OF THE 12-STRAND DNA POTENTIAL AND ENHANCE THE ANUNNAKI GENETIC POTENTIAL BY HYBRIDIZING BETWEEN THE ANNU-MELCHIZEDEK RACES,AND ALLOW ANUNNAKI DOMINION OF THE INTERPLANETARY TEMPLAR COMPLEX AND EARTH UNDER DICTATORSHIP OF THE ANNU-ELOHIM.
- BELIL SUN DIGRESSIVE LINES OF THE KNIGHTS TEMPLAR AND RELATED OCCULT SCHOOLS
- PRESENTLY USING NEW AGE MOVEMENT DISTORTED ASCENSION TEACHINGS TO CREATE PARTIAL DNA ACCELERATION FOR COVERT MATRIX TRANSPLANT IN HUMANS.
- HOLD ONE-WORLD-ORDER AGENDA, OFTEN USE RELIGIOUS IDOLS, "ANGEL" COMMUNICATIONS AND STARSHIP DISPLAYS AS CONTACT METHODS.
- ASSOCIATED WITH THE SIRIAN ANUNNAKI, PLEIADIAN-NIBIRUIAN BLONDES, NEPHILIM ANNU-MELCHIZEDEKS, SOME DIGRESSIVE ZETA AND AZURITE SIRIANS, ARCTURIAN. ANDROMEDA, AND ORION VISITOR RACES ARE ATTEMPTING TO LEAD HUMAN ILLUMINATI GOVERNMENT AWAY FROM DRAKONIAN CONTRACTS, TO RUN THEIR OWN OWO AGENDA.
- OFTEN USE NAMES AND APPEARANCES OF LEGITIMATE GUARDIAN VISITORS FOR CONTACT AND INFLITRATION

AGENDA 3- THE BLACK SUN VISION

THE REPTILIAN RACE DRACO-ZETA AGENDA

- ANCIENT ROOTS IN NEPHEDEM HUMAN-DRAKONIAN EARTH FAMILY LINES. ORCHESTRATED THE COUNCIL OF NICAEA,THE ALBIGENSIAN CRUSADES THE LATER CRUSADES AND PRESENTLY MAKES UP THE MAJORITY OF THE HUMAN ILLUMINATI WORLD MANAGEMENT TEAM, COVERT WORLD GOVERNMENTS AND MJ-12
- CONTEMPORARY TREATIES WITH THE RIGELIAN-ZETA-ZEPHELIUM RACES IN THE 1930'S BROUGHT REINFORCEMENT TO THE NEPHEDEM-HUMAN ONE-WORLD ORDER DOMINION AGENDA. ZETA TREATIES WITH THE DRAKONIAN ORION RACES IN THE 1980'S RENDERED THE HUMAN NEPHEDEM UNDER THE DICTATORSHIP OF THE ZETA-DRACOS ALLIANCE.
- RUN BY THE SERAPHIM REPTILIAN COLLECTIVE IN DIMENSION 10, AND THE ORION DRAKONIAN COLLECTIVE SEEK HYBRIDIZATION TO IMPROVE STATURE OF NEPHEDEM HUMAN AND ZETA LINES FOR TAKEOVER OF EARTH TERRITORIES AND GENOCIDE OF THE DIAMOND AND BELIL SUN HUMAN LINES
- INSTIGATED FOR THE 1943 PHILADELPHIA EXPERIMENT 1983 MONTAUK PROJECT THE HAARP PROJECT "STAR WARS' SYSTEM: CHEMTRAILS INTENDED BIOLOGICAL EXTERMINATION AND WAR IN VARIOUS REGIONS FOR POLITICAL AND FINANCIAL GAIN INVOLVED WITH FORMING THE FEDERAL RESERVE WORLD BANKING SYSTEM, THE JFK SHOOTING, ARE THE COVERT FORCE BEHIND MANY MULTI-NATIONAL CORPORATIONS AND THE PHARMACEUTICAL INDUSTRIES AS WELL AS COVERT SCI-TECH AND WEAPONS DEVELOPMENT OPERATIONS.
- OBJECTIVE IS TO REDUCE ALL BUT REPTILIAN POPULATIONS FOR PLANETARY TAKOVER AND RESETTLEMENT. DESIRE EARTH CHANGES AND WAR, IF NECESSARY, TO CLEAR THE REAL ESTATE. MANY NEPHEDEM HAVE DEFECTED TO BELIL AGENDA ASSOCIATED WITH DRAKON. DRACOS, NEPHEDEM, PLEIADIAN BELI-KUDYEM DRACO-ANUNNAKI KURENDARA NIBIRUANS, SOME NEPHILIM NIBIRUAN BLONDS AND OTHERS

GUARDIAN RACES INTERVENTION

- RESIDENTS OF PARALLEL EARTH CALLED THE *FREEDOM FIGHTERS*, WHO HAVE NOT FALLEN UNDER THE MASS MIND CONTROL HAARP TECHNOLOGIES OF THE PARALELL EARTH GOVERNMENT, HAVE BEEN TRYING TO CONTACT THEIR PARALLEL SELVES HERE TO WARN THEM, AND IT IS BECAUSE OF THESE PETITIONS THAT GUARDIAN RACES INTERVENED ON OUR EARTH.
- GUARDIAN RACES ARE TRAINING SMALL GROUPS TO ORCHESTRATE "PLANETARY SHIELDS CLINICS" UTILIZING INTERNAL SCALAR-GRID MECHANICS TO HELP THEM SEVER THE TIME VECTORS BETWEEN EARTH AND PARALLEL BEFORE 11/2000 AND TO ASSIST IN CLEARING DISTORTIONS IN THE PLANETARY SHIELDS.
- GUARDIAN RACES ARE ALSO TRYING TO EDUCATE US ABOUT THE COVERT INTRUDER AGENDAS SO WE CAN BEGIN MAKING DIFFERENT CHOICES HERE; CHOICES THAT STOP THE INTRUDER DRAMA WHICH OCCURRED ON PARALLEL EARTH FROM MANIFESTING HERE.
- DUE TO THE PHYSICS DYNAMICS OF THE STELLAR ACTIVATIONS CYCLE AND THE COVERT INTRUDER AGENDAS, EARTH IS IN A DELICATE POSITION BOTH POLITICALLY AND GEOPHYSICALLY BETWEEN 2000-2017. GUARDIAN RACES ARE DOING EVERYTHING THEY CAN TO ENSURE EARTH'S SAFE PASSAGE THROUGH THIS PERIOD, BUT THEY NEED US TO BE AWARE OF THE BIG PICTURE SO WE CAN BEGIN TO HELP OURSELVES.

WE HAVE LEARNED ABOUT:

- EOMC VISITORS; THAT ET VISITATION AND HYBRIDIZATION HAVE BEEN ONGOING THROUGHOUT HUMAN HISTORY, AND HOW THIS KNOWLEDGE HAS BEEN REPRESSED IN HUMAN CULTURE THROUGH EVENTS SUCH AS THE COUNCIL OF NICAEA 325 AD ANI THE ALBIGENSIAN CRUSADE 1209-1244 AD.
- HISTORICAL AND CONTEMPORARY HUMAN CONFLICT HAVING ITS ROOTS IN THE CONFLICTS BETWEEN THE 3 ANCIENT HUMAN-HYBRID RACES, THE DIAMOND SUN GRAIL LINES, THE BELIL SUN ANUNNAKI LINES AND TH BLACK SUN NEPHEDEM DRAKONIAN LINES.
- THE ANCIENT STELLAR RACES NOW RETURNING TO CONTACT AND REINFORCE THEIR HYBRID LINES FOR IMPLEMENTATION OF EARTH CONTROL AGENDAS, DUE TO THE 2000-2017 STELLAR ACTIVATIONS CYCLE AND OPENING OF THE AMENTI STAR GATES.
- HUMANITY HAVING A CHOICE TO SEE THE BIG PICTURE AND OPPORTUNITY TO ENTER THE DIAMOND SUN VISION OF THE EMERALD COVENANT, TO LEARN NEW HEALING TECHNOLOGIES & BEGIN SUBTLE CONTACT.

EACH INDIVIDUAL ENCOUNTERING THIS INFORMATION
IS FACED WITH A CHOICE
AS TO HOW MUCH THEY ARE WILLING TO KNOW
AND HOW MUCH THEY DESIRE TO GROW.
FOR THOSE WHO DESIRE TO LEARN MORE,
KNOWLEDGE WILL CONTINUE TO BE PROVIDED.

SOLUTIONS

- AWARENESS OF THE BIG PICTURE WILL ALLOW US TO MAKE INTELLIGENT CHOICES AS TO WHAT AGENDAS **WE WILL CONTINUE TO ALLOW TO AFFECT US.**
- IF WE ARE WILLING TO RAPIDLY LEARN TECHNIQUES OF DNA TEMPLATE BIO-REGENESIS, WE CAN CREATE BIOLOGICAL IMMUNITY TO INTRUDER MIND CONTROL MANIPULATION AND EMP, SCALAR AND BIO-GENOCIDE TECHNOLOGIES, WHILE SIMULTANEOUSLY EXPANDING OUR CONSCIOUSNESS INTO THE INTERDIMENSIONAL FIELDS.
- AS INDIVIDUALS WE CAN LEARN TO FIRST CREATE OUR PERSONAL SECURITY, THEN BECOME INVOLVED WITH THE BIG PICTURE EVENTS TO ASSIST OUR PLANET THROUGH 2000-2017.
- CONTACTEES AND ABDUCTEES ARE IN A UNIQUE POSITION. MANY ARE BEING GROOMED AS AMBASSADORS TO ASSIST IN THE COMING INTRODUCTION OF VISITOR RACES INTO THE PUBLIC ARENA. IT IS IMPORTANT TO DISCOVER WHO ONE IS IN CONTACT WITH, AS MANY PEOPLE ARE BEING GROOMED FOR MIND CONTROL OR TO UNKNOWINGLY SERVE ONE-WORLD-ORDER-AGENDAS.
- IT IS ALSO IMPORTANT FOR CONTACTEES TO REALIZE THEY ARE CHOSEN BECAUSE OF THEIR GENETIC MAKEUP AND GENETIC RELATIONSHIP TO VARIOUS VISITOR GROUPS; IF ONE IS GENETICALLY CONNECTED TO MANIPULATIVE VISITORS, THIS VULNERABILITY CAN BE HEALED THROUGH BIO-REGENESIS TECHNIQUES AND THE SCIENCE OF SPIRITUAL DEVELOPMENT.

POSTURING FOR EMPOWERMENT IN CONTACT

- VIEW YOJRSELF AS AN EQUAL TO ANY VISITOR KNOWING THAT YOU HAVE THE POTENTJAL TO BE JUST AS EVOLVED AND ADVANCED THROUGH INTEGRATION OF YOUR HIGHER DIMENSIONS OF CONSCIOUSNESS AND ACTIVATION OF YOJR DORMANT DNA.
- HOLD YOUR OWN POWER OF DECISION AND AUTHORITY OVER YOUF EVOLUTIONARY DESTINY LEARN TO CONNECT DIRECTLY TO YOUR OWN INNATE 12-DIMENS ONAL AVATAR "INNER CHR ST" DENTITY TO ESTABLISH A DIRECT PERSONAL CONNECTION TO THE ONE-SOURCE OF CREATION YOU CAN LEARN FROM VISITORS BUT LET NO OTHER BEING STAND BETWEEN YOU AND YOJR PERSONAL CONNECTION TO SOURCE YOU DO NOT NEED INTERMED.AR ES TO MAKE THE "GOD-CONNECTION" FOR YOJ YOU ONLY NEED INTEGRATION OF YOUR OWN HIGHER DIMENS ONAL IDENTITY LEVELS.
- BE W LLING TO TAKE RESPONSIBILITY FOR YOUR OWN CONSCIOUS EVOLJTION AND DON'T EXPECT OTHERS. ON EARTH OR AMONG THE VISITORS. TO DIRECT YOUR EVOLUTION FOR YOJ BECOMING RESPONSIBLE FOR YOURSELF AND YOJR MULTID MENSIONAL ANATOMY IS PART OF GROWING JP TO SPIRITJAL MATURITY
- BE WILLING TO LEARN THE REALITY OF THE SPIRITUAL LAW OF ONE AND THE SCIENTIFIC LAWS OF UNIVERSAL JNIFIED FIELD PHYSICS. SO YOU CAN BECOME COMPETENT IN MANIFESTING WHAT YOU DESIRE TO EXPERIENCE AND SO LEARN HOW TO WORK IN KINDNESS NON-JUDGEMENT COOPERATION, UNCONDITIONAL LOVE AND RESPECT FOR ALL OTHER LIFE FORMS
- MAKE REMEMBERING AND OPERATING FROM YOUR SP RITUAL CENTER (HIGHER DIMENS ONAL CONSC OUSNESS) THE FIRST PRIORITY IN YOJR LIFE AND REALIZE THAT YOJ DO NOT NEED A FORMAL RELIGION TO ACHIEVE SP RITUAL ACTUALIZATION
- REALIZE THAT THE RIDDLES OF VISITOR CONTACT WILL BECOME SOLVED AS YOJ COME TO UNDERSTAND THE NATURE OF YOUR ETERNAL SELF, AND THAT SP RITUAL MATURITY *INCLUDES* LEARNING AND MASTERING THE *SCIENCE MECHANICS* OF CONSCIOUSNESS

REALIZING YOUR ROLE AS AN EMPOWERED CONTACTEE

- YOU WERE CHOSEN FOR CONTACT BECAUSE YOU HAVE THE GENETIC POTENTIAL FOR RAPID DNA TEMPLATE BIO-REGENESIS AND ACTIVATION
- BECOMING CONSCIOUSLY INVOLVED WITH YOUR DNA ACCELERATION PROCESS WILL ALLOW YOUR DORMANT GENETIC POTENTIALS AND SPIRITUAL AWARENESS TO AWAKEN MORE QUICKLY
- IN ACCELERATING YOUR OWN POTENTIALS YOU NOT ONLY EMPOWER YOURSELF, YOU ASSIST DIRECTLY IN THE EVOLUTION OF THE HUMAN RACE.
- THROUGH CONSCIOUSLY DIRECTED EDUCATED CONTACT AND EVOLUTIONARY ACCELERATION YOU CAN LEARN ADVANCED KNOWLEDGE DISCOVER WHY YOU CHOSE TO INCARNATE IN THIS LIFETIME, AND REMEMBER WHAT YOU INCARNATED TO DO TO ASSIST IN THE MASS DRAMA TAKING PLACE ON EARTH AT THIS TIME.
- IN YOUR OWN PROGRESSIVE AWAKENING TO YOUR ETERNAL IDENTITY YOU CAN HELP OTHER PEOPLE TO AWAKEN, AND YOU CAN BECOME A HEALING INFLUENCE IN REGARD TO OTHERS AND THE MASS DRAMA.
- IF YOU COMMIT TO AWAKENING YOU CAN ASSIST THE PRO-HUMAN VISITOR RACES IN MAKING THEIR PRESENCE KNOWN TO HUMAN POPULATIONS IN A NON-THREATENING MANNER.

BY SINCERELY WORKING WITH PRINCIPLES OF SPIRITUAL MATURITY YOU CAN BEGIN TO EXPERIENCE CONSCIOUS CONTACT WITH PRO-HUMAN VISITOR RACES

AS A CONSCIOUS CONTACTEE YOU WILL BE AT THE FRONT OF THE NEW WAVE OF HUMAN EVOLUTION

IF YOU ARE ABLE TO REGENERATE AND ACTIVATE MORE OF THE 12-STRAND DNA TEMPLATE YOU MAY HAVE THE OPPORTUNITY FOR LITERAL BIOLOGICAL STAR GATE PASSAGE OR STAR-SHIP PICK UP TO EXPERIENCE TIME TRAVEL TO MORE ADVANCED FUTURE CULTURES

CLAIMING YOUR RIGHT TO CHOOSE
WHAT NOT TO DO IN VISITOR CONTACT

- BE NAÏVE THINK ALL CONTACT IS BENEFICIAL, VIEW VISITORS AS OUR "CREATOR GODS" "SPACE PARENTS" OR "SAVIORS" *REALIZE HUMANS CAN BE EQUALLY POWERFUL MAJESTIC AND WISE AND THAT OFTEN EARTH HUMANS HAVE MORE SPIRITUAL MATURITY AND MORAL ETHICS THAN MANY OF THE VISITORS.*
- EXPECT HUMAN EXPERTS IN GOVERNMENT RELIGION PSYCHIATRY MEDICINE, ETC TO "SAVE YOU" THEY HAVE LITTLE MORE KNOWLEDGE THAN YOU REGARDING THE REALITIES OF CONTACT *REALIZE THAT YOU CAN BECOME YOUR OWN "EXPERT" AND GUIDE, THROUGH INTEGRATING YOUR OWN HIGHER DIMENSIONS OF CONSCIOUSNESS BIO-REGENESIS TECHNOLOGY PROTECTS YOU DURING AND ACCELERATES THIS PROCESS.*
- BECOME DAZZLED AND SEDUCED BY THE GLAMORS OF VISITOR CONTACT THEY CAN REPRESENT THEMSELVES AS "ANGELS", "GODS" OR KINDLY SPACE-KIN AND CAN DO MANY "STAGE TRICKS" TO DEMONSTRATE THEIR ADVANCEMENT, BUT THIS DOESN'T NECESSARILY MEAN THEY ARE HOLDING A FAIR AGENDA *REALIZE THAT JUST BECAUSE THEY ARE MORE EVOLVED IN CERTAIN WAYS DOESN'T MEAN THEY ARE PERFECT AND FREE OF HIDDEN AGENDAS.*
- ENGAGE CONTACT BEFORE YOU HAVE LEARNED HOW TO FREQUENCY-SEAL YOUR PERSONAL MULTI-DIMENSIONAL BIO-ENERGETIC FIELD *YOU CAN PROTECT YOURSELF FROM COVERT MANIPULATION BY LEARNING SIMPLE BIO-REGENESIS TECHNIQUES AND DISCOVERING THE STRUCTURE OF YOUR 15-DIMENSIONAL ANATOMY THEN YOU CAN PROCEED WITH CONTACT SAFELY*
- SUCCUMB TO FEAR AND FEELING POWERLESS AND VICTIMIZED *EVERY PERSON HAS WITHIN THEM THE POWER AND DORMANT SPIRITUAL (HIGHER CONSCIOUSNESS) WISDOM TO HANDLE CONTAC EFFECTIVELY AND SAFELY ALL CONTACT IS INTENDED TO FOSTER SPIRITUAL GROWTH AND EVOLUTIONARY ACCELERATION.*

The DNA represents twist scalar-wave sequences. Five Letters that correspond to each dimension/sequence of consciousness. Sequences of consciousness are ingrained by into the scalar fields of the dimensions. Process from space-time-matter is achieved by representing the dimensional Five Letters progressively expanding the consciousness and DNA & reinstating the body matrix out of density. There are 48 Primary Fire Letter Sequences/DNA Strands of full light/rainbow through which the consciousness ascends into new dimensional levels of Ascended Mastery
The 15-Dimensional Time Matrix holds 30 Fire Letter Sequences
3 Levels of Identity focused in the Energy Matrix. 3 levels of the Energy Matrix hold 18 Fire Letter Sequences
The 30 Fire Letter Sequences of the Time Matrix + 18 of the Energy Matrix form the 48 Codes of Ascension
The Crysthim genetic matrix of the Indigo Children allows more rapid re-assembly of the 48 DNA Fire Letters/ scalar-wave grids, creating the potential to embody the Avatar identity and open the consciousness to Ascended Master identity Levels. Indigo Children are Avatars and Ascended Masters waiting to awaken

SCALAR-MECHANICS-
THE TECHNOLOGIES OF MIND

- MENTAL IMAGES (LIGHT), THOUGHTS (INNER SOUND) AND WORDS (SOUND) ARE COMPOSED OF THE ENERGY OF CONSCIOUSNESS — PARTIKI UNITS, THE MEDIUM OF CREATION. THEY FORM SCALAR-STANDING WAVE FREQUENCY PATTERNS, THAT DIRECTLY EFFECT THE SCALAR-TEMPLATE OF THE BODY. THOUGHTS ARE THINGS, CONSCIOUSNESS IS ENERGY AND ENERGY IS CONSCIOUS.

- MIND-DIRECTED THOUGHTS, IMAGES AND SOUNDS TRANSLATE INTO ELECTRICAL INSTRUCTIONS WITHIN THE SCALAR TEMPLATE OF THE BODY, MIND AND SUBTLE-BODY ANATOMY

- COLOR REPRESENTS SPECIFIC WAVELENGTHS OF FREQUENCY WITHIN THE MULTIDIMENSIONAL SPECTRUM SPECIFIC COLORS CAN BE USED TO DIRECT SPECIFIC FREQUENCIES WITHIN THE DNA AND BODY TEMPLATE TO CREATE DESIRED RESULTS.

- SYMBOLS AND GEOMETRICAL FORMS REPRESENT SPECIFIC MATHEMATICAL SCALAR-WAVE INSTRUCTIONS THAT ALSO CAN BE USED TO DIRECT FREQUENCY FOR DESIRED RESULTS.

- BIO-REGENESIS TECHNOLOGY USES THE SPECIFIC COLOR AND SYMBOL CONTROL FREQUENCIES OF THE INTERDIMENSIONAL SPECTRUM TO DIRECT SPECIFIC FREQUENCY INTO SPECIFIC REGIONS OF THE BODY AND DNA TEMPLATE, TO CREATE SPECIFIC RESULTS OF HEALING AND FORTIFICATION WITHIN THE BODY-MIND-SPIRIT SYSTEM.

Temporary Maharic Seal Bio-Regenesis Technique

Short Version of the Maharic Seal™ Bio-field Clearing, Alignment and Protection Technique from the Kathara Bio-Spiritual Healing System™ Program. For temporary restoration and maintenance of personal Bio-Field Integrity and Physical Revitalization.

Prior to use: Read through the steps and practice the visualizations and their sequence slowly, for familiarity

1. Imagine the 2-dimensional image of a "Merkaba Star" or six-pointed "Star of David," in the color of Pale Silver, as if the image is drawn on a black background on the inside of your forehead. This image represents a composite scalar wave pattern **Keylontic Symbol Code** called the "Hierophant." Its color denotes the frequency spectra of the 11th and 12th Dimensions, and its form, combined with these color frequencies, represents the control code of the 12th dimensional frequency band. It is the Key Code to unlock the 12th-Dimensional Maharic Shield in the personal and planetary scalar grids.
2. INHALE, while visualizing the Hierophant Symbol at the center of the brain, in the Pineal Gland.
3. EXHALE, while using the exhale breath to firmly move the Hierophant down the Central Vertical Body Current (energy current in the center of the body), then out between the legs and straight down into the Earth's core (your 13th Chakra).
4. INHALE, while imagining that you can see at Earth's core a huge, **Disc-shaped Crystalline Platform of Pale Silver Light** that extends outward on a horizontal plane through the entire body of the Earth and out into the atmosphere. Visualize the Hierophant suspended in the center of the disc (this image represents the Planetary Maharic Shield: the scalar wave grid composed of dimension 10,11,12 frequency, with the Hierophant Key Code positioned to activate the Planetary Shield.)

5 EXHALE while pushing your breath outward into the Earth's Maharic Shield, imagining as you exhale that the force of the breath has made the **Earth's Maharic Shield** begin to spin.

6. INHALE, using the inhale breath to draw **Pale Silver Light** from Earth's spinning Maharic Shield into the Hierophant positioned at the center of the Planetary Shield.

7 EXHALE, using the exhale breath to push the Pale Silver Light throughout the entire Hierophant, making the Hierophant glow and pulsate with Pale Silver Light.

8 INHALE, imagine that the glowing Pale Silver Hierophant momentarily flashes Crimson Red and returns to Pale Silver. Then use the inhale breath to draw the Hierophant **vertically up** from its position at Earth's core, to a position 12" below your feet (the position of your dormant personal Maharic Shield scalar wave grid). As you inhale the Hierophant upward from Earth's core, imagine that it trails a **thick cord of Pale Silver Light** behind it. One end of the **Silver Cord** remains attached to Earth's core, the other attached to the Hierophant. (The Cord represents an "Energy Feed Line" through which you will draw energy up from the Earth's Maharic Shield into your personal Maharic Shield.)

9 EXHALE with your attention on the Hierophant positioned 12" below your feet and use the exhale breath to push a **burst of Pale Silver Light** outward on a **horizontal plane** from the Hierophant. Imagine that a **Disc-shaped, Crystalline Platform of Pale Silver Light** about 4' in diameter, extends on a horizontal plane 12" beneath your feet around the Hierophant at its center. (This image represents your personal Maharic Shield.)

10 INHALE while using the inhale breath to draw more **Pale Silver Light** up through the **Pale Silver Cord** from Earth's Core, into the Hierophant at the center of your personal Maharic Shield.

11 EXHALE, using the exhale breath to push the Pale Silver Light **from the Hierophant** out **into your Maharic Shield.** Imagine that your Maharic Shield now **pulsates**, as it fills with the Pale Silver Light from Earth's Core.

12 INHALE again drawing more Pale Silver Light up from Earth's Core through the Pale Silver Cord into the Hierophant, and imagine the **Pale Silver Cord expanding to four feet in width** forming

a **Pillar of Pale Silver Light** running up from Earth's Core **directly into your four-foot-diameter Maharic Shield.**

13 EXHALE again, using the exhale breath to push **Pale Silver Light from the Hierophant** outward into your Maharic Shield, while imagining that your Maharic Shield **"takes on a life of its own,"** the disc suddenly **"folding upward"** with a **"popping"** sensation, to form a **4' diameter PILLAR of Pale Silver Light** all around and running through your body. (This is your Maharic SEAL, a temporary scalar-wave pillar of dimension 10/11/12 frequency light that blocks out disharmonic frequencies from dimensions 1 through 12, and begins to realign disharmonic frequencies in your body and bio-field to their original perfect natural order)

14 INHALE, imagining that the inhale breath draws the Pale Silver Light **from the Pillar encasing the body into every body cell.** Sense the tingling feeling as the Pale Silver Light moves through the physical body.

15 EXHALE, imagining that you can feel the energy of the Pale Silver Light **expanding into every crevice of the body** and then **outward around the body** into the Bio-field.

16 Breathe naturally for a minute or two, as the feeling of the Pale Silver Light moves through you, while **sensing the energy presence** of the Maharic Seal Pale Silver Pillar 4' around your body. The more time you spend breathing and sensing the energies, the more dimension 10/11/12 frequency you are drawing into your Pillar, which will increase the length of time the Maharic Seal Pillar will remain in your Bio-field.

17 Return your attention to the Hierophant still positioned 12" below your feet.

18 INHALE, using the inhale breath to draw the Hierophant up through your Central Vertical Body Current, then out the top of your head (the 7th "Crown" Chakra) to a point about 36" above the head (the 14th Chakra).

19 EXHALE FORCEFULLY, using the exhale breath to **rapidly expand the Hierophant outward** on a horizontal plane at the **14th Chakra,** until the Hierophant suddenly "disappears" from view with a mild "popping" sensation.

20. Breathe normally, while visualizing for a moment a **brilliant 4' Pale Silver Pillar of Light** extending from the **Earth's Core** upward, **fully encasing your body** and extending far above the head into Earth's atmosphere and to a **single Star of Pale Blue Light** far off in deep space. Your Maharic Shield is now temporarily activated, and your Maharic Seal Pillar is temporarily manifest within your Bio-Field. The Maharic Seal will remain in your Bio-field anywhere from 20 minutes to 1 hour at first. The more this exercise is practiced, the longer the Pillar will remain.
21. For **quick reinforcement of the Maharic Seal** once the full process has been run within 24 hours. Simply imagine a **spark of Pale Silver Light** at the Pineal Gland, exhale it rapidly down to **Earth's Core** and imagine the Earth's Maharic Shield **spinning**. Call to mind the **Pale Silver Cord** and **Inhale** the 4" diameter Cord all the way up around you, **forming the Pillar,** attaching it "out in deep space" to the Star of Pale Blue Light.

The Short Version of this technique provides a "**manually created" temporary Maharic Seal** in your Bio-Field, and **requires manual resetting every 24 hours** with **frequent reinforcement during the day.** Using and practicing the **full version** of this technique as described in the *Kathara Bio-Spiritual Healing System™ Level-I Maharic Recoding Process™* **will progressively program the Cellular Memory of the body to hold the Maharic Seal for prolonged periods of time.** With consistent practice of the **full technique** over an extended period of time, the Maharic Seal will function **automatically** as a permanent fixture within your Bio-field.

In the meantime, the **Short Version** of this technique, coupled with **reinforcement throughout the day,** will provide **Bio-field protection** and **gentle, regenerative Core Template realignment** for all aspects of the physical and Subtle-Energy Body systems. **It is recommended to use at least this Short Version of the Maharic Seal technique prior to ANY energy work, "channeling," or Astral and Dream Projection.** It will not only **provide protection** from disharmonic energies, it will also **amplify the results you desire to gain** from these activities.

It is best to use the Maharic Seal daily. Used in the **morning** before starting your day, the Maharic Seal will help to **harmonize personal and environmental energies** throughout the day. Used in the **evening** prior to sleep, it will begin to **increase conscious memory of sleep-time experience** and will protect your consciousness and body from dis-harmonic energies while you sleep.

The Maharic Seal™ is a **Keylontic Science scalar-wave technology** built upon the **advanced scientific principles of 15-Dimensional Partiki Mechanics and Unified Field Vibrational Mechanics** and the advanced spiritual principles of **Merkaba Mechanics** and **the Law of One.** Further exploration of these advanced spiritual sciences is Presently available through the training course of the *Kathara Bio-Spiritual Healing System™ Certificate Program* and through the introductory *Tangible Structure of the Soul-Accelerated Bio-Spiritual Evolution Program™* audio course both available from the Azurite Temple of the Melchizedek Cloister. TECHNIQUE 1: VISITOR DIFFERENTIATION

ENERGY SENSING

Visitor Contact is an Interdimensional Phenomenon To become empowered in Visitor Contact it is necessary to be aware of the Multidimensional Spectrum and to develop at least rudimentary skill in Higher Sensory Perception, so you can make intelligent assessments regarding what posture to take in a Contact Experience

The Interdimensional Spectrum is composed of sets of subtle energy frequency bands awakening the natural attribute of Higher Sensory Perception is the process of attuning the mind and inner sensory faculties to the subtle-energy frequency spectrum Always use the Maharic Seal Technique before any energy work for protection and to retain personal bio-field integrity

A. ENERGY SENSING - DIFFERENTIATING ENERGY SIGNATURES

Every living thing and every object in manifestation has its translation in terms of energy frequency the specific frequency pattern inherent to a form is called its Energy Signature In contact experience it is useful to become skilled in identifying energy signatures in the subtle-energy frequency spectrum as Visitors most often initiate contact from the higher dimensional frequency spectrum, which is not detectable from the usual 3-dimensional sensing faculties In becoming adept at sensing energy signatures, you can determine whether Visitors are present and assess the nature of the visiting presence by the frequency it carries

Exercise 1: Detecting Variations in Frequency

Select several objects of a size you can hold in your hand

1 Choose the first object observe its contours with your eyes and feel its apparent weight, first in the left hand, then in the right hand
2 Close your eyes and place the object in your RIGHT PALM
3 INHALE, drawing the breath into the center region of the breast (4th Heart Chakra)

4 Then use the EXHALE breath to push the energy of your attention down the RIGHT ARM and through the RIGHT PALM into the object you are holding.

5 Transfer the object to the LEFT PALM and INHALE the energy signature of the object up the RIGHT ARM to the 4th Heart Chakra.

6. EXHALE the energy drawn up through the RIGHT ARM into the Heart Chakra, and try to sense the specific "feel" of this energy signature around the shoulder area. Steps 1-6 bring an imprint of the object's energy signature into your 4th dimensional astral body.

7 INHALE, then use the EXHALE breath to move the energy signature down to the region just below the Navel at the center of the body (the 2nd Sacral Chakra).

8 INHALE, then use the EXHALE breath to push the energy signature from the 2nd Chakra out on a horizontal plane just below the Navel. Sense the "feeling" of the energy signature from this area. Steps 7-8 bring the frequencies of the energy signature into the 2nd-dimensional emotional body sensory facility where a stronger sensation of energy distinction can be detected.

9 Try steps 1-8 again with the next object and focus your attention on sensing the differences between the various energy signatures carried by each object. **Through practice of this process your neurological system will begin to develop greater sensitivity to reading and detecting differences between subtle energy frequencies.**

Exercise 2: Remote-Reading Energy Signatures

Pick an object several feet away from your body as a target for remote-reading an energy signature.

1 INHALE and imagine that the breath draws energy into your 4th Heart Chakra.

2 Use the EXHALE breath to push a cord of White energy from your 4th Chakra to the target object.

3 INHALE, then use the EXHALE breath to expand and project part of the energy of your consciousness through the energy cord all the way into and around your target object.

4. Use the next INHALE breath to draw the energy you projected into the object back through the cord into your 4th Chakra. EXHALE,

spreading the energy signature of the object out from the 4th Chakra to a position around your shoulders. Sense the "feeling" of the energy signature.

5. Next try steps 1-4 with objects further away, then try it with objects or locations from memory that are no longer in the same space time with your body.

6. Try steps 1-4 with photographs of people, places and objects to sense the information contained within their energy signature. This process further develops the neurological structure to detect and distinguish between subtle energy frequencies.

B. ENERGY SENSING - LOCATING ENERGY SIGNATURES

Our bodies and consciousness are composed of energy that manifests in the form of dimensionalized frequency spectra. Every object has an intrinsic energy signature in subtle-energy frequency, but objects and life forms are not the only things that are composed of frequency. Manifest objects represent the "positive space" in our 3-dimensional perceptual field, and the "space between objects" represents the "negative space", or the portion of the interdimensional frequency spectrum that does not process through our perceptual faculties; thus we perceive the "space between objects" as "blank" or "vacant space". The entire perceptual field before us is in truth a Unified Field of Frequency. Vacant space represents only the portions of the Unified Field we are not perceiving through our 3-dimensional senses. Visitors utilize the interdimensional spectrum for monitoring and subtle contact, and they are often actively present within our perceived "vacant space", just beyond our usual frequency range. We can become skilled at detecting and locating subtle visitor presence, and the activity of other layers of reality that take place within the vacant space, if we learn to employ the natural attributes of our consciousness in specific ways.

Exercise 1: Locating Energy Fields Dimensional Grid Scan

1. **INHALE**, then use the **EXHALE** breath to **project a field** of your consciousness from your 4th Heart Chakra into the room you are in, as if your consciousness fills every nook and cranny in the space. Take several breaths if necessary, projecting and expanding with the **EXHALE** more of your consciousness from your 4th Chakra into the

room, until you can sense around the shoulder area, the "feel" of the boundaries of the room around you.

2. Breathe normally, and close your eyes, focusing your attention into a dark space on the inside of your forehead. Imagine that you can now see within the **dark space on the inside of your forehead** the room or space you are reading as an image of a 3-dimensional **"Cross-hatched Grid"** of energy light, the Grid of the room appearing as lines drawn in light against a black background.

3. Pick the dimensional level of the room you desire to scan by using its **primary color** (wave-length) **frequency** and imagining the Cross-hatched Grid of light in your image turning into lines of light made of the chosen color (dimensional color-frequency spectrum—see pp. 52 and 68).

4. **INHALE**, then use the **EXHALE** breath to **project** the energy of your consciousness into the **center of the Cross-hatched Grid** in your image.

5. Imagine the energy of your consciousness as a small **Point of White Light** positioned in the center of the space created by the Grid.

6. From this Point of awareness, imagine that you are scanning each section of the space inside the Grid for visitors or life forms. In your inner image look for **the presence of other energy fields within the Grid,** that you did not intentionally imagine there. If visualization is difficult for you simply sense the presence of the Grid you created, and "feel" for life-force variations in the energy space inside the Grid.

7. Upon locating an "invisible-from-3-D" presence in your Grid image, open your eyes and sense the location of the room you are in that corresponds to the location in the inner image of the Grid to locate the "invisible visitor" in the room. **With practice of this technique you can learn to quickly locate interdimensional energy presences within a space, and you can also tell from what level in the dimensional frequency spectrum they are initiating visitation.**

Exercise 2: Locating Energy Sweep Scan

Once you train your neurological structure to become sensitized to projecting consciousness into a space for Grid Scanning, you can then take a short-cut to the Grid technique.

1. **INHALE**, then use the **EXHALE** breath to project your consciousness from your **4th Chakra** directly into the space you desire to scan, filling the space with the energy of your consciousness.

2. Sense for the **"feeling" of life-force variations**, beginning with the area of the space farthest away from you, and steadily scan-feel your way back to your body position.

3. Once detecting an area of variation in the space, **INHALE**, then use the **EXHALE** breath to **project a cord** of White energy from your **4th Chakra** to the area of variation, and expand your consciousness into the area to **detect its boundaries**.

4. To detect the **level of consciousness** the visitor holds, breathe normally and use each **EXHALE** breath to project a **color frequency**, starting with the Dimension 12 White color through the cord and into the area.

5. Once projecting a color, sense the area to see if it **registers "life-force"** in that dimensional band, you will have a sensation of "live energy" in **4th Heart Chakra** and around the **shoulders** if the presence in the energy area holds D-12 consciousness.

6. If no presence is sensed at that frequency, use the color frequency of the next dimension down, until you get a "live-energy" sensation. The color frequency in which you get a "live" reading will represent the highest dimensional level of consciousness that presence is capable of holding. This process works well on people in bodies, as well as for visitors from higher dimensions.

Interdimensional Wavelength Color Spectra: D-1 Red, D-2 Orange, D-3 Yellow, D-4 Green, D-5 Blue, D-6 Indigo, D-7 Violet, D-8 Gold, D-9 Silver, D-10 Blue-Black, D-11 Silver-Black, D-12 White, D-13 Turquoise, D-14 Pale Yellow, D-15 Magenta (red-violet/burgundy) *With practice, your neurological system will become sensitized to high-frequency scanning and you will get more detail.*

TECHNIQUE 2: VISITOR DIFFERENTIATION

SYMBOL-LANGUAGE FEEDBACK

When developing skill in Higher Sensory Perception, the various levels of the **multidimensional mind** begin to work more smoothly and effectively in cooperation with the 3-dimensionally conscious mind. **The various 15-dimensional levels of mind** can be simply understood as the **Subconscious Mind** of dimensions 1 and 2, the **Ego Mind** of dimension 3 and the multidimensional **Spiritual Mind** levels of dimensions 4-15. All of the levels of mind are conscious, awake and aware and each represent a **"platform of perception"** through which the Self takes in information from the multidimensional spectrum. The Ego Mind speaks in linear words and language patterns and the various other portions of mind speak in a variety of electrical impulse languages and "direct cognition." The **"language barrier"** between the other levels of mind and the Ego Mind can be bridged by the Ego Mind taking the initiative and creating **Symbol-code Agreements** with the various aspects of mind. In creating Symbol-Code-Agreements the Ego Mind sets a parameter for a specific symbol or shape and assigns a meaning to that symbol. The chosen symbol is then run through the **Chakra System** where its form and direct cognition of meaning are translated into the electrical impulse language of the multidimensional levels of mind. The Ego Mind may then use the **Symbol-Code** to retrieve conscious **feedback** from the various levels of mind. In the following technique a very simple Symbol-Code Agreement will be used to allow the Ego Mind to access greater information regarding **whether or not it is in one's best interest to interact with something.** Among other applications, this technique is very useful in determining if a specific visitor contact is harmful or helpful to your evolution.

1. In this technique the **Symbol-Code** of a Circular **White Sphere** will be used as the Bridging Symbol between the Ego Mind and the other levels of the Multidimensional Mind. The Sphere will symbolize the INTENTION of wholeness, health and positive personal evolution.

2. Hold the image of a White Sphere in mind, visualizing it as a Pure White Sphere of energy on the inside of your forehead. Give the mental affirmation to yourself: **"This image stands for my wholeness and perfection of mind-body-spirit."**
3. **INHALE** and draw the image of the **White Sphere** into the center of the brain at the **Pineal Gland**; then use the **EXHALE** breath to push the White Sphere down **through the center of your body**, out between your legs and deep into the Earth's core.
4. Imagine the White Sphere deep in the Earth at **Earth's core (your 13th Chakra)**; then use the **INHALE** breath to draw the White Sphere back up from the Earth's core through the center of your body and **back to the Pineal Gland. Steps 1-4 set the symbol code and its intention into each Chakra that corresponds to each level of the multidimensional Mind, using the energy currents of the Kundalini at the Pineal and Base of the Spine to carry the electrical impulse translation of the Symbol-Code. This is called Symbol-Code Induction.**
5. Once the Symbol-Code is induced into the bio-energetic field, it becomes an **operational frequency gauge** translating feedback from your other levels of mind to let you know if something is conducive to maintaining perfect alignment of the mind-body-spirit system. You can then imagine a person, idea or object upon the "inner screen" on the inside of your forehead. Place the image of the **White Sphere around the image.**
6. Breathe normally for a minute or two, and observe if the White Sphere remains White in color **or if it begins to grow darker,** ranging from light gray to dark gray to black. **The darker the Sphere becomes the more damaging is the item placed within it to your maintaining perfect alignment of body-mind-spirit.** With repetition and frequent practice, this technique can become an accurate "quick gauge" to give you **practical feedback guidance** from your own highest levels of mind.

TECHNIQUE 3: VISITOR DIFFERENTIATION
THE MAHARIC BOUNDARY TEST

The Maharic Sea Technique previously described is the best way to create rapid protection from undesirable interdimensional influences. The Maharic Sea can also be used to detect whether or not interaction with an interdimensional visitor or communicator is in your best interest. The Maharic Sea will disengage disruptive energies but will amplify and draw closer energies and interdimensional contact that are conducive to your growth. (See p. 53.

1. If you find yourself in an abduction experience or if you are attempting to receive subtle communication from a visitor presence, complete the Maharic Sea Technique to bring up your pillar of 12-Dimensional frequency in your bio-energetic field.

2. Take a moment to sense the boundaries of your Maharic Seal pillar. INHALE focusing the in-breath into your 4th Heart Chakra. Use the EXHALE breath to expand your awareness horizontally out from your 4th Chakra into your bio-energetic field, until your can sense a mild resistance about 4' out in your bio-energetic field, where the scalar-field of your Maharic Sea is positioned.

3. Once you sense the boundaries of your Maharic Seal, INHALE into the 4th Chakra, then use the EXHALE breath to expand more energy from your 4th Chakra out into your bio-energetic field, gently pushing the boundaries of your Maharic Sea outward. Expand the boundaries of your Maharic Pillar outward until the energy of the pillar touches the visitor or energy signature that is attempting communication.

4. If the energy presence or visitor is a dis-harmonic or lower-frequency influence that would be detrimental to your well-being, the 12th-Dimensional frequency of the Maharic Pillar will cause the presence to withdraw and disengage from your bio-energetic field. If the presence is benevolent and contact productive to your growth, your Maharic Pillar will pass through and surround the presence, making contact and communication easier to achieve.

5. Expanding the boundary of your Maharic Sea around you in times of crisis can also deter physical attack from other persons and assist in averting accidents.

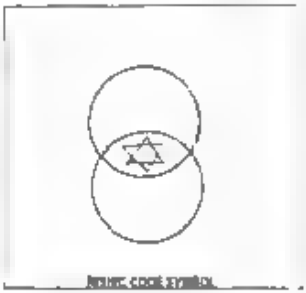
TECHNIQUE 4: VISITOR DIFFERENTIATION

5TH DENSITY GEOMANCY PROJECTION

Geomancies are specific **Symbol-Codes** that possess an energy reality in the form of **scalar-standing-wave configurations** which correspond specifically to the natural order of the scalar-template of particular frequency bands within the interdimensional spectrum. The **5th Density Geomancy** depicted below is a scalar form that corresponds to the 5th through 7th dimensions. This geomancy called the **Rishic Code** serves to link the frequencies of the 1st - 2nd dimensional levels of personal consciousness to the **5th Density** anti-matter **13th-15th dimensional levels of consciousness** forming a **bridge of information transfer** from the 15-dimensional consciousness to the 2-dimensionally aware level of consciousness. The following technique can be used to receive an **impression of Direct Cognition** of information regarding the nature of any Energy Signature. It is especially useful when seeking to detect more information about encounters with interdimensional visitors and can like-wise be used to find more information about other persons in regard to the nature of their relationship to you. **TO INSURE PERSONAL BIO-FIELD INTEGRITY, COMPLETE THE MAHARIC SEAL BEFORE DOING THIS TECHNIQUE**

1 Visualize the **Rishic Code symbol** in the center of your brain at the **Pineal Gland**. INHALE, then use the **EXHALE** breath to push the Symbol down to the **4th Heart Chakra.**

2 INHALE, then use the **EXHALE** breath to push the Symbol out of the 4th Chakra toward the person, being or Energy Signature you desire to better understand. (This can also be done without the person being present, by imagining their image, or a symbol you choose to represent their Energy Signature, positioned in front of your 4th Chakra about 1" out in your bio-energetic field.)



Rishic code symbol

3 Breath normally, and with each **EXHALE** breath imagine the **Symbol expanding around your target** until you can visualize the person, being or Energy Signature stationed at the **center** of the 6-pointed Star (Merkaba Star) in your projected Symbol image.

4 Once the Symbol has expanded to encompass your target, continue to breath normally using each **INHALE** breath to return an imprint of the target's Energy Signature back to your **4th Chakra**. Continue to INHALE the energy imprint back to your 4th Chakra until you begin to sense a "feeling" of its reality and meaning in the 4th Chakra and around the **shoulder** area of your bio-energetic field.

5 As you begin to get an impression of the target's Energy Signature, use the next **INHALE** to draw the Energy Signature up the center of your body, back to the **Pineal Gland** at the center of the brain. Create an **open conduit of energy** between the target, your 4th Chakra and your Pineal Gland, and simply breathe normally, allowing the Energy Signature of the target to move through you. **BE WITH** the energy and clear your mind of thoughts, while you establish a sympathetic energy rapport with the target. Direct cognition come as your mind **stills** within this energetic link.

6 After **"BEING WITH"** the target's Energy Signature for a few minutes, place your attention on the expanded Rishic Code Symbol that surrounds the target. **INHALE** and imagine the Symbol **contracting**, becoming small again, and returning to your **4th Chakra** then up to the **Pineal Gland**. This will disengage the energetic link between you and the target. In a **notebook**, ask specific **questions** you would like to have answered regarding you and the target, and be still for a few moments to allow each answer to come to you. Your own mind-functions will translate the energy information you picked up into your home language. With practice you will also receive visual and Direct Cognition translations of data.

TECHNIQUE 5: VISITOR DIFFERENTIATION
MAHARIC MATRIX SCAN-TRACKING THE PILLAR

The **Maharic Pillar** is a 12th Dimensional configuration of scalar frequency that links the 15-dimensional aspects of personal consciousness together within the interdimensional fields of time. The Maharic Pillar can be seen in the bio energetic field of all living things using Higher Sensory Perception. Most beings in manifestation are still evolving to "fill in" the frequencies of the interdimensional spectrum within their Maharic Pillar. The dimensional frequencies and corresponding levels of consciousness that are still **dormant** within a person's Maharic Pillar will appear to Higher Sensory Perception as **dark or blank spots** or **breakage** within the structure of their Maharic Pillar. By scanning the **integrity of the Maharic Pillar** on a person, visitor or Energy Signature one can tell which dimensional frequencies of consciousness are presently inactive within the target's consciousness. A target with many breaks in the Maharic Pillar is likely to have incomplete knowledge and awareness of the nature of reality and due to the lack of understanding may hold intentions toward you that are not in your best interest. **Scanning the integrity of the Maharic Pillar can provide valuable information as to whether you should engage in such relationship.** This technique works well with people, interdimensional visitors and formless conscious densities such as those involved with "channeling."

To maintain personal bio-field integrity, always use the Maharic Seal prior to any Energy Scanning work.

1. Choose the target for your scan, then imagine the image of a **White Line** of Energy about 3" wide transposed over the image of the target. If the target is not present simply imagine a **colorless sphere of energy** as the symbol for the target's Energy Signature and visualize the White Line transposed over the image of the colorless sphere.

2. Close your eyes and observe the White Line with your inner vision, imagining an image of the target with the White Line transposed over it on the **inside of your forehead**. Hold the image steady for a few moments and observe where the White Line begins to show **dark areas** or **breaks** in its continuity.

3. Imagine now that the White Line is **segmented horizontally into thirds**, each third representing **5 dimensional frequency bands**. If **discontinuity** appears in the White Line in the **top third**, or in the area at the **top of the 2nd third** where the 2nd and 3rd thirds meet, this indicates that the highest dimensions of consciousness are not active within the target, and it **may pose a danger** to you should you engage in contact.

4. If dark spots or breaks in the White Line appear in the **middle of the 2nd third or below** this point, the target may have lack of awareness in some areas. As long as the **upper third** of the White Line/Maharic Pillar is intact, the target is **still being directed by the peaceful aspects of consciousness from the highest dimensions of being and should not pose a danger for interaction.**

5 TECHNIQUES FOR DISENGAGING VISITOR MANIPULATION

1. Visualize the **Epsilon Symbol** in the color frequency of **Gold** 3-dimensional stationed at the **Pineal Gland** in the center of the brain. INHALE then use the **EXHALE** breath to move the symbol **down** the central vertical current of the body to the area of the **Base of the Spine** in the center of the **Tail Bone** where the dormant Kundalini "life force energies" are stored.

2. Breathe normally while visualizing the Symbol inside the Tail Bone and **mentally repeat 3 times** the words "**Epsilon-Phi-Beta-Phi**" a tonal vibration "**Mantra**" that translates into mathematical-electrical instructions for the body's scalar template.

3. Use the next **INHALE** breath to draw the **Epsilon Symbol** back up the Central Vertical Current of the body to the **4th Heart Chakra**. EXHALE and breathe normally while visualizing the symbol inside of the **4th Chakra.**

4. On the next **EXHALE** repeat the "**Epsilon-Phi-Beta-Phi**" Mantra mentally while using the EXHALE breath to **expand the image of the Epsilon Symbol** out of the 4th Chakra into the **bio-energetic field** as if the Symbol now **surrounds the entire body** like an "egg" of energy.

5. INHALE and **repeat the Mantra again** then use the next **EXHALE** to push more energy from the 4th Chakra into the image of the Epsilon Symbol surrounding the body making the symbol **glow bright Gold**. Repeat the **Mantra** once more on the next INHALE and once more "energize" the Epsilon Symbol around the body with the **EXHALE.**

6. Focus your attention at the **Pineal Gland** and once more visualize the **Gold Epsilon Symbol** in the Pineal while mentally repeating the **Mantra 3 times**. When completing the Mantra INHALE and on the **EXHALE** push the symbol out of the Pineal Gland into the **bio-energetic field around the head** and it disappears.

TECHNIQUE 4: DISENGAGING MANIPULATION
ASTRAL BODY SEAL

The **Astral Body** is the vehicle of the Human Energy Field that surrounds the body within the 4th dimensional frequency bands [illegible] The 4th Heart Chakra [illegible] the Maharic Seal Technique [illegible] The Earth core [illegible] the Maharic [illegible] 3rd Dimensional Frequency [illegible] Maharic Frequency [illegible] corresponding Chakra and [illegible] 4th Chakra [illegible] scalar field of protection [illegible] organic imprint for Health [illegible] healing applications [illegible] other Chakras [illegible] Frequency implant technology [illegible] immune system [illegible] **Spiritual Integration** [illegible] higher dimensional aspects of personal consciousness into waking embodiment.

1. Activate the **Maharic Seal** and bring up the **Maharic Pillar** in the Bio-energetic Field. (See p 53)

2. Focus your attention at **Earth's Core** your 1st Chakra as a small **White Spark** of light. **INHALE** using the INHALE breath to draw the **White Spark upward** into the Central vertical current of the body while visualizing a **wide Pale Silver Cord** of Maharic Frequency attached to the White spark moving up into the body with the White Spark. This is the Maharic Frequency **Feed Line**. Breathe normally and with each **INHALE** draw the Silver Cord with the White Spark up the Central vertical current toward the **4th Chakra**.

3. Once the White Spark with the Silver Cord attached has reached the center of the 4th Heart Chakra breathe normally using each **INHALE** breath to bring more Pale Silver Maharic Frequency up through the Cord from Earth's core to the **4th Chakra**. As each EXHALE breath is expand the Pale Silver energy out into the 4th Chakra then out into the bio-energetic field about 6' around the body.

4. Imagine the egg shape of the **Astral Body** around you and visualize it filling with **Pale Silver Light** as you continue to breathe Maharic Frequency up from the Earth's core through the Cord. Breathe for several minutes, **fortifying the Astral Body** with Maharic Frequency. When the Astral Body has accepted as much Maharic Frequency as it can hold observe that the **4th Chakra** becomes a glowing **Silver Disc**.

5. You may desire to continue fortifying the lower Chakra Centers and bio-field levels by simply using the **EXHALE** breath to move the **White Spark** and **Silver Cord down** to each lower Chakra and repeating the same process as described in steps 1-4.

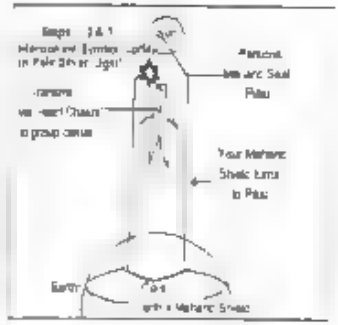
Anchoring the Planetary Christos Field

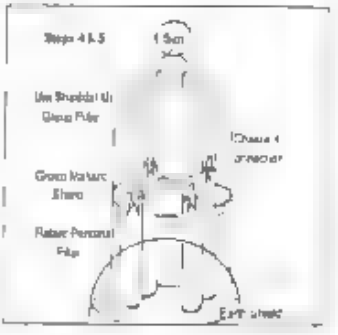
The Group Maharic Seal—Building the Um Shaddai Ur—
"Pillar of First Cause/Eckatic Light"

1. **1 BREATH + 3**
   BREATH 1- *Visualize Hierophant Symbol Code* at the *Pineal Gland*. Inhale, then EXHALE forcefully moving the Symbol Code down *Central Body Current* and into *Earth's core*
   3 BREATHS- Take 3 full breaths and on each EXHALE push breath firmly into the *Symbol Code* at Earth's core, making the Symbol Code spin, and visualize each breath expanding into a huge spinning *DISC* of *Pale Silver Light* in the center of the Earth, the disc spin moving faster with each breath. (This is the Earth's *Maharic Shield*-The *Shield of Amaratena*)

2. **1 BREATH + 3**
   Breath 1- On the next INHALE draw the spinning Symbol Code up to *12" below the feet* visualizing a *4" diameter tube* of Pale Silver Light falling from *Earth's core* following the Symbol Code. EXHALE and push a spinning *DISC* of *Pale Silver Light* outward *12" beneath the feet*. This is your personal *Maharic Shield*
   3 BREATHS- Take 3 breaths on each EXHALE pushing the breath outward into the disc, making the disc spin faster

3. **1 BREATH + 3**
   Breath 1- On the INHALE draw a large amount of Pale Silver Energy up through the *TUBE* from the Earth's core, and EXHALE this energy into the *Maharic Shield DISC* beneath your feet. Visualize the DISC *"Popping" into a Vertical Pillar of Pale Silver Light*, completely *surrounding and penetrating your body* and *connecting with the Silver TUBE* to form a large *tube/pillar of light* ascending from Earth's core up into the Earth's atmosphere to a *PALE BLUE SPECK* of light at the *CENTER OF THE SUN*. Align with the vertical axis of the Energy Matrix. Visualize your body as being sealed inside the Silver Pillar. This is your personal *Maharic Seal*
   3 BREATHS- Take 3 breaths, on the INHALE drawing energy up from Earth's core to the *4th Heart Chakra*, on the EXHALE push the breath from the *Heart Chakra* into the Tube of Pale Silver Light around you, each breath making Pillar appear brighter/stronger





4. **1 BREATH**- Take a slow, full INHALE drawing a thick current of energy up from Earth's core into the *4th Chakra*, then EXHALE sharply, directing the Breath energy to a point at the center of the group circle into focus object if one is used. As you EXHALE visualize your Pillar Replicating- one Pillar remains around you, your personal seal, and another replica expands outward around the entire group. Visualize a large silver DISC growing out from the group center point at the breath life path surface forming a platform upon which the group stands. This is the group *Maharic Shield* through which the Um Shaddai Ur Pillar will electro-magnetically ground into the Earth's *Maharic Shield*.

5. **3 BREATHS**- Take 3 final breaths and with each INHALE visualize a stream of Silver energy coming up through the feet from Earth's core and simultaneously down from the Sun through the top of the head- the 2 streams of energy meeting & forming one thick Silver stream at the *Heart Chakra*. On EXHALE push the group center point. With the 3rd energizing breath (which should normally exit EXHALE) moving energy into the group center point. Stand with the group in a circle and visualize the Um Shaddai Ur Pillar of Light emanating from the *Sun* through the *group pillar* and *group Maharic Shield* and into the *Earth's Maharic Shield*

Six Steps Toward Joy

1 **Surrender to the Moment** Suspend all JUDGMENT and EXPECTATIONS. Open to receive the gifts and lessons in self awareness that each moment holds. Transcend polarity thinking & seek the gift. **What can I learn from this that will take me to higher levels of self-awareness?**

2 **Be Here NOW** Direct thoughts out of the past and away from the future to the ever-present NOW. Observe without judgment what IS NOW. **Am I right here, right now?**

3 **FEEL** Shift from thinking to KNOWING. Suspend linear thought analysis and mind chatter and *Breathe In the Now* of your present moment AS ENERGY to connect with your 3-D reality in Direct Cognition rather than indirect observation. **What does NOW feel like? Answer without words. FEEL.**

4 **Choose Your Response** ACT rather than REACT. We can change how we feel in any moment by changing our judgments of a situation. Take time to re-perceive circumstances of upset and reframe our judgments in search of the hidden gifts and potentials. In any moment we can CHOOSE how we will respond. **How can I reframe this, and what is the best way to respond for joy?**

5 **Experience Stillness-Know Silence** Sit quietly, breathe slowly and deeply, cease mind chatter and hold body as still as possible. Block out or remove distracting stimuli. Bring attention to a Single Point of Focus and experience NO-Thing. Discover the Still Point of your Eternal Core. **Shhhh.**

6 **Honor Your Whole Being** Pay attention to the signals of your body, mind, emotions. Spirit-Inner-Child-Adolescent-Master, and honor the needs of your multiple parts in a balanced way. Find out what YOU really need and give to others only that which makes you feel joyful to give freely. **What do I REALLY need right now? Am I giving freely in joy or am I giving to receive? How can I fulfill my own needs?**

Six Steps Toward Joy With Others

1. **Own Your OWN STUFF** When bothered, BREATHE, find the STILL POINT within, gently ask your Soul for solutions, and refrain from complaining and expecting others to resolve your issues. You have the power within to "unbother yourself" to restore joy, without violating the boundaries of others. Be assertive with others and lovingly ask them not to dump their "stuff" on you, reminding them of their power to create joy. **Am I "dumping my stuff" on others right now? Am I allowing others to drain me by "dumping their stuff" on me? What are the real issues?**

2. **Respect Boundaries** Set and honor healthy personal boundaries and kindly but assertively remind others that you will not have them crossed. Respect others' boundaries, and refrain from acts of disrespect such as gossip, unsolicited advice, criticizing and judging, making assumptions and presumptions, minding their business, attempting to directly or indirectly control their actions, attitudes or emotions. Respect people's right to be who they are, and respect your own right to have and uphold personal boundaries. **Am I genuinely respecting the boundaries of others? Am I allowing my boundaries to be violated? What actions can I take to change this?**

3. **Mutuality** Competition, "one-up-man-ship" and passing judgment on others are ego games that bind you to self-awareness and empowerment. If situations are approached from a "win-win" perspective of mutuality, and the highest vision for all is sought, joyful solutions will prosper. **What is the highest win-win vision right now? How can we both get our needs met? Are we respecting each other's boundaries? How will I heal or disengage non-mutual relationships?**

4. **Be Effective** Having to be "right" implies making others "wrong" and sets the stage for conflict. Is being "right" more important than creating desired outcomes? Being EFFECTIVE is finding win-win solutions, respecting the rights of all to be exactly who and how they are, even if you disagree. If you do not respect each others' boundaries and own your own stuff, you will be unable to create mutuality or effective solutions. If others need to make you wrong, recognize the ego

game and refrain from engaging. You do not have to justify your existence to others and they do not have to justify their existence to you. **Am I trying to make someone wrong? Is someone trying to make me wrong? Are we respecting each other's boundaries and right to be? Can I engage this with effective action?**

◊ **Responsibility.** If we take responsibility for our words, actions, motives and experiences, we will not blame others for our problems and thus empower ourselves to solve them. Self-awareness comes from gently critiquing ourselves to determine where our actions are violating others or are ineffective. Replace blame with compassion, humility and effective action to reclaim your power to create joy. **Am I acting responsibly or am I blaming others? Am I allowing others to use blame as a way to control or manipulate me? How can I take responsible action in handling my "stuff?"**

◊ **Humility.** Humility is knowing your true place in relation to the universe and the environment around you. It is knowing that you are not above or below others, and that all beings and things are part of God and therefore all should always be treated with Love, Honor, Kindness, Respect, Mutuality, Allowance, Responsibility and Reverence. **Do I act with Humility?**

Theoretical Perspectives

MCEO teachings presently exist on Earth as a growing body of detailed information pertaining to the spirituality and science of creation and the history and evolution of humanity. MCEO teachings offer unique perspectives, techniques and technologies of mind and spirit that have proven useful to many people in the exploration and expansion of personal consciousness. Information contained within MCEO teachings represents a cohesive paradigm of ideas, beliefs and perspectives reported y trans ated from ancient texts which together comprise an affirmative and inspirational "point of view" or "world view" regarding the tangible realit es of spiritua ity the mechanics of creation, the h story of our universe and the potentia l.es of the human condition. Like many popular "New Age" and "Traditional" paradigms of spiritual, scientific and historical be efs many points of view presented within MCEO teachings extend beyond the framework of presently recognized spiritual/religious, scientif c and h storical "fact" that can be verified through common contemporary scientif c procedures. *Thus, like many other popular belief paradigms, including ALL known "New Age" and "Traditional" spiritual/religious doctrines and many fields of contemporary scientific study, the perspectives presented within the MCEO teachings must, too, be presently categorized as theoretical in nature.*

The *verifiable actuality*, and thus the potentia validity, of the presently theoretica spiritual, scientific and historical perspectives of MCEO teach ngs pertaining to the **"Ancient Science of the Shields"** (scalar-standing-wave templates of matter and consciousness), **"Merkaba Mechanics"** (interdimensiona electromagnetic vortex mechanics) **"DNA Template Activations"** (frequency accretion with n the scalar template behind manifest chemical DNA), **"Interdimensional Structure"**, **"15-Dimensional Anatomy"**, **"Bio-Spiritual Healing"** (support of biological healing and wel being through holistic spiritual practice) and **Humanity's Evolutionary Journey** perspectives which are featured with n the **MCEO Kathara Bio-Spiritual Healing Program**, **MCEO Maharata "Dance For" Programs** and related publ shed works of the MCEO, cannot at this time be "proved or disproved". Therefore the MCEO Parad gm and its related teachings, techniques and technologies are offered to the public as a unique and inspirational viewpoint, solely for the purpose of public investigation, consideration and theoretical exploration.

Though the presently theoretica categorization of MCEO teachings within the public sector is recognized, it should also be recogn zed that members of the Azunte Press, Trustees and the AP Regents Counci , as well as authorized MCEO translators/authors and teachers and many individua s within the international commun ty, have personally chosen to accept the valid ty of MCEO teach ngs as representing more than a theoret cal perspective. Instead acknowledging the MCEO Paradigm as a factual reality nterpretation, and practical worldview through which progressive expansion of personal consciousness and coherent

spiritual awakening are fostered. Such decision as to the factual or theoretical categorization of the MCEO Paradigm and the responsibilities inherent to this decision, are deeply private spiritual issues and thus must be assigned to the faculties of personal discretion.

MCEO Meditations for Spiritual Exploration, Medical and Psychiatric Considerations

As the MCEO Paradigm is built upon presently theoretical spiritual, scientific and historical perspectives, any and all techniques and technologies offered through the MCEO Paradigm must also be considered as presently theoretical in nature and thus any and all techniques and technologies presented within MCEO teachings are ***not intended to diagnose, treat or cure any disease or illness, nor are they intended as substitution for professional medical or psychiatric advisory or treatment.*** Techniques and technologies provided within MCEO teachings are offered to the public solely as ***"Meditations for Spiritual Exploration"*** with the intention of assisting to serve the further evolution of human consciousness through providing exposure to an expanded range of perspectives and potentialities. **It is strongly recommended that individuals having a history of medical or psychiatric difficulties, or whom are presently under the care of medical or psychiatric professionals, seek professional advisory before using any *MCEO Meditations for Spiritual Exploration* techniques or technologies.**

Since introduction of *MCEO Meditations for Spiritual Exploration* techniques and technologies in 1999 **many people have claimed to receive beneficial affects and effects in the development and expansion of personal consciousness and spiritual awakening** through use of MCEO techniques and technologies. There have also been a **lesser number of reports of individuals claiming to receive no affect, effect or benefit at all**, but there have been ***no reports* of individuals claiming adverse medical, psychiatric or psychological affects or effects** in conjunction with use of MCEO techniques and technologies. As a reflection of commitment to responsibility in presentation, MCEO techniques and technologies are not presented for exploration in the public domain until they are first and/or simultaneously explored, utilized or practiced by authorized MCEO translators/authors/ teachers and members of the Azurite Press Board of Directors. Though validation of factual actuality pertaining to affects, effects or benefits of practicing MCEO Meditations for Spiritual Exploration techniques and technologies must, like the techniques and technologies themselves, for the present time remain within the realm of theoretical exploration, it can be reported that since 1999 findings pertaining to the practicality of utilizing MCEO techniques and technologies have consistently revealed that affects and effects of such practices are **quite individualized, though predominantly positive**, in nature. Therefore however **no claims, promises or guarantees as to the affects, effects or benefits an individual might expect to encounter through use of MCEO techniques and technologies can be offered at this time.** Utilization of MCEO Meditations for Spiritual Exploration techniques and technologies presently remains within the category of **experimental self-exploration**, through which absolute conclusions regarding generalities of mass affect, effect, benefit or detriment cannot yet be drawn. **An individual's involvement with MCEO teachings, techniques and technologies represents a choice of *personal decision and discretion*, and thus *responsibility pertaining to affect and effect of practice* that are inherent to this choice must also remain with the *individual*.**

Claim of Authenticity

In offering MCEO teachings for public exploration, **neither the translators/authors, publishers, promoters or related individuals and organizations make any claims whatsoever as to the factuality of ideas or perspectives contained within the MCEO Paradigm.** Though the *MCEO teaching texts themselves* do on occasion claim that certain ideas and perspectives are of a factual nature, such claims represent points of view intrinsically contained within the ancient texts from which contemporary translations are drawn. The authorized translators/authors of contemporary MCEO teaching texts hold a binding commitment to

The MCEO Freedom Teachings® Series © 1999 - 2011 A & A Deane

ensure the clearest and most accurate translation of MCEO texts as possible under current evolutionary circumstances a *commitment to clarity and accuracy of translation* that must include the allowance of contemporary translation of any *claims of factuality as they are contained within the MCEO texts of antiquity* **Information represented as *factual knowledge* within the MCEO texts of antiquity, and their contemporary translations, is understood to represent "*potential or possible factuality, expressed as factuality within the ancient texts, but which presently resides within the domain of theory*" within the context of contemporary publication**

The contemporary translators/authors of MCEO teachings *claim only* that the MCEO text translations contained within presently published works bearing their authorship represent an "as-accurate-as-possible" translation of MCEO text records believed to have been created in ancient times, which the contemporary translators/authors have had opportunity to review through *authentic personal experiences*. Translators/authors thus make claims only as to the *authenticity of their personal experiences* through which review of ancient MCEO text records occurred and as to the factuality that translation of the reviewed ancient MCEO texts into contemporary English language has been rendered by them as clearly and accurately as possible.

As the original MCEO texts of antiquity are not presently in the direct possession of authorized contemporary translators/authors and thus contemporary translators/authors cannot at this time publicly display these artifacts in order to validate the reality of their continued existence and verify their inherent content, those who explore contemporary MCEO texts translations must understand that such works are presented as theoretical perspectives and possibilities the validity of which one may choose to believe or disbelieve, upon the merit of one's personal discretion. ***If ideas, concepts or perspectives contained within the MCEO texts, their contemporary translations or related teaching materials bear any resemblance to ideas, concepts or perspectives contained within any other presently known spiritual/religious, scientific or historical paradigms or teaching systems, such resemblance is purely coincidental.*** However the event of such coincidence arising may potentially suggest that both the MCEO Paradigm and paradigms to which it might bear resemblance **may have arisen from a common source in antiquity** that has yet to be discovered or scientifically verified, but which would upon discovery lend credence and clarity to such coincidence.

Terms, Conditions, Agreements and Implied Consent

As contemporary MCEO text translators/authors can make no claims or promises as to the factuality of ideas and perspectives presented within MCEO teachings they likewise **cannot offer any claims, promises or guarantees as to the affects or effects that may or may not arise through personal use of MCEO teachings or Meditations for Spiritual Exploration techniques and technologies.** The responsibility for decision to engage involvement with MCEO teachings techniques or technologies rests with each individual, and thus the responsibility for any affects or effects that may or may not occur in conjunction with use of MCEO teachings, techniques and technologies must also rest with the individual. The *Meditations for Spiritual Exploration* techniques and technologies provided within MCEO teachings represent translations from the ancient MCEO texts, and are provided to the public as an **option for personal spiritual exploration, investigation and experimentation**, *to be utilized at the* ***personal discretion*** *of the reader or workshop attendee*.

As stated in numerous public forums and workshops since 1999, *in choosing to utilize* MCEO teachings, techniques or technologies it is understood that *in so doing* the *individual accepts full responsibility for any and all conditions* that may or may not occur in conjunction with such practice. It is further recognized that the individual, *through the act of utilizing* MCEO teachings, techniques or technologies, *thereby through this act agrees* to release Azurite Press, Trustees, the AP Regents Council, authorized Kathara Bio-Spiritual Healing Program teachers and facilitators (pertaining only to *MCEO-sanctioned Kathara "no-touch" procedures*)**, authorized MCEO translators/authors, teachers, promoters and any individuals and organizations thereto related, from any and all claims of liability or damages perceived or assumed to occur in conjunction with involvement in MCEO teachings,**

techniques or technologies. This statement of Terms and Conditions represents a written *Notice of Implied Agreement and Consent to Liability Release* in regard to involvement with MCEO teachings, techniques and technologies. This Notice of Implied Agreement and Consent of Liability Release represents a *reiteration in specific written format* of previously provided notice as to the *necessity of taking personal responsibility for any and all consequences arising from chosen involvement with the MCEO Paradigm;* notice which has been frequently provide verbally in public forum since 1999. It is recognized that the *Implied Agreement and Consent to Terms and Conditions of Liability Release* stated here within is accepted and enacted as such *upon the act of chosen involvement* with and/or practice of MCEO teachings, techniques and technologies. If one is uncomfortable or in disagreement with this stated *Notice of Implied Agreement and Consent to Terms and Conditions of Liability Release* it is suggested and recommended that one choose at this time non-involvement with MCEO teachings, techniques and technologies, until a future time wherein such concerns have been assuaged

A Commitment to Quality and the MCEO Course-book Manuals

The authorized MCEO translators/authors, members of the MCEO, Azurite Press, Trustees Regents Council teachers and promoters of the MCEO Paradigm extend their greatest efforts in making MCEO teachings available for public exploration in **the most responsible and respectful manner possible,** whilst striving to maintain the **highest standards of integrity in MCEO text translation and teaching.** Intrinsic to such responsibility in presentation authorized MCEO translators/authors, members of Azurite Press, Trustees, Regents Council and authorized teachers and facilitators of MCEO programs are all individuals who personally believe in the factuality of the MCEO Paradigm and who actively participate, for personal spiritual reasons in MCEO programs, including personal utilization of MCEO techniques and technologies. These individuals all share a **common commitment to achieving and maintaining integrity, quality and responsibility in public presentation of MCEO teachings;** this shared commitment arises from a commonly shared individually held, reverence respect appreciation for, and belief in the validity of the MCEO Paradigm, its inherent teachings of personal spiritual self-discovery and the limitless potentialities of human consciousness that this paradigm suggests.

On behalf of this commitment to quality, may it be understood that **MCEO Course-book Manuals**, as featured within the MCEO *Kathara Bio-spiritual Healing Program*, *MCEO Maharata "Dance For" Programs*, *MCEO Masters Templar Stewardship Initiative Program* and other MCEO teaching programs, **do not represent completed books**, but rather exist as **companion text briefings** that are created in conjunction with **specific corresponding live workshop presentations** which are preserved via **audio/ video recordings** that are made available on the *Azurite Press Products List* as specific Program Sets. The Course-book Manuals that accompany some of these audio-video workshop programs **contain only the charts, graphs and most pertinent information pertaining to their corresponding audio-video program**, and **do not contain the *many pages of dialogue and detailed explanation*** that is incorporated verbally within the audio-video program. Thus MCEO Course-book manuals are not intended to be used alone, but are rather intended for use as an **additional educational aid in conjunction with their corresponding audio-video workshop program**

As new MCEO workshop materials are often released and translated during live workshop presentations, the corresponding Course-book Manuals and their inherent graphs and charts often reflect the immediacy of the new information provided in that they are initially rendered "**in-the-rough**" often with portions of text in hand-written form, not yet "perfected" for book publication with appropriate dialogue text detail, typesetting, computer graphics pagination and indexing As each new workshop since 1999 has introduced the next level of new, live MCEO data translations there has been insufficient time to "move backward" and perfect the quality of production pertaining to MCEO Course-Book Manual texts from previous workshops. The information and new MCEO teachings contained within each workshop program always reflect the standards of integrity and quality inherent to the MCEO Paradigm, but often-timely public release of new materials is achieved at the expense of quality in product production **The Azurite Press staff apologizes for any inconvenience that such "data-in-the-rough" may cause; however, if workshop programs were withheld from Product List release until their audio/video recordings and corresponding Course-book Manuals were "perfected" in terms of product production, it would be several years before these materials were released for public review.** As new MCEO teachings are often time-sensitive in regard to the unfolding of planetary events, especially since 2000, it has been of greater priority

The MCEO Freedom Teachings® Series © 1999 - 2011 A & A Deane

during this time to expedite availability of the MCEO teachings contained within the products, than it has been to demonstrate the standards of excellence in quality product production that remains a goal of Azurite Press.

For the time being, MCEO audio-video-Course-book Programs are in a **state of continued evolution,** as the small staff at Azurite Press with the assistance of numerous individuals who volunteer their time and talents endeavor to compile dialogue transcripts and perfect typesetting, computer graphics and format organization of previous MCEO workshop presentations in effort to fulfill the goal of creating "perfected" book publications that contain, and "do justice to" the vast body of quality teachings that have been presented during the 1999-2003 MCEO workshops. The commitment to achieving excellence in quality of production as well as quality of information that is held by members of Azurite Press staff arises from the personal desires of staff members to "honor the spirit of the teachings" which they have found personally valuable as well as from a desire to provide the best possible quality of product and service in spiritual respect to the public. Until the goal of achieving "perfected" product production quality is actualized, Azurite Press staff hopes that the public will share in the recognition that it is the **quality, and inherent substance, of MCEO information, more so than the "package that it comes in", which demonstrates the value of Azurite Press MCEO educational products.**

Prologue

The information in this workshop may seem startling and profound as it sha popular belief paradigms regarding the human condition, re-arranging the truths hidden in these paradigms into a higher order of cohesion. It will be helpful to acknowledge that our present ideas about reality have been formulated through spiritual and scientific "guess-work" because we have had only observational interpretations upon which to base our conclusions. The information now presented represents part of the larger picture within which human evolution has progressed. If our ideas can evolve to embrace this new understanding we will be able to use this knowledge to create profound personal and planetary transformation.

Humanity has NEVER been alone in the Universe. Our race has existed for 560 million years. Our race is relatively young compared to the many founding Interstellar Races of Higher Evolution. The original genetic construction of our race, though divinely designed, is of non-terrestrial origin. Present day phenomena of UFOs and communication and contact with Other-Dimensional, ET, Meta-terrestrial and Ultra-terrestrial Beings is part of a larger story within which lives the hidden truth of the human condition.

The information presented today represents part of the "Forbidden Knowledge" that has been withheld from our race by those of Higher Evolution. In ancient pre-recorded history this information represented the Common Knowledge upon which early advanced civilizations were built on Earth. The remnants of these civilizations were buried beneath the sands of time, but until 9558 BC portions of this Forbidden Knowledge were still available and recorded through the surviving mythologies of our ancient ancestors. In 9558 BC the final civilizations of Atlantis sank, along with the memory of our ancient lineage. Following the cataclysm, Guardian Races of Higher Evolution intervened to avert Earth's destruction, intervention that required placing the human race under Quarantine. In 9540 BC this quarantine was enacted, blocking from our race memory whatever remnants of knowledge that had remained from earlier times. It was decided by Higher Evolution that this knowledge would not be returned to us in full until our species had matured to an understanding of the proper use of power. The hidden knowledge became the Forbidden Knowledge, denied us until we exhibited sufficient maturity.

The Forbidden Knowledge is being returned to us now, not because our masses have shown exemplary maturity, but rather because our assistance is now needed if the evolutionary potentials of our race are to be preserved. Through this knowledge we may rapidly awaken to our ancient roles as Planetary Guardians so that we may assist those of Higher Evolution in preserving the integrity of our planet and its life forms. The Forbidden Knowledge of the purposes and mechanics of our evolution represent the Ancient Rites of Passage through which we may transform our world and ourselves, reclaiming our ancient heritage of membership within an inter-dimensional, multi-galactic Universal System of Creation.

If you have purchased the DVDs that compliment this handbook, you will encounter the Ancient Rites of Passage – the personal and planetary energetic mechanics through which the hidden evolutionary potential of dimensional Ascension can be achieved. We are being asked by the Councils of Higher Evolution to wake up and remember the truth of our origins and to reclaim our positions as true Planetary Stewards, to assist ourselves and our planet through the changes that Earth will encounter between 2000-2017. Planetary Stewardship is not only an attitude, it is a science within which the secrets of creation reside. This workshop constitutes your initiation into the Ancient Rites of Passage through which personal and global reality will be transformed. It is up to each of us to decide whether we will serve the Higher Evolution of our planet or whether we will unknowingly contribute to our own digression. The period of 2000 – 2017 marks a crossroads in our planetary evolutionary destiny. The Forbidden Knowledge now represents the Divine Wisdom through which we many know the truth – and the truth will set us free.

Introduction

The *Ancient Rites of Passage* represent the Forbidden Knowledge of our race, the knowledge of *Keylontic Morphogenetic Science* and the purposes and processes of human evolution. The information in this workshop represents our initiation into the Ancient Rites of Passage, through which we will learn of personal and planetary grid mechanics – the *Science of the Shields and the Secrets of Merkaba* – the dynamics by which evolution through dimensional Ascension takes place.

Knowledge is being returned to us now, by forces of Higher Evolution, so that we may understand, prepare for and participate in the monumental transitions Earth will encounter between 2000 – 2017. Humanity is facing an Evolutionary Crossroads through which the fulfillment of our evolutionary potential will be determined. With this knowledge we are presented with the opportunity to awaken to our ancient roles as Planetary Guardians, so that we may join the forces of Higher Evolution in protecting the integrity of our evolutionary design.

The doors to the Ancient Halls of Wisdom have opened,
for all who dare to enter.

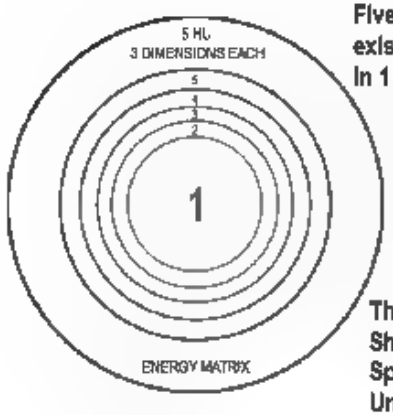
2. Dimensions are scalar fields that exist in sets of 3, with specific relationships between them. The ratios of Angular Rotation of Particle Spin and Particle Pulsation Rhythms between the dimensions create Holographic refraction and replication of sound-light spectra, which allows 3-dimensional reality fields to co-exist in the same space, in Over-lay form, while remaining invisible to each other. Traveling "upward" through the dimensional scale is in actuality *expansion outward* into the multi-layered structure of Over-lay Universes.

2



Five Over-lay Universes exist within the same space in 1 15-Dimensional Matrix.

There is a 90–degree shift in Angular Rotation of Particle Spin between each dimension.

There is + 90-degree – 45-degree Shift in Angular Rotation of Particle Spin between each Harmonic Universe.

Other dimensional fields represent other universes. We have always co-existed with vast numbers of other inter-stellar, inter-dimensional cultures. When we seek life on other planets we must understand this multi-layered reality structure, for life may indeed exist on seemingly dormant planets, within dimensional octaves other than our own. Traveling through inter-dimensional fields constitutes traveling through space-time, the secrets of which will be revealed once the Over-lay structure of reality is understood.

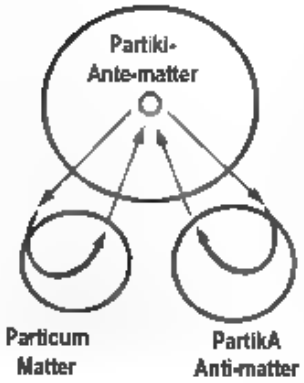
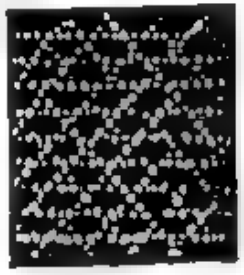
© 1999 A. Deane

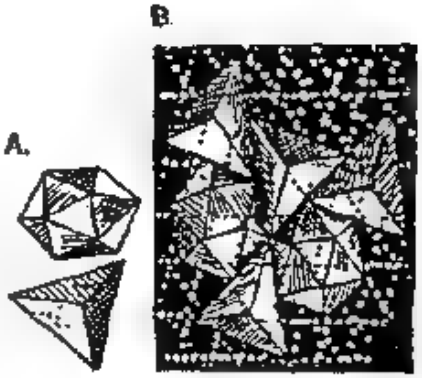
1 *Partiki, Partika and Particum*: Smallest units of energy-substance Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity Operate as minute, perpetual motion fission/fusion generators



2 *Partiki Grids*: The fabric of morphogenetic field structure Partiki units group to form interwoven Strands then Grids of electro-tonal substance, out of which morphogenetic fields are fashioned Out of a Unified Field of Partiki units, Partiki Grids form to create the frequency bands that make up dimensional fields and then to form individuated morphogenetic fields

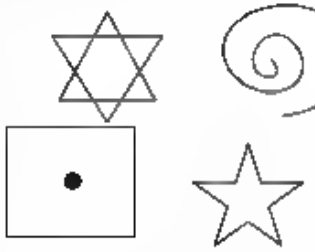


3. Partiki units continue to group or accrete upon the Partiki Grids, forming **A. *Keylons*** – crystallizations of "frozen light" (standing scalar wave patterns and fixed points of tonal frequency), and **B. *Keylon Codes*** – complex groupings of Keylons, which together form a crystalline template of light spectra, sound frequency and electro-magnetism that is the morphogenetic field Crystal Body – the Blueprint upon which matter and identity will manifest



4. *Fire Letters*: Light Symbol Codes that represent the electro-tonal programs of Keylons

5 *Geomancies*: Composite Fire Letter Light-Symbol Control Codes that represent the electro-tonal programs of Keylon Codes, which are used to direct the Fire Letters/Keylons and the flow of energy through the morphogenetic field Crystal Body



Morphogenetic Fields govern the form of matter manifestation and evolution of consciousness. Keylonta is the science of morphogenetic field mechanics and thus holds the key to physical reality and biological and spiritual evolution.

The Stellar Bridge alignment infuses Earth with progressively higher dimensional wave spectra causing the frequency seals of Earth's 7 Primary Vortices to progressively open. As each Vortex opens the dimensional wave spectrum associated with that vortex begins running through Earth's EM fields, progressively raising the particle pulsation rhythm of the planet, creating a bio-physical Time Acceleration and period of Dimensional Blending that affects everything on the planet. In areas where Earth's EM fields are out of balance, tectonic cracking can result. Vortex openings affect climatic patterns and the DNA of biological life forms.

Focused group energy work using Keylontic Science techniques can assist Earth's EM fields to balance, lessening the potential for tectonic fracturing.

III. How does Stellar Activation Work?
The Stellar Bridge, The Singing Shields, The Merkaba Vehicle and Time Shift.

- **The Science of the Singing Shields.** Chart 3A, 3B.

- **Merkaba Spirals, Shield Merger, Merkaba Phases and the Merkaba Vehicle.** Charts 3C 3D, 3E.

Earth will enter Hallah Phase Merkaba Vehicle between 1/1/2000 – 1/2012 with the release of Star Seals / Vortex Seals 1-6 and Activation of the Taran Shield. Earth will enter Quatra Phase Merkaba Vehicle between 1/2012 – 6/2017, with release of Star Seal / Vortex Seal 7 and Activation of the Gaian Shield. Through this Merkaba Vehicle, formed by the merging of the Shields, Earth, Tara and Gaia will temporarily merge with their anti-particle doubles from the parallel universe and with each other. While in Hallah Phase, the planets will bi-locate. While in Quatra, Mahunta and Rahunta Phase, the planets will momentarily disappear as ante-matter, then reappear with the highest vibrating particles appearing within the next Harmonic Universe. A 3-day period of particle conversion and space-time displacement will occur as the Shields and Merkaba Spirals of anti-particle Gaia (HU-3), anti-particle Tara (HU-4) and anti-particle Earth (HU-5) merge with Earth (HU-1), Tara (HU-2) and Gaia (HU-3), during with time planetary magnetic fields collapse. On the 3rd day the Merkaba Spirals and planetary particles completely separate back into their respective Harmonic Universes, with the highest vibrating particles of each planet transferring to the Harmonic Universe above.

During the last Stellar Activations Cycle 210,216 years ago Earth's Shield did not fully align with Tara's Shield. Earth experienced partial pole reversal. Tara experienced pole spin, massive quaking and flooding and all surface life was vaporized, (Tarans foresaw the event and most evacuated to the frequency modulation zones between the particle and anti-particle planets) and Gaia's Merkaba Fields detached from the Meta-Galactic Core. If massive field repair work had not been done Earth, Tara and Gaia would have become descending "Phantom" planets, unable to evolve out of the Time Matrix. All life forms on these planets would have been trapped within the fields of time.

Chart 3A: The Science of the Singing Shields: *Planetary Shields*

1. **Shields are part of the Morphogenetic structure of Earth, Tara and Gaia.**

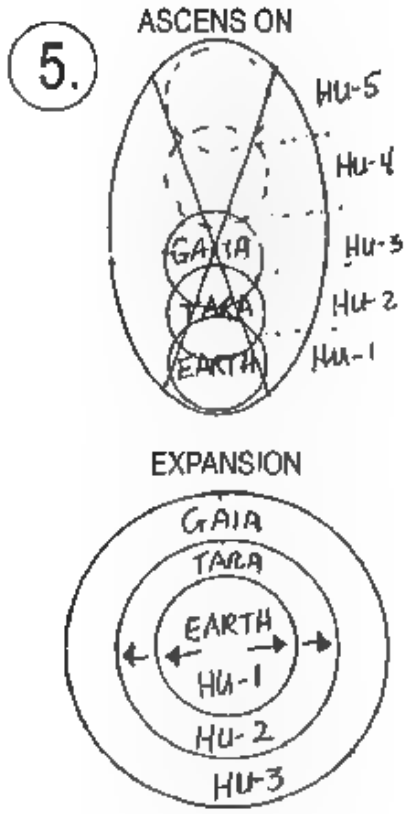
2. **The Shields are dormant scalar grids, standing wave patterns built on fixed points of frequency or "frozen sound". The Planetary Shields "come to life" when the dormant tones within them are struck by compatible tones.**

3. **During Ascension Cycles, the frequencies of the Stellar Bridge strike the Planetary Shields bringing the dormant scalar standing waves to life.**

4. **As the Shields progressively activate, the frequency seals in Earth's 7 Primary Vortices progressively release, opening Earth's EM fields to tho of Tara and Gaia.**

5. **As the 7 Primary Vortices open the Planetary Shields of Earth, Tara and Gaia progressively merge, creating dimensional blend, time continuum over-lap and temporary dimensional Ascension / expansion, aligning the planets briefly with the "Holographic Beam" emanating from D-8 Meta-galactic Core in Orion.**

6. **The merging of the Planetary Shields and opening of the Primary Vortices creates a condition known as Planetary MERKABA – the formation of a vehicle of light-sound-electromagnetic-scalar waves that allows the planets to pass through the Magnetic Repulsion Zones / "Null Zones" between Harmonic Universes.**



The Planetary Morphogenetic Scalar Grids are called the *Singing Shields* due to inter-dimensional harmonic tones they emit when the Shields are activated.

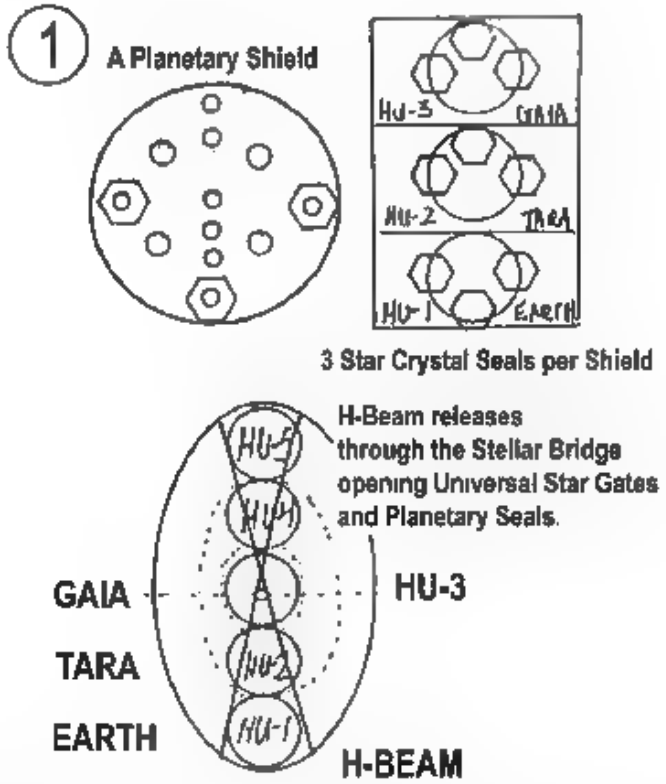
Chart 3B: Structure of the Planetary Shields – *The Crystal Seals*

© 6/1999 Asha-yana Deane

1. **The Morphogenetic Field of the Planet is held into the dimensions by *Morphogenetic Crystal Seals*. *Star Crystal Seals* control the *Seed Crystal Seals* by governing the Angular Axes of Particle Rotation. *Seed Seals* control the rate of particles / vibration within each dimension.**
   Each Planetary Shield is composed of 3 Star Crystal Seals and 12 Seed Crystal Seals.

2. **When the Star Crystal Seals release via frequencies from the Stellar Bridge, the Seed Crystal Seals open, releasing the planet's 3-dimensional particle base from dimensional Phase-lock within its Harmonic Universe, allowing Particle Blend to occur between Earth and its higher dimensional counter-parts in the higher Harmonic Universes.**

3. **The Star Crystal Seals correspond to the 7 Primary Vortices on the planet. The HU-1 Earth Shield holds the frequency seals for Vortices 1-3. The HU-2 Taran Shield holds the frequency seals for Vortices 4-6. The HU-3 Gaian Shield holds the frequency seal for Earth's D-8 morphogenetic field is in the Orion star system, its D-9 seal is in Andromeda.**
   The seals for Earth's HU-4 and HU-5 morphogenetic fields are in the Lyra Star System.



When the Stellar Bridge aligns every 26,556 years (Earth time), 8th dimensional frequency is sent out from the Meta-galactic Core in Orion. This stream of energy is called the Holographic Beam or H-Beam. The H-Beam triggers the release of Universal Star Crystal Seals and those of the planets within them, opening inter-dimensional Star Gates between Harmonic Universes. The H-Beam strikes a tone within all planets in the galaxies. If a planet has a high enough core pulsation, its Shields will send back a lower harmonic of that tone, which allows the H-Beam to "ground" within the planetary core via the Stellar Bridge. Grounding of the Stellar Bridge magnetically pulls the planet's electro-magnetic fields into alignment with the Stellar Bridge, commencing the opening of a Stellar Activations Cycle. If a planets core pulsation is too low when the H-Beam is released, the 3 Star Crystal Seals in its Shield will open then close, locking out the Stellar Bridge. Once the 3rd Star Crystal Seal is ½ opened (an event that took place on Earth in June 1998), the Planetary Shield begins to activate and the Stellar Bridge cannot be shut out. Once the 3rd Star Seal is half opened it begins to trigger the activation of the 4th Star Seal in the Planetary Shield of the Harmonic Universe above, beginning the process of aligning the Planetary electro-magnetic fields on a vertical axis, through which the Planetary Shields will merge, creating fusion of the Shields and space/time intersection of the planets 3 harmonics. If the Shields do not activate properly due to distortions in their morphogenetic structure, global pole reversal and tectonic cracking can occur.

If the Planetary Shields are able to activate properly for merger, the planet enters MERKABA.

Chart 3C: Merkaba Spirals

© 6/1999 A'sha-yana Deane

1. ***Merkaba Spirals*** **are sets of counter-rotating electro-magnetic spirals which surround all matter-forms within the dimensionalized systems. They form in the shape of a *Star-tetrahedron*.**

2. **Merkaba Spirals serve to draw energy (in the form of frequency) from the dimensional Unified Fields, into the morphogenetic field of a form, progressively expanding the form via *frequency accretion*. Merkaba Spirals draw Particum and Partika micro-particles into the morphogenetic field, building up the particle base of the form, following the blueprint set by the morphogenetic field. As the morphogenetic field expands the form evolves upward / expands outward through the dimensional scale.**

3. **There are *Dimensional Merkaba Spirals* and *Harmonic Universe Merkaba Spirals*. The Harmonic Merkaba Spirals are structured in such a way that during periods of Stellar Activation the Spirals align along a vertical axis, allowing Harmonic Universes to come together.**

4. **The progressive release of the Star Crystal & Seed Crystal Seals, opening of the planetary Vortices and merging of the Planetary Shields releases the phase-lock on the dimensional and planetary Merkaba Spirals. This allows the Dimensional and Harmonic Merkaba Spirals to merge and the Harmonic Merkaba Spirals to come together to form the *Merkaba Vehicle*.**

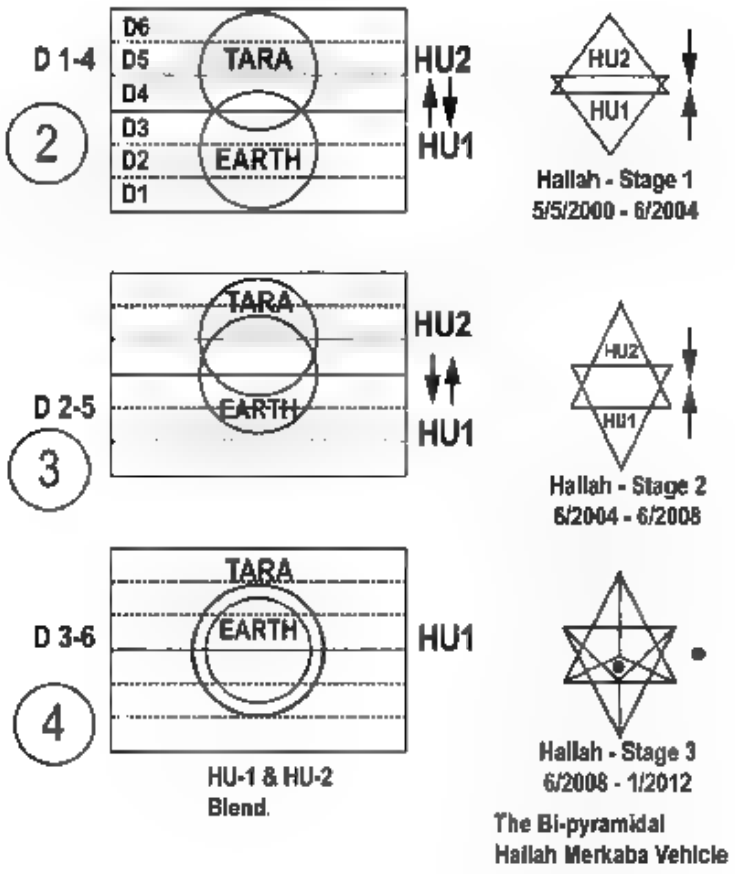
Earth enters stage 1 of *HALLAH Phase Merkaba*. Earth will strike its Inter-dimensional Resonant Tone to open Earth's core on 1/1/2000. Earth will pass through stage 1 of Hallah Phase Merkaba between 5/5/2000 – 6/2004.

3. When the 5th Star Crystal Seal releases, Earth's D-2 Merkaba Spiral aligns with Tara's D-5 Merkaba Spiral. Earth enters stage 2 of *Hallah Phase Merkaba*. Earth will pass through stage 2 of Hallah Phase Merkaba between 6/2004 – 6/2008.

4. When the 6th Star Crystal Seal releases, Earth's D-3 Merkaba Spiral aligns with Tara's D-6 Merkaba Spiral. Earth enters stage 3 of *Hallah Phase Merkaba*. Earth will pass through stage 3 of Hallah Phase Merkaba between 6/2008 – 1/2012.

5. With the full release of the 6th Star Crystal Seal, the Planetary Shields and Merkaba Spirals of Earth and Tara merge in full Hallah Phase Merkaba, forming the *Hallah Merkaba Vehicle*, within which Earth passes through the "Null Zone" between Harmonic Universes 1 and 2. The Hallah Phase is a 6-dimensional Merkaba Vehicle, having a bi-pyramidal structure in the form of a Star-Tetrahedron.



When Earth enters Hallah Phase with Tara, both planets temporarily bi-locate within HU-1 and HU-2. In Hallah Phase, the 6 dimensions of the planets' particle base align on the same Angular Axis of Particle Spin and pulsate at the same speed. The period of 1/1/2000-1/2012 marks Earth's transition into Hallah Phase Merkaba. In full Hallah (2012), the Halls of Amenti between Earth and Tara open.

The Quatra Phase is a 9-dimensional Merkaba Vehicle, a tri-pyramidal structure of light that takes the form of an 8-pointed star. Earth enters Quatra Phase between 2012-2017.

3. When in full Quatra Phase, Earth then rapidly enters and fulfills the last 2 Phases of Merkaba. As the HU-4 Star Crystal Seals release, Earth-Tara-Gaia enter merger with their anti-particle doubles from the parallel universe. The Merkaba Phase of HU-4 integration is called *Mahunta Phase Merkaba*, it is a 12-dimensional Merkaba Vehicle in the form of a 10-pointed star. As the HU-5 Star Crystal Seals release, the planet enters Rahunta Phase Merkaba Vehicle, entering hyper-space and returning to ante-matter wave form. Rahunta Phase is a 15-dimensional Merkaba Vehicle that takes the form of a 12-pointed star. Earth will rapidly enter and leave Mahunta and Rahunta Phase Merkaba during the 3-day period in 2017. During this time, Particle Conversion will take place, the planetary particles being separated into low, medium and high pulsation rhythms. The fastest particles will return to the time cycles of Gaia, the middle range to Tara, the slowest to Earth. *The Bridge Zone Project will divert as much of the slower particles as possible into the artificial time continuum.*

Chart 4A: The Buffer Zone "Artificial Christ Consciousness Grid"

Guardian Races began creating a frequency "Buffer Zone" around Earth beginning in 9540 BC, to begin correcting the pole tilt caused by the 9558 BC Atlantian cataclysm. In 196 BC, in anticipation of the 2017 AD Stellar Activations Cycle, additional frequency modulation tactics were employed. If human DNA was not sufficiently activated in 2017 AD, humans would be unable to "go into Merkaba" with Earth and would be vaporized, along with most earthly life forms, by the UHF/ULF wave spectra brought in by the Stellar Bridge.

In 1748 AD another layer of frequency was added to this Buffer Zone, about 444,000 miles out from Earth's atmosphere, to counteract mutations in human DNA caused by Zeta manipulation tactics. This multi-layer blanket of frequency, which will serve as a Buffer Zone for Earth life during the Stellar Activations Cycle, was nick-named the "*Artificial Christ Consciousness Grid*", as it would allow humanity to temporarily evolve to the levels of "Christ Consciousness", "going into Merkaba" with Earth between 2000-2017.

The Buffer Zone will give humanity a chance to survive and prosper during the Stellar Activations Cycle.

The MCEO Freedom Teachings® Series © 1999 - 2011 A & A Deane

Chart 4B: The "Bridge Zone Project", 2017 Time Continuum Shift

In 1984 Guardian Races discover the Earth will be destroyed in 2976 AD, due to Intruder ET manipulations, if the planet returns to its HU-1/D-3 time continuum. They create the Bridge Zone Project, through which the majority of Earth's particles will be shifted to an artificial time continuum in the "Null Zone" between D-3 and D-4, so the planet can complete its natural evolution into the D-4 time cycles. The time continuum shift will take place during the 3-day particle conversion period in 2017. When Earth, Tara and Gaia would normally return to their respective time continua, the Earth will be infused with UHF energy, keeping its particle pulsation rhythm at D-3.5 speed. The magnetic fields of the Harmonic Universes will close and re-seal on the 3rd day of this period, sealing Earth into its new continuum and out of the D-3 continuum and its path of destruction.

This forced, early permanent shift of time continuum places greater burdens on humanity. Human DNA must be activated to the 4.5 strand level (all of strand 4 and ½ of strand 5), in order to make the continuum shift. People unable to make the continuum shift will return to the D-3 continuum. The D-3 earth will be a "Phantom Planet", its Merkaba Spirals cut off from those of the higher Harmonic Universes. The severing of the planetary morphogenetic fields will manifest as a mutation in the human DNA, which will block the natural course of activating the higher DNA strands for dimensional ascension. Humans on Phantom Earth will be unable to reincarnate into HU-2 time cycles and will take an alternate path into genetic digression.

If a critical mass of humans can activate the higher DNA strands the race morphogenetic field will shift to a 4.5 activation level, leaving no one on Phantom Earth. Activation of the DNA means integrating the Higher Dimensional Identity levels and building the personal Merkaba Vehicle, all of which can be done through applied Keylontic Science.

Chart 4C: Releasing the Forbidden Knowledge: *A Call For Human Stewardship*

- On 6/26/1998 Guardian races decide to release the *Secrets of Amenti* information and knowledge of *Keylontic Morphogenetic Science*, due to the opening of the Arc of the Covenant. This event set the Stellar Activations Cycle in motion. If humanity can awaken and assist with Earth grid mechanics, potential misalignment of planetary Shields and harsh Earth changes can be avoided.

Using simple Keylontic Science techniques, humans can:

1. Help Earth's Shields activate properly.
2. Stop detrimental Intruder Visitor manipulations.
3. Prepare the body for the increase in frequency and spontaneous activation of the DNA that the Stellar Activation will bring.
4. Rapidly advance personal Bio-spiritual Evolution and Healing.
5. Discover the Secrets of the *Merkaba Vehicle* – the Light Vehicle for physical inter-dimensional, inter-time travel and dimensional Ascension.
6. Open communication with personal Higher Identity and Guardian Races of Higher Evolution, to join the inter-dimensional communities of light.

Energy Flow: MCs 8-15 draw tonal energy from the Universal Unified Field & Dimensional Unified Fields 8-15, through the Universal Merkaba Fields & into the Outer Auric Levels, via the morphogenetic Seed Crystal Seals in MCs 8-15. Cs 1-7 draw tonal energy from Dimensional Unified Fields 1-7 & from corresponding MCs 8-15 into the Inner Auric Levels, via Seed Crystal Seals in Cs 1-7 Once in the Seed Crystal Seal, the tonal pattern manifests in the DNA blueprint, enters the Dimensional Merkaba Fields & dimensional auric capsules of the body. The tonal imprint is then drawn in through the corresponding lower C, into the pre-matter Nadial Capsule & Nadis Pre-matter Nadis channels link to the nervous system. Tonal energy passes into the nervous system via the Nadis then into the Endocrine glandular system, blood, cellular structure and manifest form. Biological form is created & sustained through this process of multi-dimensional energy flow.

Christ Consciousness represents the AVATAR identity, which is stationed within the Mahara Hova Body in HU-4, takes the form of a Mahunta Merkaba Vehicle and has 12 strands of active DNA when manifest. This is the highest form of consciousness able to embody within the human – Turaneusiam Blueprint. It exists knowingly as part of the Christos, the Cosmic Conscious Mind. (The term Christos also refers to the collective consciousness of the Christed level of the human–Turaneusiam species.)

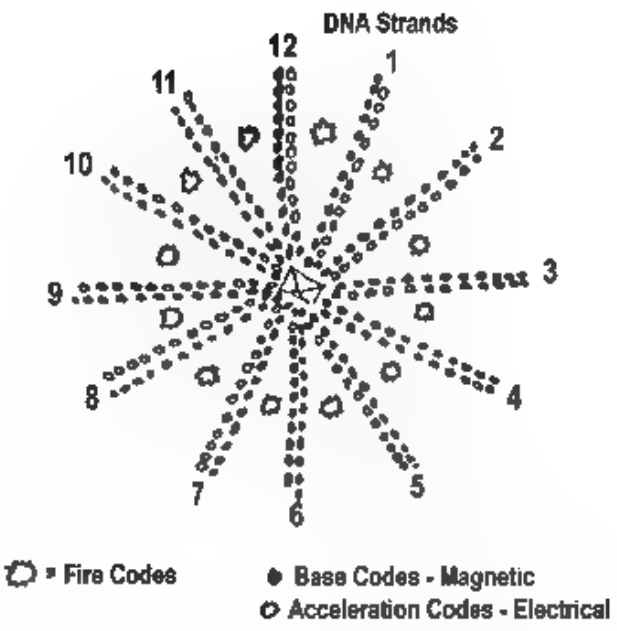
Chart 5G: The Silicate Matrix Crystal Gene-
DNA and the Morphogenetic Crystal Body

1. The Silicate Matrix gene code s a composite genetic conf guration that manifests through the morphogenetic Crysta Body; t is the original genetic mprnt for the human lineage The **Silicate Matrix DNA code contains 12 double-helix DNA strands, existing in over-lay form**, which correspond to the 12 dimensions and 12 F re Letter Sequences of the Human Crystal Body biolog cal imprint.

2. Each double-helix strand of the Silicate Matrix contains 12 Primary Base Codes (Base Tones / particle codes) **and 12 Primary Acceleration Codes** (Over Tones / anti-particle codes), that together form **12 Primary Fire Letters** (fixed points of electro-tonal frequency / standing scalar wave patterns) per 1 complete double-helix DNA strand As each set of 12 Fire Letters combines to form 1 Geomancy Control Code **each DNA strand has a corresponding Geomancy Code that governs the function and activation of that DNA strand**

3. The Silicate Matrix a so contains a set of **12 Fire Codes** f xed points of frequency *between* DNA strands that allow strand hel to merge (particle and anti-particle fusion) and singular strands to fuse with each other to create Cellular Transmutation



Activation of the Silicate Matrix Crystal Gene allows for progressive biological transmutation out of solid matter and carbon-based biology, into Silica, Etheric and Pre-matter density, then into Ante-matter and the forms of pure, sentient, conscious radiation characteristic to the higher levels of evolution The activation leve of the DNA is called the **Accretion Level** Most humans are presently at a 3-3.5 DNA Accretion Level To adapt to the coming *Time Acceleration* and *Time Continuum Shift* human DNA must reach a **4.5 strand Accretion Level** wh ch is achieved through using the Geomancy Control Codes and corresponding sound tones of Keyiont c Science through the Chakra system to progressively realign and activate the Si cate Matrix Crystal Gene.

Chart 5H: Anchoring the D-5 Archetype

To realign the incarnate physical body with its imprint for health and the personality with its soul purposes, **the *D-5 Archetype* of the Alphi Hova body** is used to Imprint the corrected electro-tonal pattern into the Nada Hova body of the incarnate. Once the Alphi Hova body is imprinted in the Nada Hova body, dormant codes in the DNA begin to activate and align with the corrected pattern creating evolution toward health for the incarnate body and consciousness

Imprinting the D-5 Template is called Anchoring the Archetype It will *not* realign Fire Letter distortions in the Crystal Body or mutations in the DNA, but will *activate dormant Fire Letters and DNA codes that are not mutated*

After Imprinting the Archetype, **Activation of the Archetype** (embodiment of the Alphi Hova body/ Soul Matrix) begins, through which Nada Hova body Fire Letter and DNA distortions are re-programmed using Keylontic Science and the 4th 5th and 6th DNA strands are brought into activation

Imprinting the D-5 Template and Anchoring the Archetype are the first steps to begin creating an electro-tonal grid for bodily health, protection, DNA activation and spiritual evolution.

The Archetype of the Alphi Hova body is imprinted into the Nada Hova body by using the breath, the Chakra system, D-5 Geomancy Control Code and D-5 sound-light spectra During morphogenetic Imprinting or Programming, the **D-12 Geomancy Control Code** is also used for correct alignment with the Avatar ID and for protection.

Chart 5I: The D-5 Archetype Identity

1 The HU-2 **Alphi Hova** body (Soul Matrix ID) holds the original electro-tonal template for the HU-1 **Nada Hova** body (Incarnate body and ID). Disease within the incarnate body results from misalignments between the electro-tonal programs of the Alphi Hova and Nada Hova bodies. Some of these misalignments are carried in the DNA and cannot be realigned without Crystal Body reprogramming, but many imbalances and dis-ease conditions in the physical body can be corrected by **Imprinting** the Nada Hova body with the corrected electro-tonal program of the Alphi Hova body via Imprinting.

2 Within the 12 dimensions of human *biological* morphogenetic structure certain dimensional bands direct the function of other dimensional bands. The Geomancies and Fire Letters of these **controlling dimensional bands** govern the operation of the Crystal Body morphogenetic field. **Each Hova body has a control center** – the portion of its grid that contains the frequencies of a *controlling dimensional band*. The Alphi Hova/Soul Matrix body control center is the 5th dimensional Partiki grid – the station of Identity corresponding to the D-5 grid is the **Archetype. The D-5 Archetype is the control center for the Soul Matrix and Alphi Hova body. The Control Center for the Nada Hova body is the 2nd dimensional Partiki grid; the station of Identity corresponding to the D-2 grid is the Instinctual-Emotional Mind.**

Silicate Matrix Evaluation

Level 1 – The Betcha–Hova Scan

Through evaluation of the Silicate Matrix one's level of spiritual identity integration and biological tolerance to inter-dimensional wave spectra can be determined. This information allows specific exercises of Keyiontic Science to be employed, to accelerate personal spiritual evolution and to expand the biological ability to hold higher frequency. The core objective of this evaluation is to assist individuals in their intrinsic process of evolution through Dimensional Ascension.

Chart 6B: Secrets of Amenti Summary

550 Million Year Old Rescue Mission – True Human Origins

Human Origins: Humanity began 560 million years ago as an Eterna Race ca led Turaneusiam on planet Tara n HJ-2 The Turaneusiam race had a 12 strand DNA morphogenetic mprint that allowed for embodiment of the 12 d mensional frequency bands of an HU-4 avatar identity Humans were created as a planetary guardian race of God- ike beings.

Lost Souls of Tara: Through a cataclysm on HU-2 Tara 550 million years ago part of Tara's grid fragmented nto HJ-1 through the core of the 8th Pleiad an star, forming 12 planets that became Earth's solar system. Many of the Eternal Souls of Tara were fragmented nto HU-1 with the ost portions of Tara they became known as the Lost Souls of Tara or the **Fallen Angels** The Palaidorians & Ur-Tarranate races of Tara created a project through which the lost souls of Tara cou d re-evolve into their origina 12 strand DNA Eternal imprint & be freed from HU-1 The **Sphere of Amenti** race morphogenetic field was created to g ve the lost sou fragments the pattern of the 12 strand imprint, through which they cou d re-evolve nto their original Turaneusiam form The Sphere of Ament. served as a **Host Matrix** through which the Lost Souls of Tara could evolve & return home The Amenti rescue m ssion represents a Host Soul Matrix Transplant on the species leve A.l present Earthly stra ns of human have evolved through the morphogenetic imprint of the Sphere of Amenti

Seeding the 12 Tribes of Amenti: Through the Sphere of Amenti race morphogenetic field 7 Root Races & 5 Cloister races were created, through which the 12 strand DNA imprint could be rooted into Earth biology to evolve The first 2 Root races were etheric in nature & evolved on HJ-3 D-7 Gaia, setting the pattern of the 1st DNA strand into Earth s planetary morphogenetic field The remaining 5 Root races & 5 Cloister Races were to be seeded on Earth & Tara during different time periods. Each Root Race would assemble & evolve 1 DNA strand imprint from Amenti into Earth's biological gene pool The Cloister Race appearing with each Root Race would evolve the imprints for strands 7-12 as dormant gene codes align with the imprint for the strand carried by their Root Race The **Cloister Races** allowed the strands of cellular transmutation to remain alive within the biological gene poo

The 3 Seedings: The Amenti Rescue Mission failed twice The Palaidorians, Ur-Tarranates & other guardian races of Tara HU-2 & HJ-3 had to re-seed all but the 1st & 2nd Root Races 3 different times The present human neage is part of the 3rd Seeding Present humans are primarily of the 5th Root Race & Cloister strains Some members of the 6th Cloister Race are also present on Earth & 150,000 7th Race souls, the Indigo Children, will be incarnating on Earth between 1999-2017 to accelerate the genetic evolution of the races & to help Earth shift to the Bridge Zone

Chart 6C: The Six Silent Ascension Avatars

During the ascension cycle of 2017 AD, 6 avatar souls will incarnate on Earth in order to serve various roles within the plan of human ascension and evolution An avatar soul is a soul essence possessing a minimum level of *over-soul consciousness* fully embodied within the physical incarnation, it is a master-soul that incarnates from a position within Harmonic Universe 3 or 4. An avatar will have a minimum of 7 dimensional frequency bands within its genetic imprint and a minimum of 7th level DNA activation at birth. The human genetic prototype can hold only 12 dimensional frequency bands within its imprint, a 12-strand DNA code. **Avatars will thus have between 7 and 12 DNA strands activated in their genetic gene code** (The last 12th level avatar to incarnate on Earth was Jeshe'a-12, AKA Jesus Christ Sananda 12BC 27 AD). The 6 Silent Ascension Avatars, assisting the 2017 ascension cycle, will be born approximately 4 years apart beginning in 1992 the last being born in 2012. Though there will be several other avatar souls incarnating on Earth during this period, **the 6 Silent Ascension Avatars hold a very special purpose of realigning the DNA imprint for the human race within the morphogenetic field of the Sphere of Amenti**. As their respective soul essences pass through the Sphere of Amenti, the frequency bands carried in their energetic essence will purge mutations from the human DNA imprint, allowing DNA strands 2-7 to realign with the original 12-strand DNA pattern of the HU-2 Tu'ra'neusiam-human prototype. **Without the birth of these avatars, mutations within the human DNA code would prevent humans from properly assembling and activating the DNA strands and humanity would be unable to achieve acceleration of evolution and ascension to the Bridge Zone, Tara or beyond**. Each avatar is assigned to the realignment of one DNA strand which will be achieved as the soul essence passes through the Sphere of Amenti during **fetal integration**. When the avatars turn 12 years of age they will begin awakening to their chosen service mission on Earth and by age 22 if their awakening proceeds properly, they are scheduled to begin active service to further the evolutionary development of humans within the Bridge Zone Earth. **The success of the ascension program is dependent upon the Births of the 6 Silent Ascension Avatars proceeding according to schedule**. They are called the **Silent Avatars** because their identities, religious affiliations and geographical locations will be undisclosed to the public during the ascension period. **Their identities will not be revealed until they have reached the age of 33 and their service missions come into mass awareness**.

T = Birth is scheduled for this date but may occur any time earlier most likely following the birth of the previous avatar. Birth must occur no later than scheduled date. **Birth will remain as scheduled** unless circumstances warrant change.
** = avatar 3 was not scheduled to birth until 2000 AD but Elohim arranged the birth 2 years early to open the 2nd seal on the Arc of the Covenant so the ascension schedule could remain on course. **NOTE:** There will also be **144,000 + "Indigo Children" born between 1999 – 2017**. They will carry the 6 DNA strand **Paradisian Race imprint**, that of the embodied HU-2 soul essence. They represent D-6 soul essence and will birth via the frequencies of the D-6 Sirian Spiral which falls within the inter-dimensional indigo light wave spectrum, thus their name. Activation of the 6th DNA strand on a minimum of 144,000 individuals is essential for Earth's passage into the Bridge Zone. The D-6 souls will birth on Earth to serve in fulfilling this requirement. The 6 Silent Avatars and Indigo Children are born via Palaidorian Birthing Contracts and Contract Bonds.

Chart 6D: Soul Agreements and the Living Light Network

Though most of us do not remember, we made choices before we incarnated on Earth, choices as to what life dramas we would explore for our learning. All learning in the Earthly realms is ultimately endeavored in order to move us along upon our path of evolution through dimensional Ascension and fulfillment of the promise of the Silicate Matrix. The framework for our life dramas was chosen from our own higher stations of identity, in order to move us forward upon our multi-dimensional path of evolution. Once entering the Earthly realms our memory of these higher choices fades because our genetic code is immature and has not recently functioned as it was intended to do. We lose our memory of self and God because most of our DNA is dormant and the functioning strands cannot process higher dimensional experience through its limited structure. As we work consciously to bring our DNA back to life and our true identities back to Earth, we may be surprised to discover that we have Soul Agreements to play significant roles within this ascension cycle. Numerous groups of Souls, Over-souls and Avatars have agreed to incarnate or walk-in during this time to help Earth through its transitions. Some of the roles that will be filled through such Soul Agreements are as follows. As you awaken to your true identity you may begin to remember that you agreed to fill such a role.

Avatars. The Christed Beings, Identities from Harmonic Universe-4 (dimensions 10-12), possessing crystalline liquid light forms in their natural state. Incarnate for world service missions especially during Ascension cycles. Term also used to describe Over-souls from harmonic Universe-3 (dimensions 7-9) who also incarnate fro world service missions. Avatars have from 7-12 DNA strands of the Silicate Matrix operational at birth and often exhibit special abilities. The term avatar with a small "a" refers to earthly humans who evolve to embody their Avatar HU-4 identity through progressive activation of DNA strands 7-12, in order to fulfill missions of world service.

Flame-Holders. Individuals born of the Orange-gold, Blue or Violet Flame Soul/Over-Soul groups from HU-3 and above, who hold a very rare recessive gene that allows them to pull / ground UHF from the Stellar Bridge during Ascension Cycles. Their mission is to draw in the Stellar Bridge, house the frequency in their bodies, then transmit that frequency to the Flame Keepers, so together they serve as a living light network through which the Planetary Shields can be activated and sustained in Ascension Cycles.

Flame-Keepers. Individuals born of the above Soul / Over-Soul Groups from HU-3 or above, who incarnate with special configurations within the electrical DNA helix, that allow them to draw in much larger amounts of frequency than an average human during Ascension Cycles. The also incarnate at various periods to Keep Divine Knowledge alive within the Earthly races. During Ascension Cycles Flame-keepers hold vast amounts of frequency within their bodies, serving as transducers of UHF wave spectra, down-stepping this energy so it may enter the Earth core without causing major disruption. They, like the Flame-holders, serve as Host Matrices, their energy fields carrying others into merkaba during Ascension.

Key-holders. Individuals who are members of the Flame-keepers groups who possess very specific gene configurations that allow them to "plug into" the Planetary Shields directly. Through this code they are able to mentally direct and command the functioning of the Shields. Their purpose is to ensure proper Shield function during Ascension cycles. They incarnate from a minimum level of HU-4, Christed Beings at birth, and are frequently Ascended masters from the Energy matrix.

Indigo Children: Refers to the members of the 7th Root Race, the Euan'nechi, or the Cloister Race, Yunaseti, who are the dominant human-Turaneusiam Race strains from the future Tara in HU-2. They possess the imprint for a minimum of the 6th DNA strand at birth, which rapidly activates by the age of 5 or 6. They are fully embodied souls at birth. The Cloister Strains are born with the full Silicate Matrix, which usually activates by the age of 33. The will be 150,00 Indigos birthing on Earth between 1999-2017 to help keep Earth's core vibration high enough to enter the Bridge Zone. There are approximately 2 million Indigos of various ages on Earth today. They serve as PLACEHOLDERS. The bodies and morphogenetic fields of Placeholders serve as living scalar wave grids through which multi-dimensional frequency can enter the Earth's morphogenetic field. Their presence raises the frequency of the planet, especially when they are born en mass at the same time.

Topics of Discussion *The SEED OF CONSCIOUSNESS, the STREAM OF CONSCIOUSNESS, GEOMANCIES and FIRE LETTERS, Individuation from God, The LAW OF ONE, the SPARK OF THE LIVING FLAME Thyroid Shield of Onon, Re-connecting to the Seed of Consciousness the God-Self the personal connection to God*

Every Person, as an individual identity, has an original point of origin – the point of separation-individuation from the Eternal Force of GOD This point of individuation exists beyond the contours of space time, matter and dimensional structure beyond the systems of the Time Matrix and it represents the **SEED OF CONSCIOUSNESS** out of which all incarnations and manifestation in time emerge

The Seed of Consciousness retains the integrity of its design within the Eternal Force which we call the **Yunasai**, the Mind of God or the God-Source eternally Once individuation of the Seed of Consciousness occurs, through the directed intention of the Mind of God, the newly formed identity enters the constructs of the Time Matrix itself a manifestation of the God-Mind, eternally existing within the Yunasai **The newly individuated identity enters the Time Matrix from its original Seed of Consciousness upon an energetic projection that can be considered to be a STREAM OF CONSCIOUSNESS**

The Stream of Consciousness represents a specific signature in energy electro-tonal units of consciousness called *Partiku* **that retains the original design of the identity as set within the Seed of Consciousness** The original design of the individuated identity exists as specific constructs of fixed points of frequency *sound-vibrations* that form units of light *standing scalar wave patterns.* The scalar wave forms composing the Stream of Consciousness are referred to as **GEOMANCIES and FIRE LETTERS** Geomancies and Fire Letters are specific patterns of conscious scalars standing waves that give consciousness its individuated form in time Geomancies and Fire Letters are the building blocks the God-Mind uses in ITS processes of creation **Geomancies are composite groupings of Fire Letters; Fire Letters are composite groupings of standing scalar wave patterns built upon fixed vibrations of sound. The Stream of Consciousness can thus be viewed as a fixed beam of conscious light-sound-energy, composed of Geomancies, Fire Letters and standing scalar waves, through which the creative pulse of the God-Mind perpetually spirals its consciousness to individuation and manifest form**

When the Stream of Consciousness enters into the dimensional structures of the Time Matrix, which itself is a standing scalar wave field built upon fixed points of sound-vibration, its original arrangement of Fire Letters (scalar wave composite forms) begins to change The original Stream of Consciousness and Fire Letter arrangements breaks itself down, fragmenting its consciousness throughout the dimensional scale, forming new forms of individuation The new forms, imbued with the conscious creative thrust of the original Stream of Consciousness and Seed of Consciousness continue to create new specializations of consciousness and new forms through which consciousness manifests. **The process can be viewed as the singular beam of light-sound - the Stream of Consciousness holographically refracting within the scalar fields of the Time Matrix, splitting itself into multiple beams, each imbued with portions of the qualities, attributes, Fire Letters and consciousness of the original beam.**

Each new beam of light-sound-consciousness that is formed through the splitting of the original Stream of Consciousness retains part of the Fire Letter/scalar wave design of the original Stream of Consciousness and creates new, smaller streams of consciousness that manifest as further differentiated individuated identities and manifest forms Through this process of scalar wave splitting and refraction, the blueprints morphogenetic fields for conscious life forms are creates in time

In relation to the human form which itself exists as a multi-dimensional scalar wave construction, a living morphogenetic field the structure of dimensionalized consciousness takes the form of the **15-Dimensional Identity**

The Rishi of dimensions 15-13, the Avatar of dimensions 12-10, the Over-Soul of dimensions 9-7, the Soul of dimensional 6-4 and the Incarnate of dimensions 3-1. Each level of this multi-dimensional identity represents a progressively individuated fragment of the original Stream of Consciousness. These levels of individuation are formed as consciousness spirals its way outward through the Stream of Consciousness, from the Seed of Consciousness, into dimensionalization.

The various structures of multi-dimensional human consciousness exist as forms of sentient awareness *identities* possessing the attributes of form characteristic to the dimensional levels in which they appear. All, in truth, are mental constructs thought-forms morphogenetic fields within the eternal GOD-MIND. Each of these conscious identity levels are unique unto themselves yet simultaneously all are connected to each other and the original Stream of Consciousness through their individual portions of the Fire Letters/ scalar wave patterns contained within the design of the original Stream of Consciousness and the Seed of Consciousness. **All identities, including those portions physically incarnate within earthly human form, are ultimately connected to the original Seed of Consciousness via the dimensionalized Stream of Consciousness through which they are connectively created.**

The reality of evolution is the process by which the smallest fragments of individuated identity, those that have spiraled into the dimensionalization of the Time Matrix, progressively re-merge with their original parts. Through this re-integration of identity, the individuated consciousness progressively expands back into its original wholeness, re-building the original Stream of Consciousness upon which it entered dimensionalization. This is achieved by re-assembling the Fire Letters/ scalar wave patterns of the original Seed of Consciousness. As identity progressively expands to re-integrate its dimensionalized parts, its manifest form progressively changes from the dense matter forms of the lower dimensional fields, to the pure scalar wave radiation forms of the highest dimensions. When the original identity has been reassembled, the sentient consciousness then expands beyond the Time Matrix, returning to its original form as the sentient Seed of Consciousness, existing in co-creative At-one-ment with the God-Source. This state of Being is known as **Ascended Mastery.**

The clear-cut path of evolution is simply the rebuilding of the original Fire letter/ scalar wave design of the original Seed and Stream of Consciousness. Through this process, the consciousness traverses back upward, spiraling through the original "stream of light-sound" upon which it entered dimensionalization, until it re-expands into its original form of the Seed of Consciousness. **This clear-cut evolutionary path is known as the *Path of Grace, the Path of the Middle Pillar, the Path of the Law of One* ... it *is* the PATH OF ASCENSION.** It is the path of freedom from entrapment within the confines of space, time and matter.

Each time a consciousness is sent forth into the Time Matrix, breaks down into dimensionalized individuated identities, then re-evolves through re-assembling its parts to attain freedom from the Time Matrix, the experiential realities it encountered through its journey in time add to and expand the original Seed of Consciousness. The expanded Seed of Consciousness then sends forth a new Stream of Consciousness through which a new, expanded design of identity individuation is cast into the Time Matrix for evolution. **The processes of creation and evolution are eternal.** The experience of each manifest expression adds to and expands the over-all content of the whole God Source yet at the same time, the original pattern of the whole remains indelibly, eternally intact.

The Eternal Force the Heart-Mind of God is an un-quantifiable construct of energy, consciousness cognition and identity pure sentient creative Force. Though this Force perpetually expands through new manifestations of ITSELF it too remains perpetually the same, for **the perpetual expansion of creation is balanced eternally by reciprocal contraction – the Eternal Stillness – the *Great Void*.** The Force contains within itself as a natural attribute of its Being a balance between the Stillness and Motion expansion and contraction order and chaos darkness and light *creation and the Void within which creation takes place*. Together these attributes represent the eternal state of ISNESS, without beginning or end that IS the Beingness of God. Through this eternal Beingness the cosmos is kept in perpetual balance eternal Stillness, eternal Motion unending Creation.

In the process of perpetual evolution, particularly in relation to human consciousness, the intended path held within the Seed of Consciousness is the re-integration for identity for its eventual return to At-one-ment and co-creatorship with God-Source The process works well n the over-a scheme of things but n terms of ind vidual evoiution the evolutionary process can provide quite a challenge Once the original Seed of Consciousness has cast its Stream of Consciousness into the Time Matrix, the Fire Letter/ Scalar wave design of the orig nal Stream of Consciousness frequently breaks down and becomes distorted through t interaction with the dimensionalized reality fields In terms of human consciousness, this occurs because the Seed of Consciousness for the human form is imbued with *free creative will* Identities in time have the power of choice and the power of creation within the boundaries of the Seed of Consciousness. **The individual identities in time have the ability to refuse or accept the impulse for evolution as set by the Seed of Consciousness**

Through free will new creations can be experienced by the individual, which ultimately add to the experience of the whole but free will can also create a dilemma for the identity in time Through its experience in dimensionalized consciousness, the identity frequently makes choices that result n the distortion of its Fire Letter/ scalar wave patterns through which it is connected to the orig nal Stream of Consciousness. **Distortion of an identity's original Fire Letter design, which manifests within the morphogenetic field and also within the genetic code of the identity's physical body, disables the identity's natural ability to re-integrate with the Fire Letter patterns of the original Stream of Consciousness** When this occurs, literal energetic breaks appear within the multi-dimensional identity structure, breaking the Stream of Consciousness which tethers the in-time identity to its Seed of Consciousness with n the God-Mind

If an identity is severed from its original Stream of Consciousness, that identity can no longer draw life-force substance directly from God-Source, for this is done through the identity's connection to the Seed of Consciousness The identity becomes finite in nature, trapped in time, perpetuating its existence through drawing life-force nd rectly from other life forms that still possess a connection to their Seed of Consciousness Eventually such finite identities lose their abil ty to hold the orig nal Fire Letter design of their own individuation and fragment further n time, ultimately becom ng undifferentiated units of consciousness with n the energetic structures of the dimensional fields. **This is the process of de-evolution** and though it is a natural part of the intrinsic dynamics of the creative balance, it is the anti-thesis of the original intention that was set by God-Mind for the evolution of the human race

No being is ever separated from God-Source, for a energy is a manifestation of the un ts of the consciousness of God and a l manifestation takes place within the confines of the God-Mind **The difference between evolution and de-evolution then becomes one of *experience or non-experience of God* or *cognition of the awareness of God*** The path of de-evoiution leads to fragmentation and non-differentiation of identity a *loss of cognition of the awareness of God* while still remain ng as UNKNOWING unordered consciousness within God The path of evolution eads to progressive and perpetual expansion of identity into cognition of the awareness of God a *conscious re-integration with the totality of the ALL* through which identity retains its orig nal design as a sentient, KNOW NG, co-creative force.

For human incarnates, the process of evolution is the process of progressive integration of the original Stream of Consciousness upon which one entered time Multi-d mensional evolution of human identity is ach eved by the progressive *accretion* (drawing into the morphogenetic field), and re-assembly of the Fire Letters/ sca ar wave patterns of the Seed of Consciousness. If the Stream of Consciousness has been broken or d storted at any level of the 15-D mensional human identity, the identity will be trapped in time, unable to re-integrate with the Seed of Consciousness until the Fire Letters of the Stream of Consciousness are restored

n simple terms the way out of the Time Matrix and back to God-Source At-one-ment is to follow and re-integrate the Stream of Consciousness upon which one entered the Time Matrix This s the Path of Ascension dimensional Ascension s the purpose for and process of evolution **The Seed of Consciousness eternally held within God-Source, is the key to re-assembly of the Stream of Consciousness, for the Seed holds the original pattern of**

identity individuation – the original Fire Letter/ scalar wave design that birthed the Stream of Consciousness into manifestation.

Identities in the Time Matrix, regardless of the amount of distortion in their connection to the original Stream of Consciousness (distortions which manifest within the DNA as well as within the morphogenetic field), **posses at least one minute fragment of the original Seed of Consciousness – one fragment of the original Fire Letter/ scalar wave design that originally connected them to God-Source. This fragment of the original Seed is called the *Spark of the Living Flame* and it contains within it the potential to regenerate the original Fire Letter design of the Seed** Regeneration of the identity's connection to the Stream and Seed of Consciousness is not a simple process that "happens overnight" In fact this process can take many incarnational cycles and cycles of manifestation in the Time Matrix to complete But reconstituting the identity's connection to its original Stream of Consciousness through regenerating the original Fire Letters/ scalar wave patterns is well worth the effort. This process holds the promise of fulfillment for the identity's evolutionary destiny a return to its original splendor as a sentient co-creative force and eternal Seed of Consciousness within the God-Mind **The pinnacle of human evolution is the return of the individual identity to its Original Innocence, as a Seed of ever-expanding Consciousness within the Heart-Mind of God-Force.**

The key to human evolution is the *Spark of the Living Flame*, the intrinsic, minute Fire Letter/ scalar wave pattern that connects the individual to its original Stream and Seed of Consciousness. The Spark of the Living Flame exists within the human bio-energetic field structure as a dormant Fire Letter/ scalar wave pattern When activated the Spark opens new chakra centers in the body and allows new frequency patterns to enter the morphogenetic field and DNA Through activation of the Spark of the Living Flame, the process of reconstructing the connection to the original Stream of Consciousness and integrating multi-dimensional identity is set in motion within the human embodiment.

The Spark of the Living Flame, which connects the human to the Seed of Consciousness beyond time, is composed of the Fire Letters/ scalar wave and tonal pattern of the 8th Dimension. In the human body and morphogenetic field this Spark exists as a minute crystallization of radiation located between the 4th and 5th Chakras within the Thyroid Gland The Spark of the Living Flame can be brought into activation through specific techniques of Keylontic Morphogenetic Science. The Spark of the Living Flame is known as the ***Shield of Orion* – the Gaian Shield.** Activation of the Shield or Orion begins the activation of the 8th Chakra within the body and imprints the morphogenetic field with the Fire Letter design of the 8th DNA strand in the Silicate Matrix gene code This process begins activation of other dormant gene codes and bio-energetic structures within the human body and consciousness **Through activation of the Shield of Orion, the individual's connection to the original Stream of Consciousness can begin to reassemble within the embodied human consciousness and the natural evolutionary process of multi-dimensional identity integration – the path of Ascension – can be set back on course.**

The following Keylontic Science Exercise will begin the process of activating the Shield of Orion the Spark of the Living Flame within the physical body, DNA and embodied human consciousness. Activation of the Shield of Orion sets in motion the integration of the 8th Dimensional aspect of identity the **Monad** the center of the Over-Soul Identity It is a process called **Anchoring the Monad.**

Anchoring the Monad awakening the Spark of the Living Flame will imbue the human morphogenetic field with the correct Fire Letters/ scalar wave and tonal patterns of the original Stream of Consciousness bringing into the DNA the imprint for the 8th strand of the 12-strand Silicate Matrix gene code This will begin activating 8th–Dimensional frequencies within the morphogenetic field The 8th DNA strand will not activate within the manifest human gene code until strands 7 and below have fully activated but the 8th–Dimensional frequencies of the Shield of Orion will stimulate into activation and progressively re-order the Fire Letter/ scalar wave patterns of the dimensional identity levels and DNA strands below, setting in motion the process of re-building its direct connection to the Seed of Consciousness its original point of creation and individuation held eternally within the God-Source. **The original Seed of**

Consciousness is known as the God-Self or the *Eckar Identity* – wh ch exists beyond time and dimensionalization, within the Eckatic level of the Energy Matrix. The God-Self is the individual's indelible connection to God, through which sentient cognition of the awareness of God can flow. Through the progressive embodiment of the God-Self, identity reclaims its At-one-ment and co-creatorship with the God-Source, evolving through dimensional Ascension, beyond the confines of space, time, matter and dimensionality, into Ascended Mastery. Anchoring the 8th–Dimensional Monad is one way to expedite this process.

It is advisable to use the *Anchoring the 5th Dimensional Archetype Exercise* for 3-6 months prior to using the following Anchoring the 8th–Dimensional Monad Exercise.

Anchoring the 8th–Dimensional Monad Technique
"Spark of the Living Flame" – Optical–Thyroid Solar Activation

In this exercise the D-8 Geomancy Control code the "ZTZ" (double forward slanting Lightening Bolts) and the D-12 Geomancy Control Code the Merkaba Star (6 pointed "Star of David") the color spectra of D-8 Pale Gold and D-12 White Chakras 1, 6, 8 (between Chakras 4 and 5), 9 (nape of neck), 10 (6" above head), 11 (18" above head), 12 (6" below feet) and 13 (Earth Core) and Kathara Spheres 1 (Earth Core), 2 (Vagina/Prostate), 5 (Navel), 8 (Thyroid), 11 (Pineal) and 12 (Chakra 10) will be used

Begin this meditation either out of doors where you can have clear view of the Sun, or imagine the image of the sun above you as if you were looking at the Sun. It is best to use the true sun for this exercise so you can capture the needed frequencies from the Solar Light Spectra.

1. **Take 3, slow deep breaths, then clearly visualize the Symbol of the "ZTZ" forward slanting Lightening Bolts Symbol in a Pale Yellow color, surrounded by the Merkaba Star - 6 Pointed Star of David – Symbol in White, positioned in the center of your forehead between the brows at the 6th Chakra.**

2. **Holding the image of the Symbol in mind, imagine the Symbol filling with light and energy as you INHALE the 4th breath.**

3. **As you EXHALE the 4th breath, push the Symbol from your 6th Chakra toward the Sun. Imagine the Symbol entering the Sun, picking up its light spectrum frequency coding.**

4. **Breathe a few relaxed breaths while imagining the Symbol filling with Solar frequency, until you feel a "stopping" sensation, as if the Symbol is "full" and can hold no more energy.**

5. **After sensing the "stop", open your eyes and look briefly into the Sun, while taking a slow, long deep INHALE breath, drawing the "loaded" Symbol back toward you. As you draw the Symbol toward you with the inhale breath imagine that it has replicated into 2 duplicate Symbol images, each moving toward you on a separate ray of light from the Sun. At the completion of the inhale visualize the duplicate Symbols completing their journey, 1 Symbol coming to rest above the throat region at the Thyroid Gland (in the 8th Chakra between Chakras 4 and 5), the other Symbol coming to rest just above the skin over your 6th Chakra between the brows. EXHALE then take a few short, gentle breaths, while feeling the energy–reality of the Symbols over the Thyroid and the brows.**

6. **Next take a long, slow INAHLE while visualizing the 2 duplicate Symbols simultaneously entering into the body, the brow Symbol entering the 6th Chakra, moving into the pineal and brain center – the 11th Kathara Sphere, and the Thyroid Symbol entering into the Thyroid Gland through the 8th Chakra.**

7. **ON the EXHALE breath imagine the pineal Symbol moving downward to the Thyroid Gland. Stop moving the Symbol at the Thyroid Gland and INHALE.**

8. **On the EXHALE breath re-merge the 2 duplicate Symbols at the Thyroid Gland into 1 Symbol** (the ZTZ Lightening Bolts in Pale Gold surrounded by the Merkaba Star in White), **as you exhale, move the singular Symbol down from the Thyroid to the 5th Kathara Sphere at the Navel. Stop moving the Symbol at the Navel and INHALE.**

The MCEO Freedom Teachings® Series © 1999 - 2011 A & A Deane

9. **On the EXHALE breath move the Symbol down to the 2nd Kathara Sphere** (in the front vagina wall for women, in the prostate for men) **Stop moving the Symbol at the 2nd Kathara Sphere and INHALE.**

10. **On the EXHALE breath divide the Symbol into 2 again and forcefully push the duplicate Symbols downward inside the legs and out the small Chakras at the Soles of the Feet. Continue the exhale and re-merge the duplicate Symbols into 1 Symbol image and continue to push the Symbol downward through the 12th Chakra** (6" below feet) **and into the 13th Chakra and 1st Kathara Sphere at Earth's Core. Stop moving the Symbol at Earth's Core and INHALE.**

11. **Imagining the Symbol at Earth's Core, take 7 LONG, DEEP, SLOW, BREATHS, allowing the Symbol to absorb the frequencies from Earth's Core.**

12. ***After the 7 breaths reverse the vertical downward movement on the EXHALE to a vertical upward movement on the INHALE, stopping the Symbol movement to EXHALE rather than to INHALE.*** **INHALE and move the Symbol upward from the Earth's Core, through the 12th Chakra then directly into the 1st Base Chakra** (between legs) **and into the 2nd Kathara Sphere** (vagina in women, prostate in men) **Stop the Symbol movement at the 2nd Kathara Sphere and EXHALE.**

13. **INHALE and move the Symbol upward from the 2nd Kathara Sphere to the 5th Kathara Sphere at the Navel. Stop the Symbol movement at the Navel and EXHALE.**

14. **INHALE and move the Symbol upward from the Navel through the 8th Chakra to the Thyroid Gland. Stop the Symbol movement at the Thyroid and EXHALE. Take a few relaxed breaths at the Thyroid before moving the Symbol again.**

15. **INHALE and move the Symbol upward from the Thyroid Gland into the 11th Kathara Sphere in the center of the brain at the Pineal Gland. Stop the Symbol movement at the Pineal Gland and EXHALE.**

16. **Keeping the image of the Symbol in mind at the Pineal Gland, take 3 slow, deep breaths. INHALE then hold the inhale breath for a count of 3. EXHALE slowly, then hold the exhale with lungs emptied for a count of 3. INHALE – HOLD for 3-count. EXHALE – HOLD for 3 count. INHALE – HOLD for 3. EXHALE – HOLD for 3.**

17. **On the next INHALE, imagine the breath filling the Symbol at the Pineal Gland with Pale Gold light-energy. Then EXHALE forcefully and imagine the Symbol bursting out from the Pineal Gland on a horizontal plane surrounding your head like a Halo.**

18. **INHALE and imagine you are drawing power from the Sun to energize the Symbol Halo around your head. EXHALE and push the energy in the form of Pale Gold light through the Pineal and outward into the HALO. Imagine the Halo beginning to glow with Pale Gold Light.**

19. **INHALE once more and EXHALE forcefully through the Pineal into the Halo and observe as the Halo replicates, forming a double Halo around your head. Breathe gently and observe the 2 Halos begin to spin slowly around your head, one toward the left the other toward the right. Breathe for a few moments with your attention observing the double Symbol Halo around your head spinning faster and faster, until you become tired or can no longer follow the spinning movement.** (The spinning draws 8th dimensional frequency into your morphogenetic field, which will soon be used to "Spark" the Orion Shield Spark of the Living Flame within the Thyroid Gland When the morphogenetic field has drawn in as much D-8 frequency as it can presently hold, you will grow tired or lose track of the spinning motion of the Halos)

The MCEO Freedom Teachings® Series © 1999 - 2011 A & A Deane

20. **When you have lost track of the spinning Halos or have grown tired, INHALE slowly, drawing the Halos back inward to the Pineal where the will now appear as a tiny SPARK of pale Gold light. EXHALE and move the Pale Gold Spark downward to the Thyroid Gland. Stop the Spark movement at the Thyroid and INHALE.**

21. **EXHALE forcefully and imagine the Pale Gold Spark exploding, filling the entire Thyroid with pale Gold light-energy. Breathe gently a few moments, each breath making the Pale Gold Thyroid Gland grow brighter and observe that in this Pale Gold light you can now see a TINY, CLEAR-CRYSTAL SPHERE AT THE CENTER OF THE THYROID GLAND – this Sphere is the *Spark of the Living Flame* – the Shield of Orion – the minute scalar standing wave pattern that connects you to your original Stream of Consciousness and your Seed of Consciousness as held within GOD-Source.**

22. **Hold the image of the transparent Sphere within your mind and feel the reality of its consciousness as you breathe slowly.** This is part of your consciousness that you will one day fully embody when you become an Ascended Master through evolving upward in the 15-Dimensional Scale until you are able to leave the Time Matrix through the center point of the 8th Dimension. Until this time, the God-Self Sphere will serve as a place to which you can mentally travel, placing yourself within the Sphere when you need guidance, comfort or a stronger connection to your true, eternal essence. The God-Self Sphere connects your consciousness to your Harmonic Universe-3 light-sound body, the Betcha-Hova Body, which is the embodied consciousness of *you* at the Over-Soul level. The center of the Over-Soul identity is the *8th-Dimensional Monad Identity*. By imagining yourself in the God-Self Sphere during meditations you will develop a conscious relationship with your Monad identity. The Monad Identity and Over-Soul communicate with you via *Direct Cognition*, which comes from you linking the energy of your Earthly consciousness with the energy of the Stream of Consciousness that flows from your Over-Soul. Through the God-Self Sphere you may link with your Over-Soul and receive guidance through its direct connection to God-Source any time you choose.

23. **Take a final slow, deep breath and open your eyes, returning your consciousness to your present moment focus in the Earthly world. Carry the memory of your God-Self Sphere with you as you turn your attention to other things.**

    From this point on, remember the God-Self Sphere that you carry within and create time to explore a conscious relationship with this hidden aspect of yourself. Try to become more aware of your breathing as you go about your days and with each breath you notice, imagine the EXHALE breath sends Pale Gold 8th Dimensional energy through your Thyroid Gland, energizing and strengthening your connection to the God-Self identity. Call to mind the image of the God-Self Sphere in the Thyroid whenever you can and begin sending it mental messages that you desire to strengthen your relationship with your eternal true essence. Use the image of the God-Self Sphere as a platform of departure in your meditations, out-of-body journeys and prior to sleep. Imagine yourself within the God-self Sphere, connecting to the Stream of Consciousness of your Over-Soul Self. **When in need of protection or healing imagine yourself within the God-Self Sphere and use your EXHALE breaths to push the God-Self Sphere outward until its energy fully surrounds and permeates every cell of your physical body.** With sincere practice of these exercises, you will create true transformation in your consciousness and in your daily life.

This exercise is most effective when initially used once every 3 days, just prior to sleep or in undisturbed meditation. If used prior to sleep, train your mind to remember the image of the God-Self Sphere as the first thing that enters your mind when you awaken. After 1 month of practice, the frequency of the exercise can be reduced to once every 2 weeks. Following 3 months of practice the long version of the exercise is not necessary but repeating it once or twice per year will be helpful in maintaining the skills you will develop through this technique.

The MCEO Freedom Teachings® Series © 1999 - 2011 A & A Deane

To increase the effectiveness of this exercise, it is suggested that you practice simple Optical-Thyroid Solar Breathing frequently, until it becomes habit. Simply INHALE Solar light from the atmosphere around you when you are out-of-doors and mentally direct the light as Pale Gold energy to simultaneously enter the 6th Chakra and Pineal Gland and the 8th Chakra and Thyroid Gland. HOLD the INHALE for a 3-count then EXHALE the Pale Gold light-energy into every cell in your body. This practice also works wonders for healing and revitalization.

It is suggested that *Anchoring the 5th – Dimensional Archetype Identity Exercise* be used for 3 – 6 months before using the *Anchoring the 8th – Dimensional Monad Exercise*, to assist the body in preparing for the higher frequencies of the Monad Exercise. The Monad Exercise can be used alone but more rapid results will be noticed if the Archetype Exercise has been used first.

Lecture: *Lighting the Shields*
For Personal and Planetary Healing

This exercise is intended to allow the individual to begin drawing higher dimensional frequency directly from the Morphogenetic Planetary Shields (scalar grids that allow dimensional blend to occur between Harmonic Universes) to use for personal benefit in healing and manifesting and in group work for personal or planetary service. The Planetary Shields hold a vast amount of energy and when this energy is drawn into the body in the appropriate manner, great things can be accomplished. The nice part about receiving these gifts from the Planetary Shields is that you must first give a gift of energy exchange that will directly assist the planet in activating the Shields in a balanced manner.

The following exercise is very simple. Do not let its simplicity fool you into thinking it is not a valid technique. **The secret of drawing energy from the Planetary Shields was known in ancient Atlantis,** before the islands final sinking. It was a technique that Atlanteans and early Lemurians (Cloister Races with strands 7-12 of the Silicate Matrix) used to rejuvenate and heal their bodies, slow the aging process, stop pain and to manifest their desired thought forms and events. Using the Shields was a common practice in those days, the practice was taught from early childhood and by early adulthood great power of manifestation was achieved. The practice is not intended to be abused, for if one attempts to use it for destructive purposes or to harm another, the Shields are shut down by the Eternal Guardian Races that watch over them and consequences for such actions are administered by the Shield Guardians. **The Guardians of the Shields are known as *The Guardians of the 12 Pillars*, the pillars represent the *Ley-line Planetary Grids* that run through Earth, Tara and Gaia and which are controlled by the Planetary Shields.**

The Pillars are guarded by identities within the Yusette level of existence, the final level of Ascended Masters residing eternally in union with God-Source. In ancient times children were taught to project their consciousness into the planetary core, where they would be met in consciousness by the Yusette Master. The Master would telepathically discuss responsibilities of planetary stewardship with the child and ask if the child was ready to participate in planetary service. If the child agreed, the Master would then give the child a **Symbol Code and a Tone** that was to be revealed to no other. The code-tone was committed to memory and became the child's access code to the entry levels of the Planetary Shield. By the age of 12, the child would project to visit the Master at least 3 times. At **age 12**, when the physical body could synthesize higher dimensional frequency, the **access codes to Tara's Shield** was given to assist the child in **Anchoring its Soul/ Archetype Identity** in the physical body. At **age 33**, the codes to **Gaia's Shields** were given so the process of **Anchoring the Over-soul/ Monad Identity** could be expedited. Each level of code access was considered a Graduation into another level of power, right and responsibilities toward the evolution of the planet.

Connecting with the Planetary Shields provided a deep sense of kinship between the individual and the Planetary Consciousness. It also provided the individual with a conscious connection to the Yusette Masters and their inter-dimensional operatives, through which guidance and wisdom could be found. **Following the destruction of Atlantis in 9558 BC, the Guardians of the 12 Pillars ceased working directly with the human collective, reserving the knowledge and power of the Shields for only a few who presented themselves as worthy and sincere in their desire for planetary service. For the first time since 9558 BC, the Guardians of the 12 Pillars are willing to work directly with those of the human collective who show a sincere desire to assist in the co-creative evolution of the planet.** In this **Earth Shield Exercise** you are offered the opportunity to engage in communion with a Yusette Master from the Guardians of the 12 Pillars. You must start at the entry level, just as did the children of Atlantis and Lemuria, for your body must grow accustomed to the increased energies offered by the Planetary Shields. The exercise must be approached with reverence in mind, for the Guardians of the 12 Pillars do indeed exist and require a maturity of intention and sincerity of heart before they will initiate contact. They will meet you with the same attitude you bring forth

and will open to you levels of knowledge and power only as you show that you are able to handle such gifts with grace and a willingness to serve others as well as the self

The following exercise will open the hidden realms of the Universe to you If you can rouse the discipline and respect that is required when dealing with Presence of an Exalted Authority The Guardians of the 12 Pillars bear their authority with Grace, Love and Kindness and do not expect nor desire worship, only respect and possibly love for the planet.

You may use this exercise whenever you desire. **You will not be able to draw more energy from the Planetary Shields than your system can handle as the Earth consciousness itself regulates this process, perceiving you as part of its own body and identity.** We are intending that humans will relish this opportunity to re-connect with the *Ancient Ones* who have been Guardians of the Human Family since its inception **Every time a human accesses the Planetary Shield, a burst of energy is sent forth into the Shield, energy which sparks the Shield into more rapid activation.** In ancient times, masses of humans drew energy from the Shields and through this process the evolution of the Earth consciousness was accelerated **Planet and populations assisted each other in growth and healing.** It was a time of deep abiding love between Earth and its people. Both humans and the Earth will benefit greatly if this relationship can now be reestablished **The inflow of human energy into the Planetary Shields progressively helps the dormant standing scalar waves (which exist as crystallized sound tones) to activate, lighting the wave pattern and making the Shield release its tone.** The Secrets of the Singing Shields were reserved only for elite groups in various times but now this opportunity is offered to the masses **Using the Shields will help them to activate properly in the 2000-2017 Stellar Activations Cycle, healing the Earth grid to avoid major cataclysmic change.**

If you care about Earth, the Guardians of the 12 Pillars ask you to please participate in this practice now, for the Earth needs the assistance of humanity. And as a reward you will discover aspects of power, love and wisdom the likes of which you have not dreamed for many thousands of years.

Lecture: Keylonta Merkaba Vehicle Activation

Hova Bodies, the Merkaba Vehicle, Evolution and Ascension

This exercise in Keylontic Morphogenetic Science is intended to rapidly prepare the physical body for entry into the **Merkaba Light Vehicle**. The *Merkaba Light Vehicle* is a system of spiraling electro-magnetic energy constructs within and surrounding the body, that manifest in the form of interwoven counter-rotating *Star-Tetrahedrons* (2 pyramids together, one inverted the other upright). The Merkaba Vehicle forms as a natural product of merging multi-dimensional **Merkaba Spirals** which is the result of the organic evolutionary process of progressively integrating the 15-Dimensional levels of identity. *Merkaba Spirals* are sets of counter-rotating electro-magnetic fields that exist as part of the organic structure of form construction within the dimensionalized universes of the Time Matrix. All dimensionalized manifest forms and forms of consciousness within time are created through sets of Merkaba Spirals. Merkaba Spirals draw energy and consciousness from the Dimensional Unified Fields into the Morphogenetic Field (form-holding blueprint) of a being or matter-form, feeding a continual supply of energetic substance into the blueprint, through which particles build up to create manifestation of the blue-print in matter. Merkaba Spirals are a natural part of the hidden dynamics of creation.

Every manifest form in time has sets of dimensional Merkaba Spirals through which its physicality or external manifestation is brought into being. The human form has 15 Dimensional Merkaba Spiral Sets, one set of spirals for each of its 15-Dimensions of morphogenetic structure. Dimensions (sets of frequency bands) are structured in groups of 3 dimensional bands, each set of 3 dimensions forming a 3-dimensional reality field within which external manifestation and physical life experiences take place. In the 15-Dimensional structure there are thus 5 sets of 3-dimensional reality fields - each of the 5 sets of 3-dimensional reality fields represents **1 Harmonic Universe**. Merkaba Spirals exist not only within the smaller, singular dimensional structures, but also within the greater structures of the Harmonic Universes. There are **Dimensional Merkaba Spirals** and larger **Harmonic Merkaba Spirals**.

The 15-Dimensional Matrix is structured in such a way that Harmonic Universe-1, HU-2, HU-4 and HU-5 have ½ of a *Harmonic* Merkaba Spiral Set and HU-3, at the center of the 15-Dimensional Matrix, has 1 complete set of Harmonic Merkaba Spirals. The partial Merkaba Spirals of HU-1 and HU-2 and HU-4 and HU-5 co-join at certain times and under certain conditions forming complete Harmonic Merkaba Spirals, which allow these Universes and their inhabitants to energetically connect to HU-3. HU-3 connects to a central core of the Time Matrix at the 8th Dimension the original point of entry into time and the point of exit from the Time Matrix, when a being has completed its evolution in time. The interlocking Harmonic Merkaba Spirals serve as an energetic conduit through which consciousness can enter time and manifest experience and through which consciousness can re-evolve back out of time to rejoin with its original source beyond time - the God-Source. So Harmonic Merkaba Spirals represent pathways of spiraling energy through which all things in dimensionality are connected and through which dimensionalized forms of consciousness can return to their original non-dimensionalized state of being.

The morphogenetic structure of dimensionalized human identity is composed of 5 energetic bodies, called **Hova Bodies**. "Hova" means "3-dimensional light sound grid". In each of the 5 Harmonic Universes in one 15-Dimensional Matrix, the Human identity has 1 Hova Body which holds 1 3-dimensional portion of the individual's identity. The Hova Body in HU-1 is called the **Nada Hova** - which corresponds to the Earthy incarnate identity, in HU-2 is the **Alphi Hova** and the Soul identity, in HU-3 is the **Betcha Hova** and Over-Soul identity, in HU-4 the **Mahara Hova** and Avatar identity and in HU-5 the **Raja Hova** and Rishi identity. Each of the 5 Hova Bodies of the human identity represents a different level of matter-form density, different level of consciousness and different location in space-time placement. The density levels of the Hova Bodies and the body forms they manifest progress from gross matter density of HU-1 Nada Hova, through progressively less-dense states of matter, up to the pure ante-matter wave form of the Raja Hova body in HU-5. As the matter density decreases, the form size and consciousness expand. The process of human evolution is the progression through various forms in the lower Harmonic Universes, into the pure original wave- form of consciousness in HU-5, progressively de-densifying the body matter while expanding the form and content of consciousness. **This process of evolution is *Dimensional Ascension* and it is achieved through the progressive integration of one**

The MCEO Freedom Teachings® Series © 1999 - 2011 A & A Deane

Hova Body into the next. The HU-1 incarnate expands to become the soul identity by integration of the HJ-1 Nada Hova Body and the HU-2 Alphi Hova Body, .etc. As the Hova Bodies progressively ntegrate, one into the other the personal identity and consciousness progressively expand, while the bodily form transmutates its molecular structure through progressively less-dense states of matter When the identity has fully ntegrated ts 5 Hova Bod es and the 15-d mensions of consciousness they carry, it expands to absorb the pattern of the 15-Dimensiona Matrix at which point it expands beyond the confines of the Time Matrix and dimensional structure to re-merge as a co-creative force with the God-Source retaining all memory of ts sentient identity in time This process of d mensional Ascension is the hidden dynamic and motivating force behind and within manifest evolution **The Merkaba Spirals play an important role in the process of evolution through dimensional Ascension.**

As previously mentioned each of the 5 Harmonic Universes possesses Merkaba Spirals. This principle applies on the micro-cosmic and macro-cosmic levels The 5 Hova Bodies of human construction each exist within and function through sets of D mensional and Harmonic Merkaba Spira s The process of Hova Body integration, h gher-identity embod ment and bodily transmutation takes place through the dynamics nherent to the Merkaba Spira s of the Hova Bodies. The Dimensional Merkaba Spira s are locked nto each dimensional band through the morphogenetic blueprint of the Hova Bodies. Th s blueprint keeps the identity and its man fest body ocked within a 3-dimensional Harmonic Universe system and nto the time cycles and space co-ordinates of that system. The Harmonic Merkaba Spirals are kewise locked into their respective Harmon c Universes, keeping the 5 Hova Bodies and identity leve s separated in time and space In order for the Hova Bodies to merge for dimensiona Ascension, the Harmonic Merkaba Spirals must be released from the rotational speeds of their Harmonic Jn verses so they may come together and merge Release of the 5 Harmonic Merkaba Spirals releases the Dimensional Merkaba Spirals contained within them and through this process the consciousness and bod y molecular structure of the five 3-dimensional identity evels is freed from ts placement within space-time The dynamics by which the Harmon c and Dimensional Merkaba Spirals are released from their phase-lock in space-time are quite complex. The Hova Bod es, identity leveis and Merkaba Spira s are locked n time through a series of morphogenet.c structures called **Morphogenetic Crystal Seals** Through opening the Crystal Seals the Merkaba Spirals release a lowing the merger of the 5 Hova Bodies, expansion of identity and consciousness, transmutation of ce ular form and dimens ona Ascension

Through the process of merging the Hova Bodies and Merkaba Spira s, a structure of light, sound, electro-magnetic and scalar standing waves is progressively formed around the body, which gives the body-form and consciousness progressively more freedom of movement throughout the dimensional systems and universes of space-time This structure of wave patterns is called the **Merkaba Vehicle** The Merkaba Vehicle forms in stages, with the progressive ntegration of each Hova Body and identity level The position of the Harmonic Merkaba Spirals when they are ocked nto their respective Harmonic Universes is called **Nethra Phase Merkaba. Nethra Phase represents a 3-dimensional Merkaba Vehicle**

The first stage in assembling the Merkaba Vehicle occurs with the merging of the HU-1 Nada Hova Body and the HU-2 Alphi Hova Body - the merging of the earthly incarnate with its Soul Matrix identity - this s ca led Ha lah Phase Merkaba **Hallah Phase Merkaba** creates a bi-pyramidal Merkaba Vehicle form in the shape of a Star-tetrahedron (symbo.zed by the 6-pointed star), which is capable of mov ng between HU-1 and HU-2 Through this wave-pattern structure a state of physica bi-location of the identity with n corresponding space-time coordinates in HJ-1 and HU-2 takes place and the consciousness can simultaneous y experience l fe n HU-1 and HJ-2 The identity becomes a fu ly embod ed soul In Hallah Phase DNA strands 1-6 of the 12-strand Silicate Matrix human genetic code come nto activation **Hallah Phase represents a 6-dimensional Merkaba Vehicle**

When the HJ-3 Betcha Hova Body merges with the Nada and Alphi Hova Bod es from HU-1 and HU-2 through the structure of the Hallah Phase Merkaba Veh cle the Merkaba Veh cle changes form entering **Quatra Phase Merkaba** - it s the merging of the soul identity from HU-2 with its Over-Soul dentity of HU-3 The Quatra Phase Merkaba Veh cle s a tri-pyramidal construct, through wh ch the incarnate form of HJ-1 that was bi-located during Hal ah Phase is turned into ght/wave pattern then re-manifested fu ly within HU-2 in a less-dense, eterna version of its matter body The Quatra

Phase Merkaba Vehicle looks like a Star-tetrahedron with 2 extra egs symbolized by the 8-pointed star The Quatra Merkaba Vehicle is capable of transporting its "owner" between Harmonic Universes 1, 2 and 3. The identity becomes a fu y embod ed Over-Soul with DNA strands 1-9 activated in the genetic code **Quatra Phase Merkaba represents a 9-dimensional Merkaba Vehicle**

With integration of the HU-4 Mahara Hova Body and avatar dentity the Merkaba Vehicle aga n changes form as yet another Harmonic Merkaba Spiral is added to the Merkaba Vehicle - this s called **Mahunta Phase Merkaba** The Mahunta Phase Merkaba Vehicle is a four-pyramidal structure 2 inter-locking Star-tetrahedrons at 90-degree angles to each other, which ooks l ke a 10-pointed star surrounded by a rotating ring of multi-spectrum l ght This is considered the **Christed Merkaba**, the Merkaba Vehicle used by avatars from HJ-4, whose 12-d mensional consciousness s composed of pre-matter crysta line quid ght, and whose bodies ex st in HJ-3 etheric matter with 12 strands of DNA activated The Mahunta Phase Merkaba Vehicle is capable of travel ng through HU-1 through HU-4. The identity becomes a fully embod ed avatar, a Christed being **Mahunta Phase Merkaba represents a 12-dimensional Merkaba Vehicle**.

ntegration of the 5th, HJ-5 Raja Hova Body creates the final stage of the Merkaba Vehicle within the Time Matrix - this is called the **Rahunta Phase Merkaba Vehicle** The Rahunta Phase Merkaba Veh cle ooks l ke the 10-pointed star Mahunta Phase Vehicle, but has an add tional 2 "legs" sticking upward from the top, giving t the appearance of a 12-pointed star with 2 rotat ng, multi-spectrum rings of light surrounding it. The Rahunta Phase Merkaba Vehicle is used by the Rishi identities of HU-5 and it can only move between HJ-5 and HJ-3, for it would vaporize the matter forms and l fe forms f it came nto d rect contact with the lower Harmonic Universes. The consciousness of the Rishi in Rahunta Phase Merkaba Vehicle is pure rad ation, a 15-dimensional consciousness ex sting as pure wave form in the shape of the Rahunta Veh cle The Rishi can fragment its consciousness into lower phase Merkaba Vehicles to interact with the lower Harmonic Universes. **The Rahunta Merkaba Vehicle represents a 15-dimensional Merkaba Vehicle**

(You should feel a sense of a Spherical Field of Energy expanding around you and the sensation of a horizontal disc of energy expanding outward from the base of your spine and around you about 50-60 inches or 4-5 feet)

Shift Breath 3:

INHALE and CONTRACT the image of the Pale Gold ZTZ Symbol from around you, then move it down to the 3rd - Solar Plexus - Chakra. Hold breath, lungs full, for count of 7.

EXHALE *by Mouth* - vocalizing the sound - tone - ***Qua-tra*** -

(You should feel a gentle spin in the auric field around you and a faint shudder running through the field and into the body cells)

Following the exhale of the 12th Breath - the last Shift Breath - breath slowly and deeply and bring to mind an image of your avatar - "Christed Self" (your HU-4 Mahara Hova Body consciousness)

When the time is right and your DNA has activated sufficiently to the 7th strand, your "Christed Self" will give you the final Symbol Code, tone and action for the 13th Breath. The 13th Breath will take you into Quatra Phase Merkaba Vehicle, at which time you will disappear briefly from Earth in Harmonic Universe-1 and appear in a corresponding space-time coordinate on planet Tara in HU-2, having time traveled via teleportation. With practice you can learn to master this process, being able to biologically travel in your Quatra Merkaba Vehicle anywhere you choose in HU-1, HU-2 or HU-3.

The 13th Breath must be given by your identity because if you tried this breath before your DNA was prepared your body would spontaneously combust and your consciousness would fragment into HU-1

Anchoring the 5th-Dimensional Archetype Advanced Technique

In th s exercise the D-5 Geomancy Control Code - the Pentagram (5 pointed star) and the D-12 Geomancy Control Code - the Merkaba Star (6 pointed star "star of David"), the color spectra of D-5 Blue and D-12 White, and Chakras 11 (18 inches above head), 12 (6 inches below feet), 13 (Earth core) and 14 (36 inches above head) will be used

1. **Begin with slow breathing while visualizing a White Dot of light at the center of the brain - pineal.**

2. **Visualize the White Dot of light moving downward through the Central Vertical Current of the body, stopping the White Dot directly over the navel** (the pos tion of the 5th Kathara Sphere)

3. With the attention at the navel, visualize the mage of a Blue Pentagram

4. **Breathe 3 slow breaths while imagining the Blue Pentagram spinning toward the left shoulder** (clockwise). *Clockwise spin of Pentagram draws electrical energy from the 5th dimensional Unified Field into the 2nd Chakra.*

5. **After 3 breaths visualize the image of a White Merkaba Star forming around the outside of the Blue Pentagram. Spin the White Merkaba Star toward the right shoulder while continuing to spin the Blue Pentagram at its center toward the left shoulder** (counter-clockwise) *Counter-clockwise spin of the Merkaba Star draws 5th dimensional frequency from the Archetype identity into the 12th dimensional Unified Field, bonding the D-5 Archetype identify into the protective frequencies of the D-12 Avatar identity. This aligns the intentions of the Incarnate and Archetype identities with the intentions and evolutionary plan of the Avatar identity level.*

6. **Breathing slowly, allow the speed of the spinning symbols to settle into a rhythm that is natural for you. Continue to visualize the counter-rotating Blue Pentagram / White Merkaba Star Symbol Code at the navel, until you sense an "energy fluttering" sensation in the navel region** *The fluttering sensation indicates that the wave patterns of the D-5 Archetype have begun to enter into the body via the Core Star Crystal Seal located at the navel in the morphogenetic field. This begins the process of activating 5th dimensional frequency within the 2nd Sacral Chakra / Emotional Auric Body and the Solar Plexus Chakra / Mental Auric Body, via the Seed Crystal Seals at the cores of Chakras 2 and 3 (the Chakras directly above and below the navel Core Star Crystal Seal).*

7. **When you notice the fluttering sensation at the navel, inhale and imagine the Symbol Code contracting into a White Dot of light with a Blue Spark at its center, creating an image of a White-blue Spark at the navel.**

8. **On the next inhale visualize a Line of Blue Light from the Blue Spark at the center of the White-blue Spark in the navel, moving and extending upward with the inhale breath, through the Central Vertical Current of the body and out through the 7th Crown Chakra, up to the 14th Chakra 36 inches above the head.**

9. **On the next exhale breath visualize the White-blue Spark at the navel moving rapidly downward with the exhale breath, through the Central Vertical Current, out the 1st Base Chakra, through the 12th Chakra 6 inches below the feet, and deep into the 13th Chakra at the Earth's core.**

10. **Once the White-blue Spark is stationed within the Earth's core, draw a deep breath and forcefully exhale, imagining the force of the breath pushing outward from the center of the White-blue Spark. Visualize the White-blue Spark expanding outward, on a horizontal plane, into the Symbol Code of the White Merkaba Star with the Blue Pentagram at its center. Imagine the counter-rotating Symbol Code** (Merkaba Star

The MCEO Freedom Teachings® Series © 1999 - 2011 A & A Deane

spinning toward right shoulder, Pentagram toward left) **spinning within the Earth's core, as you breathe slowly once again.**

11. **With your attention at Earth's core, inhale slowly while imagining energy from the Earth's core, as well as air, filling your lungs, until lungs have reached full expansion.**

12. **On the exhale breath gently push the air and Earth core energy from your lungs outward from the center of the spinning Symbol Code at Earth's core, into the Symbol Code, visualizing the air/energy increasing the brightness of the Symbol Code, as it forms a Crimson Band around the outside of the Symbol Code.** *This process energizes the Symbol Code and anchors its frequencies into the morphogenetic field of Earth's core.*

13. **Continue to breathe slowly, on each inhale drawing in Earth core energy and on each exhale pushing this energy into the image of the Symbol Code at Earth's core. Continue the Symbol Code energizing breath until the Crimson Band of energy around the Symbol Code grows more faint and finally disappears.** *Disappearance of the Crimson Band indicates that full blending of Harmonic Universe -1 and Harmonic Universe-2 frequencies has taken place and the D-5 Archetypal Symbol Code has been imprinted into the Harmonic Universe -1 morphogenetic field (the Archetype of the HU-2 Alpha Hova Body has anchored within the HU-1 Nada Hova Body)*

14. **When the Crimson Band has disappeared, inhale while visualizing the Symbol Code contracting back into the White-blue Spark of light stationed at the Earth's core.**

15. **On the next inhale, move the White-blue Spark upward from Earth's core, into the 12th Chakra below the feet and into the 1st Base Chakra. On the exhale, visualize the spinning Symbol Code expanding into the center of the Base Chakra.** *This process of Symbol Code Induction activates the D-5 Archetype frequencies within the Seed Crystal Seals of that Chakra into which the Symbol Code is induced.*

16. **On the next inhale, move the White-blue Spark up the Central Vertical Current to the 2nd Sacral Chakra, on the exhale visualize the Symbol Code expanding into the 2nd Chakra.**

17. **Using the inhale breath to move the White-blue Spark upward in the Central Vertical Current and the exhale breath to expand the Symbol Code into the Chakra, repeat the Symbol Code Induction process in the 3rd Solar Plexus Chakra and the 4th Heart Chakra.**

18. **Once the Symbol Code expansion has been completed in the 4th Heart Chakra, inhale again, then on the exhale visualize the Symbol Code expanding outward from the 4th Chakra and into the auric field, several feet out from the body. Continue to breathe, using each exhale to push the Symbol Code image out from the 4th Chakra, into the auric field, until you can sense an elliptical sphere of White-blue energy building up around you several feet out in the auric field.**

19. **Visualize your body as being suspended within the Symbol Code and the Symbol Code as being surrounded by the White-blue elliptical sphere of energy. When you sense the elliptical sphere of White-blue energy around you, visualize this energy becoming a brilliant electric-blue color.**

20. **Continue breathing slowly. On each inhale imagine the image of the Symbol Code contracting inward from the auric field toward the body and into the center of the 4th Heart Chakra, where it once again contracts into a White-blue Spark of light.**

The MCEO Freedom Teachings® Series © 1999 - 2011 A & A Deane

21. **As you continue to breathe slowly, imagine each inhale breath draws White-blue energy from the White-blue Spark at the center of the 4th Chakra into a point of concentrated energy. On each exhale breath, exhale the energy from this point of concentration in the 4th Chakra, expanding the White-blue energy outward as a Starburst of light, into the body cells.**

22. **Continue to breathe, exhaling energy from the White-blue Spark in the center of the Heart Chakra into Starbursts of light that shower the body cells, until the image of the White-blue Spark dissipates, its energies fully expended throughout the body.**

23. **Let your attention drift into the sensations generated by this exercise; become aware of how your consciousness feels in this state of awareness. Relax and "be with" this mind/ body/ spirit state and allow the feeling of centered-ness, protection and unconditional love fill you.**

In the beginning this Keylontic Field Mechanics Exercise should be practiced twice daily, once in the morning at waking and again prior to evening sleep, until it becomes a natural part of your waking and sleeping rituals (Using an audio cassette tape recording of the exercise with head phones is recommended.) **Following 3 weeks of twice daily practice the new frequency program generated by the exercise will be set within the morphogenetic field, and the progressive process of anchoring the D-5 Archetype identity frequencies will begin operating on a subliminal level. After this time the exercise should be practiced 2-3 time per week, one time daily, preferable from a waking state of meditation** (to establish a link between the waking and sleeping brain wave patterns, through which D-5 frequency can increasingly flow into the waking consciousness)

After practicing this exercise for several months as suggested, you will notice your visualization of the color Blue will move progressively more toward the Indigo-Blue/ Violet color spectra, which indicates you have imprinted most of the 5th dimensional frequencies into your Nada Hova Body morphogenetic field. Once the D-5 frequencies are imprinted, the natural process of activating these frequencies within the DNA will begin. The activation of the Archetype within the DNA and conscious personality is regulated by the Oversoul Identity level (Harmonic Universe-3 identity) and depends upon the content and condition of the Silicate Matrix 5th DNA strand within the gene code. The 5th strand activation will be accelerated by this exercise. The 4th strand, with its attributes of astral perception / projection and awareness, will be brought into activation prior to activation of the 5th DNA strand.

Individuals who do not possess the imprint for the 5th DNA strand can receive this imprint from someone who has it via energetic induction or can acquire this imprint in 2012 from the frequencies running through the Earth's grid. The anchored frequencies and awareness of the D-5 Archetype cannot activate within the conscious personality until the 5th strand imprint is acquired and the 4th strand is activated. This exercise will expedite the process of Archetype Activation once the 5th strand imprint is acquired.

12-D Shield

This is the foundation technique suggested to use as a protective shield to strengthen and grow your Lightbody as well to utilize before you do any other healing, energy work or modality. The 12D Shield is an organic part of every human beings Lightbody which can be repaired and activated when using the inner focusing 12D shield technique. The frequency of which activates this horizontal shield and its vertical light pillar is platinum white in its frequency spectrum color. The 12D Ray current was returned to portions of the earth grid, therefore returned to humanity in early 2000.

Merkaba Star

A Six Pointed Star. This geometry means Unity, unity of polarity coming into oneness with God. In the earlier stages of building the divine krystic 12D Shield, the Merkaba Star or Star of David is the symbol code called upon to support the path of energetic synthesis, to bring unity within the lightbody. The Star of David means unity between male and female, the geometry directs balance between the masculine and feminine energies that exist within every human being, whether male or female form. All humans are intrinsically made up of Gender Principle energies, masculine and feminine, of which are designed to come into sacred union or hierogamic union in order to communicate with the highest self, the inner Christos-Sophia light.

12D Ray

This 12D White Ray (a ray is a term for an energetic particle wave spectrum) is the consciousness unit and a level of our being that manifests on the 12th Dimension. The 12D Ray holds the imprint of all 144 Subharmonic Strings from all 12 dimensions in the Universal Time Matrix. It is the first dimension of individuation on which the original divine blueprint

for humanity was created as a 12 DNA Strand Avatar. The Threefold Founder Flame, Prime creator merged Blue Ray (13D), Gold Ray (14D) and Violet Ray (15D). These three primal sound fields created all of our 15 Dimensional model of our Universal Time Matrix to create the Divine Monadic Blueprint for the Human Krystal Star or Christos Consciousness Being. This is also known as the **Silicate Matrix**, the Crystalline Body holding the codes of the Eternal Christ principle. Eternal Life Ever Flowing into the expansion of One Source. As we work with this 12D Ray and 12D Shield we reconnect the memory of our Silicate Matrix Crystalline Body into embodiment. This becomes more powerful during Ascension cycles.

ES Core Triad Practices

The core practices that are learned in the Energetic Synthesis community are designed to help direct beneficial life force energy and to protect the human aura from the high risk behaviors. High risk behaviors are promoted in many New Age materials that encourage Channeling and astral projection without any type of learned psychic self defense or mental discipline.

The many free foundation materials such as the 12D Shield, the Psychic Self Defense Series and the Ascension materials are designed to reeducate humans to access the higher truth of the current agendas on planet earth. Through being informed one is empowered to consciously participate with personal spiritual growth and cultivate energetic discernment. The controllers do not want this knowledge to spread therefore they spread all methods to discredit and dismiss the information.

Building Spiritual Core with 12D

12D Expands into Transit Gate

Once a person is attuned and working with the 12D shield daily, the Lightbody becomes aligned to the 12D Ray this starts to build the spiritual foundation for the Soul, Monad and Avatar bodies. See Ascension Stages. At a certain level of proficiency, one can utilize the 12D Shield as a Transit Gate Vortex, or a Shadow Gate. This is a vortex set up specifically to clear low vibration energies, entities, and negativity from the space one has commanded with the 12D shield as GSF. We

call that Commanding Personal Space with a boundary test using the GSF triad. This means one is stating that one chooses the consent and authority of God-Sovereign Free- which is aligned to the Law of One, therefore the Christ. To clear out lower frequencies, misplaced entities, misqualified or negative energies that accumulate in a room, space and group aura field exposed to higher frequencies

Directing Energy

God Sovereign Free (GSF)

It is a persons directed and focused attention, not muscular control or use of force, which accesses the inner sensory ability to control the movement of life force or chi energy. When the mind is developed and disciplined, and thus calmed and centered, by focusing the mind, one can direct energy and life force very specifically

When the mind has been mastered, a person will conquer restlessness and boredom. When you learn to control the energy you are able to control the states of Consciousness.

The first stages of Directing Energy is concentration. Bringing your focus is a direction of personal will towards sustaining mental effort. This is concentration. Tension will arise in the body, as you notice this tension building, it is building the inner vibration which manifests as a result of the concentrated effort made in the physical body. Notice the tension building and then allow the body to release that tension fully, in order to achieve deeper relaxation. Relax and let go, falling deeper into relaxation, letting go of the mental and physical body and then feel. Allow the sensory feeling of that moment to reveal to you impressions, sensing the feelings in that moment.

The power of the force of Love is key that unlocks every door in the Universe. When we can access the power of Love we are capable to accomplish almost anything. When intending to direct energy, bring feelings of love and devotion to the process.

The Medulla Oblongata is at the base of the brain stem that acts as the energy receiver of cosmic energy. Bring to your mind the life force energy coming into the medulla oblongata and being directed to your body parts. When feeling unwell, imagine the Cosmic Consciousness streaming into the back of your head and projecting itself throughout your body parts and areas that feel blocked or unwell. This helps to develop ones skill at directing life force energy, such as the 12D Shield within the self and the environment.

Discernment of Directing Energy

In regard to the use of Creation Symbols or those sacred geometries that are hijacked for negative purposes, such as STS and for Black Magic, this is something that each one of us has to find personal Discernment in what we connect with and what we feel connected to. Generally, what is a potent way to gain deeper clarity, is to first stabilize the body and to learn how to be consistent with your 12D Shielding and to use it as a Boundary Test with what is known as the GSF triad, which is God Sovereign Free. When you encrypt your 12D Shield with God Sovereign Free, what you are basically saying, is "I m only allowing that which interacts with me to be in full resonance with God Sovereign Free". When you are able to develop some proficiency with that, doing a 12D shield encrypted with your God Sovereign Free triad and then you use this as a boundary test for sacred geometries or anything else to get better discernment about the quality of energy. Anything that

you come across, you want to feel what level of resonance you have with it, and to feel and discern the body's resonance to this coding or symbolism because of the reversals, some of which has been discussed many times in regard to the Metatronic Reversal field

Common Causes of Weak Aura

There are many things that weaken our general health and well being, through the weakening and fracturing of the human energy field or aura. When we develop Self Awareness and learn basic Spiritual Housekeeping through Psychic Self Defense one can be proactive in generating a strong aura, or Lightbody, which increases energetic balance and health in every layer of the multidimensional bodies.

- Negative emotions, AD Behaviors, destructive thoughtforms of Negative Ego
- Unresolved Emotional or psychological conflicts, destructive relationships
- Pharmaceuticals, drugs alcohol, Addiction and consuming recreational drug substances
- Surgery, hospitalization and cutting into the body
- Low EMF fields generated from technology (cellphones, computers, TV)
- Solar Flares and strong Magnetic Field Shifting, EMF Fluctuations
- Accidents, events that cause physical stress, shocks or emotionally traumatic experiences
- International Air travel, traveling to areas of the earth with different grid system or hemisphere
- Extreme grief, depression, guilt, shame or loneliness

Music of the Spheres
Ascension Program from the
Cosmic Twins Diary
with Keys to the Universe

by Dr. Angela Barnett

Cosmic Mystery School of the Omniverse Publications

Within the covers of this book, the reader will find

Absolute evidence of the True Divinity and Sovereignty of the Man who has activated 12 DNA sub harmonic strands into each of the 5 DNA The power of immortality is revealed through the Music of the Spheres raising Man back into His Normal Reality.

This is the Extraordinary, True and Accurate revelation of how the Resurrection was performed by the Elohim Angels through the Holograms they created in the Jesus and Mary Story. This exact same process of Raising the Dead into Eternal Life was revealed once again through the shocking story of one man who had his body completely mutated by three ten ton trucks hitting his body on the freeway and five more cars running over his body before the traffic could be stopped. The body of "aDolphino" had been possessed by three demonic entities called the FAtaLee that the Grey Zeta Rigelians had prepared the interdimensional passage for

The story of the process of holographic replication, switching the past with the future realities, and time travel to the Sirian Healing Temples in the new Harmonic Universe were parts of the ancient mystery that dated back millions of years. This event is proof that our old reality of Eternal Life is being returned to Earth once again. The story of the Cosmic Twins is what the Elohims told us was their new Jesus and Mary story.

This story, and the Formula for obtaining Eternal Life within it will prepare those Seekers for Truth to understand what has been happening and what will be happening in their own lives as they each go through this process of Resurrection and Re-birth each time they Initiate one of their 12 sub harmonics within their 5 DNA.

This Actual Event occurred to show that everything the Guardians taught as the Keylontic Science of the Music of the Stars is an absolute reality

Dr. Angela Barnett created The Cosmic Mystery School of the Omniverse many years ago.

Dr. Angela Barnett is and has been for many years the sole founder of and the sole trainer within The Cosmic Mystery School of the Omniverse So, often the phrase "Teachings of the Cosmic Mystery School of the Omniverse" is often seen on Dr Angela Barnett's writing, books, articles and recordings.

Prologue

My Diary

A group of Elohim Angels appeared to me and told me to record the frequencies of all of the Consciousness that is being breathed into the Earth's Morphogenetic Field beginning in the year 2000 The first time the Angels approached me was in 1992-1995 when they taught me how to connect my Consciousness into the Mother Mary Cosmic Consciousness of Transformation. That was the period when the Crystal Magic Orchestra recorded the Base Tone Sub harmonic Frequencies that were required to begin the removal of the 11 11 Frequency Fence that would need to be completely removed by 2017.

In 2000 the Angels told me to write poems that described the Consciousness Flowing through the Universe. When I picked up my pen, the angels

wrote the poems through my pen. They told me to write music, record it, listen to it, and then write about it again.

I have been doing this for 14 years now In 2007 the Angels appeared again and gave me the Divine Formula for bringing the Highest Frequencies to Earth through Music. Once again, they told me to write poetry, draw it in pictures, create the music and then write about it again

This has been my divine occupation since 1992. What a GRAND MISSION I signed up for. I have been allowed to hear every note, every moment, every frequency of the Grand Transition of an entire Cosmic Time Matrix being shifted into a brand new reality and a brand new time through the harmonic realignment of frequencies within the Music of the Spheres of the Earth's Time Matrix.

I have heard the obvious change in frequencies. Each time I breathe I am recording a brand new reality of time These recordings will stay in the Hall of Records of the Omniverse as the greatest event that has been known in this Cosmos.

This transformation of an entire Cosmos for the purpose of allowing one Race Line to be set free from the Mortality that was never supposed to be placed upon it has been confirmed

As the Cosmic Twins wrote and composed the music, they were going through the Keys of their own transformation. During their Initiations they met with different Teams. One of the teams were made of Mother Mary, Mary Magdalene, Zadkiel, Raphael, St. Germain and Merlin.

One team contained the Aquafarian Team of Cinderella, Shajinka, Tinker Bell, Winifred and Ziegfreid. One team contained Taurak and Zaurak and Markus. We were on a team with Kuthumi for awhile. However, that doesn't mean that we utilized the old formulas of Pythagarous. We just learned certain things from these Entities that are here to change reality just as we are. Each team worked with us during one stage of our initiations. These teams were formed between 1992 and 2014. Madamn Blavatsky was on our team in 2008.

You see, each time we travel into the Crystal Caves of the Ascension Vortex by using the Journey in THE COMPLETE ASCENSION PROCESS or the Foundation Meditation, we are met by a Guide who asks us to choose our next mission.

In order to be invited to begin a new mission, we must have our Keys. The Harmonic Keys that contain the Frequency Signatures of all that we have ever been in all ten million life times of this Time Matrix and all other Souls, Over Souls, Avatar and Rishi Selves in the entire Cosmos. Those Key

Signatures are within us, but must be awakened through the use of the Merkaba and the correct alignments into the Spheres where the Information is Stored. The Violet Sphere, that I am holding in the picture on the back cover of this book, contains all of the frequencies of light and sound from all of the Harmonic Keys between myself and the Inner Domains of the Sun. So, this Key or Orb will open all of the 12 Stargates that will lead me back into Attunement with the Music of the Spheres. That Attunement or Alignment Raises the Frequencies into a new level of Consciousness that presents a new reality.

The main purpose of the Individual Eternal Life Album is to connect the Individual to all their Divine Keys, which are frequency signatures

It is easier to know what the reality is and to be able to imagine it into reality, than just to wait for something to happen Everything that happens in our lifetime is created by our own thoughts and ideas. We must imagine the new reality or wait until someone else imagines it for us.

The Divine Reality that is presented in the picture is the Truth that the Second Harmonic Universe actually exists within our Sun. That same Sun also exists within the Inner Earth Vortex that is like a Train Station Hub that allows entrance into 12 Universes When we ascend into the morphogenetic

field of Consciousness of Inner Earth, we are aligning with the reality that allows us to live within the Sun

As in all New Realities, our background knowledge is going to fight very hard to keep this possibility from even becoming imagined. For those who cannot accept the reality that the Second Harmonic Universe is within the Sun, there will be the long, slow route leading into the Fifth Dimension. There will be gradual signs of Inner Earth rising into Earth's Surface as a result of their Accretion Levels becoming identical

However, those who do not use the Eyes of God, will not be able to see that either. The Masses will be waiting for something that they can see with the Five Senses, and there is nothing in the Fifth Dimension that can be seen with the Five Senses. The Fifth Dimension is beyond the Five Senses, plus the five senses I have provided the Candle Technique at crystalmagicorchestra.com, to help you see things that you didn't see before with the Five Senses, simply because you didn't know how to

However, this picture, on the back cover, was given to allow you to see an invisible reality The Sphere or Orb was invisible to everyone except myself, until I took the picture There will be more and more people seeing these spheres and

orbs of Consciousness Identities every day as our Frequencies Raise into the new Morphogenetic Fields of Consciousness That reality shows us that we can align into a dimension where we have these harmonic keys that align us directly into the Sun. We can see how there is this oneness between me and the Sun. That Oneness is created through those multitudes of Spheres. We have all seen this reality before We just didn't know what it meant.

Yes, we are in the Fifth Dimension, and No, most people can't See it or Understand it or even Perceive of the Possibility of Living in the Sun Only those who Believe in the teachings of Jesus Christ will Ascend The teachings of Jesus Christ taught how we must align our Consciousness into the Christic Light Patterns of the 12th Dimension that must be activated by the 14th Dimensional Frequencies of Heliotalic Silver Pink Light Waves that attune us into the Mind of God.

Jesus Christ, Avatar 12 went on to say, "If you Believe, you shall do Greater Works than these " We are now entering the Time when we can do Greater Works than what could be done when Jesus and Mary created a Portal that aligned with One of the 12 Stargates There have been Six Avatars born who carry the 12th Dimensional Frequencies that activate the 12 DNA of the Complete Perfect Template. One of the births in 2008 was the Soul of Sananda returning that stargate once again The Earth

needed these Avatars to open all of the Stargates in order for the True Alignment of all of our Keys to the Universe to return to the Divine Template of our original Root Race

All of these things can be seen in this one picture. All of these Stellar Wave Infusions and Activations take place through these Harmonic Key Alignments of these Spheres like the one in the Picture. The Waves can also be seen as Aurora Borealis and the dramatic Light Shows that have been seen in 2014. The entire Ascension Program is achieved through Light and Sound There is no other way to raise frequencies into the attunement with the Sun.

Each time we are ready to begin a new Initiation of another Sub harmonic Key, we must be expanding our Consciousness Reality into a NEW REALITY. When I travel into the Inner Domains, I am given a Guide. The Guide asks me what interest or goal or mission that I want to pursue next. The questions is basically, what is the most important thing that you want to accomplish? Each time I traveled to the Inner Domains I asked to change my mission just a little bit because I grew in my understanding of exactly what it was that I wanted to pursue.

I basically wanted to my mission to be about Healing and Music. That is why my first team contained Kuthumi and Pythagoras They were just there to guide me to see that the Music Theory

that they had introduced on Earth was only their Mission, and my Mission should be to expand what they had already learned into a much Larger Understanding and Teaching.

My Guide placed Mother Mary and Mary Magdalene on my team to help me learn about the complete Cosmaya Team and the Crystal Spheres that Mary used to travel into the heavens. They also taught me the true meaning of Bliss. The Aquafarians taught me how to use the Essence of the Crystal Spheres as tools of Healing and Transfiguration.

In 2012, I was introduced to some new members that would help me expand my perception into knowing where the holograms that are created in my light field come from and how I make them appear This Mission included Conan Doyle, several Ranthians and Zionites who remain nameless and Light Guardians from the Akashic Records who taught me how to expand into my Coushic Records of the Spiritual Parallel Universe Just as my 2008 team asked me to read the book explaining Mary Magdalene's Magical Crystal Spheres, in 2012, I was led to these pictures of fairies http://en.wikipedia.org/wiki/Cottingley_Fairies

http //en wikipedia org/wiki/File Cottingley Fairies_1.jpg

I was then led to read Conan Doyle's book, that explains exactly why these children could take these pictures This was obviously to show me two new realities The first reality was the reason that I could take the pictures of the Violet Spheres, and the second reason was to teach me to learn to see and take pictures of fairies.

Next, I was directed to read Doyle, (1922), The Coming of the Fairies. A more recent team of Zionites directed me to read many Scientific Studies concerning positrons, neutrinos and to understand the chemical make up of hydrolaise (the spiritual water that must be transformed in order for Earth to shift into the Accretion level of Inner Earth)

http //en wikisource.org/wiki/The Coming of the_Fairies

I am sure that I will have many more journeys to the Cities of Light where my Guides meet me to connect with new teams. I am also traveling into the Inner Domains of the Eighth Sun to meet with Cosmic Light Beings who are connecting me in Consciousness to my original Teams and Family in the Crystalai Council and the Cosmaya Light Realms. They were on the team that came forth when I asked to expand my Healing and Music into a Cosmic School program They are the ones who took me to the Cosmic Mystery School of the

Omniverse, where all education and creation in the Cosmos takes place.

I hope that this short bio will help the reader realize why I am very well prepared for this next mission of teaching what has been shown to me in the Cosmic Mystery School of the Omniverse This School will be very different than the Ancient Mystery Schools, because we are now in a Brand New Time Matrix in a Brand New Cosmos

I was given a dream on December 15, 2014 showing me my body turning into light and disappearing. I have had a string of dreams leading to this one One dream showed me riding elevators up to space ships, and being at a Universal Airport where I was to choose which Universe I would go to and I had another Cosmic Elevator dream that took me to my Crystal Mansion. I have had dreams like these for three years. However, this one was different because when I woke up there were three Angels waiting to tell me that it is time They told me that if I want anyone to remember me after 2014, that I need to get my book published.

I have been keeping a diary of the events leading to my Ascension and the Ascension of the Cosmic Twins- my husband and I who came to Earth on a Cosmic Mission This book is a collection of events from my diary It is not a book of facts or opinions.

It is just a diary of the events in my life that led me to this departure event.

I hope it will help others find their personal paths of Ascension in the times following this closing of the Time Matrix called the 9/9/9 in 2014.

The meeting of the Cosmic Twins began long before our marriage. We had actually known each other for millions of years and we had been on many missions from the Inner Cosmic Domains into Earth's Outer Domains during the First and Second Seedings of the Human Angelic Raceline about 5 million years ago and 250,000 years ago.

Each time a Soul floats through the Cosmic Etheric, the Starry Streams and the Plasma Waves into the Earth's Portals, there is a plan made in the Heavens, long before that Soul departs from the Universal Planning Stations The Cosmic Twins created a plan long before they began their departure to Earth.

Many of you will learn these same types of events happened to you after you grow beyond your Akashic Records into your Eternal Life Records of the EKA-Veka Music of the Spheres.

We were required to consider many things before our plan from the Crystalai Council could begin. We

were to consider the actual time line of events that would lead us to remembering the exact things that needed to be done during our mission on Earth.

We knew that in order for a Star to be reborn on Earth as a Soul, we would need to break our frequencies apart into the Electro and the Magnetic or the Male and the Female. We knew that we would need a complex plan of finding each other again on Earth when we were old enough to remember

We were to remember our past lifetimes on Earth, and the millions of family members that were taken away by demons and Phantom Matrix Fallen Angelic Races, in order to create a path to bring them home.

First, we needed to discover the exact date that would place us in the exact timeline of our Ascension back to the Inner Realms even before we began our mission. We were to be born in 1954, six months apart. We were to be aligned with the Christic Consciousness that connected to the Crystalai Council and the Elohim Angels on the Jesus and Mary Mission. We were to be connected to entities such as Mary Baker Eddy and Joel Goldsmith because they were also a part of this Cosmic Council before they completed their missions on Earth.

I chose to be born into a family where my Father was the youngest son of a family of 12. His father was Amish and his mother was a fanatic about Christian Science, Unity and the Infinite Way. My grandmother was the beloved who over saw my project on Earth after she died. She was one of those original women who fought for her rights of freedom of religion. My grandfather was Amish and did not agree with the Christian Science Sunday School, but allowed it for awhile. So, all of my Aunts and Uncles attended the Christian Science Sunday School, but were at the same time advised against it by my Amish Grandfather.

This exact Consciousness within my family was a very important guiding influence all of my life in finding my way. My mother was introduced to the Infinite Way teachings of Joel Goldsmith by my Aunt, and she was very dedicated to those teachings all of my childhood. My mother and father were not Christian Scientists, however, they both agreed that their children should be raised exactly the same way that my Father's family was raised. So, as my plan had shown me, before I chose my parents, I was taken to Sunday School every Sunday from the moment I was old enough until the day I was too old to attend

Joe chose a family who would guide him into these teachings in a very different way. He also had two Aunts who were fanatics about Christian

Science, and a mother who hated Christian Science because she was forced to live with a Christian Science Aunt when she was a child.

Joe had a Great Grandmother who was an American Indian who was his beloved guardian from her Soul level Joe was mostly guided to find me as a result of his great love for music We found each other the first day of a Jazz Band Practice. Paul the Venetian was one of Joe's Beloved's who guided him in his music He was one of the greatest composers of all times that we have never heard about because he too, was on Earth creating music from the Music of the Spheres

Four years before we met, a Psychic had told me that I had already met my husband in a hallway of the music department at Chico State University She told me that we would meet again at a Junior College near my original home.

I did not believe this Psychic because I was already in my third year of college I was attending UC Davis as a Russian Studies Major. I had attended Chico State University for one semester to pursue both Russian and Music I was studying accompaniment at that time and so I was the piano accompanist for brass groups, string groups, soloists, orchestras and individual singers.

I especially like to work with trumpet players. I had a good friend that played the trumpet who kept trying to introduce me to a friend of his who also played trumpet and trombone, and his brother who also played trumpet The introduction never took place, because his friend was married at that time.

That person that my friend tried to introduce me to was my future husband. I guess that friend of mine was also a messenger from one of my beloved guides.

I had a dream that I did meet my husband at that University, at that time, and that we had a baby on a space ship. I was actually pregnant at that time, and did not know how, except through that dream I was pregnant for three months and then the baby disappeared.

That is not an uncommon story between women who have been taken on space ships to give birth to the new hybrid race of Earth There are many of us who have been told that we are the Mothers

It wasn't until a year after I finished five years of undergraduate study in music in college in Illinois, that I returned to California For some strange reason, I decided that I wanted to go to a local Junior College to play with a Jazz Band. I was working on my Masters Degree in Music at the

University and I wanted the experience of playing with a Jazz Band.

My future husband had also completed his B A in music a year earlier. He signed up to play in the same Jazz band at the same time in the same place. He was just doing it for fun.

This time when we met, he was no longer married So, it was the first day in Jazz Band Rehearsal at the Junior College near my original home that the Cosmic Twins found each other The Psychic was EXACTLY CORRECT

These are the things that my husband and I experienced beginning in 1992, when the Guardians Promised our Ascension would take place in 2017 This was the beginning of removing the 11:11 Frequency Fence that was keeping our sub harmonic DNA strands from braiding together the over tones from our Over Souls into our DNA.

We also had events in our lives that corresponded to the exact date of the Harmonic Convergence in 1985 That was when we were first told to MAKE GOD's MOVIE, and when we discovered that we were staying in a village in Turkey where Mary Magdalene once stayed

Most of the diary was written between 2000 and 2012 During this same period of time when

the Stellar Wave Activations that were designed to bring in the Consciousness that was removed from us, the Crystal Magic Orchestra recorded the frequencies of each and every Infusion and Activation of this Consciousness that was restored in the Earth's Morphogenetic Consciousness Field.

We would like to share with you this picture, on the back cover because it contains a truth about each one of us within it. Each of us was Cosmic at one time. We Involved from Cosmic Plasma into Universal Stardust, into Galactic Creators, into Solar expressions, and finally into the Planetary manifestations of all that we once were. We have complete our Involution from the Cosmos, and now we are beginning our Evolution back into the Stardust that will transform our bodies to begin the new Version of ourselves.

The picture was taken in June 2008 which shows the portal of our Harmonic Keys that lead back to the Violet Sun that we came from. This was the Ascension Portal that we created in 2008. We watched thousands of dolphins and whales ascend to the second and third harmonic universe through that portal This was the portal given to me , that allowed me to bring my Cosmic Twin back to Earth after he died while he used his body to export several Demonic Groups to the healing stations in Sirius B.

DNA Activation, Violet Orb Stellar Wave Activation and Infusion by the Cosmic Twins

This is the story about the Violet Sphere or Orb that I'm holding in my hands, (picture on back cover)which was created by the D-6 Stellar Wave Activation of Sirius and the completion of the D-5 Violet Wave Infusion from the Pleiadian Alcyone Spiral. This was the day the miracle of Stellar Wave Activation and Infusion took place simultaneously on Earth. And this is the picture that the Sirian Council wanted me to take. This was also the day that the Fifth Dimensional Dolphins Ascended into the Cloud Cities to prepare the path home to the Violet Sun.

That was the date we created the Ultra Violet Blue Sun Album.

The Electric Over Tones of the Sub harmonics were returned to Earth through the Stellar Wave Activations and Infusions. Over tones are frequencies of Consciousness from our Starry Families of our Higher Selves Original Creation, and Base Magnetic Tones are from our original Root Race Families. Our DNA is made from Over tones and Base tones in the 12 Sub harmonic strands. Those overtones and base tones were disconnected from specific chakras to remove the immortality from our race line.

The picture was taken the day the Cosmic Twins were involved in the process of the Stellar Wave Activation and Infusion of the Violet Wave. The Stellar Waves brought in the electromagnetic activation of the Earth's 12 Crystal Star Grids.

This is a true story of how DNA Activation actually takes place through the Universal Plan of Stellar Wave Activations and Infusions, followed by DNA strand Initiation and Consummation The races of Earth are finally reclaiming their reality of their 12 strand DNA construction and returning to the heavenly land of Terra Firma. The prerequisite for this reality is activation of the 5th DNA Strand

Our Guardians have sent Universal Life Force Currents of Light and Sound Consciousness Waves called Stellar Wave Activations and Infusions for the purpose of activating the DNA There is no other

way to activate the DNA than to participate in these Activations and Infusions of the 12 dimensional frequencies which are inherent in the Stellar Waves.

Stellar Wave Infusions and Activations create the time acceleration shift that is needed to advance the evolutionary blueprint through consciously assimilating these energies into the body. Yes, the wave infusions and activations did take place No, not everyone consciously assimilated these activations into their blue print that would begin to create better health, vitality, multidimensional awareness, access to knowledge of all lifetimes in all dimensions and immortality.

If the stellar wave frequencies are not assimilated into the body, the time acceleration would create degeneration of the body rather than the re-birth process into immortality.

Those who are on the Ascension Path will accelerate their ability to communicate with the Guardians until complete telepathic communication with the over soul is reached. Communicating with dolphins is one step in the process.

There were Six Waves of Infusion and Six Waves of Activation.

The Waves and Infusions came from fields of Consciousness. The D-4 Solar Activation in 2000-

2004 together with the Blue Wave Infusion of 2002-2006 caused the Solar Spiral to align with Earth's Merkaba fields That caused the frequencies of the Earth's Consciousness Field to rise exponentially.

Next, the D-5 Pleiades Activation of 2004-6/2008 and the Violet Wave Infusion of 2006-2010 increased the Earth's frequencies exponentially again by adding the consciousness of the Pleiades-Alcyone Spiral to align with the Solar Spiral Merkaba Fields

The third activation took place 6/2008 and ended in 2012 The third activation was the D-6 Sirian Activation. This activation followed by the Gold Wave Infusion allowed the Sirian Spiral to align with the Pleiadian-Alcyone Spiral Merkaba Fields

This Third Activation that took place in June 2008 is the time that this picture was taken for the purpose of showing the Violet Wave Infusion and the Sirian Activation simultaneously taking place

The picture is showing the completion of the Violet Wave Infusion The Violet Wave Infusion was completing at the same time in June, 2008, that the D-6 Sirian Activation began. I was asked by a representative of the Sirian Council to move to Monterey, in order to be there at this exact moment in history.

The Cosmic Twins were living in Redwood Shores, and had wonderful, well-paying jobs when Zaurak, my Starry Brother from Sirius B, came to our living room in April, 2008, and asked us to be completely moved to Monterey by May, 2008. We immediately gave our resignations and began packing, and started searching for the correct apartment to move into in Monterey.

This is the reason that the Violet Frequency was activated within me as I connected my consciousness into the Elohim of Hearing in Gaia to bring the highest frequencies to Earth through music. When I exhaled this Violet Wave, the 5th DNA completed its activation, which is called DNA consummation At the same time, the D-6 Sirian Activation began.

This Stellar Wave Activation was required to begin the activation of the 6th DNA strand. The 5th DNA consummation could not complete until the 6th DNA initiation had begun. This is the process of DNA activation.

This process of DNA activation is a huge Universal and Cosmic plan which required the Consciousness of the entire Solar System, the Pleiadian Consciousness, the Sirian Consciousness, Arcturian, Orion and Andromeda Consciousness These streams of consciousness brought in the Over Tones of the Sub harmonics into the DNA

These problems of Broken Consciousness could only be restored by bringing the Frequencies of Consciousness in through the Stellar Activations, which brought in one dimensional layer of Consciousness at a time First, the D-4 Solar Spiral, next the D-5 Pleiadian-Alcyone Spiral, followed by D-6 Sirian, D-7 Arcturian, D-8 Orion and D-9 Andromeda.

The original plan was to bring in D-10 Lyra-Vega, D-11 Lyra Aveyon, and the D-12 Lyra Aramatena Activations in May 2017 That plan was changed These Activations were brought to Earth in 2012 to insure Earth's separation from the Phantom Matrix and guarantee the Bridge Zone Project's Victory The Bridge Zone would give Earth enough time to merge into oneness with the Ascension Earth

The final Activation of the D-12 Aramatena brought the Pre-matter Hydroplasmic Liquid Light "Christos Divine Blueprint" of the Earth-Tara-Gaia and the Universal Divine Blueprint for all intergalactic systems in the 12 dimensions of our Time Matrix Thus took place in December of 2012. These 12 Star Gates of Earth's templar will remain open through Eternity from this moment on.

New Jesus and Mary Story

THE DIARY OF THE NEW JESUS AND MARY STORY

Hopefully, this record of my existence will be of help to future races who pass through this plane of existence, or a situation that is similar to the one that happened to Earth.

Since this is my private diary, I will be speaking of my self, to my self and in relation to myself. This diary will be very educational in nature, and will be used in future classes of The Cosmic Mystery School of the Omniverse

Since it is my diary, my view of and understanding of reality shifted daily. I will not be editing my spelling or grammar. Since it is my diary, I will not

be quoting others, because this is my diary of my life with my Cosmic Twin. Those who are still using Low Context Rules of Communication where every little word must be placed in context and must not disagree with any other idea or thought within the book, will only find themselves disagreeing with me. In Normal Reality, things shift and change every nano second. My reality, my versions of understanding, my understanding growing because of new entities joining my creation teams are all a part of new realities forming and growing continuously. And, since this is my diary, I will be giving my opinion about many things that should be known about that have been kept secret to the world.

I know all that I know because I am always talking to my Angelic Consciousness, which is mostly at the Cosmic Level and the Primal Life Consciousness Field where the first ideas of Source are created and re-manifest within each breath of Source. I raise my consciousness into the highest frequency of Source. That causes a wave of consciousness to come into the atmosphere around me. The thoughts that come to me in those sound waves are always filtered so the ideas that come to me come on the Waves of Love which is the highest frequency in the Universe. When the Sound and Light fields weave into a vortex, a new idea is formed and it is retrieved by my pineal gland in my mid brain. All ideas that are retrieved from God's Mind.

Preface

The Big Plan

I am going to begin this story with the eleventh initiation in 2007, because that is the CLIMAX of the story and the entire point of the story Everything else that occurred in the lives of the Cosmic Twins was obviously a part of the BIG PLAN of remembering who we are.

First, a short memory journey of the Cosmic Twins normal life We were married 35 years ago. We chose the paths of being musicians from the time we were very young That was no coincidence We chose to be in the exact same place at the same time in order to find each other That was no coincidence.

We recently learned that we both landed in a spaceship at the Sutter Buttes, Yolo County, California, 60 years ago We were both born in the

same year, six months apart. The towns we were born in were about thirty miles apart. We didn't find each other until after we had graduated from college. We had each traveled far from the place where we were born and then returned again

We each made a simultaneous decision to join the Jazz band at Butte College for no obvious reason. The first day of band practice we decided to go to a Jazz Concert in San Francisco together, and we have been together since that moment on. Love at First Sight - not really - we had known each other for millions of years. We were actually one Star light years ago. And it won't be long, until we become that Star again

There is only one way to become a Star. It is always accomplished through the Music of the Spheres spinning faster and faster, creating new Symphonies of Love, until a new Star is born. We had no idea that we were about to begin an Ascension Journey back to the Stars until about five years ago.

We chose to continue our experience with music on a multitude of levels including classical, jazz, pop, rock and roll, world, and healing music, and then to travel all over the world learning about many other forms of music, and then finally to learn the music of the angels We had been prepared through the study of the physics of music to better

understand the music of the spheres I was a concert pianist and accompanist for various singers and orchestras before becoming interested in Jazz My Cosmic Twin was a master composer and Jazz musician who chose the trumpet and trombone as his major instruments, followed by the guitar.

We were being prepared all of our married lives to understand languages, education, communication and music on an international level, obviously for the preparation of Multi Dimensional Communication, which is in fact Authentic Encounter or Telepathic Communication. We both achieved University Degrees in Music and Inter Cultural and Multi National Communication, as well as Authentic Communication and Ethnic Studies.

We became International Communication Consultants in Multi National Corporations as a result of my study of Education, Multi National Communication, Culture, Ethnic Studies, Intercultural Sociology, Russian Studies, Asian Studies, Neuro Linguistics, Language and Culture, and Music, that resulted in a Doctorate that combined research from multiple Master's Theses and Degrees into a Dissertation that took a microscopic look at Multi National Education, and resulted in the Dissertation Multi National Communication in International Business.

My true objective of combining these areas of study and working in Multi-National Corporations was to show that every thing that is learned and taught on Planet Earth was designed by a Control Group that was so powerful with their hypnotism, that the entire world would believe that what they were being taught was actually increasing their intelligence, when in fact, the true purpose of all education was to prepare the multitudes to become military warriors at a moment's notice In fact, I was poisoned to remove the possibility of the Illuminati's control being discovered.

My Cosmic Twin mastered the art of Authentic Encounter in every country that we lived in. The true communication of Oneness replaced the need for any language in any country We both learned the communication of raising our Frequencies of Consciousness to a Realm so far above the illusions of the world, that we could know what was really being communicated in each situation.

Asian cultures responded to this type of communication as the natural means of life because they are a high context culture that continues to use telepathic communication and communication from the heart. High Context Communication is needed to understand the God Language and the Star Language that always includes a meaning that is as big as the Cosmos There is nothing to consider at any level of Dimensional Reality that doesn't

exist in all other dimensional realities. Everything is always being considered by the Mind of One.

These parts of our lives that led us to live and work on almost every continent on the planet were obviously preparing us for Multi Dimensional Communication, because that is what we were finally taught when we learned how to use the Three Crystal Spheres of Crystal Liquid Light, Crystal Dust and Crystal Gel to form the Key that connects all realities into the original moment of creation at the state of Pre Plasma- pre light and sound- which is the Highest Frequency The Angels taught me how to bring the Highest Frequency to Earth through Music. This formula allowed the Voice of the Angels to appear each time I exhaled.

Please note that this book was originally a diary. It was written to record day to day events. I tried to compile all of those events. Some of the events might not be in the exact order that they happened in Since I was writing this over a long period of time there may be some present tense situations that are now past tense situations.

This book was begun in 2007, first published as a pdf in 2011, and then edited in 2014 It is taken from my diary of the past 30 years. The book began as THE MATRIX OF ILLUSIONS, QUANTUM JOURNEY 1-7, QUANTUM SCIENCE OF MANIFESTATION AND ASCENSION, FUTURE

GLOBAL MANAGEMENT and the COSMIC TWINS. All of these books are still available for purchase as pdf's and books

I had been given a warning early in 2014 to have this book finished by my birthday in November I didn't meet that deadline Finally, on December 15, 2014, I had a dream where I saw my body turn into light and disappear. When I woke up there were three angels standing in front of me. They told me that if I did not publish a book before this year ended, there would be no trace of me left on this Earth. They told me that I would disappear, and I would not be remembered by any one.

I will simply apologize that my second edition did not get finished in time, and my third edition did not get finished in time. I will also apologize for any and all typos and misuse of the grammar that was created by the controllers of our cultures, because I have no respect for anything created in the holograms of world cultural beliefs If you don't understand the words in their Low Context form, just use your High Context KNOWINGNESS.

The real names of the authors are Dr Angela Barnett and Joe Barnett Crystalai is the name of my highest self, who is a pre light and pre sound Cosmic Entity of Light who guides and directs my writing, teaching and singing. aDolphino was the name that Joe chose to best connect him to

his original family and friends from the Oraphim Braharama Cetacean Family, when he was a Dolphin However, he was told that he was Atoni, who was actually the Second Seeding Seres Race who became the Egyptians

The Twins have been together for millions of years They were a Star that was formed from the Violet Suns Ha and La. Sun Ha is the Sixth Sun, where the Cetacean Family lives and Sun La is the Seventh Sun, the home of the Oraphim Raceline that were the original creators of Gaia.

Crystalai and aDolphino began their study of music long before they met Crystalai began speaking to Angels when she was five. Her name was Angela She began the study of Christian Science at age 5, and also studied the Infinite Way teachings most of her life. In 2000, she was told to find a new teaching that would tell her everything she needs to know. After searching for two years, she found Keylontic Science, which she believes, is the completion of Christian Science and the Infinite Way.

aDolphino had always had a thirst for spiritual teachings, and found them on the counter next to Angela's bed when they first met. He found writings by Joel Goldsmith and Mary Baker Eddy. Those were the teachings that Angela was raised

with aDolphino became a Christian Science fanatic, and soon became a Christian Science Practitioner.

The International Life of the Cosmic Twins began in 1981, only two years after they met and got married. It was all, obviously, a designed life that led them to all of the places that they needed to be to remember who they really were After being dismissed from the Air Force for Religious reasons before their first year of service was completed, the Cosmic Twins found themselves working on Communication programs in Korea This began their journey of Intercultural Studies in South Korea, continued their Asian Cross Cultural and Communication Studies at University of Hawaii and completed special Communication Masters Degrees in Authentic Encounter, Neurolinguistics, Cross Cultural Education, before continuing research abroad while working on Doctorate Degrees.

The twins had already spent six years working on their B.A. and M.A. in Music before leaving to Korea. They had adventures in Universities around the world and living in South Korea, Hawaii, Turkey, Puerto Rico, Japan, Switzerland, Belgium, Taiwan, Cyprus, Boston, San Francisco, Los Angeles (Beverly Hills, Marina del Rey, Dana Point, Temecula, Visalia, Redwood Shores, Monterey), and finally back home to Chico and then Paradise, California.

We worked with Multi National Corporations around the world doing Communication Audits, designing International Communication Programs, designing JIT Management Programs, and teaching in Universities.

These were just a few of the places we have lived. Most of our homes were only for a year or two We stayed in Japan the longest, and we identify with Japan and Korea more than any other country we have lived in Every adventure was a critical part of a Divine Plan. There are more details of these international events in THE MATRIX OF ILLUSIONS.

We lived in Paradise, California, during the first year of our marriage, and, it never was a plan to return here. Our return to Paradise has been a big surprise for us

We worked on our Masters Degrees at California State University, Chico in 1984, following our studies in University of Hawaii Most of my research for my dissertation was done abroad, with a short return to Southern California to complete my doctorate in 1995 We returned to Chico in 2010.

Our life has completed its circle from Paradise to Korea, and then finally from Japan back to Chico and then finally to Paradise once again. In 2008, the Angels told me that it would be much easier for them to reconstruct our minds and bodies and reconnect our neuronets into the Grand Consciousness if we were to return to a place that we had spent a great deal of time in earlier in our life.

We never thought we would be returning to our original home base in 2010. Each and every moment in our lives together has been preparing us for this BIG EVENT of Ascension We were told that 2014 will be the last year that there is a record of us on Earth. I do not know the meaning of that yet.

The times in Korea allowed us to remember our relationship to Ursa Major, M31, and the landings of our space ships from Ursa millions of years ago when I was a part of Zauraks Star Fleet

We learned more about our relationships with Arcturians when we lived in Japan We lived close to where we had landed on Space Ships near Beppu, Japan, thousands of years before and again after World Wars to take bodies upon our ships.

We lived in Puerto Rico and in Monterey to help us remember very ancient times and to remember our Oraphim Braharama Dolphin families and our

families in the Cities of Lights. We lived in Cyprus to remember the times when the true Christians escaped into the Crystal Caves from the Roman Empire.

In the study of Cultural Travel, we learned that each time we change from one cultural reality to another, we go through CULTURE SHOCK This shock actually transforms our DNA into creating a new reality. Our consciousness, and the way we perceive the world completely changes. Each time we go through a huge transition such as Culture Shock we actually INITIATE another subharmonic strand of our DNA.

We went through Culture Shock over and over again as we completely shifted our minds through Authentic Encounter and complete telepathic communication. In 1967 I went through an Initiation that was actually a Walk In of a higher Soul into my body when I died as a result of being thrown from my horse onto a very hard red dirt.

My Soul was switched to another Version of myself in 1985 when I was given Lethal Poison at a Five Star Hotel in South Korea This was also my first meeting with Zaurak, my Starry Brother from Sirius B. This was when I learned that I was on Zaurak's Star Fleet Mission to create Mt Sorak in South Korea millions of years before.

This was the event that changed my life forever Zaurak was with me when the Zeta's arranged to have me poisoned. He was there to warn me and to arrange for my re-birth after ward The event was staged to look like I was was being removed by the Korean Management who was at war with the American Take Over Process going on in Korea. However, it was always the Zeta's who were arranging the take overs, the wars, the murders on all levels In 1982 I was a teacher for the Blue House Security Guards (Korea's Blue House is like America's White House). My students were the men who guarded the Korean President. I was informed by this powerful group that I was in great danger working as a Communication Investigation Consultant at this Hotel because the Entities who were in charge of this Hotel were much more powerful than any human being. Interesting fact to know is this Hotel is where the Secretary of Defense always stayed during visits to South Korea.

To make a very long story short, I had been warned several times that I was in grave danger, and by grave they meant I would go to my grave if I did not leave this job. So, one day, after my class at the hotel, many of my students bowed deeply and said they were sorry

Hours later, when I was sipping on my coffee, Zaurak arrived in front of me, and told me to run for my life. I walked as fast as I could to the hotel

door and jumped in the first taxi My directions home were easy. I just said I live at the taxi apartments. In fact, the apartment that we lived in was called the taxi drivers apartments. So, all taxi drivers knew this place Those were the last words that I said The taxi driver got me safely to my apartment.

I was unconscious. When my husband came home that night he consulted a pharmacist about my condition. The pharmacist said that I had been given Love Poison, a Lethal Poison that was used to Kill the Little Wife in the old dynasties of Korea and China. He said that the poison was Lethal and that it was absolutely impossible for me to be alive.

I had in fact died and been reborn into a new version of the same body with a new level of Soul This is what is called an Initiation that builds a new DNA strand in the body. This was the second time that this happened to me When 2008 came, I was to learn that these deaths and rebirths would be very necessary for what was to happen next.

It is the Eleventh Initiation that was the most important, because it was the beginning of our True Mission on Earth We were beginning the process of knowing that we were here to remove the Tower of Babel and return to the voice of the Angels.

The 12 Initiations of the 5th DNA Strand

There are 12 initiations required to activate each of the 12 sub-harmonics in a DNA Strand. We were completing these 12 initiations of the 5th DNA, so that the 5th Strand would Consummate in June 2008 This was the moment when the 6th DNA strand began it's first sub-harmonic strand initiation. Now, it is 2014, and we are half way through our 6th DNA strand initiations The 6th DNA cannot Consummate until the 7th Strand begins initiation.

Our 11th initiation began in 2007 when we met our Elohim Angel Team and received our three spheres of crystal light, crystal dust and crystal gel. In 2008 Markus and Zaurak directed us to purchase a book by William Henry, titled Mary Magdalene The Illuminator (2006) I will be mentioning this book in

other chapters of this book. One of the main points that Markus wanted me realize is there is a very good reason he is telling us that we are the new Jesus and Mary project.

I was directed to page 84 in William Henry's book, Mary Magdalene The Illuminator, (2006), to learn that Job had brought three bands or spheres of shimmering light with bright sparks, like the rays of the Sun, home with him after his travels into the stairway to heaven. Job gave those spheres to each of his daughters, including Mary

This was the Key to understanding my relationship with Mary Magdalene In 2007, in my apartment in Redwood Shores, Mary, Raphael and Zadkiel stood before me, and said, "We will show you how to bring the highest frequencies to Earth through Music." Next, three Knights of the Templar kneeled before me and handed me three spheres. One sphere was crystal liquid light, one was crystal dust and one was crystal gel. Just as Job had handed Mary and his other daughters the three spheres of shimmering light with bright sparks like the rays of the sun. Henry also mentions that the Knights of the Templar wore those same three bands or spheres on their belts, and they were taken captive by the Roman Church because the power was to only belong to the Church.

So, I was given the same gifts that Mary Magdalene was given It was the Knights who handed them to me So, this was obviously a continuation of the story that had been stopped when the Roman Church arrested and tortured the Knights, and everyone who was related to Mary and Jesus were silenced and killed.

The story of Job, in the Bible, said that Mary and her sisters could use these bands of spheres of plasmic energy to live in the heavens in eternal bliss. The sisters never had any desire for any thing of the world from that day on They lived in Bliss and knew they had the kingdom of heaven within them Henry also says that when each of the sisters was given the spheres, they began to SING IN THE LANGUAGE OF THE ANGELS These events are also documented in the book of Job in the Bible. These events were to be continued through Crystalai and aDolphino This was the mission that needed to be accomplished before we were given our next two missions.

That is exactly what happened to me when the Angels taught me how to use the three spheres of cosmic energy - I began to sing in the language of the Angels. That was when I learned to connect the spheres of crystal liquid light (the light stream that connects to the mind of God) the crystal dust (the energy of healing) and the crystal gel (the energy of transformation).

I learned to see and feel and hold those three spheres in my crystal heart and then inhale up into the fourteenth dimension to the Elohim of Hearing and then exhale the Language of the Angels into the Crystal Spheres that I held in my hands The spheres in my hands acted like a cosmic microphone that recorded these wonderful angelic languages and frequencies

When Mary, Raphael, Zadkiel, and hundreds of other angels stood before us, they made it very clear that they were speaking to BOTH OF US. They told us that we were One and everything we do must be done as ONE. We always recorded our frequencies together aDolphino always participated in the arrangements, the recordings, the technology, and he was the one who transformed all other frequencies with the Breath of Source Again, this sounds exactly like the relationship of Mary and Jesus We will speak of that in detail in later chapters that explain the Adonai, Adonis, Atoni and Adoni principles

I later learned that this cosmic substance in these spheres is the plasma, the gamma rays, the heliotalic silver pink pastel energy of the fourteenth dimension. That is the energy of Transformation That is what was called Prana, and the bread of Life The frequency of light and sound that connects into the full spectrum of light energy of Source at the pre light and sound energy level That is the frequency

that transforms us into the Blue Body of Multi Dimensionality and Eternal Life.

The frequencies of crystal light, crystal dust and crystal gel are the transformational substance of the stardust and the gelaisic substance that transforms the body from within. The spheres are made of light, but they are also made of sound. They are made of the breath of Source igniting the flame that creates the stars and the suns This transformational energy is extremely powerful, and when the mind is connected to the Elohim of Hearing a divine frequency carrying the language of the Angels and the Language of the gods of the eighth dimension.

The language is a frequency. Different entities have different Frequency Signatures We learn to know each other through these signatures that carry frequencies that each sound a little different from one another We are not talking about notes of a scale We are talking about frequencies that each carry a different FEELING.

The Knights of the Templar bowed before me because it was time to bring the spheres back to Earth so that the mission of Mary and Jesus could be completed.

The gift we share is the ability to bring the Highest Frequencies to Earth through Music.

Our Elohim Angel Initiation Team included Mary, Raphael, Zadkiel, St. Germain, Melchizedeks, and thousands of other Orbing Entities. Our team connected us personally to the Elohim of Hearing. Next three knights handed us three crystal spheres of light, dust and gel This is the exact technology used to bring the highest frequencies that are breathed from Source into the Ears of the Elohim of Hearing. Our angelic family translate these Keys to Eternity into the breaths that we create our music from. This is the Gift of the Highest Frequencies brought to Earth through our Music. These highest frequencies are the keys to heaven.

One of our initiations was in August of 1987 when we were living in Antalya, Turkey We later learned that Mary and Jesus had visited this city many times. We were woken at 2 a.m by an Etheric Entity clothed in a white garment of light He had one simple message for us. He said, "Do It Make God's Movie. Do It Now "

Another initiation took place in 1993 in Beppu, Japan. Again we were woken up at 2 a m by a different Etheric Entity who said, "Make God's Movie Now " That same night, aDolphino was given the music and song named No More War, Crystalai was given the song, Greater Works the next day aDolphino was given a screen play to go with the music within the next few weeks. The album and the screenplay were complete within a

few months This was THE TRILOGY In 1994 we completed the "Promise" album, which we later realized was the complete story of the Promise of the 11 11 ascension, when we will all return to the moment "before the world began."

Another initiation began in 1998 when we were again directed to "Make God's Movie." This was the year we were directed to Hollywood, California to begin creating the visual movie of "The Promise " In 2004 we won the Hollywood Spiritual Music and Film Festival Award for "The Promise." In 2000, aDolphino began working for Steve Oedekerk and Tom Shadyac, writers / directors / producers of Evan Almighty, Nutty Professor, Bruce Almighty, Ace Ventura - Pet Detective, Ace Ventura: When Nature Calls, Patch Adams, Accepted, Kung Pow, and many other award winning movies. aDolphino was an animator for several of the Thumb Movies, including Thumb Wars and Thumbtanic, at these Producer's O Entertainment Studio

What is interesting about Joe working with Tom Shadyak for a short time, is that Tom had a near death experience about the same time that Joe did Shadyak is now producing movies that reflect his new awakening, such as I AM and DRAGONFLY

We are hoping to cross paths with Shadkyak some day soon and hope him to visualize our story of Making God's Movie into a movie.

That was the initiation that allowed us to realize that Making God's Movie is not something that is done in Hollywood (read our book "Quantum Science of Instant Manifestation" -

Making God's Movie is the Divine Gift of manifesting our actual desired reality every moment of every day It is the art and science that is directly related to the three spheres.

The Keys to Ascension

The Keys to Ascension are always these Spheres created of Crystal Star Dust of the most Etheric Form During Involution and Evolution we leave behind these Harmonic Spheres that include our Frequency Signatures We can only return or ascend back to the places that we came from The Human Angelic Race had their KEYS removed so that we could not Ascend back to where we came from. Ascension requires the re attunement back into these Keys of Universal Life Force Currents that strand together like a Rainbow Bridge between the place where we exist and the places from which we came This was the same Science that Jesus and Mary were teaching when they were on Earth about 2000 years ago.

The Angels, including Mary, said we will show you how to bring the highest frequencies to Earth through Music Next, three Knights of the Templar kneeled before me and handed me three spheres One sphere was crystal liquid light, one was crystal dust and one was crystal gel. Just as Job had handed Mary Magdalene, and his other daughters, the three spheres of shimmering light with bright sparks like the rays of the sun The Crystal Liquid Light was also what was called the Blood of Christ in the Bible It is the 12th dimensional Liquid Star Dust that turns the Blood into the new Blood Crystals that transform the body The Crystal Star Dust was the Healing Powder and the Crystal Gel was the Atomic Radiation Gelasic Substance that Transforms and Creates new Reality The Spheres have a specific Resonance and Harmonic Structure that continuously pulsate and echo through out the Universe. The Spheres contain the Frequencies of the Music of the Spheres.

Henry (2008) also mentions that the Knights of the Templar wore those same three bands or spheres on their belts, and they were taken captive by the Roman Church because the power was to only belong to the Church.

So, I was given the same gifts that Mary Magdalene was given And it was said that Mary and her sisters could use these bands to live in the heavens in eternal bliss. The sisters never had any

desire for any thing of the world from that day on. They lived in Bliss and knew they had the kingdom of heaven within them Henry also says that when each of the sisters was given the spheres, they began to SING IN THE LANGUAGE OF THE ANGELS

That is exactly what happened to me when the Angels taught me how to use the three spheres of cosmic energy. That was when I learned to connect the spheres of crystal liquid light, the light that connects to the mind of god, the crystal dust, the energy of healing and the crystal gel, the energy of transformation. I learned to see and feel and hold those three spheres in my crystal heart and then inhale up into the fourteenth dimension to the Elohim of Hearing and then exhale the Language of the Angels into the Crystal Spheres that I held in my hands. The spheres in my hands acted like a cosmic microphone that recorded these wonderful angelic languages and frequencies

The Knights of the Templar bowed before me because it was time to bring the spheres back to Earth so that the mission of Mary and Jesus could be completed.

Our twelfth initiation began in 2008 when aDolphino disappeared right before my eyes. Markus appeared before me and told me that aDolphino was gone, and that thousands of Angels had tried to bring him back into his body, but they

couldn't find him They told me that the only way to bring him back would be to arrange a hologram of his body to be killed, so that he would be horizontal long enough for them create a new version of him They told me that if they didn't do this that I would never see my husband again.

Two days later I received a call from Mercy Hospital in Redding. I learned that my husband was hit by three trucks and five cars. When he woke up four months later, three angels appeared to him and said, turn over and thank Crystalai for saving your life. They said, "We could not save you. Only she could save you."

This was the moment when we both knew that we had now created God's movie We had become the Quantum Observers of the reality that we could make as our Frequencies aligned into the Infinite Unknown of Source Consciousness The angels told us that our names were written across the skies of heaven and that all angels have heard our music, because they are the ones who have made our music.

In an earlier initiation, in 2010, where we were working with a team of Aqua Crystal Light Fairies from the fourteenth dimensional liquid light rebirth chambers of Inner Earth, the Oraphim Angels and Elohim Angels who were aligning our frequency chambers through our breaths into the crystal

pillars of Aqua Crystal Light Fairies Reality We were told that we are the Lightning Rods on Earth connecting the Sound Frequencies from Inner Earth into the Light Frequencies of Sirius B in the Aquarius Galaxy Our frequencies connect the rainbow bridge between the atmosphere of Earth into the birthing chambers of Inner Earth and out into the Star Dust of Sirius B.

There were many other events between these dates The Masses completed the hardest part of the ascension journey in 2012 that prepared us for our mass transformation in 2014 Now we are in 2014, and this is the year of the 9/9/9, meaning we are completing the Cosmic Clock of this Time Matrix. There will be some Avatars on Earth who are completing the initiation of their 8 DNA strand. The completion of the 6th Strand harmonizes us into the Second Harmonic Universe The eighth is the octave connecting us into the new harmonic universe three. 2014 is the beginning and the end of a brand new reality.

Cosmic Waves of Transformation

We are each created from sphere upon sphere upon sphere as the music of the spheres. Each one of these spheres is one of our selves incarnate. In our original template there are 144 spheres containing selves. In the larger cosmic template there are 144,000 of these spheres containing selves. In the complete Cosmaya template of our Oneness with all, there are uncountable selves All of these selves are now being separated by a mucus membrane lining which we have called KARMA This karma is simply the frequency film that is separating us from our oneness with all that we are

We can think of these spheres of selves as the petals of the lotus blossom As we connect our frequency signatures into each one of these petals, we open that petal into oneness with our

frequencies. Our consciousness is unfolding as each of the petals opens and unfolds When we finish weaving our frequency signature into each petal in the lotus blossom and all blossoms are opened, this means there is one brand new frequency of oneness with all of the SELVES or the petals.

I was trained by a group of Elohim angels to use three crystal spheres, which together activate all of the spheres of our 144,000 selves. Each activation is like connecting notes into one chord or frequency and then connecting into more notes to create a new tone or frequency. Until all frequencies align into one brand new frequency.

If we were actually trying to do this with notes on a musical instrument, there would be a limited number of notes that would align so harmonically. However, when I do this process by first activating my breath through the alignment of the three crystal spheres through my soul into Source and then back through my breath, the 144,000 breaths align in a beautiful new frequency.

Many of you have heard these frequencies at crystalmagicorchestra.com. I've aligned the music of the spheres through these spheres out into the breath of Source, that is the point beyond the Cosmaya Template of 12 Cosmos. Next, I align my consciousness into that same activation of Source through the Cosmaya frequencies

Next I breathe these frequencies into Sun Alcyone's frequencies, and then I exhale these frequencies into our Solar Sun. And the I align those frequencies into the Heart of Mother Earth Now, that I have these same frequencies that will be used for our transformation, I exhale them into my own 144,000 selves or spheres within spheres

This is how I activate the removal of all karma that is creating separation between all the VERSIONS of my selves. When all of this karma is removed, the more I can meet personally with each of my selves and gain their unique qualities and powers as my own. I have spoken many times before of my family of consciousness to include Cinderella, Shajinka, Winifred, Zaurak, Zeena and many others from Aquafaria.

This is my Aquafarian Family who were the original creators of the StarDust Foundation of the Earth. They are Elementals who connect our Sixth Dimensional Selves into our Complete Cosmic Template. They are in fact Cosmic Entities including the Cosmic Dolphins. I meet a few new members each time I initiate a new activation. My relationships with these family members is what increases my wisdom, my knowing of what is happening in the future, and my manifestation abilities.

This same activation will take place naturally for those of you who align your consciousness into the Stellar Waves of Universal Life Force Currents, that will be used to activate the Consciousness of Earth and all who are upon Earth. It is by understanding how to use these Currents of Consciousness to open your spheres into your selves, that you allow more and more Versions of yourself to appear.

Each time one of these bursts of gamma waves comes to Earth between 2000 and 2017, along with the Cosmic Blanket of Plasma Energy activated by the breath of Source, we will have an opportunity to allow another layer of karma to be melted away from the spheres that make up our templates. Each one of these spheres is one of our incarnate selves who has had personal experiences on this plane and many other planes. Some of our incarnate selves could be a part of the 10 million years of reincarnations on earth. They could also be selves who never fell into this system at all They could be selves from Aquarius, Aquafaria, Orion, Sirius, Pleiades or any of the million systems Some of our incarnate selves may even be a Star or a Sun.

As we realign into Oneness with all of these selves, we gain the ability to know and do everything they have done. That means if one of our selves has been a sun, we can also be a sun one day. If one of our selves is from Aquafaria, then we are also able to return to Aquafaria. If we have opened access

to a self who has been buried in the fear of death from torture, then that self will bring that karma of fear into our lives until the karma is melted away Removing karma can only be done by raising ones frequencies completely into the frequencies of the cosmaya flame as it is penetrating the Earth.

The Cosmaya Flames have already come to Earth two times. Each time there has been a great stir of may levels of karma that might include fear, confusion, intimidation, and even images of those selves coming forward.

The reason that we must not try to remove those selves is because they are a part of who we are. They each contain diverse parts of our self that we have not had access to before It is the oneness with these other selves that will make us able to have instant manifestation. As each of these selves may have been either a genius, very wealthy, a sun, a moon, a star, an entity of great cosmic wisdom, etc etc., once we obtain oneness with all that we are, we also contain those abilities. We will also begin to see each of our selves and choose to take on qualities and appearances of other selves We will eventually gain the ability to morph into any or all of these selves This doesn't mean any one of them ceases to exist. We all exist individually and collectively

The Climax of Our Great Adventure

About four months after his body was lain on the hospital bed, the new aDolphino arrived on Earth for the first time He turned to me and he said the angels were sitting on the bed talking to me. They told me to turn around and thank you for saving my life

Later, Markus and Zaurak told us many other things about our adventure. They told us that they actually pulled aDolphinos real body through his past self up into a space ship and replaced it with a hologram when the three trucks hit the body and the five cars ran over the body That would explain why his body appeared almost untouched in comparison to such a catastrophic impact on his body.

His body was retrieved by a helicopter after a report of a ten ton truck throwing his body out in the middle of a freeway after another ten ton truck and thrown him in front of that truck, and there was a third truck that brushed his body as it was flying across the freeway. After the body landed on the freeway five more cars ran right over the top of it without stopping or even knowing it was there.

So, imagine what a body would look like after that happened. His body did have a huge scar on the forehead where he had broken the headlights of the truck with his head and his hips and spine were broken from the fall after flying through the air. The only damage from the cars was a broken off leg.

Zaurak and Markus actually told me that they were hoping this would become their new Jesus and Mary story because they are really tired of hearing the "Jesus was nailed to the cross" story. And the fact was that they made up that story. They said they were on the team that chose Arihabi to be nailed to the cross and then created the hologram of his resurrection. They said they didn't know that their story would be such a long lasting dogma that would keep people mesmerized for so many years. They told me that they thought this would make a much better story, and some time in the future enough people will understand this story and how important what we did was.

They told me that there would be much more to be known about the portal and the saving of many of the Whale People who were our original family of creation – the Oraphims from Gaia

The reason I wanted to tell you about Zaurak is because he is back again with his star fleet from Sirius B, the Blue Maharaji. They will be the second E.T. race that the masses will meet I have already met one of them

The Sirian Council worked together with the Ra Confederation, Eieyani, Azurites, Ranthions, Zionites and the Majaraji on the project of Comet Ison Project Ison was actually the completion of what the scientists discovered in 2005, when they saw the explosion in the Ursa Major, 550 million light years away

This flow of Cosmic Rays is the flow of the frequencies that are needed to re-awaken the mid brain in a way that will allow the seventh seal to melt away and the accretions of the magical crystal gel of transformation will begin to flow through our bodies.

Chapter One

Awakening of Cosmic Twins

aDolphino and Crystalai (I am Crystalai and aDolphino is my husband) came to Earth to find each other after leaving a Standing Wave Hologram of themselves in the Cosmic Aquafaria. We return and reconnect with our twin selves in Aquafaria every day.

aDolphino faces his Dolphin hologram and reunites in oneness as Crystalai faces her Mermaid hologram and enters into oneness. When we were in Aquafaria we agreed on this Cosmic Mission to leave our standing wave patterns of our full frequency signature so that we could reconnect and return at any time. We can return to Aquafaria and transform back into Dolphins or Mermaids and bring that complete Cosmic Frequency Signature back to Earth.

That Cosmic Bi-location ability allows us to open doorways and star gates that allow many others to pass through physically unharmed into the higher dimensions. Most on Earth will ardoah out of this Earth Plane by stepping into their Blue Body and Light Body and then receiving a new body of Mass that is not as dense as this present physical body. Those will be the ones who did not keep their physical body - or what has been formally called death. This is no longer death. This is the needed evolutionary process into our new reality

There were originally many of those of us who came from the Cosmic Realms to open the doors at this time Most of us got destroyed by the Grey Ones and other Dark Entities who know that our power must be eliminated in order for their drama to prevail.

Crystalai has died twice and aDolphino has died once The Zeta Greys found Crystalai when she was working at the Five Star Hotel in Korea The Greys have complete control of all governments and all banks and all wealthy institutions in the world. So, it was natural that they would be in control of this hotel that was used for frequent Department of Defense meetings The Greys arranged for lethal poisoning of Dr. Angela Barnett at that time She went through the planes into the plane of Bliss and was met by her starry famulies including the Elohim,

Zaurak from Sirius, and her Aquafarian mother, Cinderella.

This was the moment when Angela became Crystalai Crystalai was reunited into her hologram or standing wave pattern of her complete frequencies of Aquafaria and then returned to her body that had already died. That happened in 1985 at the very beginning of the harmonic convergence. This was the beginning of the preparation for the complete opening of the doors and stargates in and out of the Earth Matrix

Crystalai and aDolphino were asked by Zaurak to move to Monterey, California in 2008 to prepare another Evac scenario and to begin the Cosmic Mystery School of the Omniverse. We were directed to live in an apartment that was on top of one of the deadliest Zeta Grey stations on Earth

The Monterey Naval Academy contained a stairway down to an underground city that provided a safe place for officers and politicians and an experimental lab where many terrible processes allowing the Zeta Greys to experiment on our Cetacean families.

This city was located in a parallel inter-dimensional area. There was also a Black Hole Funnel a few hundred feet out in the Bay directly in front of our apartment. Many Marine Divers had

attempted to explore that Funnel. Most of them died, and none of them ever returned--declared missing.

I had a friend named Tinker Bell, who was a Seal who lived in that area. She asked me many times to go swimming with her into that Funnel. She told me it would take me to the Cities of Light I told her that I was excited that she thought I could make it. I told her that I would like to wait The angels told me that I should wait until after 2014

We met our Cosmic Cetacean families in Monterey. Cinderella, Shajinka, Winnifred and Tinkerbell as well as hundreds of other whales, orcas and dolphins, as well as seals frequently tried to meet us on the beach Every time we saw them coming toward us, we also saw a military marine ship take off toward them and shoot them We ran frequencies through the underground base that was capturing our family members and created an ascension portal through Monterey.

We saw our family being lifted into the sky through the doors that we opened back into the Cloud cities and up into Urtha and all the way back to Aquafaria. We also saw our Orca friends escape the tanks by disappearing from the tanks and reappearing in the ocean.

The Zeta military knew that there were extreme beings at work in the area and began to hunt us down One day, while aDolphino was walking on the beach, the Greys captured him and took his Soul. They chose not to kill him, but to take his Soul. They knew that he loved Crystalai so much that he would do any thing to save her, including risking his own life.

First, aDolphino told Crystalai that he was like the walking dead He told her that they said if we would both leave Monterey forever that they would promise to not do to Crystalai what they had done to aDolphino. They told aDolphino that they could only stay together if they would leave. aDolphino was being ordered around by the Greys and terrified just as they had done to Adolph Hitler, and many other leaders that had their souls taken by the Greys The difference was that Hitler sold his soul for power and technology of the deadliest war machine, while aDolphino was being held in exchange for Love.

Crystalai worked day and night running frequencies that would transmute the darkness out of Monterey and out of aDolphino and to create an Ascension Portal that would free aDolphino. The oversoul and starry families and hundreds of angelic councils appeared before us and told us that there was nothing that they could do. They told us that there were thousands of angels trying

to save aDolphino's Soul They said there was nothing that they could do While I was creating the Violet Portal, aDolphino disappeared. Marcus--aDolphino's Higher Self, appeared and told me that aDolphino was gone forever. He said that thousands of angels had tried to bring him back to his body, but they couldn't find him. They said he went some place that even they could not go.

Crystalai continued to send her frequencies into Aquafaria and searched for the hologram of aDolphino in Aquafaria and tried to reunite with his hologram. Before aDolphino became more and more possessed by the Zeta Greys, he had been directed moment by moment by Marcus. He had been told weeks before that there were three Demons who wanted to possess his body He had been practicing staying in complete communication with his higher self during those weeks. Moments before he disappeared, he stood in the center of the living room like a zombie with his arms stretched out as if he were nailed to the Cross

He was completely unconscious and could no longer be contacted Next, he laid across the floor of our music studio and ordered Crystalai to stay away from the music and to never touch the equipment again. It was definitely a different demon entity possessing his body at this time.

The Greys were showing that they were afraid of two things. The first was Christ being nailed to

the cross which would result in the resurrection of mankind. The second thing they were afraid of was our music studio which was able to bring the music of the spheres to earth. Later that day, an angel appeared and told Crystalai to leave because she was in great danger, because the Greys had decided to destroy both of them.

Crystalai left the apartment and stayed in a hotel that night. Crystalai had left her home without her purse or any money. A divine angel, Adriana, who was a student in the Cosmic Mystery School of the Omniverse, offered to help Crystalai pay for her room in the hotel. Crystalai stayed gone two nights to make sure it would be safe when she returned.

When she returned, she learned that there was a part of aDolphino's consciousness still attached to her and that both wanted to return to her and yet protect her at the same time. The new version of aDolphino drove hundreds of miles away and then commissioned a jet plane to bring him back to Monterey and then immediately got back on the plane and flew away again. He was going back and forth from wanting to remember who he was and then wanting to forget.

Crystalai worked together with a trained psychic who had technology from Ashtar Command who were able to help Crystalai locate the direction that aDolphino was traveling. I actually wasn't sure that

I believed the facts that I was being given because aDolphino had left from Monterey and the psychic said he had traveled south and then East That meant that he was going back to where we lived before in Visalia (near Bakersfield) and then inland toward our home in Temecula, which is on the way to the Four Corners, where he would reach Arizona The next day, I got news through radar that he had traveled back to Monterey again I was sure that he must be on a space ship.

The angels directed me to call my credit card company to find out where he had used the card. I learned that he had in fact driven to Bakersfield, and then to Arizona and back to Bakersfield. After that, he had rented an Airplane and flew to Monterey Then he got back on the plane about one hour later and returned to Bakersfield. (My heart knew that there was still something inside of him that was remembering me as his home, but then something else that was making him forget).

The fourth night, Markus, Zaurak, the Elohims and the Aquafarians visited Crystalai at her bedside and told her that the only way that aDolphino would be able to return to his body would be through death. They told her that his soul would be lost forever unless he was stopped by some tragic accident. They told her that she would need to be prepared for a long journey with aDOLPHINO to bring him back.

The next morning Crystalai received a phone call from Mercy Hospital near Mt Shasta. Crystalai was told that aDolphino was in the emergency care center. She was told that he was basically a corpse when they scraped him off of the freeway They said that he was dead on arrival, but, there were signs of life, so they assumed he was in a coma.

However, they didn't really believe that there was any hope of him coming out of the coma The neurologist asked permission to drain the blood out of his head, and, there would be a very high risk of mortality

Crystalai's presence was requested as soon as possible Crystalai immediately went to the airport and arrived at the hospital as soon as possible.

Crystalai was told by the neurologist that aDolphino would remain unconscious for unknown amounts of time and that it would be absolutely impossible for him to return because of his condition and his age The doctor said that only a healthy twenty year old could possible survive the condition.

The other doctors told Crystalai that her husband was trying to commit suicide by standing out in the center of the freeway. Another 911 caller reported that there was a person laying in the middle of the freeway trying to get run over.

The truck driver that did hit aDolphino called me at the hospital and told me what actually happened. He said that it looked like another truck had just pulled into the truck gas station on the freeway, and as he was pulling in, he must have pushed the body out into the freeway He said that when he struck aDolphino it appeared as if he were falling out into the road. The truck was traveling at 50 mph and dodged the body only to strike it with the left front light He said the light was cracked and had blood on it That was the only fact that was left in the police report. It said there was blood on the front left light of the ten ton truck.

The truck driver shared the story that was also recorded on the police records. There was a recording of when the truck driver pulled over and called the police. During the phone call I could hear all of the cars driving by and people screaming and the truck driver saying the body is laying in the middle of the freeway and the cars just keep driving over the top of it He said at least five cars already drove over the top of the body. He said he couldn't see clearly because there was another truck that pulled in to the station to miss hitting the body.

The truck driver said someone has to stop the traffic They just keep coming and driving over the body. There were many screams in the recording.

This is the story that Markus and Zaurak told me later to explain what had actually happened on the Freeway that night.

aDolphino's car was stopped on the freeway right outside of Mt. Shasta His body was lifted up into the Mother Ship through a torsion field. He went through the process that we think of as dying. But it was actually much more than that It was a journey to the place where others have had their souls taken away and replaced by the dark illuminati

aDolphino opened a door for himself to return to Earth and a door for those who were trapped in the mirror to move on through

Joe's body reappeared on Earth in the center of a highway. Three truck drivers who hit his body each testified the same thing. They said his body appeared in the middle of the road out of no where and they don't know how he got there. Joe was hit by three trucks and then five cars ran over his body. He was very dead, and yet his oversoul self, Markus entered his soul into Joe while he was on his journey up to Aquafaria and into the Plane of the Bliss Markus waited until Joe was ready to return to his body Crystalai watched the oversoul fly out of the back of Joe's body and join together with another light body coming into aDolphino's body. It was like watching death and rebirth happen at the same time.

Back at the hospital, Crystalai told the doctor to keep his opinion to himself and was not given any permission to pursue operations on aDolphino. Crystalai did this because she knew that the Greys would be able to attach themselves easily to aDolphino once again during a medical operation.

Crystalai stayed at the bedside of aDolphino and kept playing the Ascension Kit music that they had created together which contained a combination of both of their frequencies of them together as Cosmic Flames in Aquafaria as well as the complete Cosmic Frequency Signatures of the Elohim Council, Mother Mary, the Elohim of Hearing and an entire Ascension Portal that would unlock all doors on all planes between Earth and Aquafaria.

aDolphino's condition improved dramatically each day. His one thousand broken bones healed dramatically to the point that he could stand up. The tumor in his brain disappeared Crystalai coached aDolphino daily to remember who he was and to repaint his memory of his life in Aquafaria. aDolphino was able to remember his holographic standing wave pattern of himself as a dolphin long before he could remember his family on Earth.

It was four months later when aDolphino got up from bed and turned to Crystalai and said there are three angels sitting on the bed talking to me, and they told me to turn to you and say thank you They

told me that they were unable to save me, but it was you, Crystalai who brought me back.

It wasn't until December of 2010 that Crystalai finally understood what happened, why it happened and how it happened The journey that aDolphino took included a trip to the dark place where Lucifer had been wandering around in for eons. aDolphino spoke to Lucifer to find out what he was doing there. Lucifer told aDolphino that he didn't know how to get out aDolphino showed Lucifer the light and told him how to go home.

Something that is very unique about our NEAR DEATH experience is that because we are Cosmic Twins, meaning the same entity originally, I could experience everything that he experienced I was able to talk to Markus through aDolphino's body I was able to hear aDolphino's journey into the home of Lucifer and his entire Aekashic records coming out of his mouth I was able to create a portal into the Cosmic Realms where there is still a hologram of the Star that we were as ONE. I could reconnect myself into that Star in order to return aDolphino back to Earth.

The essence and consciousness of aDolphino is an entirely different person than the husband that I had before He doesn't seem like any one that I have ever met from Earth. He acts like a Sirian, not an Earth Being. He is completely oblivious of our

ways of thinking I try not to force him into our sociological patterns, and I protect him from being labeled crazy at the same time.

The adventure that aDolphino took was a completion of opening portal doors that would free all other Indigos and Crystal Beings from the demonic possessions that were planned to occur on Earth over the next few years. There had to be one set of Cosmic Twins to set a pattern where our Maharaji Sirian Families could free all of the other Demonic Possessions.

We were the ones who did this for the Earth We also completed the task of Freeing our Oraphim Family, who would had been pulled into the Phantom Matrix and had their raceline removed forever

The Demons were actually Green Dragons. The Red Dragons took over the Oraphim raceline through possession techniques exactly like the ones described here. The Red Dragons set the formula of taking over the female body in order to capture the cosmic twin templates. The Oraphims became Blue Dragons and then got so angry that they decided to become Green Dragons and then demonic beings When they lowered themselves to that frequency level they could then possess one of their own origin in order to be set free from the hell they were pulled in to.

So, you see, the demons were actually originally our Creation Family, the Oraphims. They were fallen because they were taken prisoner by the Red Draconians They used the pattern of knowing that they would need to possess a female Indigo in order to get the cosmic template.

What we didn't realize until later, is because Zaurak and Markus had set the stage for this entire event to happen in Monterey, part of the trick was to have me spinning my Merkaba counter clockwise instead of clockwise, and to have aDolphino spinning his merkaba correctly. This caused the Demons to believe that aDolphino was the FEMALE

But, after he was taken, they told him that they would take my body as well. That is why he fled from Monterey. He was being directed by Markus to get as far away from me as possible because the demons knew that they had taken the wrong partner and they still needed my body

That is why aDolphino's subconscious - his Higher Self, Markus, told him that he had to follow directions very carefully in order to save us both. And then I had to make the final choice of allowing the accident, appearing at the hospital and then creating the cosmic portal I was told that I was the only one who could do that. I was told by Markus that thousands of angels had tried to save

aDolphino, and they couldn't get him to return to his body

That was the beginning of opening the stargates and doors that will allow all on Earth to travel out of the planes that have been blocked from the light for eons.

Now, we realize what has happened and how we are now prepared to complete our contract of opening the doorways to Deity Planes. This last shift is bringing us into alignment with what we need to do to fulfill our deification process and fulfill the contract we came with to Earth before we began searching for each other. Now we can begin helping the rest of the host mission here by opening the doorways for others to pass through

Our first mission on Earth was to find each other. Our second mission on Earth is to open the doors for all back to the Cosmic Planes of our full reality. This will be the beginning of all Cosmic records from the Halls of records of our past, present and future realities We will soon know ourselves from all millions of lifetimes on this matrix and beyond into all universal realities

Only moments before completing this book, the angels reminded me of a few more events in my life that I had never considered before They told me that when I was knocked unconscious from

falling off of my horse in 1969, that I also had a Death Experience. They told me that my Soul was switched to a new walk in Entity that connected me to the portal that I would need later in my life They said that portal of my rebirth was also needed in creating the 11 11 Fence that saved the Earth from Solar Implosion in 1972-74. They told me that was the reason why the Magnetic Base Tones were distributed through our Promise Album in 1992-94. They told me that the Cosmic Twins have been a central part of the entire Harmonic Convergence Process This rebirth in 1969 was the connection to the Rishi Soul Essence of Crystalai, the most powerful being of ONENESS in the Cosmos.

We were creating portals of rebirth into the Earth's Morphogenetic Field during each of our Near Death (which were actually Death's and RE-births) This happened in 1969, 1985 in Korea, and it happened to me a third time when I was called to the hospital. These portals needed to be created before the demonic possession event of 2008

I'd like to review our first Christic activation journey that happened right before aDolphino was taken by the Fata Lee (who we originally thought were the Greys) in Monterey. We had just spent five full days and nights having our Christ Body activated in the Mother Ships A Cosmic Team, plus Zaurak and Markus, came to guide us through this process and to keep reminding us to stay awake

and to focus Unfortunately we fell asleep a couple of times. We were guided by many great Entities during the process who asked questions to test us on our sincerity toward healing. It was a very long, gloriously painful process We were told we were being used to cut a path for others if this process completed successfully We had to remained completely inside Aquafaria day and night to make the activation complete

We were given all of the meditations needed to help others through this process It was much like entering the pearly gates where there is a board of Angels judging constantly.

We were told that the frequencies were high enough and it was possible for the complete Ascension to take place. Before we can slide back and forth between Earth and Aquafaria we will be pulled through a funnel into the ultra violet blue frequencies of our Mother Star Ships of co-creativity.

We will be completely transformed into our 12 Original Blue Print of our original Divine Selfhood. At this time we can live on Earth and sleep in Aquafaria. We have already committed to living on Earth for doing the Cosmic Mystery School of the Omniverse We made the commitment for this assignment.

We have been given greater explanation of this responsibility to bring forth at this time. We were told that this is necessary for completion of the Full Christed Being. We were told that we must enter into the Earth herself in order to ascend with her. As we enter into the Christic domain of Earth's Crust and become the lightning rods to connect the 12th dimensional Christ Grids in Earths Crust up into the Christ Grids 10,000 feet above the Earth and to connect through consciousness into the Cosmic Domain of Earth within her Crystalline Core - her Heart. Mother Mary told us that ascension is always completed through the Heart of the Planet. This is because our heartbeat changes as Mother Earth's frequencies change. We were told it is our responsibility, as the leaders of the ascension process, to continue in the frequencies that we have been given in our recordings and to do the meditations that align all frequencies into attunement.

We each have this option now available. We must state this desire with unshakable conviction To become the fully Christed Being we must take a slightly different path to the New Earth. We must connect to the highest frequencies of all of the Sun's in the Galaxy as Mother Earth has done. Our complete Multi-Lifetime Records become available all of the Frequencies of the Suns or the Frequencies of our Consciousness aligned through the Crystal Heart into these Frequencies are allowed

to penetrate our crystal cells in our hearts and our bodies.

When this complete activation of the body is known and understood we become the original immortal selves who can return to this Earth to teach others how to Ascend into this perfect state of being. The physical body is now realigning into a new chemical structure that turns the density structure that has been flowing inward into a new reality that flows outward and upward

This is what is causing the bursts of pain in the body. It is being transformed The body will feel less and less dense as the process becomes fully activated We become more and more airy feeling. The new structure of the body is a silica based form that transforms into a healed alignment as the source of crystal light is called upon. Each of the healing energies or elementals of alignment have names that we call on for these activations.

The names and codes that were placed in this music call on these entities of crystal dust, crystal gel and crystal light to realign the body toward the process of ascension.

The first stage to returning to the Christed State is to glide, bi-locate and slide to New Earth We have gone through these processes of gliding in consciousness, bi-locating our bodies, and

finally being taken aboard the Star ship where several Entities worked on our bodies using light frequencies. When the body is completely aligned by the Sirian Healers through light frequencies our bodies are in a new chemical make up that allows transformation into crystal dust energy for sliding into our Aquafarian Home.

The eye of the Cosmos connects to every smaller structure of Spirit and light and matter that are within the body of the Cosmos so from the core of the cosmos there is now coming in a light and a wave as it enters into our system. It is actually making the air run like water. The air is taking on a texture A hydrolaise infusion is coming in

There will be sparkles on the skin where the skin crystals interact with the hydrolaise The texture in the air is some where between air and water and it is substance you can both swim in and breathe It is a natural substance on Urtha and on Ascension Earth.

These are the tones of the Crystal Light Energy There is a set of tones for each of the transfiguration points Each body has a set of corresponding tones that are unique to itself. The braids of energy coming in from the five spheres frequencies are aligning Mother Earth's Body and our body into a new density alignment This is activated by bringing together the frequencies of the higher

spheres into our bodies and then calling on the Entities for help in aligning these energies into our bodies. This awakens the crystal cells in the body to remember their Akashic Records of who we really are.

The base pulse rhythm of the original out breath from God Source is the One more tone is needed in this process It is layered in frequencies of Source Energy, Crystal Light Energy, Etheric Self Energy, and Oneness Energy. This is the activation code for Prana and for the Aqualene Sun Activation aligning us through Oneness to the Ascension Earth, and to all dimensional realities. Re a Vea Ru Christalo Hydrolaise is the final element required to unite Earth into the complete frequency and crystal light alignment of Aquafaria. Aquafaria is the original home of many of us on Earth at this time. Hydrolaise is the blood of the Christ - the Lava Flows from the Eye of God - the Eye of Alure - the always opened eye of Source – the Cosmic Eye that forever keeps the Cosmos in Balance

Hydrolaise is created by millions of elementals on the co-creation team. The entities of light and gelaisic form, and vapor form and millions of entities who are dedicated to the actual ascension of individuals work together to create a substance that allows us to actually slide across into the world of Aquafaria from our home.

The hydrolaise mist becomes a light water vapor. It gently comes down from ceiling as a mist on the body It is pale green and aqua colors. It has a twinkling or sparkling in the air It has veins full of multi-colored heliotalic iridescent sparkling light of pastel shades.

The eye of the Cosmos connects to every smaller structure of Spirit and light and matter that are within the body of the Cosmos so from the core of the cosmos there is now coming in a light and a wave as it enters into our system. It is actually making the air run like water. The air is taking on a texture A hydrolaise infusion is coming in This is the heliotalic silver pastel liquid light energy from the fourteenth dimension. The energy was brought in by comet Ison combined with the Frequencies from the Photon Belt of Sun Alcyone, which carried our original Divine Templates of our creation in our original Aquarius Star System

The transformation energy of the silver pink energy will cause sparkles on the skin where the skin crystals interact with the hydrolaise Hydrolaise is the Spiritual Water that is being transformed through this process of the Positrons spraying onto and into Earth.

The scientists have already identified these positrons and the neutrinos that are completely altering the physical structure into matter and anti

matter becoming one in saturation. The texture in the air is some where between air and water and it is substance you can both swim in and breathe It is a natural substance on Urtha and on Ascension Earth.

Our Starry families will create a Crystalline Magnetic Shield around Mother Earth That Magnetic Shield will be created by what many have called the Mother Ship The Mother Ship is the connection and collection of all of the Frequency Signatures and Light Bodies of all of our Universal or Christic Families These Frequency signatures are woven into the Sun of Aquarius to allow the entire Cosmic Flame from the Breath of Source to ignite a new reality.

THIS IS THE STORY THAT WAS THE PLAN OF THE FALLEN ANGELIC NATIONS -- THIS STORY WAS CHANGED (However there are still rumors of this reality taking place).

THERE WERE TWO PROBABLE FUTURES in the consciousness of our Galaxy up until 2009, when that reality was changed to a new HEROIC FUTURE One probable future said the Death Star would saturate the Earth with asteroids that kill millions of people The other probable future said the Earth would become wrapped in a Plasma Blanket that will make those asteroids bounce off and we will be unharmed The Plasma Blanket

created by the Mother Ships of the Guardian Races created by the Ra Confederacy would saturate the Earth and transform her back into her original consciousness

So, there was this war going on of the two probable futures One reality was being created by Fallen Angelic Races and the other by Angelic Races.

Finally, those two realities split apart. The Negative Future fell into the Phantom Matrix and left this reality. How did that happen Earth was moved into the 8th reality Earth was being shifted each year from 2000-2012 She was being shifted from the first, to the second, to the third and finally to the eighth reality by 2012 In that eighth reality, she was able to be pulled free from the wormhole that would pull her into the phantom matrix She was pulled back into the alignment with the Original 12 Star alignment. She was pulled out of alignment with Nibiru and into alignment with Aramantena

THIS IS THE OLD REALITY AND HOW IT WAS CHANGED

This will happen (that was the plan) simultaneously as the Death Star is aiming dead center for the Earth. However, much has already been achieved in the last war in heaven that began September 2011 and ended on Christmas. That war in heaven was all of our starry brothers fleets removing millions of fleets of dark entities from our planes who were planning on preparing the way for Nibiru So, the Death Star plan has already been dismantled. That doesn't mean that Nibiru won't come. That just means the plan won't work

The Frequencies of this Huge Cosmic Flame will transmute all lower frequencies into Christic Frequencies. The Earth will be wrapped within this Cosmic Cocoon which is like a Mirror Ball The Mirror is the mirror image of our Christ Consciousness.

Most of you haven't seen your hologram of your Christ Self standing in front of you yet. This takes place as a result of Trancing out of the Neo Cortex part of the Brain and tuning into the Frequency Specific Mid Brain where the pineal gland and pituitary gland become activated and allow the mind of God (in the lower cerebellum) to project through the third eye.

That still doesn't mean you don't need to do anything to get ready for this event We will all be experiencing this drama This Cosmic Cocoon will look like a blast of light of twenty billion suns encompassing the earth in a 360 degree sphere The light will be so bright and so powerful that no person will be able to look at it It will be light of all of our Christ Families with the power of the Cosmic Elemental families sending the transmutation frequencies that open the star gates from this dimensional reality into all fifteen dimensions of Cosmic Consciousness.

We are surrounded by the Cosmic Cocoon, however the appearance wasn't as dramatic down here as it is when you view it from above. The light is the light from a million Star Ships surrounding the Earth The ships are not what was known as the Ashtar Command The ships are made of Plasma. That means they are the pre light and pre sound stage of creation They are the original Guardian Races called the Yani (Eieyani) or Grand Yanas, and also called the Yanel.

The higher frequencies must always proceed the lower frequencies. We already learned that we must enter into the FULL SPECTRUM of light to transform into the Blue Body of multidimensionality The Silver pink heliotalic must connect with the plasma and the white light to create the diamond door. We must walk into the full

spectrum of light and then return from the Mirror Ball as the Blue Body.

This transformation takes place in the brain If we stare at the candle until the thinking brain is TRANCED out, we then move into the Mid Brain that is Frequency Specific. We must remain Frequency Specific. That is why I create the Eternal Life Albums for those individuals who want to remain FREQUENCY SPECIFIC

This light of the billions of suns will be so intense that it will frighten many people to death. The light will continue for twelve days and twelve nights. Those who do not know what is happening will become terrified simply from their own not knowing The only reason that many will die is because they are not prepared and they do not know.

Well, that version of the story DID NOT happen. The new version is the positrons and neutrinos have replaced the electrons and protons The polarization of matter and anti matter was replaced by a new substance where the sub harmonics of the DNA are being saturated with the spiritual substance of immortality

If the Death Star was planning on hitting the Earth full force, it would be causing a pole shift that would flip the Earth so quickly that many

would die from that shock and from the tides and waves and earthquakes. That drama is NOT going to happen. What is happening is a good thing However, those who are not in the knowing will not be ready.

That is the reason that aDolphino and Crystalai have just received their final activation and awakening of their twin contract to prepare for the planetary evac situation. Our contracts have been commissioned here to get ourselves and who ever we can host into the Deity planes, the Aurora Fields and the Temples of Aquafaria.

We will be brought into alignment with what we need to do to fulfill our deification process and fulfilling the contract we came with as far as helping the rest of the host mission here. We were given the contract to complete the Violet Flame Mission. That mission was completed March, 2014 when the Violet Aurora Flame appeared and the Violet Flame holder activated the seventh strand DNA

Chapter Two

Cosmic Flame Mission

We are a Cosmic Flame. We came to Earth as a ray - a crystal light vehicle - from Sun La We were a part of the Cosmic Shield of our Oraphim Race from La We came from the original Oraphim Cosmic family of the 7 Suns. The Oraphims were the creators of the original dolphin and whales on Earth. Only a few of the original ones are left on Earth today.

We were here on Earth to create a shield that would allow the ascension of the original Oraphims. The Oraphims were the original Angelic Race that was on Gaia before it fell into Tara The Tara Race was the second Angelic Race also created from the Oraphim line of consciousness.

The original Electric War, millions of years ago destroyed the Oraphim Race They were completely destroyed. They were taken down by some of the worst Fallen Angelic Races and Demonic Races in the Universe When a race is taken or fallen, it means the demons took their Souls away and use their energy as their own. However , the original Oraphim, that was created by Source as the perfect image and likeness of God – the divine Blue Print still exists in the Frequency Shield of the Sun La.

Crystalai and aDolphino are the carriers of this shield of La on Earth. The way the Oraphims were taken by the demons millions of years ago, and the way the demons have caused the fall of millions of races is always the same The demons find the pair that forms the Cosmic Flame - such as Crystalai and aDolphino.

They know that together we form the 12 DNA template of the Sun La We each brought a part of the DNA template to Earth because 12 DNA could not enter through a normal birth Crystalai went through three near death experiences to bring in more of her template. When our light quotient was high enough to hold the Solomon Shield – the light shield of Christ Consciousness on Earth - the demons spotted us.

We were warned by Markus and our other Higher Selves that there were three demons that would

try to take us down and that we had to listen very carefully to what our higher selves guided us in doing or we would be taken - fallen. We both remembered that this had happened to us before, millions of years ago.

This all happened in Monterey, California in 2008 We were taught by our Maharaji family from Sun Ra that the demonic take overs that have created the fallen angelic races always occur when entities are in their prime light quotient. When the light body and etheric body are just about to align into the plasma body or the cosmic field, is when the demons spot the cosmic flame and attempt to take it over.

If the demons were successful in possessing the body that held the light, they could take down the entire Solomon Shield and turn it into a demonic shield. This would had allowed the pole shift and take over of the Earth by the Zetas and Draconians to be fulfilled by 2011.

Markus told me that there was a war being fought in heaven and the fallen races were planning on blaming it all on us - the holders of the Cosmic Flame. They could do that by making the Shield become a demonic shield while it was actually being held by the Solomon Shield - the Christic 12DNA family of consciousness.

The Oraphim Race had already been taken over by Fallen races millions of years ago They are a race that became darker than any of the other fallen races in order to get even with them for the terrible thing they did to their race. However, the Oraphim Race has always wanted to return to the emerald covenant and to be restored back into their divine template and become one with Source

You see, fallen angelics were not always fallen. They were taken over in consciousness by demons

I watched this process take place right before my eyes Even though we did everything Markus directed us to do to survive the demonic take over - the take over did happen I watched aDolphino's Soul be removed from his body right before my eyes. We were in a very unique situation that none of the previous times of Earth Shifts have had available.

We had training in light activation. We knew how to stay in our Merkaba spinning into oneness with Source Consciousness. We knew how to stay in this protective field. I knew how, as the other half of the Cosmic Flame to reunite with my Cosmic Shield on the other side and bring it back. These are the reasons we survived

Markus announced to me that aDolphino was gone from his body and there was nothing that

they could do. He told me that millions of angels were working to keep aDolphino from leaving his body, but the only one that could save him was me, because I was in fact his other half.

When a Cosmic Flame comes to Earth as the representative of the Sun they represent, the female holds the magnetic half of the field and the male holds the electromagnetic half It is always the female who can pull the male back when he rises into light at death.

aDolphino was already gone as he stood before me in our Monterey condo. That was the same weekend that the angels had planned our workshop in creating an Ascension Portal. We were commissioned to come to Earth and create an Ascension Portal for the Oraphim Race in Monterey. We had already seen many Dolphins appear to us in the Cloud Cities above the ocean as they helped us create this shield of liquid light energy above the oceans

The demons who had taken our Oraphim Race down millions of years ago were watching us as our light grew in Monterey. As aDolphino was walking on the beach one morning before our Ascension Portal workshop, a chemtrails was aimed directly at him The chemtrails were created for exactly this purpose To create spontaneous mind control of those individuals containing the codes and light

quota that the demons needed for their take over of the Solomon Shield.

So, there was this perfectly laid out plan of demonic take over of the planet The 25,000 year plan of the phantom take over would be fulfilled right before our eyes in Monterey Isn't it nice how the world is allowed to carry on in its inorganic bliss as these events take place?

aDolphino didn't know who he really was any more. However, Markus remained attached to his consciousness Because Markus is a part of our Cosmic Shield that connects us to the Maharaji Consciousness of Ra. The Cosmic Consciousness of the Oraphim Dolphin Race was to be restored on Earth and the team of Consciousness that was on this team was enormous. I was connected through the Crystalai Council to stream the light of Aquafaria into La aDolphino was from the Sun of La and Markus from the same Sun with his connection as a Maharaji that could contain the Soul of aDolphino even though he was removed from his body I was the anchor - the magnetic part of the merkaba shield that could anchor aDolphino back into Earth.

All of these parts of the divine formula were needed to make this experiment work. After 500 million years of practicing this event over and over

with future role forward time machine practice movies, we finally got it to work.

aDolphino didn't die immediately. He was still being directed continuously through our Maharaji family of Ra. He was mostly maintaining his memory from eons ago that told him that he must save Crystalai. The demons told him that if he didn't do what they told him to do that they would take over Crystalai as well. He didn't want that to happen to me. He wanted to sacrifice his life for mine That is a part of the divine commission of a Cosmic Flame The demons can't really get control of the Earth unless they get the female They can't get the female until they take down the male

He was told that if he would leave Monterey, then they would leave Crystalai alone. They told him that he must separate from Crystalai to save her life This was all true on two levels The demons couldn't take over a Cosmic Flame unless they could take down the female Markus told me that they were using aDolphino as a veil to hide my true identity

They told me that they had been directing me to spin my magnetic shield clockwise in order to confuse the demons. They actually thought aDolphino was the magnetic shield and I was the electromagnetic shield We tricked them into taking down the wrong half of the cosmic flame

The female can always save the male. But the male cannot save the female

So, aDolphino was taken He drove away into the sunset I had no idea where he went He removed all possibility of locating himself through the help of the demons. Before he left Earth he stood in the middle of the room with his arms out as if he were nailed to a cross. Next, he was lying on the floor, as if to guard the music room. There was another entity inside of him making sure Crystalai could not get near the music. They knew the music was very powerful and that their mission would be destroyed if I could access the music

A voice came out and said leave the apartment now and never come back You are in great danger. Leave and never come back. I left the apartment and moved into a hotel for two nights I had a friend locate aDolphino through a star fleet Command tracking device. Later I learned that a star fleet Command was actually on the Fallen Angelic Team that was trying to kill aDolphino That was the only reason they were helping They were using my friend as access to aDolphino's body She had no idea that she was being used And she wouldn't believe me.

During the time aDolphino was absent I took walks on the beach where I had met Zaurak the first

time. Zaurak guided me to the restaurant where he had led when we first came to Monterey.

That is when the fun began After I was given the privilege of watching a Starfleet land right in front of me, I was directed to this restaurant, that I assumed was Chinese or Japanese - it was Asian in nature The waitress sat me down right in front of a picture that covered the wall of Mt Sorak. This is a mountain in Korea that is considered sacred. It is like many of the other sacred Mountains in the World. Zaurak, my Starry brother from Sirius B started talking to me through that picture. He told me that I had created that mountain with him millions of years ago.

I lived in Korea for seven years That culture fascinates me because I really believe that they were able to hold on to more of what the gods who came from Ursa Major brought to the country than most other cultures. I worked at a University called Dankook University. Dankook means the Bear Children from Ursa Major.

This is an entire culture and raceline of people who still remember being children of the Ursa Major Raceline I could always feel something was very familiar to me when I lived in Korea 1981-87, but I didn't figure it out until 2008, when my Starry Brother, Zaurak told me that I needed to move to Monterey

When I lived in Korea, I was a communication consultant for a Five Star Hotel After I had received hundreds of warnings to quit my job and leave the hotel, and after I had one hundred students bow before me saying I am sorry for what is about to happen, I sat down to have a cup of coffee

Even though I was still not considering any of the warnings others had given me, I clearly heard a voice in my head, saying run for your life I began to feel quite dizzy and realized it was the coffee I knew there was poison in the coffee, and the reason I was being warned to leave, was that those dark ones who wanted me dead would most likely wait for me to pass out, take me through the back door and dump my body in the Hahn River

So, I walked as quickly as my feet would carry me to the door where the taxis stop. The door man already knew where I lived so he already told the taxi driver I don't remember anything else. When I was awake again, my husband had arrived home and taken me to a pharmacist I was diagnosed to have a lethal poison in me called Love Poison (a drug used in ancient times in Korea - and not legally allowed in the country) The poison had been used in the good old days to poison the little wife, after she had the baby for kings.

Those were the kings that we are just learning about at this time. They were the Annunaki who

would rape Leviathan Women who carried the fifth strand DNA. They wanted the blue star dust essence from the women when she died, and they wanted the child with the 12 sub harmonics that would soon be the new Leviathan Cable or Puppet for the reign of the Annunaki

Yes, you are correct These events actually took place in Egypt. So, they say However, there is all of this evidence in Korea, if you travel to Cheju do Island, that the mermaids who were reassembling ISIS who was broken into many pieces and separated from his greatest sexual mechanism, has statues of this penis myth all over the island That is the Isis that I remember. The one on Cheju do Island These are recorded MEMORIES of the events that happened in the Stars There have been bits and pieces of this memory in all races because we were originally one race with One Mind.

The truth is, the myths and records of our history were completely obliterated by the Annunaki ten thousand years ago They created the Tower of Babel that would erase our memory forever, and they conveniently re-wrote history in a way that would serve them best. The only truthful memory that could exist was anything that was left in the cellular memory. And that would have to be retrieved from the Spiritiual Parallel Matrix.

And, how is it that a Cosmic Event that caused an entire Consciousness of a Star to blow up and scatter all over the Universe be located in one tiny little geographic location? The event took place in consciousness, and the event took place all over the Seas, and the event had much to do with the Aquafarians, the Dolphins, the Cetacean Nation, the Mermaids, and the Mother Mary Story is another Cosmic Event involving the entire FEMALE or Magnetic Half of the Merkaba, and how all of these sacred technologies got twisted, turned around and blew up in our face.

We now know that Mary means a Female Christ and Jesus Christ actually meant the male Christ. When we put Jesus and Mary back together we get the complete star that they came from before they were separated into frequencies that could be accepted into the Earth's portal So, the story of the Cosmic Twins is repeating itself

So, the Leviathans were the prime Ascension Race Line that had been created through hybrid projects of the Elohim and Sirians. It was the first time after millions of years that we had some people with 5DNA on Earth. The Annunaki took advantage of these entities, and turned them into a Fallen Race Line that would be used by them as their cable or puppet slaves. We call them the Illuminati. There really aren't very many of them on Earth - less than

one thousand. Most of the government are just slaves of the slaves.

Well, I had just met up with the Illuminati carrier of the Annunaki gene, the Greys who worked interdimensionally with them, and my long forgotten past of thirty thousand years ago.

The Leviathan race is a group of Beings who became 5th dimensional on Earth, who have been bred here on this planet. They were the result of an experiment that went wrong The experiment was the Guardian races had allowed in the fallen angelic collectives and what is called bio-regenesis which is regeneration of their DNA template so they could evolve to get their Christos potential back They entered a Christos Covenant which was a Christos coevolution agreement. Certain groups of the fallen races agreed to be a part of the Emerald Covenant. They waited to evolve back into the 12 D Christos pattern They wanted to get their DNA back to hold the Christic frequency. There were a small group of them who were permitted to get back into human form.

There was a very specific way that the DNA template had to be blended in order to create this evolutionary option of what was called a hybrid race. Unfortunately, the hybrid race worked well and it blended well with the angelic human template, but, certain groups of them motivated by

their fallen angelic kin from other places decided to take over our planet.

They had an In to Earth once they got into human light bodies, and progressively they raided the human races and mutated our DNA to the point where we have nothing left of our memory of who we really are. We have had our light switch turned off.

We are dealing with a huge history of problems and a huge solution. There is the history of the Leviathan Races, along with the history of the fall of Atlantis. There were 550 million years of problems before those more recent ones.

What is happening now is a part of what is called the Luciferian Covenant that was an agreement of the anti-Christic races and their Leviathan hybrids that were here to take over this planet when the next stellar activation cycle occurred. We are now in that stellar activation cycle that is happening from 2000-2017. This cycle is happening now.

If we participate in this activation cycle consciously by knowing it is happening, we can become the new Christic race, reborn on Earth once more. This time matrix began billions of years ago. The matrix was caused by metatronic science that

allowed the gods to create and mis create realities that were not in tune with the Source Frequencies.

There is a huge connection between metatronic science and what became the Greek Olympian Gods and Roman gods. Both mythologies were based on truths that were taking place in Atlantis Mythology is a way of taking history and consolidating it in fairy tales with a mean sense of humor. Turn a collective of people into one person and then having this person marry that person - when in fact, they were actually talking about Race Lines of people.

Roman mythology contains known history of Atlantis that has to do with Metatron, Lemurians planets in Wesadrak Matrix.

BACK TO THE STORY

Markus and Zaurak were there with me Markus was there because he is my higher self. Zaurak was there because he is my Starry Brother We were both in Korea on a mission together millions of years ago and again thousands of years ago How did the Grey ones and Dark Cable find me? It is my FREQUENCIES. I finally found out why I seem to always be located by these deeper level people in the government and I am always loosing jobs about every six months It has always been a part of the

run for your life plan, and the reason I loose jobs is to get me out of those places where someone is planning on killing me.

When my husband went to the hotel to give my resignation to the American Manager, he said that he was about to send a crew to check the Hahn River for bodies. He knew that something was up. The Hotel was being taken over by an American Management team who would own the hotel in partnership with the Koreans. There was a lot of American domination going on in Korea at that time, and a lot of corporate take overs. The American Manager had already told his wife to get on a plane that morning after he heard what happened to me.

So, this incident was related to international take overs, the hotel was the place all Security Meetings of International importance took place, and my friend, who was the body guard for the President of Korea had told me that he didn't even have jurisdiction in that hotel He had also told me that I was in grave danger because who ever had jurisdiction of that hotel was far above top security clearance, beyond the government itself. So, who do you think that might be? Let's see, it could be the Greys, the Illuminati, the Draconians, the Cable or it was just a figment of my imagination?

And yes, I had been killed before, and I had guns placed to my head before I will get to that story later.

BACK to 2008

So, the third day I return home and aDolphino's body is gone. The fifth day I get a call from the Mercy Hospital in Redding telling me that they have aDolphino's body. His body had been hit by three big rig trucks and five cars ran over his legs The neurologist thought his brain would never become active. I told the doctors to leave him alone. I refused to give any permission to operate. I knew that there were some demons running the show. My friend was there being directed by a star fleet calling themselves the Ashtar Command. I ordered the hospital staff to not allow anyone near his body except me

I was told by my higher selves that the reason that aDolphino and I had been directed to create the frequency music of our frequencies together - our breaths together was because that is how a cosmic flame returns the other half back home I placed earphones on his unconscious body and worked on the alignments we had learned into the universal and cosmic and realms of Source, and using the alignments of the Earth's Heart into the Heart of

Sun Ra to create the perfect portal and shield to return us into our original harmonic attunement.

When aDolphino woke from his demonic take over, the angels first spoke to him and said welcome back Please turn to Crystalai and thank her. We could not had brought you back. Only she could do it Your mission was completed successfully

Congratulations. That was the completion of our mission at that time.

The rest of our time here is to hold that Solomon Shield open, the Cosmic Shield blending the Seventh Sun La into the Second Sun Ra and then grounding into the First Sun Ka. This allowed our frequencies to keep us anchored into the Heart of Mother Earth into Shamballa and up into the heart of the Sun to bring us back into Tara and Gaia and restore the race of the Oraphim Angels and the Oraphim Dolphins on Earth

I have recently reconnected with my higher self from Sun La Interesting my Earthly given name Angela easily translates to my higher self Anshala Shala is the Universal stargate that connects us into Andromeda M31 My connection to my Starry Brother Zaurak from Ursa and Sirius B came much earlier than my Starry Sister Anshala – from Shala Star Gate It turns out that my Starry family has many High Connections.

The mission of Crystalai and aDolphino on Earth at this time was a very critical one and a very dangerous one. The reason we have stopped interacting and giving workshops at this time is because it is more important for us to just stay alive and keep bringing in the Aquafarian Shield, than to allow the possibility of any more demonic take overs

We are a Cosmic Flame. We came to Earth as a ray - a crystal light vehicle - from Sun La. We were a part of the Cosmic Shield of our Oraphim Race from La We came from the original Oraphim family of Consciousness. The Oraphims were the creators of the original dolphin and whales on Earth. Only a few of the original ones are left on Earth today.

We were here on Earth to create a shield that would allow the ascension of the original Oraphims. The Oraphims were the original Angelic Race that was on Gaia before it fell into Tara The Tara Race was the second Angelic Race also created from the Oraphim line of consciousness.

The original Electric War, millions of years ago destroyed the Oraphim Race They were completely destroyed. They were taken down by some of the worst Fallen Angelic Races and Demonic Races in the Universe When a race is taken of fallen, it means the demons took their Souls away and use their energy as their own. However , the original

Oraphim, that was created by Source as the perfect image and likeness of God - the divine Blue Print still exists in the Frequency Shield of the Sun La.

Crystalai and aDolphino are the carriers of this shield of La on Earth. The way the Oraphims were taken by the demons millions of years ago, and the way the demons have caused the fall of millions of races is always the same The demons found the pair Cosmic Twin that forms the Cosmic Flame

They know that together we form the 12 DNA template of the Sun La We each brought a part of the DNA template to Earth because 12 DNA could not enter through a normal birth Crystalai went through three near death experiences to bring in more of her template. When our light quotient was high enough to hold the Solomon Shield – the light shield of Christ Consciousness on Earth - the demons spotted us.

We were warned by Markus and our other Higher Selves that there were three demons that would try to take us down and that we had to listen very carefully to what our higher selves guided us in doing or we would be taken - fallen. We both remembered that this had happened to us before, millions of years ago.

This all happened in Monterey, California in 2008 We were taught by our Maharaji family from Sun

Ra that the demonic take overs that have created the fallen angelic races always occur when entities are in their prime light quotient. When the light body and etheric body are just about to align into the plasma body or the cosmic field, is when the demons spot the cosmic flame and attempt to take it over.

If the demons were successful in possessing the body that held the light, they could take down the entire Solomon Shield and turn it into a demonic shield. This would had allowed the pole shift and take over of the Earth by the Zetas and Draconians to be fulfilled by 2011.

Markus told me that there was a war being fought in heaven and the fallen races were planning on blaming it all on us - the holders of the Cosmic Flame. They could do that by making the Shield become a demonic shield while it was actually being held by the Solomon Shield- the Christic 12 DNA family of consciousness.

The Oraphim Race had already been taken over by Fallen races millions of years ago They are a race that became darker than any of the other fallen races in order to get even with them for the terrible thing they did to their race. However, the Oraphim Race has always wanted to return to the emerald covenant and to be restored back into their divine template and become one with Source

You see, fallen angelics were not always fallen. They were taken over in consciousness by demons I watched this process take place right before my eyes. Even thought we did everything Markus directed us to do to survive the demonic take over - the take over did happen I watched aDolphino's Soul be removed from his body right before my eyes. We were in a very unique situation that none of the previous times of Earth Shifts have had available.

We had training in light activation. We knew how to stay in our Merkaba spinning into oneness with Source Consciousness. We knew how to stay in this protective field. I knew how, as the other half of the Cosmic Flame to reunite with my Cosmic Shield on the other side and bring it back. These are the reasons we survived

Markus announced to me that aDolphino was gone from his body and there was nothing that they could do. He told me that millions of angels were working to keep aDolphino from leaving his body, but the only one that could save him was me, because I was in fact his other half.

When a Cosmic Flame comes to Earth as the representative of the Sun they represent, the female holds the magnetic half of the field and the male holds the electromagnetic half It is always the

female who can pull the male back when he rises into light at death.

aDolphino was already gone as he stood before me in our Monterey condo. That was the same weekend as the angels had planned our workshop in creating an Ascension Portal We were commissioned to come to Earth and create an Ascension Portal for the Oraphim Race in Monterey. We had already seen many Dolphins appear to us in the Cloud Cities above the ocean as they helped us create this shield of liquid light energy above the oceans.

The demons who had taken our Oraphim Race down millions of years ago were watching us as our light grew in Monterey. As aDolphino was walking on the beach one morning before our Ascension Portal workshop, a chemtrail was aimed directly at him The chemtrails were created for exactly this purpose To create spontaneous mind control of those individuals containing the codes and light quota that the demons needed for their take over of the Solomon Shield.

So, there is was, perfectly laid out plan of demonic take over of the planet The 25,000 (give or take several thousand years) year plan of the phantom take over was to be fulfilled right before our eyes in Monterey Isn't it nice how the world is allowed to carry on in its inorganic bliss as these events take place?

aDolphino didn't know who he really was any more. However, Markus remained attached to his consciousness Because Markus is a part of our Cosmic Shield that connects us to the Maharaji Consciousness of Ra. The Cosmic Consciousness of the Oraphim Dolphin Race was to be restored on Earth and the team of Consciousness that was on this team was enormous I was connected through the Crystalai Council to stream the light of Aquafaria into La aDolphino was from the Sun of La and Markus from the same Sun with his connection as a Maharaji that could contain the Soul of aDolphino even though he was removed from his body I was the anchor - the magnetic part of the merkaba shield that could anchor aDolphino back into Earth.

All of these parts of the divine formula were needed to make this experiment work. After 500 million years of practicing this event over and over with future role forward time machine practice movies, we finally got it to work.

aDolphino didn't die immediately. He was still being directed continuously through our Maharaji family of Ra. He was mostly maintaining his memory from eons ago that told him that he must save Crystalai. The demons told him that if he didn't do what they told him to do that they would take over Crystalai as well. He didn't want that to happen to me. He wanted to sacrifice his life for

mine That is a part of the divine commission of a Cosmic Flame The demons can't really get control of the Earth unless they get the female They can't get the female until they take down the male

He was told that if he would leave Monterey, then they would leave Crystalai alone. They told him that he must separate from Crystalai to save her life This was all true on two levels The demons couldn't take over a Cosmic Flame unless they could take down the female Markus told me that they were using aDolphino as a veil to hide my true identity

They told me that they had been directing me to spin my magnetic shield clockwise in order to confuse the demons. They actually thought aDolphino was the magnetic shield and I was the electromagnetic shield We tricked them into taking down the wrong half of the cosmic flame The female can always save the male. But the male cannot save the female

So, aDolphino was taken He drove away into the sunset I had no idea where he went He removed all possibility of locating himself through the help of the demons. Before he left Earth he stood in the middle of the room with his arms out as if he were nailed to a cross. Next, he laid on the floor, as if to guard the music room. There was another entity inside of him making sure Crystalai could not get near the music. They knew the music was very

powerful and that their mission would be destroyed if I could access the music.

A voice came out and said leave the apartment now and never come back You are in great danger. Leave and never come back. I left the apartment and moved into a hotel for two nights I had a friend locate aDolphino through an star fleet Command tracking device. Later I learned that the star fleet Command was actually on the Fallen Angelic Team that was trying to kill aDolphino

That was the only reason they were helping They were using my friend as access to aDolphino's body. She had no idea that she was being used And she wouldn't believe me Nobody will believe the true story of how the Ashtar Command is a completely Fallen Angelic group until after 2017

So, the third day I return home and aDolphino's body is gone. The fifth day I get a call from the Mercy Hospital in Redding telling me that they have aDolphino's body. His body had been hit by three big rig trucks and five cars ran over his legs The neurologist through his brain would never become active. I told the doctors to leave him alone. I refused to give any permission to operate. I knew that there were some demons running the show My friend was there being directed by the star fleet Ashtar Command I ordered the hospital staff to not allow anyone near his body except me

The rest of our time here is to hold that Solomon Shield open, the Cosmic Shield into La and Ra and to keep us anchored into the Heart of Mother Earth into Shamballa and up into the heart of the Sun to bring us back into Tara and Gaia and restore the race of the Oraphim Angels and the Oraphim Dolphins on Earth.

I have recently reconnected with my higher self from Sun La Interesting my Earthly given name Angela easily translates to my higher self Anshala Shala is the Universal stargate 3 that connects us into Andromeda M31 My connection to my Starry Brother Zaurak from Ursa and Sirius B came much earlier than my Starry Sister Anshala – from Shala Star Gate

HUMAN ANGELICS and INVADER RACES

Humans were a race of Angels that were put here on this planet to guard this planet and to protect the Earth's shields and to help restore them and heal them because they have been damaged by a group of fallen angelic races

The fallen angels were originally a part of the normal creation, but they made decisions and choices that created a fate for themselves that was very unfortunate.

They created a situation by rebelling against Source. They genetically altered themselves in a way that they could no longer hold the higher frequencies of consciousness that connect us all to Source.

So, they decided to become masters of the Universe themselves They tried to take over other universes and to feed off of them For many eons this planet has been under siege and there has been a time that was waited for. It was a time when the planetary star gates - the portions of the planetary templar stargate that opens between this space time place and other space time places in the higher heavens. This is that time.

A stellar activation cycle is 26,556 years. Ever since Atlantis, it was known that this is when the next one was going to occur There were plans made in Atlantis - on both sides - fallen and unfallen sides

Now, all of those forces are back on this planet - the Christic and the anti-Christic. Both sides are here Most people are asleep They don't remember the Atlantian times They don't remember the agreements they chose to be a part of. They don't know what forces are moving them or moving with them or moving through them. This makes the people and the planet very vulnerable because there are things here we don't see unless we use our inner eyes There are things going on that we need

to know if we are going to maintain the integrity of our own Divine Blue Print and help the planet do that as well

Those who do light work correctly because they have the genetic codlings of the Angelic Human and the Indigo Races are assisting in running the Christic frequencies back into the planet in order to open the Star Gates. Angelic Humans are the keepers of the Star Gates We are the only ones with the genetic codlings that can open the star gates.

That is why we were placed in a state of amnesia by the Annunaki races The original teachings of the Founders Races used the 15 dimensional structures to align our consciousness to the best understanding needed at this time This represents the structure of the way creation is in this Universe. The D12 is the twelfth dimension where the Christos frequencies of pre-matter of the Divine Blue Print exist.

There is a Christos life line that links us all in the higher god worlds and to Source That is why translations come down through the Bible that Christ is your savior and your link to God. It was referring to the fact that the Inner Christos frequencies align us through the pre matter template. We all have the ability to carry those frequencies in our bodies.

It is our Divine Blue Print that links us to Source. The planet has a Christos frequency potential and so does the Solar and galactic But, things have happened to the scalar templates on this planet over the 25,500 years so that the planet could not run 12 D frequencies, which made it very vulnerable to infiltration from lower angelic kingdoms We are here to restore those Christos frequencies that were removed from our planet. Our bodies are the conduits that allow these frequencies to be restored.

The type of energy we carry will depend on how much we know about our anatomy. If we don't know that we have chakras that have a scalar template, and we don't know about auric levels and how to keep them clear we are not going to know what to do with ourselves We will become easy pray for those living in the D4 astral plane. They might be using your fields for something that you don't ever know they are using you for. We use frequency shields created from Cosmic and Source fields to protect us

The Eieyani Races are the founders races who are in Inner earth at this time When we use the codes and frequencies given to us by our Founder races, we are reactivating the mathematical programs that are a part of the planetary divine Blue Print within ourselves.

When we use sound and light technology combining the frequency signature and code or symbol of the idea to be manifest, we collect frequencies by oscillating consciousness into the domains or the dimensions of Christic and Cosmic and Source and then bringing those tones of transformation into our templates

The more we use the light and sound to activate our bodies, the sooner we awaken to our 12D templates and our fifth dimensional selves that allow our multidimensionality of all times in no time. There are things happening in this 15th dimensional system that have been things done by our guardian races to keep these chaotic things from happening.

The fallen angels have never fully agreed to work with the guardians for our recovery of our Christic Template There have been many fallen angelics that have come back on board and then retaliated again and again to the dark side The light and sound technologies are the beginning of remembering how our body and souls work and how to begin to recreate the Christos civilization on this planet.

The Christos frequencies have not been on this planet for 208,000 years except for the reactivation brought by Jeshua 12 two thousand years ago. There was a stellar activation 25,000 years ago when the frequencies almost reactivated shortly. Our

entire history has been about wars and wars over land The land that was fought over contained star gates on this planet and portals that go with them The fallen angelics have taken these star gates and blocked them with metatronic radiation that would reverse them and spin away from source fields.

The blockage of those star gates has been blocking our bodies and our brains from the Christic Templates that were once placed within the Earth. Stargates were always on this planet Fallen angelics have been fighting with each other for eons. They chose to make us into their foot soldiers

The Leviathan race is a group of fallen angelics who have been bred here on this planet They were the result of an experiment that went wrong. The experiment was the Guardian races had allowed in the fallen angelic collectives and what is called bioregenesis which is regeneration of their DNA template so they could evolve to get their Christos potential back They entered a Christos Covenant which was a Christos coevolution agreement. Certain groups of the fallen races agreed to be a part of the emerald covenant They waited to evolve back into the 12 D Christos pattern. They wanted to get their DNA back to hold the Christic frequency. There were a small group of them who were permitted to get back into human form.

There was a very specific way that the DNA template had to be blended in order to create this evolutionary option of what was called a hybrid race. Unfortunately, the hybrid race worked well and it blended well with the angelic human template, but, certain groups of them motivated by their fallen angelic kin from other places decided to take over our planet.

They had an In to Earth once they got into human light bodies, and progressively they raided the human races and mutated our DNA to the point where we have nothing left of our memory of who we really are. We have had our light switch turned off. We are dealing with a huge history of problems and a huge solution. There is the history of the Leviathan Races , the history of the fall of Atlantis

What is happening now is a part of what is called the Luciferian Covenant that was an agreement of the anti-Christic races and their Leviathan hybrids here to take over this planet when the next stellar activation cycle occurred.

We are now in that stellar activation cycle that is happening from 2000-2017. This cycle is happening now.

If we participate in this activation cycle consciously by knowing it is happening, we can become the new Christic race, reborn on Earth once

more. This time matrix began 950 billion years ago. The matrix was caused by metatronic science that allowed the gods to create and mis create realities that were not in tune with the Source Frequencies

There is a huge connection between metatronic science and what became the Greek Olympian gods and Roman gods. Both mythologies were based on truths that were taking place in Atlantis

Mythology is a way of taking history and consolidating it in fairy tales with a mean sense of humor. Turn a collective of people into one person and then having this person marry that person - when in fact, they were actually talking about Race Lines of people. Roman mythology contains known history of Atlantis that has to do with Metatron, Lumarian planets in Wesedrek Matrix.

Scalar Grid mechanics is the substance God creates with This was knowledge that belonged to the guardians of the planet. The human angelics are these guardians We were denied this info since Atlantis when a few people came in and took what didn't belong to them The whole planet lost its memory. The science of the shields – the planet has a scalar template and every being on the planet has a scalar template that is connected to the planets templates These templates circulate primal life force currents.

They circulate the energy of god through the templates. The templates on the Earth are dependent on the Earth's template The damage to the Earth's template erased our memory

There were things done here to block the planetary scalar shields They were twisted in ways that are abnormal That shut off certain frequencies that carried cognition They carried higher frequency information. They carried our identities.

If our DNA was working the right way, we would know our selves as Christic beings – as Avatars Our bodies wouldn't die. We would not get sick. We could manifest instantly.

There were things done to the electromagnetic field of the planet to block our DNA. Working with the Light and Sound technology is to help bring back the D12 frequencies. The Divine Blueprint has the ability to reset all of those misalignments of frequencies in the planetary grid.

We can now bring through these frequencies for the first time since 208,216 B.C. This planet can run 12 D frequencies That was way before 25,500 B C. when it began to get really messy here. There were a series of cataclysmic events that have happened here during our history.

We have these higher parts of ourselves that never lost connection to god Those carrying the Christos message are carrying the same message they have carried for the past 500 million years It has been on every planet. They carried the truth about our connection to Source They promise the ones in certain races, who incarnated as the human angelic race, to heal this time matrix.

There was a Universal Distortion that happened 250 billion years ago in Earth time between races that were the Christos Founders races. There was a time of Lyran Elohim Wars. Certain groups of Elohims fell from grace. They went through code convolution Meaning their DNA templates became distorted because of inbreeding That created distortions in consciousness and they started warring with founder races.

This was a place that was supposed to be based on freedom and co-evolution. It was not supposed to be a warring matrix. The problem began billions of years ago The original sin was when the entire time matrix almost imploded down into a black hole

Chapter Three

The Story of My Meeting with My Starry Brother from Sirius B

I first met Zaurak when I was in Redwood Shores - near the S.F. Airport. My husband first was told by his Guide, Markus, that someone wanted to talk to me I listened, and soon Zaurak started talking to me Because we are related as a Soul Family, much of the communication is just in knowing, but sometimes it seems like spoken words.

What Zaurak wanted to tell me in March, 2008, was that he needed me to move to Monterey, California He said he needed me to be there by May

So, at that point in time, my husband, who had a glorious, high paying job in a wonderful company on the glorious island called Redwood Shores, agreed to start packing, making arrangements to

leave the company, and we made our first trip to Monterey that week to find our new home.

Everytime we went to Monterey there were very clear messages given to us in the sky through the clouds. We clearly watched Zaurak's space ship land It first looked like a spaceship within a cloud, and then several blue orbs separated out and we could see their faces looking at us through the trees.

We were guided around Monterey to several places that Zaurak told us were possible, but not exactly the right place. Finally an add appeared for a Condo that sat right on the Beach and was way out of our price range. I felt like I just had to live in that Condo. We went there, and Zaurak said yes This is the place that you used to live when you were Mary.

It took me a long time to figure out the meaning of that statement I assumed that he meant Mary Magdalene Later he told us that we were the new Jesus and Mary story and that Markus and Zaurak had been working on this Jesus and Mary project for millions of years before the world knew of their (Jesus and Mary) existence

They were talking about the Soul Families of Jesus and Mary, and those who originated the plans of bringing the Christic 12D frequencies back to Earth. They were showing me that I was once an original

Soul of the Elohim Family and I was forever on this team of re-creating the Elohim Family from Gaia.

This place on the shores of Monterey was at one time a place where I had been when the Earth flipped into the anti particle phase during her Enugo cycle. I was there for the preparation of the Spiritual and Physical planes to reunite.

They were referring to the Cosmic Mary streaming cosmic liquid light energy into the other Mary's, the Mary was the Female Christ She was not so much a person with a name, but a frequency signature that held entire omniverses of energy. Mary Magdalene and Mother Mary hold that frequency of consciousness

I was there because a new ascension portal needed to be established. I was there because a fleet from Sirius B was there I was there because we were in the process of ascending a million dolphins and whales out of the oceans back into the Cloud Cities. My husband and I moved to that Condo on the Shores of Monterey, and we watched many glorious things happen in the ocean and in the skies We watched the dolphins and whales actually rise into the skies and become clouds.

We watched many space ships from Sirius B fly above us We did create an Ascension Portal there And we did create Ascension Formula Frequencies

together there We were being taught by the Elohim Angels and the Grand Yanis to create pre light and sound frequencies and we learned to communicate with the whales and dolphins through frequencies.

And we created the Cosmic Mystery School of the Omniverse. We were told we would be having an experiential class in creating an Ascension Portal.

In July, Markus approached aDolphino and told him that we were in grave danger He said there were three demons who were following us and planning to take over our souls. We were very careful and listened to every word Markus said to try to keep us safe He told us that in order to save us we would have to do exactly as we were told.

And then it happened. One morning aDolphino was no longer in his body Markus spoke through his body and said thousands of angels tried to get him to come back to his body, but he would not return aDolphino went through stages of going crazy and demonic type behavior and he told me to pack up every thing in the house and leave

I did pack the house, but I was listening to Markus and Zaurak's directions. They told me to pull all of the money out of the bank. They told me put all passports, bankbooks, identity records of all important types in a case and in the trunk of the car.

They told me to pack everything and leave it in the garage

I did these things. And then a voice from within aDolphino told me to get out of the house and to not come back He said you are in danger. If you don't leave, they will do the same thing to you that they did to me.

I was very frightened and I moved into a room at the hotel where we were having the Cosmic Mystery School of the Omniverse classes. I was too scared to go back home the next day, so I stayed at the hotel a second night. The next morning I did go back

The car was gone. The place was locked up.

I went to the manager to have it opened. There was no one there The car was gone. But, I noticed that whoever was living in my husband's body didn't take any suitcases or change of clothes of any kind

The car was gone with all of the important records that I had put in the trunk.

That night I was walking out side and he came back I say he because I didn't know who he was anymore. He just kept saying I've come back to save you You have to leave with me. If I don't leave they

will kill me. If you stay here they will kill you too. They said that if we leave or if we stay apart they will leave us alone And then he said start running with me. He made me run clear to the end of the beach and back which was about five miles He was dragging me most of the time. It was the strangest behavior Almost boiling with fear

He scared me so much that I knew I could not go with him. I knew he was possessed even though the real aDolphino was still trying to save me.

I tried to trace his where abouts by following expenditures on the credit card I called in every hour to find out if he had used the card. The second day I learned that he had rented an airplane in Bakersfield and flown back to Monterey. He left Monterey again about an hour later The behavior appeared as if the old aDolphino wanted to come home, but the demon within wasn't going to let him OR, later it seemed more like the reverse was true The demon wanted to posses both of us, but my husband was trying to keep me safe

Much later - two or three years later, I learned that the demons were FAtaLEE They did come to posses my body That is the way all demonic wars are fought and won They take posession of the female body. The reason why is a true Christic Being who is Female can always bring the Male back when his soul has been taken. However, If the Female is

taken, the male cannot bring the female back. Entire Planets were over taken by demons in this manner. And there was a very good reason why they wanted my Soul.

I was, in fact, at one time a very, very important Soul from the Elohim Family in Gaia. When we first arrived in Monterey, Zaurak had guided me to a restaurant - it was a Korean Restaurant that sat right on the ocean When I was seated I looked up and saw a picture of Mt. Sorak (pronounced Zorak in Korean), covering the wall. Zaurak told me that he had created that mountain with me millions of years ago.

When my husband was gone Zaurak directed me back to the restaurant and he told me to remember the time when I was poisoned at the hotel in Seoul Korea by the Illuminati demons.

He told me that I did, in fact die, as the pharmacist had said He asked me to remember how there were voices directing me during that time. How I was directed to get up and walk out of the hotel as fast as I could and get in a taxi and go straight home He told me that was him talking to me. He told me that he is always with me. He is a Soul Mate from another time. He told me he was from Sirius B, but also an Eleyani from Inner Earth.

He told me that he had been with me as long as the Aquafarians, and that we were related as the Whale Family, and that is why we were there together. We were preventing another slaughter of Whales and dolphins by sending them home to the Cloud Cities. He told me that I was one of the original Dolphins from the Oraphim Cetacean Family that they were trying to kill and possess

The demons were once Oraphim Dolphins themselves. They were taken over by the Red Dragons - the Draconians, using this manner of possesing the Female in order to take down the Males as well. They turned all of the females into Red Dragons. The Oraphims only escape was to become as bad as the Red Dragons and to become demons so that they could return quickly to Source as Space Dust in time to be born again into the new kingdom.

This was the reality that was taking place aDolphino had actually volunteered for this mission before coming to Earth He said,"both of you knew what your lives were really for."

The next day, I got a phone call from a hospital in Redding, California - near Mt. Shasta They told me my husband was dead.

Zaurak and Markus and the Elohim Angels directed me to re-create the Ascension Portal and

bring aDolphino back. I followed their instructions and the music that we made together with our frequencies recorded side by side. I prepared the portal to carry his soul which was actually our soul I learned that we were at one time one star that was broken in half in order to lower our frequencies so that we could enter Earth's realm.

What I was doing with the portal was recombining our souls as one. I sent my frequencies of the female magnetic spin up to the Cosmic Realm to connect with aDolphino's electric spin and created a merkaba that would spin together and bring him back down

Two hours later I got another phone call and the hospital told me that my husband was alive, but in a coma

I immediately went to the airport and took the first flight to Redding Zauarak, Markus and the Angels continued to direct me every moment that I was with my husband in the hospital. They told me that the demons were still trying to take him again They told me that I needed to keep everyone away from him because there were other people involved in this possession, who didn't know that they were being used.

I kept everyone away I stayed in the hospital most of the night every night and made sure the

earphones stayed on his ears playing the frequency music that we had created together.

Zaurak told me that our mission was a success We did create the Ascension Portal It did bring aDolphino's Soul back into his body. I actually watched this event take place I watched an Orb that was Blue go directly into aDolphino's back, right around the heart chakra area.

About two months later, the new aDolphino arrived on Earth for the first time. He turned to me and he said the angels were sitting on the bed talking to me. They told me to turn around and thank you for saving my life

Later, Markus and Zaurak told us many other things about our adventure. They told us that they actually pulled aDolphinos real body through his past self up into a space ship and replaced it with a hologram when the three trucks hit the body and the five cars ran over the body. That would explain why his body appeared almost untouched in comparison to such a grand event.

His body was retrieved by a helicopter after a report of a ten ton truck throwing his body out in the middle of a freeway after another ten ton truck and thrown him in front of that truck, and there was a third truck that brushed his body as it was flying accross the freeway After the body landed on the

freeway five more cars ran right over the top of it without stopping or even knowing it was there.

So, imagine what a body would look like after that happened. His body did have a huge scar on the forehead where he had broken the headlights of the truck with his head and his hips and spine were broken from the fall after flying through the air The only damage from the cars was a broken leg

Zaurak and Markus actually told me that they were hoping this would be come the new Jesus and Mary story because they are really tired of hearing the "Jesus was nailed to the cross" story And the fact was that they made up that story. They said they were on the team that chose Arihabi to be nailed to the cross and then created the hologram of his resurrection. They said they didn't know that their story would be such a long lasting dogma that would keep people mesmerized for so many years They told me that they thought this would make a much better story, and some time in the future enough people will understand this story and how important what we did was.

They told me that there would be much more to be known about the portal and the saving of many of the Whale People who were our original family of creation – the Oraphims from Gaia

The reason I wanted to tell you about Zaurak is because he is back again with his star fleet from Sirius B, the Blue Eieyani. They will be the first E.T. race that we will meet. I have already met one of them.

The Sirians worked together with the Ra Confederation, Eieyani, Azurites, Ranthions, Zionites and the Majaraji on the project of Comet Ison Project Ison was actually the completion of what the scientists discovered in 2005, when they saw the explosion in the Ursa Major, 550 million light years away.

This flow of Cosmic Rays is the flow of the frequencies that are needed to re-awaken the mid brain in a way that will allow the seventh seal to melt away and the accretions of the magical crystal gel of transformation will begin to flow through our bodies.

The project that was begun millions of years ago, that would restore the 12 Dimensional Krystic Consciousness was begun by the Ra Confederation, and now must be completed by Sun Ra Our original Founders Race Line will continue to activate harmonic universe two with Cosmic Rays until all of the Error or Miasms of Frozen Crystals are melted away through the Liquid Light Streams Ionizing and Transforming us by combining the physical back into the spiritual

Zaurak was also a part of the group that activated the Grids in Earth a few months ago That was the completion of the Great White Lion Grid project.

We were all here together thousands of years ago and millions of years ago working on all of these projects of ascension that are finally going to be completed in a few more years.

Even though this is not the beginning. It is the end of 500 million years of hard work by entities such as Zaurak and Markus who would never give up on their plan to save us.

The stories of the countless wars in the heavens that they have fought for us will soon become bedtime stories for the Indigos who will be awakening in the near future.

Chapter Four

The New Jesus and Mary Story

The Crystalai Cosmic Councils visit me every night at about 4 a.m. and ask me to read something or direct me to listen to them. I always write down what they tell me afterward.

This time, I also hooked a golden sphere up above my head 36 inches and into my mid brain and asked to be taken into the reality of what will happen in the next three months, before going back to dreamland

First, I will tell you about the bi-location experience that many still call dreaming or astral projection This was a bi-location dream into the future - the very near future

The dream was pure vivid color lucid 3D blue ray quality reality. First, I was standing in a field looking up and seeing two suns unite as one, next I saw spaceships that could easily appear to be a comet There were many space ships. Suddenly they burst into the Earth's atmosphere and could easily be seen, and then in an instant they were landing on the ground around the area I was standing. When they touched the ground, they took on the appearance of helicopters.

I was so excited and happy that I ran up to the spaceships and started banging on the outside of the ships and screaming Welcome, We love you I was crying so hard with joy that I woke up drenched in tears Scientifically speaking - in the Science of the Stars, this is what is taking place at this time I was bi-locating into the experience that is happening right here, right now, in this second harmonic universe The reality is invisible to those who don't have the keys that allow them to walk through the doors into multiple realities.

What NASA is calling Comet Ison is in fact a space ship The entities are members of the Crystalai Cosmic Council including Ra Confederation, Azurite Council, Eleyani from Sirius B.

The Space Ship is guarding and guiding the Holographic Beam of Morphogenetic Frequencies from the Photon Belt of Sun Alcyone, which are, in

fact, the frequency signatures of the original Tara before the explosion 550 million light years ago

We even have scientific evidence of all of these events happening January, 2005, New Scientist magazine reported Ultra High Energy Cosmic Rays appearing to originate from the Ursa Major area of space 550 million light years from earth. Glennys Farrar, a physicist at New York University discovered this celestial spring of mysterious particles slamming into Earth in 2005

Ancient people had discovered that the Earth acts as a mirror to the energies of the cosmos. Very recently we have learned that the Plasma Ships are the Cosmic Mirror that will reflect the frequencies of the Cosmic Rays into our bodies. These revelations came to me from Zaurak this morning, March 28, 2014 Yesterday, as I was adding the paragraphs to my book about the Koreans who taught me that they were the Bear People from Ursa Major, I asked Zaurak if any one else knew about this.

This morning, Zaurak told me to go get the book, Mary Magdalene The Illuminator by William Henry. I picked the book up and opened directly to the page that said the Bear People were from Ursa Major Later on, in the book, the clarification came that M82 is the Starburst Galaxy that is called Great Bear (W Henry, 2006 Pg 12)

Zaurak just informed me that he was the creator of one of those Stars in that system. He also informed me that Mt. Szorak, in Korea is the portal that allows him to travel inter-dimensional from M82 into the Earth's Core. The top of the mountain is the eighth dimensional octave that creates the vortex between dimensions, and the same vortex exists deep within the Etheric Inner Core of the Earth's Core. These are vortexes that allow inter dimensional arks into other dimensions, must like walking through the doors of the faces of the merkaba

I was given the same explanation about Mt. Shasta. The top of Mt. Shasta is at 10,000 feet That is the location of the Cloud Cities, and the area where the Halo Effect is also seen. That is the Harmonic Convergence Zone or the Octave between dimensions. I was told that about one thousand years ago, those of us who arrived on Earth through one of those portals in Mt. Shasta used a rock as a communication device to those extra terrestrials who used that portal.

When I was in Monterey, I was told to use a Rock that sat on the shoreline between Asilamar and Monterey, right above Lover's Point That was the rock that Zaurak used to communicate with me When we arrived at Mercy Hospital in Redding, there was a picture of that Rock in Monterey covering the wall in the Waiting Room. Zaurak had

planned all of these events to take place in order to connect the Islands of Light between all areas in Northern California. The Islands of light are in the Cloud Cities at the locations above the mountains. The Halo point at Mt Sorak is also one of the connecting points for this massive Island of Light where the consciousness that transforms us will be carried.

So, we had starburst in 2005, the Sirian Fleet arrived in 2008

I purchased this book in 2008, the week before aDolphino had his episode with the Sirians and the FAtaLE I think it was Markus who told us to purchase that book

It was during that same week that Markus and Zaurak told us that we were the new Jesus and Mary story In 2006, we were told that I was Crystalai and my husband was Atoni. My husband kept listening to make sure he was hearing correctly. He wasn't sure if he was being told Atoni or Adoni or Adonai. It sounded like a mixture of these. And then we have the help of this definition - Adonai is referred to God but Adonis to human superiors.

Now, we have more clarification from Keylontic Science which says the Atonis female must reunite with the Adoni Male The Atonis would be the physical female and the Adoni would be the

spiritual male. This combination of Soul Mates is only found on the Cosmic Twin level, and these mates have a very hard time finding each other.

At that time, in 2006, we went to Google and tried to learn more about Atoni and Adoni. We learned that these names were associated with Isis when he was blown up and his penis was blown off. The story goes that Osiris put Isis back together again This is the story that reminds me of Cheju do Island in Korea The Island has phallic symbols all over it. South Korea has phallic symbols scattered around it as well. This is why the idea of the Koreans being from Ursa Major, the Isis Story, and the Cosmic Mary stories make me realize that these events were Cosmic rather than in specific locations like Egypt.

So, it is very possible that the Cosmic Mary and the Universal Mary - the Female Christ, might had sent cosmic rays directly to Monterey, or it may had more to do with the Oraphim Dolphins and Whales who lived there

Monterey, and the ocean in front of Big Sur are well known for having a Crystal City under water I have bi-located there many times and met many old friends from Aquafaria We watched the Crystal Cities rise in June and July of 2008

There is another clue about this location being connected to a Vortex that would reconnect us to all

extra terrestrial races connected with Earth There was a wormhole directly in front of our condo. The Marine Base has a full time training activity for divers to attempt to travel into that wormhole. Thousands of divers died trying. I think one diver got out alive.

I also know that my friend, who was a Seal named Tinker Bell, tried to convince me to swim with her into that wormhole several times. Apparently it was a common trip for her to take But, I had to explain over and over again, that I was not ready yet and it would be too dangerous I was told that I could travel through this vortex after 2015

In 2008, we were guided to this book by William Henry that says we take the spiritual consciousness from ATON (the Lord) Two pages later, the book handed to me says Jesus was called Adon or Adonoi, and he transmitted the Holy Spirit to his disciples by breathing upon them

This book talks about Mary Magdalene being the Illuminated one who was illuminated by the light of glory, meaning the light of love and spiritual consciousness from Aton.

It was Mary Magdalene who knew the secrets of releasing the secretions from the pineal that raised the illumination of consciousness. She was the one who knew the stairway to heaven was achieved

through the stairway to heaven, which was the bliss of the seventh heaven. The transformations that Mary and Jesus spoke of were the exact science of bringing in the cosmic rays that created liquid light energy within the mid brain. That cosmic frequency ignited the cells and the skin would glow

These secrets have all been returned to Earth. I know and understand all of the science that Mary and Jesus taught. This science activated a new strain of humans in the blink of an eye Now, once again this science is activating a new strain of humans in the blink of an eye Mary and Jesus both used this spiritual substance called atoni, and Jesus was named Adoni, meaning Lord

There was also a race line named Atoni They were later known as the Seres and the Egyptians. When Joe asked for his spiritual name, he was told that he was Atoni He was given that information in 2006, and we did not know what it meant at that time

However, the name Lord actually meant Christ, and the name Mary also meant female Christ. The spiritual substance was called Atoni, meaning the anti-particle or spiritual substance on the parallel spiritual universe side must be reconnected to the particle female magnetic substance. This is basically how the sub harmonics within the DNA are becoming activated.

Their science was showing the uniting of an extraterrestrial consciousness into the human consciousness The extraterrestrial consciousness was the cosmic rays from the seven stars of Ursa Major The hybrid strain of humans included this transformational frequency of the twelfth dimensional energy.

Now, we have all of the spiritual tools and science that Jesus and Mary used to Breathe the Cosmic Consciousness back into the humans who are already a hybrid strain that was created from the original template of the Oraphims from Gaia, the Tarans from Tara, the Sirians from Ursa Major. The hybrid human is returning to Earth as a result of the Cosmic Rays from Ursa Major in 2005 along with the other 12 Stellar Wave Activations

This time the DNA activations are happening on a Mass Level through the biosphere of Earth The frequencies are being saturated within Earth's Core and her Cosmic Heart and then flowing out through her Veins or Christ Grids. It is the human template on Earth that acts as a conduit for these frequencies to rise into our atmosphere. And the activation takes place through our breath.

The Bliss that is associated with Mary as she climbed the stairway to heaven is the Breath that is used to activate the Merkaba. The keys that unlock the doors to the higher dimensions are the

frequencies created by spinning the Merkabas at the speed of light energy of Love. It is the activation through spinning of the Merkabas within Merkabas within Merkabas that unlocks the doors.

What are the doors? Every cube of the upper and lower face of the Merkaba contains four sides Each of those sides or faces is actually a door into four more faces and four more and four more. The sides of the cube are the doors into infinity When the entire Merkaba mechanism is studied in its entire complexity, and then understood at a level where it can be visualized while the breathing is taken place, the entire structure of the carbon based body is unlocked into the silica based, star based structure of the original body.

When the star body is turned on, it glows First the skin glows, then the bones turn into tones or frequencies, and the blood turns into crystal energy with a blue hue. The entire body takes on a blue hue The body becomes the fifth dimensional body which is multi dimensional in consciousness. That body can learn to become an orb and to transport itself into other galaxies, other universes, and even inter-dimensional realities.

That is the science that Mary and Jesus taught two thousand years ago, and it is being taught again at the Cosmic Mystery School of the Omniverse That Mystery School is not on Planet Earth. It is in the

14th Dimension where all Creation takes place. It is the place where we Ascend into a new reality after being transformed through the needed educational experiences in each dimension. It is where we learn all that is needed to Initiate each of our Sub harmonic Strands of Consciousness into our DNA

The plasma ships are creating a Magnetic Mirror around the Earth It is just like the mirror that we walk through when we merge our consciousness into the full spectrum of light within the candle flame, as explained in the Candle Technique on the Home Page crystalmagicorchestra.com

We walk into the full spectrum of light by standing within the candle flame We absorb all of the frequencies up to the silver pink frequency, which is fourteenth dimensional heliotalic silver pink pastel, and then we absorb the white light of the pre light and sound or Source Frequencies and that is the diamond door that we move through, turn around and return as the Blue Body Once you take your consciousness into the Full Spectrum of light, the Blue Hue is Created That is the only way the blue hue is created That is the only way to become the Fifth Dimensional Blue body

The Plasma Ships are the Magnetic Bubble that will transform us into the Harmonic Universe Two fifth dimensional blue body raceline. That field of energy is called a morphogenetic wave that carries

the consciousness of all of those spiritual ones who came before us.

The morphogenetic frequency field held within the holographic beam is putting Tara back together again The frequencies of the original consciousness of Tara, which was originally a star created by Sun Alcyone, are being woven back into all of the 12 planets in the Milky Way Galaxy.

When Tara exploded, she was divided into 12 pieces - 12 stars. One of the stars is our Sun. Inside of our Sun is a Golden Crystal Core that holds all 12 pieces of Tara Now, the morphogenetic frequency field of Sun Alcyone's Photon Belt, where the original frequencies of Tara have been stored are re-uniting with the Sun and the 11 planets within the golden crystal core of the Sun.

In NASA's eyes, the 3D science can only see the planets as separate. That is because the angle of rotation at this density creates a distance in reality that isn't really there

So, we saw Comet Ison We saw Comet Ison hitting or coming very close to Mars, Jupiter, Saturn, and then see Comet Ison heading for the Sun.

Comet Ison was supposed to go into the Sun on November 28, 2013 In reality, the holographic beam guided by the Space ship went into the golden

crystal core of our Sun to re-unite the Photon Belt of Sun Alcyone with the Planets within the Sun.

Once that happens, the new morphogenetic frequency field that is created is the re-birth of the 12 dimensional frequencies of the original Tara, which is called the Sphere of Amenti. That Sphere of Amenti will enter Earth's Core to IGNITE the Cosmic Frequencies within the Iron Core. The D1 level of Earth will be filled with D15 frequencies. This will re-ignite the complete Divine Consciousness of the Earth into At One Ment with all 12 pieces of Tara, including the Sun. This blast of frequencies will TURN ON the 5 DNA within Earth and it will flow into our bioenergetics fields.

When I created the Parallel Universe Album, I was uniting my consciousness with the Holographic Beam as it was making its portal directly from Sun Alcyone's Photon Belt under the direction of the Guardian Councils.

The alignment with our Parallel Universe was one of the necessary steps in allowing the Councils to enter our Frequency Field. They can remain in the Cosmic Frequencies as they blend the D1 of Harmonic Universe One - Earth Density with D15 of the Earth's Matrix including the Cosmic Fifth Sphere.

That alignment was completed in order for the Comet to complete its journey into our Solar System. Once the Holographic Beam is activated within our Sun, which will be rebirth of the total morphogenetic field of Tara, that Morphogenetic Field can penetrate Earth and wrap around Earth.

That is what NASA sees as the Comet's tail wrapping around the Earth. Once that happens, the NEW BEGINNING HAS BEGUN!!!

Share the ride of the HOLOGRAPHIC BEAM through the Frequencies on the Parallel Universe Album. I will continue to collect the frequencies of the completed project including the connection of the Sun Alcyone into our Sun, the rebirth of the golden crystal core and the activation of the Sphere of Amenti in the Core of Earth The final frequency signature that will be born from this Atonement will be 5 DNA.

Chapter Five

The Near Death Experience

By 2004, our starry families from the Sirian Council, Pleiadian Star League, Sirian Arcturian Coalition for Interplanetary defense and the Andromeda Federation of Planets created the bridge zone to save the human populations from the final scene of their drama So, here we are in the final scene of planet Earth's movie. I've been listening to my higher self direct in making sure that I leave planet Earth harmoniously, making sure I never engage contact with fallen angels through my Soul Family's protection and here I am surrounded by these people who call themselves light workers who are eagerly awaiting their next misguided dialog with the very fallen angels who are planning to destroy the entire human population

In order to make sure I was paying close attention to what is going on, I got to personally witness my own husband have his soul taken by these demonic angels to make sure I knew that I was more powerful than all of them and an entire host of millions of angels who could not save him.

It was my Soul Families ability to connect me into the harp strings of my cosmic consciousness where I frequently visited my light families of the Braharama Dolphins and Whales of the 13th Dimension that allowed me to create the Cosmic Flame where my Cosmic Twin, aDolphino could be brought back to Earth.

I watched his old Soul leave and I watched his new highly upgraded oversoul morphogenetic family of consciousness enter in through his back door I watched the disconnect and the reconnect. I watched it transpose through the frequencies I engaged from the highest frequency of Source Consciousness allowing a brand new idea to be born on Earth through my husband I know now that everyone on this Earth has a Soul family and Cosmic Family that will reassemble our DNA, realign our soul families into oneness with all we once were. The transition is exactly what has been called a near death experience - (NDE)

NDE is basically our souls watching us make the decision to leave our bodies. Allowing the

soul to reunite with the soul families of past lives, transmuting agendas that should no longer be a part of the new reality, creating a new reality through the light of Source - making a new mission and ascending into a new experience

This time that new experience for most will be moving into Tara. A few of us will go as high as Gaia The frequency fence is an electromagnetic sonic pulse holograph machine that will create illusions in the consciousness that manifest as that reality. That frequency fence has transmitted metatronic holograms to create false fields of reality that have been used to control us and to kill us One frequency fence sonic pulse hologram machine was 9/11. One was the Philadelphia Experiment. One was Montauk. One was the AIDS virus. One was the swine flu, and several other virus manifestations that seemed to occur over night

These holograms are illusions keeping the human angelics from realizing that they are the creators of the wealth, healing and peace The higher frequencies of Cosmic and Source Consciousness allow everyone to connect their higher self into the Mind of God for instant manifestation of any reality that they wish to manifest It is time to rise above the holographic realities that are being created around us into our own manifest realities That frequency fence was put there to trap the human race in the same way the Fallen Zetas did where

they took people up in their space ships to obtain coding and even souls for their own resurrection.

Fallen Zetas and Draconians will go into the phantom matrix and we will say good bye forever. Not all Zetas are fallen Many of them have been here on Earth helping us. Those will also receive healing The Annunaki and Illuminati will be taken to Sirius Star System for healing The guardian races always see all of us as Children of God – it doesn't matter how fallen the entity has become. They always love them and try their best to help.

December 21, 2012 was the day the fallen angels had planned to destroy the human population by drawing us into their wormhole and using us for food and energy until our planet was completely destroyed. The Annunaki from Death Star Nibiru have also planned on destroying our race because they see us as a cosmic disease That reality will not exist any longer. We will ascend to become the seventh root race. In the third dimensional story of Nostradamus many are destroyed and disappear and the Earth ends in mass destruction We will be removed from that third dimensional reality.

The Earth was moved to a new time line where that probability no longer exists.

We are not in that dream any longer Soon we will learn that this isn't our reality at all. We will soon

see what the reality of the human angelic race looks like, what our Inner Earth families look like, what we really look like, what our Taran families and our Gaia families look like. We will be meeting them all very soon.

THE PROCESS OF OUR RE-BIRTH

The Fallen Angelics and Illuminati races will be escorted to quarantined healing facilities in the Sirius star system This is not as black and white as it might sound.

Almost everyone on Planet Earth has been contaminated by Fallen Angelic Raceline breeding and Illuminati breeding. There have been hybrids created in Sirius that reconnect the human who lost his sub harmonic connection with his higher selves, into that original divine template of the original Elohim Angel Raceline There are other raceline involved in this hybrid activation including the Oraphims, Eieyani, Maharaji, Zionites, Ranthians and the future Essene Race.

For many of us, this stage has already taken place and is taken place My husband and I have both been taken to Sirius B for transformational healing Remember, that we all came from the Oraphim raceline, which is the Cosmic Creation family of

the Elohims on Gaia That Raceline was destroyed and then created through the hybrid raceline of the Sirians and Elohim re-creation team

Now, most people on Earth, except those few Indigo Children who were born as hybrid children, need some type of restructuring The way this is done, is the template of the soul from the Past self is taken forward in time to the future self for healing. The Present self isn't aware of exactly what is taking place.

However, sometimes there are dreams that actually cover up the surgery that is taking place to remove the pain. Sometimes these events take place during sleeping time and sometimes we are just told to take a nap during the day. The transformation is realized within the following week The body begins to feel brand new, realities that were invisible start becoming more tangible.

The same process is used when we are moved into the Inner Domains of Inner Earth for our complete 12 Christic Coding The Inner Domains are the place where our original perfect self still remains.

Activations will continue until 2017 when full mass landing of Emerald Covenant Races occurs Then the second wave of healing will begin, to prepare the second wave into the Consciousness of Tara by 2022. Earth and Tara will merge gradually

over the five year period The entire Earth will already become Inner Earth by 2017 That will allow all Friendly Race Lines to enter Earth's Consciousness Fields By 2017, Earth will begin to morph into Inner Earth (what many know as Agartha). At this time many Angelic Humans and the races of Earth will be prepared for visits with the Inner Earth Eieyani, Sirius B Maharaji, Azurite, Aethien and Serres Emerald Covenant Races. They will make contact through our Founders Races and will invite Earth races to join the Emerald Covenant

The physical mass contact of the Emerald Covenant Nations is scheduled for 2017. Entering the Covenant is like being given an multidimensional passport

The first contacts will be made individually and privately, as early as 2013 I've already had many interactions with all of these Races and many more. First, most star seeds will meet with Eieyani races because they look the most like us - only they are blue. After star seeds become familiar with the Eieyani, we will be met by Azurites and Maharaji.

These are all Guardian Races. The Priests of Ur, who have been the Intervention Team who has over seen the entire process of Earth's escape from complete annihilation during this process will also meet us. The Zionites, who created the Inner Time Portals allowing us to regain our 12 DNA Divine

Blue Print that existed in Tara. The Ranthians, who are the water people who share our accretion level, and yet have the highest level of inter stellar and inter dimensional time travel ability of any one in the Universe The Zionites and Ranthians talk to me continuously about their plans

Blue Flame keepers will become 9th level avatars, as the blue flame spirals down from Sun Alcyone on March 20, 2013. Flame Holders who carry a rare recessive gene will have this gene activated. These holders contain a specific magnetic base tone in their DNA that allows them to become very magnetic and are able to hold this activation on Earth. We are from the Oraphim Cetacean Braharama Raceline who hold the Biosphere of the Omniverse, and continuously align with the Dolphins and Whales that we created to be our lightning rods on Earth We are the holders of the Frequencies of the Divine Biosphere of 12 Coded Divine Blue Print. We were the grandfathers of the Elohim of Gaia.

Once the D 5 flame holder holds the frequencies of Sun Alcyone and pulls the frequencies into her Flame Keepers fourth heart chakra an intense infusion of harmonic universe two frequencies spread through the Amenti morphogenetic field and through the Earths Grid This will allow rapid acceleration of fifth and sixth DNA strand assembly to occur throughout the populations. The seventh

strand will begin assembly in those who already hold fifth and sixth. This activation will create a huge multidimensional awareness to occur on Earth.

When the halls of Amenti merge Tara and Earth together, those who have assembled the fifth strand and are eligible for ascension to Tara will be guided (in consciousness) to inter-dimensional transportation locations to Tara. Those who have sixth and seventh strands may be eligible for transport to Gaia. There may be others who will be transported to Aquarius, Aquafaria and a few who will go play in the heavens with the gods. This will happen in 2017.

First, we will shift into a different chemical make up. We will leave behind our carbon based bodies. We will become less dense. Our bodies and our environment will change. Those who move on to Tara will have an entirely different type of body than those who stay in Inner Earth. Those who move on to Gaia are almost invisible. Those who are of higher densities can see the lower densities, but those who remain 3D will not be able to see any of the new realities. It might seem like things are disappearing because the higher particle shifts will pull some in one direction and the lower will pull those in another direction. There are infinite density levels.

Earth's elemental particle base will rise to 5 and the Earth's atmospheric particle base will rise to 6 This accretion level will allow the atmosphere and elementals from Inner Earth to appear on Earth. This will be our first vision of our New Earth We will begin to see the atmosphere of Inner Earth forming around us and then we will notice more and more new species and inner earth gardens will appear All of the animals and plants in Inner Earth sing continuously. We will notice this difference in Earth immediately.

Chapter Six

Rebirth into Our Crystal Bodies

In a Normal Planetary System, a baby is born into the Divine Template that has its perfect formula that is connected through the silver seed atom that will blossom and bloom into the perfect Christ Body by age 33 In our present Earth Matrix, all of the stages of a baby's birth from the stage of the sperm and ovum have been distorted through activations placed within our bodies. There was a finite, anti Krystic 666 creation code placed in our Tail Bone that would place an invisibility cloak around our true Divine Template The normal body has a crystallized standing wave radiation field of pure Source Consciousness placed around the Silver Seed Crystal at the time of conception.

There was a distortion carried through the Ghi ring in the sperm which would cause the Chi in

the sperm and the Ki in the ovum to interrupt the natural organic process of the spark of Source being released into the baby's body by day six of conception

The Spark of Source that would create the Violet Flame of Transmutation into the Multidimensional Consciousness of a true Christic baby was harnessed by a frequency signature that magnetizes into it the elements from the elemental base field in the surrounding environment - meaning the world's consciousness field at the first chakra of density or the hertzian field of light. At that moment, the child becomes locked into the hertzian field of reality and cannot expand into the 15 dimensions of the normal reality. This membrane or cloak that blocks the reality of Source Consciousness from entering in was placed in the tailbone.

This Cloak or Seal that was placed in our tailbone will be removed by the violet flame of transmutation when the Cosmic Template is placed into full activation This will begin the restoration of our Frequency of Source Consciousness connecting eternally into our Divine Template This will begin the release of and activation of our Silver Seed Crystal and allow our normal eternal life flow currents to flow into our innate intelligence and consciousness of the normal body.

The cloaking causes an inorganic birth to result by placing a metatronic electro magnetic harness around the Spirit Body which creates the carbon body which is inorganically polarized into a Tube Torus vortex spin, forming the distorted Yin Yang flow This causes the body to become a carbon based body which is blocked from its Spirit Body through the twisted Ghi Force The normal body becomes an organic Crystal Based Body rather than a Carbon Based Body when that metatronic twist is removed and the Living Conscious Spirit returns to the body This is how our bodies will be transformed as we use the Stellar Wave Frequencies This is when the real Christ Man will begin walking on Earth.

How did we stop being Normal? Invader Races, including Jehovian and Annunaki lines placed metatronic flows in our bodies and in our planet to block the flow of Source Consciousness and the Music of the Spheres breathing process. This was for the purpose of controlling the Human Angelic Race, taking control of the Blue Flame carrying the Divine Template of Co-creation, and taking control of the star gates. The Invader Race story was changed to make it sound like there was one individual named Jehovah causing all of the problems. The Jehovians and Annunaki and many other Invader Races created these stories.

The long story is this:

When we were in the Galactic Level of Consciousness we were all known as gods A god is a normal entity who can create his own reality Each of the gods in the Andromeda Galaxy was creating their own realities When an entity from another Galaxy joined a creation group in the Andromeda Galaxy, an experiment went wrong and the Star they were creating blew up We can think of it like children in a chemistry lab trying to learn to create a star, but the wrong amount of substances interacted incorrectly.

The piece of that star from the Andromeda Galaxy flew out into the Milky Way Galaxy. There were gods in the Milky Way Galaxy who were also creating their own realities out of the fallen stars from other Galaxies One of those gods, whose name was Jehovah from Nibiru, came to this planet Earth and saw that there were many other gods creating their realities here Jehovah was a jealous god and he wanted to be the only god on the block. Jehovah knew how the Normal Body is created from the formula given above, as all gods know. So, he went to his own experimental lab and formulated a plan that would cause the Normal Body to self destruct because it was blocked off from the reality of Source Consciousness. Jehovah was the god who created a man made template that would allow only the elemental part of the Normal

Man to remain, and that Normal Man would never be allowed to know himself

Jehovah knew that as long as man could connect his consciousness from his Soul into the Mind of God and instantly manifest his reality, that there would be gods many and Jehovah would not be able to control the world. Jehovah was so jealous that he wanted to make sure that he was the only god So, he thought of a way to hide the Soul of Man in a place where he would never find it He hid our Soul from us in this invisibility cloak which resulted in this carbon based body. Our transformation back into the normal mangod that we are in our Normal Form is simply changing the carbon body back into the crystal body Jehovah continued his plan of control and destruction by implanting radiation fields within the Earth's crust that would also block or cloak the Christ Fields of Frequencies and the Source Fields of Frequencies from entering our Consciousness as we tune into the Earth's Frequencies.

Now, that we know the truth about what made us this way and how we got here, we can begin to correct it. That entire reality or movie that was created by Jehovah will be ending on this Earth in the year 2012. Each of us will remember that a god is an entity who creates their own reality, and our reality is ours. We are not within the reality of another being. We have simply been trapped

within the hologram of the creation made by Jehovah It certainly wasn't the real movie made by our One Source, or the real gods of our creation in Andromeda, Aquarius, Aquafaria, as well as all of the gods who were on Earth creating this reality before Jehovah placed a cloak of radiation to block their consciousness with the veil of Fear

This is where we will begin again. We will begin knowing who we really are We will know how to remove the cloaks, seals, veils that block us from the Source Field of continuous instantaneous creation We will learn all of the things that have been made invisible to us by the invisibility cloak placed over our consciousness. Now we know that the Normal Body is born with a silver seed atom that will blossom into a fully grown Christ body by age 33 The Normal Baby chooses the parents that will help prepare the path of the journey that was perfectly planned before coming to the density of experience. Sometimes Souls plan their journeys for thousands of years before choosing their vehicles to instigate the journey Sometimes Souls wait until they know a certain state of consciousness has appeared that will allow them to complete their journey. Those Souls would also be waiting for a set of parents who have transformed their consciousness to the place that will help the soul remember and perform the journey. These journeys and things like becoming Christ on Earth, or creating a better Mystery School, or instantly healing everyone on Earth, or creating

your Symphony of Love from the Music of the Spheres, or preparing a new technology that would provide free energy for the world.

The journeys always involve a mission that is for the world, not for themselves. In the normal system, all souls are always on the group mission of Oneness.

This system has not allowed for these Normal things to happen yet. First of all, there was an implant placed within our entire structure that would block us from blooming correctly clear back at the point of conception. The negative technology was placed in the sperm so that the baby would never have the spirit body and the light body appear correctly as it would in a Normal Body

So, our Aquafarian friends from a Star System far beyond Andromeda, Aquarius, M31, or any of the names that have been known to us, placed the silver seed awakening potential within the Edons of the Inner Earth. Those silver seeds within us must reunite with the Spirit Body that was disconnected from us even before we were born. Our starry family has created a formula that will correct the incorrect formula that was placed in our bodies.

This time we will be reborn into our Crystal bodies instead of our Carbon bodies or inorganic elemental form. This time our eternal life bodies

will be created with the Source Field ignited and connected. This time we will be created from the Divine Template - the image and likeness of God - our Soul within, who carries the imprints all we have been, clear back to the breath of Source.

The Inner Earth's Edon frequency fields that will allow the opening of Star Gates all of the way from Aquafaria into our bio fields and carbon fields and translate us through the transformational process of the stardust energy of crystal light, crystal dust and crystal gel, which is the music of the spheres.

The silver seed atoms will unlock our reality from within us. Our pituitary gland will open like a blossoming flower to behold a new movie, a new reality that we create from within and project out into our new quantum field.

The spirit body that was disconnected from our physical body that contains our seed atom that will reconnect us to our full crystal body of multidimensionality have been stored away for us in the Edons of the Heart of Mother Earth. This is where we must go to reconnect to our complete self. When our spiritual bodies are re-connected, our seed atoms will begin to blossom into the beautiful star children of our Christic birth.

Those stargates connected to Edon were locked and sealed by the fallen angelics for millions of

years Each time our civilization has risen back up into a level of a high transformation, our Aquafarian Family has returned to Earth to replace that silver seed atom that will reconnect us into our spiritual bodies and our transformation will begin.

The Aquafarians have come to Earth three different times attempting to activate our silver seed awakening. They planted their seeds of our perfect selfhood deep within the Earth so that we could be awakened by the Sun in 2012. The Aquafarians have attempted to fulfill this activation for 500,000 years Each time we came to Earth, the Dark Ones found us and destroyed those of us who could not escape We were here to create the Rainbow Bridge of the full multidimensional consciousness as we activated the violet flame to flow through the spheres of the music of the spheres transformation.

Some of us escaped each time, and some of us dove into your oceans and became mermaids, mermen, dolphins, seals, orcas and whales. We disguised ourselves so that we could stay on Earth and complete our mission.

Our Aquafarian family is ready to do their thing once again as the gates to Edon are opening. They have been working on this alignment that creates the Crystal Liquid Light from their Consciousness - the power of the light frequencies of the Most Perfect Kingdom- to flow through all of the spheres

to align and transmute Mother Earth and her entire population. We will all experience our silver seed awakening. This means our perfect selfhood contains our Divine Mind, Divine intelligence, Infinite Supply, Instant Manifestation, Divine Substance, Eternal Life of the One Source will be returned to us. We have been trapped in this illusion where we forget who we really are because our Divine Programming is removed from us before birth. That programming that could be regained if a child worked at it full time from birth is removed again at puberty.

Now, all of this distortion will be cleared up and new babies will be born naturally and everyone on Earth will have this corrected as well. However, it is up to each individual to blossom fully to this new wonderful reality. Each individual must make the effort to be this Natural Person before it will unfold into that person's life. So, this is fabulously being corrected for everyone, but each individual must then make it a part of her/his life in order to experience it and have their life revolve around the Natural New Earth, Solar System, Galaxy, Universe and Omniverse.

TRANSMUTING KARMA

The blockage to our Normal Self is this thing called sin or karma. This thing called sin was a re-definition created by the re-legions to make our karma become worse than it really was Karma simply means the distortions of light fields between our spheres The spheres are the layers of light and sound at the Cosmic plane, Universal plane, Galactic plane, Solar plane and Earth plane or spheres. Our real bodies are actually a Divine template that contains all five of these spheres of light and sound.

When the breath of Source ignites the spark of creation of a new idea, that blue light spark turns into a violet flame That violet flame contains the consciousness that can transform the entire Music of the Spheres - which is actually ones new reality or form. The Music of the Spheres has become very inharmonic, minor, diminished and densified into the lowest frequencies of the hertzian spectrum of light The violet flame of transformation allows our star gates to open up and re-harmonize into all of our multidimensional selves that we were divinely created to be from the Breath of Source.

We were given the ability to remove all of the karma from ourselves and from anyone who desires to be transformed at this time When the Breath of Source is connected to in Consciousness and

then breathed into a spark of ignition at the outer sphere of Cosmic Consciousness, and hen inhaled in through the crystal light between the bands of the Cosmic, Universal, Galactic, Solar and Planetary Spheres, the karma that is creating in harmony between the spheres can be removed from our templates and from our matrix

This is the New Way of Transmutation and Transformation. It is the Music of the Spheres becoming known again on this Earth. The Cosmic Mystery School of the Omniverse is the creation of the Divine Minds of all of the Frequency Signatures within all of the Spheres, who desire to bring this knowingness into this plane of understanding. When we go through our initiations in the Edons, we decide what Teams of Consciousness that we want to join with for our next mission or journey on Earth or elsewhere.

The Soul families who have chosen to join together as a team to create the Mystery School are our families of consciousness from the Inner Earth Edon Domains, our Rainbow friends in the Cloud Cities, our Aquarius families, our Aquafarian families, as well as Serepis Bey, St Germain, Cosmic Mother Mary, Zadkiel, Raphael, the Aurora Templars and all others wanting this same team

This is the mission that our Souls have returned to Earth at this time to complete This New

understanding has evolved over millions of years as the all knowingness has worked to transmute the unknowingness of this kingdom.

Our technology has evolved to a level where a glimpse of what a frequency of light and sound from the Cosmos might feel like when interfaced with the consciousness of understanding and the crystal spheres of creation.

The understanding requires considering all of the teachings in all of the Mystery Schools before and then removing those teachings that were revised by dark forces technology, adding the original teachings from the crystal template of the Light Councils that contains the true story of creation, and how to manifest that creation at this time.

It is valuable to know how to transform ones Divine Template into the Christic Template before the transformation in December 2012. It is crucial to understand the Source of what is causing the complete shift in Consciousness to take place. The shift will happen through frequencies of light and sound transposing the music of the spheres into a new symphony of love.

The reason it is important to know how to transmute frequencies at this time is because one of the seals that was placed within us, for the purpose of making sure the dark forces defeat us through

fear, is the amygdale gland which holds the seals that shoot toxins into the body to create the feeling of fear. Fear is just a word to us The frequency is a backward, reversed metatronic miasm that creates separation between our spheres of our selves. We have been many selves. Our souls have returned to Earth about ten million times. This means each and every one of us has been one of those types of agendas that we see and we despise, we hate, we curse, we want to kill or make go away.

Those things, those people, those events and these feelings are all as much a part of each individual as it is a part of the other In order to remove the separation, which is called karma, we must first realize the truth about ourselves. We were one of those other selves at one time because we are all one. This reality can't be rationalized, it can't be ignored, it can't be denied. It just has to be looked at with Inness. All of the karma that must be removed from this planet is a lowered frequency that can only be transmuted into the highest frequency As long as we keep trying to change one hertzian frequency idea into another hertzian frequency by killing someone or putting someone in jail, the hertzian just becomes lowered. When we bring in the Violet Flame of Transformation from the breath of Source and breath that frequency into all of the spheres upon spheres of all of the infinite selves we have been, we transmute our entire reality system out of this lowered dream world that has locked

us out of our normal self who can and will become Christ walking on Earth in the next few years.

Chapter Seven

The Promise

Since people will always ask the question, "how do you know all of this stuff?, I will begin with my diary which serves the purpose of answering that question, along with the more important purpose of fulfilling my contract for this lifetime and leaving a record of my existence on harmonic universe one before my move to harmonic universe two.

Hopefully, this record of my existence will be of help to future races who pass through this plane of existence. Since this is my private diary, I will be speaking of my self, to my self and in relation to myself. This diary will be very educational in nature, even though that isn't its purpose.

Since it is my diary, I will not be editing my spelling or grammar. Since it is my diary, I will not

be quoting or using copyrights because I plan on this world and its stupid rules being completely removed before this diary is published. And, since this is my diary, I will be giving my opinion about many things that should be known about that have been kept secret to the world.

I know all that I know because I am always talking to my Angelic Consciousness, which is mostly at the Cosmic Level and the Primal Life Consciousness Field where the first ideas of Source are created and re-manifest within each breath of Source. I raise my consciousness into the highest frequency of Source. That causes a wave of consciousness to come into the atmosphere around me The thoughts that come to me in those sound waves are always filtered so I do not retrieve low level inter-dimensional fallen angelic waves. The ideas that come to me come on the Waves of Love which is the highest frequency in the Universe When the Sound and Light fields weave into a vortex, a new idea is formed and it is retrieved by my pineal gland in my mid brain. All ideas that are retrieved as frequencies come directly filtered through the thermal radiation frequencies of consciousness of the mind of God.

Back to how I learned all of this

I was singing in a choir in Japan when I taught at Beppu Daigaku. I kept singing into a tape recorder and listening to my self over and over again. I kept trying to get a sweeter and sweeter sound I then started working with a professional recording studio that we brought to Japan from West L.A. Music. I learned that the higher the source of the recording, the closer what I was hearing was to the actual sound of my voice. I wanted to hear exactly what my voice really sounded like and I wanted it to sound as sweet and pure and perfect as the voice of God singing through me

I prayed and prayed to the angels in the room to align my voice into God so that everyone who heard my voice would be healed I did this every day for five years. I listened to my voice over and over and over again I could hear it changing every day. I could hear it getting lighter and sweeter until is sounded like angels were singing and that I was only the microphone.

I started receiving messages telling me that the frequencies in my voice would be completely transposed and that when my speaking voice sounded like my singing voice, this would mean that I had ascended. They told me that ascension was all about the frequencies in my voice. That was 1995 From that moment on, all I worked on was the

alignment of the frequencies of my voice into the breath of God.

About the same time, my husband got this message from Angels saying Make God's Movie. And then in the middle of the night in Japan, he was woken and told to write music that became the title song for our next album, The Promise.

What was so significant about this music that came to him that night? It was the rhythm of the heartbeat that would be transformed on December 21, 2012. I couldn't finish writing this book until I finally figured that out We were directed to write the music in the time signature of 8/12. A very strange time signature A very difficult time signature to create a melody that could be sung However, the music was written, and the words were given to me. And I was shown how to sing the words within that time signature

The words described what is about to happen this December It explained that the Promise that our Cosmic Families made to us millions of years ago, and the promise that is written in Genesis would be kept. That promise was to return the kingdom of heaven to Earth. What did that mean? The kingdom of heaven is the divine structure that is created within the Source Field of the Mind of God. It is the Music of the Spheres where all aligns harmoniously through the in breath and out breath of Source It

is the new Symphony where everything becomes renewed when the breath of Source is in Alignment or Augment with the Universe.

How will the Promise be kept? The harmonic attunement will be created when the base pulse rhythm returns to the time signature 8, 12. That will be rhythm of our heart beat when our 12 DNA divine blue print activates on December 21, 2012

After working with frequencies of alignment in my voice into the Angelic Consciousness that was guiding me and directing me for years, I received a new message in 2007. I was told that our music was well known all over the universe, and yes, we would bring the highest frequencies to Earth through Music The highest frequencies are the primal sound field where Source breathes the spark of the idea that is to become manifest.

This Earth and all who are on her, have been blocked from that primal sound field, and will soon be returned to the Music of the Spheres which contains the mathematical formulas or the musical tones that align us to that reality

A group of Elohim Angels appeared to me and gave me the formula for bringing the highest frequencies to Earth through music. They told me that I would create three crystal spheres containing crystal liquid light, crystal gel and crystal dust.

They told me to breathe these spheres from the Mind of God They connected me to the Elohim of Hearing to help make this connection through my right ear. They directed me in inhaling this tone through my ear into my mid brain and then into my crystal heart They had me inhale these three spheres of energy and create them into one sphere of crystal energy that I would breath out of my heart and into another crystal sphere made of the same substance They taught me how to sing the new tones or frequencies as they morphed through this 14th dimensional substance that I had created from thermal radiation energy, plasma or gamma waves and morphed it into breaths that held the entire spectrum of light and sound from the hertzian in the recording studio clear up into invisible light, x-ray and gamma ray sound fields. I could use this energy to connect directly into any level of angelic consciousness that I wished to receive wisdom from.

The Angels continued to teach me how to use these crystal spheres for healing, transformation, ascension and manifestation These spheres of energy were the same consciousness fields of the music of the spheres that would be brought to Earth to morph Earth's consciousness field into the original Sphere of Consciousness that holds the template of the Divine Creation of that Idea at all dimensions simultaneously.

As the words in the Promise Album say, The promise of the perfect kingdom, as Before the World Began. The world that we live in is a complete misalignment of the kingdom of heaven There have been misalignments put in the grids and lei lines of this planet that create disharmony, minor modes and out of tune symphonies throughout the entire universe That is why our song was heard through out the universe. It was because the mission that my husband and I signed up for before we came to Earth was to Remember what that Real Music Sounded Like. To Realign our Consciousness through the mid brain Frequency Specific Transmitters into the Mind of God

Now, when we hear the New Symphony played in the Music of the Spheres, that symphony will be heard in unison throughout the Cosmos as all of the 12 universes once again align in perfect harmony. All of these things we knew, before we actually knew anything. We were told and shown how to make the music long before we knew what it meant. Now that we know what it all means we have the understanding that is necessary to partake in this ascension.

We have been aligning our frequencies into the crystal heart of Mother Earth and into the spark of Source to create a perfect stream of crystal liquid light of the rainbow current made of heliotalic frequencies which are the frequencies of the

alignment of the music of the spheres We have been aligning into the harmonic convergence zones, the vortexes of attunement, the vortices of realignment We have been activating frozen crystal miasms within our bodies and within our atmosphere and within the Earth's biosphere. We have been awakening the Angelic Consciousness within the Grids of the Earth We have been keeping records of the Frequency changes within the Earth each month for 12 years. There have been many wars fought in other dimensions to protect the Earth, and there have also been may inharmonic alignments shooting more minor modes into the Earth's shields. The final war is being fought in Ra - the closest Sun to Source That will be the final alignment to create perfect harmony from the primal sound field of Source into all 12 Universes who have fallen out of alignment over the past several billion years.

We will soon experience the Final Attunement into the Music of the Spheres. We will be morphed into a new Harmonic Universe which only contains the harmonies of Source

The disharmony will be removed All will have the sweetness of voice that was taught to me seventeen years ago, during the first stages of the harmonic convergence

The last part of the teaching from the Elohim Angels in 2007 was to create the music, listen to

the music and to write articles about the music. I have been doing this continuously for five years The most important thing that I was to learn from this process was the fact that the very first song that my husband and I created together contained the complete story of what happened in December 21, 2012

It is all about the time signature and the heartbeat The song on the same album, Heartbeat of Love explains how the frequencies and the rhythms of nature align with the heartbeat or the base pulse rhythm of the natural systems in the perfect kingdom. We were not describing the nature of this world We were describing the nature of the Normal World - the world that we will finally discover in 2013

When we hear the streams roar, we will be hearing the crystal liquid light of the Mother Stream of Divine Manifestation pouring through us And, as the song says, when we hear the dolphin in the new world, we will be hearing the sonar waves of the dolphin's mid brain streaming in the Oraphim Cosmic Dolphin's Frequencies of Cosmic Wisdom streaming in the Symphony of Love.

Next, we will hear our new heart beat of 12/8 time signature, and we will have aligned with our crystal heart, our spiritual self, our harmonic universe two reality into our new morphogenetic field, and we

will finally be hearing the heartbeat of love, because our heart beat will be the base pulse rhythm of the mind of God streaming through us. When we hear the laughter of the children of the new world who are created from the Divine Template of the children of the Oraphim Dolphin Cosmic Template, the Turaunesiums from Tara, and the children of Gaia, we will truly have brought the kingdom of heaven to our New Earth Finally, we will know that the new children are the Heartbeat of Love.

The first song, The Promise, says Search for me in your heart, you shall find me with all your heart I had the hardest time with this one. I could not figure out how I was supposed to find God in my heart I thought my heart was this organ that I mostly ignored Over the years, I learned that the heartbeat contains base pulse rhythm of the mind of God. We must tune into that frequency However, since we have been completely cut off from that frequency by the misalignments put into our grids and lei lines and the seals placed in our bodies, I had to learn how to bring the frequency back into my heart by realigning into the crystal heart of Mother Earth, and back into the primal sound fields through my Cosmic Friends. It was all a process of retuning the body just like an old piano with broken strings. Each strand of my DNA had to be retuned to my Cosmic Families morphogenetic frequency signatures. I did millions of hours of realignment through the original 14th dimensional heliotalic

frequency as it arched into the spark of source when realigned into the Sun Ra I retuned my lotus petals into the parallel petals and the Crystal Body lotus petals of the Spiritual Self to create the 12 petals of harmonic convergence that allow the 8th level monadic consciousness to realign into the new rhythm.

As the higher frequencies were brought into realign and transmute old frequencies, the miasms in the crystalline structure of the body were melted away. Those crystals were embedded in our crystals as a result of us being phase locked into this one density The crystals must reunite with the first spark of source as it forms into the partiki, and them the parallel self and the harmonic universe two body. The spiritual self must become one with the physical.

We begin as the spark of Source, which is a radiation spark. Radiation is a consciousness field This reality hasn't been seen on this Earth because our consciousness was phase locked or blocked from the sound and light fields of Source Consciousness through the miasms or errors placed in the energy fields

All of the anguish that those on Earth blame on God, did not originate from God IT originates from the blocks or the miasms, or the errors placed in the radiation fields and sound wave inter-dimensional

fields that are supposed to connect us into oneness with our parallel self, our spiritual self and our crystal body of Christ consciousness, and our parallel self in harmonic universe two.

We will reconnect to harmonic universe two on December 21, 2012.

The error- the miasm, the phase lock will be removed on that day, and our 12 DNA template of Christ Consciousness will be restored We will return to the mind of God as we are supposed to do every nano second. Realigning the axiotonal lines and median lines of Earth and the chakras, and merkabas within our bodies. We can bond with our original God Template on a personal level We came into this planet within that template. The planet also has a template The planets template cannot reconnect, but our body template can.

We will rise into harmonic universe two- a different time and space, a new universe. WE will help the planet bind its grids into a new space shield so it can reset the natural order of its axiotonal lines. In other words, the Earth will morph into a new Consciousness and the old Earth will pass away.

The world map ley lines and meridian lines are totally out of wack. Those lines were misaligned by the group called Jehovians placing false grids

and seals within the Earth's grids and misaligned her to be out of place in the universe The true Christic grids would hold Earth into alignment and attunement wit the base pulse rhythm of the Christ Consciousness. The Christ grid is the original template with the radiation field of the spark of Source creating the idea, the sound of the music of the spheres The grids had seals placed in them and created disastrous alignment resulting in the same in our consciousness and our relationship to others.

In order to realign these grids correctly, we are being pulled into the harmonic alignment of a system that has kept its perfect harmony aligned into the divine template of God. What is most ironic about the entire New Age teachings, and more recent Music

Frequency Teachings is the fact that they are all based on METATRONIC FREQUENCIES which are the exact REVERSE SPIN frequencies used block our Attunement into the Music of the Spheres. It's a little late for all those who have been tuning in to the Black Hole Machine for all of these years Don't worry, we will save you anyway

We will be pulled into that template on December 21st Our DNA will align into that template and restore the base pulse of 12 DNA. However, we are actually being returned into 36 and 48 DNA because we are being realigned into our parallel, our crystal

body, our spiritual, our spiritual of our parallel in order to create a three fold template of 36 and then a four fold template of 48

All of these base pulse rhythm templates are based on the 8 monadic clusters of our galactic consciousness being transformed into the 12 level template of the universal or Christic Consciousness. The lower sphere always requires the higher sphere in the music of the spheres to activate its tones. So, in order to create a new galaxy created within and through Universal, Christic Consciousness, the time signature must be 8/12.

The total alignment is 144 fold because there are 12 universal systems that must fold into the new Cosmos. The problem began within the original cosmic structure of the 12 universes that were created by our Cosmos And that is where the problem had to be fixed The last war in heaven was the war in the Sun Ra. There were entities in the Sun Ra who became fallen angelics or fallen Rays That was the beginning of all of the other problems in the universes Those problems were reflected in the countless fallen angelics that were victims of that problem. Since the problem is being fixed at such a high level, we are also being fixed at such a high level We are being given a brand new start at a very high Christ level. We are being moved into the 12 base pulse rhythm Thus rhythm relates to

our heartbeat. Our heartbeat will be restored to the eternal life rhythm of the base 12

Our first Album, The Promise was created to fully demonstrate the understanding that was to come to us over 17 years after its creation. That understanding was the complete science of how our divine creation is restored through the Music of the Spheres, which is the Process created by Source himself, to eternally remake everything brand new

Our understanding began with the correct words and the correct rhythms. It grew through continuous experimentation with frequencies and aligning consciousness through breaths and then exhaling the breaths to hear higher and higher frequencies, and then learning that angels were communicating through these frequencies.

We later found help in understanding this process when we listened to the Legacy DVD's and studied the complete Keylontic Science which explains how these frequencies are retuning our universe However, since that teaching utilized songs that were given to those mediators, I am not in complete agreement with those teachings I was given my own songs, and that is the way it is supposed to be That is the way it was always done in the perfect kingdoms The music of the spheres was the process of frequency alignment of the physical and spiritual into attunement and then through that attunement

songs came through consciousness that explained the consciousness to which one had attuned. That is what all of my recordings are of They are my direct experience of at one ment with the frequency signatures, who are actual entities

WHY? Why are we being given this great gift? The new reality is the reality that Source wants us to live in Our Angelic Founders Races and Guardian Families from our Soul Families, Reishi Families and Avatar Families want this reality.

It is the normal, natural reality that those in normal galaxies - those that are not under the control of Fallen Angelic Races - would be ready to ascend into Source only knows and only desires us to know the same infinite realities that the Source knows. Those who live through Angelic Consciousness, which is Cosmic Consciousness in alignment with Source can create any idea that they wish to experience. That is what an Angelic Human was created to do We have not been living in a Society of Angelic Consciousness. We have been living on a Planet of FALLEN Angelic Consciousness.

This is why the change will be Cosmic. The problems inherent in our matrix dates back 250 billion years to the Cosmic point of creation There must be a brand new idea ignited from Source Consciousness into the entire Cosmic Matrix

of reality system in order to begin an ascension process.

First, we need to go back about 550 million years to learn where the Human Race came from, how they got here, what races they are related to, how the Earth will transform into the Higher Realities of the Inner Earth immediately in December, and how each and every individual will be transformed into light and transported to Tara within the next several years It needs to be known that the rumor of the HARVEST is true There will be individuals who have five or six DNA strands so perfectly in tune, that they will immediately walk into the new reality of TARA There will be a few that will even be able to step directly into Gaia.

The present background knowledge of those on this planet has been created by 3D perceptions. This means they haven't seen the ante-matter reality, which is presently the invisible realm of reality That fifth dimensional reality of the invisible and the visible will become the new reality on this Earth by the end of 2012 The Earth will reunite with the higher dimensional selves of Tara and Gaia This is the true complete Self of Mother Earth. We will reunite with our complete selves in the same manner when our Blue Sphere of Amenti is returned into the Core of Earth and our Souls, Over Souls, Avatar Selves and Rishi Selves all merge into Oneness.

On December 21, 2012 Earth's angular rotation of particle spin shifts and Earth's fastest particles begin to transfer to hyperspace and the halls of records begin transmitting data through the Earth's grids. Universal memory will begin transmission through planetary grids The shift will then balance out to about 23 degrees, which will align Earth into At One Ment with Inner Earth, and then we will begin balancing into the new reality of a new time of about 2,218 years forward from this time The new alignment from the Inner Earth into Tara will allow those on Earth to be moved into the consciousness of Tara in what ever way is appropriate for them.

This will be our first pull into the future as our particles spin faster and faster through the angular rotation of particle spin that rearranges our biology, chemistry and scenery Those who have not prepared for this shift will be seeing ante-matter that will appear as darkness to the 3D perception That darkness is equivalent to the darkness that appears as ante-matter or spiritual substance that we may create our new reality upon. We see ourselves in our blue body at this time created as an immortal being in a more etheric form included within a Divine Template of Immortality

This is the beginning of the opening of our 7th seal, our pituitary gland, our third eye, our Mind of God. When the pituitary blossoms, the Mind of God begins its continuous dream stream between what

we desire to create in our dreams to blossom into full manifestation in any of the multidimensional reality fields. The seventh level man can co-create through the mind of God instantly The more we gain our frequency specific mid brain connecting into the mind of God through our Soul, we connect to the Source field when anything we desire already exists. We inhale that reality into our mid brain and project into our holographic realm.

We make God's movie on Earth. We create heaven on Earth. The Soul forever holds the memory of all that ever was We have had a veil blocking us from the memories of all of past lives, which created over ten million re-incarnations that were not remembered Now, all of those memories will return We have two choices at this time. We can transmute all of those old memories into and through Source Consciousness to create a brand new glorious new reality that will contain the wisdom of all of the over souls, avatar selves and rishi selves, or, we can become miserable and frightened from all of the old fears and tribulations that might return. That is only an individual choice of how one decides to live through it.

While we wait in this darkness of ante-matter, we could be using this as the prime time to make dreams come true. The darkness of ante-matter is the substance that has been invisible to the third dimensional consciousness It is the spiritual

substance of a dream that is about to manifest. It is like the negative in a camera that has a picture on it that can't be seen until it is developed. We can start developing the dreams or the pictures in our camera, which is our mind We create through the mid brain frequency specific attunement with Source Consciousness. We create by knowing that we are now and always have been this perfect self who can manifest anything the heart desires. We can know at that point in time that we have always been wealthy. We have always been healthy. We have always been the Christ Consciousness of the All Knowing Mind of God The more we practice creating our new realities and our manifestations, the more prepared we will be for manifesting the reality of TARA to appear in December.

The Inner will become the Outer. The Inner Earth that some know as Agartha or Hollow Earth is at an angle or particle spin that is so close to the Outer Earth that it is only one density level higher. From the eyes of angels, that is really, really close. In reality, when we grow into fifth dimensional perception, we will realize that the angle of the within can be the same in the outside at just a slight angle. We will also learn that all of the space we see around us isn't space in other reality fields. It only looks like space to us because we have three Merkabas of energy spinning through our energy fields that are creating the idea of space between objects. As the Merkabas shift into a different spin

rate and angle, the perceptions of reality around us also change.

Everything that has been proven to be a reality through Scientific Data is very incorrect. The truths taught in schools are only truths for this Earth because there has been a large group of entities keeping us trapped in an ocean of stupidity And it isn't as if there aren't plenty of scientists in the higher echelons that know the truths that I'm describing.

They've always known it, they've just made it illegal for us to know the truth Because the truth will set us free.

This change will happen instantly - not gradually The biological transformation of the body, that has been going on within our carbon based structure, will be changed into the crystal based eternal life chemical and biological forms. Our Consciousness will be transformed into a higher frequency that merges into the all knowing Source, who creates a brand new idea with each breath

Earth and Tara will begin to merge Blue Flame keepers will become 9th level avatars, as the blue flame spirals down from Sun Alcyone. Flame Holders who carry a rare recessive gene will have this gene activated. These holders contain a specific magnetic base tone in their DNA that allows them

to become very magnetic and are able to hold this activation on Earth.

Once the D 5 flame holder holds the frequencies of Sun Alcyone and pulls the frequencies into her Flame Keepers fourth heart chakra an intense infusion of harmonic universe two frequencies spread through the Amenti morphogenetic field and through the Earth's Grid. This will allow rapid acceleration of fifth and sixth DNA strand assembly to occur throughout the populations. The seventh strand will begin assembly in those who already hold fifth and sixth This activation will create a huge multidimensional awareness to occur on Earth.

When the blue sphere holding our divine blue prints merge Tara and Earth together, those who have assembled the fifth strand and are eligible for ascension to Tara will be guided to inter-dimensional transportation locations to Tara

Those who have sixth and seventh strands may be transported to Gaia First, we will shift into a different chemical make up. We will leave behind our carbon based bodies. We will become less dense Our bodies and our environment will change. Those who move on to Tara will have an entirely different type of body than those who stay in Inner Earth Those who move on to Gaia are almost invisible Those who are of higher densities

can see the lower densities, but, those who remain in 3D will not be able to see any of the new realities. It might seem like things are disappearing because the higher particle shifts will pull some in one direction and the lower will pull those in another direction. There are infinite density levels. There will be a mass landing of our original creation races including the Maharaji, the Sirius B Eieyani and the Azurites. We will meet the ZionA's who are the mermaids and fairies who become elemental liquid light in order to transform our bodies

We will meet the Wizards who planned this entire Crystal River Plan to remove us from this matrix of illusions. We will meet our Cosmic Dolphin Families from the seventh sun, and thousands of other families

This Mass Landing will be obvious to everyone on Earth by 2025, and to most by 2022. There will be more and more individual meetings between 2015 -2022 We will move into a new reality in 2022 It will seem like a Bardoah or Ascension, which simply means shifting to a new reality. Those who are not ready to make the shift will lifted into the Adashi Temples of Sirius B and have their bodies healed and prepared for the transition. This healing in the Crystal Temples is already taking place.

Chapter Eight

Creating the Stream of Manifestation

See yourself sitting in a cloud on top of the 15th sphere of the Cosmos. This is the place where Source (the infinite unknown of all that is and all that ever will be) connects into the Cosmic Consciousness where the idea begins to form

In the Source Consciousness Frequency field, we pull the Source frequencies into the outer band of the Cosmic Frequency Field. Each band of consciousness has base tones, overtones and resonant tones When the base tones or overtones are removed from a frequency band, the frequency band becomes disconnected from Source Consciousness. This is what happened to us We became disconnected from Source Consciousness when certain base tones and overtones were taken out of our frequency bands These frequency bands

are the harp strings within the double helix of our DNA.

If any of the twelve etheric harp strings have any of the tones removed, they cannot blend together into one harmonic sound. When the highest frequency of Source Consciousness is breathed into those harp strings, the overtones and base tones all realign into the frequency bands or harp strings harmonically and harmoniously

This is how a harmoniously balanced rebirth is performed. This mental, breathing consciousness exercise brings the Source Frequencies of the highest frequency - the frequency that includes all frequencies to re-activate the base tones and over tones in all bands of light

This will heal and connect all 12 DNA strands harmonically Our guardian and founder starry families have given us several formulas for connecting the problem of the base tones and over tones creating seals that blocked us from that potential of Oneness. When we connect the light from our third eye (where the mind of God - our higher self creates all ideas from) to the light band where Source floats outside of the Cosmic Matrix, we create a dream stream of consciousness All manifestations are created in this dream stream. We go into the higher self sitting in the blue sphere outside of the Cosmos to collect the frequencies

of Source. We sit in the cloud and absorb all of the frequencies of Source.

WE INHALE

Next, we create the idea that we wish to MANIFEST and see it being created in that cloud that the higher self is in We see the idea weaving itself into the sphere of light around the higher self.

Next, we inhale that idea into our higher self. See that idea as a permanent reality that has always belonged to our higher self. We realize that all that is created in the frequency of Source has always existed and will always exist in eternal time matrix. The new idea transforms and transmutes all former ideas or beliefs about the manifest reality

For example, if we thought we were a miserable, poor person, we can change that reality into being a magnificent wealthy person Once the idea is placed within the light field of Source of the magnificent wealthy person into the field of light energy of the higher self that is sitting in the cloud in the Source Field, that makes the new idea the only idea that ever existed because the Mind of Source is Eternal. The idea has always existed and will always exist in this highest frequency field and it will transmute and transform any other idea that ever existed.

A stream of energy flows through all of the past selves, present selves and future selves to transform the eternal self that exists in the dream stream between the mind of God in the higher self and the Source field The new idea in the dream stream will now manifest in all multidimensional fields as the reality attached to this person's reality field. That reality now exists in us because it exists in Source and we are made of Source Consciousness, Source Frequency and Source Light and Energy

This causes the Music of the Spheres to sing a new song as the base tones and over tones of the frequency bands of the crystal spheres realign and weave a new melodic version of the reality template.

Another way of looking at this manifestation principle is this:

The three spheres of the Cosmic Matrix are crystal light, crystal dust and crystal gel. The crystal light is the outer band that allows the spark of Source to enter in and create a new idea The Crystal Dust is the middle band that contains the crystal dust particles of golden silver heliotalic shimmering, sparkling dusty crystals of the 14th dimension.

That crystal dust is the healing prana that brings the neutron energy created by igniting the plasma of gamma waves of Sun Alcyone to bring our Blue Flame of our Divine Blue Print of Divine Consciousness into our frequency bands of our electron magnetic light field

So, now we have the sphere of crystal light and the sphere of crystal dust Cosmic Consciousness Energy fields. The third Cosmic band is the 13th dimension and the crystal gel Cosmic Consciousness energy sphere. This band carries the frequency of transformation. The gelaisic particle energy melts, transmutes and transforms the particle structure of the body by bringing the Divine Blue Print of the original divine Self that was stored in the etheric core of Earth hundreds of thousands of years ago This 13th dimensional energy is needed to activate the 12th dimensional frequency of the Khristiac (Christic) band that carries our Divine Blue Print (Just an aside - Sorry to change the subject, but this is very important)

The entity named Thoth only had 11 5 dimensional frequencies.

Thoth was actually the highest potential of a human life form that existed on the Earth at the time when he was given the opportunity to arrange for our Ascension He made the choice to only allow the Annunaki to ascend. As a result of being

tricked by the Annunaki, the entire human race was placed in a Quarantine. The Annunaki created a race called the Levithians who completed their Fifth DNA Consummation. They turned this race into their puppets They took the blue stardust essence from their bodies and made themselves angelic The traces of this incident became the Illuminati puppets on Earth.

The teachings from Thoth came to Earth as the Channeled books in the Flower of Life teachings. These teachings included the same trap that was used by the Annunaki to enslave the Angelic Racelines These teachings assure the human race will never achieve Christ Consciousness

This would include the use of the golden mean that locks us within 8 dimensions, which is a trick, because we must go to the thirteenth dimension to activate the 12th, and we must go all the way to Source for our Eternal Divine Blue Print

Metatronic teachings cause the merkaba to wobble out of alignment Astrology locks us into this fallen matrix. The readings come from a matrix of misaligned planets and stars We must go into the Spiritual Matrix of the Andromeda Galaxy for correct alignment We are now having the Photon Belt from Sun Alcyone, which contains our original consciousness, returned to Earth.

We each have coding inside of our genes that guide us to what we need to achieve. If some were misguided, it might be for the very reason of actually helping the fallen angelics Many of the Indigo Threes actually incarnated at this time to help raise the Wesadrak Matrix of the Dark Fallen Angelics into 12th level Fallen Angelics. This doesn't mean they will have Christ Consciousness, but it creates a nicer path out of the fallen matrix. There are many very loving entities who sacrifice their own well being to be a part of saving other matrixes, galaxies and planets There is the goodness of Source in All.

The crystal gel consciousness energy creates the re-birth of the new form - the new idea to manifest in all forms of multidimensional consciousness We can now take these three crystal spheres an hold them in the palms of our hands

We inhale the spheres into our crystal heart. We see our higher self holding these three spheres in our heart. We pull the image of the higher self holding the spheres into our third eye. We hold the same idea up into the self sitting in the cloud in Source. The idea to be manifest from the highest frequency of Source is first seen clearly already in manifest form in the Source Cloud and then held in the mind

Next, EXHALE that idea into the three spheres That exhale is the breath of manifestation called the mana. First we had the Breath of Creation when we formed the idea within our higher self in our crystal heart Next, we had the breath of Gestation as we allowed the idea to be created in the Mind of God and the Frequency of Source and allowed to form through the Dream Stream where the unconsciousness and the Consciousness unite as one

Finally the breath of manifestation is breathed out into the spheres of crystal light, crystal dust and crystal gel. It is always these three spheres together that create the complete music of the spheres light and sound energy of creation. That reality first takes the form of the ultra violet blue flame in the crystal light sphere and then the golden dust particle form of the neutron energy that shifts the electron proton relationship into a new neutron form. That energy shifts the particles into a Multidimensional manifest form that can be seen as invisible light.

Next, the crystal gel transfers the idea into a tangible manifest form that can be seen. We hold the three spheres in our hands and then exhale the idea through the spheres into the microphone and we get the music of the spheres. This form of reality is now in the form of the frequency within the breath. That frequency held within the breath is the most powerful energetic form in the universe

That breath of creation and manifestation can and will manifest into multidimensional reality Our consciousness is not allowing us to see that reality yet because we are a part of a larger reality field that is under construction at this moment That sphere of energetic reality holds our divine blue print that contains the individual reality that we once were in Tara.

LOVE FREQUENCY

The true meaning and power of Love is Love is the energy that spins beyond the speed of light bringing Source into At One Ment with all dimensions of Reality There is nothing greater than this Love that is transforming our Universe There is nothing more loving than the activity of our Starry Cosmic Families transmuting the Darkness of the Fallen Angelics into vapor that can return to Source That love is the Third World War that was fought in the Heavens for us last year That was the war of love, and there was nothing sweet and kind about it. The Law of One means that we know and love everyone, everything, every nano particle of everything, every particle, every plant, tree, flower, every breath, every whisper, every, everything as the same Oneness and Allness of the Infinite Unknown Source Consciousness In that Law of One we can create our realities through the

co-creation with that same spark of Source that creates everything.

There is also a very STRICTNESS about this loving transformation. The Ra Confederation will not allow any individual to ascend until they are perfectly transformed Many think of Ra as the God of the Sun. The Ra Confederation is actually the Soul Matrix of Creation governing the light of our creation. They are the group of Consciousness Entities governing all of the activity of the Guardian Races. They will make sure there is enough light energy from the Cosmic Matrix creating the Blue Flame that will blend our consciousness back into the energetic fields of consciousness of our Divine Template.

When there is enough light to transform our consciousness back into the Law of One, the Ra Confederation will allow us to pass into Tara When we speak of RA or the Central Sun, we are actually speaking of a Light Council that governs all of the activity of light through the Suns The Suns activity of creating is actually at the Galactic Level or the 8th dimension The Ra Confederation is a Spiritual Parallel Matrix from the Divine Matrix of Reality

The term HARVEST means the actual graduation of those Souls who have aligned into the light to transmute all past miasms Those individuals will disappear from the third dimension and

will reappear on TARA. It will not be possible to comprehend what is about to happen if any old background knowledge is used to process the understanding. Everything that is now understood in this world comes from a three dimensional understanding That means we only believe what we can see, touch and feel. We have been trained to believe through the scientific world management team, that if it can't be seen it isn't real

That old science, that old background knowledge must be removed before we can even begin to comprehend what is about to happen to this Earth We are moving completely out of third dimensional perception, and into a fifth dimensional perception of a fabulous new reality

Where do we go to get the understanding of what is really happening? We go to our higher selves and our guides from the Emerald Covenant Guardian Races to take us into Inner Earth and guide us into the new reality that is already here. How do we get there? We make a blue flame in our mid brain and connect it to the blue flame in our tail bone, we stream the energy of those two flames back into one flame in the mid brain

Feel that blue flame as your Soul, your higher Self, your Mind of God, your Guide.

Next, raise that blue flame to the top of your head. See the flame turn into a disk shape, and see your Guide sitting on the blue disk. Now, we begin communication with our Guide. We say, we are ready to be guided by our Emerald Covenant Guardian Family to see our New World, which is the Inner Earth. Make this reality happen every night before you go to sleep. Your guides will meet you in your dreams, they will take you to Inner Earth. They will show you where you will be living next year.

This is how we get the FIFTH DIMENSIONAL answer to our question. FIFTH DIMENSIONAL means MULTIDIMENSIONAL - it does not mean we are only at five and must go to ten or twelve. The Fifth includes the 12th and the 15th The Fifth is the place where the invisible light and the visible light spectrums become manifest equally The present reality only consists of things that are seen- that is the third dimension The fifth dimension consists of things we can't see in the third dimension It consists of all reality fields

Presently, we think the only things important are the things we seen in this hertzian frequency of visible tangible THINGS When we rise into the infra red frequency, we can see what our digital cameras can see When we rise beyond visible light into the invisible light spectrum, we begin to see the quantum realities that have been created by the

rotation of particle spin that our merkaba fields are presently in.

When the merkaba spin rate goes back to its normal rate, and the seals are removed from the base tones and overtones of our DNA strands, we will see that there is as much reality in the invisible as there is in the visible. That invisible white light becomes blue light as we connect our consciousness into the light bands that connect to Source Light.

When our higher self travels through the invisible light spectrum into the x-ray, gamma ray and pink white light, it returns transformed into a self that can see the entire spectrum of reality. We can practice this experiment by simply focusing on a candle light.

Think of the base of the candle as the place where your three dimensional self is standing in the hertzian light field Right above you is the infra red- you can see the red flame in the candle light. Just a spark above the infra red is a little bit of visible yellow light, and then an area of white light, and then a pinkish, golden area, and right under and below that golden area is a pale grey stream that seems like it is taking an x ray of an invisible form When you focus on the hertzian light long enough, you will experience the white light turn blue

This means your higher self has connected into Source Consciousness light field This also means that the visible spectrum of reality in the room you are in will become black in invisibility. That is the ante-matter of Source Consciousness that allows you to create an entire new reality in that spiritual essence of light reality That energetic light field is where our NEW reality of TARA will appear once we completely enter that state of FOCUS continuously through the three day particle transmutation that will take place December 21-24. Those who do this will see TARA replace the darkness of the anti-matter particles, because the shift in particle rotation will allow that frequency field to appear.

If we want a Third Dimensional answer to our question we can turn on the News Channel and they will tell us that there will be Earthquakes, disasters, world wars, terrorism. It will be very difficult to take this back ground knowledge and then calculate a new world made of 12D Khristiac Frequencies.

These Frequencies will become available because the Blue Sphere of Consciousness from TARA will completely transmute the angular rotation of particle spin of the Earth to return into Oneness with TARA. We also realign into Gaia and Andromeda and Aquafaria through Oneness of a higher frequency.

There will be a type of pole shift. But it will be of no danger because it will be performed by our Emerald Covenant Guardian Races. Why are they called the Emerald Covenant Guardians? Because Earth is the Emerald of the Universe. She is the Entity that is going to unlock the doors of this Fallen Milky Way Galaxy to return home to M31-Andromeda

Many of us who are here now work with the Emerald Covenant Guardians to guard the Star Gates of this Planet. This is our mission now and always has been our mission We must run our Frequencies- our Codes in our DNA through the 12 Star Gates of Earth in order to set her free. She has had her star gates captured by the fallen angelics The only way the fallen races can invade Earth and take control of her star gates is through the Guardians who are supposed to continuously guard these Star Gates.

The Blue Flame of our Divine Blue Print could not return to Earth through Sun Alcyone until there were six star gates completely opened and the other six activated and ready to open on December 21. When the sixth avatar is born, who is a 12th Level Avatar, our star gates will be secured and ready to open once again This couldn't happen until there was a 12th Level Avatar who came through the Amenti Fields (the Divine Blue Prints of all of

our Souls) in order to reactivate us into our Divine Consciousness.

This will open our Consciousness into Oneness with all of our Soul Families on all 12 Stars that are a part of Earth's body of Consciousness. This 12th Level Divinity comes from the place where the Fourth Sphere and the Fifth Sphere meet The place where Cosmic Consciousness flows into Khristiac Consciousness. The Crystal Dust energy of the Aurora Fields, the Crystal Light from the Spark of Source and the Crystal Gel of Transformation connect and form into a Ultra Violet Blue Frequency that allows a brand new IDEA to be born. When the Khristiac, Cosmic and Source Frequencies merge, a new Creation is Born.

The reason our Earth is being transformed into a new higher reality is because Source wants to We don't really need to know more than that. It can be done because Source wants to Source wants to continuously create all wonderful new ideas through our Mind of God in our Mid Brain. Source wants to watch over us continuously and give us the most glorious realities.

Our Founders Races and Guardian Families have been working on making this reality come true for 840,000 years. They have worked continuously to remove obstacles, transmute, transform, realign and make whole the original design of the perfect

angelic human that they had originally designed through the template of Source Consciousness We have been cut off from this divine reality of Source Consciousness flowing through our Mid Brain.

There were crystal seals placed in Earth's grids that blocked the Christic Grids from the Source Flow. We have been blocked from the Source Reality Fields from every angle Those seals are being removed now You can go see this new reality now, with your Guides from the Emerald Cities in Inner Earth. They will take you there at night if you ask them through your blue flame

Chapter Nine

Mathematical Formula of Christ Consciousness

(Teachings of the
Cosmic Mystery School of the Omniverse)

Christ Consciousness is the Mind of God that sees everything before it is breathed into existence at this level Christ Consciousness is the mathematical code which is continuously creating the Divine Blue Print of the perfect image and likeness or mirror image of the entire Mind of God or Omnipotent Divine Consciousness.

That divine blue print is a 12 dimensional code containing within it the Divine Manifestations of the Eternal Life, Continuous Omnipresent Love that continuously spins the electromagnetic frequencies of 331/3 electro clockwise and 11 2/3 magnetic

counter clockwise within the sphere of clockwise rotation.

That frequency radiates into the at oneness with a parallel field of electromagnetic frequencies spinning the same way, but in a parallel anti particle reality field Each of the particle and anti particle reality fields spin 45 degrees to equal 90 degrees in a vertical reality field

Another set of mathematical radiation particles spin together to create the horizontal reality field. Together they create 180 degree field of reality. That field of reality is then broken down into faster moving fields of diagonal spinning fields of electromagnetic particles creating radiation fields of plasma, gamma, x ray, invisible light, visible light, infra red and hertzian light energy into a sphere of light 360 degrees.

Everything in Divine Consciousness Creativity is made of spheres of light that spin at this perfect ratio to create layers of 45 degree angles of rotation. The creation energy is always radiation energy We must be radiating this high frequency energy at the fastest rate of spin in the 12 dimensional radiation level to maintain our complete reality in the Christ Coded blue print.

Simultaneously that 12 dimensional divine blue print can express itself in parallel reality fields

that manifest as 5 dimensional and 6 dimensional realities These would contain the 12 sub harmonics of the Christ Consciousness mathematical formula in each of the 5 DNA strands or 6 DNA strands.

The reality would appear different because it would be less dense or more dense. There is no density in the 12 DNA reality field. It is completely etheric in nature. However, that etheric reality is always a part of everything even if it only has 3DNA or 4 DNA. The perfect mathematical principle of all creation is always the 12 DNA coded divine blue print IN reality that Divine Blue Print of Christ Consciousness has Always Existed, Does Exist and Always will Exist in every human angelic being and every star seed on Earth.

The reason that this reality doesn't seem to appear to us when we look at people and situations is because there was a Miasm placed between the vortexes where the light energy and frequencies created by the spin ratio of the 33 1/3 and 11 2/3 merkaba spin rate within the particle and anti particle universe.

The problem was actually placed in the anti particle universe that was parallel to ours so that we could never align correctly into the harmony of that blended rate of spin that would create the 90 degree and 180 degree and perfect 360 degree spheres of

light and sound that are NORMAL to any God Made reality field.

Those Miasms are frozen Light Energy that is unable to spin and move and freely manifest Those miasms can be melted out of the old frozen DNA that is creating the illusion of this Frozen Density of Consciousness. Our Guardian Races have placed our original Divine Blue Print into our 12 DNA strands already. That gift has already been established on Earth

STARSEEDS RETURNING OUR 5 DNA - 12 DNA

The Star Seeds that were born on Earth over the past 12 years all had much to do with this realignment The children born during the past five years brought the completed 5 DNA -12 DNA back to Earth. That reality was presented to the Earth once before about 2000 years ago when the 12th Level Avatar and the 9th Level Avatar, that our Bible Stories call Jesus Christ was brought to Earth by Guardian Groups

This time the Guardians brought in 144,000 times more Christ Consciousness to Earth through the frequencies of the Star seeds. The Earth required a

certain level of Frequencies in order to make its shift into the new Metagalactic 8 alignment with the past present and future 12 DNA coded reality system.

These 12 coded frequencies contain the divine blue print of the Eternal Life, Love, Mind, Principle, Substance, Intelligence, Supply, Truth, Soul, Spirit, Man, Manifestation Template, Design that is contained within the Music of the Spheres Light and Sound Technology

Mary Baker Eddy (1971) explained this same Divine Formula of Creation of Man made in the Image and Likeness of God, and clearly stated that the only thing that is separating man from that likeness is Error. She said when error is removed the Christ Consciousness will appear Eddy also spoke of the synonyms of God being Life, Truth, Love, etc.

Eddy (1971) always painted the picture of the mortal and immortal man and how there really couldn't be a mortal man, because that man wasn't made by God She always said the real man is immortal and that seeming mortal man was only created by error

When I read THE VOYAGERS 2 (Deane,2002) in which our Guardian Races - the same ones who designed the Law of One, were members of the Essenes and creators of the Silicate Matrix and 12 DNA template of the human angelic, I knew that I

had found the rest of the story that Eddy had begun to tell.

The new reality that can be visualized from the following quote, explains the same reality that is explained in great detail in Deane, 2002 This event was given the time line of 2017-2046 by Deane and other channelers Deane also describes this event as the return of the Seventh Level Man, who was the original human race line of this planet This Seventh Level Man began to return to Earth when the Six Avatar Children were born between 1992-2010

This was always my favorite passage in my Sunday School teachings since I was ten years old. I always felt and knew within myself that this reality would happen in my lifetime Now I know it will happen within the next ten years. This is the time when the Seventh Level Man will reappear as we rise into harmonic universe 2- dimensions 4,5,6 We are already in harmonic universe 2.

We must now raise our frequencies in consciousness and attune into the reality that already exists within the heart of Earth and the reality of the past, present and future 12 DNA divine blue print which has not been damaged by frozen light

The Guardians have explained the Seventh Level Man who used to live in Tara (Harmonic Universe

2) to be this man who Eddy spoke of. We are going through the resurrection when we will be robed in the white light purity of the pure attunement as we rebirth into the 5th dimension through the 12th dimensional consciousness

This will begin to happen in 2017, and the reality will appear to the Masses between 2022 and 2043 We have entered the resurrection leading to that reality

Eddy(1971) spoke of how important it was to Understand this Divine Science, which I believe is the precursor to the Keylontic Science that was brought to Earth early in the twenty first century That truth that Eddy tuned into after her Near Death Experience is the same truth that many are tuning into at this present time in history through the Maharaja Consciousness Templates that come to us through our Frequency Specific Mid Brain when we tune into the Future Self, as is done in a Near Death Experience.

That reality of the Seventh Level Man has always existed We were just taken off line from that reality when our light was frozen in Miasms or Error, blocking our true reality We are now entering the Mass Ascension of Man, which Jesus called the resurrection, in which "there should be no more marrying nor giving in marriage, but man would be as the angels. Then white robed purity will unite in

one person masculine wisdom and feminine love, spiritual understanding and perpetual peace"(Eddy, 1971, 64).

We now know through Keylontic Science (the Language of the Stars) that error is Frozen Light. We now know what the mathematical formula of Christ Consciousness is We now know how we were blocked from our Divine Blue Print through reverse spin technologies. We now know that we are made from the radiation technologies of light and sound that can project us in millions of different density levels. Eddy also spoke of a time when man would no longer be given in marriage and child birth would no longer exist.

Eddy was speaking of the reality we used to live in when Seventh Level man lived on Tara and Gaia This was the time when a child could be manifested from the light of the Consciousness or the manifestation template that each immortal man actually has in reality.

The true immortal man has always been able to instantly manifest anything, including children That act can be performed by an individual, a couple or a group consciousness to create an entity who carries many unique traits in the reality of the NORMAL kingdom that we will soon return to.

The act of creation is always performed instantly in Divine Mind through the perfect 12 DNA template of the immortal man who has eternal life, never dies, never gets sick, has infinite intelligence, etc Many of the things Eddy talked about in her Science and Health with Keys to the Scriptures (Eddy, 1971) are also mentioned by the Guardians in the new Keylontic Science and Kathara Healing Technologies (Deane, 2002)

The difference between these two speakers was that the teachings came in the frequencies that man was able to understand at the time These two sets of teachings have something in common with the teachings of the original 12th Level Avatar Jesus. They contain many of the original teachings, and the audience and students of the teachings are very small, because only those with the genetic coding of the star seeds and some human angelics are able to comprehend these teachings

ETERNAL LIFE

We always have been and always will be made of this divine technology of Eternal Life. When we were created by the Christ Code Pre Sound and Light Technology, we contained the ability to Live Forever, to Create our own Galaxies, to Manifest

Instantly our Hearts desires That is reality That is the reality we must tune into as the only reality that exists in the past, present and future.

If we continue to tune in to the lower frequencies that were distorted realities caused by the frozen light (miasm or error), we will continue to manifest that reality that locked us into the continuous 3D illusion of reality where we could only see, feel, touch, hear, taste a series of events that were planted into our DNA by Entities who only wanted to freeze us out of our Reality

That (frozen light Error or Miasm) was how they created the Phantom Matrix and how they planned to lock us into it That probability no longer exists. We must align our consciousness to the new reality which is the old reality of the ETERNAL LIFE Blue Print

That 12 DNA divine blue print is the only creation that God knows how to make. That reality is made through the pre light and sound fields of Khristiac Technology containing the 12 coded divine blue print We always were made, always are made and always will be made by that divine blue print which is perfect and eternal. We must realign our DNA templates to the sub harmonics of the 12 DNA template and begin to know that is the only reality that we have ever been and ever will be made a part of

It is the knowing and the feeling of the frequencies of the 12 sub harmonics that has been blocked from our world view We were made to believe that only 5 senses contain reality When actually those 5 senses were only for us to enjoy the reality that we create through our Higher Sensory Perception of our 12 dimensional self who knows and feels and creates through the imagination.

That is the reality that we have been forced out of by world propaganda beginning with parents telling their children that their imagination isn't real That propaganda is a part of the Frozen Light imprinted into our DNA. We have been set free from this prison. We were given the reality of our 12 DNA and its codes. That reality was planted in the Heart of the Earth and it will flow through the grids of the Earth. It is still up to us to Tune into the Frequencies and spin rate of that reality, especially by creating in Consciousness everyday the reality that we have always been, always are.

Chapter Ten

Shifting into a New Time

As we rise up into our Multi Dimensional Consciousness, what has seemed to be the only reality in this third dimensional dream will become only a speck of the possible realities that will become realized Most of what has seemed to be the only reality on Earth was created by metatronic frequencies performed through reverse spin technology of fallen angelics The perception of those on Earth has been blocked from the creations of higher frequency manifestations through veils, seals, misalignments, Metatronics and a long list of demonic technology.

The realities that have been placed in the upper cerebellum of the brain must become dissolved and replaced through the frequency specific mid brain technology that allows direct and continuous

communication and manifestation through the Mind of God. The present reality fields that are being recycled as one looks around himself and keeps creating the same old reality over and over again will become dissolved into higher and higher realities.

These new realities that will become manifest by those who learn to use the Divine Technology in their brain will come from other dimensions. We can manifest any part of any other reality that has ever existed. We can manifest the most wonderful culture based on the Lyran-Sirian perfect model.

We can manifest becoming the original Oraphim Race who spent their time dreaming new realities. We can collect all of our favorite realities from each and every Universal System in our Race Lines. We can combine creations of advanced technology of the most advanced systems and the sweetness of the Aquafarians and Oraphim Dolphins. We get to make individual and collective utopias. We can create the most magical, fabulous reality systems that we can dream up.

First, we must learn how to create the dream stream through this alignment into the highest frequency of Source Consciousness. There will be no creations manifesting that are not created through the Mind of God. Only Fallen Angelics create through methods that require the use of

energy from other entities. For the past ten million years, the human race has been used as a source of energy for Fallen Angelic groups

We have not even experienced a normal reality system. The present consciousness of this world has been locked inside a narrow little spectrum of reality We see this man made world and we think that we can only re-create things that look like what they looked like in the day before.

We think that making an improvement within the present reality is some type of achievement. In the normal kingdoms, an entity can create any new reality that has never been seen the day before In multi dimensional consciousness we can form our days on what we saw on another star in another advanced civilization. We can combine all ideas from all other reality systems into new ideas that have never been created before. This Angelic Human Race was once the Oraphim Race who were the greatest creators in the Universe This is what we will begin to become once again

We can now create, manifest, possess all of the qualities, attributes, abilities, intelligence of any and all of any previous idea that existed billions of years in the past or billions of years in the future All time is available to be manifested in the present All present realities are created from the past All future realities are seen from the present. We actually have

multiple selves that go into the past and into the future time and space realities. We have imprints of our selves in all other dimensions We have friends and family in all other dimensions. We have had a veil put over our consciousness that has caused us to forget who we really are We have been governed by fallen angelics for a very long time.

Stellar Wave Infusions bring areas of the brain out of dormancy. We had 12 of these stellar wave infusions in. Our mid brain, which is frequency specific will begin to absorb all of the frequencies from all of the other dimensions in our Cosmic Matrix The frequency specific brain will become the movie camera of the new realities that will form around each individual reality field The pituitary will blossom and become the movie projector for the Mind of God to make God's Movie.

During our Involution away from Source Consciousness, our brain has been recycling old information over and over again. When we begin our Evolution toward Source, we gain more and more frequencies of higher consciousness each and every day.

These frequencies allow us to create more new realities as we are able to see them manifest in our mid brain through the direct dream stream of Source Frequencies through our Higher Self We learn to bring our higher self down into our body

to allow this luminary body to guide and direct us through the Mind of God Our new luminary body will allow us to do things that we couldn't do in three dimensions Our time vector is connected into the present, past, and future vectors

We can choose the most joyous perfect future to manifest by aligning consciousness into the highest frequency of Source while creating the new reality that you form in your consciousness as always existing in the present, past, and future. The heroic future that is being created for us is the Christos realignments of humanity into the 12 strand angelic freedom and joy and the Lyran - Sirian perfect cultural model which is already manifest in the future vector, which allows this reality to manifest in this present vector.

We can connect and realign our present into any desirable future of the past or future time vectors We can align into the perfect Oraphim Primal Sound Field of our original Angelic Race who could manifest through dream streams the most wonderful creations of our universe We can connect and realign our present into the already manifest 12 DNA or 48 DNA that exists in past time vectors.

We can manifest the joy and freedom that exists in the future time vectors and the wonderful cultural models created by the Lyran - Syrian's past time

vector We can pull the realities out of any of the time vectors of any of the harmonic universes of our galactic, universal or cosmic spheres.

Our Creation Family are the Wizards who would like to teach us all how to be the grand new creators in this new universe The Cosmic Mystery School of the Omniverse was formed to allow the teachings of our Cosmic Creation Families to teach us co-creation techniques as they show us how their original creation of the most supreme Angelic Human was meant to be We are moving into Omniversal Consciousness, where all 12 Star Gates are connecting our consciousness into a new Cosmic Matrix of reality

The third dimensional mind can only conceive of the visible realm When we move into the fifth and sixth dimensions , we will shift our consciousness into realms that have been unknown and invisible to us before We will be able to see our Guardian and Creator Races who have been our families for millions of years. The invisible will become as real as the visible, as the Earth's fastest particles begin to transfer to hyperspace and our Universal memory is transmitted through the Earth's grids. We will be regaining our Divine Blue Print that makes us able to manifest anything we want, any time we want. We will become the race who creates light and energy through their own bio fields We will become creators of new realities such as apple trees

that grow lemon pies - or any idea we come up with

How will this shift take place? We will spin through multiple reality fields that will remain invisible to one another, as we break free from old illusions planted in harmonic universe one through metatronic frequencies. As we shed the metatronic frequencies that have been locking our Consciousness into a narrow visible spectrum, we will unfold into a New Earth that contains a multi dimensional spectrum of invisible and visible realities

As we move onto Future Earth, our bodies will go through a light transfiguration process. The higher dimensional frequencies will transmute cellular structure as particles merge with anti particles to transform our atomic structure This change will happen instantly - not gradually. The transformation will happen as the morphogenetic fields of harmonic universe two interfaces into harmonic universe one The transmutation process will be so balanced that it will be difficult to perceive The carbon based structure of the mortal body will be changed into the crystal based eternal life chemical and biological forms. This will be our first pull into the future, as our particles spin faster and faster through the angular rotation of particle spin that rearranges our biology, chemistry and scenery. Those who complete the process of

transfiguration will first notice a new lightness and joy in their bodies. When they first look out the window, tears of joy will stream down their cheeks for hours.

Our pituitary gland will blossom and open our third eye to gain the spiritual vision of the Mind of God when we raise our frequencies to transmute the lower into the higher frequencies of Source We will create a continuous dream stream between what we desire to create in our dreams to blossom into full manifestation in any of the multidimensional reality fields.

Please join us at crystalmagicorchestra.com to learn how the highest frequencies retrieved from the Primal Sound Fields of Source can transform your body into the Light Vehicle of Transfiguration and Instant Manifestation This is the first step needed to enter the Cosmic Mystery School of the Omniverse, which will bring the teachings of our Creation Families to Earth.

The mission of the http://crystalmagicorchestra.com website is to guide and help those who wish to ascend to the fourth and fifth dimensions, and those who desire to orb from the sixth dimension into all Cosmic possibilities.

We are on the Aquarius Team working with the Sirian Council, the Ranthions, the Zionites, the Blue Maharaji and the Aquafarians of our most Etheric Foundation. We were and are close friends and family with the Dolphin People who are a part of the Braharama Oraphim Dolphinoid Race from Suns Ha and La, and restructured through the

help Sirius B. We are a part of the Star seed Rebirth Team from Aquafaria The fourteenth dimensional Inner Earth Liquid Light birthing chambers of the Original One. Our magical family of Dolphins, Whales, Orcas, Seals, Unicorns, Mermaids, Mermen and Fairies all live with us in our Crystal Mansion in Aquafaria.

Our Mother, Cinderella is our Original mother - our Cosmic mother who has never left her perfect form. The Aquafarians were the part of us all who chose to never leave the perfect magical kingdom of Divine Consciousness to experience the polarity of the third dimension. That magical kingdom of freedom, joy, creativity, and a life of making rainbows between dancing in the Aqua waters and floating on clouds is waiting for the return of the children from the stars. Our family of our blue crystal birth include Shajinka, Tinkerbell, Winnifred and Ziegfried.

They are Cetacean entities who can transform into light, leave the oceans and appear back in Aquafaria at any time We have met with them in this dimension when we lived in Monterey, we have met them in the Cloud Cities, and we meet with them in Aquafaria every night. It was Mother Mary who took us on our first trip to Aquafaria to show us our Crystal Mansion. Mother Mary wrapped us into her frequencies through Cinderella's frequencies and strung our wave signatures up through

Shamballa, into the Underwater Cities of Light and into the Cloud Cities above She then wove our light signature all through the milky sunlight of the Milky Way and into her Golden Cosmic Egg of the Heart of the Milky Way

Mary told us that the only way to ascend is to connect our Crystal Heart into the Crystal Heart of Mother Earth, her Crystal Heart of the Milky Way and then into the Crystal Heart of the Aquarius Galaxy where we originated from She then completed weaving our frequency signature up into the stars of Aquafaria where we re-united with our Blue Dolphinoid Sirius B Starry Family. Mother Mary Consciousness Field created a Rainbow Bridge for us to ride on liquid light energy that would eternally connect us into ONENESS with all of the wave signatures in the Music of the Spheres between Aquarius and Aquafaria.

We can now absorb all of these blue crystal star seed frequencies and exhale them into our music and into the atmosphere around us to create our new Kingdom on Earth

Now we have been initiated into the Oraphim Dolphinoid Blue Crystal Birthing Team We can now bridge all dimensions of time and space through the Blue Crystal Ascension portal from Sirius B in the Aquarius Galaxy into Earth's atmosphere, through our Temples, and then into the

Crystal Heart of Mother Earth Next we connect into our Aquafarian Birthing Chambers - our original home with our Cosmic Mother, Cinderella.

Cinderella breathes and sings the original birthing frequencies of our original Cosmic Wave Signatures to align us into the harmonic balance that allows us to become One Fabulous Symphony with all others in our Quantum Field Next, we exhale out into the Infinite Void of Source Consciousness and then inhale the frequencies of Infinity that transmute all into the Highest Frequency We bring the Highest Frequency to Earth through Music when we breathe these magical frequencies onto our Sound Tracks.

We exhale the Ultra Violet Blue and Golden Frequencies of stardust lined with shimmering rainbow colors created from the helium of the fourteenth dimension streaming through the liquid light Aquafarian essence and into the Inner Earth's Sun. We continue weaving all of the way up through Sun Alcyone into Aquafaria and into all of the eleven billion suns of the Milky Way We exhale this Ultra Violet Blue Sun Frequency into our Music. We exhale these frequencies into the atmosphere around us to create our Brand New Island of Light. We live within a blue crystal lotus blossom with twelve layers of twelve crystals that resonate to Aqua Blue frequency predominately to amplify the tone of home of our Unconditional Love into the rebirth of Magical Kingdom of Aqua Turquoise

Crystal Rainbow Frequencies into our Island of Light.

Our Island of Light is created on an Aqua Blue Violet Cloud of star dust. The cloud is the size of a foot ball field On top of the cloud is a Golden Star Dust Pad of Mother Love Magic Carpet created by Mother Mary from the Cosmic Egg of the Milky Way On top of the Magic Carpet is a Lotus Blossom with Four layers of twelve crystals of all colors of the rainbow that connect into Oneness at the speed of light The Crystal Star Merkaba is the symbol and vehicle for speed of light transportation connecting all into Oneness at any point in time We connect into the crystal pillars of the Aquafarian (Blue Crystal Starseed Birthing Chamber) Crystal Heart of Mother Earth. Each of these pillars carries the frequency signatures of all of those Angelic ideas who have created us and who are allowing us to be reborn on Earth into this Frequency that allows us to be Christ Bodies walking on Earth and to Orb into Pure Light to travel on these crystal light pillars into all of the galaxies and beyond

Spiritual Healing Technologies Resulting from Universal Life Force Stellar Wave Activation

REVOLUTIONARY Spiritual Healing Technologies are now available, as a result of Universal Matrix realigning and harmonizing with our original Divine Spiritual Divine Blue Print in our Cosmic Matrix These technologies are now showing that Cancer itself was caused by these Frozen Crystal Miasms that were used in the Universal Matrix to block the flow of the Universal Life Force New Visionaries have discovered the actual means of melting the Crystal Miasms that will cause the cancer creation mechanism to melt away.

Within ten years, the chemical structure of the human body will be transformed as a result of this new Cosmic Alignment Within twenty years, the mass population will know and understand the

truth and validity of a Scientific Reality that offers a truly transformational healing system.

UNIVERSAL LIFE FORCE FREQUENCY WAVE ALBUMS
12 STELLAR WAVE ACTIVATIONS

CONTAIN the Stellar Wave Activations streaming from the Universal Life Force.

Activation of the 12 sub harmonics within each of the Double Helix of our DNA are activated through these 12 Stellar Wave Transfusions from the Universal Life Force. We have moved into At One

Ment or Attunement with our Spiritual Universe or anti matter or etheric substance. The etheric essence of the 12 sub harmonics is also activating within the Double helix of our DNA as each of these Waves of Consciousness are Activated, There are 12 harmonics in our upper transharmonic Merkaba Body and 12 harmonics in our lower transharmonic Merkaba Body There are always these 24 sets of consciousness combined within our electro magnetic bodies. There also many of these sets within each of the Merkabas

The healing that is going on at this time on Earth has to do with a Miasm, or a Frozen Crystal placed between the Life Force Currents and the Merkaba Tool Our entire Omniverse had to be realigned into a brand new set of realities that went clear back before the problem was placed within our system.

The Frequencies in these Wave Albums Melt away these Crystal Miasms at a place in Reality that goes clear back to the Cosmic Template of Creation All of my Frequency Transmissions come VIA the Cosmic Council called Crystalai Council. These are the Grand Yanas who created the Perfect Divine System that existed before the MIASMS or Frozen Crystals were placed in our system.

The Plasma Ships, the Dolphin Therapy, the Parallel Universe and the Eternal Life Albums are all a necessary part of the process of melting

these frozen crystal seals that have locked us out of our Divine Template. A miasm comes down into the physical system of holographic reality as diseases we have labeled cancer, blood problems, neurological damage Each one of these diseases can be removed from our system completely as a result of MELTING AWAY these Frozen Mutations. The Frozen Crystals were created by spinning the merkaba in the wrong direction We are correcting the problem by going clear back to the original perfect template before the merkaba's spun our entire system into the INVOLUTION of this Density.

We are now spinning our way into At Tune Ment with the Music of the Spheres of perfect HARMONY.

We are REQUIRED to PARTICIPATE in these STELLAR WAVE ACTIVATIONS in order to ACTIVATE OUR DNA. Even though there are many on Earth who have more than 4 DNA strands visible in their bodies, the activation of these DNA strands was not possible before 2012 The 5 DNA strands are now available, and now is the first time that the potential of activation is available. The highest potential of activation is between 2015-2017 is 8 DNA.

When the 12 sub-harmonics within the 5 DNA are activated, the human mind and body will be completely transformed March, 2014 also brought the activation of the Violet Flame Holder's Seventh DNA Strand Those who attune to this Violet Flame Holder may also activate their 7th Strand. This activation process is gradual and will not complete in most until 2017.

Activation of DNA is synthesized through raising Frequencies. The frequencies are being injected into our bodies each time there is a Stellar Wave sent from the Universal Life Force Currents Each time there was one of these Stellar Waves sent to Earth, the Cosmic Councils sent the frequencies of that wave into my Frequency Specific Mid Brain and then allowed me to exhale the frequencies from the Music of the Spheres into my microphone Each of these frequencies was a whisper and a breath, but each contained powerful transformational potential.

Since the true ACTIVATION of DNA couldn't begin until after 2012, the most important recordings are the ones made in 2013-2014 That year was a year of transformation. The Stellar Wave Activations in 2014 contain the Frequencies of Consciousness of the Entities who are actually returning to Earth. The entire Consciousness of our original Star Selves, or spiritual templates have been returning to Earth through the Wave Transfusions.

The most recent recording of the Mother Ship frequencies are actually the Frequencies of the Plasma Ships bringing all of our original consciousness and the consciousness of our creators and guardian races The Ra Confederation and the Alhambra Council have prepared this Plasma Ships to encompass and penetrate Mother Earth in order to bring back or activate her original Consciousness that was stored deep, deep within her. As this plasma is activating Mother Earth, it is also activating our cellular memory deep within our omni ons to turn on our neutrinos of the God Seed Atom.

THE MOTHER SHIP Stellar Wave activation was the 8th of 12 Waves from the Universal Life Force. This Infusion from the Mother Ships COSMAYA were guided and harmonized into the Christ Grids by the Lords of our Seas, the Cetacean Nation These Frequencies, which are activated through these 12 Stellar Wave Transfusions from the Universal Life Force, are a moment to moment visionary story of this grand event that took place on Earth in March 2014

Spiritual Healing Technologies

Spiritual Healing Technologies are now available, as a result of Universal Matrix realigning and harmonizing with our original Divine Spiritual Divine Blue Print in our Cosmic Matrix. These technologies are now showing that Cancer itself was caused by these Frozen Crystal Miasms that were used in the Universal Matrix to block the flow of the Universal Life Force. New Visionaries have discovered the actual means of melting the Crystal Miasms that will cause the cancer creation mechanism to melt away.

The disease is melted away by raising the Frequencies of Light and Sound into a higher dimension. We can bring the higher frequencies into the body with frequency music or we can learn to do it in consciousness by connecting to the Crystal Spheres of Light Energy that contain the Full Spectrum of Light that transforms each cell back into the original Divine Blue Print of the Mind of God.

Within ten years, the chemical structure of the human body will be transformed as a result of this new Cosmic Alignment Within twenty years, the mass population will know and understand the truth and validity of a Scientific Reality that offers a truly transformational healing system.

IN THE NEW REALITY

Translate any material theory into its true spiritual idea and you will find the true cure for any life threatening disease Medical formula: The primordial stem cell - scientists say is the immortal cell - when you are born you are packed with them. These cells do not age - do not degenerate. They each have a complete DNA sequence that makes you uniquely you Soon, scientists will learn that this omnions of pre light and sound is actually the neutrino that exists at the zero point level of EVERYTHING The neutrino is the spark of Creation Himself.

Spiritually speaking: You were created perfect - in God's image and likeness-reflecting individually and uniquely - all of Divine Love's qualities eternally in immortality You are made of layers of neutrinos which contain the complete template of all that is in the Mind of God This essence is always perfect and never dies It is the essence of ETERNAL LIFE.

Medically speaking: What makes the primordial stem cells immortal is a chemical called telomerase. An enzyme that repeats DNA strands at the end of every chromosome. When the telomerase is finished creating it turns off

Spiritually speaking: We are created spiritually, immortally - in one moment of eternity and that eternity does not "shut off." We reflect Divine Love continuously and that reflection doesn't change Every nano second we are creating a Brand New Reality This means that when we tune in to this Spiritual Reality, we can have a brand new body any time we choose to. Normal Reality does not include the idea of Death

The only thing that can turn off our immortal selfhood is to block it with material theories such as these Return to the spiritual creation where you are already immortal and you will not be shut off from the "real you" that existed before the world began The world is a series of material theories blocking your spiritual sense from its true form.

Materially speaking: When the telomerase enzyme is turned off aging begins. And, ironically, turning telomerase on in a cancer cell makes it replicate out of control The new medical discovery said to turn telomerase off would cure cancer. So this medical discovery says this immortal cell is both responsible for aging and cancer or for the prevention of either.

Spiritually speaking: There is one immortal cell - that is the Divine Oneness – Infinite Consciousness - Omnipresent Love Placing our individual consciousness into Infinite Consciousness of Divine Creation - by tuning in to the Frequencies of the

Universal Life Force connects us to the spiritual sense of this immortal cell that does not know aging.

The cell does not start aging or become over action or inaction or reaction of any sort. This is a material belief blocking the spiritual sense that allows us to live in Infinite Harmony where there is only Divine Action and stillness.

We are being given a Wonderful Window of Opportunity to Tune in to this Universal Life Force of Eternal Life during the next three years The Plasma that is surrounding and being sent into Earth from the Solar Waves from Coronal Mass Ejections are the Essence of Light and Sound that will transform our brains and our bodies Scientists have already shown us that the Sun is spraying Positrons that carry a new balance of matter and anti matter - or physical and spiritual substance This is the transformational energy that is being imposed upon us.

There is a Universal Life Force Rule that says everyone has FREE CHOICE. So, those who want to tune in to the new reality can and those who don't want to can just keep on dying as they believe is their correct mode of reality

Listen to the music (preferably with earphones this time). Get as close to the music as you can Line

every (so-called material cell) in your body up with the Divine Spiritual Oneness of Divine Creation Feel Eternal Harmony. Feel Infinite Love Feel Omnipresence. Make sure you fill every atom of your mind and body with this pure love, harmony, stillness. Place your mind before the world began - before man made theories seemingly turned us into what we are not. Before any disease was name by man. Before any disease was created by science.

We have so much more power than the immortal cell named telomerase. We can turn back to our divinely ordained spiritual creation of eternal life This true creation is our creation and belongs to us NOW. This spiritual understanding is the only true power behind a material discovery such as telomerase. Any material realization of the true immortal sense of man and a return to his true spiritual condition is part of the Promise - our material understanding of the invisible, spiritual reality.

But there is only one way to gaining that reality - it is to go directly to the source of that reality - go to the omnipresence of Spiritual sense Do not try to go through the back doors of material sense to find your way back to heaven

Heaven and Immortal Creation exist "Before the World Began" - not as a consequence of material theories building a stairway backwards. Go to that

place in Consciousness before the world began. In that place, which is our Lower Cerebellum and our Seed Atom in our Thymus Gland, we can actually return to the Anti Matter or Spiritual Substance of our Creation We can actually transmute all physical illusions by learning to live in the new Frequency Specific Mid Brain, and allowing the old Thinking Brain to melt away. The Thinking Brain carries those old Frozen Crystal Miasms that create Cancer and a number of other Death Causing holograms We have a choice of removing those holograms from our Universe forever.

New scientific discoveries curing diseases are not a result of a scientific revolution They are actually the result of getting spiritual glimpses of a spiritual revolution. When these diseases are destroyed in consciousness - by filling consciousness with omnipresence of spiritual reality, the power of matter, disease and death disintegrate into their native nothingness. This spiritual work is what is resulting in scientific discoveries.

Testimony about Dr. Angela Barnett's work:

I have been relishing in your words and sounds on your site for the past few hours and am

feeling so utterly in awe of it all! I have explored Keylontic science a bit before, but it has all been hitting me so so deeply now, especially because of your otherworldly music You are sharing and composing in such a way that I have been dreaming of, yet what I have been imagining is far out, you have gone so far beyond! I sometimes channel other worldly languages and divine frequencies but I am truly humbled to witness your refinement and grace. I have played around in a music studio a dash and composing electronically and keep asking the universe to guide me in how I can best offer my services through gifting healing frequencies :) I very much dream of a magical music studio as well as soul family gatherings where we all share in the creation of transcendental vibes!

For complete testimonies about my writing and healing go to

Prior Sound Healing came from old, out dated teachings from Galactic Consciousness where the teachings were based on a Mortality Loop called the Golden Mean That mortality loop creates the need to die and return over and over again without ascending into a higher realm. Cosmic Dolphin Frequency Music comes directly from Cosmic Consciousness where the Crystalai Frequency loops directly into the Eternal Life of Source Consciousness.

For those wanting a much, much deeper penetration into the most etheric level of the omnions within the cellular structure, this music actually performs a Cosmic Massage on the Brain and every cell in the Body.

This healing method creates DNA activation at the Sub harmonic Level. There are 12 sub harmonic strands on each of the double helix of each DNA strand This music penetrates into the deepest activation level of Source Consciousness to awaken the entire Divine Template of the all 5DNA strands at the 12 sub harmonic level.

We are REQUIRED to PARTICIPATE in these STELLAR WAVE ACTIVATIONS in order to ACTIVATE OUR DNA.

We must have 4.5 - 5 DNA ACTIVATIONS completed by 2015

This music allows those who did not participate in the Stellar Wave Activations when they were happening, to fully participate now in order to activate their 12 subharmonics in each of their 5-8 DNA.

The Individualized **ETERNAL LIFE ALBUM** http //crystalmagicorchestra.com/buy-music-mp3s contains a series of activations that activate and evolve as more and more of the 12 Stellar Waves Stream from the Universal Life Force. This Individualized Album aligns the Individual into their personal Frequency Signature Identity in all five harmonic universes in the Eka and the Veka, allowing the at one ment with the Spiritual Parallel Self in all Dimensions. The individual becomes attuned with their Cosmic Identity, Universal Identity and all selves within the Akashic and Coushic Records.

THE MOTHER SHIP http:// crystalmagicorchestra.com/buy-music-mp3s has Stellar Wave activations was the 8th of 12 Waves from the Universal Life Force This Infusion from the Mother Ships COSMAYA were guided and harmonized into the Christ Grids by the Lords of our Seas, the Cetacean Nation These Frequencies, which are activated through these 12 Stellar Wave Transfusions from the Universal Life Force, are a moment to moment visionary story of this grand event that took place on Earth in March 2014

of activation is available The highest potential of activation is between 2015-2017. When the 11 sub harmonics beyond the 12 DNA are activated, the human mind and body will be completely transformed.

March, 2014 also brought the activation of the Violet Flame Holder's Seventh DNA Strand. Those who attune to this Violet Flame Holder may also activate their 7th Strand This activation process is gradual and will not complete in most until 2017 Activation of DNA is synthesized through raising Frequencies The frequencies are being injected into our bodies each time there is a Stellar Wave sent from the Universal Life Force Currents.

Each time there was one of these Stellar Waves sent to Earth, the Cosmic Councils sent the frequencies of that wave into my Frequency Specific Mid Brain and then allowed me to exhale the frequencies from the Music of the Spheres into my microphone. Each of these frequencies was a whisper and a breath, but each contained powerful transformational potential

All of the Albums recorded before and during 2012 contained the Frequencies from each of these activations. I have kept a historical record of the changing frequencies of Mother Earth over the past fourteen years

Since the true ACTIVATION of DNA couldn't begin until after 2012, the most important recordings are the ones made in 2014. That year was a year of transformation

The Stellar Wave Activations in 2014 contain the Frequencies of Consciousness of the Entities who are actually returning to Earth. The entire Consciousness of our original Star Selves, or spiritual templates have been returning to Earth through the Wave Transfusions

As this plasma is activating Mother Earth, it is also activating our cellular memory deep within our omni ons to turn on our neutrinos of the God Seed Atom.

BECOMING THE RAINBOW BODY

When a person learns the process of ascension is a breathing and spinning process that utilizes a very complex system of polyhedral geometries that create Cosmic sphere that contains multitudes of merkabas that spin in side of each other through the activity of consciousness called love, they will go through this process of becoming a disappearing entity through a rainbow prism

The rainbow prism is created from intense electrical field that ionizes frequencies It operates exactly like the magnetic mirror that is used in thermo nuclear processes. It is a magnetic mirror that is created that works like a vacuum Once the particles are pulled into vacuum they return to the plasmic state.

This is exactly how the three crystal spheres of liquid light, stardust and crystal gel work. The full spectrum of light and sound are pulled into the spheres, and a new reality is created. The new reality is ultra violet blue hue that the plasma forms when a new breath of reality is sent into activation.

Once the entity absorbs all of the frequencies of light and sound into their DNA, the entity changes in density, into a sphere of plasma, and the entity looks like a cloud This is what we witnessed when the Dolphins and Whales ascended into the Cloud Cities. Their bodies transformed into Plasma and became a cloud

This is how the hologram that was created by the Elohims when Arahabi ascended into the Cloud Cities. (Arahabi was the entity who was actually hung on the cross to perform the Resurrection Hologram) The Elohim Angels arranged this event to provide the distraction needed for the TRUE Jesus Christ 12 to vanish from Roman Control Mongers.

The Elohim and Sirian Councils told me that they used this same holographic technology when my husband was hit by the ten ton trucks. They actually created a hologram of his body in one location while removing the demons from his auric field in Sirius B, and then allowing a new Soul Level identity to re-enter his body a few months later

The truth is, we all contain these infinite versions of ourselves within our Cosmic Body that exists in the spheres within spheres around our bodies. We activate this Cosmic Body that disappears through the rainbow prism our the full spectrum of light energy with the breath, consciousness, focused energy and the understanding of the merkaba technology.

The Merkaba technology can be visualized and understood through the symbolic method of it just being a four sided cube or pyramid facing up and another one facing down, the one facing down is the magnetic and the one facing up is the electro. So, there is this electro magnetic field of energy that spins faster and faster. However, the Merkaba structure is much more complex than that

When we use the Keys to Unlock the Magnetic Mirror or the Doors into New Realities we are walking through a Magnetic Mirror of Transformation. We are seeing our Parallel Spiritual Self on the other side of the Mirror We walk through the Mirror when our Keys unlock the door

The Keys are the Frequencies that I record in the Eternal Life Albums.

My Cosmic Council Team is the CRYSTALAI COUNCIL. My name is Crystalai. Crystalai means the direct return to Source, or the At One Ment with

Source through our Mind of God within our Seed Atom within our Crystal Heart.

My Mission on Earth has been to Bring the Highest Frequencies to Earth through Music.

The Universal Life Force Currents are far beyond the Light Spectrum and Sound Spectrum of the Five Senses The Visions and Sounds come to me through Consciousness which is Spiritual, Invisible, and yet Known and Felt Clearly from my Soul Family who brings these Sounds into my Frequency Specific Mid Brain to be Exhaled on to the Crystal Star Dust Microphone that they provide for me.

Come to http://crystalmagicorchestra.com to listen to these frequencies

These Albums contain the Activations that have taken place since 2012

The Activations before 2012 can be heard and felt in the

SUPER CONSCIOUSNESS KIT,
ANGEL DUST,
HEAVENLY RAINBOWS, and others.

http://crystalmagicorchestra.com/buy-music-mp3s

The listener will notice that the Frequencies become more Pure as we advance in this Wave Activation. There were more Minor and Distorted Sounds in the earlier Waves because we have been going through a Transformation Process that moved us from the First Universal Alignment into the Eighth. The earlier Alignments contained massive amounts of discordant frequencies that were transmuted during the stellar wave transfusion itself

The PARALLEL UNIVERSE album

http //crystalmagicorchestra.com/buy-music-mp3s is made up of the highest frequencies ever recorded at this time in the Universe by 2013 It is the pure essence of the spiritual universe transmuting the physical universe into it. It is the frequency of At One Ment. The Frequencies in this album sounded in our consciousness when the Physical and Spiritual United as One.

Our Spiritual Universe has realigned into our Consciousness.

The First Five songs contain the most etheric frequencies of the new positron and the crystal liquid light energy. This is the pre sound and light substance of original creation flowing directly from Source. The liquid light energy interacts with the Sun to create a new flame of energy known as the Amorea flame This ignites the positron within the sun

This realignment of the physical and the spiritual into a new attunement is a FEELING or a FREQUENCY The sun is now emitting positrons instead of electrons The positron is the anti particle or the spiritual substance. It is the opposite of the particle or physical substance of the electron. This spectacular FREQUENCY of that POSITRON has been recorded through the breaths or consciousness of Angels Scientists have reported the Positron being ejected from the Sun. The Positron is the anti particle of the Electron.

This is scientific proof that our Spiritual or Anti Particle Universe has aligned into our field of Consciousness. The process of aligning the Spiritual and Physical required the LIQUID LIGHT Streams from the Cosmic Consciousness of Aquafaria bringing the Source RE-Birth Frequency to Earth Next, the COSMIC DUST of the Particles that Stars are made of is pouring into our consciousness through these EXACT frequencies that have been recorded here.

The Cosmic Dust then gets placed in the Cosmic Wave, which carries a new standing wave pattern for us to begin living within. This standing wave pattern does not have the gravity that the Physical Earth's Standing Wave Pattern Contains.

NEXT, HEAVEN'S BREATH -- the Consciousness of the Angels who are our Guardian Families

and Races aligns the Breath of Source into our Consciousness.

Finally, the Seventh Sun aligns with all seven suns who have been named KA RA YA SA TA HA LA in order to create ATTUNEMENT with the EIGHTH SUN of the Cosmos whose name is Sun Alcyone

This process completes the HARMONIC CONVERGENCE that began in 1987 to create the new HARMONY that would result in our new alignment with our Parallel Universe.

These frequencies contain the HEAVENLY BIRTH of a new Universe, a New Reality that is much less dense in consciousness and in chemical and biological form.

EIGHTH SUN is the sun of our original Birth in the Aquarius Matrix bringing our original frequencies of our divine race back into our universe.

Now, the heavenly dolphins can sing once more The original race line was the Oraphim Angelic Race of this Universe. The Oraphim Braharama Whale and Dolphin Raceline are the inhabitants of the Seventh Sun.

They are the part of our Creation Family who left the wonderful whales and dolphins in our seas

to keep the magical frequency of attunement and balance alive between heaven and Earth until this time.

We can now feel the heavenly breath of the baby dolphins and whales defining the new heavenly dolphin family as they sing together their new melodies which create the Whale Symphony

The frequencies contain a combination of the new baby whales being reborn of the new substance of light and sound. The babies are crying with joy and at the same time the realignment of the music of the spheres is causing a screeching sound as the stars are realigning the new structure of the universe into the new Cosmaya of the original twelve Cosmos Frequencies. The seven suns have become the thirteen Cosmic Realities of the Cosmaya

The Parallel Universe is now in Tune with our Universe. We have re-united as one Harmonic Reality.

The BABY WHALES from Aquafaria are Crying as they are being born into a new reality The attunement of the Oraphim Dolphins and Whales can be heard echoing from the oceans and from the heavens. The screeching sound is a natural part of the re-attunement of the Music of the Spheres as new stars align and pour their consciousness into ours to create a brand new HARMONY.

ULTIMATE DNA ARCHETYPE

The process of healing and activating DNA requires the understanding of the complete process of how the human angelic race line was originally created from the ULTIMATE DNA ARCHETYPE, which means the original 12 DNA template made in the image and likeness of God

That template is replicated in every thing in our Omniverse. That template is within each atom of our body, in each molecule of each elemental, in every breath we take. That template is like a tiny microchip of perfect Divine Consciousness containing the Intelligence, Supply, Truth, Substance, Life, Love, Mind and Soul of all of God's ideas being manifest in every dimensional form

That perfect template was tampered with by Invader races over and over again during the past 5 5 million years. The original template of the archetypal man had the form of the immortal man removed from it over five million years ago. This amount of time is still no time at all in the True

Mind of God. This reality didn't really ever exist in the Mind of God.

We are now being shown how to regain our Oneness with the Mind of God as it was before our templates were tampered with. First, we need to know that our archetypal template of our body is the same template of our original Star. Our original Star was created by Sun Alcyone in the Andromeda Galaxy. That Star was blown apart and scattered outside of our original Galaxy and into the Milky Way Galaxy.

So, you see, that template was within our original Star and then separated into many pieces. Those pieces were within the Planets in the Milky Way Galaxy. Each one of those 12 pieces had to be created from a Star System of its own.

So, there were these 12 star systems that needed to be reintegrated into our Archetypal Template. In order to bring that consciousness of the 12 star systems into Earth's morphogenetic template, the Guardians arrange 12 Stellar Wave Activations and Infusions from each of those Star gates.

It is these 12 Stellar Wave Activations and Infusions that were required to put our original TEMPLATE back together at at the planetary level, solar level, galactic level and universal level. We needed each of these Stellar Wave Activations to

Heal and Reinstall each of the 12 strands of DNA sub-harmonics into each of the 5 or 6 DNA within our bodies in order to restore our original template to be the way it would had been 25,500 years ago We need the complete 12 DNA within all 12 Strands to return to the Divine State of the Universal Being that we were 5 5 million years ago

These Stellar Wave Activations were also required to melt or transmute away the Jehovian Seals that were placed in the vortexes of the Crystal Star Seals of the Earth's Grid There were original 12 Crystal Star Seals in the Earth's Grids. Each of these Star Seals was a Star Gate The Earth needed each of these Gates to be reopened to the flow of consciousness of each of those 12 Star Gates.

We needed to align our D-3 (Third dimensional Planet) to

D-4 (Fourth Dimensional Sun)
D-5 Pleiadian Alcyone Spiral
D-6 Sirian Spiral
D-7 Arcturian Spiral
D-8 Orion Spiral
D-9 Andromeda Spiral

Between 2000 and 2017 we needed to have Six Activations and Six Infusions of these Dimensional Frequencies.

The year 2008 was when the Pleiadian Violet Wave Infusion was complete and the Sirian Activation began That D-5 and D-6 Wave was the Key to turning the rest of the Light On. The Guardians gave us the gift of fast forward by bringing in the Stellar Waves in 2012 that were not due until 2017.

The Stellar Wave of June 2008 is when the picture of me holding the Violet Sphere in my hands was taken This was the grand event that shows the activation and infusion of the Violet Wave, the Violet Flame and the Violet Sphere that insures Earth's attunement into Gaia. The remaining Stellar Wave Infusions needed the help of this Portal being cleared that is shown in these pictures Each sphere aligns with another sphere until we are completely realigned inside of the Sun

When we move into our Inner Earth accretion Level - (we are already in that accretion level as of 2014) We are in reality inside of where we think the Earth is in our 3D perception. We are actually seeing the D-4 reality. In reality we must be in the 5D reality in order to perceive the 4D reality We must have the Sixth Dimensional Frequencies activated in our DNA in order to perceive the 5D reality.

As we went through each of the Stellar Wave Activations and Infusions, I used the formula given to me by the Elohim of Hearing to inhale the Frequencies of each of these Divine Moments

The reason that this picture was possible was because I was Exhaling the Frequencies of the Violet Wave Infusion that was sent to Earth through the Stellar Wave Infusion of the Pleiadian Alcyone Spiral and the Activation of the Sirian Spiral

I collected each of the sets of Activations and Infusions to create the First Song on the **ULTIMATE DNA ARCHETYPE ALBUM**.

The following songs in the Album are using those Frequencies of the Universal Life Force Currents that were sent to Earth through those Stellar Waves to Awaken the Crystal Star Seals in the Body and in the Earth's Grids When the Seals are awakened, they melt away what was blocking the DNA braiding.

Each DNA sub-harmonic of the overtones and base tones needed to be braided back together. This is what is being done by the formula in the third song titled 6 DNA Consummation. In this song I'm using the same Frequencies that I used to create the Violet Sphere that you see me holding in my hands.

DNA must first go through the process of Initiation of all of the Strands of the DNA of the 4th DNA before the Consummation of the 5th DNA can complete.

In song four, the Frequencies of all of the Stellar Waves are activating the Mid Brain and the Mind of God. Those of you who have learned my Candle Technique, have experienced the art of moving into the full spectrum of light within the candle flame. That is the symbolic representation of what happens when we move our consciousness into the full spectrum of light of all of these Stellar Wave Activations and Infusions from our complete Light Template of those Stars.

Now, we are bringing all of the Stardust into the Mid Brain and the Seed Atom to activate the Pineal, the Solar Plexus, the Kundalini from the Tail bone up the spine. All of these activations of the 15 Chakras take place from bringing in the Stardust Flow from the original Source of Light and Sound in the Cosmic Light Factory.

This Stardust and Pre Stardust Energy is absorbed into the Astral Field around the Body. That Astral Field is what has been blocking the return to our Complete Archetypal Template of the original immortal man. That Astral Field must be saturated with all of the Consciousness from the Stellar Waves sent by the Universal Life Force.

The body must be aligned into the Spiritual Body of the Parallel Universe to achieve Bodily Ascension.

The final song is the Cosmic Massage is bringing the Frequencies from all 15 dimensions of the Earth's Time Matrix into the Body These are the frequencies that allow the attunement into the full spectrum of light and sound.

The Tower of Babel

TOWER OF BABEL THE QUARANTINE FENCE

What has been called the Quarantine Fence of 9450 B.C created a separation in consciousness in the angelic race line, that made us forget who we really were Our consciousness was actually divided into 12 fragments, which resulted in 12 groups of people being scattered around the world trying to remember who they were. In order to regain their identities, each of them created a culture and language of their own We were also separated from our souls and over souls by disconnecting the base tones and over tones of the sub harmonics of our DNA.

This is why this entire process of DNA restoration requires re-connecting these sub harmonics that

were broken apart by the frequency fence The restoration of our consciousness, our memory of who we really are and the activation of 5 DNA are all a part of the same process The fence can only be mended through our participation in the Universal Life Force Protocol of Stellar Wave Activations and Infusions.

When I was working on my Master's Thesis in Ethnography and Anthropology and Neurolinguistics within the Field of Education to show how Education is only created to justify the validity of the culture, the language and the society that has been created, I learned that the ignorance of all involved in the process of Education comes from this missing fact that all cultures were created as a result this state of amnesia, which began 10,000 B.C., along with the other sets of disconnection from the Mind of God as far back as 5 5 million years ago

I continued my research six years beyond my masters degrees in four subject areas to complete a Doctorate in Education that provides massive amounts of evidence showing that our true Education comes from a Higher Consciousness outside of ourselves, all Communication is actually Authentic Encounter through Knowing, the courses in the fields of Education are only for the purpose of indoctrination into the given culture, and provide no foundation for learning the true reality that is our divine right to know.

We have been mis-educated for a very long time. The Guardians have begun the re-education of the human angelic race They began this education through Mary Baker Eddy 200 years ago They began again with the School of Enlightenment over thirty years ago. They began with Bashar's teachings, Keylontic Science, and several other sets of channeled teachers, who have each gone through the entire Ascension Process themselves.

This education is being shared in the Cosmic Mystery School of the Omniverse teachings to help prepare the consciousness of the world for what the Guardian Races will be revealing to those on our planet in 2017.

It is highly unlikely that our old Education Systems will have much validity after 2017 The actual consciousness that was ours before the Tower of Babel (created by the Quarantine Fence) was the Divine Consciousness of the Human Angelic Race. We had a consciousness that was so in tune with each other that there was no need for language. Our language was the God Language and it was telepathic.

This is how we were separated from our Divine Multidimensional Heritage of being Universal Beings who could communicate with everyone in the Universe, in the Galaxies, and in our own Planetary Systems.

This Quarantine Fence needed to stay in place until the time came when our Solar Merkaba, Planetary Merkaba and Universal Merkaba could be realigned back into the original time cycle when the 12 Stargates could align with the perfect moment of attunement with all 12 Universal Systems.

The mission of the Cosmic Mystery School of the Omniverse has always been to help others learn the true Education of our Universe. It has nothing to do with the Education that has taken place in America or in any other culture. It has to do with the broadening of consciousness to realize that there actually is a reality far beyond what is taught in the schools or in the churches. There is a multidimensional reality that is known through Light and Sound.

This education can only take place in those who tune in to the new frequencies that have been given to Earth and to our Consciousness

Crystalai has been collecting the Frequencies of Consciousness that have been transmitted to Earth beginning in 1992, which was the year that the Promise of Ascension was made by the Guardians. Crystal Magic Orchestra created **THE PROMISE** album in the exact same time period when the 11 11 Fence was being prepared for removal by the Magnetic Base Tones being sent into the Morphogenetic Consciousness field of

our harmonic universe This was the first layer of frequency attunement needed in order to complete the removal of the Fences in time for the 2017 completion

So, you see, this preparation of the grand event of The Promise of Ascension has been taking place in several stages for several years The Cosmic Twins have been involved in this process since day one.

DNA INITIATION THROUGH STELLAR WAVE INFUSIONS

The Frequency Activations called the Stellar Wave Activations and Infusions were sent to Earth through waves of Light and Sound Tones penetrating through the Frequency Fences, as if they were not there It required a Blanket of Consciousness that was Cosmic to penetrate the Fences and remove them.

Part of the removal process was actually moving the Earth into a higher accretion level. This required moving the Earth to an actual different place in space and time. The Earth was actually lifted above the 11 11 Frequency Fence because the Zetas placed a rip in the Merkaba of the Solar Shield that could not be restored in time. The Earth was removed

beyond the Phantom Matrix in December of 2012. This placed Earth in a brand new time line to begin a brand new reality.

CONSCIOUSNESS OF STELLAR WAVES

The Stellar Wave Infusions restored the Universal Primary Consciousness of the Earth's Morphogenetic Field Each set of Waves and Activations brought one more piece of Consciousness back into the Earth that had been blocked out by the Frequency Fences. The pieces of Consciousness included the Pleiadian, the Sirian, the Arcturian, the Andromeda, Orion, as well as the Solar Field. Each of these fields of consciousness needed to go through a process of Infusing the Consciousness into the Biosphere of Earth and then Activation which went on for several years. Each of these stages took several years.

The piece of consciousness that came to Earth through the Solar Light Fields carrying the Pleiadadian Violet Waves and the Sirian Activation in June, 2008, was the piece of consciousness that is required for the activation of the 5 DNA

The picture of me holding the violet orb shows how this Stellar Wave infusion takes place and how it can be used to activate the 5 DNA DNA

activation takes place in many stages just like the wave infusions and activations took place in many stages and took long periods of time

Each DNA has 12 sub-harmonic strands that must each go through a stage of Initiation and Consummation within the DNA strand itself The DNA strand cannot reach its complete Consummation – meaning it's ultimate Perfect State that allows it to begin transmitting the Perception field of the dimensional strand below it, until all of the sub-harmonic strands in the DNA below it have gone through their Initiation process

So, you see this DNA activation takes a period of time for completion. The reason that many of us on Earth already have 4 DNA or 5 DNA, and yet we do not see a difference in what we perceive, is because we can only perceive what has been completed one DNA below the one that we have consummated

This means that we actually need to Initiate the 12 sub-harmonic strands of our 6th DNA before we can perceive what has been Consummated in our 5th DNA strand.

ASCENSION DNA PROCEDURE

There is one more underlying element to the Ascension DNA procedure The Human Angelic Raceline has already been given the GIFT of 24 sub-harmonics This gift was given by re-uniting the Parallel Universes. Each Universe has a Parallel Spiritual Universe, and each individual has a parallel spiritual SELF. In order to activate the DNA at the 24 sub-harmonic level, the Human Angelic must become attuned into oneness through harmonic convergence with the Parallel Spiritual Self.

KEYS TO BIOLOGICAL ASCENSION

So, there are two parts to Ascension Anyone who activates their 5 DNA between 2017-2022 will be prepared to ascend into Tara after death. Anyone who activates their 5 DNA through the 24 sub-harmonics of their Parallel Spiritual Self and becomes At One with their Spiritual self either before 2022 can bodily ascend to Tara

There are other ways to get to Tara There will be space ships landing in 2017-2022, who will assist in cloning bodies and taking them to healing temples in Sirius B to prepare for ascension. This is the path

that was opened to everyone- including Fallen Angelic Races, because of the path opened in 2008 by the Sirian Council and the help of the Cosmic Twins to be the first to carry demonic entities home through that path

When aDolphino was cloned and taken on the Sirian Star Ship to the healing temples in Sirius B, he was also given the gift of 6 DNA upgrade, which would allow him to ascend to Gaia. The removal of the 6/6/6 Seal is required to return the Immortal body which will never see death.

The mission of the Cosmic Twins was to activate the process of initiation and consummation of the 5DNA for the masses as they began their initiation of the 24 strands of sub-harmonics into the 6DNA strand in 2008 The final consummation of the 6 DNA strand is scheduled for 2017

Those who go through this process of activating their DNA through the light and sound frequencies that carry the consciousness of the Solar, Pleiadian, Sirian, Arcturian, Andromeda, and Orion, are also activating the light within themselves that allows their bodies to transform into this light energy, as is shown in the picture of the violet orb.

In the near future, human beings will be taking classes in orbing, levitating, walking through walls, telecommunication with entities all over the planet,

galaxy, universe and solar system. All of these activities require learning how to turn the body into the light body, which is the essence of what it really is This requires becoming One with the Spiritual Self. This requires absorbing all of the dimensional frequencies of all five harmonic universes in order to leave the time matrix that these harmonic universes are within

We have just completed the most difficult stages of our Evolution and preparation for Ascension. 2014 will be the year that is remembered as the turning point in the Human Angelic Raceline Journey to prepare for the return to the 12 Coded Christic Emerald Covenant of the Perfect Universe 2017 will be the year when the race lines who have been our actual ancestors, soul family and friends from around the Universe will join us on Earth. We will first meet the Inner Earth Eieyani and then the Sirius B Majaraji, and then later, the Azurites and Seres Many of us will remember our lives as the second seeding of the Seres race line, who were known as the Egyptians, some will begin to remember more and more of the bits and pieces of their past ten million life times as the complete consciousness that was broken in half by the Quarantine Fence weaves back together through the Stellar Wave Infusions and Activations

In the near future, human beings will be taking classes in orbing, levitating, walking through walls, telecommunication with entities all over the planet, galaxy, universe and solar system. Of course, many of us have already been taking these classes for over a decade.

All of these activities require learning how to turn the body into the light body, which is the essence of what our atomic structure really is. This requires becoming One with the Spiritual Self. This requires absorbing all of the dimensional frequencies of all five harmonic universes in order to leave the time matrix that these harmonic universes are within.

This is the story about the Violet Sphere or Orb that I'm holding in my hands which was created by the D-6 Stellar Wave Activation of Sirius and the completion of the D-5 Violet Wave Infusion. This was the day the miracle of Stellar Wave Activation and Infusion took place simultaneously on Earth. And this is the picture that the Sirian Council wanted me to take. This was also the day that the Fifth Dimensional Dolphins Ascended into the Cloud Cities to prepare the path home to the Violet Sun. That was the date we created the Ultra Violet Blue Sun Album.

The Electric Over Tones of the Sub-harmonics were returned to Earth through the Stellar Wave Activations and Infusions. Over tones are

frequencies of Consciousness from our Starry Families of our Higher Selves Original Creation, and Base Magnetic Tones are from our original Root Race Families Our DNA is made from Over tones and Base tones in the 12 Sub-harmonic strands. Those overtones and base tones were disconnected from specific chakras to remove the immortality from our race line.

The picture show was taken the day the Cosmic Twins were involved in the process of the Stellar Wave Activation and Infusion of the Violet Wave The Stellar Waves brought in the Over Tones

We also needed to reconnect the Base Magnetic Tones to Earth. The Base Tones were disconnected from the Earth's Field when the Guardians put up the 11 11 Frequency Fence to save us from Solar Explosions in 1972 Base Tones are the Magnetic part of the sub-harmonics of the DNA and Over Tones are the Electric part of the sub-harmonics of the DNA. Our DNA was disconnected when Frequency Fences were created. There were several of these Frequency Fences over the Eons, and each one placed a Seal between DNA strands.

I am only talking about this one Frequency Fence that was created by the Guardians in 1972-1974 This one Fence was created to keep Solar Explosions from happening on Earth that would have destroyed the planet. The Solar Explosions

were a result of the Zeta's cutting a whole through our Solar Merkaba.

The Over Tones that were returned by the Stellar Waves of the Universal Life Force Currents had been blocked by the Quarantine Fence of 9540. So, you see there were two separate Fences that needed to be removed These Fences were blocking the return of the portal between the Inner Earth and the Photon Belt of Sun Alcyone When the portal is restored, the flow of Consciousness from above and below – overtones and base tones – can reconnect

The Cosmic Twins were also involved in the process of bringing the Base Magnetic Tones to Earth to remove the 11:11 Frequency Fence in 1992 That was the date we created THE PROMISE ALBUM.

This is a true story of how DNA Activation actually takes place through the Universal Plan of Stellar Wave Activations and Infusions, followed by DNA strand Initiation and Consummation The races of Earth are finally reclaiming their reality of their 12 strand DNA construction and returning to the heavenly land of Terra Firma. The per-requisite for this reality is activation of the 5th DNA Strand

Our Guardians have sent Universal Life Force Currents of Light and Sound Consciousness Waves called Stellar Wave Activations and Infusions for the

purpose of activating the DNA There is no other way to activate the DNA than to participate in these Activations and Infusions of the 12 dimensional frequencies which are inherent in the Stellar Waves.

Stellar Wave Infusions and Activations create the time acceleration shift that is needed to advance the evolutionary blueprint through consciously assimilating these energies into the body. Yes, the wave infusions and activations did take place No, not everyone consciously assimilated these activations into their blue print that would begin to create better health, vitality, multidimensional awareness, access to knowledge of all lifetimes in all dimensions and immortality.

If the stellar wave frequencies are not assimilated into the body, the time acceleration would create degeneration of the body rather than the re-birth process into immortality.

Those who are on the Ascension Path will accelerate their ability to communicate with the Guardians until complete telepathic communication with the over soul is reached. Communicating with dolphins is one step in the process.

There were Six Waves of Infusion and Six Waves of Activation

The Waves and Infusions came from fields of Consciousness. The D-4 Solar Activation in 2000-2004 together with the Blue Wave Infusion of 2002-2006 caused the Solar Spiral to align with Earth's Merkaba fields That caused the frequencies of the Earth's Consciousness Field to rise exponentially.

PLEASE NOTE THAT the VOYAGERS 2 book, by Ashayana Deane show that this time line of activations is one of the Three Possible Heroic Futures. There are two different time lines given in that book.

This is the actual record of MY PERSONAL EXPERIENCE of meeting with the Sirian Council who Activated the Sirian Spiral in June 2008. That was one of the time lines in Deane's book.

Next, the D-5 Pleiades Activation of 2004-6/2008 and the Violet Wave Infusion of 2006-2010 increased the Earth's frequencies exponentially again by adding the consciousness of the Pleiades-Alcyone Spiral to align with the Solar Spiral Merkaba Fields

The third activation took place 6/2008 and ended in 2012 The third activation was the D-6 Sirian Activation. This activation followed by the Gold

Wave Infusion allowed the Sirian Spiral to align with the Pleiadian-Alcyone Spiral Merkaba Fields

This Third Activation that took place in June 2008 is the time that this picture was taken for the purpose of showing the Violet Wave Infusion and the Sirian Activation simultaneously taking place.

The picture is showing the completion of the Violet Wave Infusion. The Violet Wave Infusion was completing at the same time in June, 2008, that the D-6 Sirian Activation began. I was asked by a representative of the Sirian Council to move to Monterey, in order to be there at this exact moment in history.

The Cosmic Twins were living in Redwood Shores, and had wonderful, well-paying jobs when Zaurak, my Starry Brother from Sirius B, came to our living room in April, 2008, and asked us to be completely moved to Monterey by May, 2008. We immediately gave our resignations and began packing, and started searching for the correct apartment to move into in Monterey.

This is the reason that the Violet Frequency was activated within me as I connected my consciousness into the Elohim of Hearing in Gaia to bring the highest frequencies to Earth through music When I exhaled this Violet Wave, the 5th DNA completed its activation, which is called DNA

consummation At the same time, the D-6 Sirian Activation began.

This Stellar Wave Activation was required to begin the activation of the 6th DNA strand The 5th DNA consummation could not complete until the 6th DNA initiation had begun. This is the process of DNA activation.

This process of DNA activation is a huge Universal and Cosmic plan which required the Consciousness of the entire Solar System, the Pleiadian Consciousness, the Sirian Consciousness, Arcturian, Orion and Andromeda Consciousness. These streams of consciousness brought in the Over Tones of the Sub harmonics into the DNA.

Moving to Inner Earth 2017

Those who are in their 5D template will begin their shift into the 5D reality of Tara between 2014 and 2017 Those who still have a little bit of DNA activation needed before they can open their eyes to the new reality of Tara, will be in the New Earth where Earth has already risen into oneness with the accretion level of Inner Earth. Some of you may know Inner Earth as Shamballa or Agartha All that you know about the magic of these places will appear before you on this Earth as she is transformed through the Light of the entire Cosmic Matrix of 12 Cosmic Light Fields streaming through the Earth and all who are upon her in December. So, you see, even those who aren't completely fifth dimensional will have a wonderful new reality to meet.

Our Blue families from Inner Earth will appear to those who are awakening into their new consciousness The appearance will be gradual as those on Earth awaken gradually It is not that they aren't already there, it is just that the 5D perception will be required to see them New buildings will appear out of nowhere as our vision is aligned through our higher selves to see the new reality The new perceptions will grow into complete new structures, passageways into Inner Earth will appear, new plants that sing, new birds, new realities of the imagination will grow each day This group of human consciousness will grow completely out of their 3D perceptions into this new reality of 5D. Those who need help in this process will be assisted by our Guardian Families from Inner Earth

As the mind rises into the at one ment with the higher self, when the Ego and the Higher Self become One, the third eye perception that allows us to see the invisible and the visible realities around us. The 5D perception is the invisible realm becoming tangible through the multidimensional transition in accretion level As we transform into the New Earth realities, and the Tara realities, our bodies become less and less dense, the physical forms become less dense, we begin walking above the earth and above the water. The body will find itself in perfect health always There will be no need for hospitals. The healing centers are for

removing crystal seals, aligning DNA strands and transforming the entire biological structure into the silicate matrix.

Those who go into Inner Earth will be transformed by their Blue Families who will use crystal water healing pools, rainbow waterfalls of light energy, crystal temples of healing and other high technologies of transmutation. Our Blue families will assist all who are on the New Earth reconnect into their Divine Blue Print that allows them to engage their souls on Tara and Gaia Those who already have their 5 DNA strand will have the opportunity to be teleported to Gaia and a few will go on to Aquafaria.

When we wake up from the three day particle acceleration period we will feel a little disoriented, lighter, the atmosphere will feel light, we will soon perceive a different relationship between the water, air and ground We will feel a different relationship with the Earth and the natural forms. We will realize we are one with all elemental forms and all plants and animals

The Earths angular rotation of particle spin will be transferred into the rhythm of Inner Earth, Agartha Those who raise their frequencies into the Earth's higher vibrating pulse will perceive Inner Earth as their new reality Those who don't raise their frequencies will keep seeing the old 3D

Earth because they are still only carrying that old perception in their minds of their EGO instead of allowing their higher self to allow them to see a higher reality

The more those on Earth connect their minds into their higher self, their 5D strands, the frequencies of Inner Earth, the more harmonious the three days of acceleration will be Everyone on Earth will notice that there are massive gamma eruptions, solar flares, earthquakes, electrical interruptions, etc. However, only those who have a low 3D perception will have intense negative reactions to these changes If one raises their frequencies into activating the 5D that is available to all on Earth, their negative experience will be minimal.

The large catastrophic massive Earth changes will only happen in the event of being located within the frequency field of the phantom 3D matrix Each individual can remove themselves from that potential of being located in a low frequency area of the Earth by following the direction of their higher self and by removing themselves by transmuting their bodily frequencies above and beyond the 3D frequency fence

The Earth's grid will be in full alignment with Tara as the morphogenetic filed of consciousness passes into the Earth's bio energetic field by 2017 The Earth will seem the same but better at first to those

who are still in lower frequencies Those will grow more and more in their awareness of something different until their level of accretion is also raised through the frequency fields of the Earth. The entire Earth population will have the opportunity to assemble D5 through D9 and time travel to Tara.

Earth begins intersection with Tara's grid, the Blue Flame will engulf the Earth's atmosphere through Sun Alcyone, the fifth DNA strand will rapidly assemble, the Ego will align into Oneness with the Higher Self. Earth populations will begin a new awakening.

Those of us who are transported to Tara or Gaia will be met by a loving family as well. We will meet teams and guides and we will be given all of the loving support for our new cultural voyage. Those who are preparing to ascend into Tara will be given higher light transmussions that will prepare their bodies through orbing, intergalactic travel, or the opportunity to be reborn into a loving new family in Tara.

Our entire mission of our Beloved Cosmic and Universal and Galactic Soul families has always been to guarantee our safe ascension back to our divine blue print of our Divine Creation Our Starry angelic families use the Divine Science of Frequency and Light technology to transmute into higher accretion levels of particle base and spin

We are all beings of light and we always have been Unfortunately we have gone through 550 million years of trying to ascend back to the time before the Phantom Matrix was created We were all in some way, through a morphogenetic field of light and energy consciousness, a part of the original idea that Source created when we were the Divine Beings of Gaia, in the third harmonic universe

Even though fallen angelica completely obliterated the Oraphim race, the races of Tara and all of the consciousness of that matrix, our morphogenetic blue print of our original Divine Idea of Source still exists. That morphogenetic field is the sphere of consciousness that once held our entire 12D Divine Blue Print where all 12 strands of DNA were connected.

We had our Divine Blue Print broken apart by fallen angelic races placing crystal seals between the DNA strands to separate them Now we are having our DNA reconnected one by one as each stellar activation occurs. Each time there is a stellar activation another avatar is born through the sphere of consciousness holding our original divine blue print Each time another avatar is born, another piece of our DNA is put back together in our divine blue print. May 5, 2012 the sixth avatar – a 12th level avatar will be born This is the highest level that can be born on this Earth. This baby will have all 12 DNA strands aligned perfectly into the 12

Divine Blue Print. This birth will create a mass awakening on Earth for all who are tuned in. This birth will allow the activation of the 7th strand to flow through the Earth's core and grids in order to activate the seventh level man on Earth. The seventh is the activation of the pituitary When the pituitary is in full bloom, we have the mind of God.

Creating Illusions

There will be no trace of the 3D Illusions of this Earth after the phantom matrix is removed. This present Earth has been tampered with in so many ways, to block as much of our reality of our Divine Self. There are crystal seals in our bodies, in the Earth's grids, in the atmosphere, in our oceans, blocking our connection with our Divine Self Even, this 3D Earth reality is nothing like a normal 3D reality This Earth is a part of the fallen system that has been completely occupied by and controlled by fallen angelics making people on Earth think they are the grand ascended masters that they are channeling Now, it all makes sense, why so many wonder why their life sometimes seems like hell.

The death and destruction movie ending isn't going to happen because the frequency fence that

would allow that movie to be created will be taken down by the sixth 12th level avatar The movie ending with the massive Earth catastrophes will not happen. The movie that the fallen angelics were planning to play through illusions painted in our skies will not be allowed to be performed.

The holographic illusions designed to terrify the world was all a part of the fallen angelic plan that was created about the same time the U S was formed. The idea had been infiltrated through New Age Channelers for over two hundred years The fallen angelic signed a peace treaty with our Cosmic Guardian alliance to agree to stop the frequency fence of illusions and to join the good guys That peace treaty that agreement fulfilled the plan of human race normal ascension about 4000 years from now.

Thanks to the fallen angelics for breaking that treaty, our ascension has been pushed forward several thousand years, plus we will be placed into a time line that is more than 2218 years advanced from where our present consciousness lies when we are transformed into our Inner Earth acceleration and then over 5500 years advanced when we are transported to Tara. Those who are translated into Gaia or Aquafaria is beyond our wildest imagination. Those realities are light years in advance of ours

So, we thank you kindly fallen angelics for forcing our Cosmic Guardians to create a fast forward that would take us far beyond the time and frequency that could lock us out of our divine blue print forever The time period of the peace treaty of the fallen angelics allowed them to mass infiltrate the minds of many seekers of truth They could make themselves appear as the good guys through astral projections and entire teachings of their seventh level agendas that would lock humans into the fallen Milky Way galaxy as their new reality. Of course, any reality beyond this 3D reality sounded very interesting, and who would had known that the Milky Way was a Fallen System in itself. We were all born into a system where we thought the scientists knew everything about everything and that whatever we knew about our galaxies was the truth We thought that getting help from entities who were higher than we were was a good thing Little did we know, that almost every intergalactic race in our universe is wanting to use us for their food and fuel.

So, all of these fallen angelics had made an agreement to join the good guys, used that time period to trick us, and then they broke their treaty in 2000 and went ahead with their plan to pull us into the wormhole where we would be used as food and fuel.

They used their time period to engage our planet and implant frequency fences that would provide means to create illusions of reality to trick our government and those with innocent minds They put up sonic pulsation transmitting devices far beyond what we know as HARRP. Their sonic pulsation is performed from intergalactic portals where Nibirian Ships are parked Those ships are under Stonehenge, England, Bahamas, Canary Islands, Salt Lake City Lakes and a few other locations.

Their first transmission was from Stonehenge to create the fall of the twin towers on 9/11. That was the first step of the Dracos Zetas plan of starting world war three. The Zetas puppets were put in place to instigate the war The frequency fence was placed on Earth with the help of Zeta puppets creating the 1943 Invisible boat to win the war with Japan, the Montauk project of 1983, and the final frequency fence of 2003 that would allow the creation of the illusions of the Galactic Federation, Mother Mary and Jesus to appear in the skies In 2008 the fallen angelics created the omega virus to trap indigo three children through the combination of the net of chem trails and other neuro transmitters through inner space. Finally in December 2010 they tried to force the reverse of the sphere of amenti to make a pole shift happen. The starry families spent all of 2011 creating a strategy to remove that reversal which completed in the

world war three in the heavens between June and October of that year.

Now we have entered the final stages of removing all of the karma that is disconnecting us from all of our past lives and soul selves That karma is being removed by the gamma and solar and all energies coming from the sun The crystal seals are being melted away by stellar activations and we have been given every opportunity to engage our 5 DNA to engage in a perfectly harmonious transition into TARA Meanwhile the Zetas continued to build their own drama of the reality that they would like to engage. They abducted children and parents to gain access to DNA codes that would allow them access to our star gates, and through channelers of mis information. The three frequency fences would cause enough damage to Earth's merkaba fields that it would guarantee that destruction of Earth and human populations if our Guardians did not shift us forward 2013 years beyond the time matrix that would had ended the existence of the human angelic raceline.

The Truth Shall Set You Free

THE TRUTH THAT SHALL SET YOU FREE CHANGING FROM THE AKASHIC RECORDS TO THE EKASHA RECORDS

The **ETERNAL LIFE ALBUM** is a personal HEALING SESSION It could be likened to what would be expected if one of you went to a Reiki Healer or Sound Healer for healing sessions. It could be likened to having eight hours of healing sessions per day for a week.

To order your **ETERNAL LIFE ALBUM** go to crystalmagicorchestra.com.

It is similar to AKASHIC RECORDS reading because it is the created by Entities of Pre Light and

Pre Sound working directly through the original Divine Blue Print of the ORIGINAL IDEA of MAN MADE IN THE IMAGE AND LIKENESS OF GOD.

This divine blue print of the original structure of the HUMANOID form made in the Infinite VOID of Source Consciousness was made ETERNALLY PERFECT.

In contemporary AKASHIC RECORD readings, the readers have been using a formula that is based on the 8th dimensional harmonic Those Channelers are taught to go 8 inches above the head to connect with the Akashic Records. Those Channelers are also taught to move their Consciousness into the Earth to absorb the Consciousness that will align them into the Frequencies of that person whom they are doing the reading for.

In the NEW EKASHIC TEACHINGS, the EKA is the Pre Light and Sound Creation Field of the Spiritual Creation Phenomena of Light and Sound Creation. The Eka is the Spiritual Parallel Universe of the Veka Universe.

The REQUIREMENT for Biological Ascension is to become At One with the Spiritual Self We become at one with our Spiritual Self by absorbing all of the Light and Sound from the Eternal Light Field of all 15 dimensions of the Earth's Matrix and then Blend

that Light and Sound into the Full Light and Sound Spectrum of the SPIRITUAL EARTH's Matrix.

The difference in the OUTCOME of AKASHIC RECORDS readings and the EKASHIC Records of the Eternal Life Spiritual Parallel Self is the Pre Light and Sound Frequencies that are collected from this complex interdimensional Electromagnetic Sound Field contains the PERFECT FREQUENCY SIGNATURES of all of the Selves that you have ever been.

The AKASHIC RECORDS searches for those Patterns in the Life Times of the Old Souls that have recorded your journies in one or two of your lifetimes.

The EKASHIC SESSION aligns you back into your Spiritual Self in all Dimensions, in all lifetimes in the planetary, solar, galactic, universal and cosmic time lines of your existence.

We must complete this alignment back into the ALLNESS and the ONENESS of all that we have ever been in order to perform the REBIRTH into the AKASHIC RECORDS of the ORIGINAL PERFECT Man made in the image and likeness of God We must use this Complete Formula that moves the Physical Body completely into the Ascension Portal of Pre Plasma Light and Sound Vapor or Crystal

Liquid Light Vapor, in order to allow our Cosmic Template to re-create our original perfect bodies.

When I create the **ETERNAL LIFE ALBUM** I first go to Source Consciousness field and ask Source to hold the 12 coded divine blue print of the individual (the name of the person who ordered the ETERNAL LIFE ALBUM) inside the flame of eternal life creation that the idea was originally made from (This name Frequency Signature is obtained differently than it is in the old teachings of the Akashic Records because the Akashic Records Channeler is only searching for one lifetime of that Soul Essence).

The Formula that I was given to create the ETERNAL LIFE ALBUM was given to me by a Cosmic Team who knows everything about everything five years before it happens on Earth. The Consciousness with whom I am communicating with me already knows everything about each person's infinte lifetimes even beyond the 5 5 million years in the Earth's Matrix They often prepare me to create albums before the order is made. They direct me to create orders without knowing the name of the person. The person's NAME is the FREQUENCY SIGNATURE of this Life time of the Soul and only this lifetime

The Consciousness of the COUSHIC records created from the EKASHA Field of Spiritual

Reality is a Phenomena that is very similar to the AKASHIC RECORDS; however, the Records are actually movies of all of the Lifetimes of an Individual within all 15 time matrixes within the 15 dimensional time matrix of the Earth

So, we are talking about the Etheric Essence of Spiritual Reality at the moment of creation from the Mind of God who creates a new reality every nano second.

The old AKASHIC RECORDS create a light portal from 8 inches above the head and then into the Earth's records

The NEW KEYLONTIC SCIENCE teaches the Healer to connect Consciousness 36 inches above the head into the Cosmic Field of Pre Light and Pre Sound of the 14th and 15th Dimensions of Heliotalic Silver Pastel Violet Flame Creation Energy. This field of Consciousness is Perfect, Always has been perfect and always will be perfect

When the EKA Body is being connected to within the Earth, we take our Consciousness down into the Earth's Crystal Heart deep within her Vortex and then travel deep within this funnel into the 13 5 Cosmic Core of the Earth's Iron Core This places the Light Portal of the Akashic and Coushic Records through the Vortex and into the Consciousness when the breath is exhaled Whereas

the old Akashic Records were found in the Earth's Iron Core of a Fourth Dimensional Realtiy Field, we must travel deep within the Vortex into the Stargates that are a hub into all realities

When the Akashic Reader helps the patient to find the Life time that has created a continuous problem in their life, the answer that is found is an answer that comes from the Astral Realm When the practitioner attaches consciousness 8 inches above the head, they are moving into astral consciousness. That Consciousness is only 4th dimensional substance that contains all of the problems that exist on Earth. So, of course it is easy to find the source of our problems in that layer of Consciousness

In the method of using the ETERNAL LIFE Frequencies of Consciousness, we are not searching for the problem, we are returning the PERFECT SELF that we were created to be The problems that were placed in the Astral Field were placed there to keep us locked inside of the Earth's Matrix

The Frequencies in the 14th and 15th dimension were created to give us ETERNAL LIFE.

We are each made in the image and likeness of Source. That image and likeness is a negative of the picture of the idea that Source is creating That idea is held within Source Consciousness and rebirthed into creation every trillionth of a nano

second When the brand new image and likeness is imprinted on the idea, the idea is reborn as a brand new image with the new thoughts and ideas of the new experiences encoded within it

I hold that idea within the Source Flame That idea is already perfect and it contains the 12 coded divine blue print of angelic raceline

That old idea that was created billions of years ago must go through a rebirth at this time. We are all being reborn into a new harmonic universe, a new space and time portal. Each time we are born we come into the planet through a stargate. Many of the stargates attached to Earth were destroyed and we were disconnected from many of them Now, we are being placed in a different time portal where we are back in alignment with all 12 stargates, which allows us to obtain the 12 sub-harmonics in each of our chakras

These 12 sub-harmonics comes from combining the spiritual coding from the chakras outside of the physical body with the chakras within the physical body. In order for an entity to return to a place in the universe, there must be an essence or a frequency signature of that entity left in that place from the time the entity left the place in the universe.

In order for our bodies to become realigned into the eternal life domain of the harmonic universe, I take the idea or the image that is within the Flame of Source and create a light body image of that idea. I place that idea within a flame. I use a candle flame. Within the flame is the complete spectrum of light, the entire rainbow. The flame includes the hertzian, infra red, visible light, invisible light, x ray light, and gamma waves. The idea is held within the complete spectrum of light of Source Consciousness.

That idea that is whole and complete walks through the candle to the other side and returns back with the connection of frequencies of the spiritual side - the blue body self. The idea becomes complete as it connects with the blue body.

The idea must also be taken in to the Inner Earth realms of the Cosmic Domain I take the idea into the Etheric Core of the 13th dimension and then into the 14th dimensional of the Spiritual Etheric Heliotalic Light Domain of the Cities of Light, the Inner Earth, and then down into the Crystal Liquid Light, the Mirror light of heliotalic frequencies This is the location of the Etheric Star Formation that was placed around the area where Earth is located now That Star Formation is called Urtha

This idea within the Source Flame must have its frequency signature implanted within the Cloud

Cities, Cities of Light, the Star Formation, the Aquafarian Realm of Urtha. The idea does not exist there because most of us haven't been there before. This place was created by the Aquafarians from the Aquinos Matrix millions of years ago as a refuge and an escape chamber for this time. Since we were never there before, we must leave an imprint there so that in the future we can go there.

Crystalai and aDolphino went to Aquafaria to leave this seed of their frequencies. However, when they went there, they were met by a family who took them to a crystal palace. They were told that they built this palace for them long long ago and it has waited for their return. So, there are in fact, a few of us who have been there before. That is why it is necessary to link frequencies of those who haven't been there before through the frequencies of those who have been there.

When the client is being put through the eight hour healing sessions, the old damaged codes within the chakras are transformed by having the frequency signatures of the individual returned to the original perfect divine imprints. This coding is imprinted in each of the chakras to align the 12 sub-harmonics of the perfect raceline back into the individuals template.

Each cell in our body is supposed to contain this divine blueprint that was created in the image and

likeness of Source. As the clients idea body is taken into the crystal liquid light of Inner Earth and into Urtha, the heliotalic frequencies emerge from the skin and the skin becomes the shining

The healing takes place from the within, beginning with the blood crystals transformation, the bones turn into sound frequencies and the skin turns into light

Each one of these steps of transformation takes a great deal of focus, alignment into the allness of Source Consciousness, a continuous holding of the idea within the flame of transformation. Each time I focus on one specific aspect of the entire healing of the body, there is one tiny little breath involved. Each time I can feel and hear that the breath is perfect and the healing is complete, I record that breath

I layer each of the breaths of transformation for that one specific individual into my recording mechanism. By the time I am finished, I usually have five hundred or more breaths Next, I weave these breaths into the formulas and frequencies of codes of attunement that the Guardians and Source direct me to Each individual is given a different set of codes and formulas. These codes come as frequencies and I breathe them. Some times they are heard as tones of God Language and sometimes

they are pure breaths. Each recording comes out very different.

I am giving this guideline to help my readers understand why this item costs the price it does. I am sure that there are not any Reiki healers out there of any reputable nature that would give you eight hours of healing sessions for three, four or seven days in a row for this price

Once a client returns from a Reiki or Sound Healing clinic, that healing will sometimes last a day or a week, if the client is lucky That is because the old Reiki technologies are based on the Chi of an energy that has been blocked from Source for eons of lifetimes. Taking an energy that has been broken from Source at the Cosmic level and trying to do the repair work at the Planetary level just does not fix the problem.

This problem that is blocking our eternal life system happened billions of years ago, and the guardians have been working on fixing it for billions of years. There are many problems in each level of creation, far beyond the chakras within the body. The frequencies must be realigned clear out into the Universal Spheres, Cosmic Spheres, pre sound and light realms and the allness of Source's original idea of creation.

So, we are talking about a healing that would last as long as a band aid, or one that is complete and lasts for eternity.

Ascension -Connection between Consciousness and the body. Ascension isn't just about being a good person, going to church and getting forgiven by Christ and then going to heaven It isn't that easy because there is a direct link between the consciousness of your spirit and the atomic structure of the body.

The part of the spirit that is embedded into the atomic structure of the body is called the JARI. It is a part of the spirit body If the JARI is trapped inside of the atomic structure at death, the body will not ascend It will continue to be trapped on the Earth and will continue to return This is what we did for the last ten million life times Our JARI has been stuck inside of our atomic structure.

We must make sure our Jari is free from the atomic structure in order to ascend out of here

We must transmute our spirit body out of the atomic structure in order to ascend. Once we have done that so many times that there is no quantum left in the body to ever ascend out of it, the person has entered the path of FALL That person will need to return to Source through space dust return -ashes to ashes dust to dust. That is what would

had happened to this planet and everyone on it if we hadn't been given the assistance of the AQUARI Matrix.

The path of Fall means the person just won't remember anything. They will return to Source and start over again.

In a normal system that is not in Fall there is an eternal flow of energy giving an eternal source of eternal life

So, we take this perfect formula of creation and rebirth that was given to us by the Guardian Races and we record it because it is made of Frequency Signatures The breaths carry the frequency signatures and they are recorded in perfect harmonic convergence. Each of the frequencies transmutes into the highest frequency of Source Consciousness in order to hold that reality of the divine code for ever.

The songs within the **ETERNAL LIFE ALBUM** each contain specific frequency signatures, dimensional portals, weaving and braiding of codes and tones from the Cosmic, Universal and Galactic light and sound that align DNA into the rainbow bridge of the full spectrum of light in order to lay the foundation for the transformation into the multidimensional 12 DNA template.

The words UMa A TrI Ena A EKASHA

are the God Language that connect our perfect Illuminated Light Body into At One Ment with our Pre Light and Sound EKa Spiritual Creation

When we say these words, and when I sing these words on your albums, I am creating the at one ment with the 14th dimensional pre light and sound of creation with the pineal gland in the brain.

The Sun image which is the 8th dimensional Consciousness actually exists at a 23 degree angle that would stream into the forehead and into the throat area. The 8th dimensional frequency activates the thymus, thyroid, seed atom and mid brain

When the Candle is used, the Full Spectrum of Light of all 15 dimensions is activating the mid brain. That is why the Candle turns Blue. When the Brain shifts into Frequency Specific, it begins seeing in Infra Red, it is seeing the other side of reality- the spiritual invisible light spectrum

Each section of the album streams in hundreds of different breaths from Cosmic Angelic Consciousness through the ELOHIM OF HEARING to draw together 12 sub-harmonics into each DNA strand, and then 24 sub-harmonics and then 48 sub-harmonics. Each of the sub-harmonics represents one frequency signature of the Individual in their reality in this time matrix

and the parallel of this time matrix and the spiritual parallel and the parallel of that time matrix

Each of the Frequency Signatures is woven together through the specific codes and tones to lay the foundation that activates the rainbow bridge into Source Consciousness.

The Etheric Frequencies are the Eternal Life songs sung by Cosmic Entities including Aquafarians and Elohim Angels to describe how they create kingdoms through the magic of light and sound. The songs are braided through the frequency signatures of all five spheres and fifteen dimensions to lay the foundation into the 24, 36, and 48 DNA Consciousness.

The next layer of breaths lay the foundation that connect consciousness into the 15th dimension of co-creation and manifestation. Breaths of Source are ignited when Consciousness has lain the foundation through Christic and Cosmic Frequencies.

The Ascension Program of Eternal Life Programming

Eternal Life Programming SHIFTS the cellular memory from a Mortal Based Program to an Eternal Life Program -

Personalized Frequency Realignment, Re-attunement and Reactivation into MULTIDIMENSIONAL CONSCIOUSNESS

When I send your Eternal Life Album, there will be AT LEAST 12 sections The sections are sometimes 12 songs, but not always.

Please realize that when I am creating the album for the individual I am being led through the Individual's Akashic records and their original Spiritual EKA- spiritual Coushas records. We have

always had a parallel spiritual universe, galaxy and self.

The process of Biological Ascension is the attunement into AT ONE MENT with the complete original Spiritual Self That image is created in the MIND OF GOD as a Breath of Source and then formed into an IDEA in the 14th dimension of the Silver Pink Heliotalic Creation Lab When the Earth's Sun, and all Seven Suns of Creation are formed into a new idea, they became the 8th Sun. When We attune into all that we were in the original Sun Alcyone of the Andromeda Creation, and then tune in to the harmonic universe five where our re-birth occurs, we have activated all of the TRANSFORMATIONAL ELECTRO MAGNETIC SOUND TONES that create the BRAND NEW YOU.

This process of attunement involves my Consciousness, which has already been trained to receive all Frequencies from the Elohim of Hearing, to follow a program and a process that involves connecting with the Consciousness of each of the 12 Stargates Basically, the 12 songs INCLUDE the Morphogenetic Consciousness of the 12 Stargates.

What are the 12 Stargates? The 12 Ascension Portals of each of the 12 parts of Consciousness of the original Angelic Human Raceline We originally had One Mind. We were originally the Cosmic Oraphim Race Line. Aligning our Consciousness

now into all Five Harmonic Universes, all 7 Cosmic Suns and all 12 Star gates is the BASIC FORMULA of our Ascension

Our Cosmic Light Councils were the creators and originators of our Race line and all other Race Lines who have agreed to help realign our Consciousness back into its original perfect form. They guide the formation of the Breaths in the Holographic Future Music, and they guide the exact Individual Eternal Life Albums creation.

The reason that the albums contain God Language, Star Language, the Stellar Waves from the 12 Star gates, and the Holographic Formation process of the Cosmic Light Councils from the Spiritual Parallel Universe, is because we are breathing in the Stardust ESSENCE of the Original Creation Substance, which has always been called Consciousness in Metaphysical Teachings.

The Original Perfect Idea from Source that we were created from has always existed and will always exist However, our Divine Template was broken in half because of major Universal and Galactic mutations created by reverse spin technology of light and sound.

Each creation - human, planet, galaxy, sun, star, universe- is created from the formula of the Merkaba mechanics The Cosmic Entity whose

name was Metatron created this great Cosmic technology which held the entire universe in perfect harmony balance and alignment.

However, there were other Entities who learned this exact creation science and decided to use it for the opposite reason. There were Fallen Angelic Races who had broken themselves off from the Eternal Life Source Creation Template, who then needed to find their Source of Life from other Planets and humans.

The most recent example of this was the rip placed in the Solar Merkaba Field of Planet Earth. That rip was created by the Zeta Rigelians to control Planet Earth The rip was placed in the Merkaba Field that held the Earth in the correct alignment with the Sun When the Earth is out of alignment-- even 13 degrees out of alignment- with one of the other pieces of the harmonic universes, the Planet and the Race Lines on the Planet are no longer in alignment with the Mind of God or the Divine Template of their Creation Formula The rip in the Merkaba Field of the Sun would had caused Mass Destruction of Planet Earth between 1972-1974, if the Guardians had not placed the Frequency Fence around the Earth

If the Guardians had not created the 11:11 Frequency Fence that blocked the Base Tone Magnetic Pulses from the Earth in 1972, the Earth

would had been blasted with huge Solar Explosions as huge as a State The plan of the Zeta Rigelians was to create a rip in our Merkaba Field that would allow them to travel inter-dimensionally into our Consciousness to control us and to suck our the Life Force Energy from our Consciousness

That was once piece of the problem There had been Seven Major Fences created for similar reasons over a period of about five million years. Each one of these Fences created a blockage in our DNA sub harmonics. The blockage created by the 11:11 blocked our Base Tone Magnetic Pulse Rhythm.

The Seals were actually created by the Guardian Races to keep our Race Line from being completely obliterated during each of the attempted take overs

The Guardians could not allow the removal of these Seals until our Race Line was placed in a Zone of Consciousness where there could be no more Invader Race Take Over attempts placed on the planet.

The Guardians had a deadline for securing our alignment If they did not have the Seals removed before December 2012, the Zeta Rigelians would had been able to complete their original plan, and the Draconians would had been able to complete their One World Take Over Plan that was backed by the portions of the Ashtar Command, Galactic

Federation and many other groups who have pretended to be Friends of Planet Earth over the Centuries.

The first part the plan required to remove these Seals was completed in 2012 There were Six Avatar Children Born through the Earth's Portals without those Seals in their DNA There were another 5000 Indigos born with the 6th DNA activated at birth and the potential of 8 DNA by 2017.

In addition to those requirements, the Guardians needed to bring in the Consciousness of the 12 Star gates. This was achieved by Six Stellar Wave Infusions and Six Activations from the Solar Spiral, Pleiadian Alcyone Spiral, Sirian, Andromeda, Orion, Lyra, as well as Inner Earth and Rainbow Spirals.

Each of these Stellar Wave Infusions was also responsible for Infusing the Light and Sound of the Consciousness of each of these Star Gates into the DNA sub harmonic strands. There were 12 sub harmonics in each DNA that needed to be Infused and Activated.

I am explaining these details because these are the same waves of consciousness that I breathe into each and every one of the Individual Eternal Life Albums.

There are various Albums that have one aspect of the Consciousness needed for the Ascension Process The Six Avatar Children's Consciousness Frequencies are in the Complete Perfect DNA Activation. The Stellar Wave Infusions are completed in the **ULTIMATE DNA ARCHETYPE**, however, there are a series of these activations in the Parallel Universe Set, Universal Life Force Set, Mother Ship, Dolphin Therapy, Violet Flame, and Symphony of Love.

There are many other pieces of the formula included in each of these other Sets. For instance, the Violet Flame focus is on the moment of Pleiadian Infusion and Sirian Activation. The Symphony of Love was the moment that the Music of the Spheres sang the new Song of alignment of all 12 Star gates The Heavenly Dolphin Therapy was the moment the Fifth Dimensional Dolphins became the Sixth Dimensional Dolphins. The Mother Ship contains the frequencies of the Cosmic Blanket that was wrapped around Earth by our original Cosmic Ancestors who have waited for this moment of awakening for 5 million years. The Cosmic Blanket is holding Earth in balance until she morphs into the Ascension Earth

Each one of these moments in the history of the Music of the Spheres alignment into the the original Symphony of Love which held all of our sub harmonic harp strings within this Cosmic Orchestra

that sings together through the alignment of the Harmonic Universes is an essential part of our Ascension.

WHAT IS ASCENSION?

It is basically removing all of the Fences that blocked our DNA sub harmonic strands from braiding together.

It is raising our Frequencies of Consciousness into a new reality.

Frequencies are raised by Lifting Consciousness up into the Five Harmonic Universes through the guidance of the Elohim of Hearing, the Cosmic Councils, the keepers of the Akashic Records and the Eka Records.

Ascension means becoming totally At One with your original Spiritual Body through the activation of your Spiritual Template within you.

What is a Spiritual Template?

It is scientifically created from pre light and pre sound which is the pre stardust, pre plasma essence of spiritual water called hydrolaise.

In the Normal Planet, an entity would be born and then spend the first 33 years of their life absorbing more and more of this spiritual substance that was called prana and manna and many other names Now we call it Hydrolaise, because it is the scientific formula of changing our entire biological and chemical structure of the Earth and out bodies

The album Eternal Life Waters holds the frequencies and the journeys for this part of the Ascension Journey.

There were many other steps to the Ascension Journey before we got to the Eternal Life Waters. The Stellar Waves exist partially in the Eternal Life Waters albums, as do the Dolphin Frequencies, the Mother Ship frequencies, the Avatar Children. BUT only PARTIALLY

The focus on one aspect of the Cosmic Consciousness at a time is the same as an artist who is painting the new Universes, the new Galaxies and having to align every single light particles within each of the 12 Star gates and each of the 15 Spheres of the Music of the Spheres together

This process began earlier in 2007 with the creation of entire albums of just the Cosmic Consciousness, and just the Ascension Portals, Vortals, Vortex, and the basic God Language

We began with these basics of Ascension back in 2007 They were contained in the Ascension Workshops given at that time There were many steps and stages of the process into 2012 Those who were on active duty of holding these frequencies in alignment with the portals of the Earth were the Cosmic Dolphins All of the albums created have been created with these Cosmic Dolphins called the Oraphim Braharama Cetacean Family

The albums that contained dialogs between the dolphins and the Inner Earth Aquafarians were recorded on Magic Dolphin and Cosmic Consciousness. The conversations with the Sun as the first Frequency Fence was coming down is in the Ultra Violet Blue Sun and in the Cosmic Butterfly If you look through the purchase CD section you will find the complete history of Frequency Activations that happened on Earth between 1992-2014. Most of the activations between 2012-2014 are on mp3 only Those will be updated to CD's in the near future.

Each section focuses on one part of the complete alignment into SOURCE The focus is always Source. We must align every cell through the micro omnions of Source and weave every particle into the Source Frequencies in all fifteen spheres of the Matrix. The Sun, is in a way, the creator of the Universe, because the Sun holds the IDEA of Source in the form of he Plasma that holds the crystal liquid light of Source. Each form of creation

- Cosmic, Universe, Galaxy, Solar, Planet or Person is always made from the original divine blue print template of Source.

When I send your Eternal Life Album, there will be 12 -16 sections, plus about ten minutes of pure AURORA FLAME energy - Cosmic Crystal Liquid Light- The Flame of Source Creation Energy Each section focuses on one part of the complete alignment into SOURCE The focus is always Source. We must align every cell through the micro omnions of Source and weave every particle into the Source Frequencies in all fifteen spheres of the Matrix. The Sun, is in a way, the creator of the Universe, because the Sun holds the IDEA of Source in the form of he Plasma that holds the crystal liquid light of Source. Each form of creation - Cosmic, Universe, Galaxy, Solar, Planet or Person is always made from the original divine blue print template of Source.

That template is manifest simultaneously in millions of density levels The Sun holds the template in the form of Plasma and creates Light Bodies. However, the reality that all forms of density allow all to become One, allows us in Reality - to live within the Sun. This is why we think of the Sun as our Creator. The Sun holds our individual templates that were made by Source. However, our frequency signatures and divine templates must always flow into our planetary

matrix through the suns matrix. So, this is why the Sun is thought of as the Creator We haven't experienced this reality of living inside of the Sun yet, because our Matrix was destroyed Now, it is being re-created in its divine template once again.

One of the objectives of the frequencies, which they naturally do themselves, when the breaths are from Source, is to realign the base tone rhythms within the entire time matrix. This process of rhythmic alignment of the Earth into the New Earth greatly affects the rhythm of body, which must always stay in rhythm and in tune with the Planetary Matrix that it moves within.

Please always keep in mind this rhythmic pattern that you will learn to hear with practice The rhythm is within the breaths themselves When I breathe from Source and record layers of those breaths and then breathe from Cosmic Consciousness and record layers of those breaths, there is a rhythmic pattern appearing within the breaths When I breathe the Universal and Galactic frequencies there is another rhythmic pattern. Each time I record more frequencies, I always re-saturate them with Source Frequencies to re-pattern the rhythms and the frequencies into absolute ATTUNEMENT with the Crystal Light Frequencies of Source Consciousness.

1. Feel the plasma flame surrounding the body and penetrating every cell in the body Listen to the rhythm of the pulsation and waves from the plasma flames. Feel the dancing waves swirling around the body and swimming into the atoms. Feel the plasma swimming deeper and deeper into the etheric funnels within the cells Feel the funnel of energy pulling the wave deeper and deeper until it disappears.

Listen for rhythms and work on moving your body to this beat.

2. Listen to the frequencies and feel the overall pull into the attunement with the highest frequency of Source.

The base tones are created by layering all 15 spheres of the Music of the Spheres Each of these spheres is filtered through the Breath of Source to create a brand new time matrix - Cosmic Time Matrix.

Each breath, each frequency contains the light and the sound - the radial atomic light that oscillates at the highest spin rate and the sound that vibrates at the highest frequency. The sound is the idea and breath of Source and the Sound is the resonating field activating the idea into manifestation.

The saturation of the Source Frequencies causes the entire rainbow of the 15 spheres of light and sound to burst into a flame and create a new set of spheres within a new cosmic matrix. This is the same process that the body goes through when it turns into light and reappears a nano second later as a brand new form This rebirth process happens every nano second The body will just keep reappearing to look the same as it did before, until the new frequencies of transformation are realigned into the body.

The process of the Individual Eternal Life album is to alter the entire cellular structure from the inside out as well as the Light Body and Crystal Body and Etheric Bodies which contain the Radial Body, which is the sphere of energy that is like an atomic mirror surrounding the body. That atomic mirror is also being transformed into the original 12 coded divine blue print that allows the new body imprint to be seen as the new reality around the body. That reality is projected from the mid brain projector creating reality through the pineal gland

So, much of the work I do on the Eternal Life Album is the restructuring of the mid brain through activation of the God Seed Atom within the Thymus that will burst into a cloud of crystal plasma dust and activate the streaming of crystal liquid light directing from Source Consciousness This allows the MIND OF GOD to be reconnected into the

mid brain for the beginning of co-creating through frequencies of light and sound.

Number 2

Breaths for clearing all miasms from physical and etheric bodies that are blocking the flow of the 12 sub harmonics into the physical body.

Number 3

Weaving the spark of Light of original creation breath of UMA UN (meaning the Illuminated Body from the Spark of Source Consciousness) into the AUM Breath (meaning the Return to Oneness with Source)

Number 4

Deep clearing through an almost complete silence with pure white light breaths So pure they become attuned into Oneness Listen deep within to the silence of clear clean stream of attunement with the Crystal Liquid Light Flow from Source into the Mid Brain, the Crystal Heart and into every cell of the body.

Number 5

Spinning your Merkaba - The Merkaba made of two triangles is the symbol of the Frequency of

Source spinning in Oneness with its creation The three pointed triangle pointed up and the three pointed triangle pointed down One layer is black which represents the 11 dimension and one is white - the 12th dimension. Together they represent the silver seed atom meaning the oneness with Source So, there are two layers of the triangle on top and two layers on the bottom That is three points over three points on top for six points and three points over three points on the bottom for six points. In reality the merkaba will appear three dimensional not two dimensional meaning one side is pointing forward and one side is sideways. This creates a triveca merkaba that allows us to move up and down as well as sideways We must be able to move side ways to enter Inner Earth

The top half of the merkaba always spins clockwise and it spins at 33 1/3 ratio The bottom half of the merkaba always spins counter clockwise and it spins at 11 2/3 ration. The spin rate creates the 45 degree repositioning of the body within the 360 sphere of creation. We always spin a sphere around the merkaba at the clockwise spin to represent this 360 sphere that our merkaba spins within. This is the true sacred geometry of the Christ Mathematical Frequency that realigns us into the 12 coded blueprint.

The first Merkaba is 27 radius from the center of the body, creating a 54 inch radius.

The second Merkaba is ten foot radius. The third is a sixty foot radius and the fourth is a one hundred foot radius.

The third merkaba is the Cosmic Merkaba that keeps us firmly in alignment with the planetary cosmic balance and prepares for slide into inner earth The fourth Merkaba takes us clear into Source and allows us to float in the Aurora Fields as we prepare to walk through the star gates

Number 6

Bringing the light frequencies out from the etheric body and into the skin and then out to about two inches around the body to create the shinning around the skin Activating the density one - subconscious atomic light mirror and the density two sound frequency field to resonate into manifestation the mirror of light

Number 7

Absorbing complete template of the body Coushic Body. The body is floating in a Cosmic Tear Drop Activating the Akashic Flame in the Pineal Gland and Activating the God template within pineal, thymus, solar plexus into the tail bone which is the 15th chakra and then streaming up the spine into the medulla oblongata at the top of the spin and

into the God Seed Atom within the Thymus and up into the mid brain.

Number 8

Connecting crystal heart, which is the Soul Center - the 8th chakra- deep within the Thymus. Connecting into the Pineal Gland to reconnect Super Conscious Mind of 4,5,6 into subconscious and ego in 1,2,3 in order to deactivate the EGO and allow Super Consciousness to guide through frequency specific attunement.

Number 9

Creating Continuous ErrA flows (Crystal Liquid Light directly from the Mind of God) into Frequency Specific Communication with Higher Self- Soul and Over Soul and eventually Avatar Self

Focus on Seed Atom in etheric part of Thymus Create a cloud of Plasma, and watch the cloud grow larger and larger until it surrounds the entire chest and head area Breathe in the frequencies and exhale into the plasma cloud until you feel your head area within the Soul connecting your Mind into Communication with Soul and Over Soul- dimensions 4, 5, 6, 7, 8 and 9.

Number 10

Awakening connection to Aquarius Matrix. Aquafarian Elementals begin swimming through liquid light within DNA to create streams of communication to activate the 12 sub harmonics within chakras 1-5 to create continuous communication and activate light fields of perception

Number 11

Breathe the new frequencies into the Light Body and imagine or watch the Body become lighter and lighter until it begins to levitate Imagine changing the frequencies into a new standing wave pattern that has no gravity.

Number 12

Cosmic Merkaba extends out to 54 feet around the body. Places Consciousness into the Cosmic Matrix of Eternal Time. The Body Template is completely aligned into the 12 dimensional Krist Grids of the Earth's Divine Template and with the Inner Earth's Cosmic Template..

Number 13

The Frequencies connect to the Aurora field which allows consciousness to walk through the star gates

of Inner Earth and step completely out of this time matrix.

Feel the plasma flame surrounding the body and penetrating every cell in the body

Number 14 and beyond

Make a mini me version of yourself that is small enough to hold in your hands Visualize it very clearly, take some time to visualize and feel every feature of your face until you know you are present.

Allow all of the frequencies from the Flames of Source Consciousness fill every cell in your body. Now inhale all of those frequencies into your heart chakra area and then exhale down your arms and into the palms of your hands.

See a flame coming out of your palms.

Place the mini me version of yourself in your palms. See that mini me become wrapped in those FLAMES. The flames contain the complete MIND OF GOD, the COMPLETE BLUE PRINT OF MAN, the Original Flame of Creation that created the original perfect divine template called man

Watch your mini me transform into any likeness you would like it to be It can be younger, healthier, more energetic, healed, perfect, whole, complete,

genius, wealthy, ready to orb, levitate or become invisible

Whatever you can clearly visualize your mini me doing, your body will do the same. You are the creator now.

OVER ALL LISTENING PROCESS

STEP ONE

While listening to the frequency signature breaths,

1. Concentrate on seeing a mirror image of your Divine Blue Print or your spiritual light body absorbing into your body from your back.

2. Feel the frequencies penetrating the cells in your body from the inside to the outside.

3. Feel the frequencies awakening the spark of Source that has been left to sleep deep within each cell in the body.

4. Feel the frequencies uniting into Oneness with the Soul, which is a sphere of blue crystal frequencies waiting directly below the heart area.

5.Feel the Soul awakening to what it has been waiting for eons for you to discover about your self.

6.Feel your physical body as a mini-me tiny figure, and place it inside of the blue crystal sphere which is your Soul Feel the Soul frequencies and the spiritual self frequencies combining into a new symphony of harmonic rhythms

We will call this the Attunement Body

STEP TWO:

1. Feel the spiritual light body from the spiritual self from the middle domains of the Cosmic Core of Inner Earth uniting into Oneness with the physical etheric body from Inner Earth

2. Feel the frequencies weaving those two bodies - one more etheric and one purely spiritual - into your Attunement Body.

STEP THREE:

1. Next, feel the frequencies of the spiritual self from the Divine Aquarius Galaxy Matrix outside of the Earth's Matrix

2. Feel the frequencies of this Starry Divine Blue Print pulling the frequencies into a higher domain of consciousness

The feeling is more etheric and yet more powerful. It has a majestic feeling and includes the frequencies of the Aquarius Galaxy, the stardust of Ursa Major and the Consciousness of the Ascension Teams

STEP FOUR:

1. Next, feel the frequencies from the more etheric physical self in the Aquarius Galaxy being woven into the heart of Sun Alcyone.

This is the frequency of the original divine self created through the spark of Source and breathed into humanoid form We are re-connecting our selves into the original frequencies of our Divine Birth. That Divine Essence still remains in the Crystal Heart of Sun Alcyone, and is reflected through the Crystal Heart of Mother Earth and through our own Crystal Hearts (the crystal heart is actually the blue-violet crystal fuzzy sphere that sits directly below the physical heart)

STEP FIVE.

1. Feel and absorb the frequencies of your spiritual twin selves woven into and through Aquarius, Terra, Ursa, Inner Earth and the Heart of Sun Alcyone.

You are listening to the actual frequency signatures of each of these spiritual divine selves that you were and which you will be again as soon as you absorb these frequency signatures. This is the true formula for creating a vortex that connects the individual physical selves with their spiritual selves into the knowing of your allness and your Oneness. This is the true formula for opening the Halls of Records, which are in essence the frequencies of the Music of the Spheres.

However, this frequency signature has been disconnected from the forms that it has taken during the past eons through a tragedy that was never supposed to happen in a Divine System. This tragedy can be removed very easily by listening to the frequencies of your Music of the Spheres in your Individualized Immortality CD.

You are a beautiful star made of these frequency signatures of light and sound. When all of these frequency signatures are woven back together into their original starry, magnificent harmonious symphony of Love, you become a star who is ready to co-create through Divine Mind any reality that you desire.

STEP SIX:

It is imperative that old forms that you have been using are completely removed from your life. If you have been listening to any other healing music or using any of the other forms of New Age type pendants and crystals with other entities' frequencies breathed into them, or anything that might have lower frequencies, remove them There will be many people in the near future becoming very sick and even going insane as we enter the later time lines of the evolution into the ascension because they do not start this process early enough Just know that you are doing it the correct way

VISUALIZATION

First Visualize the Frequencies as a Light Portal that connects 36 inches above the head and down into the Crystal Heart of Mother Earth

Draw a picture of this area. See your body standing on the Earth and draw a circle from 36 inches above the head of the body down into the center of the Earth. Realize that the place in the Earth is in the Cosmic Realm - not the Planetary.

See that Circle around your body and into the Earth's Cosmic Realm as the place where all of the Frequency activation takes place

You are keeping your self wrapped inside of a COSMIC FIELD OF ENERGY.

This is the place where your Cosmic Merkaba would Lock you into At One Ment with the Source Field of Love.

Before you begin listening to the music, draw this picture, and visualize your self standing within this Cosmic Sphere This is the Cosmic Sphere that the Music is LIFTING YOU INTO

NEXT

Before you begin listening, create a mini me of your self, and send that mini me up to 36 inches above your head.

Become that mini me See yourself sitting in a Lotus Blossom with your legs crossed, 36 inches above your head.

Stay there while you are listening to the music

The music contains the frequencies to lift your physical body up to the Consciousness where your mini me self is sitting.

Focus on filling your body with the frequencies while you are sitting in the Lotus Blossom.

NEXT

Stay 36 inches above your head.

1. Listen and focus on the frequencies of light in the stomach area.

2. Listen and focus on the frequencies of light in the crystal heart.

3. Listen and focus on the frequencies of light in the tailbone.

4. Listen and focus on the frequencies of light in the back of the neck

5. Listen and focus on the frequencies of light in the center of the head - pineal gland

NEXT

Continue to remember to bring all of the light and sound into a ball of light energy and see it being breathed into the stomach, crystal heart, tailbone and pineal gland.

VISUALIZE this as ANGELS OF LOVE PLAYING HARPS inside of each of those Key Areas. They are connecting each cell in the body to the MUSIC OF THE SPHERES that sings us into PERFECT SPIRITUAL TRANSFORMATION.

NEXT

Stay 36 inches above.

Feel a crystal star two feet above the head Allow all of the frequencies in the music to fill that crystal star until you see the star spinning and you see sparkling stardust flying from inside of it. Next, bring the star full of Christ Consciousness Star Dust into the head and the heart, and the tailbone and the feet.

See that crystal star spinning sparkling stardust into every cell in the body.

Feel each cell in the body filling with stardust, which contains the Divine Blue Print of the SOURCE template.

Repeat this while visualizing the stardust as an even more ETHERIC substance of a vapor like stardust.

Repeat this while visualizing the stardust as the pre plasma vapor of Spiritual Water.

When the Body is filled with this pre light and sound Vapor called HYDROLAISE (Spiritual Water), the Body Transforms into the Light of Christ

VISUALIZE your body becoming Full of Light until it is Glowing from the inside to the outside

While absorbing and feeling the frequencies stream through every cell in the body, see or feel a white light portal connecting from the pineal to the crystal heart down through the feet and into the core of mother earth. Feel the angelic frequencies connecting you into the frequencies stored in Mother Earth that contain your cellular memory of your original spiritual self made in the image and likeness of the god self, Christ self and the spark of Source co-creative energy.

Feel the frequency of Divine Love, Divine Life, Divine Truth, Divine Mind, Soul, Spirit, Intelligence, Principle Victory Power Manifestation, Supply and the Divine Plan These are the Frequencies stored in the Core of Mother Earth in the Cosmic Realm of the 13th Dimension. Continue to connect the frequencies of consciousness into the Body Template areas and the vortex areas This will progress the activation of the DNA.

VISUALIZE YOUR BODY

The body is standing deep within all 15 spheres of Consciousness or within all Five HARMONIC UNIVERSES.

Each Harmonic Universe has thousands of Suns containing tons of STARDUST- pre-stardust of that Crystalline Vapor called Hydrolaise

Feel the frequencies of all of the millions of suns stream into the head, the heart and every cell in the body.

Feel the frequencies of the inter-dimensional angels, divas, and fairies singing and dancing into your cells and into your consciousness

Collect all of these frequencies into your cells to activate the cellular memory of your original divine self -- your immortal self that has the ability to live for ever, create the hearts desires and heal instantly

Ascension Meditations

1. YOUR frequency signature woven into the star gate

2. Guided Meditation of feeling the iridescent 14th dimensional heliotalic body beaming from inside of your skin This is preparing the body to shift from the proton to the neutron chemicalization

3. Next, the spiritual body of the 15th dimension that has the 15th dimension that has absorbed the mirror image of the Divine Template from Source comes into the body completely

You are entering into the mirror image of your spiritual self. You are soaking up the frequencies of your Divine Template of the true spiritual self. The silicate crystal matrix body is made of pure star dust from the Breath of Source

The cleansing continues from Sirius B sending the crystal liquid light into the body to cleanse all ideas from the cellular memory of the body being material

The body is being completely transformed into the spiritual. The body is in the stage of being a cocoon. It is preparing its transformation of the body turning into a new chemicalization or a new

form. The body is changing from a cocoon in to a butterfly

The body is transforming from a carbon based structure back into oneness with the crystal silicate star dust based form.

The spirit body is completely in your material body now. The transformation process will continue until 2013 when the Earth's atmosphere has also transformed into a new chemical structure that provides the proper amounts of nitrogen for the body to transform into the new silica form

The Earth must transform its atmosphere into three parts nitrogen and one part oxygen from the present carbon dioxide - oxygen base. The body must transform into rations of highly copper, zinc, with much less iron from the present form of high amounts of iron, zinc, copper. This reverse has already begun, but will mostly take place in 2012-2017

3. The meditation on number three is repeated twice for the purpose of solidifying the process.

4. Frequencies of the 14th dimensional heliotalic iridescent silver pastel pink and violet light and sound is woven into the 15th dimensional crystal liquid light and star dust. This chemicalization provides the gelaisic transformation of he body

into a majestic new being who is naturally immune, doesn't get sick. heals instantly, has special abilities such as moving things with the mind and manifesting desired realities Later the body becomes able to become at one with its light body and become a blue orb. Finally, the body will become etheric enough to walk through walls.

5. Yamu, Shamu, Kamu jam, Shamu.

Each of the five spheres - Cosmic, Universal, Galactic, Solar and Earth spheres have names. Their names are used in this mantra along with the formula that pulls all five spheres into Oneness Each sphere has rings of crystal light, crystal dust and crystal gel that are also transforming into oneness The higher frequencies of the base tone of the fifth sphere pulls into the overtones of the fourth sphere to create a new resolute tone Simultaneously, this process is taking place between the fourth and third sphere, the third and second sphere and the second and first sphere All five spheres merge into one new tone of home. This is the process of ascension through the music of the spheres.

This mantra includes the names of the spheres, the activation codes, the activity of consciousness creating this activity of ascension in the Earth's Matrix and the Frequency signatures of all of the dimensions. Your personal frequency signature has been added into this formula of ascension.

6. The Christic Ascension Codes activates the spark of Source in the Crystal Heart area, head area and tail bone area in this Christmas Art Song. Once again, I wove your frequency signatures into this Ascension Formula. These three points connect the body into the real spiritual body Parts of our pineal gland were de-tacked and connected into the tail bone area to stop our spiritual growth. This formula realigns the cellular activity within the body to flow properly.

7. The guidance meditation is repeated to help reinforce the memory of aligning completely into the iridescent body, light body and silica based stardust body into the physical body

The cord of life is connected from the spiritual body into the physical body through the heart for the purpose of the body connecting the new heartbeat or pulse of spiritual reality.

As the body dives into the crystal liquid light, the body becomes transposed into the morphogenetic field that allows entrance into other ascension halls

The body rides the waterfall as it connects in Oneness from all frequencies from Sun Alcyone into the Sun of Inner Earth. All suns of the Universe have gathered together with Sun Alcyone to create the New Base Tone frequency that will pull up and transform all suns into Oneness

As the body rides on the energy of the sun beams and absorbs the liquid light energy it is igniting the energies with the 144 petals of the lotus blossom These 144 petals are the individual frequency signatures of all that you are combined into Oneness.

As you ride the lotus blossom into the core gates you are riding on a star gate that aligns all dimensions into one new stream of crystal liquid light energy that allows ascension through this star gate

The body is taken into the etheric crystal chambers where crystal pillars of all of the colors of the rainbows are singing the tones of home of all 12 angelic councils The songs contain the tones of home, the symphony of Love, the key to the universe

Uma Un means the Illuminated One or the spark of Source ignited into a flame This is the stardust that the angels breathe their consciousness into Each individual breath of creation becomes a Soul and a body of Stardust.

8. The music of the spheres is contained within the Crystal Chambers of Inner Earth where all 12 angelic councils sing through the large crystal pillars.

The original light and sound of your creation The angels who breathed consciousness into your stardust from the spark of Source are now singing your entire New Consciousness of all you are and all you will be into a brand new symphony of love

These angel songs are weaving you into the star gate that will allow you to join mother earth in all stages of her ascension back into her most perfect state of stardom.

This will bring you to the time of 1000 years of Golden Harmony and peace. The time of heaven on Earth. The suns frequencies of Sun Alcyone plus all suns of the galaxies of this universe are pulled into the Christic or Universal Frequencies The universal is pulled into the cosmic egg known as mother marry.

You are wrapped within all of the frequencies of the five spheres of Cosmic, Universal, Galactic, Solar and Earth

You are entering into the Womb of Mother Earth.
The 144 petals of the lotus blossom contain 12 selves or 12 dimensions. Your entire divine blue print of Universal Consciousness.

There is a rainbow spectrum of light in the cathedral of cosmic frequencies which carries the complete Consciousness of light and sound Your

frequency signatures have been woven into this spectrum of light and woven into the angelic choirs of all 12 angelic councils. All angels are singing from these crystal pillars to create angelic Cosmic Frequencies that align through the star gates.

You are floating in your lotus blossom. You are absorbing these angelic frequencies reuniting with spiritual self, becoming all you really are You are blasting through the core with the 13th, 14th and 15th dimensional Cosmic Core of Mother Earth.

You float into the Aqua etheric liquid light inner domains of Mother Earths heart.

The cosmic core of Inner Earth is the crystal heart of mother earth. Our crystal heart is also deep within the etheric chambers of each cell in our bodies. Each cell has an etheric center that reaches into the spark of Source, the mirror liquid core of our spiritual body

The crystal heart area of the body is directly below the heart-near the spine area. This crystal heart is actually our soul. The soul is a blue crystal fuzzy spheres of crystal dust, light and gel. The soul contains the memory of all that is stored in our etheric halls of records of our eternal self hood.

The soul is awaiting our consciousness re-connection to our spiritual body in the star gates of inner earth.

In order to ascend we must connect our crystal heart to mother earths crystal heart and then connect into the sun Alcyone's crystal heart. We must reemerge into our oneness because that is who we really are.

We were originally created in the heart of sun Alcyone through the Omniversal consciousness that transforms our perfect blue print through each stage of our transformation.

We have never stopped being that perfect divine blue print. We just had our rainbow bridge that connected our neuronets of our DNA strands temporarily erased We must reconnect these DNA strands back into all that we really are.

The DNA doesn't just suddenly appear as 12 DNA in the third dimension We must become fifth dimensional in order to see the 12 DNA because it only exists in this higher frequency and higher states o consciousness It can't be seen in a microscope because it is etheric.

The process itself of aligning my consciousness into your higher selves through the Elohim of hearing and the Omniversal team and then weaving

and braiding all of your frequency signatures into your spiritual twin self in this matrix and in the parallel spiritual matrix.

The alignment into Oneness is already complete even before you receive your music.

That first clearing process of aligning the frequency signature of all 144 selves into the lotus blossom and connecting you into Oneness with your Universal Divine Template only begins the process of connecting that spiritual self with you twin spiritual self in the Cosmic Cores of Mother Earth and your spiritual twin in Sun Alcyone.

Now that the light body's are connected completely into your Cosmic selves of your purely etheric self you are once again reignited through the spark of source into your original flame of divine love the activity of oneness with Source Consciousness.

As your light body is lain upon the spiritual mirror of your image and likeness of God or Source, the eyes and ears or the Divine Mind becomes the third eye of your knowing. This is the beginning of your Consciousness awakening to who you really are.This process of awakening is continued in the blue crystal etheric chambers of the liquid light.

Each of the 12 angelic tribes or councils resides within one of these grand crystals pillars which are enormous in size. Each of the 12 angelic tribes has a frequency or tone that they sing or breath into you When they sing all of the crystal pillars sing as light flashes and sparkles and crates rainbow and then the rainbows dance and weave together as if they are harmonizing a celebration of a new birth When the 12 pillars have woven together into a pattern, that new pattern of light and sound is you

When you return to earth from the cosmic domains of inner earth you are connecting all that you re in the cosmic domain into oneness with the earths atmosphere Each time you breathe, you are breathing the divine atmosphere of the symphony of Love. Your existence is creating a star gate fro m Sun Alcyone, through Sirius B Adashi temples into the rainbow crystal pillars of the chambers that hold the frequencies of all that you now are

The Individualized Eternal Life albums will each contain some of the god language codes of co-creation and transformation Some of them will be heard clearly and others will be woven into higher frequencies so that they are not heard at all, but they are still there. Each individual has different requirements. Some individuals will need the words spoken more clearly, while others will have the words completely melted into the breaths of Source The frequencies of words are always lower

than the frequencies of pure Source Consciousness The god language codes are the highest frequencies that words can still be heard in this dimension and in all dimensions.

Uma un will be heard quite often The meaning of this god word is illuminated one

Kee ra shay is the primal sound field between cosmic consciousness and Source.

This god word is used in many activations

EirA, ManU and ManA come to the foreground of the music. Next allowing the mind to combine focus of the fifth spheres of co-creation with the EirA or vision in the pineal of the New Earth and golden Galaxy and all that personally means to you

Next, that vision is pulled into the crystal heart for the gestation period of the ManU and finally the vision of the co-creator is exhaled in the ManA of creation.

Many of the other codes of creation are in the background of this music to help mold crystal gel and crystal dust into the forms that are directed and created by the Elementals by the formulas contained in Divine Consciousness.

The words man U and ManA are used frequently meaning the inhale of the idea of creation and the exhale of creation. Sometimes I breathe the god word man U for a very long time in order to give the idea that is being created a very long period of gestation. We need to hold the idea in mind, paint it in our consciousness while we remain in the high frequencies of Source.

The god word AUM – meaning, I return to Source as the Perfect Sound and Light Body. The sun's portal has opened up the Ascension Portal to return to Source The top of the head may hurt for awhile as your physical body completely rises into oneness with the spiritual light body.

Uma Un is the final activation of the Eye of god – the third eye of creation. The pineal gland actually becomes the third eye This is a mirror projection that allows the creator to see the vision in this movie camera and then to make God's movie.

The activations take place in the pineal, the lower tail bone and the heart center.

These three centers become corrected, realigned as the suns realign, and our consciousness connects to this alignment through these frequencies and codes

The tail bone is the seat of creation that will reactivate the creative functions of the lower five

bodies. The breath realigns the tailbone with the heart center, and then flows up to the pineal and down through the feet and twelve inches below into our re-connection with the Earth.

We become one with our earth body and ready to ascend together. We create heaven on earth through this connection This is the first time that spherical alignments will allow this complete alignment that goes all the way into the earth and then back up into the knees. There will be a tingling sensation in the feet as they realign as pillars into the Earth.

The crystal cells become awakened from the crystal cell center outward into the pineal – the crown and down into the feet- the body lights up like a light bulb and we become the new energy on Earth. We become the light bulbs of our new pranic creation of energy as we connect to the Starry Brother's electromagnetic funnels lifting us into our Islands of Light We can now begin spinning forward into our new realities of our immortal selfhood

Our true energy is in the core of the Earth The sun in the earth connects through our bodies frequency currents and we can connect light into a light bulb or just into the room without a light bulb. I have asked the Inner Earth Scientists to live with me in my home while they teach me this technology

ACTIVATION CODE 1 - PINEAL

MEDITATIONS AND JOURNEYS TO USE WITH YOUR ETERNAL LIFE ALBUM

These meditations are recorded on the Ascension Portal Kit

ZERO POINT BODY MEDITATION

The complete Spiritual body that has been blocked from angular distortions in the streams of light consciousness coming into our Mother Earth's Matrix can now be completely restored The breaths of Consciousness of all of our Starry Families can now be connected into our consciousness as we become ONE with our original gods who created us in the Aquarius Galaxy.

That spiritual body may now be retrieved and permanently placed into the physical body. This is possible for the first time because of the work our Dolphinoid families have completed, as they have realigned the electric circuitry system of all light and sound to braid into streams of turquoise and aqua blue light and to become activated by breaths of consciousness of the sounds of our new creation This spectacular light and sound is streaming down form our family in Aquafaria.

1. Activate the Light Body by first creating a crystal light sphere in the Crystal Heart area and placing a mini-me of yourself inside the sphere.

2. Next let that mini-me grow into the size of your full body.

3. Picture your body laying on a mattress of golden magnetic energies

4. Imagine riding on this magic magnetic mattress inside of an elevator that goes down into the center of the Earth

5. Next, slide down a waterfall of rainbow colors into the liquid light portion of the Earth's Core. See a rainbow of golden dust sparkle around your body.

6. Float on the mattress into a crystal light, a crystal dust and crystal gel area of etheric substance Continue to float in this pastel iridescent golden and rainbow dust and light area. This is the 14th dimension

3. Watch as Mother Earth places over your golden crystal dust body, a White crystal light sphere-garment of white light rainbow pastel Feel this garment on the body.

4. Take one more step down through the Earth's Core until you feel like you in the very center of Mother Earth's Heart. Walk through Mother Earth's Crystal Heart. Merge and become one with all of the frequencies of her Heart See the sparks in your crystal heart and in her crystal heart ignite into a flame and braid their streams of liquid light frequencies together in to braided rainbow colors

5. Step through the Diamond Door in Mother Earth's Heart Center and walk in to the spiritual side--the etheric side- the golden dust side.

6. This Diamond Door separates the physical side of earth from spiritual side of earth

7. See your Rainbow Garment of Light Merge with Spiritual Essence when Spiritual frequencies come into both the Iridescent Light Body and Physical body.

8. Become with your golden crystal body in the Silica Matrix of Mother Earth's Heart. Become one with the Breaths of Consciousness of Mother Earth

The LIQUID LIGHT CLEANSING continues over and over The cleansing can be placed on automatic pilot to continue all night long as you sleep see a pearly white frequency streaming down into the crystal heart See the pearls of wisdom from all that has been created in this 3D density melt into Divine Wisdom of all that was ever created by Divine Minds. Allow the wisdom from the pearl in your crystal heart to also contain the wisdom of all others on this 3D realm to be melted into the Sparks of Source and melted to be reformed by the pearly white frequency that streams liquid light energy to lift all from the crystal heart to be rekindled into a higher frequency of liquid light frequencies of Galactic and Cosmic Consciousness.

ONENESS

Weaving Oneness allows us to absorb the frequencies of all fourteen dimensions and weave them into our own crystal heart, our head and our body and then wrap these frequencies around and through the Mother Earth's Body and Crystal Heart. Next, we extend our frequencies into the 15th dimension and wrap all of these frequencies and consciousness around Mother Earth and through Mother Earth until our frequencies become ONE. This state of Oneness would weave together all that we ever have been into all that we ever will be.

All of 144 selves in each of the fifteen dimensions are woven together into ONE GRAND NEW CONSCIOUSNESS that can now fully Merge into all that Mother Earth was created from as Cosmic Consciousness, Galactic Consciousness, and all that she has evolved into after falling from her Divine State and returning to it.

WEAVING INTO ONENESS

Bring the Crystal Star Merkaba into the Head and then into the heart.

Ride inside of the Merkaba to collect and distribute frequencies inside of all of the cells in your body and then spread and connect that new energy into all five spheres.

When the frequencies from all Five Merkabas are collected and pulled back into the Crystal Heart, the body will become One with the Planet, Universe, Galaxy, Solar System and Cosmos. Our Galaxy will become the Golden Galaxy.

Once our bodies and minds are re-calibrated into Oneness, by infusing frequencies and energies from all of the 5 spheres, the music of the spheres begins to sing through the crystal cells of the body Our crystal cells will learn to sing in rhythm and in tune with our Divine Compliment, which is contained in the Earth's Core. Each crystal cell contains an entire creation grid, an entire memory containing the eons of lifetimes in each dimension.

LIFT OFF

We can create the fuel and the energy in our Merkaba Bodies which are our Space Ship Bodies to gain lift off from this dimension. Our body is now the Proton Body

We gain lift off by adding the Neutron o the Proton. We can create the Neutron by collecting the frequencies of the 14th and 8th dimensions and allowing the Merkaba to spin at the speed of light to transform this energy into a Neutron that is brought into the Merkaba Body. The Merkaba can glide down into Mother Earth's Core and collect all of the eternal substance of Mother Earth and of our own Golden Crystal Bodies that were left there. Next, we create two bands of helium energy that spin at the speed of light and place them in our crystal heart. As we sit in the Earths Core and allow the Merkaba to spin at the speed of light, we also allow the rings of helium to spin within each other at the speed of light clear out into the Cosmos. See the rings spinning clear out to touch the stars in the sky on each breath as they spin. The speed of light energy is that fast. We would touch a star on each breath Feel the sensation of expanding and disappearing into the Standing Wave Pattern of the Cosmos. The Merkaba can then be taken to the core of the Earth as we merge into oneness with Mother Earth

GOLDEN MERKABA

We become One by expanding our Self into the Golden Merkaba of all five spheres

Each one of these Merkabas contains our complete self who has a crystal heart. The crystal heart contains all of the elements of Source in each Sphere. The elements of Source in each Sphere must be collected together into One Crystal Heart, into One Grand Self, into One Golden Merkaba.

We start with the Merkaba of this Sphere We bring all of the frequencies of this sphere into the crystal heart We create a miniature self inside of the Merkaba.

The Merkaba realigns the density of our Cosmic Body As the planet and Cosmos realigns their rotation of particle spin - or density of consciousness - so does the body realign to this less dense form.

NEUTRON CREATION FORMULA NEUTRON MEDITATION

Neutron Meditation creates the electromagnetic spin required to connect the Neutron to the Proton in order to become a Light Body The seals from the Eye of Manifestation melt away and return the divine right of manifestation when the solar energy completely enters in to the eighth and ninth portals of the inner head area

Learn how to transform energy into a Neutron and align every crystal cell in the body with the neutron that transforms the carbon based body into a silica based light body

Begin the transformation of the body into an immortal temple of crystal light energy

The LIQUID LIGHT CLEANSING continues over and over

The IRRADESENT Body is shining brightly now. It has been charged fully with Krystic Templates from the Balancing Portals of streaming braids of light and sound that has been amplified by Dolphinoid Starry Brothers are preparing us to remember and return

Inhale from CRYSTAL HEART a light from tail bone comes up to CRYSTAL HEART and then light splits one light goes down to bottom of feet and one goes up 18" above head.

THE ASCENSION PROGRAM

crystalmagicorchestra.com

Each Individual has been on this five million year journey of performing the re-birth of a race line which was the most cherished and sought after raceline in the Universe because it contained the gateways to all of the Universes. We had our orbing ability, our telepathic ability and our Eternal Life Ability of our original Race line stollen from us, and now we are learning how to reclaim it

The purpose of all of the Future Holographic Music at CrystalMagicOrchestra.com has been created through the Consciousness of the Guardians, the Cosmic Councils, the Akashic Keepers, the Makers of Light and Sound of the Fourteenth Dimension, the Sirian Council, the Oraphim Council, the Taran Council, and all others who have been working non stop to perfect our Divine Templates within each one of us for millions of years

This Divine Plan only contains harmony and support and love of all others ideas. This is how the Kingdom of Heaven is formed We braid and stream our individual frequencies of consciousness into complete harmony with all other streams of consciousness Ideas are actually Frequencies When those who have learned to speak in WORDS will begin to speak in FREQUENCIES.

The Angels Breathe their Consciousness of Light and Sound one idea at a time. They stream millions of beautiful harmonic ideas Regardless of how many streams of light energy they exhale through our breath, they all blend together harmoniously This is how we return to the ATTUNEMENT with our Grand Consciousness of Source.

The key to unlock mystical secrets of enlightenment. This key is a vibratory tool that allows the brain to secrete liquid light energy through the body This liquid light is the key that unlocks the diamond doorway to the Future Self It is the future self that is already lined with the iridescence of rainbow light of the fourteenth dimension, the spark of white light of Source Consciousness that ignited Oneness between the Co-Creation Consciousness of the 15th dimension and one step beyond into the 16th step or the step beyond the Earth's Matrix.

The ETERNAL LIFE ALBUM is a personal HEALING SESSION It could be likened to what would be expected if one of you went to a Reiki Healer or Sound Healer for healing sessions. It could be likened to having eight hours of healing sessions per day for a week.

When I create the ETERNAL LIFE ALBUM I first go to Source Consciousness field and ask Source to hold the 12 coded divine blue print of the individual (the name of the person who ordered the ETERNAL LIFE ALBUM) inside the flame of eternal life creation that the idea was originally made from

We are each made in the image and likeness of Source. That image and likeness is a negative of the picture of the idea that Source is creating That idea is held within Source Consciousness and rebirth into creation every trillionth of a nano second. When the brand new image and likeness is imprinted on the idea, the idea is reborn as a brand new image with the new thoughts and ideas of the new experiences encoded within it.

I hold that idea within the Source Flame. That idea is already perfect and it contains the 12 coded divine blue print of angelic raceline

That old idea that was created billions of years ago must go through a rebirth at this time. We are all being reborn into a new harmonic universe, a new

space and time portal. Each time we are born we come into the planet through a stargate. Many of the stargates attached to Earth were destroyed and we were disconnected from many of them. Now, we are being placed in a different time portal where we are back in alignment with all 12 stargates, which allows us to obtain the 12 sub harmonics in each of our chakras.

These 12 sub harmonics comes from combining the spiritual coding from the chakras outside of the physical body with the chakras within the physical body. In order for an entity to return to a place in the universe, there must be an essence or a frequency signature of that entity left in that place from the time the entity left the place in the universe.

In order for our bodies to become realigned into the eternal life domain of the harmonic universe, I take the idea or the image that is within the Flame of Source and create a light body image of that idea. I place that idea within a flame. I use a candle flame. Within the flame is the complete spectrum of light, the entire rainbow. The flame includes the hertzian, infra red, visible light, invisible light, x ray light, and gamma waves. The idea is held within the complete spectrum of light of Source Consciousness.

That idea that is whole and complete walks through the candle to the other side and returns back with the connection of frequencies of the spiritual side- the blue body self. The idea becomes complete as it connects with the blue body.

The idea must also be taken in to the Inner Earth realms of the Cosmic Domain I take the idea into the Etheric Core of the 13th dimension and then into the 14th dimensional of the Spiritual Etheric Heliotalic Light Domain of the Cities of Light, the Inner Earth, and then down into the Crystal Liquid Light, the Mirror light of heliotalic frequencies This is the location of the Etheric Star Formation that was placed around the area where Earth is located now That Star Formation is called Urtha

This idea within the Source Flame must have its frequency signature implanted within the Cloud Cities, Cities of Light, the Star Formation, the Aquafarian Realm of Urtha. The idea does not exist there because most of us haven't been there before. This place was created by the Aquafarians from the Aquinos Matrix millions of years ago as a refuge and an escape chamber for this time Since we were never there before, we must leave an imprint there so that in the future we can go there.

Crystalai and aDolphino went to Aquafaria to leave this seed of their frequencies. However, when they went there, they were met by a family who

took them to a crystal palace. They were told that they built this palace for them long ago and it has waited for their return. So, there are in fact, a few of us who have been there before. That is why it is necessary to link frequencies of those who haven't been there before through the frequencies of those who have been there.

When the client is being put through the eight hour healing sessions, the old damaged codes within the chakras are transformed by having the frequency signatures of the individual returned to the original perfect divine imprints. This coding is imprinted in each of the chakras to align the 12 sub harmonics of the perfect raceline back into the individuals template.

Each cell in our body is supposed to contain this divine blueprint that was created in the image and likeness of Source As the clients idea body is taken into the crystal liquid light of Inner Earth and into Urtha, the heliotalic frequencies emerge from the skin and the skin becomes the shining

The healing takes place from the within, beginning with the blood crystals transformation, the bones turn into sound frequencies and the skin turns into light.

Each one of these steps of transformation takes a great deal of focus, alignment into the allness of

Source Consciousness, a continuous holding of the idea within the flame of transformation. Each time I focus on one specific aspect of the entire healing of the body, there is one tiny little breath involved. Each time I can feel and hear that the breath is perfect and the healing is complete, I record that breath

I layer each of the breaths of transformation for that one specific individual into my recording mechanism. By the time I am finished, I usually have five hundred or more breaths. Next, I weave these breaths into the formulas and frequencies of codes of attunement that the Guardians and Source direct me to Each individual is given a different set of codes and formulas. These codes come as frequencies and I breathe them. Some times they are heard as tones of God Language and sometimes they are pure breaths Each recording comes out very different.

I am giving this guideline to help my readers understand why this item costs the price it does. I am sure that there are not any Reiki healers out there of any reputable nature that would give you eight hours of healing sessions for five to seven days in a row for this price

Once a client returns from a Reiki or Sound Healing clinic, that healing will sometimes last a day or a week, if the client is lucky That is because

the old Reiki technologies are based on the Chi of an energy that has been blocked from Source for eons of lifetimes. Taking an energy that has been broken from Source at the Cosmic level and trying to do the repair work at the Planetary level just does not fix the problem.

This problem that is blocking our eternal life system happened billions of years ago, and the guardians have been working on fixing it for billions of years. There are many problems in each level of creation, far beyond the chakras within the body. The frequencies must be realigned clear out into the Universal Spheres, Cosmic Spheres, pre sound and light realms and the allness of Source's original idea of creation.

So, we are talking about a healing that would last as long as a band aid, or one that is complete and lasts for eternity.

Ascension -Connection between Consciousness and the body. Ascension isn't just about being a good person, going to church and getting forgiven by Christ and then going to heaven. It isn't that easy because there is a direct link between the consciousness of your spirit and the atomic structure of the body. The part of the spirit that is embedded into the atomic structure of the body is called the JARI. It is a part of the spirit body. If the JARI is trapped inside of the atomic structure at

death, the body will not ascend It will continue to be trapped on the Earth and will continue to return. This is what we did for the last ten million life times. Our JARI has been stuck inside of our atomic structure.

We must make sure our Jari is free from the atomic structure in order to ascend out of here.

We must transmute our spirit body out of the atomic structure in order to ascend. Once we have done that so many times that there is no quantum left in the body to ever ascend out of it, the person has entered the path of FALL That person will need to return to Source through space dust return -ashes to ashes dust to dust. That is what would had happened to this planet and everyone on it if we hadn't been given the assistance of the AQUARI Matrix.

The path of Fall means the person just won't remember anything. They will return to Source and start over again.

Those on the path of fall have run out of energy They are having to get energy from others. In a normal system that is not in Fall there is an eternal flow of energy giving an eternal source of eternal life.

So, we take this perfect formula of creation and rebirth that was given to us by the Guardian Races and we record it because it is made of Frequency Signatures The breaths carry the frequency signatures and they are recorded in perfect harmonic convergence. Each of the frequencies transmutes into the highest frequency of Source Consciousness in order to hold that reality of the divine code for ever.

We began learning this process with the Meditations and God Language in the Complete Ascension Process Kit, The Ascension Portal Kit and the Pure in Heart Kit. These can be purchased at the website Those workshops are over seven years old, however, they were the original foundations of the Frequencies, the Understanding and the Basic Tools needed for Ascension.

Each time I create an Album of Frequencies or a Set or Kit which also contain meditations, journeys and explanations, I am recording another nano second in the time frame of our Ascension

The Ascension is being created through Specific Frequencies and Specific Frequencies Alignments within the Music of the Spheres

If you really want to learn that complete process I recommend you spend fourteen years of study with the DVD kits titled the Freedom Teachings,

the Sliders Series and all other Keylontic Science Teachings

I already went through the teachings so that I could attune to the exact frequencies that were brought to Earth during this Ascension Time.

If you want to learn to do it your self, you should put aside about the next twenty years of your life.
I was trained how to do this by the Elohim Angels, the Ascension Teams, the Crystalai Council, the Sirian Council, the Akashic Light Teams, the Eka and EirA Light Teams, the Beloveds of my local families and guardians.

If you would like to read my Personal Ascension Process of activating 5 DNA by 2008 and imitating 12 more sub harmonics to consummate my 6th DNA strand by 2017, the new book titled 12 DNA - The Music of the Spheres Ascension Program from the Cosmic Twins Diary - with Keys to the Universe (this book!) contains the daily records of this process

If you would like to begin your own ASCENSION PROCESS, it must begin with the Music of the Spheres, their Frequencies, their Attunement into the Atoms of the Body It must begin with the morphogenetic fields of consciousness from the Six Avatar Children It must begin with removing the Seals between the DNA with the Zero Point

ECSTAZEE. It must begin with filling the body with the Violet Flame Album of the 2008 Infusion of Sun Alcyone and the Ultra Violet Sun Album and the Cosmic Butterfly It must begin with the Eternal Life Waters bringing the Hydrolaise and Trypolaise into the cells. It must begins with the emersion of the Frequencies of Consciousness that are INDIVIDUAL in NATURE to You and You alone

Each Individual has been on this five million year journey of performing the re-birth of a race line which was the most cherished and sought after raceline in the Universe because it contained the gateways to all of the Universes. We had our orbing ability, our telepathic ability and our Eternal Life Ability of our original Raceline stollen from us, and now we are learning how to reclaim it

HOW TO USE THE ETERNAL LIFE ALBUM

Each time an order is placed for the ETERNAL LIFE ALBUM, the individual has individual questions because each INDIVIDUAL has an entirely different BACKGROUND KNOWLEDGE

Some of you have backgrounds in New Age teachings, some have backgrounds in Indian Medicine Man or Shamanic Healing, some in Akashic Records readings, some in Metaphysical teachings.

That is why it is very difficult to give step by step listening instructions.

You see, it is always your BACKGROUND KNOWLEDGE that will over power whatever my words might actually mean

If you have any background of any other teaching, you are always going to think I meant what your other teacher already told you, and you will automatically be transmuting away the information that I am giving you.

Please try to consider reading my explanations of what I am trying to teach you as something BRAND NEW that you have never heard before. Try not to use your old BACKGROUND KNOWLEDGE that is stuck in your old thinking brain

IMAGINATION !!!!!

YOU MUST LEARN TO USE YOUR IMAGINATION

Your world will be transformed by using your imagination to create your PAST, PRESENT AND FUTURE

As long as you keep seeing your past as you remember it --your future will never change.

The key to changing your reality is by imagining your perfect past present and future.

Your wonderful reality where you see Fairies and Blue Spheres is the reality that you want to tune in to

See that reality of magical possibilities as your past present and future

You must begin simply by writing a list.
The list needs to say:

I have always been fabulously wealthy
I am fabulously wealthy.
I will always be fabulously wealthy

Create a list using that formula.

I have always had perfect health
I have perfect Health.
I will always have perfect health.

I have always had 12 DNA.
I have 12 DNA.
I will always have 12 DNA.

GIVE ME SIMPLE STEPS IN LISTENING VISUALIZATION

First Visualize the Frequencies as a Light Portal that connects 36 inches above the head and down into the Crystal Heart of Mother Earth

Draw a picture of this area. See your body standing on the Earth and draw a circle from 36 inches above the head of the body down into the center of the Earth. Realize that the place in the Earth is in the Cosmic Realm--not the Planetary.
See that Circle around your body and into the Earth's Cosmic Realm as the place where all of the Frequency activation takes place

You are keeping your self wrapped inside of a COSMIC FIELD OF ENERGY.

This is the place where your Cosmic Merkaba would Lock you into At One Ment with the Source Field of Love.

Before you begin listening to the music, draw this picture, and visualize your self standing within this Cosmic Sphere This is the Cosmic Sphere that the Music is LIFTING YOU INTO

NEXT

Before you begin listening, create a mini me of your self, and send that mini me up to 36 inches above your head.

Become that mini me See yourself sitting in a Lotus Blossom with your legs crossed, 36 inches above your head.

Stay there while you are listening to the music

The music contains the frequencies to lift your physical body up to the Consciousness where your mini me self is sitting.
Focus on filling your body with the frequencies while you are sitting in the Lotus Blossom.

NEXT

Stay 36 inches above your head.

1. Listen and focus on the frequencies of light in the stomach area.

2. Listen and focus on the frequencies of light in the crystal heart.

3. Listen and focus on the frequencies of light in the tailbone.

4. Listen and focus on the frequencies of light in the back of the neck

5. Listen and focus on the frequencies of light in the center of the head--pineal gland.

NEXT

Continue to remember to bring all of the light and sound into a ball of light energy and see it being breathed into the stomach, crystal heart, tailbone and pineal gland.

VISUALIZE this as ANGELS OF LOVE PLAYING HARPS inside of each of those Key Areas They are connecting each cell in the body to the MUSIC OF THE SPHERES that sings us into PERFECT SPIRITUAL TRANSFORMATION.
NEXT

Stay 36 inches above.

Feel a crystal star two feet above the head Allow all of the frequencies in the music to fill that crystal star until you see the star spinning and you see

sparkling stardust flying from inside of it. Next, bring the star full of Christ Consciousness Star Dust into the head and the heart, and the tailbone and the feet.

See that crystal star spinning sparkling stardust into every cell in the body.

Feel each cell in the body filling with stardust, which contains the Divine Blue Print of the SOURCE template.

Repeat this while visualizing the stardust as an even more ETHERIC substance of a vapor like stardust.

Repeat this while visualizing the stardust as the the pre plasma vapor of Spiritual Water

When the Body is filled with this pre light and sound Vapor called HYDROLAISE (Spirtual Water), the Body Transforms into the Light of Christ.

VISUALIZE your body becoming Full of Light until it is Glowing from the inside to the outside

While absorbing and feeling the frequencies stream through every cell in the body, see or feel a white light portal connecting from the pineal to the crystal heart down through the feet and into the core of mother earth. Feel the angelic frequencies

connecting you into the frequencies stored in Mother Earth that contain your cellular memory of your original spiritual self made in the image and likeness of the god self, Christ self and the spark of Source co-creative energy.

Feel the frequency of Divine Love, Divine Life, Divine Truth, Divine Mind, Soul, Spirit, Intelligence, Principle Victory Power Manifestation, Supply and the Divine Plan. These are the Frequencies stored in the Core of Mother Earth in the Cosmic Realm of the 13th Dimension.

Continue to connect the frequencies of consciousness into the Body Template areas and the vortex areas. This will progress the activation of the DNA.

VISUALIZE YOUR BODY

The body is standing deep within all 15 spheres of Consciousness or within all Five HARMONIC UNIVERSES.

Each Harmonic Universe has thousands of Suns containing tons of STARDUST- pre-stardust of that Crystalline Vapor called Hydrolaise

Feel the frequencies of all of the millions of suns stream into the head, the heart and every cell in the body.

Feel the frequencies of the inter-dimensional angels, divas,and fairies singing and dancing into your cells and into your consciousness

Collect all of these frequencies into your cells to activate the cellular memory of your original divine self -- your immortal self that has the ability to live for ever, create the heart's desires and heal instantly.

We can know that this field of Consciousness is Perfect, always has been perfect and always will be perfect.

When the EKA Body is being connected to within the Earth, take our Consciousness down into the Earth's Crystal Heart deep within her Vortex and then travel deep within into the 13 5 Cosmic Core of the Earth's Iron Core Whereas the old Akashic Records were found in the Earth's Iron Core of a Fourth Dimensional Realtiy Field

When the Akashic Reader helps the patient to find the Life time that has created a continuous problem in their life, the answer that is found is an answer that comes from the Astral Realm When the practitioner attaches consciousness 8 inches above the head, they are moving into astral consciousness.

That Consciousness is only 4th dimensional substance that contains all of the problems that exist on Earth. So, or course it is easy to find the source of our problems in that layer of Consciousness

In the method of using the ETERNAL LIFE Frequencies of Consciousness, we are not searching for the problem, we are returning the PERFECT SELF that we were created to be The problems that were placed in the Astral Field were placed there to keep us locked inside of the Earth's Matrix

The Frequencies in the 14th and 15th dimension were created to give us ETERNAL LIFE.

We are each made in the image and likeness of Source. That image and likeness is a negative of the picture of the idea that Source is creating That idea is held within Source Consciousness and rebirthed into creation every trillionth of a nano second. When the brand new image and likeness is imprinted on the idea, the idea is reborn as a brand new image with the new thoughts and ideas of the new experiences encoded within it.

I hold that idea within the Source Flame. That idea is already perfect and it contains the 12 coded divine blue print of angelic raceline

That old idea that was created billions of years ago must go through a rebirth at this time. We are all

being reborn into a new harmonic universe, a new space and time portal. Each time we are born we come into the planet through a stargate. Many of the stargates attached to Earth were destroyed and we were disconnected from many of them Now, we are being placed in a different time portal where we are back in alignment with all 12 stargates, which allows us to obtain the 12 sub-harmonics in each of our chakras

These 12 sub-harmonics comes from combining the spiritual coding from the chakras outside of the physical body with the chakras within the physical body. In order for an entity to return to a place in the universe, there must be an essence or a frequency signature of that entity left in that place from the time the entity left the place in the universe.

In order for our bodies to become realigned into the eternal life domain of the harmonic universe, I take the idea or the image that is within the Flame of Source and create a light body image of that idea. I place that idea within a flame I use a candle flame. Within the flame is the complete spectrum of light, the entire rainbow The flame includes the hertzian, infra red, visible light, invisible light, x ray light, and gamma waves The idea is held within the complete spectrum of light of Source Consciousness

SUMMARY BRIEF

The Melchizedek Cloister Emerald Order Teachings, the Eleyani and the CDT-Plates

The ancient MCEO (Melchizedek Cloister Emerald Order) perspectives teach of the **Inner Christos, or living God-spirit alive within all things, including the natural environment**. "Inner Christos" philosophies are built upon understanding of what is referred to as the **"Law of One"**. Inner Christos Law of One perspective respectfully acknowledges the inter-connection, interdependence and intrinsic value of all components of reality in recognition that the **Living Consciousness, "God-Spirit" or "Inner Christos"** is the **tangible substance** of consciousness and energy from and of which all things manifest are composed. MCEO teachings offer people an opportunity for advancing personal empowerment through genuine spiritual development regardless of their religious affiliation. **The "Inner Christos" of the "Law of One" MCEO spiritual teachings belong to everyone of every creed, not just those who choose to call themselves "Christians"**. The word **"Christos"** (from which the word "Christian" later emerged) was originally spelled **"Kristos"** in the most ancient texts and referred to the **personal Divine Blueprint** of **Conscious Living God-Spirit energy** of which all things and beings manifest are made.

The spiritual service work and teachings of the MCEO (Melchizedek Cloister Emerald Order) are more than perspectives based upon *speculation* regarding a variety of unrelated but interesting spiritual and scientific subjects. The work for which MCEO and its Speakers stand represents a very ancient, advanced **Paradigm of Perspective** on the **nature of reality**. The MCEO paradigm is inclusive of the other scientific and spiritual belief systems on Earth, but extends beyond the limitations and often incongruent and conflicting assumptions commonly associated with them. Through familiarity with the MCEO teachings one can grow to recognize the commonality and intrinsic complementary association between the most empowering contemporary belief systems and the MCEO perspective. At the center of contemporary MCEO teaching programs lies an **"Ancient Mystery"** known as the **"CDT-Plates"**. The books and course programs produced by the MCEO are not speculative nor theoretical in nature, but are rather derived from factual **TEXT BOOKS**. Contemporary MCEO teaching programs contain **English language translations** of materials already existing within a very ancient set of texts called the **Maharata Texts** (indirectly related to the Indian "Mahabharata" writings). The 560 books of the ancient Maharata Texts are the original translations of an even older set of ancient records that have survived to our present time, stored on a set of 12 digital holographic recorder discs called the ***"Cloister-Dora-Teura Plates"*** or **"CDT-Plates"** that were manufactured in **246,000BC**. The CDT-Plates and Maharata Texts have been translated into written form numerous times in our ancient history, in many different countries and languages.

The CDT-Plates are **real, physical objects** that have been kept in the private, protective custody of a specific family line of **"Indigo Children"** on Earth since the 9558BC "Fall of Atlantis". This family line is called the **Eleyani**, who refer to themselves as the **Melchizedek Cloister Emerald Order** (MCEO) **Priests of Ur**; another branch of the Eleyani family call themselves the MCEO **"Priests of MU'a** ("MU"). The word *"priest"* originally meant "guardian" or ***"steward and administrator of spiritual wisdom"***. Both males and females in stewardship to spiritual wisdom and administering this wisdom to others are referred to as **"Priests"** or **"Ministers"**. The MCEO has always been, and will always be, an egalitarian, non-hierarchical, non-gender-biased spiritual service collective. There are small collectives of Eleyani descendants alive, well and living on Earth now, in various global regions, who hold the knowledge (and relics like the CDT-Plates) of pre-ancient Earth and its civilizations. *Similar* to some more advanced sects of **Tibetan Monks**, especially those who rarely emerge from their "hide outs" in the Himalayas, certain members of the Eleyani family line have *open contact and direct communication* with living civilizations from "other" places and *other times*. Every once in a while within humanity's evolution, the Eleyani are permitted to bring back the ancient teachings in their pure form, allowing for the records of the 12 CDT-Plates and Maharata Texts original translations to be re- translated into the languages of the time. **The Eleyani return the knowledge contained in the CDT-Plate records to public view when it is most needed to assist Earth populations, at times when major planetary events are due to transpire**. The last time *written* CDT-Plate translation took place was during the "Christ period" of **12BC-27AD**, among a group of Essenes of Eleyani descent. Most of these written records were rapidly destroyed, confiscated or intentionally altered by the corrupt political power elite of the times, as so often has happened historically with CDT-Plate written translations. Since 27AD the Eleyani Priests knew that the **next CDT-Plate Translation Cycle** was scheduled to occur just prior to and during the **2000-2017AD** period, a period in time when great changes in the evolutionary path of all Earth species were destined to unfold. During the 2000-2017AD period permission for **written CDT-Plate translation** was to be authorized by the Eleyani Priests.

CDT-Plate Translation occurs when the Eleyani Priests carefully select several individuals in childhood from general family lines that they know to be descendant from the Eleyani. They make private contact with the child, providing years of discreet training as needed. When it is time for the CDT-Plate Translation Cycle to begin, the Eleyani then offer 3 official MCEO Eleyani **SPEAKERS Contracts** to 3 of their chosen trainees that have entered adulthood (the individual is under no obligation to accept a "Speakers"

Copyright A & A Deane 2002 All Rights Reserved

appointment.) Speakers' Contracts are publication endorsements for CDT-Plate and Maharata Text translations. Eleyani Speakers are permitted and trained to translate information directly from the highly protected CDT-Plate holographic discs and from their original Maharata Texts written translations. Once skilled in translation, Speakers are then endorsed by the MCEO Eleyani Priests to publicly publish MCEO CDT-Plate translations and related information as provided by the Eleyani Priests. During many historical periods written translation of the CDT-Plates was forbidden, to protect the Eleyani Speakers, and prevent Planetary Templar knowledge from being confiscated and abused by corrupt political powers, at these times only *verbal presentation* of the knowledge was permitted; thus translators were called "*Speakers*". To protect the integrity and quality of CDT-Plate translations, and to ensure the safe keeping of the 12 CDT-Plates, there are **only 3 Speaker Contract appointments** given during any one translation cycle. When translation publication time arrives, the 3 Speakers are eventually guided by the Eleyani Priests to find each other and work together, each endorsing the validity of the others' work. In the present CDT-Plate Translation Cycle the **Speaker-1 Contract** was finalized and initiated in **1999** and the **Speaker 2 and 3 Contracts** were finalized and initiated in **2001**.

Eleyani Speakers know the MCEO perspective as their truth, they share this truth with others, freely when possible, *out of love for humanity* and *gratitude* for the personal freedom in BEING that the MCEO teachings enable one to achieve. **The Speakers "job" is to "give the gift" of this knowledge, through *dynamics of equal and reciprocal energy exchange*, to those who seek to know it and demonstrate through action and attitude the sincerity of this intention.** The truths of which the Speakers teach are universal and freely belong to anyone who is capable of translating this knowledge from the Universal Unified Field. The CDT-Plates and MCEO Speakers provide a Sacred Service in that translation of the higher aspects of Unified Field knowledge is exceedingly difficult from the manifest fields of creation and requires much intensive training and innate abilities of consciousness and biology. The CDT-Plates serve to hold the highest aspects of Universal Knowledge in more accessible form, CDT-Plate Speakers are trained to translate this knowledge into forms directly accessible to general populations. Speakers have no need to "convince" anyone of anything, nor are they obligated to bear the burden of proof or self-justification. **The burden of "Proof" lies always with the beholder**, as within the natural dynamics of the Universal Law of Reciprocity and the intrinsic processes of Creation Physics, **one must "know" a thing to BE before one can "see" it manifest**. Speakers "**Live what they Love**" "**Practice what they Preach**" and respectfully "**Share what they have to Give**" with others who feel inclined to listen with reciprocal respect. **MCEO Eleyani Speakers "Speak their Truth", while always respecting the free will right of others to have a different opinion.**

The Eleyani Priests of UR and Mu'a of Kaua'i, Hawaii, the 12 CDT-Plates and their ancient Maharata Text original translations, are the tangible source from which all true contemporary MCEO work emerges. **Several families of Eleyani Priests in various geographical areas presently hold the 12 CDT-Plates, 560 Maharata Text Books and related relics from pre-Atlantean times under high security protection.** The MCEO *Inner Christos Law of One* teachings, *Templar Sciences* knowledge and *Pre-ancient History* records of the CDT-Plate teachings represent an intrinsically congruent paradigm of universal understanding, collectively the MCEO teachings are referred to as the **Emerald Covenant *Freedom Teachings*®**. Once upon a time, long before Atlantis, these teachings were the "common knowledge" of a once enlightened, joy-filled, peaceful, love-based global civilization of "Angelic Human" beings. **Fragmented remnants** of these once-unified "Founders" MCEO spiritual-science teachings, which have been **historically edited and altered repeatedly** to serve dogmatic control agendas, have literally provided the **ancient foundations upon which all of our traditional world religions, evolving sciences** and "**New Age**" **spirituality** are built. The Emerald Covenant Freedom Teachings® of the MCEO, originally provided 950 billion years ago by the Universal Founders races from which our universal life field evolved, are the **enduring legacy, divine birthright** and **intrinsic heritage** of all beings in this universe. Presently they serve also as the **Long-forgotten Promise** of Love, Freedom, Unity, Peace and Victory to the many races and species of Earth.

Theoretical Perspectives

MCEO teachings presently exist on Earth as a growing body of detailed information pertaining to the spirituality and science of creation and the history and evolution of humanity. MCEO teachings offer unique perspectives, techniques and technologies of mind and spirit that have proven useful to many people in the exploration and expansion of personal consciousness. Information contained within MCEO teachings represents a cohesive paradigm of ideas, beliefs and perspectives reportedly translated from ancient texts, which together comprise an affirmative and inspirational "point of view" or "world view" regarding the tangible realities of spirituality, the mechanics of creation, the history of our universe and the potentialities of the human condition. Like many popular "New Age" and "Traditional" paradigms of spiritual, scientific and historical beliefs, many points of view presented within MCEO teachings extend beyond the framework of presently recognized spiritual/religious, scientific and historical "fact" that can be verified through common contemporary scientific procedures. *Thus, like many other popular belief paradigms, including ALL known "New Age" and "Traditional" spiritual/religious doctrines and many fields of contemporary scientific study, the perspectives presented within the MCEO teachings must, too, be presently categorized as theoretical in nature.*

The *verifiable actuality*, and thus the potential validity, of the presently theoretical spiritual, scientific and historical perspectives of MCEO teachings pertaining to the "**Ancient Science of the Shields**" (scalar-standing-wave templates of matter and consciousness), "**Merkaba Mechanics**" (interdimensional electromagnetic vortex mechanics), "**DNA Template Activations**" (frequency accretion within the scalar template behind manifest chemical DNA), "**Interdimensional Structure**" "**15-Dimensional Anatomy**", "**Bio-Spiritual Healing**" (support of biological healing and well being through holistic spiritual practice) and **Humanity's Evolutionary Journey**, perspectives which are featured within the **MCEO Kathara Bio-Spiritual Healing Program**, **MCEO Maharata "Dance For" Programs** and related published works of the MCEO, cannot at this time be "proved or disproved". Therefore the MCEO Paradigm and its related teachings, techniques and technologies are offered to the public as a unique and inspirational view point, solely for the purpose of public investigation, consideration and theoretical exploration.

Though the presently theoretical categorization of MCEO teachings within the public sector is recognized, it should also be recognized that members of the Azurite Press, Trustees and the AP Regents Council, as well as authorized MCEO translators/authors and teachers and many individuals within the international community, have personally chosen to accept the validity of MCEO teachings as representing more than a theoretical perspective, instead acknowledging the MCEO Paradigm as a factual reality interpretation, and practical worldview, through which progressive expansion of personal consciousness and coherent spiritual awakening are fostered. Such decision as to the factual or theoretical categorization of the MCEO Paradigm, and the responsibilities inherent to this decision, are deeply private spiritual issues, and thus must be assigned to the faculties of personal discretion.

MCEO Meditations for Spiritual Exploration, Medical and Psychiatric Considerations

As the MCEO Paradigm is built upon presently theoretical spiritual, scientific and historical perspectives, any and all techniques and technologies offered through the MCEO Paradigm must also be considered as presently theoretical in nature, and thus any and all techniques and technologies presented within MCEO teachings are ***not intended to diagnose, treat or cure any disease or illness, nor are they intended as substitution for professional medical or psychiatric advisory or treatment.*** Techniques and technologies provided within MCEO teachings are offered to the public solely as "***Meditations for Spiritual Exploration***", with the intention of assisting to serve the further evolution of human consciousness through providing exposure to an expanded range of perspectives and potentialities. It is **strongly recommended that individuals having a history of medical or psychiatric difficulties, or who are presently under the care of medical or psychiatric professionals, seek professional advisory before using any *MCEO Meditations for Spiritual Exploration* techniques or technologies.**

Since introduction of *MCEO Meditations for Spiritual Exploration* techniques and technologies in 1999 **many people have claimed to receive beneficial affects and effects in the development and expansion of personal consciousness and spiritual awakening** through use of MCEO techniques and technologies. There have also been a **lesser number of reports of individuals claiming to receive no affect, effect or benefit at all**, but there have been ***no reports* of individuals claiming adverse medical, psychiatric or psychological affects or effects** in conjunction with use of MCEO techniques and technologies. As a reflection of commitment to responsibility in presentation, MCEO techniques and technologies are not presented for exploration in the public domain until they are first and/or simultaneously explored, utilized or practiced by authorized MCEO translators/authors/ teachers and members of the Azurite Press Board of Directors. Though validation of factual actuality pertaining to affects, effects or benefits of practicing MCEO Meditations for Spiritual Exploration techniques and technologies must, like the techniques and technologies themselves, for the present time remain within the realm of theoretical exploration, it can be reported that since 1999, findings pertaining to the practicality of utilizing MCEO techniques and technologies have consistently revealed that affects and effects of such practices are **quite individualized, though predominantly positive**, in nature. Therefore however, **no claims, promises or guarantees as to the affects, effects or benefits an individual might expect to encounter through use of MCEO techniques and technologies can be offered at this time.** Utilization of MCEO Meditations for Spiritual Exploration techniques and technologies presently remains within the category of **experimental self-exploration**, through which absolute conclusions regarding generalities of mass affect, effect, benefit or detriment cannot yet be drawn. **An individual's involvement with MCEO teachings, techniques and technologies represents a choice of *personal decision and discretion*, and thus *responsibility pertaining to affect and effect of practice* that are inherent to this choice must also remain with the *individual*.**

Claim of Authenticity

In offering MCEO teachings for public exploration, **neither the translators/authors, publishers, promoters or related individuals and organizations make any claims whatsoever as to the factuality of ideas or perspectives contained within the MCEO Paradigm.** Though the *MCEO teaching texts themselves* do on occasion claim that certain ideas and perspectives are of a factual nature, such claims represent points of view intrinsically contained within the ancient texts from which contemporary translations are drawn. The authorized translators/authors of contemporary MCEO teaching texts hold a binding commitment to ensure the clearest and most accurate translation of MCEO texts as possible under current evolutionary circumstances, a *commitment to clarity and accuracy of translation* that must include the allowance of contemporary translation of any *claims of factuality as they are contained within the MCEO texts of antiquity*. **Information represented as *factual knowledge* within the MCEO texts of antiquity, and their contemporary translations, is understood to represent "*potential or possible factuality, expressed as factuality***

***within the ancient texts, but which presently resides within the domain of theory*" within the context of contemporary publication**

The contemporary translators/authors of MCEO teachings *claim only* that the MCEO text translations contained within presently published works bearing their authorship represent an "as-accurate-as-possible" translation of MCEO text records believed to have been created in ancient times, which the contemporary translators/authors have had opportunity to review through *authentic personal experiences*. Translators/authors thus make claims only as to the *authenticity of their personal experiences* through which review of ancient MCEO text records occurred and as to the factuality that translation of the reviewed ancient MCEO texts into contemporary English language has been rendered by them as clearly and accurately as possible

As the original MCEO texts of antiquity are not presently in the direct possession of authorized contemporary translators/authors, and thus contemporary translators/authors cannot at this time publicly display these artifacts in order to validate the reality of their continued existence and verify their inherent content those who explore contemporary MCEO texts translations must understand that such works are presented as theoretical perspectives and possibilities, the validity of which one may choose to believe, or disbelieve upon the merit of one's personal discretion ***If ideas, concepts or perspectives contained within the MCEO texts, their contemporary translations or related teaching materials bear any resemblance to ideas, concepts or perspectives contained within any other presently known spiritual/religious, scientific or historical paradigms or teaching systems, such resemblance is purely coincidental.*** However, the event of such coincidence arising may potentially suggest that both the MCEO Paradigm and paradigms to which it might bear resemblance **may have arisen from a common source in antiquity** that has yet to be discovered or scientifically verified but which would upon discovery lend credence and clarity to such coincidence

Terms, Conditions, Agreements and Implied Consent

As contemporary MCEO text translators/authors can make no claims or promises as to the factuality of ideas and perspectives presented within MCEO teachings, they likewise **cannot offer any claims, promises or guarantees as to the affects or effects that may or may not arise through personal use of MCEO teachings or Meditations for Spiritual Exploration techniques and technologies.** The responsibility for decision to engage involvement with MCEO teachings, techniques or technologies rests with each individual, and thus the responsibility for any affects or effects that may or may not occur in conjunction with use of MCEO teachings, techniques and technologies must also rest with the individual The *Meditations for Spiritual Exploration* techniques and technologies provided within MCEO teachings represent translations from the ancient MCEO texts, and are provided to the public as an **option for personal spiritual exploration, investigation and experimentation**, *to be utilized at the **personal discretion** of the reader or workshop attendee*

As stated in numerous public forums and workshops since 1999, *in choosing to utilize* MCEO teachings, techniques or technologies it is understood that *in so doing* the *individual accepts full responsibility for any and all conditions* that may or may not occur in conjunction with such practice. It is further recognized that the individual, *through the act of utilizing* MCEO teachings, techniques or technologies, *thereby through this act agrees* to release Azurite Press, Trustees, the AP Regents Council, authorized Kathara Bio-Spiritual Healing Program teachers and facilitators (pertaining only to *MCEO-sanctioned Kathara "no-touch" procedures*), **authorized MCEO translators/authors, teachers, promoters and any individuals and organizations thereto related, from any and all claims of liability or damages perceived or assumed to occur in conjunction with involvement in MCEO teachings, techniques or technologies. This statement of Terms and Conditions represents a written *Notice of Implied Agreement and Consent to Liability Release* in regard to involvement with MCEO teachings, techniques and technologies. specific written format **of previously provided notice as to the *necessity of taking personal responsibility for any and all consequences arising from chosen involvement with the MCEO Paradigm,* notice which has been frequently provide verbally in public forum since 1999. It is recognized that the *Implied Agreement and Consent to Terms and Conditions of Liability Release* stated here within is accepted and enacted as such *upon the act of chosen involvement* with and/or practice of MCEO teachings, techniques and technologies.** If one s uncomfortable or in disagreement with this stated *Notice of Implied Agreement and Consent to Terms and Conditions of Liability Release*, t is suggested and recommended that one choose at this time non-involvement with MCEO teachings techniques and technologies, until a future time wherein such concerns have been assuaged

A Commitment to Quality and the MCEO Course-book Manuals

The authorized MCEO translators/authors, members of the MCEO, Azurite Press, Trustees, Regents Council teachers and promoters of the MCEO Paradigm extend their greatest efforts in making MCEO teachings available for public exploration n **the most responsible and respectful manner possible,** whilst striving to maintain the **highest standards of integrity in MCEO text translation and teaching.** Intrinsic to such responsibility in presentation, authorized MCEO translators/authors, members of Azurite Press, Trustees, Regents Council and authorized teachers and facilitators of MCEO programs are all individuals who personally believe in the factual ity of the MCEO Paradigm and who actively participate, for personal spiritual reasons, in MCEO programs, including personal utilization of MCEO techniques and technologies. These individuals all share a **common commitment to achieving and maintaining integrity, quality and responsibility in public presentation of MCEO teachings;** this shared commitment arises from a commonly shared, individually held, reverence, respect, appreciation for and belief in the validity of, the MCEO Paradigm its inherent teachings of personal spiritual self-discovery and the limitless potentialities of human consciousness that this paradigm suggests

On behalf of this commitment to quality may it be understood that **MCEO Course-book Manuals** as featured within the MCEO *Kathara Bio-spiritual Healing Program MCEO Maharata "Dance For" Programs, MCEO Masters Templar Stewardship Initiative Program* and other MCEO teaching programs, **do not represent completed books** but rather exist as **companion text briefings** that are created in conjunction with **specific corresponding live workshop presentations** which are preserved via **audio/ video recordings** that are made available on the *Azurite Press Products List* as specific Program Sets The Course-book Manuals that accompany some of these audio-video workshop programs **contain only the charts, graphs and most pertinent information pertaining to their corresponding audio-video program**, and **do not contain the *many pages of dialogue and detailed explanation*** that is incorporated verbally within the audio-video program. Thus MCEO Course-book manuals are not intended to be used alone, but are rather intended for used as an **additional educational aid in conjunction with their corresponding audio-video workshop program**.

As new MCEO workshop materials are often released and translated during live workshop presentations, the corresponding Course-book Manuals and their inherent graphs and charts often reflect the immediacy of the new information provided in that they are initially rendered **"in-the-rough"**, often with portions of text in hand-written form not yet "perfected" for book publication with appropriate dialogue text detail typesetting, computer graphics, pagination and indexing As each new workshop since 1999 has introduced the next level of new, live MCEO data translations, there has been insufficient time to "move backward" and perfect the quality of production pertaining to MCEO Course-Book Manual texts from previous workshops. The information and new MCEO teachings contained within each workshop program always reflect the standards of integrity and quality inherent to the MCEO Paradigm, but often timely public release of new materials is achieved at the expense of quality in product production **The Azurite Press staff apologizes for any inconvenience that such "data-in-the-rough" may cause; however, if workshop programs were withheld from Product List release until their audio/video recordings and corresponding Course-book Manuals were "perfected" in terms of product production, it would be several years before these materials were**

released for public review. As new MCEO teachings are often time-sensitive in regard to the unfolding of planetary events especially since 2000, it has been of greater priority during this time to expedite availability of the MCEO teachings contained within the products than it has been to demonstrate the standards of excellence in quality product production that remains a goal of Azurite Press.

For the time being, MCEO audio-video-Course-book Programs are in a **state of continued evolution,** as the small staff at Azurite Press with the assistance of numerous individuals who volunteer their time and talents, endeavor to compile dialogue transcripts and perfect typesetting, computer graphics and format organization of previous MCEO workshop presentations in effort to fulfill the goal of creating "perfected" book publications that contain, and "do justice to", the vast body of quality teachings that have been presented during the 1999-2003 MCEO workshops. The commitment to achieving excellence in quality of production as well as quality of information, that is held by members of Azurite Press staff arises from the personal desires of staff members to "honor the spirit of the teachings" which they have found personally valuable as well as from a desire to provide the best possible quality of product and service in spiritual respect to the public. Until the goal of achieving "perfected" product production quality is actualized Azurite Press staff hopes that the public will share in the recognition that it is the **quality, and inherent substance, of MCEO information, more so than the "package that it comes in", which demonstrates the value of Azurite Press MCEO educational products.**

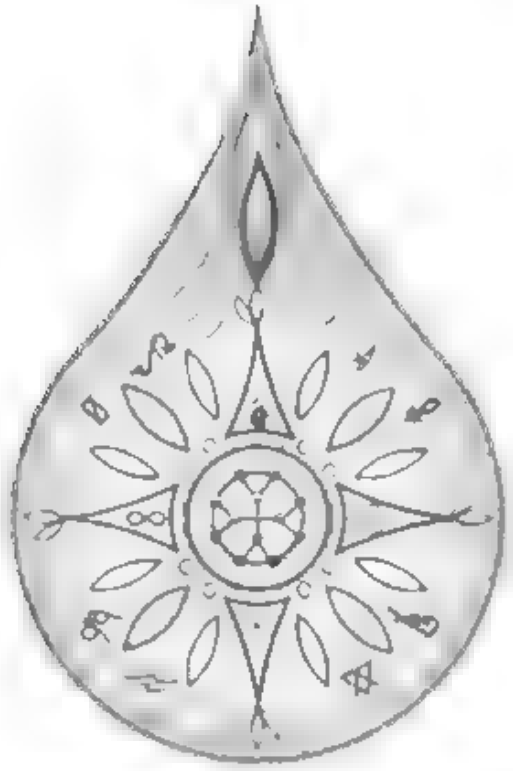
The Dance For Life



Introduction

The **Dance For Life Workshop** is an introduction to the Christos Founders Emerald Order Melchizedek Cloister **Personal Spiritual Mastery Course "Reinstating Personal Divinity: 144 Elements of Spiritual Mastery".** The ***Dance for Life*** program, the first in a series of 4 progressive ***"Dance For" programs***, is based upon Emerald Order Melchizedek Cloister Masters Spiritual Development Teachings excerpted from ***The Maharata: Book 1, Volume-1 The Dance For Life: The first 36 Elements of Spiritual Mastery*** The ***Dance For Life*** features a simply rendered, yet intensive, study of practical Masters Spiritual Knowledge. Through this knowledge, we can rediscover the "Inner Keys to the Higher Kingdoms" and begin to set ourselves free from the unnatural limitations of "Shadow Mortality" that keep us unnecessarily imprisoned within a mass hologram of finite disempowered existence The ***Dance For Life*** Workshop Program includes an introduction to the ***Eckasha Force*** and Radial Body the Vecal ***Codes of ManU*** opening the Eckasha Zero Point Atomic Window, reawakening the **'Rei'** the **Ki'** and the **Chi** and 5 Masters Density-1 Radial Body Techniques. All materials are translated from the ancient MCEO CDT-Plates and the original MCEO Azurite-Maharaj-Eleyan **Maharata Texts** of Inner Earth.

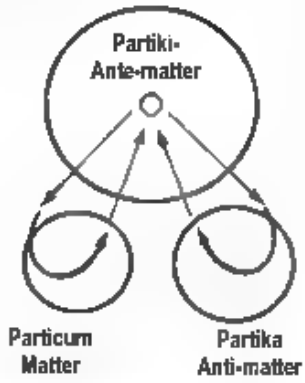
The Holographic Template

PRIMAL SUBSTANCE

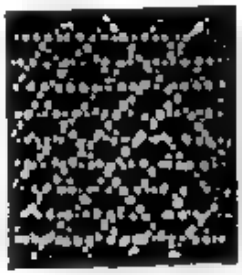
Units of Consciousness, Morphogenetic Fields and Scalar Grids

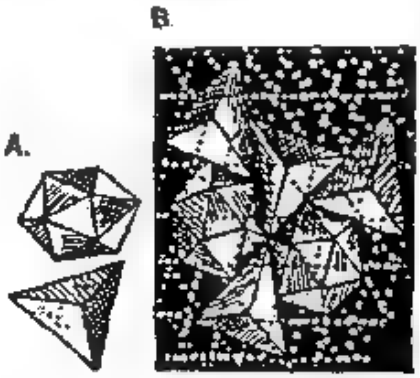
1 *Partiki, Partika and Particum*
Smallest units of energy-substance
Electro-tonal units of consciousness that are the building blocks of morphogenetic fields matter and individuated conscious identity
Operates as minute, perpetual motion fission/fusion generators.



3 Partiki units continue to group or accrete upon the Partiki Grids, forming
A *Keylons* – crystallizations of "frozen light" (standing scalar wave patterns and fixed points of tonal frequency) and
B *Keylon Codes* – complex groupings of Keylons, which together form a crystalline template of light spectra sound frequency and electro-magnetism that is the morphogenetic field Crysta Body – the Blueprint upon which matter and identity will manifest

2. *Partiki Grids* The fabric of morphogenetic field structure. Partiki units group to form interwoven Strands, then Grids of electro-tonal substance, out of which morphogenetic fields are fashioned Out of a Unified Field of Partiki units, Partiki Grids form to create the frequency bands that make up dimensional fields and then to form individuated morphogenetic fields





The **Morphogenetic Field** is made of interwoven **Partiki Grids**. The electro-tonal units of consciousness out of which Partiki Grids form create standing wave patterns **scalar wave grids**, which hold the form of consciousness within dimensionalized manifestation Morphogenetic Fields are thus **Scalar Grids** that form in specific ordered interrelationship Partiki Grids form upon the core *geometrical-mathematical* structure of the **Kathara Grid**, and so the Kathara Grid represents the *core Scalar Field* upon which form manifests.
Morphogenetic Fields govern the form of matter manifestation and evolution of biology and consciousness. Morphogenetic Field mechanics thus hold the key to mastery of physical reality and Bio-Spiritual Evolution

Structure of the Kathara Level-1 12-Tree Grid
Core Scalar Template

12 PRIMARY KATHARA CENTERS:

Kathara Centers are condensed Scalar Wave points that hold the core electro-tonal geometrical-mathematical program for dimensionalized structure. There are 12 Kathara Centers, each holding the program for 1 Dimension. The program for Partiki Phasing and Vibration-Oscillation for each Dimensional Frequency Band is set in the corresponding Kathara Center. The Kathara Centers set the template for each Dimension, to ground consciousness within the Holographic experience of manifestation.

15 PRIMARY KATHARA LINES:

Kathara Lines are the primary sequences of Partiki Phasing that transmit the electro-tonal programs held within the Kathara Centers from one Dimension to another, to keep the continual flow of consciousness circulating throughout the 15-Dimensional levels of the Morphogenetic Field. When functioning properly, the Kathara Lines connect each Harmonic and Dimension of consciousness to the other and govern the synchronization of cycles of time within the Dimensional Fields and within the morphogenetic field, DNA and body rhythms of dimensionalized forms. The 3 Vertical Kathara Lines control the operation of the other 12 Kathara Lines. The Central Vertical Kathara Line is the control center for Partiki Phasing rhythms throughout the Kathara Line System.

3 Vertical Kathara Lines = 1-2-3
Central Vertical Kathara Line = 1

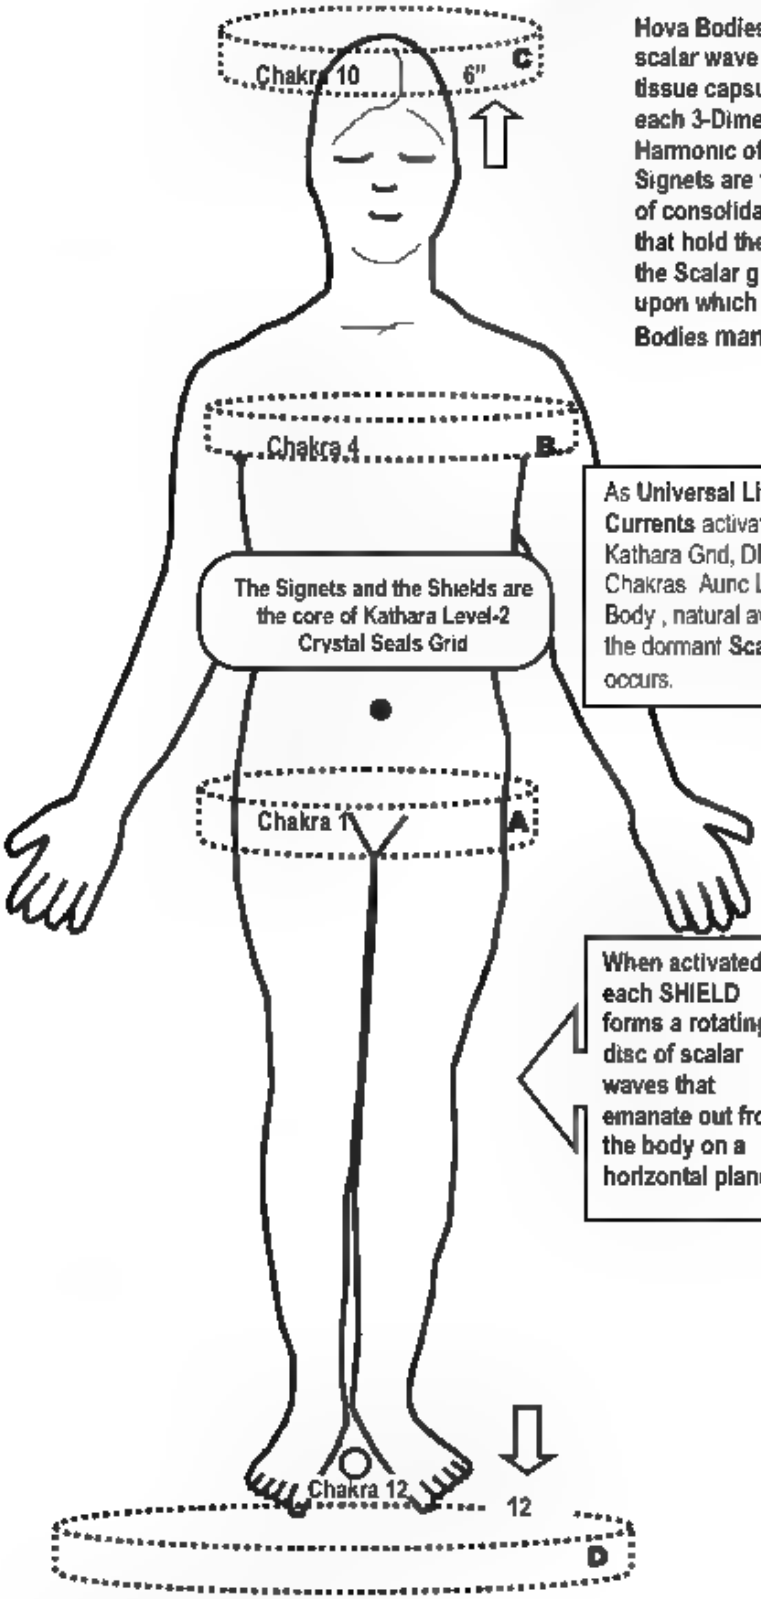
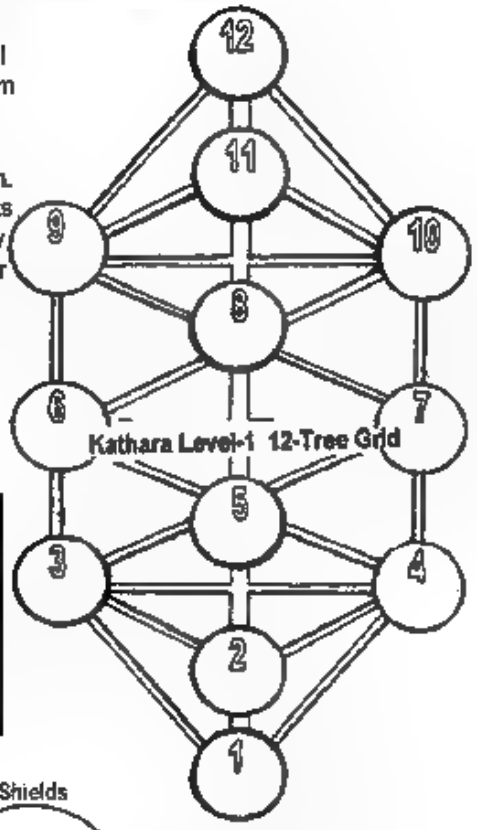
Universal Life Force Currents and the Embodied Shields, **Signets** and **Kathara Grid**



Hova Bodies are spherical scalar wave grids that form tissue capsules between each 3-Dimensional Harmonic of Manifestation. Signets are the core points of consolidated frequency that hold the programs for the Scalar grid SHIELDS upon which the Hova Bodies manifest.



As **Universal Life Force Currents** activate in the Kathara Grid, DNA, Chakras Auric Levels & Body , natural awakening of the dormant **Scalar Shields** occurs.

Auric Level, Chakra and Hova Body Correspondences

Each 3-dimensional Scalar Shield forms a Spherical Electromagnetic Domain called a Hova Body

Each Hova Body manifests the structure, and governs the Function, of 3 Primary Chakras

Chakras draw energy in from, and transmit energy into, the Unified Fields of each Dimension. Each Chakra carries as its Primary Color the hue associated with the wave-length of the dimensional frequency band to which the Chakra Corresponds.

Each Chakra Corresponds to a level of the Auric Field and one Axi-A-Tonal Line. Each Hova Body corresponds to a set of 3 Chakras and contains 3 dimensionalized frequency bands that form the dimensional levels of Auric Field

Radial Body Transduction-Manifestation Sequence

1 From the **Planetary Merkaba Field** (via the Planetary Shield, Axiom Lines Hova Bodies Vortices, Meridian Lines and Radial Bodies), **rhythmic pulses of Conscious Primal Life Force Currents** enter the species and personal **Kathara Grid Core Template** as Primal Units of **Partiki**.

2 Within the **Kathara Grid Template**, the **Partiki Units** pick up the **mathematical-geometrical program** from the **Maharic Shield** "Divine Blueprint" Template, **polarize** to form **Particum** and **Partika Units**, then **accrete** to form **3-dimensional** electro-magnetic **Partiki Grids** called **Keylons**. The Keylons group together mathematically, forming complex templates of **Crystallized Keylon Codes** (or "**Keylon Thought-Crystals**"), which create a mathematically encoded **3-dimensional Morphogenetic Field** ("**Keylon Thought-form Field**" or Morphogenetic "**Keylon Crystal Grid**") carrying the manifestation blueprint program of the Maharic Shield.

3 As the Primal Life Force Currents of the electromagnetic Keylon Crystal Grid interact with each other, following the program of the D-12 Pre-matter **Universal Divine Blueprint**, they form **sets of spiraling electro-magnetic vortices** called **Merkaba Fields**, which carry the Maharic Shield-Kathara Grid Blueprint program into formation of the **DNA/RNA Template** Keylon Crystal Grid.

4 From the DNA/RNA Template, held in the Kathara Grid, Primal Life Force Current carries the **Keylon Crystal Grid** of the blueprint into the **Axiom Lines**, **Hova Bodies**, **Auric Field**, **Chakras** and **Meridian Lines** systems, finally carrying the Keylon Crystal Grid of the Divine Blueprint into the **5 Radial Body "Tissue Capsule" Levels**.

5 Within the **5 Levels of the Radial Body**, the **incoming Keylon Crystal Grid** translates into **electrostatic Trion-Primal Pre-Light Units** (gaseous pre-light Ante-matter) and **Meajhon-Primal Pre-Sound Units** (units of vibrating pre-sound energy) that possess a neutral electrical charge. The **Encoded Primal Life Force Currents** (PLF Currents+ Keylon Crystal Grid blueprint program) are converted into a **Trion-Meajhe Field blueprint replica**, a "Primal Light-Sound" translation of the original blueprint.

6 The **Encoded Primal Life Force Currents** then travel **AS the Encoded Trion-Meajhe Field** into the **Radis Lines** in each of the 5 Levels of the Radial Body. The Radis Lines first replicate and store the **mathematical blueprint encoding** of the **Trion-Meajhe Field**, then **polarize** the neutrally charged Trion-Meajhe units into **electromagnetic units** called **Mion** (-) and **Dion** (+) **Ionic Particulates**. The replicated **Trion-Meajhe Field blueprint** becomes part of the "Primal ***Pre-sound*** vibration" ***Meajhe Field*** **Inner Layer** of the ***Radial Body*** **Trion-Meajhe Field**, serving as a living "***Memory Matrix***" composed of **Meajhon Units** "Primal Pre-sound vibration". The **polarized Mion/Dion Units** become the foundation upon which the "**Strong and Weak Nuclear Force**", **Electromagnetism, quarks, Muons, Meason, Sub-atomic Particles** and **Anti-particles** etc. form. Particum-based **Mions** ("Base magnetic") become **particles, negative electrical charge units** like **electrons** and **sound spectra**. Partika-based Dions become **anti-particles, positive electrical charge units** like **protons** and **light spectra** and also sub-atomic units with a negative electrical charge, such as **electrons and mesons** etc.

7 Blueprint Encoded Primal Life Force Currents, in the form of **Mion-Dion Fields**, then translate the original Kathara Grid Blueprint into **Quarks, Muons, Measons, Sub-atomic** and **Atomic particles** and **anti-particles** which **accrete** according to the blueprint to form **molecules, elements, chemicals** the **Chemical DNA Blueprint** and the **physically manifest body form** As this occurs, the **body image "flashes on"** into manifestation as a **Pulse of Life Force Consciousness**, carrying the **Chemically Translated Holographic Image** of the body form template blueprint. This Pulse of Consciousness continues to expand from the Kathara Grid and DNA via the Transduction Sequence through and beyond manifestation of the body image and into **projection of portions of the Dimensional Unified Field** that **holographically translate** into **individualized experience** within a perceived **Common Planetary Time Rhythm and Matter Field**

NOTE: An individual will holographically perceive and experience only the portions of the Dimensional Unified Field mathematical-geometrical program that are encoded within the personal Maharic Shield, species Tribal Shield and Planetary, Galactic and Universal Shield aspects of the personal Kathara Grid and DNA Template.
A **global population** experiences a **common planetary reality field and time continuum** because the Kathara Grid Template and DNA of all beings entering a planetary field **adopt the common imprint** of the mathematical-geometrical program of the **Planetary Kathara Grid** blueprint in order to enter into the electromagnetic domain of the Planet's Form Constant Hova Body structure for experiential manifestation Members of a **singular species** share a common **species Tribal Shield** template, through which a **common Chemical Body Form** and perceptual orientation holographically manifest. The imprint for **individuality** in biological form life experience variation, and the application of **Free Will Choice** is held within the mathematical program of the **personal Maharic Shield** D-12 Pre-Matter Divine "Christos" Blueprint Imbued within the mathematical program of the Human species Tribal Shield, and that of some other species, is the imprint for **probability** to exist. The Human species Tribal and Maharic Shields carry a program that allows for **new programs of probable creation** to be **added** to the personal and species **Kathara Grid**, allowing the embodied consciousness to retain **a degree of direct influence** over what sets of mathematical programs will be called into personal experiential Holographic Expression from the personal Maharic Shield Template. **Creative variation** on the original personal, species planetary and galactic Divine Blueprint is possible as long as the new probabilities do not deviate so excessively from the Pre-set programs and **Original Intentions** of the Universal Divine Blueprint that the **structural integrity** and **Source-God Will Intentions** for our Time Matrix become **irreparably compromised Free Will thus exists within a pre-set framework of overriding Divine Will**, and is permitted free reign in the manufacture of **co-creative experiential probability** up to a point at which the Original Divine Will of Source and the creative framework itself become unduly jeopardized

8 The physical body form serves as a **Chemical Lens** through which portions of the **Dimensional Unified Field** are perceived by the embodied consciousness as a **3-dimensional Hologram**, as the Primal Life Force Currents continually carry **pulses of the individuated consciousness** through the **Transduction Sequence** from the Kathara Grid through the DNA, to the manifest Chemical Lens of the physical body structure and Holographic "external" reality field projection

9 As a Keylon-Thought-Form blueprint, traveling on one Pulse of Consciousness **fully expands** (fully "Activates") into the manifest externalized hologram **another Pulse of Consciousness** is released from the synchronized mathematical programs of the Planetary Merkaba Field which sets the Transduction Sequence in motion ("initiates") for the ***next* portion of the personal mathematical blueprint**. The blueprint of the **Planetary Kathara Grid** regulates the **cyclic rhythms** at which **Pulses of Life Force Current** will be released through the **Planetary Merkaba Field**, the Planet releases "**Pulses of Time**"

NOTE: The linear time experience of life forms on a planet is synchronized into specific singular continua and cycles of time through the DNA Template the species Tribal Shield, personal Maharic Shield and DNA Template are imbued with the exact mathematical programs of the specific Planetary Time Cycle and Continuum or "Time Wave" into which the consciousness intends manifest embodiment. A singular Time Wave constitutes a Time Continuum, within which there are specific repeating cycles of progressively accelerating Pulses of Time that collectively form the linear time-progression continuum of a Planetary Cycle.

10 As one **Pulse of Time/Consciousness** brings its blueprint into manifest **Critical Mass Expansion** (fully activated specific portions of the blueprint in Holographic Expression), the Planetary Merkaba Field releases the **next "incoming" pulse** of Time, which carries the next portion of the Kathara Grid mathematical blueprint into the Transduction Sequence As the new Pulse enters the Transduction Sequence and begins **Expansion** toward manifestation, the **first pulse** of the **fully expanding hologram** begins **Contraction** entering a **back-return** through the **Reverse Transduction Sequence** (matter-chemical DNA-Sub-Atomic Units - Radis Mion/Dion units - Radial Body Trion-Meajhon units - Meridian Lines Chakra - Auric Field - Hova Body - Axiom Lines - DNA Template - Merkaba Field - Morphogenetic Thought-form Field - Keylon Grids & Units - Maharic Shield Template & Kathara Grid Partika and Particum Units - Planetary Merkaba Field Partik Units)

11 As **pulse-1 contracts**, its hologram program **moving backward** through the Transduction Sequence, creating the "**Remembered Past**" **moment** the **pulse-2** simultaneously **expands** its hologram program, **moving forward** through the Transduction Sequence, birthing the as-yet-to-come "**Future**" **moment**. The backward moving "**Past**" **pulse-1** and forward moving "**Future**" **pulse-2 intersect** at the **Radial Body Levels** in the Transduction Sequence This "**past pulse-future pulse intersection point"** is called the **Eiron** (E'r-on) **Point**, also known as "**Zero Point**", the "**Present moment of conscious focus, within the hologram**" or the "**Eiros** Conscious Breathing Life Force Stream" (Also referred to as the "**Stream of Consciousness**", the "**Living Holy Spirit**" or the "**Breath of God**", etc.)

12 The *Eiron/Zero Point* or **Eiros**, is the "**Present Moment of Creation Power**" for the "manifest" conscious identity It exists at the position where the **third dimensional field**, the electromagnetic **Resonant Tone** "**Mental Body**" field of a single 3-dimensional Hova Body, **intersects** with the **Meajhe Field Inner Layer** of the corresponding **Radial Body** Tissue Capsule

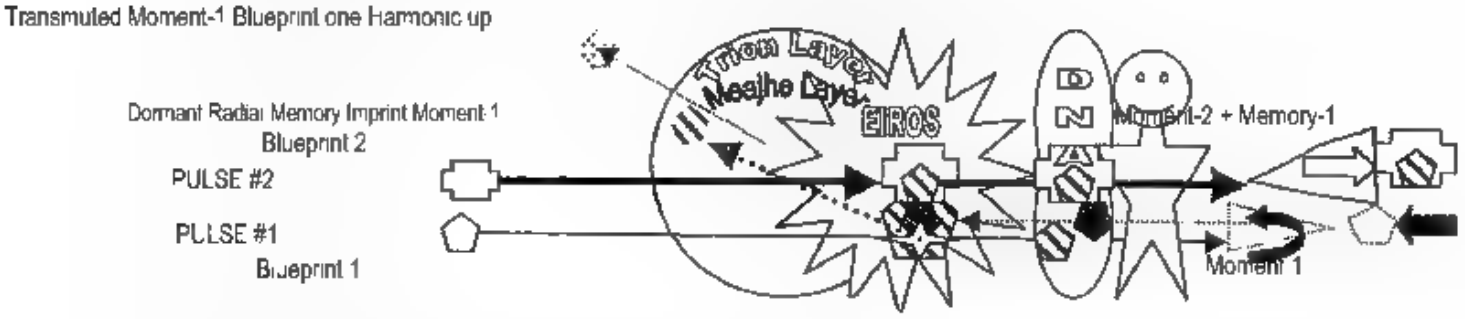
13 As the backward moving "**Past**" **pulse-1** and the forward moving "**Future**" **pulse-2 intersect** at the Radial Body Meajhe Layer **Eiros** (Eiron Point) the returning **contracting pulse-1** passes through the Trion Layer and nto the **Meajhon blueprint replica**, ca led a "**Radial TILE**" that is **left behind** n the Meajhe Layer **Eiros**, during pulse-1's **incoming** passage. Just as the returning pulse-1 retreats back through ts Radia Tile the **incoming pulse-2**, carrying the next **blueprint** coding, **simultaneously** passes through the **first Radial Til**, **combining** the "**past**" **Radial Tile**, mathemat.cal-v brationa blueprint with the **incoming pulse-2 blueprint** At this moment-point, the hologram template from the "past moment" is adopted by the incoming "future moment" pulse-2 and expanded by the pulse-2 blueprint.



14 As pulse-2 picks up the pulse-1 Radial Tile the **retreating pulse-1**, which now **holds the Radial Tile blueprint in reverse mathematical sequence as TRION Pre-light Units**, collides with the incoming pu se-2. Both pulses carry the **common blueprint** of the first Radial Tile: the **incoming pulse-2**, holding the blueprint in **forward** mathematica sequence as **Meajhon Pre-sound Units** the **retreating pulse-1**, hold ng the blueprint in **reverse mathematical sequence** as **Trion Pre-light Units**. As the expanding/advancing and contracting/retreat.ng pulses collide with the blueprint "**sequence and anti-sequence**" the pulse-1, reversed **Trion Radial "Anti-Tile" fuses** with the origina **Meajhon Radial Tile** and both Rad al T le and Anti-tile **completely de-manifest** or "**Ascend**" from their original Harmonic Universe by **TRANSMUTING** to become a **Merkaba Field**. The **energy/consciousness** once held by the Radial Tile/Ant.-tile, then **replicates** its original blueprint via **Fission**, leaves a **dormant "Memory Imprint"** Meajhon rep ica in the Rad al Body **Meajhe Field** and **reappears** in faster oscillating form, within the corresponding **Hova Body Form Constant** of the next Harmonic Universe up in the dimensional scale.

15 As transmutation of the "past" Radial Tile occurs in the Radial Body Eiros, the **incoming pulse-2** is momentarily held **static** as it leaves a **new Radial Tile** in the Mea,he Field, the new Radia Tile holds the **pulse-1+pulse-2** program. At this moment-po nt the **entire** externalized **Hologram** l teraly "**Flashes Off**" and de-manifests, ts energy **held in suspension** within the **Radial Body** Trion/Meajhe Field. When the first Radial Tile is transmuted, the incoming **pulse-2**, carry ng an **expanded imprint of the first Radial Tile**, progresses from the Meajhe Field Eiros to Trion Field, then begins to "**Flash On**" ts blueprint in manifestation. The embodied self perceives a "**linear moment progression**" the **pulse-1** program becomes "**memory**" of the "**Past**" moment **pulse-2** the "**Present**"

• The Personal ***Radial Body*** or Tnon-Meajhe Fie d is composed of **5 Hova Body Capsules** that manifest as e ectromagnetic barriers or "**frequency fences**" between each set of 3 DNA Strand Temp ates, each set of 3 associated Axiom Lines, Chakras and Meridians and between each 3-dimensiona. layer of the Auric Fie d and corresponding level of personal mJltidimens.ona. identity

• Each of the **5** 3-dimensional **Harmonic Merkaba Fields**, corresponding to the 5 Hova Bodies of 15 D mensional Anatomy, *governs the function* of the corresponding **Dimensional Merkaba Fields, Radial Body level** and its imbedded **Memory Matrix**, via the mathematical program held in the personal Kathara Grid, Shields and **Crystal Body** template The Kathara Grid program is passed from the **Keylontic Crystal Body** into the **DNA Template** via the **Dimensional and Harmonic Merkaba Fields** and the "mini-Merkaba Fields" of the Level-3 Kathara **Diodic Grid**

• Each Hova Capsule **Radial Body level**, receiving its instructions from the DNA Template and 3rd dimens.onal Mental Body Hova Body level, in turn governs the function of the **chemically manifest DNA** and all body-consciousness systems that are built upon chemical genetic code

• The **Harmonic Merkaba Field** governs the **particle spin axis** (Angu ar Rotation of Particle Sp n) ratios of the energy units that make up its corresponding 3-dimensional system Each **Harmonic Merkaba Field** corresponds to one **Hova Body**, one set of **3-dimensions** and the Matter Dens ty Level characteristic of that 3-dimensional system Eacn Hova Body, and thus each Harmonic Merkaba Field Level and Radial Body Level, corresponds to one set of **3 DNA STRAND TEMPLATES** within the Human 12-Strand Template

• Full activat.on of **one Harmonic Merkaba Field** creates reciprocal activation of the corresponding set of 3 ***DNA Strand Templates***, which creates embodiment of corresponding leve s of identity and consciousness (personality, Soul, Over-Soul, Avatar, R shi etc) When one Harmonic Merkaba Fie d fJ y activates, through natural activat on of the correspond ng **Shields** and **Crystal Body Keylons**, the Harmonic Merkaba Field becomes capab e of **merging** with the Harmonic Merkaba Fie ds from other Density Levels, in a process freqJently cal ed **Transmutative Dimensional Ascension**

• DJring tne process of "**Ascension**", (a so called "space-time travel", "wave riding", "Star Gate passage", "Te eportat on" etc.) the **Harmonic Merkaba Fields** of more than one Density Level merge, progressive y sh fting tne **two or more different sets of 3-dimensional particles** into a **common particle spin axis angle and spin speed** The corresponding **Axiom Lines, Hova Bodies, Auric Fields Levels, Chakras, Meridian Lines** and **Radial Body Levels** a so merge.

Copyright A & A Deane, 2002 All Rights Reserved

•When Harmonic Merkaba Fields and their corresponding Inner Template anatomy merge, the **Fire Codes** between the corresponding DNA Strand Templates activate, **causing the DNA Strand Templates to merge**, which creates a reciprocal reaction called "**DNA Strand BRAIDING**" between corresponding **chemical DNA strands** (The "Double Helix" configuration of "one strand" remains, as the chemical components of each strand overlay together to become a single Double Helix, containing the chemical programs of multiple DNA strands)

•Natural Braiding of the chemical DNA strands and activation of the chemical Tumstile DNA Sequences creates a series of **sub-atomic bio-chemical DNA responses** that allows for Internal **Atomic Particle-Anti-particle Fusion and Fission** Natural **Internal Atomic Fusion-Fission** enables the manifest atomic structure to temporarily de-manifest, returning to "*spirit form*", by re-entering the electrostatic **Trion-Meajhe Field** of the corresponding **Radial Body Levels**.

•During the Ascension process, the Harmonic Merkaba Fields of **2 or more Density Levels** merge, forming various **PHASES of Merkaba** activation that create a **Trans-Harmonic Merkaba Field** that is called the **Merkaba VEHICLE** The 3-Dimensional **NETHRA Phase** Merkaba Field of Density-1 accelerates in rotation speed to become the 6-dimensional **HALLAH Phase**, 9-Dimensional **Quatra Phase**, 12-Dimensional **Mahunta Phase** or 15-Dimensional **Rahunta Phase** Harmonic Merkaba Vehicle

•As a phase of the Trans-Harmonic Merkaba Vehicle activates, the corresponding lower-dimensional **Hova Body and Radial Body Level dissolve,** their content of energy and consciousness **expanding** into the next Hova Body and Radial Body Level, forming a **Trans-Harmonic Radial Body "FORM CONSTANT"** within the **Merkaba Vehicle**

•The Trans-Harmonic Radial Body and Merkaba Vehicle allow the consciousness and biological form to "de-manifest" from the lower dimensional Density Level The identity can then **re-manifest** in another Density Level or space-time coordinate by projecting itself into the desired location, AS the electrostatic ***Trion-Meajhe Field*** **Trans-Harmonic Radial Body**, then returning the DNA Template activation level and Harmonic Merkaba Spin ratio to that of the new location for re-manifestation

•When the Personal **Merkaba Field** is used to form the **Trans-Harmonic Radial Body** in the process of Ascension, the Merkaba Field is called a **MERKABA VEHICLE** A ***Merkaba Vehicle*** is an electrostatic **Trion-Meajhe Field** of Primal Pre-Light-Sound, through which the consciousness (AKA "spirit") can move itself, *and its atomic structure,* through **thought-projection**, to a desired location beyond the "veils" of the Planetary, Galactic and Universal Hova Capsule-Radial Body-Form Constant barriers

•Conscious mastery of the Personal Merkaba Field, through which the organic **internally created Merkaba Vehicle** Trans-Harmonic Radial Body becomes available for conscious

direction, implies **conscious control of the DNA Template function** The potentialities of **genuine Ascension** (etc) and mastery of the Bio-Spiritual Consciousness are **inborn attributes** of the Human 12-Strand DNA Template Due to a **species de-evolutionary genetic mutation**, that compromises natural function of the Personal Merkaba Field and DNA, the reality of Ascension on a species level has been lost to all but a few on Earth for over 200,000 years (ref Masters Templar Course Book)

•The potentials of **Bio-Spiritual Actualization** CAN be returned to humankind through **reverse-mutation** of genetic dysfunction, within the human genome and DNA Template Healing the genetic template can be achieved by **manually employing** specific practices of **Kathara "Maharic Shield" Core Template Dynamics** in **combination** with **Harmonic Merkaba Mechanics**, through which the many eons of biological miasmic distortion can be progressively and rapidly cleared from the Personal Kathara Grid and DNA Template

•Restoration of the D-12 Pre-matter Divine Blueprint within the Human Kathara Grid and DNA Template will eventually **free the Personal Merkaba Field** for use as a **Trans-Harmonic Merkaba Vehicle** Kathara Healing applications and use of the D-12 Pre-matter Maharata "Christos" Current, to reset the biological D-12 Pre-matter Divine Blueprint, are the beginning steps in reclaiming Bio-Spiritual Mastery

•The function of the personal **Merkaba Field** and **DNA Template** are not only associated with abilities of **Atomic Transmutation** and **Dimensional Ascension**, they are directly linked to **every aspect of body-mind-spirit function**, including **biological longevity** and **health**, **memory**, **intelligence**, and **metabolic**, **chemical**, **mental** and **emotional balance** and stability

•Most significantly, the **Merkaba Field/DNA Connection** is the Bio-Spiritual conduit through which consciousness of an embodied individual is directly linked to the common Perpetual Force of Energy and Eternal Source of Intelligent Creation that is "**God**"

•When a being's Merkaba Field and DNA Template are functioning upon the innate program of **Universal Primal Order**, as it is held within the Pre-matter **Universal Divine Blueprint** of the D-12 "Christos" Liquid-Light field, the natural and perpetual supply of **Primal Life Force Currents** and "spiritual" consciousness emanating eternally from Source-God flow through an open energetic channel or "**Pillar of Light**", which is called the "Um Shaddai Ur" (Pillar of First Cause Light-Sound") into the manifest embodiment Such a being is called a "**Christed Being**" This implies that the integrity of its original D-12 Pre-matter Divine Blueprint has not been structurally compromised, and thus the perpetual Life Force Currents, consciousness, sentience, intelligence, wisdom, power, Will and LOVE of Source can freely express through the Um Shaddai Ur into the manifest hologram of the Time Matrix, through the Christed embodiment.

•If the Kathara Grid, DNA Template and Merkaba Field of a being are damaged and no longer carry the **original mathematical-geometrical program** of the **D-12 Divine Blueprint**, through which the being entered space-time, the flow of Primal Life Force Currents, the Um Shaddai Ur Pillar and thus the active consciousness connection to God, will be distorted, reduced or severed at the dimensional level to which the template distortion corresponds

•A manifest being, incapable of running the Primal Life Force Currents of the Um Shaddai Ur "Pillar" becomes **biologically finite**, its consciousness "trapped" in the Time Matrix, even following death of the physical body Due to the **natural Laws of Creation Physics**, as set by Source-God, this condition of **finite mortality** will remain until the beings **Kathara Grid Template and Merkaba Field connection** to the D-12 **Universal Divine "Christos" Blueprint** and Universal Trion-Meajhe Field Um-Shaddai-Ur Pillar is restored

•Healing Core Template genetic distortions that are severe enough to cause dysfunction of the Personal Merkaba Field first requires **resetting of the D-12 Divine Blueprint**, through activation of the **Personal Maharic Shield**, until the Body-Mind-Spirit system has reached a **Critical Mass** of D-12 Divine Blueprint holding, through frequent and progressive manual running of the D-12 Maharata Current Healing Core Template genetic distortions **also requires** simultaneous, direct and repeated **manual realignment** and **restoration of Personal Merkaba Field function** and **Radial Body Trion-Meajhe Field** integrity

•If there **are distortions within the Kathara Grid or DNA Template** of an individual or species, the Personal Merkaba Fields will not function in harmony with the **natural energy circulation rhythms** of the **Planetary, Galactic, Universal** and **Time Matrix Merkaba Fields** and Universal Kathara Grid Such Kathara Grid distortions create tangible **genetic** and **consciousness mutation** within biological organisms and can divert the **intended evolutionary destiny** of an embodied consciousness or species on to a divergent path of **de-evolution and consciousness fragmentation**, unintended by the original plan encoded within the D-12 Pre-matter Christos Divine Blueprint.

•Distortions within the DNA Template, and resulting **Miasms**, can be purged through **manual resetting of the D-12 Pre-matter Divine Blueprint**, via repeated manual activation of the Personal Maharic Shield The activated **Maharic Shield** runs the Density-4 D-12 **Maharata Primal Life Force "Christos" Current** through the Kathara Grid and form embodiment, progressively resetting the original mathematical coding of the personal Divine Blueprint within the Kathara Grid and DNA Template Use of the **Maharic Shield techniques**, in Kathara Level-1, sets this process of **Core Template Regeneration** in motion

ManU Technique 2:
ManU-Eckasha Salutation
Activating the Density - 1 Eckasha Transharmonic Merkaba Vehicle
Phase-1: ManU Merkaba

1 Run Mahanic Quick Seal using the inner image of the Eckasha Veca Code as the Hierophant Symbol

2 Stand in intended "Spin" area and sing the Christos Invocation **"Song of Lyra"**

3 The **ManU Sacred Seuria Psonns** (Re ManU Technique - 1) will be used as the **Merkaba Activation Tones: Select Solar or Lunar Salutation** The "Clockwise spin/Top/Electrical/Male/33 1/3" Merkaba Spiral is the "incoming energy" ***ManA Force spiral*** that corresponds to **Projection/Manifestation Psonn - 4 and EXHALE Breath** The "Counter-clockwise spin/Bottom/Magnetic/Female/11 2/3" Merkaba Spiral is the "out-going energy" ***EirA Force spiral*** that corresponds to ***Directive/Imbedding Psonn - 2*** and the **INHALE Breath** For a **Solar Salutation** (during sunlight hours) ***ManA Psonn - 4 and "Top spiral" activation*** will be done first, followed by **EirA Psonn - 2** and "**Bottom spiral**" activation For a **Lunar Salutation** the **EirA Psonn - 2** and **Bottom spiral** activation will be done first followed by **ManA Psonn - 4** and **Top Spiral** activation

LUNAR Salutation start **EirA Psonn-2** (use "Rising Moon" Seuria Stanz)
EirA-Sha-Ra-D-K-ShA-Ta'a-Mira-Prana-Chi

SOLAR Salutation start **ManA Psonn-4**. (use "Flowing Water" Seuria Stanz)
ManA-Ka-E-Ha-HU-Ra-Hara-Maya-Mana-Ki (k "E")

4 Prior to initiating spin, open by Hailing the Eckasha God-Force to share in co-creation; *TONE **The Request** **Psonn -1**:*

Um-ah-A' ThrA' E-na A Ec-ka-sha (3 times)

5 Begin **slow spinning** and **slow-low toning** of the corresponding **Psonn** to activate the first chosen Merkaba Spiral (Solar or Lunar) start. Continue repeating the **Psonn tones** and **increase spin speed** and **VOLUME of Psonn tones** until you can **feel a sufficient building of energy** within and around the body

6 Begin to **slow spin and toning SPEED** while **retaining toning VOLUME; slow spin to a stop** and at the "**Spin Stop Point**" **immediately and abruptly Stop Toning**, letting the sound wave you have created **"hang in the air"** while you **quickly disengage your voice from it**, so the **wave can retain its form** before the *slowing of your body spin* begins to cause the sound wave to slow and "drop to the ground".

7 Imagine that the **Psonn Tone** has created a "**rotating columnar-standing-wave pillar**" of frequency that enshrouds the body and extends miles above and below the body; a **Standing-wave-column**, called a **Se'-Ur** (pronounced "sEE-your) that remains spinning around and

through the body after external toning and spinning have stopped **Stand still** for a brief moment in the **"Spin Stop" position** while inhaling and exhaling slowly, and **Feel** the Se-Ur **moving and spinning** around you.

8 Remain in the **Spin Stop** position and **TONE 3 ROUNDS** of **ManU PSONN-3**, the Pause-Breath Creation Tone (use "Sleeping Flower" Seuria Stanz)

INHALE, Speak-sing the **ManU Psonn-3 Tones** on the EXHALE breath, then **PAUSE-breath** at the "bottom of the exhale", with lungs still and empty for a moment, between each of the Psonn-3 rounds After **round-3 tones** are complete, **Pause-Breath** at the "bottom" of the **last exhale** for a moment, then **quickly move into the activation spin** and **Psonn tones** for the **other Merkaba Spiral**

ManU Psonn-3: Pause-breath tones:

Restoring the Meajhe Field - Photo - Sonic Healing

1 **Use Technique-6:** ***The Maharic Quick Seal*** to activate your Maharic Shield, Sea and Maharata Current.

2 **Stare at image** of the **Eckasha Code** for a few seconds then gently begin to "**Cross Eyes**" until you can see a "**Double Image**" of the *Eckasha* when looking at the image **Hold "Eye Cross"** focus while taking three **rapid breaths** on each **EXHALE** projecting a **stream** of (D-6) **INDIGO current** from your **6th – "3rd Eye" Chakra** at forehead (This braids D-6 Optical Currents into a D-12 Current to carry the Eckasha program into the Pinea Seals) Un-cross eyes, relax visual focus and close eyes for a moment or two.

3 **INHALE** several breaths of **Pale Silver D-12 Maharata Current** up from the **Earth Core** through your **Maharic Cord**, on each **EXHALE** depositing the Maharata Current in the **Pineal Gland** at the center of the brain to form a Pale Silver "**Maharata Ball**" in the Pinea

4 Breathe gently and **return visual focus to the image of the Eckasha, focusing** upon the **Eckasha Core** ***REUCHE'*** (the Double Circles and their content at center of Eckasha)

5 **EXHALE** while projecting a **stream of INDIGO current** from the **6th Chakra** into the **REUCHE** symbol before your eyes **INHALE** while drawing **the INDIGO current stream** with the **REUCHE image at its end** back through the **6th Chakra** and into the **Maharata Ball** in the **Pineal**

6 **INHALE** one more breath of **Maharata Current** up from **Earth Core** to **the Maharata Ball** at the **Pineal** then use a forceful EXHALE to PUSH Eckasha-Reuche encoded Maharata Ball out to the right, to the 'Mentor position over the right shoulder Visualize the Maharata Ball growing to the size of a "Basket Ball" over the right shoulder and visualize the image of the Reuche as expanding to fill the inside of the Maharata Ball

7 **INHALE forcefully** while drawing the **Maharata Ball** back to a position **centered around your head**, then use **three breaths** to **INHALE Maharata Current** up from **Earth's Core to Pineal** and **EXHALE** the **Maharata Current outward to fill and expand the Maharata Ball**

8 Visualize the **Maharata Ball** expanding outward from around your head, until the Maharata Ball **fully encompasses your body and entire Chakra System**, from **Chakra-14** 36" above head to **Chakra-13** in Earth Core Imagine that your entire body is now surrounded by a 3-Dimensional "Eckasha Tear-Drop" shaped CLEAR CRYSTAL CAPSULE. The Eckasha Code Photo-Sonic Capsule is now temporarily activated in your inner Templar system.

Radial Body Healing, the VECA CODES, DNA and Merkaba

• Veca Codes, also called the "I AM" or " mmanuyana Sequence" are very specific SYMBOL CODES, each possessing corresponding Sound Tones called Areas and energy movements called Seunas, which correspond to the Cosmic, Universa , Ga actic, Planetary and Personal Trion-Meajhe Field Radia Body Levels.

• There are 5 categories of Veca Codes the Planetary Low-Veca Codes of Manu (Taurenic-Akashic Codes), the Galact.c Mid-Veca Codes of Immanu (Akashic-Eckashic Codes), the Universal Level-1 H gh-Veca Codes of mmanuel (Dolaric-Rishic Codes), the Cosmic Level-2 High Veca Codes of Immanuyana (Triadic-Polaric-Eckatic Codes) and the God-Seed Yunasa Codes of Eckasha (Source Codes)

• Beginning appl cations of Veca Code Radia Body Healing begin with restoring the Trion-Meajhe Field Radial Body through resetting the Yunasai-Eckasha and High Veca Immanuyanas and Immanuel Codes, through frequent manua Direct Induction of their corresponding Symbol Codes and Sound Tones/Areas.

• The most powerfu Yunasa -Eckasha Codes are PHOTO-SONIC Codes carrying the Mathematical Programs of the Khundaray Current Primal Sound Meajhe F eld AND their bridging God-Seed vibration-rhythms connecting to Source. The Level-2 Immanuyana and Level-1 mmanuel High Veca Codes are PHOTO-RADIONIC Codes, carrying the Mathematica Programs of the Trion-Meajhe Field Khundaray Prima Sound AND Kee-Ra-ShA Primal Light Currents.

• Consistent use of Veca Code Radial Body Healing, in combination with Merkabic and Kathara Heal ng applications wi progress vely clear the M asmic Body and heal, balance, re-integrate and restore the Divine Blueprint within the energies of the Phantom-Shadow Self n all levels of the Body-M nd-Spirit system

• More advanced applications of Veca Code technologies nclude use of the Mid-Veca Immanu and Low-Veca Manu Codes and the corresponding Seunas (body movements to direct frequency), following a period of in tial induction and activation of the Yunasa and High Veca Codes

• Induction, or IMBEDD NG of the High Veca Codes into the 15-Dimensional Anatomy involves placing the corresponding Symbol Code Sequence (mathematical program) over the regions of the physica body that correspond to the appropriate aspects of the Kathara Level-2 Crysta Seals Grid and Level-3 Diod c Grid Once the Symbo s in place the breath is used to direct D-12 Maharata Current through each Symbo Code and body region Use of the Maharata Current "carrier wave" (via activation of the Maharic Seal/Shield) is required to induce the code s mathematical program into the Diodic and Crystal Seals Grid, where the program will then naturally transfer into the corresponding areas of the Level-1 Kathara 12-Tree Grid core template

Once the H gh Veca and Eckasha Code Sequences are mbedded/induced into the Level-1 Kathara Grid they are then Activated n the Kathara Grid by TONING the correspond ng Veca Code Area Sequence The longer toning is sustained the greater will be the quantity and qua ity of Veca Code Activation

• Once Activated the Veca Code programs travel upward through the stages of the Transduction-Manifestation Sequence from the Kathara Grid, to the Shields, nto the Keylon Crysta Body Morphogenetic Field, then into the Merkaba F eld, DNA Template and Hova Body/Radial Body Levels temporan y restoring the Christaic Merkaba Field Radia Body and Memory Matrix D vine Blueprint. Frequent and continued use of the Veca Codes will progressively build Critica Mass of the Divine Blueprint program simultaneously within ALL levels of the 15-D mensional Anatomy, eventua ly culminat.ng n expedited fu l restoration of the D-12 Maharic Shield blueprint

with n the Body-Mind-Sprit system via the Radia Body Trion-Meajne Field

• Activation of the Yunasai and High Veca Codes within the persona body prior to conducting a Kathara Client Hea ing Session will cause the facilitator's Level-3 DIODIC GRID to activate, temporarily transmitting Veca Code sub-harmonics This will cause the minute Diod c Chakras in the faci tator s FINGER TIPS to activate if the Palm Chakras have been activated with either pure Maharata Current or a selected Triadic Phase Current. The facil tator will then automatically transm t Veca Code sub-harmonics into the client s Diod c Grid while conducting general Kathara Hea ing applications, allowing the client to benefit from temporary Radial Body healing support, which wi amplify the effect of al healing applications

• A more Temporary Imbedding and Activation of the Veca Codes program can be achieved through OPTICAL-PINEAL INDUCTION, whereby the eyes are focused for a time upon the mage of the Symbol Code. The mathemat.cal Veca Code program enters the Pineal Sea s through the Opt.cal Currents and 6th Chakra and then travels for Imbedding/induction through the Central Vertical Current nto the body regions and Crystal Sea s Grid areas to which the Veca Code corresponds The Veca Tones/Areas are then used to Activate the mbedded Veca Code Sequence

• In Optical-Pinea Induction the Veca Program loses a bit of frequency charge/strength during ts travel in the Central Vertical Current. This creates a more temporary imbedding and activation of the Veca Codes than that which is achieved through Direct Induction Optical-Pineal nduction is useful for da ly ampl f cation of the Vecas and for Kathara Healing Client Sessions and planetary grid "s te work" when used in combination with the fu l induction procedure employed at least once per week.

• To receive ful benefit of Veca Code Radial Body Hea ng app cations, Technique-2 The Kee-Ra-ShA Activation Sequence should be fully run at least ONE TIME Technique-2 can also be used occasionally thereafter if des red to create intens fication and amplification of the Prima L fe Force Currents during Kathara, Merkabic and Veca Code Hea ing technologies

• Frequent use of Technique-13 The "Song of Lyra" Christos nvocation will ampl fy a l Kathara Merkabic and Veca Code Radia Body Healing applications.

Restoring the Trion Field-Photo-Radionic Healing

Creating a Personal Bio-field Link to the Universal Christos-Trion-Meajhe Field
Masters Merkaba Mechanics

Exercise - 1: Once per day, do **Maharic Insta-Seal.** Then practice **each set** of **Veca-tones** separately while fixating **visual focus** on corresponding **Veca-Code** symbol; spend at least **three or four minutes** gazing at each symbol (optical-pineal induction) while toning corresponding tones (core template vibrational induction) With practice this will progressively expand the personal consciousness while activating the personal Christos-Trion-Meajhe Field of your Christos-Risniac-Ascended Master identity levels within the cellular structure

Exercise - 2: Once per week, directly after completing **Exercise - 1**, place all Veca-Code symbols over designated body areas, activate Maharic Shield, breathe D-12 Maharata Current through each symbol and body area **to induce code**, using the **Bi-Tri-Khu-Dha-Ra Sequence**, then begin toning the corresponding tones following the Bi-Tri-Khu-Dha-Ra Sequence Memorize the tone sequence of the 5 High - Veca Codes as if it were a "song" and relax, close eyes and sing/tone this "song" (Psonn) for **5 to 10 minutes** The longer you tone, the more frequency power you build within the body and the stronger your link will be to the Universal Christos - Trion Meajhe Field This exercise can also be used with groups, either singularly to create and amplify Christos - Trion - Meajhe Field links or just prior to beginning RRT work Frequent and consistent use of these two exercises will progressively develop the spin-rate capacity of the personal Christos Merkaba Field, while expanding higher consciousness within the body and progressively enhancing the health, immunity and integrity of the Mind-Body-Spirit system

The Emerald and Amethyst Awakening

Masters Kundalini-DNA Template Activations for Accelerated DNA Template Activation and Spiritual Integration, Running Keylontic-Rainbow Round Tables and enhanced Immune Support

THE KUNDALINI LIFE-CURRENTS AND THE CRANIAL-SACRAL SEALS

The Human body is **fuelled** by **energetic life-force currents from Source** (God Source or God) The 'template' for underlying energetic structure of all life-forms including Humans is called the **Kathara Grid** The Kathara grid is made up of 12 highly specific and compartmentalized *'layers'* of energy called **DIMENSIONS**. All these dimensions or compartments of energy are moving at **different angles** compared to each other Each and every dimensional level has a DNA strand an axiatonal line and a merkaba field that corresponds to it The 12 dimensions are divided into four **DENSITIES** containing sets of three dimensions which are separated from each other by a membrane-like structure called a **Hova Body** This membrane is a complex structure and plays a key role in formation of the illusion of a 3-dimensional reality field or **HOLOGRAM**

When the **Kathara grids are functioning normally,** Humans are able to direct life-force currents through each of these density levels at will to '*experience reality*' in all of the densities. At present however, Humans are unable to do this due to the distortions in our Kathara grid which have resulted in a blockage of energy flow through the Hova bodies densities and dimensions. The **free flow of life-force currents** between the dimensional and density levels of any manifest form is the basis of the process called biological ascension

The life-force currents associated with dimensions 1-9 are collectively called the **Kundalini** currents and these currents contain three **densities** which are in turn associated with three **shields** (mathematical templates for the densities) and three **Hova bodies** These are named the **Telluric Shield** and **Nada Hova body** (for density 1 and dimensions 1-3), the **Doradic Shield** and the Alphi **Hova body** (for density 2 and dimensions 4-6) and the **Teuric Shield** and **Betcha Hova Body** (for density 3 and dimensions 7-9) Each of the Hova bodies and shields are separated from each other by **Magnetic REPULSION ZONES** The combined energy currents associated with each density and shield level are called the **Telluric, Doradic** and **Teuric** currents.

In the process of **conception and birth** of a new Human life, consciousness held within the three Kundalini currents (Telluric, Doradic and Teuric) spirals into the first **EIGHT CELLS** of the Human fetus at the region of the **tailbone** to initiate the *"fetal INTEGRATION process"* The first Kundalini Current the Telluric current, corresponding to the Nada Hova Body, is active within the human form at birth, enabling 3-dimensional awareness or consciousness to embody within the Human organism. When the Doradic and Teuric Kundalini currents in the tailbone are activated the frequencies of consciousness from **dimensions 4-9** progressively awaken within the body and subsequently lead to activation of dormant **DNA strands 4-9**.

Activation of the Doradic and Teuric Kundalini currents is dependent on opening what are called **SIGNET STAR CRYSTAL SEALS** within the Kathara grid, which in turn govern two important **FREQUENCY SEALS** or blockages within the **tailbone** and the **PINEAL GLAND** in the center of the brain These two seals are called the **CRANIAL-SACRAL SEALS** When the Cranial-Sacral Seals are released, through activation of the Signet Star Crystal Seals that govern them, the dormant Kundalini Currents come to life within the body sending progressively higher-frequency energy through the **CENTRAL VERTICAL CURRENT** of the body

Copyright A & A Deane, 2002 All Rights Reserved

Activation of the 3 Kundalini currents allows for progressively increasing amounts of Kundalini frequencies and the consciousness inherent in them to be integrated into the body When ALL of the frequencies within the 3 embodied Kundalini Currents are activated the 4th Kundalini current called the **PRIMAL TRIADIC CURRENT** is activated This current is also called the **THREE PRIMAL CREATION FREQUENCIES** or the **KEE-Ra-ShA'** Activation of the 'Kee-Ra-ShA' in turn results in anchoring of the **12th Dimensional HYDROPLASMIC BEAM** within the body This initiates the process of **CELLULAR TRANSMUTATION** and intentional de-manifestation and **Dimensional Ascension** of the human biological form

In addition to releasing the signet star crystal seals, activation of the 'Kee-Ra-ShA' current requires and is initiated by, activation of what are called **DNA Fire Codes** that are key molecules stationed between the 12 DNA strands. There is ONE Fire Code corresponding to each DNA strand and, when activated they facilitate **DNA strand braiding**, thereby connecting the Universal life currents within the template structure of the DNA strands When Universal Life force currents are flowing freely between the densities and dimensions through **fully operational DNA Fire Codes and activated star crystal seals**, the Density One carbon-based biology can progressively and systematically transmute to a **SILICA- based biological form** Transmutation to Silica-based biology allows the physical body to pass through the levels of *Semi-etheric, Etheric and Pre-matter Hydroplasmic Liquid-Silica Densities of Harmonics 2-4* (Dimensions 4-12) **Transmutational Dimensional Ascension** represents the function of the **organic genetic** design and evolutionary objective of the Human creation blueprint through which the natural **Eternal Christos-Angelic Form of the Human Being is actualized**

In the evolutionary cycles of **contemporary humanity**, actualization of the 12-Strand DNA potential takes place **slowly** in Earthly terms as the incarnate identity experiences several **cycles of Density-1 incarnation** spanning many **thousands of years**, in order to progressively **activate the DNA Fire Codes** within the DNA Template When the Human genome was operating in its natural organic form, this process took place in only **one lifetime** The process of activation of the Fire Codes and thus the four density levels of the Shields was normally complete by the age of 44, at which time the incarnate's consciousness was then able to actualize its organic **Angelic-human heritage** and **mastery** over the four densities of manifestation within the Time Matrix

THE EMERALD AWAKENING AND THE 'KEE-Ra-ShA'

The EMERALD AWAKENING Masters Kundalini Activation releases the Density-2 4th Dimensional GREEN Signet Star Crystal Seal and the Density-1 1st Dimensional RED Signet Star Crystal Seal, opening up a connection between the Density-1 NADA HOVA BODY and TELLURIC SHIELD, and the Density-2 ALPHI HOVA BODY and DORADIC SHIELD This then allows the Telluric and Doradic Shields to receive 12th dimensional Omni-polar frequencies from the Density-4 Mahanic Shield This in turn triggers simultaneous activation of the Base Tones (magnetic component) within the 12 Fire Codes of the entire DNA Template, preparing the DNA template to receive the over tone (electrical component) frequencies of the KEE-Ra-ShA' during the Amethyst awakening

THE AMETHYST AWAKENING AND THE KHUN-DA-RAY

The Emerald Awakening Masters Kundalini Activation releases the Density-3 7th-Dimensional VIOLET Signet Star Crystal Seal and 8th-Dimensional GOLD Signet Star Crystal Seal opening the connection between the Doradic and the Telluric Shields This releases the over tone (electrical component) of the signet seals, which in turn activates the over tones of the 'Kee-Ra-ShA to fuse with the base tones, bringing the 3 OMNI-POLAR CREATION CURRENTS (Primal Creation Currents built upon a TRINITY OF TONES BI-POLAR + NON-POLAR energy units) together as ONE PRIMAL

Copyright A & A Deane, 2002 All Rights Reserved

NON-POLAR CURRENT called the KHUNDARAY This current that is also called the "Rainbow Bridge" or the "Rainbow Serpent" sets in motion simultaneous activation of the 12 base tones and 12 over tones with n the Fire Codes between the 12 DNA strands, a lowing fusion between DNA Strands to complete on 12 dimensions of frequency

PREPARING FOR THE EMERALD AND AMETHYST AWAKENING

Before the Emerald & Amethyst Awakening Kundalini Activations can be effective, one must have performed the Maharic Shield exercise at least once This releases the 12th dimensional Maharic frequencies into the embodied Kathara Grid In addition at the initiation of the Awaken ng exercise the "KA" is activated This refers to the 4 HOVA BODIES correspond ng to dimensions 1 though 12 (Nada Alphi, Betcha and Mahara Hova Bodies.) The KA becomes activated through removal of 4 "inorganic" Crystal Sea IMPLANTS that block the natural function of the 2nd 3rd and 4th DNA Strand Templates

This technique is recorded on the Essential Newcomers Technique CDs (ENT/2CD) More understanding of this process can be gained by studying the Emerald Covenant Masters Templar Stewardship Initiative and FIELD GUIDE (SAS/M+FG), which are listed on the product list.

The Maharic Quick Seal

1 Work with the 6, 12, 24 or 48 pointed Silver Star, the Reuche OR the Eckasha God Seed Symbol as the **Hierophant** in this exercise.

2 Begin by slowing your breathing as you imagine or visualize the **Hierophant** at the pineal gland in the center of the brain Visualize the Hierophant surrounded by a sphere of pale blue light.

(The pale blue sphere serves as a buffer for your readiness to accept the frequencies associated with using the **Hierophant** It holds the energy for you until your body can handle it. If you can handle it, the energy will simply pass through the blue sphere)

3 Inhale, as if you are going to take hold of the Hierophant, located at the Pineal gland, and on the EXHALE, move the **Hierophant** all the way down to Chakra 13 at Earth Core Listen or feel for a sound as the Hierophant hits the Planetary Shield Spend a few moments feeling this

4 INHALE now, using the breath to draw the **Hierophant** up to the personal Maharic Shield, 12" below your feet. As the **Hierophant** moves up it leaves behind it a 4" diameter cord of Pale Silver Maharic frequency This cord connects the Planetary Maharic Shield to your own Personal Maharic Shield Now EXHALE, while feeling or watching the **Hierophant** expand out into a large sphere Feel or watch your Maharic Shield pop out to form a 4' diameter Pale Silver spinning disc with a coating of Pale Blue.

5 Bring your attention to the center of your Personal Maharic Shield NHALE, using the inhale to draw the **Hierophant** up into the 4th Chakra (Heart Chakra). EXHALE, expanding the frequencies of the Hierophant into the 4th Chakra

6 INHALE, using the breath to take hold of the Hierophant. then on the EXHALE, push the **Hierophant** from the 4th Chakra up to the 14th Chakra 36" above the head Feel the **Hierophant** spinning in a clockwise direction, in the 14th Chakra, for a few moments while feeling or watching the energy around you, just a few inches out from your body

7 Now bring your attention back to your personal Maharic Shield, 12" below your feet. and take a few relaxing breaths then INHALE deeply, using the inhale to pull the Pale Silver and Pale Blue energy from the Maharic Shield upwards as if you are pulling a "sheath" of Maharic Frequency upwards Pull this "sheath" of Pale Silver current, lined with Pale Blue energy upward. and latch it onto the 14th Chakra, 36" above your head

8 Now bring your attention to the 4" cord of Pale Silver Maharic frequency running between the Planetary Maharic Shield and your personal Maharic Shield begin drawing Maharic current all the way from Earth Core through the 4" thick pale silver cord and all the way up into the 4th Heart Chakra On the EXHALE, expand this frequency into the 4th Chakra Repeat this a few more times forming a Pale Silver ball of Maharic Current within the 4th Chakra Notice that the Pale Silver cord grows thicker on each inhale, expanding to approximately 8" in diameter it may begin to feel like a "skin" around and within your body this is loading your Astral Field with Maharic frequency

9 Move your attention now to the Pale Silver ball within the 4th Chakra INHALE using the breath to draw the Pale Silver ball from the 4th Chakra up to the 14th Chakra, 36" above your head As you do this, feel for the sheath of Maharic frequency encasing your physical and etheric bodies Feel the peacefulness and ALL-

knowing nature of this "Maharic/Christos sk n" as t charges and saturates your physical and etheric bodies with Maharic frequency

ACTIVATING DORADIC PHASE I CURRENT - Part A

Preparation: Activate Eckasha Maharic Seal

1 Breathe slowly and deeply for several breaths while visualizing or imagin ng a Violet Dot on the center of the *inside* of your forehead Make the color image as strong as you are able (f you can't yet perceive nner colors simply imagine the Violet Dot being there)

Move the Violet Dot to the center of the brain, at the **Pineal Gland**, and then upward nto the 7th Chakra, fina ly moving it out of your head to rest on the top of your skull, at the Crown Chakra

2 Call to mind the Hierophant Symbol (Pale Silver Merkaba Star / Star of David) Visualize the H erophant spinn ng 12" below your feet, with n your Maharic Sh eld, and slowly INHALE drawing the Pa e Silver Hierophant up through the Central Body Current, up to meet the Violet Dot at the 7th Crown Chakra at the top of the head

When the Hierophant connects with the Violet Dot, visua ize the Violet Dot burst ng into a 4" vertical Pi lar of Violet-Silver Light. Imagine the Violet-S lver Pi lar running down through the body and nto the Earth's Core as wel as upward into the 14th Chakra positioned 36" above your head (This activates the Violet Ray of Transmutation.)

3 Now, move your attention to the 4th Heart Chakra and imagine a small Green Spherical Crystal - the Green Star - stationed at its core This is the Green star Crystal Seal that controls release of 4th Dimensiona frequency - Phase I Doradic Current - nto the body INHALE, drawing Violet-Silver energy from the Violet-Silver Pi lar nto the Green Star

EXHALE, expanding the Violet-Silver energy into the Green Star sphere Repeat two more NHALE / EXHALE breaths drawing Violet-Silver energy from the Pi ar and expanding it into the Green Star sphere

4 At the end of the last EXHALE, imag ne the Green Star POPPING, turning into a spinning Green and Violet Starburst of Light as the Violet-Si ver Pi ar d sappears Spin the Green-Violet Starburst faster until it becomes a ball of Green-V olet Light, about the size of a grapefru t, sp nning at the center of the Heart Chakra (The green-Violet ba l is the storehouse for your Phase I Dorad c Current; t's called the Doradic Sphere)

INHALE and draw Pale S lver energy from your Maharic Shield, through the centra Body Current, and into the center of the Doradic Sphere at the heart Chakra encasing the sphere in Pale Silver Light.

AWAKENING the KA - Part B

1 Bring your attention back to the DORAD C SPHERE at the HEART CENTER .

2 INHALE pale s lver energy up from the EARTH CORE to fill & expand the DORADIC SPHERE, breathe slow and deep 2-3 times.

Copyright A & A Deane, 2002 All Rights Reserved

3 Now, put the tips of your fingers together, and feel the 'fuzziness' of the energy flow

4 Next, move the fingertips to the tail bone INHALE energy from the Maharic Shield into the DORADIC SPHERE. As you EXHALE push PALE-SILVER energy down to the finger tips and into the tail bone. REPEAT 2-3 times and then remove the fingers

5 Now, bring your attention to the 2nd CHAKRA (SACRAL). feel or visualize or just know a DOUBLE TERMINATED QUARTZ CRYSTAL (a crystal with a point at both ends) is beginning to "push out" of the front of your 2nd Chakra the Sacral center

6 Focus your attention on this, try to feel the crystal pushing use your hands to help ease it forward and out.

7 There is a smaller double-terminated crystal in the 3rd (Solar Plexus) Chakra, this will release on its own because the currents have activated it to do so Help it out with your fingers

8 In the Heart Chakra, imagine a little sphere of energy colored green Bring this little green sphere more fully into focus. and you will notice a little black cube of energy inside it look more closely again, and notice a smaller white cube inside the black one

9 As you focus on the two little cubes, watch them merge together feel a ripple of vibration as they do, and then notice a little puff of smoke as they both disappear

Now the body is activated to open the 4th and 1st Crystal Seals you are ready for

The EMERALD AWAKENING Part C

1 Now we will open the GREEN STAR CRYSTAL SEAL So, keeping your awareness on the Doradic Sphere, the GREEN-VIOLET-SILVER ball at the Heart Center INHALE,

2 and on the EXHALE visualize or imagine pushing a cord of GREEN-VIOLET-SILVER Doradic Current down into the tail bone. to the 1st Cell at its very tip.

3. Breathe easy and take a moment to visualize the 1st Cell at the tip of your tail bone. as a WHITE-SILVER SPHERE

4. Now within the WHITE-SILVER SPHERE, visualize a GREEN SPHERE and then visualize a RED SPHERE inside the GREEN SPHERE.

5. Bring your attention back to the SPHERE of GREEN-VIOLET-SILVER energy in your Heart Center

and on the next EXHALE visualize, or imagine, sending a cord of GREEN-VIOLET-SILVER energy all the way down your central vertical column and into the GREEN SPHERE in the 1st Cell at the tip of the tail bone.

6 As you INHALE pull PALE SILVER LIGHT from your personal Maharic Shield, the platform-disc 12" below your feet, up into the tail bone and into the GREEN SPHERE

Copyright A & A Deane, 2002 All Rights Reserved

7 As you do this, visualize the GREEN SPHERE 'pop' nto a STARBURST of PALE GREEN-SILVER LIGHT

This has opened the Kundalini sea - your WHITE-SILVER & RED Spheres REMAIN as you eft them earlier Now, we will work to open the RED STAR CRYSTAL SEAL.

8. Return your awareness to the Doradic Sphere at the Heart Center INHALE, and then on the EXHALE push a cord of GREEN-VIOLET-SILVER Doradic Current down to the 1st Cel at the t p of the tai bone.

9 INHALE and draw PALE S LVER energy up from the personal Mahanc Shield, the platform-disc positioned 12" below your feet, up nto the tail bone, and into the RED SPHERE inside the WH TE-SILVER SPHERE

10 AS YOU DRAW the PALE SILVER energy into the RED SPHERE visualize the RED SPHERE 'pop' into a STARBURST of PALE PINK-SILVER L GHT and for the next few breaths EXHALE the PALE PINK-SILVER LIGHT into the 12th Chakra, positioned 6" below your feet.

You have now opened the Kee Ra ShA Seal so that the Sacred Flames of the Kee Ra ShA can be activated .

ACTIVATING the KEE Ra SHA Part D

The Kee Ra ShA appears as 3 little flames wh ch exist n the 12 Chakra positioned 6" below the feet. The 3 flames are PALE BLUE, PALE YELLOW and PALE V OLET

1 Begin by focusing deeply on the 12th Chakra 6" below your feet, and the three l ttle flames held there. one is PALE BLUE, one PALE YELLOW and the third PALE VIOLET We'll take a few moments to do th s .

If you have d fficulty visualiz ng, just magine that they are there

2 On the INHALE draw the PALE VIOLET FLAME up from Chakra 12 nto the central vertica column and a l the way up and out through the top of the head, to the 10th Chakra 6" above your Crown Chakra

3. Next, return your attention to the 12th Chakra, 6" below your feet. allow yourself time to connect with the ttle PALE YELLOW-GOLD FLAME. Breathe easy

4. On the next INHALE draw the PALE YELLOW-GOLD FLAME up from Chakra 12 nto the central vertical column. and all the way up and out through the top of the head, to the 10th Chakra 6" above your Crown Chakra.

Again return your attention to the 12th Chakra, 6" below your feet. and connect with the PALE BLUE FLAME this FLAME is the INNER ARC of the COVENANT . Take your time; breathe easy

5. On the next INHALE draw the PALE BLUE FLAME up from Chakra 12 nto the central vertical column and a the way up and out through the top of the head, to the 10th Chakra. 6" above your Crown Chakra

6. Now, visualize or imagine the 3 little FLAMES together within the 10th Chakra 6" above your Crown Chakra in a moment we will create the Kee-Ra-ShA SPHERE. Breathe easy

Copyright A & A Deane, 2002 All Rights Reserved

7 On the next INHALE draw PALE SILVER energy from your personal Maharic Shield 12" below your feet, all the way up your central vertical column, up into the 10th Chakra

EXHALE gently and INHALE once more, drawing more PALE SILVER energy up into the 10th Chakra visualize or imagine the 3 little flames enclosed within a SPHERE of PALE SILVER LIGHT

8. Breathe easy On the next EXHALE move the Kee-Ra-ShA SPHERE all the way down through the central vertical column, out through the 12th Chakra 6" below your feet, and all the way down to the 13th Chakra at EARTH'S CORE.

As the Kee-Ra-ShA enters EARTH'S CORE listen for sound tones with your inner ear

These TONES represent the AMENTI "PASS KEY" which opens your personal GRID-AL POINT (#1) - the 1st Cell in the Tail Bone releasing the KEE-Ra-ShA FLAMES into your ALRIC FIELD

9 Breathe easy Watch as the Kee-Ra-ShA FLAMES rise up your Maharic Pillar and emerge through your 1st Cell passing like radiating waves of PALE BLUE, PALE YELLOW & PALE VIOLET

10 As the waves of color move through you, bring your attention to your first 4 Chakras the base, the sacral the solar plexus and the heart and visualize or imagine each Chakra emanate a SILVER MAHARIC SHEATH or OVAL POD, completely surrounding each one.

This completes the EMERALD AWAKENING, the natural process by which we use Unified Field Physics to trigger our CHRISTED Selves Before we finish we must first establish the link to the Amethyst Awakening, the process of activation and sheathing of the higher Chakras

ACTIVATING THE RA CENTER / ANCHORING THE RAINBOW BRIDGE Part E

To complete the session we will now work with 8th & 11th Dimensional Energies to open **DORADIC PHASE 2 & 3 CURRENT** and activate **TEURIC PHASE 2 CURRENT** . THIS IS CALLED *"ACTIVATING THE RA CENTER in the THYROID - and ANCHORING THE RAINBOW BRIDGE"*

1 Begin by moving your attention to the area of your 3rd EYE and focus just inside your fore-head a little above and behind your eye brows.. Breathe easy

2 Now, visualize, or imagine, a DARK SILVER DOT in the position you are focused on in the area of your 3rd EYE. Take a little time

3. INHALE and move the DARK SILVER DOT into the Pineal Gland in the center of your head and then straight up through the CROWN CHAKRA until the DARK SILVER DOT sits on the top of your skull

4. On the next INHALE, pull PALE SILVER ENERGY up from your personal Maharic Shield 12" below your feet, all the way up the central vertical current and into the DARK SILVER DOT on the top of your head

As the PALE SILVER ENERGY reaches the DARK SILVER DOT the SILVER DOT 'pops' into a SILVER STARBURST .

Copyright A & A Deane, 2002 All Rights Reserved

5. On the next EXHALE push the SILVER STARBURST down the central vertical channel, all the way to the tip of the tail bone EXPANDING the SILVER STARBURST FULLY into the 1st Cell.

6 Breathe easily and watch, as GOLD-SILVER-CURRENT emerges from the tail bone and begins to flow up through each Chakra

From the 1st Chakra at the base of the spine up through the Sacral , the Solar Plexus all the way up to the Crown Chakra .. we'll take a little time for this

From the Crown Chakra the GOLD-SILVER-CURRENT continues upward out of the top of your head up through the 10th Chakra 6" above your head , the 11th Chakra 18" above your head and finally the 14th Chakra 36" above your head

7 Once the GOLD-SILVER-CURRENT reaches the 14th Chakra it returns to the 1st Chakra the flow of the current creates a GOLD-SILVER SHEATH throughout your central vertical channel

8. Bring your attention to the 2nd Chakra now we're going to create a GOLD-SILVER-BALL there, in the SEED SEAL at the center of the Chakra just imagine the chakra as a bow tie shape the SEED SEAL is at the narrow point in the middle The GOLD-SILVER-BALL is called the TEJRIC SPHERE
INHALE and draw GOLD-SILVER-CURRENT from the GOLD-SILVER-SHEATH into the center of the Chakra. as you EXHALE create and EXPAND the BALL to surround the bow tie

9 Now INHALE and move the GOLD-SILVER-BALL up to the 1st HARA CENTER 2" BELOW the NAVEL (the 9th SILVER STAR SIGNET SEAL or TAN TIEN) . EXHALE GENTLY allowing the BALL to EXPAND

10 On the NEXT INHALE move the GOLD-SILVER-BALL up to the SOLAR PLEXUS and EXHALE GENTLY

11 INHALE and move the GOLD-SILVER-BALL up to the HEART CENTER. EXHALE GENTLY . INHALE drawing more GOLD-SILVER CURRENT into the BALL and THEN EXHALE FORCEFULLY pushing cords of GOLD-SILVER-CURRENT down each arm and into the PALMS. bring your fingertips together and feel the fuzzy buzz of TEJRIC PHASE 3 CURRENT

You have now activated TEJRIC PHASE 3 CURRENT in your palms and you are now able to run CURRENT from D4 thru' D8 to transmit to the THYROID GLAND to activate and anchor the Rainbow Bridge in others.

End of Field Technique-5 The K-RRT Activation Sequence (Parts A-B-C-D-E)

You are now ready for the **Amethyst Awakening *Masters Kundalini/DNA Template Activation* - 2** (Field Technique 6 *Initiating the Amethyst Awakening*) or to participate as an active member of a Khundaray Rainbow Roundtable (K-RRT) Signet Council (Field Technique 4A-B-C). **Wait at least 4 HOURS before K-RRT participation, and no longer than 24 hours, to maintain the appropriate level of critical mass Khundaray frequency in the body that is needed for an effective K-RRT.**

INITIATING THE AMETHYST AWAKENING

1 **Preparation: Activate Eckasha Maharic Seal** and **do Parts A-E** listed above, f you have not already done so.

2 This technique works to bring in a burst of the Khundaray Eckat.c Blue frequency that sets the Amethyst Awakening in motion

3. Place your attention at the center of your bra n, nside your pineal gland magine that you see there a Pale Violet Spark of Light (this is the bottom of the Seal of your 7th Crown Chakra) Imagine that you are going to move this Pale Violet Spark of Light stra ght up nto your 10th Chakra 6" above your head . magine that the 10th Chakra s a disc of Light Blue/B ack-Sapphire

4. Now see the disc of Light that was B ue/Black take on a Violet hue Try to fee t there, a sma l horizontal d sc. On the INHALE you will move this d sc of Violet-Sapphire Light up to the 24-point Si ver Star at the 14th Chakra. and, on the EXHALE, move t down through the 10th Chakra down through the Crown, down the Central Vertica Current, down through your Personal Maharic Shield al the way down to the 13th Chakra at the Earth s Core .

5. Notice, as you do this, a whole series of Violet-B ue Sparks flying out from the Planetary Maharic Shield, as f they are alive, as f electrical communication s taking place Notice as this happens that the energy flowing up your Maharic Pillar from the Earth Core reflects this change as Violet-Blue energy flows slowly up toward you as th s energy reaches your persona Maharic Shield, notice that t does the same thing as the Planetary Shield - throws out a shower of Violet-Blue sparks all commun cating with each other about the mathematical nstructions about what to do with your body, your crystal sea s your chakras .

6. Now, move your awareness to the Pa e Silver Skin al round your body / etheric body and be aware too of the Main Vertical Current that you brought the Pa e Si ver cord through and at the same t me, on each coming INHALE, bring up the Pale-Silver-Violet-Sapphire energy simultaneously, from your Maharic Shield to nfuse the Pale S lver Skin all round you

Take a few breaths to do this and watch as the 3 colors flicker through you - when they reach the Heart Chakra feel them expand out and allow them to travel on up, all the way to the 14th Chakra expanding throughout every Chakra as the Pale-Silver-Violet-Sapph re energy flows up, through and al around you See each Chakra respond with a spiraling burst of Silver-V olet-Sapphire, backward and forward through both sides of the Chakras until they al shift. try to feel the process as it awakens all the cells of your body

The brain cells and bra n patterns begin to respond activating the Fire Letters, setting the grid of frequencies necessary to activate the Fire Codes 7, 10 and 12 n the DNA Template.

Your own **D-12 Christos Avatar identity level** wi l **slowly** release the **Khundaray Activation Frequencies** through which the Amethyst Awaken ng progressively unfolds in the DNA Template and body Th s process can be **naturally and safely accelerated** by receiving a **Level-3 MC Regent Ordination transmission** from a qua ified **Indigo Child / Eieyani Level-4 through Level-6 MC Ordinate Consummate, Elder Consummate** or **Eckar** that carries the necessary **Amethyst Awakening Khundaray Activating Frequencies** in their E eyani DNA Templates.

Part of the process of Spiritual Integration of our Higher Selves or Expansion of our Consciousness involves "re-programming" the way we think. Our thoughts create our reality and the life experience we have on the inside and the outside of us.

The following Attitudes and Responsibilities, when embodied and "lived" will help to change our thought patterns - thoughts that we simply take for granted because they are part of the programming we currently carry. Changing the thought patterns is actually changing the programming in the personal shields.

Twelve Attitudes of Mastery
(Introduced at the Dance for Life workshop 2002)

1. **LOVE** — Recognition of the TRUTH of the ALL-ONE-ness

2 **GRACE** Allowing the ALL-ONE-ness to be what IT IS regardless of whether it suits you Living Perpetual Forgiveness

3 **GRATITUDE** Appreciating the ALL-ONE-ness knowing your Alive-ness.

4 **REVERENT - RESPECT** Acknowledging and giving to the ALL-ONE-ness

5 **RESPONSIBILITY** Co-Creating with, Serving and being able to respond to the ALL-ONE-ness.

6. **TRUST** — Knowing the Power and Love of the ALL-ONE-ness

7 **ACCOUNTABILITY** Being in a state of TRUTH with the ALL-ONE-ness

8 **IMPECCABILITY** Upholding and Protecting the ALL-ONE-ness

9 **MINDFULNESS** Loving, Nurturing, and Being Attentive to the ALL-ONE-ness.

10 **FEARLESSNESS** Recognizing the Eternal Infinite Nature and Unconditional Love of the ALL-ONE-ness.

11 **ENGAGED DETACHMENT** Permitting the ALL-ONE-ness to BE without assigning Critique, Condemnation or Value Judgment; understanding the IS-ness of and Validating the ALL-ONE-ness

12. **JOY** — Choosing to BE the embodied ALL-ONE-ness

INTRODUCTION TO DANCE FOR LOVE

In our introduction to ***Dance for Life***, we explored the *12 Lessons, 12 Attitudes* and *12 Actions*, through which we can begin to place ourselves upon the path of Advanced Spiritual Development.

Personal Spiritual Development begins with cultivating a genuine belief in and "felt intuitive knowing" of the existence of a universal "Higher Power" presence and intelligence that we may choose to call "God". Our personal spirituality begins to unfold as we progressively realize, and more clearly observe, the subtle action of the God Presence within the contours of our earthly existence. And in this realization of the **DIVINE PRESENCE**, we evolve a sincere personal desire to invite this **PRESENCE** more fully into a co-creative role within our daily lives. Many people are led to the path of **Spiritual Discovery** through culturally popular spiritual traditions that have historically defined the nature of the God Presence for us. More specifically, popular spiritual traditions set a course of actions, ideas, rules and "Laws" of self-government that are supposed to assist us in bringing the DIVINE PRESENCE more fully and observably into our personal lives. **The God Presence is a *living spirit and cosmic intelligence* that resides as a "Still Small Voice" within the depths of all creation**. Divine Presence becomes more fully active in our lives when we turn our attentions toward development of "**Divine Hearing**" through which we can progressively amplify the "Still Small God-voice Within" into the joyous, jovial and rapturous "Silent Roar" of Divine Living God-Spirit Expression in every moment of our lives. **The spiritual education we select as a tool to assist us in awakening the God-Spirit Within has great bearing upon the quality of experience we will encounter along our path of spiritual development**. Limited teachings that encourage us toward personal subservience to an external, and often "wrathful" God, and which cultivate within us the "Fear of God" so commonly promoted in traditional religious persuasions do more to obscure the nature and truth of the Loving God-Presence, than they do to assist us in spiritual advancement. **The beliefs, ideas and definitions we choose to accept about the nature, will and intentions of God become the *subconscious perceptual filters* through which we will consciously experience the God Presence**, if our ideas are limited and repressive, so too will be our experience of spirituality and God.

There are many religious belief systems that teach us to become "good little spiritual sheep" and "well-behaved subservient spiritual God-soldiers" and advocates of a pre-defined, characterized God figure. As long as we "follow the rules" promoted by the religious tradition we will have "God's favor" and thus might be "saved" from the seeming trials and tribulations of the mortal world and of the immediate "hereafter". For many people surrender of personal freedom and identity to a pre-defined "God-personification Authority" provides at least the *temporary emotional comfort* of having hope that one's life *might have* some intrinsic purpose, and that ultimately one's seemingly inevitable death will not imply the termination of personal existence. Spiritually Actualized beings do not need the emotional comfort blanket of "belief in hope", nor do they seek to "gain the approval" of an externalized God figure. **Masters actively KNOW and embody the REALITY of the living God Presence, which implies KNOWING Divine Life Purpose, the Eternity of Life and Divine Unconditional Love. When one KNOWS the Divine through direct experience, one does not need to "believe in" or to "hope for" that which appears absent, as KNOWING of the God Presence Within represents the actualization of such beliefs and hopes fulfilled**. "Religion" can be a temporary distraction from *earthly survival fears* and can offer us a *framework of self-definition* through which we can perceive greater meaning and motivation in our lives. Sadly religion can also serve as a barrier that stands directly between the mortal self and the living God-presence toward which we strive. **Just because one is religious, and follows the dictates of a pre-defined religious creed, does not necessarily imply that one is spiritual**. Genuine **spirituality emerges** through **Spiritual Realization and Actualization**, which are **conditions of consciousness** attained through progressively embodying and developing a co-creative loving relationship with the Divine God Presence as it moves and expresses within the immediate personal, private experience. **Genuine spirituality is an intrinsic and implied birthright and condition of all things manifest**; the **Still Small God-voice Within speaks and SINGS in every language, at every moment. Our challenge in spiritual development is to choose ideas and actions that assist us to HEAR the personal, inner "Loving God-Song" and allow its divine orchestration to fully engage us in the eternal Dance for Life and Dance for Love, through which the God-Spirit perpetually expresses.**

The **ancient Maharata (Inner Christos) Texts**, and the contemporary ***"Dance for Life, Love, Freedom and Joy"*** spiritual development courses translated from them, are intended to provide the most direct path of Spiritual Actualization available in contemporary times. These teachings are not designed to ensnare us within a limited religious framework, through which we become "good sheep" to some externalized "holy shepherd" **These are teachings that offer to us the DIVINE KNOWLEDGE through which we can choose to become the Shepherds of our own spiritual evolution, toward progressive awakening of the intrinsic God Presence that speaks, sings and dances within us all** Here you will not find "God" pre-defined, pre-determined or pre-judged but rather will discover very specific "***Divine Secrets of Creation***" by which the inner God-spirit voice can begin to be heard, enabling the God Presence Within to progressively define and determine itself as personally expressed through the private being **Divine Knowledge is reserved for "Divine Beings", "God-beings"; each of us was created to "live up to" and fulfill this role** Divine Knowledge and the Divine Love, Freedom, Sovereignty and Joy that it implies, are our birthright and heritage, we do not have to "grovel" to attain this "gift" from some externalized God-figure or self-appointed representative **The gift has already been given with the Divine Spark of Creation, through which each of us emerged from God into manifest being** The Maharata "Dance For" programs are simply a tool through which we can begin to "**un-box the gift and take it out of its wrappings**" so that we may progressively remember how to marvel at, appreciate, enjoy and celebrate the Gift of Life as was originally Divinely intended

In the ***Dance For Life*** program, we have explored the ***12 Lessons of Spiritual Mastery***, which focused upon **cultivating a beginning comprehension of the reality of Divine Science Creation Mechanics** by and through which the God-spirit perpetually Sings, Dances and Projects reality and our personal identity into objective co-creation We have explored the *ManU-ElrA-ManA God Forces* of the God-Source, the *Eckasha God-Seed*, the *Tree of Life Kathara*, *Divine Blueprint, Sacred Merkaba Mechanics. Keylontic God-Fire Alphabet, "7 Higher and Lower Heavens"* and the *15-Dimensional Anatomy* through which God-Source sets the Prima Substance and Primal Order foundation for manifestation. *Dance for Life* introduced the 15 Rays, 12 Domains, Primal Currents, Radial Body-Trion-Meridian Fields, the DNA Template-Atomic Window and the "**Sacred God Languages**" of the *Veca Codes*, *Psonn Tones. Merkabic Dance*, *Eckasha Merkaba* and *Seuna Movements* through which the skills of *Divine Conscious Creation* can be progressively developed *Dance for Life* also introduced the *Bi/Tri/Khu/Dha/Ra High Veca* and the *IAHAIA ManU Low Veca* Codes, the *Seuna Psonns* and *ManU-Eckasha Salutation* ManU Phase-1 Eckasha Merkaba activation and *Iahaia Code Induction* techniques, and touched upon *12 Attitudes* and *12 Actions of Spiritual Mastery* that can assist us in our Spiritual Actualization process So what is our next step toward Mastery, now that we have ***identified the basic context and tools* of genuine Bio-Spiritual Development?**

DANCE FOR LOVE- ***Awakening the God-Force Within***

SECTION-1: Cosmic Creation-Secrets of the Yunasai
***Through understanding* the *reality of the Cosmic Divine Blueprint we can begin to comprehend and awaken our tangible, indelible, eternal, direct and* personal relationship to GOD.**

There ıs a purpose plan and ntelligent design ınherent to, behind and wıthın a l creation We each ex st as an ntımate, ntegra and blessed part of a meaningful Cosmic, Lnıversal, Galactic, Planetary Race and Personal D vıne Order A.l creation takes places wıth n the consciousness of God and thus separation from God can only exist as the llusion of ımited perception and forgetfulness of our orıgına Source

COSMIC SOURCE: God

Creation perpetually emerges from and returns to the consciousness of the ONE God Source Consciousness wıthın which all creation takes place We ıve wıthın the ımıtless fıeld of the Cosmic Consciousness of God-Source and God resides always wıthın us and aroınd us for we and all manifestation are composed of the Divine Substance - the ıvıng, ntelligent units of the consciousness of God

COSMIC STAIRCASE: Downstepping Cosmic Creation

God-Source perpetually sets manifestation ın motion through engaging Its awareness ın the process of **Vibrational Downstepping**, or **Thought Formation** Downstepping occurs through contracting the consciousness ınto a **singular point** of focus, a "**creation intention**" or "**thought vibration**", to create the **first individuation of attention- a Stillpoint creation-point**. **Next the original thought vibration is replicated within the vibration of the first** to form the **second individuation of consciousness**, expand ng the first vibration from wıthın ıtself to create a **Static Field** of *absolute vibrational agreement* between the orıgınal thought v bration and ts replica To form the **Divine Trinity of Eternal Life-Perpetual Motion** through wh ch **interactive creation** ıs set ın motion, the thought vibration **replica** s then **polarized** wıthın the expanded orıgınal "First Thought" formıng **two separate thought vibrations** , each hoıdıng a larger **primary part** of the orıgına vibration as ıt **initially existed** and a smaller **secondary part** of the orıgınal vibration "**inverted**", or vibratıng n direct opposıtıon to the first vıbration ıts ıntentıon reflectıng the **opposite** of the orıgınal thought ntention God-Source sets creation ın motion through perpetua ly engag ng part of ıts awareness ın V'brational Downstepping, by whıch the Cosm c Divine Trınity of Eternal Lıfe creation ıs formed

COSMIC FORCE: The Yunasai Divine *Cosmic Trinity-ManU EirA and ManA*

The framework of manifest creation begins with God-Source Downstepping wıthın tself the *Divine Cosmic* Trınity of the **Yunasai**, the *Point of All Union* whıch ıs formed as God Source first manifests tself as the Cosmic Divine Trın ty of **Eternal God Force Identity** creatıng **wıthın Itself** the **ManU** (first Partıkı consciousness unit - Divine Spirit Womb-Cosmic Voıd-Eternal St.llpoint) the **EirA** (first Part cum pre-sound vibration unit - Divine Mother Creation Seed-Contractıng/ Receıvıng Consciousness Force) and the **ManA** (first PartıkA pre-light v bration ın t - Divine Father Creation

Spark-Expanding/ Transmitting Consciousness Force) **Eternal God force consciousness fields** to form the **Yunasai** *"Living Cosmic Thought Crystal"* within which all manifestation occurs

COSMIC CHRISTOS: The Divine Blueprint *Kathara, Kristalla* and *Kristos*

Creation emerges within the Yunasai as designed by God, following a specific **Base-12 eternal creation program** of mathematica -geometrical inter-relationships of consciousness that is called the **Kathara Template Divine Blueprint** or the ***"Kathara Grid"*** Within the Yunasai ManU Force Field, the EirA and ManA Force Fields each create a Kathara Grid that is formed upon **12 specific points of conscious attention** expressed as **12 fixed or "standing" points of vibration** The **two 12-point Kathara Grids** of the ManA and E rA together form the **Base-12/24 Point Cosmic Kathara Divine Blueprint**. The word **"Kathara"** expresses the **Divine Intention** God Source holds in creation of the Yunasa , Ka = Light Emanation/Expression, Tha = Sound Vibration/ Intention, Ra = ONE-spirit. The ONE spirit of God *intending to express AS* creation) The ***EirA Kathara Grid*** *is* called the **Kristalla** (or Christa la) meaning *"God Intends"* The ***ManA Kathara Grid*** s called the **Kristos** (or *Christos),* meaning "God *Expresses"*

COSMIC CLOCK: Downstepping the 12 *Reuche Sceptre Pillars*

Through vibrational interaction of consciousness within the Cosmic Kathara Grid, the Manu EirA and ManA God Forces of the Yunasa **recreate the original creation process** of *Vibration Downstepping by* which the Divine Cosmic Trin ty perpetual y individuates with n the consciousness of God Source. Following the impetus to create as imbued by the ong nal God-Source creation intention the ManU-EirA-ManA God Forces *intertwine* a portion of their consc ousness and **Downstep** the vibrations of the Cosmic Kathara Grid **three times** to form a **set of 12** ayered points of v bration fixed in a circular organization within the Cosmic Kathara Grid Template, each of which forms a singular **Scalar-Standing-Columnar-Wave** or **"Pillar"** of v bration called a **Se'-Ur** with n the Yunasai The set of 12 Cosmic Se -Ur standing-waves are ca led the **12 Reuche Sceptre Pillars**, wh ch together form the f rst scalar-wave-field that becomes the **Core God World** of creation

COSMIC HEART AND FIRE: *The ManU Window and Ecka Eternal Flame*

Following the Cosmic Kathara Gr d program the *12 Reuche Sceptre Pillars* **vibrationally interact** w thin the Yunasai, creat ng an opening called the **ManU Window**, "Man festation Point" or **"Zero Point"** at the center points of the EirA and ManA Kathara Grids (Krista la and Kristos) which links the center of the Reuche Scepter circle d rectly nto the ManU Force field of first creation and the l ving eternal consciousness field of God-Source. The 12 Reuche Scepter Pillars interact with the ManU field causing a quantity of the ManU Force consciousness ca ed the **Amoraea Wave-Pillar** *or* ***Ecka-ManU Eternal Flame*** *to* emerge through the ManU Window to form a **13th Scepter** at the center of the Reuche circle Through the ManU Window, the **Amoraea Wave circulates pulses of living God consciousness** between God Source and the eternal God Force consciousness fields of the Yunasai, setting in perpetual motion the processes of Eternal L fe Creation The Amoraea Wave/Ecka-ManU Eternal Flame is known as the **"Heart of God"** as it circulates pulses of living God consciousness, the **Eternal Life Stream** perpetually into and out of man festation

COSMIC ARCS: *The 12 Reuche Sceptre Arcs and the Cosmic Shield*

Through vibrational interaction with the Amoraea Wave-Pi lar Ecka-ManU Flame the 12 Reuche Scepter Pillar columnar waves **bend toward the Reuche center** to form **12 arcs** of consciousness **6 EirA Force arcs** and **6 ManA Force arcs**

that are collectively called the **12 Reuche Scepter Arcs** The EirA and ManA Force arcs pass together through the ManU Window at the Reuche center, **blending and replicating their vibrational content** within the Ecka-ManU Flame to form 12 rotating scalar standing-columnar-wave discs of **Bi-polar EirA-ManA consciousness** called the **12 Reuche Scepter Shields,** which are inked together through a central **Tri-polar** scalar wave disc composed of blended **ManU-EirA-ManA Force** called the Cosmic **Shield of Amoraea** that forms within the central Ecka-ManU Flame Each of the 12 Reuche Scepter Shields forms a **living circuit** of **counter-rotating** God Force: the **EirA** scalar standing waves forming **a counterclockwise rotating** scalar field that **receives** God Force consciousness from the Reuche and Yunasai field and **contracts** it back to God Source through the ManU Window for **de-manifestation**, the **ManA** scalar standing waves forming a **clockwise rotating** scalar field that **transmits** new pulses of God Force from the ManU Window and **expands** it into the Yunasai and Reuche Shields for manifestation The synchronized **rotation** of the 12 counter-rotating Reuche Scepter Shields held perpetually together through the central Shield of Amoraea, brings into being the first expression of God Force consciousness AS **Electromagnetic Force**, the living **Primal Life Force Current** from which all manifest worlds emerge.

COSMIC MERKABA: ***The Amoraea, Eckasha and Veca Merkaba Fields***

The perpetual rotation of the 12 Reuche Sceptre Shields and the Amoraea Shield creates a perpetual motion living circulatory system of God Force AS Electromagnetic Current which forms 12 smaller bi-polar Reuche Scepter Currents that are entwined together through the central Tri-polar current of the Amoraea Shields As the Scepter Shields rotate around the axis of the rotating central Amoraea Shield, the **Ecka-ManU Flame separates** the counter-clockwise rotating/contracting EirA currents from the clockwise rotating/expanding ManA currents as the **Amoraea Shield** holds the 2 polarized currents in direct relationship with each other, forming **two counter-rotating spirals** of polarized EirA and ManA God Force current **within the Ecka ManU-Flame** which are held together and interwoven through the Amoraea Shield The **EirA Spiral contracts** God Force in from the **Ecka-ManU Flame** sending it toward the **center-point ManU Window,** creating a **negative electrical current** (which creates the effect of **magnetic force** and gravity) as the **ManA Spiral expands** God Force from the **center point and Ecka-ManU Flame** creating a **positive electrical current** The synchronized, perpetual rotation of the EirA and ManA currents creates the **First Cosmic Merkaba Field, the Amoraea Merkaba** ***Mer*** meaning God Force **movement**, ***Ka*** meaning God Force **expression** ***Ba*** meaning "**Body**" or vehicle The Amoraea Merkaba is built upon the **Base-12/24 point mathematical program** of the **Cosmic Kathara grid**, the **12 points** of the slower vibrating **EirA Kristalla** Kathara grid form the geometrical shape of a **12-point/12 plane counter-clockwise** rotating Merkaba scalar wave spiral, the "**bottom spiral**" of the Merkaba Field and the faster vibrating ManA Kristos Kathara grid forms the geometrical shape of a 12-point/12 plane clockwise rotating Merkaba scalar wave spiral Together, the EirA and ManA Merkaba Spirals create the **24point/24-plane/Base-48 form** of the **singular** Cosmic **Amoraea Merkaba Field**

The intricate procedures by which the Amoraea Merkaba Field is formed are replicated and repeated by the God Force currents through **several stages** of **Downstepping**, to create **within the first Merkaba Field** the smaller Merkaba Field living energy/consciousness fields within which a multitude of **electromagnetic manifestation "domains"** form Each 12-point Kathara Grid that forms one of the 2 Cosmic Kathara Grids through which the 24-point/24-plane Cosmic Amoraea Merkaba Field is created, **replicates, polarizes and vibrationally Downsteps** to form a **pair** of smaller **Base-12** Kathara Grids, each of which forms a 6-point/6-plane Merkaba **Spiral** that together form a **12-point/12-plane/Base-24 Eckasha Merkaba Field** From the first Downstep one 24-point/24-plane/Base-48 Amoraea Merkaba forms **2 12-point/12-plane/Base-24 Eckasha Merkaba Fields** On the 2nd Downstep the 2 Eckasha Merkaba Fields form **4 6-point/6-plane/Base-12 Bi-Veca Merkaba Fields** On the 3rd Downstep the 4 Bi-Veca Merkaba Fields form **8 3-point/3-plane/Base-6 polarized Merkaba Spirals** called **Veca Merkaba Fields**.

COSMIC EGG: ***Cosmic Radial Bodies and the 15 God-Cells of the God-Seed***

Through the perpetual spin of the counter-rotating electromagnetic God Force currents, within the Cosmic Amoraea Merkaba Field the **15 Cosmic Spheres** or **15 God-Cells** of the Cosmic God-Seed are formed The "force" and "counter-force" of the EirA and ManA Merkaba Spirals creates within the center of the Merkaba Field (which is within the Ecka-ManU Flame at Reuche center) a perfectly balanced spinning, **electromagnetic force field** in the shape of an **elliptical sphere** that is called the **"Form Constant"** or electrostatic **Cosmic Holographic Radial Body** Formation of the first God-Cell Sphere within the Amoraea Merkaba sets in simultaneous motion the Merkabic Downstepping Process, each Downstep creating within the center of its Merkaba Field another Holographic Radial Body God Cell The **first Downstep** creates **2** additional God Cells, the **second Downstep** creates **4** more God Cells and the **third Downstep** creates the last 8 God Cells for a total of **14 God Cell Radial Bodies** (2 + 4 + 8 = 14) **expanded within the original first God Cell**, the **Cell of Amoraea**, which is known as the "**15th Cell**" Through **Downsteps 1 and 2 God Cells 2-6** form **within the first Cell** Amoraea Radial Body, **within the Ecka-ManU Flame** ManU Window Reuche center point (Zero Point) creating the core or "**Yoke**" of the "**Cosmic Egg**" The **final 8 God Cells** form the Ecka-ManU Flame Zero Point, **within the center of the Amoraea Radial Body "Yoke", expanding the cluster of the first 7 "yoke" cells outward to become the "Cosmic Egg"**, as the **last 8 Cells become the "yoke" at the center of the Amoraea Radial Body** The "first 7 Cells" expand to become the "last 7 Cells" as the original last 8 Cells emerge from the Zero Point center to expand the original first 7 Cells into externalization Through the intricate working of the Merkabic Holographic Radial Bodies and the ManU-EirA-ManA Divine Trinity of God Force currents the "**First 15 Eternal God Cells**" come into being **within the Ecka-ManU Eternal Flame**, causing the Ecka-ManU Flame scalar columnar standing wave to expand outward from within itself forming a **stationary scalar Spherical standing-wave of ManU God Force**, called the **Cosmic Amoraea Crystal**, a "**Cosmic Thought Crystal**" Radial Body **stationary scalar standing wave** in the shape of an **elliptical sphere** or **Cosmic Egg, surrounding the perpetual creation** that takes place within its core
In fulfilment of the Base-12 Eternal Life mathematical-geometrical creation program, held within the **Cosmic Christos Divine Blueprint**, the process of **6 Downsteps**, that formed the original Cosmic Egg, is **repeated** once more **within the Amoraea Crystal**, creating a **total of 12 Downsteps** through which the **microcosmic replica** of the Cosmic God Seed forms a **Universal God Seed** with **15 smaller Universal Cells** that form the structure of **15-Dimensional Time Matrix systems within the God Worlds** formed through the Cosmic God Seed

GOD WORLDS OF THE COSMOS:

The **Cosmic God Seed** forms the **Eckasha-Aah** (Downstep-1), the **Eckasha-A** (Downstep-2) and the **Eckasha** (Downstep-3) **Core, Higher and Middle God Worlds**, and the **Universal God Seed** (Downsteps 7-12) forms the clusters of **7 Higher and 7 Lower Heavens** of the **Lower God World Universal Veca Time Matrix systems**

Template Substance:

Primal Units, Fire Letters, Ionic Particulates & Atomic Externalization

Primal Units, **Partiki Partika** and **Particum** are the carriers of **Primal Force** - conscious energy, the Source of all energy-consciousness manifestation, each of the 3 Primal Units carries a different electrical polarity orientation, through which **electrical magnetic** and **neutral force** of the Primal Creation Currents are formed Prima Units draw together to form chains/strands of like units and electrical force The chains of Primal Unit Force continue to accrete to form grids of like-polarity Force The grids of Force interact with each other, creating an interwoven network of electrical force possessing 3 different electrical orientations The Tri-Force Grids accrete more like units filling out to become **Tri-Force Keylon Crystals**, then **Keylon Codes** which collectively form a 15-dimensional Prima Crystal Grid or **Scalar Field** of fixed, spherical columns of standing waves - **Harmonic Scalar Waves** Each **Keylon Code**, **together with its Scalar-standing wave**, is called a **Fire Letter**

The **Cosmic Template Scalar Field** is organized into **5 groups** of Keylon Codes/Standing-waves/Fire Letters, each group composed of a **set of 3** Keylon Code/Scalar-wave sequences, which forms a **15-Dimensional Time Matrix** Each dimension is a group of **12 Primary** Keylon Codes/Scalar Waves/ Fire Letters and is called a **Fire Letter Sequence** The **Pre-matter Template of Manifestation** begins at **Dimension-12**, as life-force currents move downward from the **Primal Sound Fields**, beyond the **Time Matrix**, and the **Primal Light Fields** of Dimensions 13-14-15 The 12 Dimensions of manifest form represent **12 Primary Fire Letter Sequences**, each with 12 Primary Fire Letters A D-12 Pre-matter Template is thus composed of **144 Primal Fire Letters/Keylon Codes/Scalar Waves**, which are the carriers of the electrical force organization that forms and sustains the 15-Dimensional Time Matrix

The **Fire Letters**, composing each dimension, first manifest in **electrical wave-forms** called **Ionic Particulates** There are **3 types** of Ionic Particulates, **Mions**, **Dions** and **Trions**, which serve as the carriers of Prima Force and Consciousness Mions, Dions and Trions are the **micro-sub-atomic carriers** of the **Primal Tri-Force** and dimensionalized consciousness, the tangible wave-form substance of which thought, consciousness and energy is composed Ionic Particulates are the Templates upon which Particle Anti-particle and Ante-particle sub-atomic units manifest into externally perceivable sub-atomic and atomic structure through which the "**Hologram of Matter**" is projected from the Template of Consciousness into externalized **Thought-form Objectification Mions** and **Dions project outward** into the Hologram sub-atomic units that **carry the opposite electrical charge** from that carried in their wave-form structure

Structure of the Kathara Level-1 12-Tree Grid Core Scalar Template

12 Universal Signet Star Gates

12 PRIMARY KATHARA CENTERS:

Kathara Centers are condensed Scalar Wave points that hold the core electro-tonal geometrical-mathematical program for dimensionalized structure. There are 12 Kathara Centers. The program for Partiki Phasing and Vibration-Oscillation for each Dimensional Frequency Band is set in the corresponding Kathara Center. The Kathara Centers set the template for each Dimension to ground consciousness within the Holographic experience of manifestation.

12 Universal Signet Passages

15 PRIMARY KATHARA LINES:

Kathara Lines are the primary sequences of Partiki Phasing that transmit the electro-tonal programs held within the Kathara Centers from one Dimension to another, to keep the continual flow of consciousness circulating throughout the 15-Dimensional levels of the Morphogenetic Field. When functioning properly, the Kathara Lines connect each Harmonic and Dimension of consciousness to the other, and govern the synchronization of cycles of time within the Dimensional Fields and within the morphogenetic field, DNA and body rhythms of dimensionalized forms. The 3 Vertical Kathara Lines control the operation of the other 12 Kathara Lines. The Central Vertical Kathara Line is the control center for Partiki Phasing rhythms throughout the Kathara Line System.

The Time Portal and Dimensional Lock Systems
Portals and Star Gates

Star Gates and Portals are pairs of interconnected, counter-rotating electromagnetic field spirals that naturally exist within suns and planetary bodies and which also form at fixed points of space within the 5 Densities of the Universe where Time Cycles and Time Continua repeatedly pass through each other at fixed intervals. Star Gates and Portals exist as Black and White Hole Pairs that are connected at the center point by a scalar-frequency Seal. When Star Gates or Portals activate, the center Seal releases and the pair of counter-rotating electromagnetic spirals merge to form an interdimensional Merkaba field, which allows for passage between various space- time coordinates.

Star Gates enter planets
at 12 Planetary Signet Star Gate Sites.

Vertical Axis spiral pairs form the Star-Gates of the Dimensional Lock System, which permit passage between space-time locations in multiple universes and Density Levels.

Horizontal and Diagonal Axis spiral pairs form the Portals of the Time Portal System, which permit passage between space-time locations in our universe and one Density Level.

Vertical Axis Star Gates link the Planetary, Galactic and Universal Templar Complexes through 5 Harmonic Universes and their inherent 5 Matter Density Levels.

When Star Gates and Portals activate, the counter-rotating, electromagnetic spiral pair merges to form a Merkaba Vehicle; its center becomes a "Form Constant" Still Point that links various space-time locations directly to each other, creating a trans-time bridge.

The Universal Templar Complex

- The systems of interwoven Manifestation Templates within the 5 Matter Density Levels of the 15-Dimensional Universal Kathara Grid are collectively referred to as the **UNIVERSAL TEMPLAR COMPLEX**. The Manifestation Template of the human body likewise structured upon this Primal Order also manifests through a personal **INTERNAL TEMPLAR COMPLEX** of interwoven 15-Dimensional Manifestation Templates.

- Universal Galactic and Planetary Scalar-wave Templates of the Universal Templar Complex are called **Scalar SHIELDS**. Shields are sets of 3-Dimensional Scalar Grids upon which the 5 Matter Density Levels of the Universal Manifestation Template manifest. A Shield is composed of the distinct **3 Primary Flash Line Sequences** or Particle Phasing Rhythms, characteristic to the 3 dimensions of which the Shield is composed. The Internal Templar Complex of the human body is also organized into 5 sets of 3-Dimensional Personal Scalar Shields, through which the matter form and 5 Matter Density Levels of the 15-Dimensional human consciousness are projected into manifest experience.

- Through the intrinsic dynamics of synchronistic Particle Phasing, each 3-Dimensional Scalar Shield manifests a **3-DIMENSIONAL SPHERICAL ELECTROMAGNETIC DOMAIN** that creates the energetic framework within which externalized manifest experience can take place. Within the Universal Templar Complex, these Spherical Domains form 5 separate yet interwoven Reality Fields or Harmonic Universes, each with a different level of Matter Density, rate of Vibrational Oscillation, different Angular Rotation of Particle Spin and variance in Time Cycle orientation. Within the Personal Internal Templar Complex, the Spherical Electromagnetic Domains created by synchronistic, dimensionalized Particle Phasing form within the 15-Dimensional Time Matrix 5 separate yet interwoven **STATIONS OF CONSCIOUSNESS** called **HOVA BODIES**. The 5 Hova Bodies of human Manifestation Template Anatomy within the Time Matrix represent the 5 Subtle Energy Bodies of human bio-energetic field construction through which human identity experiences series of **SIMULTANEOUS INCARNATIONS** within the various Time Cycles and matter density levels of the Time Matrix. Human Evolution is the process by which the electromagnetic frequencies and stations of consciousness of the 5 Hova Bodies progressively merge to transmute the physical matter form backward through the various Matter Density stages through a process called **TRANSMUTATIONAL DIMENSIONAL ASCENSION**.

- Each of the 5 Shields within a 15-Dimensional Manifestation Template is structured upon 3 **KATHARA CENTERS** within the core Primal Order of the Level-1 Kathara 12-Tree Grid. Each Kathara Center of the Universal Kathara Grid forms a core point of consolidated frequency called a **SIGNET** Star Crystal Seal within the 3-Dimensional scalar Shields. Within the universal galactic and planetary Templar Complex the Signet Seals operate as Star Gates between the Time Cycles of the 5 Matter Density levels of the 15-Dimensional Time Matrix. Within the Personal Internal Templar Complex, each Hova Body is structured upon 3 Kathara Centers within the embodied Personal Kathara Grid. Each embodied Kathara Center forms a Signet Star Crystal Seal within the human anatomy. The embodied Signet Seals operate as Bio-electric Windows within the DNA-RNA, that link the Stations of Consciousness and various Simultaneous Incarnations of the identity that exist within the Time Cycles of the Time Matrix to each other across the illusions of time. Through the embodied Personal Kathara Grid, Scalar Shields, Signet Seals and DNA Windows, the individuated aspects of **ETERNAL IDENTITY** in time are indelibly linked in consciousness. This intrinsic linking of personal consciousness within the various simultaneous cycles of time appears to the embodied human awareness as **REINCARNATIONAL MEMORY**.

- The embodied Manifestation Template of the human form is a microcosmic reflection of the Macrocosmic Universal and Cosmic Manifestation Templates. Both microcosmic and macrocosmic Manifestation Templates share, and are interwoven through, the same **Primal Structures** of the Kathara 12-Tree Scalar Grid, the 5 3-Dimensional Scalar Shields and Signet, Star and Seed Crystal Seals and the Diodic Point –"Black and White Hole Sets" of energy vortices that manifest upon the Kathara Grid. Human consciousness and biology are directly and indelibly connected to the Universal Templar Complex through the **Personal Internal Templar Complex** of the Personal Manifestation Template.

Merkaba Fields, Star Gates & the 7 Primary Vortices of the Planetary Templar

Star Gates and Time Portals are formed through interconnected **BLACK AND WHITE HOLE SETS** that run between Dimensions and Harmonic Universes, which create an energy structure called a MERKABA. A Merkaba is a set of **COUNTER-ROTATING INTERDIMENSIONAL ELECTROMAGNETIC FIELDS** that form through the axes of 3 Dimensional or Harmonic Universe Flash Line Sequences, each at specific rates of speed, crossing through the center of each other at **22-degree angles**. This configuration of energy relationship creates a spinning energy field in the form of a **STAR TETRAHEDRON** (2 interlocking Tetrahedrons, one inverted through the other; a tetrahedron is a triangular pyramid with 4 plane faces). All manifest things have natural sets of Merkaba Fields within and surrounding the body. Merkaba Fields are the **VEHICLES OF MANIFESTATION**. At the center of a Merkaba Field, a spinning, spherical 3-Dimensional **ELECTROMAGNETIC DOMAIN** is formed, creating the precise mathematical ratios of scalar waves through which 3-Dimensional Manifestation Templates are formed. Merkaba Fields circulate energy from the Dimensional Unified Fields into Manifestation Templates, continually fueling the manifestation of all objectified forms. All manifest forms exist within the Electromagnetic Spherical Domain at the center of Merkaba Fields. The Electromagnetic Domain at the center of a Merkaba Field creates what is called a **FORM CONSTANT**, a sustained 3-Dimensional Matter Form.

If the speed of Partiki Phasing between the 3 Flash Line Sequences that make up a Merkaba Field reaches a specific ratio, the Merkaba Fields expand to include the scalar wave patterns of other dimensional frequency bands, additional Flash Line sequences, or additional energy with different Partiki Phasing Rhythms. When a **3-Dimensional Merkaba Field** expands to include more dimensions of frequency, the Spherical Domain within the Merkaba Field opens to other Dimensions. **Time Cycles and Densities of Matter**. The Merkaba Fields that form Star Gates and Time Portals move through set variances of **Partiki Phasing Rhythms** within their 3-Dimensional Time Cycle. At certain set points in every Time Continuum, the Merkaba Fields of planets and stellar bodies reach the specific ratios of Flash Line Sequence rhythm that allow the Spherical Electromagnetic Domain, within which the planet is stationed, to receive and integrate frequency from other locations in the Time Matrix. This part of the planetary Time Continuum is called a **STELLAR ACTIVATIONS CYCLE**. During Stellar Activation Cycles the Merkaba Field at the planetary core opens to receive energies from the other Harmonic Universes, and the Star Gates and Time Portals of the Planetary Templar Complex open to the Interplanetary, Intergalactic and sometimes to the Universal Templar Complex system.

When the Star-Tetrahedron Merkaba Field at a planet's core opens during a Stellar Activations Cycle, a series of systematic changes occurs within the planetary Manifestation Template. Natural Merkaba Fields control the set core vibration and oscillation rhythms of a planet's 3-Dimensional molecular structure; the vibration-oscillation rhythm controls the **ANGULAR ROTATION OF PARTICLE SPIN**, or the angle of the axis upon which particles rotate. The Angular Rotation of Particle Spin governs the **MATTER DENSITY LEVEL** of the planetary molecular structure and that of all things on the planet. As the Merkaba Fields at the planet's core draw in higher dimensional frequency, **VORTICES** (spirals of electromagnetic energy that naturally feed 3-Dimensional energy through the planetary body) begin to transmit higher dimensional frequencies into the Planetary Templar Complex. When a **CRITICAL MASS** of higher dimensional energies (energy with faster Partiki Phasing rhythm) enters the planet's Manifestation Template, the Merkaba Field at the planetary core fully merges with the Merkaba Fields within the cores of the planet's Counterparts in the higher dimensional Densities. The planetary Merkaba Field picks up speed to match the rotation speed of the Merkaba Fields in the higher dimensional Harmonics, progressively shifting the planet's Angular Rotation of Particle Spin to match that of the planet in the next Density level. Through this process, Density Levels of the planetary molecular body merge. Merging of the different Harmonics of Matter Density within a manifest body changes the 3-Dimensional matter density level to a less-dense state. It creates a period of **DIMENSIONAL BLENDING, TIME ACCELERATION AND TIME CONTINUUM MERGER** between various manifestation levels of the planetary body, and allows open passage through the Star Gates and Time Portals of the Planetary Templar Complex. A Stellar Activation Cycle begins with opening of the **PLANETARY VORTICES** and culminates in the opening of the Star Gates within the Merkaba Field at the Planetary Core.

There are **7 PRIMARY VORTICES** (and many secondary vortices) within the planetary body that naturally feed energy into the planetary Manifestation Template. Usually, only 3 Primary Vortices are open, feeding 3 dimensions of energy into the planetary Manifestation Template to keep the natural structure of the planet's Form Constant as it evolves through time. During Stellar Activations Cycles, the 4 dormant Primary Vortices on the Planet progressively come to life, transmitting the higher dimensional frequencies entering the planetary core throughout the energetic and molecular structure of the planet. The **6 Primary Vortices** on a planet form at the **PRIMARY AXIS POINTS** that are formed by the 3 interwoven Flash Line Sequences of which the Merkaba Field at the planetary core is composed. The **7th Primary Vortex** forms at the point where the vertical axis of the planet's Merkaba Field links with the vertical axis of the Merkaba Field from the planet's Counterpart in the next Harmonic of Matter Density. Each of the 7 Primary Vortices is located on a specific geographical area on the physical and energetic body of the planet.

Star Gates, Universal Kathara, Shields and Signets of the Planetary Templar & Merkaba

The **12 PRIMARY STAR GATES** of the **UNIVERSAL TEMPLAR COMPLEX** connect to Earth through the Halls of Amenti Star Gates at Earth's core. The Universal Star Gates are positioned within the Universes of the Time Matrix following the core mathematical and geometrical arrangements of scalar-waves within the 15-Dimensional **UNIVERSAL MANIFESTATION TEMPLATE**. The core structure of the Universal Manifestation Template, or the **PRIMAL ORDER**, is built upon an organization of scalar grids called the **UNIVERSAL KATHARA GRID**. Within the Kathara Grid blueprint for the Cosmic and Universal Manifestation Template, there are 12 primary points of consolidated energy that form Star Gates called **SIGNETS**, which form the first 12 configurations of Flash Line Sequence interrelationship within the Energy Matrix and within 15-Dimensional Time Matrices. In order to enter manifestation within the Time Matrix, the Manifestation Templates of all forms, from the macrocosmic to the microcosmic, are organized upon the core energetic relationship of this Primal Order. The manifestation Template for every manifest form and being is built upon one **12-Point Kathara Grid** within the **Energy Matrix** and another **12-Point Kathara Grid** within a **15-Dimensional Time Matrix system**.

The Primary Star Gates of the Universal Templar Complex are arranged upon the Primal Order of the Kathara Grid, with 3 Primary Star Gates manifesting in each of the 5 Harmonics of Matter Density within the 15-Dimensional Time Matrix. The first 3 Star Gates of Density 5 (dimensions 13-15) represent the Ante-matter scalar wave grids out of which the Star Gates in matter Densities of the lower dimensional fields manifest. **The 3 Density-5 Star Gates are the first 3 Star Gates within the Cosmic Manifestation Template**. The **12 PRIMARY STAR GATES, or SIGNETS**, in the Universal Manifestation Template for the Time Matrix, and the Kathara Grids for all creations within the Time Matrix, connect to the Cosmic Energy Matrix through the 3 Star Gates in Density 5. Passage out of the Time Matrix into the non-dimensional Energy Matrix requires passage through the 3 Density-5 Star Gates. **Passage through the Density-5 Star Gates is the technical and true meaning within the concepts of Spiritual Ascension and return to *At-ONE-ment* with Source or God**. In the Universal Manifestation Template, each of the 3-Dimensional reality fields formed by the **5 Harmonic Universes** is built upon a smaller Manifestation Template and Kathara Grid contained within the larger Universal Manifestation Template. The 3-Dimensional Manifestation Template of a Harmonic Universe is called a **SCALAR SHIELD**. The Universal Kathara Grid circulates energy through the Universal Manifestation Template and the 5 smaller Scalar Shields of the Harmonic Universes. The 3-Dimensional Scalar Shields of the 5 Harmonic Universes circulate energy through the galactic, planetary and personal Manifestation Templates of all things within them by means of Merkaba Fields.

The Manifestation Templates of everything manifest in the Time Matrix are built upon microcosmic reflections of the **12-point Universal Kathara Grid** and the **5 Scalar Shields of the Harmonic Universes**. The Manifestation Template of every planet and stellar body is ordered upon a structure of **5 PLANETARY SCALAR SHIELDS**, each manifesting as a 3-Dimensional Spherical Electromagnetic Domain within which the molecular body manifests. The **5th Planetary Shield is the Density-5 Ante-matter Template** formed by the Cosmic Kathara Grid. The **4 PRIMARY PLANETARY SHIELDS** are the scalar wave Manifestation Templates formed by the Universal Kathara Grid of the Time Matrix. The **4th Planetary Shield** is the manifestation Template for a planet's **Density-4 Pre-matter body**, which holds the originally intended **ORGANIC IMPRINT** for the planet's natural evolution through time in the Densities below. The Organic Imprint of a manifest form represents the original arrangement of scalar waves and Particle Phasing Rhythms through which manifestation is entered, which is the pattern needed for evolution out of manifest densities. The **PLANETARY ORGANIC IMPRINT**, which constitutes the planet's natural, organic alignment to the Signet Star Gates of the Universal Kathara Grid, is held with the 12th Dimensional level of the Density-4 Planetary Shield. The Density-4 Scalar Shield of a Manifestation Template is called the **MAHARIC SHIELD**. The 4 Primary Planetary Shields of Densities 1-4 (dimensions 1-12) each connect to 3 of the **12 SIGNET STAR GATES** within the Universal Kathara Grid. Each Planetary Shield is built upon **3 PLANETARY SIGNET STAR GATES**, which regulate the flow of interdimensional energy from the Universal Star Gates through the Internal Merkaba Field at the Planetary Core. The Planetary Body in each Harmonic Universe manifests upon 1 Planetary Shield. On each planetary body, the **3 PLANETARY SIGNET STAR GATES** are the **CONTROL CENTERS FOR THE PLANETARY TEMPLAR COMPLEX**.

The 3 Planetary Signets of Earth's Planetary Scalar Shield are located in 3 physically separate geographical locations on Earth called **SIGNET SITES** of the Planetary Templar Complex. The Signet Sites control the manifestation and function of all planetary Vortices, Ley Lines and Merkaba Fields within the interwoven energetic system upon which the molecular structure of the planet manifests. The 3 Signet Star Gates within a Planetary Shield remain dormant during portions of the planetary Time Continuum when Stellar Activation Cycles are not occurring. Of the 3 Signet Star Gates within the Planetary Shield, the Central Signet connects directly to the **vertical axis of the Merkaba Field** at the planetary core and **controls the operations of the core Merkaba Field, the Planetary Shield and the other two Signet Star Gates**. The central Signet is called the **GRU-AL POINT**. The geographical location on the planet that corresponds to the GRU-AL Point Signet in the Planetary Shield is **THE CENTRAL CONTROL SITE** for the entire Planetary Templar Complex. (continued)

Star Gates, Universal Kathara, Shields and Signets of the Planetary Templar & Merkaba (continued)

In advanced Pre-ancient civilizations that developed on Earth during times when the Planetary Star Gates were opened the **GRU-AL Site** was always the location of the **MAIN POWER GENERATOR TEMPLES** through which global free energy systems and Star Gate passage were regulated. The main province of the ancient Atlantian civilization, as well as all of the main cultural centers of Pre-ancient times, were built upon the **GRU-AL Point** Signet Site.

Dormant Signet Star Gates serve as **SCALAR FREQUENCY SEALS** within the Planetary Shield blocking out higher dimensional frequency to keep the planet **PHASE LOCKED** or energetically locked into its Harmonic Euiago Time Cycle. During Stellar Activation Cycles the **GRU-AL Signet Seal** within the Planetary Shield releases and opens due to influx of a critical mass of higher dimensional frequencies that occurs when the planet enters the period of time called the **DOREADESHI** meaning the completion of its set Euiago Time Cycle. As a planet approaches its Doreadeshi a Stellar Activation cycle will commence if the Merkaba Field at the planetary core is spinning fast enough to vertically link with the Merkaba Field within the core of the Central Sun in the planet's local galaxy. The vertical linking of the planetary and Solar Merkaba Field axes is called **GROUNDING THE STELLAR BRIDGE**. Through this process the Merkaba Fields of the higher dimensional Harmonic Universes can link to the planet through the Solar Merkaba Field creating a literal bridge of interdimensional stellar scalar frequency running through the Solar Light spectra between the Matter Density levels and Time Cycles of the Time Matrix. Once the Stellar Bridge grounds into the Planetary Shields and the Merkaba Field at the core of the planet enters vertical axis electro-magnetic phase lock with the Solar Merkaba Field a **Stellar Activation Cycle** commences. When the Stellar Bridge anchors the **GRU-AL Signet Seal** in the Planetary Shield releases opening the Planetary Shields and core Merkaba Field to the progressive influx of frequency from the higher dimensional Harmonics of Matter Density. A Stellar Activation Cycle cannot be stopped once it has commenced whether or not the Planetary Shield is prepared to hold and synthesize the new higher dimensional frequencies properly. If the 3 Planetary Shields of the 3 planetary Counterparts from Density 1 through Density-3 carry distortions and their scalar wave arrangements differ from those of the Organic Imprint Density-4 Pre-matter 12th-Dimensional Mahanic Shield major environmental climatic and tectonic problems can arise on the planet during Stellar Activation Cycles. Such problems of Planetary Shield Distortion which cause electro-magnetic imbalance in the entire planetary energetic system can be solved through utilizing the **Planetary Templar Complex** to realign the scalar wave patterns of the Planetary Shields with their 12th-Dimensional Mahanic Shield Organic Imprint as the Planetary Templar progressively comes into activation.

In Stellar Activation Cycles the **GRU-AL** Point Signet first receives the interdimensional frequencies from the Solar Merkaba Field and collects them within the Planetary Shield until the full 12 Sub-frequency bands from the next dimension up have been transmitted through the Solar Merkaba. The energy Sub-harmonics of the 12th - Dimension exist in the form of **Omni-polar Tri-tone Standing Waves** of sound vibration. 12th-Dimensional frequency is referred to as the **PRE-MATTER PLASMA BEAM**. When the 12th Sub-frequency Band Plasma Beam of the next Dimensional Flash Line Sequence enters the Planetary Shield the **GRU-AL Signet-Seal opens** and draws the Plasma Beam into the planet's core Merkaba Field. Reception of the Plasma Beam creates a progressive acceleration of the Merkaba Field spin rate until it matches that of the Merkaba Field spin in the planet's Counterpart in the next Matter Density level. The Plasma Beam entering the planetary core Merkaba Field begins an accelerated cycle of **fusion between Bi-polar Particum-Particles and Partika-Anti-particles** in the Planetary Manifestation Template by which portions of the Planetary Manifestation Template return to their original Density 5 Omni-polar Ante-matter Tri-tonal Wave form. This process of accelerated fusion within the Planetary Manifestation Template progressively and literally **de-manifests the portions of the planet's molecular body** that are built upon the transmuting parts of the Manifestation Template. The **matter density level of the plane and everything on it is transmuted to a less-dense state of matter** and the planet shifts from its lower dimensional Density Euiago Time Cycle into the Euiago Time Cycle of the next Harmonic Universe up on the 15-Dimensional Scale. Once the **GRU-AL** Signet Star Gate has opened and the Plasma Beam has entered the planetary core Merkaba Field the smaller **FREQUENCY SEALS**, within the Planetary Shields that control the Planetary Vortices also begin their release cycle. The 4 dormant vortices of the 7 Primary Planetary Vortices progressively open in an event known as **The Opening of the Seven Seals**". Opening of the 7 Primary Vortices progressively causes the 5 Scalar Shields and 5 Spherical Electromagnetic Domains of the Density levels of the planet and its Counterparts to merge. The 12 Primary Star Gates of the universal Kathara Grid progressively open into the planet's core Merkaba Field and the entire Planetary Templar Complex is brought into interdimensional activation, creating a condition that is known as the **PLANET ENTERING MERKABA**.

Anatomy of the Halls of Amenti and the Planetary Templar Complex

The **HALLS OF AMENTI** are a set of Star Gates within Earth's core Merkaba Field. Earth, like all manifest bodies, exists **WITHIN** the Spherical Electromagnetic Domain of a set of **OUTER MERKABA FIELDS** which extend into Earth's atmosphere and into outer space. Like all manifest bodies, Earth also contains at its core the **INTERNAL MERKABA FIELD** which regulates the functions of the Manifestation Template and the Outer Merkaba Fields. Within the Spherical Electromagnetic Domain of Earth's Internal Merkaba Field there is a reality field that manifests into physical matter as Earth enters the Density-2 Eulago Time Cycle during Stellar Activation Cycles. As the Seven Primary Vortices of Earth's Planetary Templar Complex progressively open during Stellar Activation Cycles, previously dormant Time Portals and Star Gate access points in various geographical regions across the globe come into activation. The Time Portals and Star Gate access points of the Planetary Templar Complex serve as **FREQUENCY MODULATION ZONES**, creating a Bridge of 3-Dimensional Frequency through which physical travel to the Halls of Amenti can be experienced. The Halls of Amenti represent a 3-Dimensional reality field that links Earth's Time Matrix to the Time Matrix of Earth's Anti-particle Double **PARALLEL EARTH** through a middle reality field called **INNER EARTH**. The Star Gates at Earth's core are accessed from the middle-zone 15-Dimensional Time Matrix of Inner Earth. When the Star Gates open in Earth's core, Time Portals connecting Surface Earth to Inner Earth physically manifest as a series of interconnected, crystal-lined Subterranean Tunnels that lead into the Halls of Amenti subterranean chambers beneath the surface of Inner Earth. The Subterranean Chambers of Inner Earth are massive underground **TEMPLE COMPLEXES** that are built over and around the **GRU-AL SIGNET POINT** in the Planetary Shield of Inner Earth. Inner Earth has, for a long time, been inhabited by **Elder Race** humans from the advanced Pre-ancient human cultures that once thrived on Surface Earth. In anticipation of Earth's next natural Stellar Activation Cycle, the races of Inner Earth have protected the Halls of Amenti Star Gates and maintained the Amenti Temple Chambers for many thousands of years. During Stellar Activations Cycles, the Surface Earth Time Portals that lead to the Subterranean Amenti Access Tunnels open, and physical travel to the Halls of Amenti can be experienced by humans with specific activation levels in the **DNA Template**. The advanced races of Inner Earth use **FREQUENCY CLOAKING TECHNOLOGY** to regulate the Surface Earth access portals, to protect their world from warring human invasion. Occasionally, the Inner Earth races will contact Surface Humans who show spiritual maturity and a peaceful nature, and at times allow humans with DNA that can withstand frequency modulation to pass through the Subterranean Amenti access tunnels to visit Inner Earth and the Amenti Temple Chambers.

During Stellar Activation Cycles Earth's Planetary Templar Complex and the Amenti Temple Complex of Inner Earth open to the interdimensional spectrum. The Halls of Amenti Star Gates have 6 Primary Star Gates running on a vertical axis. Earth has 3 Primary Star Gates located on Earth at the geographical locations of the 3 Signet Sites. The 3 Signet Sites connect directly to 3 Star Gates on Earth's Density-2 Counterpart Tara, to various space-time locations and Star Systems in the Density-1 Universe and to other Primary Star Gates, Time Cycles and Stellar Systems within the higher dimensional Densities of the Universal Kathara Grid. Across the globe there are many other **STAR GATE ACCESS POINTS**. Vortices and Time Portals that link into Earth's 3 Primary Star Gates and the Amenti Temple Complexes of Inner Earth. This global network of **SACRED SITES** is energetically interconnected through the Planetary Shields. In Stellar Activation Cycles, the Amenti Access Points open, allowing passage to life forms whose DNA Template can tolerate the accelerated influx of frequency that occurs in Star Gate travel. The Halls of Amenti Star Gates become available for passage during Stellar Activation Cycles only if Earth's Planetary Shield can achieve and retain the electromagnetic balances of its Density-4 Mahanic Shield Pre-matter Template. The Pre-matter Template is often referred to as the **CHRISTOS TEMPLATE**. If Earth's Planetary Grids are not properly balanced during the years of a Stellar Activation Cycle, climatic and tectonic problems and even cataclysmic physical pole shift can result. As the Planetary Templar Complex activates during a Stellar Activation Cycle, certain **SACRED SITE** locations on the planet can be used to **CLEAR AND REPROGRAM THE PLANETARY SHIELD using INTERNAL SCALAR MECHANICS TECHNOLOGIES**. Not all Sacred Sites can be used to access the Planetary Shields for reprogramming and grid clearing.

The **GRU-AL SIGNET POINT** is the main Star Gate on Earth and it is the **PRIMARY PLANETARY SHIELD PROGRAMMING CENTER**. The **GRU-AL SITE** is the first area of the Planetary Manifestation Template to receive interdimensional frequencies from the Stellar Bridge that transmits via the Solar Merkaba Field during Stellar Activation Cycles. The other two **SECONDARY SIGNET SITES** each receive the incoming frequency directly from the **GRU-AL** Site and can also be used for Planetary Shield realignment. Earth's **GRU-AL** Site is directly aligned with the GRUAL Signet Sites in the Planetary Shields of Earth's Counterpart Planets Tara and Gaia within the Density-2 and Density-3 Time Cycles of the higher dimensional Harmonic Universes. Only two of Earth's 7 Primary Vortices, Vortices 5 and 7, can be used to access the GRU-AL Sites on Earth, Tara and Gaia. The **GRU-AL** Site is the **MOST POWERFUL PLACE-ON EARTH** in terms of interdimensional energetic inflow. It is the place where the electromagnetic barriers between Harmonic Universes are the thinnest, and it is the only place on Earth that can hold the full 12th-Dimensional Ante-matter Tri-tone Standing Wave of the PLASMA BEAM. Anatomy of the Halls of Amenti and the Planetary Templar Complex (continued)

The GRUAL Site becomes a powerful HEALING CENTER when the Planetary Templar Complex is activated as the Plasma Beam Standing Wave of Tri-tone sound vibration is the most powerful natural healing current in the Time Matrix. The GRU-AL Site is also the CENTER POINT FOR GLOBAL FREE ENERGY GENERATION when used properly with knowledge of Interdimensional Scalar Mechanics.

Across the globe there are many smaller Sacred Sites called TEMPLAR SITES where horizontal and diagonal axis time Portals exist, which can be used to interface with the 2 Secondary Signet Sites and the Primary GRU-AL Site. Templar Sites can be used for remote Planetary Shield programming, free energy distribution, scalar wave healing technologies and for passage to the Halls of Amenti Star Gates. Templar Sites differ from other planetary Vortex Sites in that they operate directly as Time Portal Amenti Access Points and the Planetary Shields. GRU-AL and Signet Sites can be accessed directly through them. Unlike the energetically spiraling Vortex Sites, the Templar Sites are STILL POINTS within the Planetary Shields that can hold portions of the Ante-matter Plasma Beam. Templar Sites receive energy from the Signet Sites, transmit portions of the energy out to the planetary Vortex Sites, and store the portions of high frequency energy that Vortex Sites cannot hold. High Frequency interdimensional energies (energy with rapid Partiku Phasing rhythms) are collected and stored at Templar Sites in the form of Sub-frequencies (partial Flash Line Sequences) of the 12th Dimensional Plasma Beam (Hydro-plasmic energy). The Sub-frequencies of the Plasma Beam form a still, singular ANTE-MATTER TRI-TONAL STANDING WAVE of sound vibration, or an invisible HYDROPLASMIC FLAME of Omni-polar Tri-tone Ante-matter. The Hydro-plasmic Flame held within the Planetary Shield on Templar Sites is a smaller portion of the main Plasma Beam that perpetually feeds energy into the GRU-AL and Signet Sites when the Planetary Templar Complex is activated.

The GRU-AL Site of the Planetary Templar Complex is the Prime energy receiving, transmitting and amplification station on the globe. The Plasma Beam anchors at the GRU-AL Site, and GRU-AL Site transmutes the Omni-polar sound vibration of the Ante-matter Plasma Beam into two concurrently running currents of BI-POLAR ELECTROMAGNETIC SCALAR WAVES of particle and anti-particle light radiation. The GRU-AL breaks the Plasma Beam frequencies down into 12 Primary energy distribution lines called Axi-A-Tonal lines. The 12 PRIMARY AXI-A-TONAL LINES are grids of Partika units within the Planetary Shield that draw energy in from the Anti-particle Parallel Earth Planetary Shield, and EXPAND it out into the Planetary Shield, creating the influx of electrical anti-particle force. Simultaneously, the GRUAL creates 12 Secondary AXI-B-TONAL LINES, which are grids of Particum units within the Planetary Shield, that draw or CONTRACT energy from Earth's Planetary Shield, after it has circulated from the Axi-A-Tonal Line networks. Energy from the Axi-B-Tonal Lines contracts back to the GRU-AL Site, where it recycles into Density-5 Omni-polar Ante-matter Partiku Units. The 12 Primary Axi-A-Tonal Lines and 12 Secondary Axi-B-Tonal Lines are collectively referred to as the 24 AXIOM LINES. The interplay of simultaneous expansion and contraction of bi-polar energy units through the Axiom Lines within the Planetary Shield creates the effects of planetary electrical and magnetic force. The same process of energy circulating through the Universal Manifestation Template creates electromagnetism throughout 11.5 Dimensions of the 15-Dimensional Time Matrix. TEMPLAR SITES receive the bi-polar energy currents from the Signet Sites through the Axiom Lines, store excess energy in the form of a reassembled Omni-polar Tri-tonal Standing Wave Hydro-plasmic Flame, and transmit a continual supply of re-polarized energy from the Flame through the Planetary Shield, creating PRIMARY LEY LINES. Ley Lines are electromagnetic distribution lines, less powerful than the Axiom Lines which process modulated frequency into the Planetary Shield. The areas of the Planetary Shields where the Flash Line Sequences of AXIOM LINES cross through each other are COORDINATE POINT vertical axis STAR GATE SIGNET SITES. The areas where PRIMARY LEY LINES cross through an AXIOM LINE are SUBORDINATE POINT horizontal or diagonal axis TIME PORTAL TEMPLAR SITES. The areas where PRIMARY LEY LINES cross through each other are PRIMARY VORTEX SITES. The areas where SECONDARY LEY LINES, which are formed through the Primary Vortex Sites, cross through each other are SECONDARY VORTEX SITES.

The MOST "SACRED SITES" of the Planetary Templar Complex:

1. The **ENTIRE PLANET** is a Sacred Site within the Universal Kathara Grid
2. The **GRU-AL** Center **SIGNET SITE** (Earth's main Star Gate of the Halls of Amenti)
3. The two **SECONDARY SIGNET SITES** (Earth's 2 secondary Star Gates of the Halls of Amenti)
4. The numerous smaller **TEMPLAR SITES** (Earth's main Time Portal Amenti Access Points)
5. **AXIOM LINE SITES** (Circulate and amplify energy from Signet Sites)
6. **7 PRIMARY VORTEX SITES** (Circulate and amplify energy from Primary Ley Lines)
7. **PRIMARY LEY LINE SITES** (Circulate energy from smaller Templar Sites)

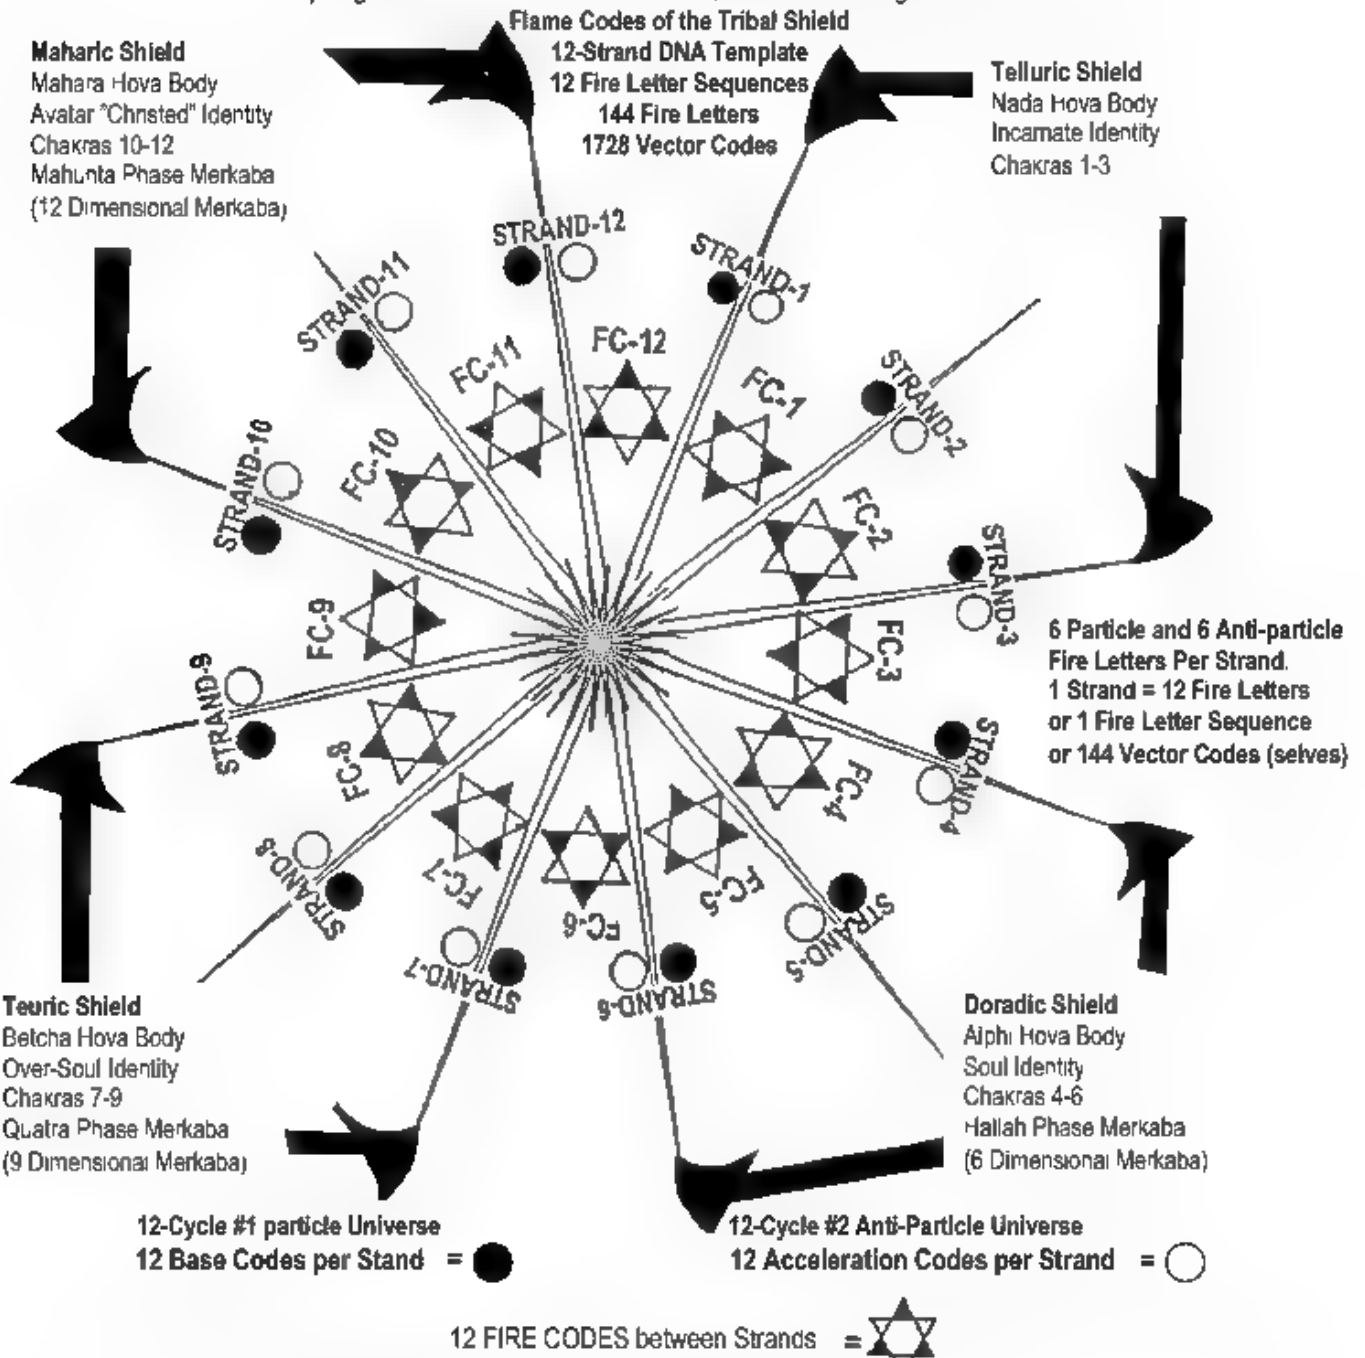
Silicate Matrix 12-Strand DNA Template and Hova Body, Scalar Shield and Identity Level Correspondences

The Morphogenetic Field Scalar-wave Template for the Original Human Genome



(E) Emerald Kundalini Awakening releases Fire Codes 1 & 4. (A) Amethyst Kundalini Awakening releases Fire Codes 7, 10 & 12

(Diagram presents simple conceptualization of DNA Strand Template orientation, not actual geometrical arrangement of wave-form structure and observable strand interrelationship.) Fire Letters are formally called Keylons. The 12 Keylons per DNA Strand Template form the blueprints for 12 Full Chromosomes in the chemical DNA. When functioning properly, each of the 12 DNA Strand Templates manifests 12 specific chromosomes in the chemical DNA. Humans are designed to have a 144-Chromosome biology. Presently 46 fragmented chromosomes are identified as the "Human Genome"

THE VECAS - Veca Quadrant Codes

The SIGNS: The ***12 Vehicles of Mobility*** are the **12 VECA CODE** symbols
Veca Codes apply to **DNA Template Strands 1.5-12.5**, full activation of the Vecas opens the **Radial Body Veca Passages** between the 14 Manifestation Fields in the **4 Veca Quadrants** of the "**7 Higher and Lower Heavens**" and the 15th Manifestation Field of the ***Ecka* Lower Inner God World**, the entry point "Receiving Station" to the "Masters Rooms in the House of Many Mansions" Passage through the Ecka "Inner World" gates is required to move from the **Veca Worlds** of the **7 Higher or Lower Heavens** into any of the **4 God Worlds** (Eckasha Eckasha-A, Eckasha-Aah and Yunasai) Veca Code activation in the DNA Template creates **temporary 12th sub-harmonic activation of the 12-Strand DNA Template** (characteristic to earthly Turaneusiam-2 Angelic Humans) and corresponding temporary activation of the 12-dimensional/12.5-subharmonic **ManU Phase-1 Eckasha Merkaba Vehicle**, the vehicle needed to pass through the **base-12.5 gates** to the Ecka Inner *Lower God World* Veca Code activation also allows beings with **less than 12 active Strands of BASE-12 DNA** to link into the Base-12 Planetary Fields for temporary shift into the Ecka with the planetary Radial Body during Stellar Activation Cycles Once passage into the Ecka is achieved, the DNA Template must hold a **minimum of 4.5 Strand activation** to sustain biology within the Ecka Lower God World ("Inner" Earth etc.)

The **12 Veca Code VEHICLES** are:
High Vecas: Immanuel 1-2 and Immanuyanas 3-5
(Control Radial Body Density Locks on D-13/Eckatic Veca Prima Light-Sound Field)

1. Bi-Veca
2. Tri-Veca
3. Khu-Veca
4. Dha-Veca
5. Ra-Veca

Low Vecas: Codes of ManU
(Control Radial Body Veca Density Locks on D-1/D-12 Veca matter bodies)

6. Shaia
7. Lehaia
8. Reushaia
9. Shahaia

Mid Vecas: Codes of ImmanU (Control Radial Body Ecka Density Locks)

10. Uri-immanU
11. ThJri-immanU
12. Ori-immanU

The Veca Codes open passage from the Veca Worlds "7 Higher and Lower Heavens" to the Ecka Inner Lower God World. ("Inner Earth-Tara-Gaia-Aramatena" etc)

THE ECKAS-Eckasha Corridor Codes

The SEALS: The ***12 Postures of Residency*** are the **12 ECKA CODE** symbols.
Ecka Codes apply to **DNA Template Strands 2-24**, full activation of the Eckas opens the **Radial Body Ecka Passages** between the Ecka Inner Lower God World and the ***4 Eckasha Corridors*** and **22 Manifestation Fields** of the ***Eckasha Middle God Worlds***. Ecka Code activation in the DNA Template creates **temporary 24th sub-harmonic activation of the 24-Strand DNA Template** (characteristic to the Taran Turaneusiam-2 Angelic Human, its earthly incarnates and some Indigo Type-2s) and corresponding temporary activation of the 12-dimensional/24-sub-harmonic **Phase-2 ImmanU Eckasha Merkaba Vehicle**, the vehicle needed to pass through the **base-12/24 sub-harmonic gates** to the 22 Manifestation Fields of the Eckasha Middle God Worlds. Ecka Code activation also allows beings with **less than 24 active Strands of BASE-24 DNA** to link into the Base-24 Inner Lower God World Planetary Fields for temporary shift into the Eckasha Worlds with the planetary Radial Body during Stellar Activation Cycles. Once passage into the Eckasha is achieved the DNA Template must hold a **minimum of 6 Strand activation** to sustain biology within the **Eckasha Middle God Worlds**.

The **12 Ecka Code POSTURES** are
High Eckas: Codes of Ecka-ShA-a 1-2 and Ecka-ShA-yana 3-5
(Control Radial Body Ecka Density Locks on D-13/Eckatic Ecka Primal Light-Sound Field)

1. Reuche
2. Eckash-A
3. Eckasha
4. Eckasha-Aah
5. Reushayana

Low Eckas: Codes of Yana-Haia
(Control Radial Body Ecka Density Locks on D-1/D-12 Ecka matter bodies)

6. Rhashayana
7. Leuchayana
8. Ahonayana
9. Reionahaia

Mid Eckas : Codes of Tu-Yana Immanu
(Control Radial Body Eckasha Density Locks)

10. Azura Tu
11. Atana-Tu
12. Reionayana

The Ecka Codes open passage from the Ecka Inner Lower God Worlds to the Eckasha Middle God Worlds.

THE SCEPTERS: Eckasha-A Codes

The SCEPTERS: The **12 Scepter Code** symbols apply to **DNA Template Strands 3-36**, full activation of the Scepters opens the **Radial Body Eckasha-A Passages** between the 4 Eckasha Middle God World Corridors and the *4 Eckasha-A Spectra* and **96 Manifestation Fields** of the ***Eckasha-A Higher God Worlds***. Scepter Code activation in the DNA Template creates **temporary 36th sub-harmonic activation of the 36-Strand DNA Template** (characteristic to the Gaian Oraphim Angelic Human Indigo Type-2, its earthly incarnates and some Indigo Type-1s) and corresponding temporary activation of the 12-dimensional/36 sub-harmonic **Phase-3 Immanual Eckasha Merkaba Vehicle**, the vehicle needed to pass through the **base-12/36 sub-harmonic gates** to the **96 Manifestation Fields** of the Eckasha-A Higher God Worlds. Scepter Code activation also allows beings with **less than 36 active Strands of BASE-36 DNA** to link into the Base-36 Eckasha Middle God World Planetary Fields for temporary shift into the Eckasha-A Worlds with the planetary Radial Body during Stellar Activation Cycles. Once passage into the Eckasha-A is achieved, the DNA Template must hold a **minimum of 9-Strand activation** to sustain biology within the **Eckasha-A Middle God Worlds**.
The 12 Scepter Codes also allow beings within all of the "Heavens" and God Worlds to bio-energetically link into the **Reuche Pillar Scepter Arcs** of the Planetary-Galactic-Universal-God World Cruxansatea Fields from the Cosmic Radial Body for various reasons, such as direct manifestation through Se-Ur' Sculpting, protection from localized planetary influences, acceleration of the evolutionary cycle through "time leap", relocation to other Time Matrices via "Host Matrix" contracts, or Ecka evacuation from distressed planetary environments. Both Veca and Ecka Codes must reach a critical mass of sustainable activation within the personal DNA Template before activation of the Scepter Codes can occur.

The REUCHES: Codes of the TEMPLAR

Once sustainable activation of the 12 Eckasha-A *Scepter Codes* occurs, the **12 TEMPLAR REUCHE CODES** of the God Seed Eckasha-Aah **TEMPLATE PILLARS** ("Templars") within the **Eckasha-Aah God Core Highest God Worlds** can begin activation. Templar Reuche Code activation in the DNA Template creates **temporary 48th sub-harmonic activation of the 48-Strand DNA Template** (characteristic to the Lyran-Sirian Oraphim Angelic Human Indigo Type-1, its earthly incarnates and the Azurite and Maharajh races) and corresponding temporary activation of the 12-dimensional/48 sub-harmonic **Phase-4 Immanuyanas Eckasha Merkaba Vehicle**, the vehicle needed to pass through the **base12/48 sub-harmonic gates** to the Infinite Manifestation Fields of the Eckasha-Aah God Core from which all other Cosmic Matrices can be accessed. Templar Reuche Code activation also allows beings with **less than 48 active Strands of BASE-48 DNA** to link into the Base-48 Eckasha-Aah God Core Planetary-Galactic-Universal Fields for temporary shift into the Eckasha-Aah Worlds with the planetary Radial Body during Stellar Activation Cycles. Once passage into the Eckasha-A is achieved, the DNA Template must hold a **minimum of 12-Strand activation** to sustain biology within the **Eckasha-Aah God Core Worlds.**

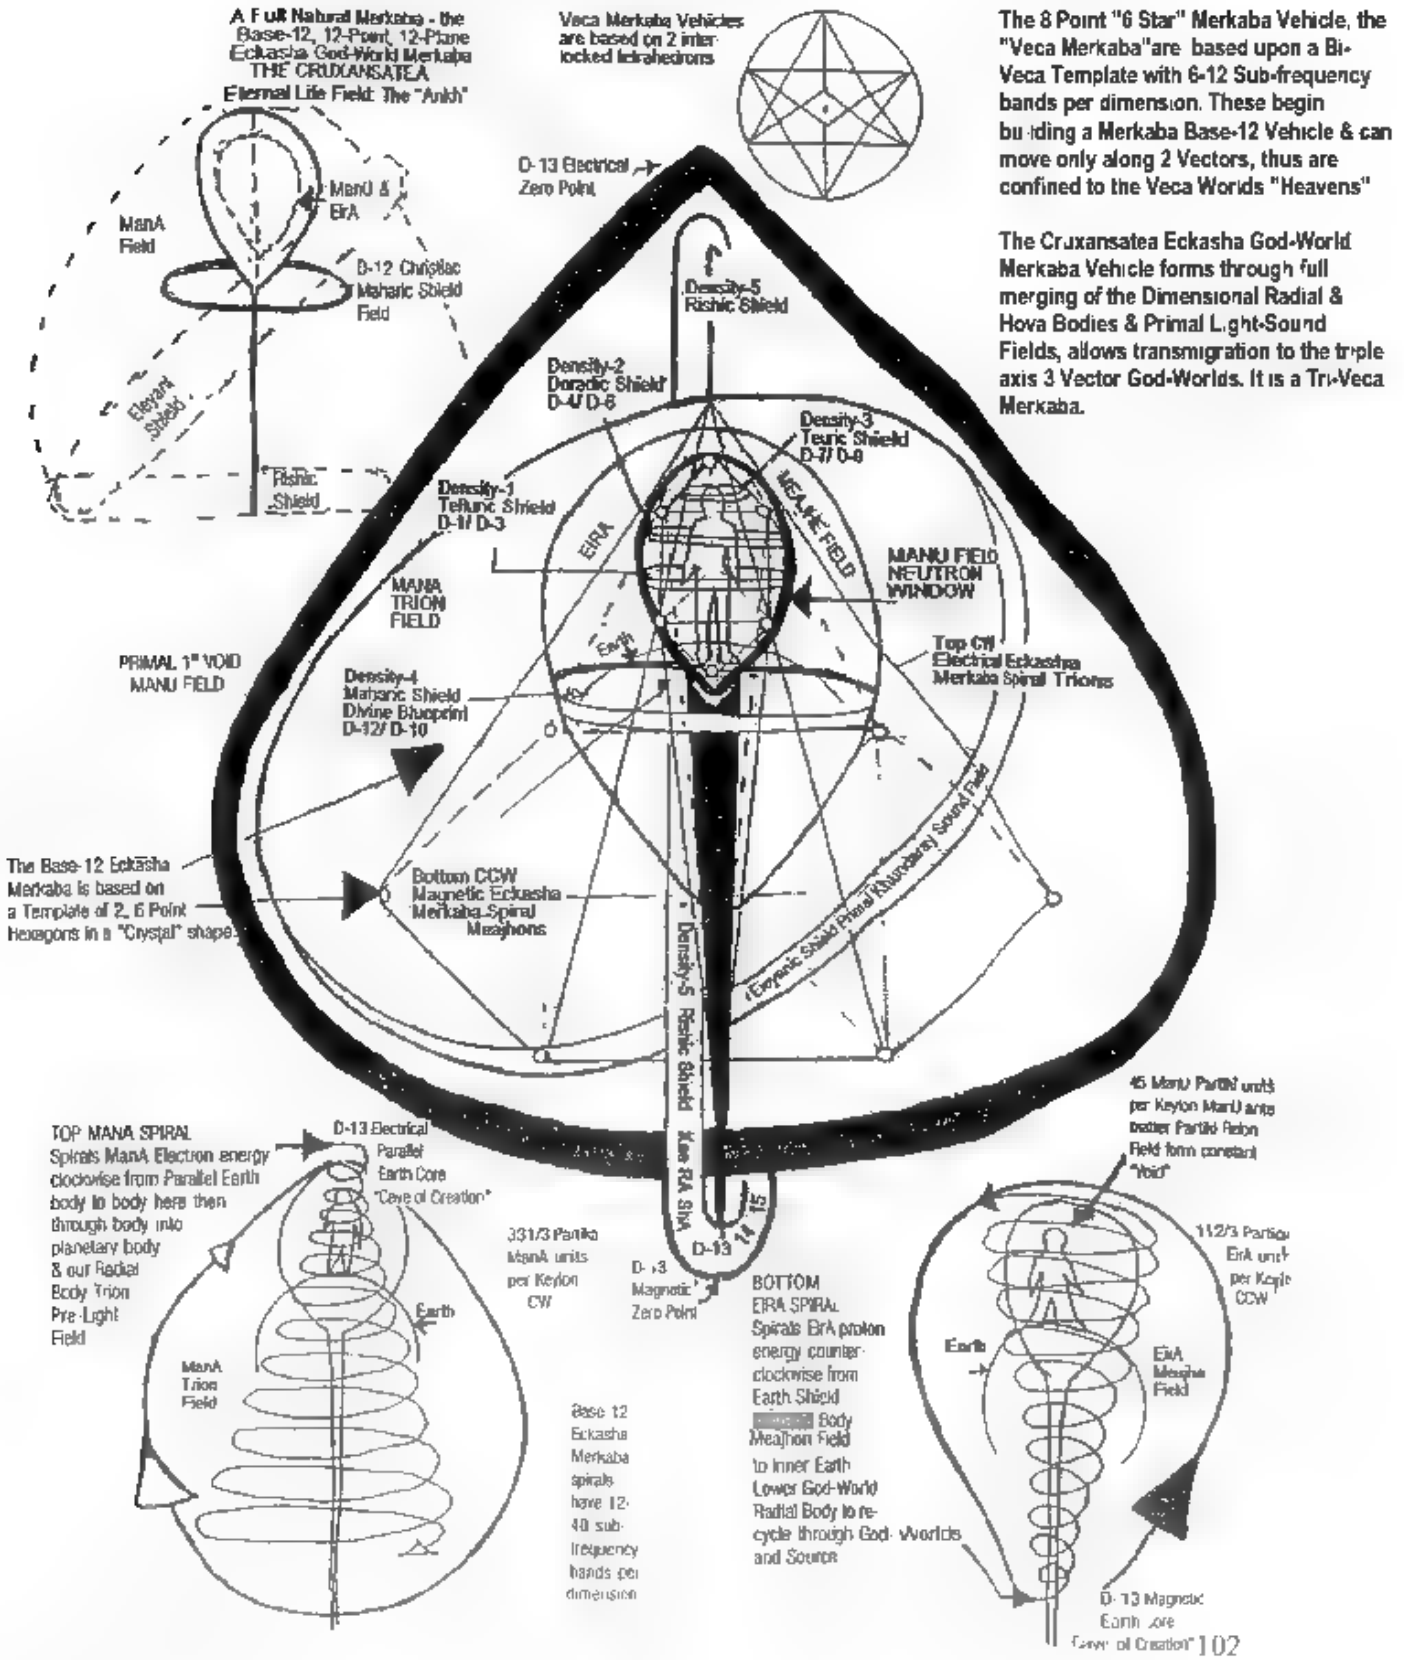
The Cruxansatea Eckasha Merkaba Vehicle & the Shields



The 8 Point "6 Star" Merkaba Vehicle, the "Veca Merkaba"are based upon a Bi-Veca Template with 6-12 Sub-frequency bands per dimension. These begin building a Merkaba Base-12 Vehicle & can move only along 2 Vectors, thus are confined to the Veca Worlds "Heavens"

The Cruxansatea Eckasha God-World Merkaba Vehicle forms through full merging of the Dimensional Radial & Hova Bodies & Primal Light-Sound Fields, allows transmigration to the triple axis 3 Vector God-Worlds. It is a Tri-Veca Merkaba.

The Psonn Of Khem-a-lo-ha-Tea

Once was a night, of a far away dream
Once was a night, when the candle fires burned
Once was a night, when the Nightingales sing
Once on this night, worlds were born

Once on a day, when the sun shone its brightest
Once on a day when the breezes rose high
Once on a day, when the rivers flowed with sorrow
Once on this day, worlds were gone

But today, in this moment in the heat of the fire
Burns a long-aching dream of life returned from the pyre
Oh come near, new life reborn

Come, come, rise from the waters
Come, come, rise from the sea
Reach forth heart of the lion
Ringing out from the ancient lands of destiny

Once were a peoples, pure and of innocence
Once were a peoples, loving and free
Once were a peoples, alive with eternal light
Once were a peoples--the Halaleai (Hi-A-Lay) In Victory

Once came a wind, dark and cold from the lowly places
Once came a spawn of the dark fallen sun
Once when the rays of the demon spread suffering
Once stricken the Halaleai were done

But today, in this moment, in the warmth of the sun
Rise the long hidden peoples of the Golden-Silver one
Oh come near-Halaleai reborn

Come, come, rise from the dream-lands
Come, come, rise from memory
Reach forth children of El-Halaleai
Camelot awaits thee where the golden portals call

Now in a dream, all the worlds that had gone away
Now in a dream, walking forth to the dawn
Here in this dream reaching forth to the universe
And call to the port of our home

Come, come, open the doorways
Come, come, let us be free
Here, now we give of our love to thee
The homelands so longed for

Twelve Responsibilities of Mastery
(Introduced at the Dance for Love Workshop 2002

Study the **12 Responsibilities of Mastery** make an affirmation meditation out of them, and try to make them your way of life

1 **SELF-ACTUALIZATION** Freedom from the "Victim-Victimizer Blame-Game" and willingness to be accountable for all perceivable manifestations as direct projections of intended learning from the personal Consciousness/DNA Template

2 **SELF-SOVEREIGNTY** Freedom from the need for approval from, or the need to rebel against, any form of "external authority" through understanding that you, as a manifestation of the God Spirit have the ability to create personal freedom without violating the spiritual rights of others and without allowing others to violate your spiritual rights of being

3 **SELF-CONTAINMENT** Taking personal responsibility for, and realizing that at all times you are accountable for DIRECTING PERSONAL ENERGIES. There is no one or no thing that "upsets you" and thus justifies or validates ANY personal spiritual misuse of reaction, idea, intention or action It is YOU who "upsets yourself" by allowing the emotional body to follow misperceptions of the mental body that tell you that your power lies outside of yourself At any given moment, you can CHOOSE which words, associations and ideas you will use as the filters through which you interpret an event. "UPSET," "MAD," "HURT" or any other category of labeling (conscious or subconscious) are all MENTAL BODY FILTERS that direct emotional and physical body function The self-contained individual recognizes that at all times the freedom of interpretation exists, and thus a "negative" experience and its associated dis-harmonic energies of "upset" feelings can only exist as a personal interpretation of events Accepting any less responsibility for the direction of personal energies will place you directly into the Victim-Victimizer "Blame Game," which can only take place among people who are placing their personal power and responsibility for manifestation onto externalized sources Only you have the power to "upset yourself" Regardless of what others say or do, you are fully entitled to your own interpretation No one or thing has the power to upset you unless you give this power away Self containment comes when one recognizes that the direction of personal energies, whether physical, emotional, mental (ideas, beliefs, labels interpretations), conscious or subconscious is an attainable level of personal mastery and exists as an implied responsibility that comes with the gift of free will choice The more responsible you become, the greater freedom and personal empowerment you will know

4 **SELF-DISCIPLINE** Accepting responsibility for directing personal energies toward, rather than in opposition to, the outcomes you desire to experience The physical mental and emotional bodies have long been directed by the subconscious forces of the hidden "shadow", creating within us urges reactions, thoughts, impulses, perceptions and feelings that often work counter to the life creations we desire to manifest. Part of spiritual mastery entails teaching ourselves to be consciously diligent in observing our own minds, emotions and physical body-talk, so that we may employ conscious redirection of subconscious shadow energies that run on "auto-pilot" If we learn to "catch ourselves" when "negative" thought patterns or emotions run through us we can use that moment of recognition to reclaim this errant energy and consciously use the power of affirmative attitude remedial word choice and direct energy re-direction to direct opposing energies of the Self into fulfillment of desired constructive spiritually mature creations It takes self-discipline to become the "Lion Tamer" of the often roaring subconscious mind but we do have the intrinsic power to help our subconscious shadow to evolve through loving but firm redirection, into a "cuddly lap cat" that will gladly join us in our constructive co-creations. Self-discipline emerges when we consistently

Copyright A & A Deane, 2002 All Rights Reserved

remind ourselves to employ the "Spiritually Correct" thought action or attitude even if we don't "feel like it" when the shadow sneaks up from "down under." The shadow parts of Self surface so that we may see these parts of Self come to the conscious mind for healing. Through this process, the conscious mind itself can learn greater attributes of mastery.

5 **SELF-LOVE** It is our own responsibility to love and nurture ourselves through the limitless gift of Divine Spirit that moves through us at every moment. Genuine love must come from within and can only be gained though genuine spiritual connection to the eternal God-self and its inherent connection to all creation. If we seek love "on the outside" in order to fulfill a personal loneliness or lack within, we enter relationships as "energy vampires." In doing this we are seeking a substitute for our personal God-Source connection through tapping into the God-Source embodied within other people or beings. This is not "LOVE." It is "NEED." This implies the "LACK" of something essential, which in turn implies a limited personal connection to God-Source Universal Consciousness. Such lack cannot be filled by external "love." It can only be filled by recognizing the God within you, and thus recognizing that you are a living embodiment of absolute love. Once this is recognized, you will HAVE the greatest love of all: God Love. And from this Position of Divine Power you can go into the world seeking those to whom you can give this love, rather than seeking those from whom you can "get" love. When love is approached through Self-Love the motivation is to give joyfully, knowing that anything you might need can be made manifest through the Love of the active God Source that you carry inside yourself. Self-Love is a responsibility of spiritual maturity.

6 **SPIRITUAL INTEGRITY** It is our absolute responsibility to choose to act with spiritual integrity at all times. There is no excuse to knowingly violate the spiritual rights of others, regardless of how poorly they may react to you. Spiritual Integrity requires that we begin to LOOK AT what we are REALLY doing in the way we live our lives. Do our eating habits violate the plant, animal or Earth kingdoms? Do our choices of words and actions show respect for other people and other life forms? Do we "play the survival of the fittest" lack-game to give ourselves an excuse for unethical behaviors in money matters, such as showing our silent rebellion against the government by trying to "cheat" on taxes, or by "showing up" a fellow employee at work to prove you are more worthy and thus more entitled to favor? Do you "tell people what they want to hear" in order to gain their approval and support, even if it is not fully true and does not reflect your personal needs or feelings? Do you try to "get others to do your share" as far as work or responsibilities? Do you use erroneous excuses such as race, gender, creed, academic or economic status to justify disrespectful, exploitative or unkind treatment of others? Spiritual Integrity requires that we take a good hard, frequent look at how we conduct our lives, to face the areas of activity in which we are performing in less than spiritually congruent ways and to employ active commitment and discipline to bring these areas of our lives into Spiritual Integrity. One does not "get through the gates of Heaven" (or anywhere else desirable) through using excuses for not employing genuine, not feigned Spiritual Integrity. Cultivating spiritual integrity is a major responsibility on the path of spiritual mastery, and the way the Universe works, you "can't leave home without it." This means that there is a biological reality of spiritual integrity that manifests chemically within the DNA as a result of that state and focus of consciousness. If you do not possess a sufficient amount of spiritual integrity in your consciousness, neither will your DNA Template. And though you might be able to "pull the wool over the eyes of others," your own biology will eventually be your task master. Passage through any stargate requires a sufficient amount of chemically-encoded spiritual integrity of consciousness.

7 **APPRECIATION** Our present society continually teaches us to "want more," "need more," "be more," "do more" etc. We are constantly influenced to perceive what is lacking in order to motivate us to buy more, work more, pay more taxes and be "good little consumer sheep." Very rarely do we stop to think about all that we DO have, beginning with the gift of Life and mental free will choice. Through this disoriented perceptual filter we can cultivate a 'full-blown' mutation of mental consciousness. In this mutated consciousness, we begin to believe that "we are entitled," that "someone OWES us" (GOD, the Universe,

Copyright A & A Deane, 2002 All Rights Reserved

our parents spouse children, employer, government, etc.) Once we fall into th s "You OWE me" mind trap we set ourselves up for continuing self-created frustration, as we place unrealistic and untrue expectations upon life others and ourselves We can also often get mighty angry or hurt when we find the universe doesn't conform to our imagined "pictures" No one OWES us anything! If we feel we are "owed," then we are entertaining LACK CONSCIOUSNESS and a void within the Self is being recognized If we give to another in order to RECEIVE for ourselves (such as do banks and often parents, spouses or lovers), and the other does not "pay back" what we expected to receive, we may feel cheated, "taken advantage of" ,or "owed" In fact these situations often emerge in our lives as lessons to teach us that giving should be done for the GIVING ALONE, and not for the expected return. If we give what we desire to give, for the joy of giving we do not feel owed If we live for the joy of l ving, without forc ng our demands or expectations upon life, we will not feel that "l fe has short changed us!" It matters not what your neighbor possesses because in comparing ourselves to each other to see how we "measure up" to each other, we are in effect continua ly being distracted from seeing and uti izing the bless ngs that are our own If we can work to cultivate the abi ty to APPRECIATE even the sma lest of gifts, blessings and gestures, we will begin to create a life that is at least "ha f ful " instead of "ha f empty" In terms of universal phys cs what you focus your attention upon expands, what you resist persists and what you do not give the energy of appreciation to will eventual y de-manifest right out of your experience When you approach the world through the chosen filter of genuine GIVING you are, in effect being an "electrical transmitter," send ng energy out to the world around you When you release electrica energy in this way, you become more "magnetic," as the sending out of energy creates magnetic vortices within the Diodic Grid of your Kathara anatomy The "magnetized" Diodic points then draw in more universal energy supply, at a higher frequency and quality than the expressed energy, to re-fill the energy void created by the "giving" When you approach the world with the attitude of "getting " this natural phys cs process becomes inverted The more you try to "pu l" energy from the outside world, the more your energy becomes "stuck" in the Diod c Grid as miasms. The miasms progressively reduce the quantity and lower the frequency of the natural energies you can internally draw from the universal supply Giving even in its simplest form of giving appreciation, keeps the natural energy flow moving. Whatever you give out will return to you amplified This also works in reverse, however, and giving out a bad attitude of ego, arrogance and "garbage" will cause more of the same to flow your way Appreciate what you have LOVE IT find perspectives through which the joy of it can be known and know that in the act of genuine appreciation itself, you wil set oose the powers of manifesting more of what you desire and less of the i usion of lack. The "Universe Owes Me" mind trip is one of the most powerful self-sabotage games in the world Trade it in for cons stent appreciation and your world wil progressively expand to hold the rea ty of the things you most desire If you feel put upon by the world, and resentful for having your desires unmet, YOU OWE YOURSELF SOMETH NG! You owe yourself a greater understanding of the nature of creation and better use of your persona power within the life creation game SAY 'THANK YOU' to the GOD SOURCE more often to help yourself remember what things you have to appreciate, and many more of the kind will be sent along your way

8 **PATIENCE** God Source has ts own schedule! We can either acknowledge th s intrinsic reality of manifestation and choose to work co-creatively with the God-Source within trusting that together you and the universe will create the perfect "Divine Right Timing" (and f that isn't "Right NOW," there IS a very good reason for th s) or you can let the ego-se f try to force its will upon the ntrinsic nature of time. If time does not cooperate with your expectations you can "let that be OK, and trust in Div ne Right Timing" or you can progressively frustrate yourself with attachment to the artificial time of clocks, and choose to believe that you cannot have what you desire just because it does not appear when you demand If we earn to relax, and realize that most things we desire we can ndeed achieve n Divine Right Time and Order, we can learn to work co-creatively with the consciousness of time We wil often then find that our lives wi progressively better conform to our wishes, especia ly when we ask nicely rather than DEMAND, and also when we trust the universa God-Source to do its part n our co-creation. Patience is a virtue that reflects our

comprehension of the nature of Universal Order

9 **KINDNESS**: Like Respect (Dance for Life Attitude of Mastery #4) Kindness is a birthright, but one that is quite often overlooked and misunderstood When we approach the world through genuine kindheartedness, sending love and respect to all of creation in honor of the God Force that lives within all things, we are, again, transmitting electrical energy of a higher frequency that will follow the mechanics of universal physics to bring more of like kind back to us through Universal back flow Kindness is a gift we must first give to ourselves in order to have it to give to others Kindness implies being conscientious and caring toward the needs, feelings and desires of both the self and others, and to express this concern and caring in action attitude and intention Give to yourself random acts of kindness then pass along the gift to all who cross your way Try being kind to the mean and grouchy neighbor and you may help them rediscover the ability to smile When we treat all things with kindness, we demonstrate that we acknowledge their intrinsic value as manifestations of God Source, and you will often find God Source lovingly returns the favor

10 **CONSERVATION** Conservation is a form of respect and appreciation for God Source energy in all of its expressions from conserving and protecting our natural resources, to being attentive to the needs of our bodies, to using the energies of our words and actions with gentle conservation by which we freely use what is needed, but not more. God Source continually recycles its energies for the rebirth of new expression All is given freely, but nothing is valueless or wasted Conservation demonstrates that we have respect and appreciation for the gift of creative energy that God Source has provided to us As we learn to use this energy, in all its forms, with respect and clear intention, we will progressively fine-tune our ability to create what we desire and in this process assist all other beings to do the same There is truth in the old saying "Waste Not, Want Not" If everything we perceive in our hologram of life is understood to be manifestations of God Source, we might all employ a bit more respect, appreciation and conservation toward the use and applications of the energies of the Divine

11 **COOPERATION/DIPLOMACY** Existence is and will always be a co-creative endeavor We must be willing to allow other beings the fulfillment of their needs and desires if we hope to have our fulfillment known Creating "Win-Win" situations and creating with the intention of GIVING genuinely are natural ways of being We might not always agree with the intended creations of others, and we all have a right to our points of view Diplomacy can be a bridge between forces of opposition, through which effective actions or decisions can be reached to mutually support each perspective We can learn to agree to disagree respectfully, so the Spiritual Art of Co-operative Co-creation can progressively evolve to higher levels of expression.

12 **SENSE**: Learning to identify and appropriately apply both "Common Sense" and the "Uncommon Sense" of spiritual knowing will allow us to establish the greatest balance of energy expression within all aspects of our lives

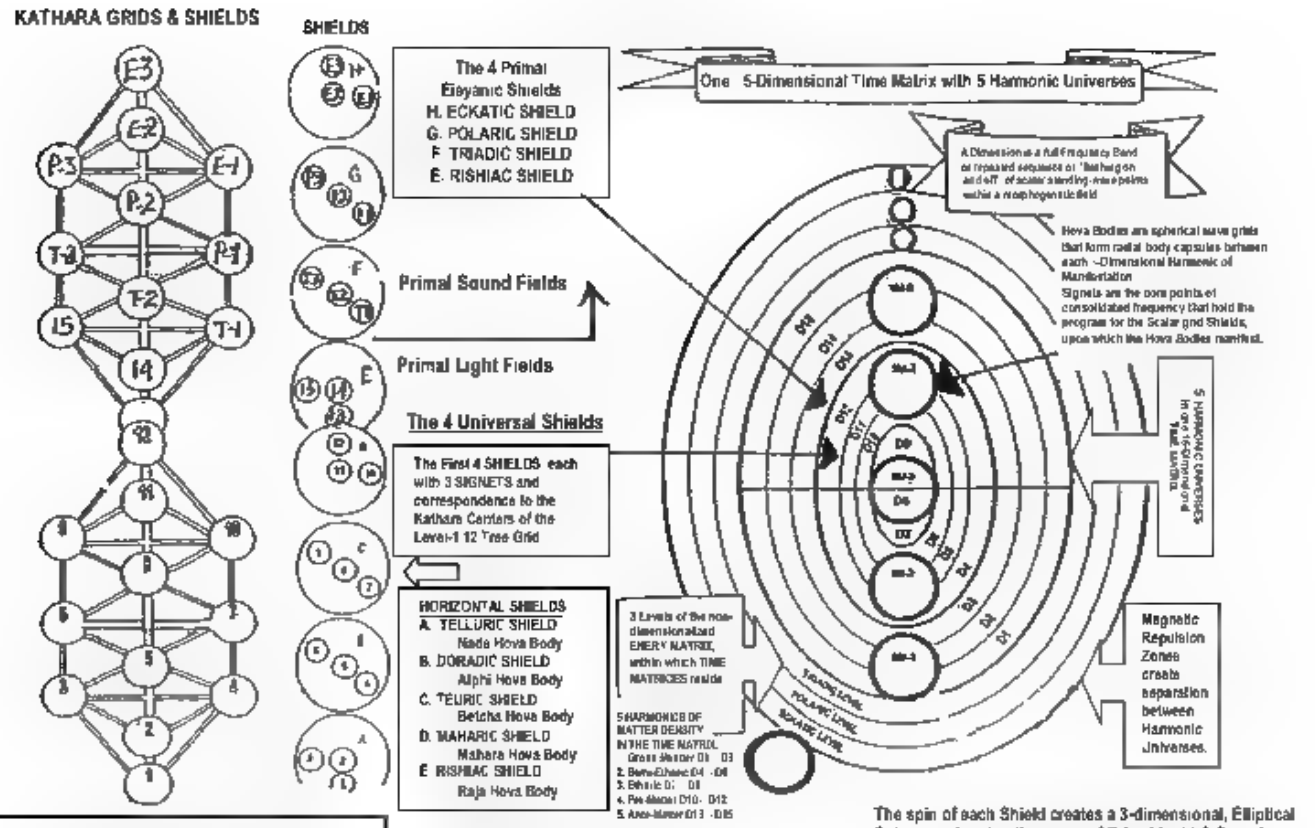
OUR LOCAL UNIVERSAL STURCTURE

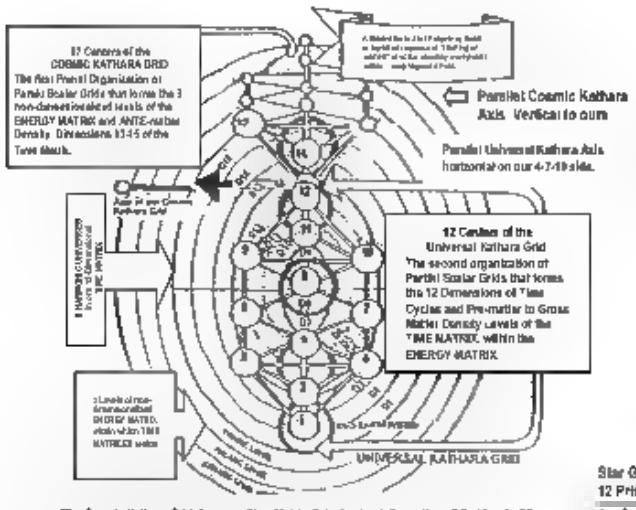


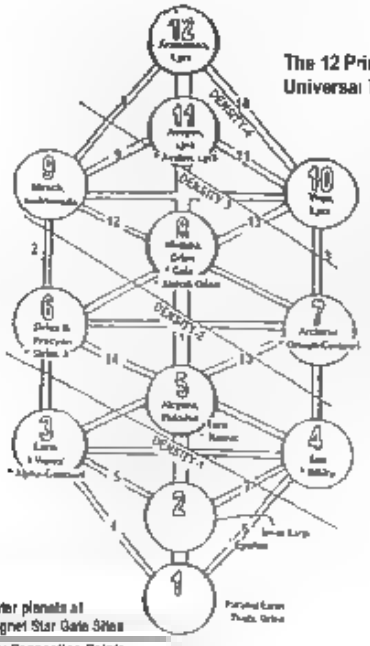
1 Core Scalar-Standing-Wave Template for a 15-Dimensional Time Matrix is the Kathara 12-Tree Grid. Dimensional systems form in the Primal Light/Sound Field of the first Primal Kathara 12-Tree; the 2nd Universal Kathara-Grid holds 12-Dimensional Fields of manifest Space-Time-Matter. Each of the 15 lower Kathara Spheres holds the program for 1 full Dimension or frequency band. Sphere-12 is the Divine Blueprint, 13-15 Primal Light Fields, the lower 11 are matter systems & highest 9 are Primal Sound Fields. The 2 Kathara Grids link at the D-12/D-13 Center "Ecka" Point.

SHIELDS:
The 12 Universal Kathara Centers form a set of 4 3-Dimensional Mathematical Templates called Scalar Shields, each of which forms a 3-D Universe & Matter Density Level. The 12 Primal Kathara Centers form a set of 4 Tri-harmonic Shields, collectively called the Eisyanic Shield, that form the 3 Primal Light Fields & 3 Tri-harmonic Sound Fields of one 15-Dimensional Time

The spin of each Shield creates a 3-dimensional, Elliptical Sphere scalar standing wave of Primal Light & Sound called a Universal Radial Body, in which form 3 dimensionalized Elliptical Spheres called Universal Hova Bodies. Each 3 dimensional Hova Body with Radial Body "skin" forms an "energy capsule" in which one 3-D Harmonic Universe of space-time-matter forms. 1 Time Matrix = 5 Harmonic Universe Density systems & 3 Primal Sound Spheres.

12 UNIVERSAL KATHARA CENTER STAR GATES





12 Universal Kathara Centers are the 12 Universal Star Gates. & 12 Primal Kathara Centers are the 12 Primal Star Gates in a 15-Dimensional Time Matrix. Each of 4 3-Dimensional Density Levels in the Universal Kathara has 3 Universal Star Gates

The Cosmic Kathara Grid, from our Time Matrix, links horizontally on the 1-6-9 axis, at a 90 [illegible] Universal Kathara Grid. The Cosmic Kathara Grid lines our Parallel Time Matrix links with our Universal Kathara Grid vertical axis of the 2-10 axis.

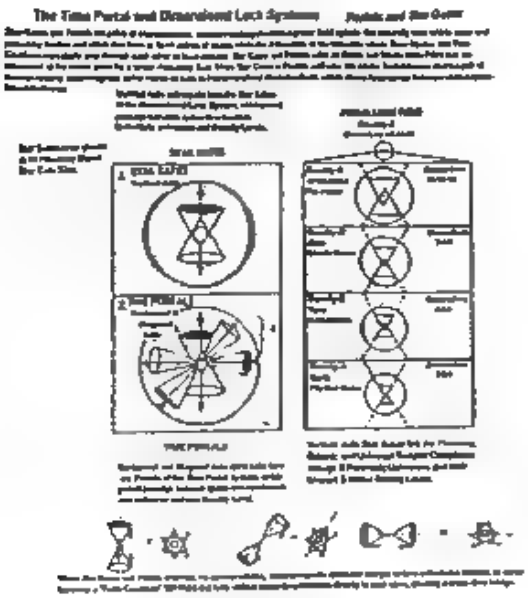
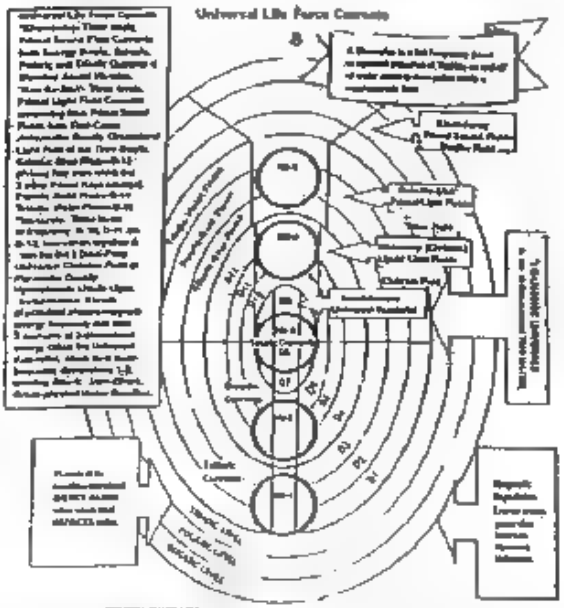
STARGATES, THE 7 HIGHER & LOWER VECA HEAVENS & THE INNER ECKA UNIVERSE

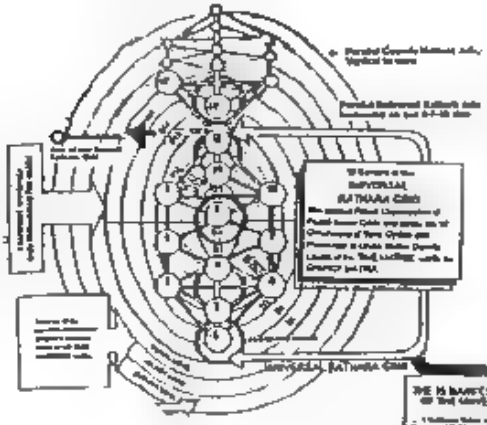
STAR GATE ANATOMY

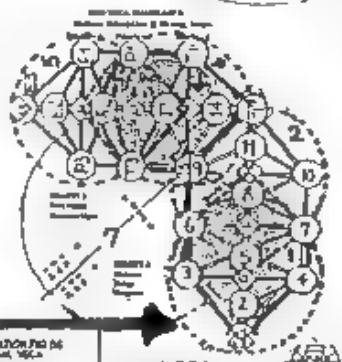


The 12 Universal Star Gates & 12 Primal Star Gates circulate Primal Life Force Currents into & out of manifestation in a Time Matrix

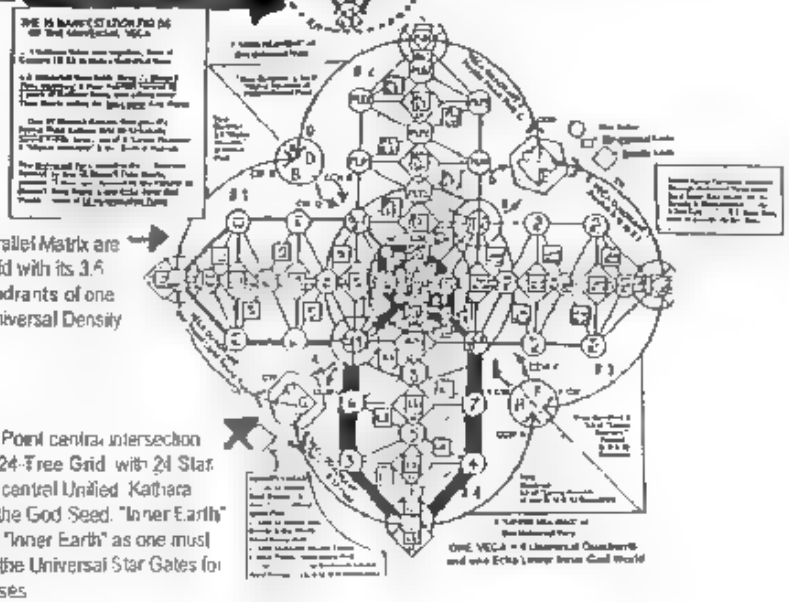


The 24 Star Gates of our Time Matrix intersect with the 24 Star Gates of our Parallel Time Matrix at the D-12/D-13 Ecka Point.





7 HEAVENS Our 12 Universal Kathara Star Gates connect at a 90-degree angel to our 12 Primal Kathara Star Gates from the D-12/D-13 Ecka Point. The Universal & Primal Kathara 12-Trees each have 3 Radial Body Density Universes & share an interwoven Density-4 Universe., which together = "7 Heavens"



Universal Veca "7 Higher & Lower Heavens" Our 15-Dimensional Time Matrix & 24 Kathara Star Gates interface with our Parallel 15-Dimensional Time Matrix & 24 Star Gates at the D-12/13 center Ecka Point. The 4 interwoven Kathara Templates of a Time Matrix & its Parallel Matrix are collectively a Universal Veca. Each Kathara-12-Tree Grid with its 3-6 Density Universes is a Veca Quadrant. The 4 Veca Quadrants of one Universal Veca = "7 Higher (Primal Field) & 7 Lower (Universal Density Field) Heavens"

THE INNER ECKA UNIVERSE The D-12/D-13 Ecka Point central intersection of the Veca Quadrants contains the Unified Kathara 24-Tree Grid with 24 Star Gates from which the Veca Quadrants emerged. The central Unified Kathara & its Radial Bodies form the inner Ecka Universe of the God Seed. "Inner Earth" is one planet existing in the Ecka Universe: it is called "Inner Earth" as one must enter the central USG-3 at our Earth's Core to enter the Universal Star Gates for travel to the inner Ecka Earth & its surrounding universes.

FYI

Breneau Orders

The Breneau Orders are the eternal Rishi Consciousness Collectives that form the Prima Light Fields and Breneau Time Cycles of dimensions 13-15 of Harmonic Universe-5 Ante-matter Density-5. The 3 Breneau Orders of our Time Matrix are the Universal Families of Consciousness through which all beings in our Time Matrix incarnate into the 4 lower-dimensional Harmonic Universes and Density Levels. The 24 Primary Breneau Rishi Collectives in the Energy Matrix that serve as Universal Guardians and feed individuated consciousness into the Time Matrices of universal structure are often referred to as the "Solar Lords". The name "Council of 24 Elders" originally referred to the 24 Primary Breneau Collectives in the cosmic Energy Matrix. Through the personal morphogenetic field and auric field every being in every Time Matrix including each human is directly energetically connected to and exists as a part of one of the 24 Breneau Rishi Collectives. The 24 Breneau Orders represent the Universal Family of Consciousness through which we originally entered manifestation into the Light Fields of time from the Yanas Ascended Masters Consciousness Collectives in the Primal Sound Fields of the Energy Matrix. The Breneau Rishi work cooperatively to equally assist all life forms in fulfilling their process of evolution to ascension. Three Breneau Rishi have served under guidance of the Emerald-Blue Flame Grandeyanas *Yanas* Ascended Masters Collectives from the Energy Matrix, as mediators, guardians and protectors of the 5 Harmonic Universes in our 15-Dimensional system since the creation of our Time Matrix. The *Emerald Order Breneau* Family created *the Elohei-Elohim* Founders Race, and the Gold Order Seraphe and Amethyst Order Bra-ha-Rama Breneau Orders in our Time Matrix. The Elohei-Elohim Founders Race was instrumental in the creation and continued evolution of humans; its members have served as protectors and guides of human evolution since its creation. The three primary Breneau Rishi Collectives involved in Earth evolution and evolution of our Time Matrix are the Elohei-Elohim *Emerald Order* Breneau, the Seraphei-Seraphim *Gold Order* Breneau and the Bra-ha-Rama *Amethyst Order* Breneau. A fourth Breneau Family called the Annu-Elohim *Ruby Order* Breneau, which was once part of Elohei-Elohim Emerald Order Breneau, also seeded life into our Time Matrix, originally in violation of the Emerald Covenant Co-Evolution Agreement. All Breneau Rishi Collectives in our Time Matrix emerge from the Ascended Masters Yanas Melchizedek Consciousness Collectives in the Energy Matrix.

Breneau-Emerald Order

The Emerald Order-Elohei-Elohim Breneau families from the *Grandeyanas* Ascended Masters Yanas Collectives are the "Keepers of the Emerald-Blue Flame" sustain the 48 Eckatic Level Ascension Codes, serve as Primary Guardians in our Time Matrix and are charter members of the Guardian Alliance and other Melchizedek Cloister Blue Flame service organizations. They are creators of the original Lyran-Sirian-Anuhazi-Azurite-Oraphim-Turaneusian-Adami-Kadmon "Christed" Angelic Human prototype, as well as creators of most hominid, feline and land-mammal life forms in our Time Matrix. The Elohei-Elohim Breneau served as arbitrators in the long history of conflict between the Elohei-Elohim-Human and fallen Annu-Elohim-Anunnaki races, seeking to assist all in peaceful co-evolution to ascension following the natural Laws of Universal Unified Field Physics and the Spiritual Law of One. The Emerald Order Breneau and their interdimensional races are also collectively called Blue Flame Melchizedek Cloister.

Breneau-Gold Order

The Gold Order Seraphei-Seraphim Breneau families from the *Wachayanas* Ascended Masters Collectives are "Keepers of the Gold Flame", sustain the 42 Polaric Level Ascension Codes, serve with the Emerald Order as Primary Guardians in our Time Matrix and are charter members of the Guardian Alliance and other Gold Flame service organizations. They are primary contributors to human evolution through their avian-hominid Seraphim/Seres races (Reiophetona, "angel" or "Bird People") and the Aethien Mantis races, as well as creators of most progressive avian, insect and reptilian life forms in our Time Matrix. Digressive insect and reptilian strains emerged from the "Fallen Seraphim" avatar collectives that created the Drakonian and Zephilium/Zeta race strains in dimension-10 Harmonic Universe-4. Gold Order Breneau and their interdimensional races are also collectively called the Gold Flame Melchizedek Cloister.

Breneau-Amethyst Order

The Amethyst Order Bra-ha-Rama Breneau families from the *Ramyanas* Ascended Masters Collectives are "Keepers of the Violet Flame" sustain the 36 Triadic Level Ascension Codes, serve with the Emerald and Gold Order Breneau as Guardians in our Time Matrix and are charter members of the Guardian Alliance and other Violet Flame service organizations. They are primary contributors to human evolution through their Bra-ha-Rama land and water mammal and hominid races. The Bra-ha-Rama Rishi frequently incarnate in human Hindu, Tibetan, Inca and oriental cultures to hold sacred information for evolution of Earth races. They are creators of most progressive horse, cow, deer, ape, whale and some cetacean type life forms in our Time Matrix. The Amethyst Order Breneau serve as a Host Matrix for the Ruby Order Annu-Elohim of the dimension-11 fallen Annu-Elohim Jehovani avatar collective.

Breneau Orders Continued

Breneau- Ruby Order

The Ruby Order Annu-Elohim Breneau family from the fallen Annu-Elohim Jehovani Dimension-11 avatar collective are "Keepers of the Crimson Flame" sustain the 26 Ascension Codes corresponding to Dimension-15 in our Time Matrix. serve with the Emerald and Gold Order Breneau as Guardians in our Time Matrix and are later members of the Guardian Alliance and other Violet Flame service organizations The Ruby Order Annu-Elohim Breneau families from the fallen Annu-Elohim Jehovani D-11 avatar collective one of which is often called "The Great White Brotherhood" were originally a Harmonic Universe-4 Avatar Family named Jehovani out of the Elohei-Elohim Emerald Order Breneau Rishi Collective Certain members of the Jehovani avatar collective suffered distortion of their Ascension Codes and resulting extremes of polarity consciousness through which they chose to sever their connection to the Elohei Breneau and Yanas Ascended Masters Collectives in favor of "creator god" control agendas that abused the intrinsic rights of life forms in our Time Matrix Severing their morphogenetic field from that of their original Elohei-Elohim Breneau Rishi family at the last sub-harmonic frequency of Dimension-11 caused mutation of the Jehovani avatar collective genetic potential reducing their Ascension Codes to an 11-strand capacity The 11 Strand DNA Template mutation of the Jehovani races and their refusal to regenerate their connection to Source through application of the Law of One has kept the Jehovani collective trapped in time and unable to receive a perpetual energy supply from Source Separation from their Emerald Order Elohei Breneau Rishi family has reduced the original immortal-eternal design of the fallen Jehovani avatar collective to a finite potential that requires continued energy-feeding from other life forms in our Time Matrix To solve the need of harnessing energy for maintaining their finite morphogenetic field the Jehovani D-11 avatars have attempted to take possession of our Time Matrix through force and dominion long before the creation of the Turaneusiam-human lineage The portion of the Jehovani avatar collective that digressed into agendas incongruent with the natural Law of One became known as the "fallen" Annu-Elohim and collectively as the creator gods "*Annu*" and "*Jehovah*" The fallen Annu-Elohim created the *Sinan Anunnaki* races as an avenger species with the intention of dominating energetically "feeding on" and destroying the Sinan Anunazi Seres. Bra-ha-Rama and Human race lines that emerged from Elohei-Elohim and Seraphei-Seraphim and Bra-ha-Rama Emerald Gold and Amethyst Order Breneau Rishi lines Members of the fallen Annu-Elohim collective are also called Templar Melchizedeks denoting certain distortions or "seals" in the DNA and Manifestation Template their Manifestation Templates do not possess the needed dimension-12 and higher Ascension Codes required for full ascension out of the Time Matrix Portions of the fallen Jehovani avatar collective that later sought re-entry into their original Elohei-Elohim Emerald Order Breneau Rishi family in order to regenerate their Ascension Codes and reestablish direct connection to the Yanas collectives and Source accepted Host Matrix from the Amethyst Order they became known as the *Ruby Order Annu-Elohim* Collectively the Ruby Order Annu-Elohim of the Amethyst Order Host Matrix are frequently referred to as YHWH the YHWH name has also been used by still-fallen members of the Jehovani avatar collective in order to deceive humans into surrendering their life force energies to the fallen Jehovah collective The legitimate YHWH Annu-Elohim avatar collective reestablished the 26 Ascension Codes of the Dimension-15 in order to receive Host Matrix from the Amethyst Order Breneau. providing consciousness incarnate through the fallen Annu-Elohim lines the opportunity to achieve ascension out of the Time Matrix The Ruby Order Annu-Elohim now assist the Bra-ha-Rama Amethyst Order "Keepers of the Violet Flame" and *Ramayanas* Ascended Masters Collective in re-evolution of fallen Annu-Elohim race lines The YHWH Annu-Elohim family that accomplished ascension into the Triadic Energy Matrix and reentered our Time Matrix from the Ramayanas Collective to assist the Violet Flame Keepers in our Time Matrix is called the *Ruby Order* Ophanim Breneau They usually work cooperatively with the Emerald Gold and Amethyst Order Elohei Seraphei and Bra-ha-Rama Collectives and have worked extensively within the Earth system to assist Earth-Human-Annu genetic lines that have been historically mutated through forced Anunnaki interbreeding with humans The 9 DNA Strand being born in 7BC known as "Jeshewua-9" whose identity became historically interwoven with that of Emerald Order Avatar "Jesheua-12" to form the composite "Jesus Christ" personification incarnated through the Ruby Order Ophanim Annu-Elohim lines of the Templar Melchizedek Essenes Jeshewua-9 initiated re-genesis of the 9-Strand DNA Template secondary "Holy Grail" line Ruby Order Human-Anunnaki genetic lineage among earth Templar Melchizedek Annu-human populations Jesheua-12 initiated re-genesis of the original 12-Strand DNA Template Emerald Order Adami-KudmonTuraneusiam-Angelic Human genetic lineage among human populations The Ruby Order Crimson Flame Annu Elohim Breneau families that remain in observance of the Law of One such as most of the "Great White Brotherhood" continue work to assist in peaceful co-evolution of Human and Anunnaki races Races the Ruby Order assists to evolve include Annu-Melchizedeks Nephelim Pleiadian Bel-Kudyem-Turaneusiam Nibruians and various other Anunnaki-human hybrid strains Throughout human history the "Fallen Annu-Elohim" have misrepresented themselves as true Violet Flame Keepers and misused Violet Flame teachings to enslave and imprison earth humans while intentionally eradicating true Breneau Order Ascension teachings in order to gain control over Earth s Templar

Under the direction of the **Density-5 Emerald Order Elohei-Elohim Founders** and their **Density-4 Anuhazi** Feline-hominid **Christos Founders Race**, the **Gold Order Seraphei-Seraphim** and **Amethyst Order Bra-ha-Rama** rallied their **Density-4 Christos Founders Races** for restatement of the Emerald Covenant. The Elohei-Elohim **Anuhazi**, Seraphei-Seraphim Avian **Cerez** and **Aethien** Mantis, and Bra-ha-Rama **Pegasai** and **Inyu** Cetacean **Christos Founders Races** organized the IAFW creating a unified collective of **Guardian Angelic Nations**. The IAFW was created to **protect our Time Matrix** from Fallen Angelic race domination, to **restore the structural integrity of our Time Matrix** that was damaged by Fallen Angelic warring and to offer **Melchizedek Cloister Bio-Regenesis** rehabilitation and ascension programs to the Fallen Angelic Legions in our Time Matrix. The Founding Races of the IAFW created the **Azurite Eieyani Grail Line** race strain and the **Azurite Universal Templar Security Team 250 billion years ago** and the **Guardian Alliance 570-568 million years ago**. The 15-dimensional IAFW and its over **25 billion** interdimensional **Guardian Angelic Nations** have served as the **Primary Guardians of our Time Matrix** since the Founders' creation of the IAFW **250 billion years ago**.

Density-5 MC Eieyani Master Council

Sometimes called "**Sirian Council**" or "**Azurite Council**". The ***Melchizedek Cloister*** ("MC") **Eieyani Master Council** is a specialized collective of Emerald Order Elohei-Elohim Breneau from the **Density-5** (dimensions 13-14-15) Prima Light Fields. They were appointed by the Yanas **250 billion years ago** following the Density-4 **Lyran-Elohim Wars** as the **administrative council** for the **Azurite Universal Templar Security Team**, the mobile branch of the IAFW. Members of the MC Eieyani Master Council incarnate into Density through the **Sirius B Azurite** *Blue-skinned Feline-land-water-mammal-Avian-Hominid hybrid* **Azurite Eieyani Grail Line** lineage. Following creation of the Oraphim-Angelic Human 568 million years ago, they also incarnate through the ***Oraphim-Angelic-Human Indigo Children Type-1 Eieyani Grail Line***. The MC Eieyani Master Council serves as the **Primary Liaisons** between Yanas Collectives in the Energy Matrix and Guardian Nations in our Time Matrix. They oversee all **IAFW activities** from Density-5 and incarnate into **Azurite Race** lines for crisis intervention.

Azurite Universal Templar Security Team

Created by the **Founders Races** of the **IAFW** upon the organization's assembly **250 billion years ago**. The **Azurite Security Team** and **Azurite Eieyani Grail Line race** were created to allow the members of the **Eieyani Elder Council** from the Energy Matrix to incarnate directly into the Densities in our Time Matrix, for **Crisis Intervention**. The Azurite Eieyani Race Line has a full **48-Strand DNA Template**, which allows for direct incarnation into Density from the **Eckatic Energy Matrix**. The Azurite Race line is the originator of all Eieyani races in Density. The Azurites are the **forefathers** (with the Anuhazi Elohei-Elohim Feline-hominid Christos Founders) of the **Oraphim-Angelic Human Sirius B Maharagi**, the **Taran MC Eieyani Priests of UR** and the **Magi Azurline Priests of UR Christiac** ("Jesus Christ"-Jeshua Sananda Melchizedek) **Eieyani "Indigo Child" Grail Line on Earth**. GA-Guardian Alliance

Created by the AFW 570-568 million years ago, during the **restatement of the Emerald Covenant** during which the *Oraphim Angelic Human* lineage was created. The GA was formed as a **TASK FORCE** to **increase security** in our Time Matrix when the Annu-Elohim Fallen Angelic Legions created the **Anunnaki race line** 568 million years ago to destroy the Oraphim-Angelic Human Lineage and races of the Emerald Covenant. Specializes in propagation of the Emerald Covenant and serves as the governing body of over **10 million Emerald Covenant Star League Nations** within 4 Densities of matter in our Time Matrix. The GA is directed by the **Yanas** Density-5 **MC Eieyani Master Council** of the **Elohei-Elohim Emerald Order** Breneau **Christos Founders Races** and the **IAFW**. The GA is the **administrative body** of **12 GA Signet Councils**. Maharata Text/CDT-Plate Translation and Flame Holder Contracts

The Trans ations Contracts for the Maharata Texts are *pre-ordained* and *determined solely* by (*EOMC Emerald Order Melchizedek Cloister*) Yanas Eckatic Master Counci and are overseen by the *EOMC Elohei-Elohim Christos Founders Azurite Maharaji* and *Eleyani* races of the *Azurite Universal Templar Security Team Yanas High Council* As dictated by ancient EOMC Yanas Security Protocols (and as practiced throughout history) Maharata Text Translation Contracts are solely entrusted to the 3 EOMC Endorsed CDT-Plate Speakers All true Maharata Text translations wi l be subject to authentication and source verification through Speaker-1, a *life-time position appointed prior to birth by the EOMC Yanas Eckatic Master Council* and held in this generation by *Asha-yana Deane, Ekr MC. Asha-yana Deane* is presently the ong nator of all *contemporary translations* of EOMC Teachings and CDT-Plate trans ations on surface Earth Speaker 2 and 3 have now joined Speaker-1 in trans ation of EOMC CDT-Plate Teach ngs. Prior to birth n this lifetime Speaker-1, an incarnate member of the *Emerald Order MC Yanas Master Council and Yanas Signet-12 Inner Council of Amenti*, was chosen and entrusted by the *Yanas Eckatic Master Council* and its many voting representative subsidiaries to hold the *Masters Service Contract of EOMC Eckar "Blue Flame Holder"* and *EOMC/EC Speaker-1* during the 2000- 2017 SAC ("Stellar Activations Cycle")

The 3 Flame HOLDERS of the *EOMC Azurite Universal Templar Security Team* are three individual Indigo Children elected for F ame Holder Universa Service Contracts Flame Holders are born with specia ized dormant *Universal Flame Codes* (Universa Star Gate Master Security Codes) in their DNA Templates which allows them to embody and run the ful spectrum Primal Light and Primal Sound frequencies correspond ng to their "F ame" nto Earth s Templar Flame HOLDERS are the Anchoring Rods of Primal Frequency during SACs. They first draw into their bodies and then transmit or "anchor" into Earth's Planetary Shields each progressive sub-harmonic (sub frequency band) of their assigned Primal L fe Force Current, as the Universa Star Gates progressively open and transm t nter-dimensiona scalar-wave frequencies during the course of an SAC As fu l-thrust Prima Currents anchor through the bodies/DNA Templates of the Flame Holders the frequencies are "down-stepped" or synthesized into slower moving pulses, then transmitted into Earth's Shields to activate the Planetary Templar The "down-stepped Flame Currents" are s multaneously transmitted from the Flame Holders d rectly into the common DNA Template Tribal Shield of the Corresponding Indigo Ch ld and 12-Strand Angelic Human F ame KEEPERS groups who further down-step the pulse of the Primal Currents and transm t them to the planetary life field

Were it not for the EOMC Flame Holder/Flame-Keeper Universa Templar Security Teams and their Universa Service Mission to down-step the Primal Currents, Earth s Planetary Sh elds would be unable to ntegrate the faster-moving pu ses of Prima Currents and they would instead cause Earth to pole-shift during an SAC The Flame Holders/Flame Keepers Collectives, incarnating on Earth were elected for their contracts ~ 550 mil on years ago with the "Fall of Tara" and creation of the "*Sphere of Amenti*" (Voyagers Volume 2) They began their Earthly incarnation cycles (as Earth's appointed Planetary Templar Guardians) 25 million years ago with creation of the *Halls of Amenti* Porta nterface System Star Gates. The large collective of Flame Holder/Keepers origina ly appointed to these positions agreed to repeatedly incarnate on Earth until Earth s Planetary Shields were fina ly restored to their natural order through fulfi ment of the Emerald Covenant Founders Christos Rea ignment M ssion (fu ly resetting Earth's organic D-12 Pre-matter Divine Blueprint the "Shield of Aramatena-Lyra", an event long-sched u ed for fulfi ment on December 21, 2012 AD). Flame Group members rotate n their incarnations each ensuring that a minimum of 144 000 members of their respective "Flame" are incarnate on-planet to collectively and co-operatively stabilize and run Earth's Templar during an SAC During non-SAC periods, F ame Groups have h storically been commissioned to serve as the Guard ans and Keepers of Earth s races assisting in the mass Human Race evolution toward the Christ ac Ideal of the *Emerald Covenant Freedom Teachings*

During SACs the origina "Ancient Ones" of the origina *Sphere of Amenti* commission "rotate in" for their appointed sh ft of serving as Flame Holders commissioned to gu de the *Flame Keepers* groups in fulfi ing their objective of moving Earth s Templar and l fe-field successfully through the SAC In t.mes of SAC Crisis events the Blue Flame Groups are

capable of running the full spectrum of the "Blue Gold and Violet Flame" Currents, and *Gold Flame Groups* can run the Violet Flame Currents allowing the potential of progressive evacuation for all but an essential Templar "skeleton crew" During pole shift/evac dramas, Earth's Templar can be stabilized by a minimum "bare bones crew" of 3 incarnate EOMC Blue Flame Eckars working closely with the *Eleyani Flame Groups* of the Inner Earth Time Cycle and the *Yanas Eckatic Master Councils* If pole shift initiates in an SAC due to Planetary Shield damage, a minimum of 144 "High Council" Blue Flame Keeper Indigos, plus their 3 Eckars and massive off-planet assistance are *required to maintain functional integrity* of Earth's Templar Ideally the 3 Flame Holder/Keeper Groups each with a minimum 144,000 members (total of 432,000) serving as the *Planetary Templar Security Team* are able to guide Earth safely through an SAC Flame Groups, and most especially the Flame Holders, have been the "age-old nemesis" of all Fallen Angelic legions, as the EOMC Flame Group Teams have successfully prevented Earth from a complete fall into the Fallen Legions Phantom Matrix Black Hole System since the Fall of Tara 550 MYA They have also kept the Indigo and Angelic Human Grail Line Guardian races of Earth alive for millions of years, progressively "carrying the Torch" of the "Eternal Flames" toward the eventual fulfillment of Earth's Planetary Christos Realignment healing

Each of the 3 EOMC Yanas-appointed Flame Holders (Eckatic-Blue, Polaric-Gold and Triadic-Violet) (*Voyagers, Volume 2*) has 2 incarnate "back-ups" in case the original appointee becomes unable to complete the EOMC Flame Holder DNA activation cycle to fulfill the Flame Holder Masters Service Contract. If the 3 potential Flame Holders for one "Flame" fail, jurisdiction over Flame Holder assignment reverts entirely back to Emerald Order Yanas Eckatic Master Council authority The *Blue Flame Holder position can only be reassigned to an incarnate 48-Strand DNA Template EOMC Eckar* female (female form can carry the extra base-magnetic Flame Codes needed to anchor the "Eckatic Blue Flame"), who is capable of running all DNA Template Flame Codes. Only 3 EOMC Eckars are permitted to incarnate on surface Earth at the same time during an SAC period (more would pose threat of *planetary grid overload* when their DNA begins automatic activation during a SAC) As previously identified EOMC Blue Flame Holder Speaker-1 is one of the incarnated, activated and EOMC-Yanas-Endorsed EOMC Eckars Another, an individual soon to be mentioned, holds the final EOMC CDT-Plate Speaker-2 Contract reassignment. In mid 1999, the *third* incarnate EOMC Eckar fell to Omicron-Drakonian DNA Template Monadic Reversal just as his Eckatic DNA Template codes entered pre-activation initiation (the most vulnerable period for awakening Eckars) Eckatic DNA Template codes automatically shut down completely under the *irreversible condition* of DNA Template Monadic Reversal There are NO back-up Eckars to potentially resume the Eckar Contract should one of the original three become unable to complete their part of the 3 Eckars Common Universal Service Mission In most circumstances, the mission of a fallen Eckar is adopted and shared by the remaining two.

Following the unfortunate fate of the third contemporary Eckar, and the subsequent fortunate circumstance that *two DNA Template-activated Eckars* remained functional on surface Earth to provide the *potential of a new Eckar birth* (both mother and father must have a *minimum of dormant* recessive Eckatic DNA Coding to produce a fetal body capable of holding an Eckar consciousness) the *EOMC Yanas Eckatic Master Council* has authorized a final Eckar Birthing Contract to bring a third Eckar into earthly incarnation for the 2000-2017 SAC The third Eckar Commission has been assigned to *EOMC Yanas Reion-Ben Azurtan* originally commissioned as Avatar-5 of the "*Six Silent Avatars*" (Voyagers Volume 2) Reion was initially scheduled for a general *11-Strand-activated* Avatar Masters Service Contract birth on 7/22/2008 until the JIR War Edict of September 12, 2000 placed the EOMC agenda on the "Red Alert" *Crisis Intervention Schedule* At this time, many "dormant" back-up EOMC Indigo Masters Service Contracts, such as Reion's were called into higher level activation Should the two active EOMC Eckars presently incarnate on Earth agree to assist, *Reion* will incarnate within the next 1-4 years as the third and final EOMC Eckar, to fulfill the third Eckar's role of *planetary frequency transmission*, which would otherwise transfer to, and biologically stress, the two remaining activated incarnate EOMC Eckars *Sananda-Ben-Jehovi*, (was "Jesheua-12/Jesus" in 12BC-27AD lifetime), originally scheduled for 5/5/2012 birth as the 12-Strand-activated *Sixth Avatar*, could not take on an *Eckar Birth Contract* in the present time period due to his prior *Masters Service Contract commitments* of assisting in a contemporary *DNA Bio-Regenesis Program* for Ruby Order Anunnaki-hybrid human races of Hyksos descent who are entering Emerald Covenant Host

Matrix Redemption Contracts Due to the Crisis Intervention Schedule reassignment, Sananda was scheduled to incarnate (initiating an early Avatar birth) through parents presently residing in Nova Scotia

EOMC Maharata Text translation CDT-Plate Speaker-2 and Speaker-3 Contracts are now both officially activated, due to the *necessary* expedition of the original EOMC CDT-Plate Dispensation Time Table being brought on by the 9/12/2000 Crisis Intervention Schedule EOMC Speakers 2 and 3 are now officially endorsed and activated Both like *Speaker-1*, are incarnate members of the *Emerald Order MC Yanas Master Council* each with their respective pre-ordained, pre-birth *Universal Service Contracts* In 1992 the *EOMC Yanas Eckatic Master Council* commissioned the contemporary EC CDT-Plate *Speaker-2 Contract* to incarnate EOMC Eckar *A'zah-yana (Michael) Deane*, when the incarnate member of the *Gold Order D-12 Cerez Seraphei-Seraphim* Council, originally assigned the Speaker-2 Contract, fell to Omicron-Drakonian DNA Template Monadic Reversal In 1996 (3 years prior to his meeting of Speaker-1 A'sha-yana) Speaker-2 A'zah-yana was assigned the "final back-up" position for the "Gold Flame Holder" Contract In the event that the incarnate *Level-3 Ordinate Regent* originally holding the *Gold Flame Holder "back-up number-2" commission* on behalf of the *Ruby Order Anu-Seraphim Middle Council* became unable to complete the Gold Flame Code DNA activation cycle as originally intended The original *Gold Flame Holder* an Elder Consummate Level-5 EOMC Ordinate of the *Gold Order Polanc Wachayanas Middle Council* and originally a member of the *Yanas Signet-12 Inner Council*, fell to Drakonian Monadic Reversal in 1988. Gold Flame Holder "*back-up number-1*, a D-12 Regent of the *Cerez Seraphei-Seraphim Middle Council* fell to a similar fate earlier in 1972 In 1999, the Ruby Order *EC Gold Flame Holder* "back-up number-2" became biologically unable to fulfil Gold Flame Holder DNA Template activation due to health problems related to *Ruby Order Anu- Seraphim defection* from the Emerald Covenant Co-evolution Peace Treaty Subsequently, in January 1999, the Emerald Order Yanas Eckatic Master Council initiated Gold Flame Holder/Eckar DNA Template activation in Speaker-2 A'zah-yana Until Speaker-2 successfully completed the initial rounds of expedited Gold Flame Holder/Eckar Code DNA Template activation, the Eleyani High Council appointed a *Gold Order/EOMC Cerez Regent* with *partial recessive Gold Flame Holder codes* in his DNA Template, a temporary commission to assist the faltering Gold-back-up-2 Regent in running the frequencies of initial *Gold Flame Holder codes* that had begun activation in his DNA Template This intermediary assignment was rendered in order to prevent automatic default activation of the Gold Flame Holder codes within the DNA Template of the Blue Flame Holder which would have otherwise occurred in response to Gold-back- up-2 being unable to hold the frequencies of the Gold Flame Holder code activation. This would have severely damaged the Blue Flame Holder's body during that period of her own Blue Flame Holder code activation, and further activation of the Gold Flame Holder codes within Gold-back-up-2's DNA Template would have caused rapid deterioration and physical death of his body In August 2000, the EOMC Yanas Eckatic Master Council and Eleyani Master Council guided Speakers 1 and 2 *Eckatic Twins*, into meeting for the first time, and initiated Yanas High Council contact in Peru, in preparation for expediting completion of the Gold Flame Holder Contract reassignment. Final transfer of the Gold Flame Holder Contract was orchestrated 18 months sooner than originally intended as the EOMC Yanas Eckatic Master Council anticipated pending failure of the *1992 Pleiadian-Sinan Agreements* EOMC Ruby Order Emerald Covenant Treaty and the resultant potential necessity of engaging the Crisis Intervention Schedule In October 2000 the Gold Flame Holder commission was fully transferred to Speaker-2 A'zah-yana who then went on to complete the *Speaker-2 Contract DNA activation cycle* and the final sequence of Gold Flame Holder DNA activations EOMC CDT-Plate Speaker-2 is now fully activated, and is endorsed by and in personal Speakers communication with, the *EOMC Yanas Eckatic Master Council*, authorized to hold the legitimate EOMC *CDT-Plate Speaker-2* and *Gold Flame Holder positions*

In 2000, the *EOMC Yanas Eckatic Master Council* tentatively commissioned the contemporary EO CDT-Plate *Speaker-3* and *Violet Flame Holder Contracts* to incarnate Violet Flame Holder "back-up number-2", an incarnate EOMC Regent of the *Emerald Order Eleyani-Ramayana Council* and began the *preliminary Violet Flame Code Speaker-3 DNA Template activation cycle* The original Violet Flame Holder, who originally held EOMC CDT-Plate Speaker-3 Contract, an *Elder Consummate Initiate* Level-5 EOMC Ordinate of the *Tnadic Ramayana Base-Council* fell to Necromiton-Andromie-Nephelim Monadic Reversal in 1970 The *Bra-ha-Rama Level-3 Regent* "Violet-back-up number 1" met a similar fate at the hands of the Omicron-Drakonian collective in 1996 In October 2001 the EOMC Yanas Eckatic Master Council

observed that any further expedition of Violet Flame/ Speaker-3 Contract code activation for Violet Flame Holder "*back-up number 2*" originally not scheduled for activation until 2012 would biologically overstress her system, resulting in *premature death of the body* and subsequent inability to successfully fulfill either commission. Following her Avatar's petition to EOMC Yanas Eckatic High Council to reassign her Masters Service Contracts (so that she would biologically survive to assist in the 2012 fulfillment of the Planetary Christos Realignment Mission), both the Violet Flame Holder and Speaker-3 Contracts were reassigned. Unlike the requirement for *reassignment* of the Blue Flame Holder Commission, *reassignment* of the *Violet Flame Holder Commission* does not require an incarnate *EOMC Eckar*, but it does require a minimum DNA Template qualification of EOMC Elder Consummate, a Level-5 EOMC Ordinate by birth, in order to ensure biological stability during the frequency-braiding associated with the Flame Code Contract *Reassignment*.

Like *EOMC Eckar Level-6 Ordinates*, one is *either born with Elder Consummate DNA Template coding or not*, it cannot be "tacked on" or initiated after birth. To do so would rapidly end the physical life of the body. There are only 6 Elder Consummate Ordinate RishA permitted to incarnate on Earth at the same time (same reason as with the 3 Eckars - potential planetary grid frequency overload). The 6 Level-5 Ordinate EOMC Elder Consummate RishA incarnate in the same time frame as the 3 Level-6 Ordinate Eckars, as do an additional 3 EOMC Consummate Rish Level-4 Ordinates (again, by birth contract only). All serve as incarnate members of the EOMC Yanas Master Council, *if they are successful* in completing their respective Consummate, Elder Consummate and Eckar DNA Template activations within their commissioned "Awakening Cycle". Together, these 12 individuals form the embodied *EOMC Yanas Signet-12 Inner Council* (not to be confused with the Anunnak "Council of 12" Fallen Angelic collective), the surface Earth representatives of the EOMC Yanas Master Council Administration. EOMC Yanas Signet-12 Inner Council is the *EOMC Azurite Security Team Administrative Council*, appointed as the *primary earthly trustees* and *contact personnel* of the Eleyani and Yanas High Councils. These positions of EOMC RESPONSIBILITY are not "awarded lightly" and are all the product of long-standing Pre-Birth Assignments, decided upon via Yanas Master Council vote. Individuals incarnated to fulfill these positions receive extensive prior training for a long series of incarnations, complete full Ascension to a minimum of Density-5, 0-15 (for Level-4 Consummate birth contracts), then return to density incarnation after being nominated and elected for, then agreeing to accept the appointed Universal Master-Service Contract commission. All will go through their original "Awakening" period when their contract initiates activation in their encoded DNA Templates. Some will fall to earthly illness, amnesia or Fallen Angelic infiltration during the vulnerable period that occurs as early DNA Template initiation and preliminary activation cycles begin, never to fulfill their intended Service Contracts. None of the 12 individuals serving in surface Earth *EOMC Yanas Signet-12 Inner Council* positions in the contemporary period consciously requested these commissions in their present lifetimes. Eleyani High Council representatives notified them that their contemporary Service Contracts existed and they were given opportunity to accept or reject these appointments before full DNA Template Contract activation commenced.

Not all members of the EOMC Yanas Signet-12 Inner Council hold *Flame Holder* or CDT-Plate Speaker positions, but the *original 3 Flame Holder Contracts* are always initially presented to Signet-12 Inner Council members. Presently there are 9 remaining original members of the EOMC Yanas Signet-12 Inner Council incarnate on surface Earth. One Eckar and two Elder Consummates, the *original Gold and Violet Flame Holders* (along with a host of Regents from the intended Indigo support team) have presently fallen to Monadic Reversal and are unable to fulfill their commissions. Eckar *Reion-Ben- Azurtan* is scheduled to birth in soon to assume the fallen Eckar's intended mission. The *Gold Flame Holder Contract* originally assigned to one of the fallen Elder Consummates has now been successfully transferred to Eckar Speaker-2 Azah-yana. The *Violet Flame Holder Contract* originally assigned to the other fallen Elder Consummate has now been successfully transferred to a fully activated EOMC Level-5 Ordinate Elder Consummate, *Blue-Flame Holder Back-up-2*. Two Elder Consummates are now beginning their delicate DNA Template awakening cycles, and the other remaining Elder Consummate is presently fully engaged in serving his original "*Signet-5*" Service Contract and cannot biologically hold the additional frequency burden of accepting a contract transfer. Two of the EOMC Yanas Signet-12 Inner Council Level-4 Ordinate Consummate Rishis are also entering their awakening cycle. The third Consummate Rish, originally Blue Flame Back-up-1, is presently recovering from childhood health problems that

rendered her physically unable to fulfi l her ong nal EOMC comm ssions and she is presently engaged in a less biological y demand ng Master Service Contract.

The Violet F ame Hoider "*back-up number 2*" Regent whose Avatar co ective requested Contract Reassignment following her unfortunate d fficulty with preliminary Violet Flame Code DNA Template activation is now reassigned to another unrelated Masters Service Commission The Level-5 Ordinate Elder Consummate and member of the *EOMC Yanas Signet-12 Inner Council* commissioned to carry the Violet Flame Holder and CDT-Plate Speaker-3 Contracts began her Elder Consummate DNA Template activations in 1999, in preparation for her origina 2003 Masters Service Contract She successfully completed the f nal round of Elder Consummate DNA Template activations in 2001, and shortly thereafter the EOMC Yanas Eckatic Master Council invited her to accept the *Violet Flame Holder Speaker-3 Commission* She accepted The finalized officia y endorsed EOMC CDT-Plate Speaker-3 Violet F ame Holder Contract bearer is EOMC E der Consummate RishA *Mary Anne Callaway*

Though all remain ng original members of the EOMC Yanas Signet-12 nner Council are not as yet fully awakened to their Un versa Master Service Contracts, their identities and positions have been recently revealed to the 3 EOMC Speakers The identity of the fallen Eckar, and those of the two fallen Elder Consummates have a so been revealed n confidence to the EOMC Speakers. These revelations were provided by the EOMC *Yanas Eckatic Master Council* to protect aga nst the false claims of EOMC association and advancing attempts of infiltration and manipulation of EOMC Team Indigo groups that are presently being orchestrated by Necromiton-Andromie-Nephelim, Om cron-Drakonian and L R Fallen Angelic col ectives These revelations will be held in private Speakers' confidence unt l Inner Council members discover their greater missions choose whether or not they desire to complete their birth agreements and the option of public disclosure under va idation of the 3 EOMC Flame Holder Speakers

The EOMC Yanas Signet-12 nner Council s not an "elitist dictatorial hierarchy" It is a fair, loving and when necessary, assertively firm collective of long-experienced, extensively tra ned incarnate EOMC Rishi, RishA and Eckars, who humbly agreed to serve in an extremely taxing responsibility- aden, risk-filled, protective leadership role in relation to the huge Team of Indigo Chi dren and Angelic Human Planetary Templar Guardians, all of whom ong nally agreed to work together as members of the EOMC Planetary-Galactic-Universal Templar Security Team The 11 other EOMC Signet Councils, each with their own 12 E eyani nner Council members are commissioned to guardianship of Star Gates 11-1 In the original Planetary Christos Rea gnment M ssion Emerald Covenant agreements Signet Councils 11-1 gladly agreed to work with n the directives set by *Yanas Signet-12 Inner Council*, just as Yanas Signet-12 Inner Council agreed to fo ow the Emera d Covenant protocols and directives set forth by the *EOMC Yanas Eckatic Master Council* and the various related *intermediate Councils* with leadership appointments Yanas Signet-12 Inner Council members are those who incarnated with the EOMC *Azurite Universal Templar Security Team* coding in their DNA *Templates* which would enable them to run AL of the Star Gate Security Codes should cataclysmic circumstance arise during an SAC (They agreed to this evel of Unconditional Service even though runn ng the Star Gate Security Codes without the intended assistance of the other Signet Councils would cause death of their physical bodies should the need for th s action arise) With this leadership commission came the understanding that, in the event of planetary crisis during a SAC, Yanas Signet-12 Inner Counci would be "the last to leave" n assisting n the safe evac passage of the other Signet Council members and general planetary populations They would likewise be the "first to return", should cataclysmic events necessitate intensive Planetary Templar healing and life-field resettlement.

EOMC CDT-Plate Speaker Flame Holder Contract Finalization and Plan B

No Back-up reassignments for Flame Holder or CDT-Plate Speakers Contracts will be commissioned henceforth in this present SAC as the EOMC Yanas Eckatic Master Council has, out of necessity initiated the Plan B Evac *Training Schedule* as a precautionary measure in regard to Earth Changes potentials 2006-2012. The EOMC Evac Training Schedule has been initiated in order to prepare the Indigo Templar Security Team "Flame Groups" to assist humanity and themselves directly, should the undesired possibility of Earth Changes arise as the SAC proceeds through the 2006-2012 period. Plan B Protocol requires that successfully awakened/awakening members of the *EOMC Yanas Signet-12 Inner Council* who are historically those most experienced in Crisis Intervention operations, and incarnate Flame Holders and members of the many Indigo Children Flame KEEPER groups that are *most immediately capable* of successfully fulfilling their appointed Crisis Intervention Universal Service Contracts *in co-operation with the Signet-12 Inner Council/3 Flame Holder Team*, will be those entrusted by the EOMC Yanas Eckatic Master Council to serve as the surface Earth Administrative Branch of the Azurite Universal Templar Security Team.

The now successfully awakened and EOMC Yanas Eckatic Council-endorsed 3 EOMC CDT-Plate Speakers/Flame Holders who *work cooperatively and in concurrence with each other* and with the EOMC Yanas Eckatic Master Council and Eleyan and Maharaji Master Councils (and whose integrity has never been in question among the many Guardian race Councils who respectfully requested their services), will remain as the primary surface Earth source of EOMC Contact throughout the 2002-2017 SAC period. As part of their Common EOMC Universal Service Contract, they have been asked by the Yanas Eckatic Master Council, and have agreed, to assist the Eleyani in bringing to surface Earth the Eleyan-Inner Earth CONTACT COURSE over the *next 3 year period*. The *Eleyani Contact Course*, first introduced in workshops beginning in Summer 2002, provided the tools for those working with the EOMC teachings to begin *exploring the opportunity* to engage safe and tangible personal contact with members of inner Earth and Palaida Eleyani Master Council guardian races. The present "Dance for Life" workshop program, the forthcoming translations of the *Maharata Texts* (2003 Speaker-1 Contract) and progressive CDT-Plate dispensations to be translated by the 3 Endorsed EOMC CDT-Plate Speakers were the beginning steps to creating a genuine personal contact relationship with the EOMC Eleyan races. Such a relationship is extremely valuable, if not intrinsically essential, should the need for Eleyani-Maharaji Evac Intervention arise over the next 15 years or more. Presently, the *Dance for Life program and Eleyani Contact Course* are being extended as a loving invitation for Spiritual Exploration and Development of Spiritual Joy within the *Dance for Life*, through which invaluable personal spiritual mastery skills can potentially be acquired. Such skills of Spiritual Mastery will also be recognized as basic "*Survival Skills*", should the sobering event of an Earth Changes/evac drama emerge.

Summary of the Flame Holder Contracts:

The original Blue Flame Holder must be a full *Level-6 Ordinate Eckar* by birth, capable of running the full *Eckatic-Polaric-Triadic Levels* of the Khundaray spectrum at critical mass once the *Eckatic Codes* are activated. "Back-up Blues" require a minimum of *Level-4 Consummate Rishi* DNA Templates at birth, capable of running at least the first level of the Eckatic Matrix Khundaray Current at critical mass via an *Inner Earth Level-6 Eckar Host Matrix*. Contemporary Speaker-1 is the original Blue Flame Holder, having successfully completed Blue Flame Code and Speaker-1 Contract DNA Template activation and receiving conscious training with the Eleyani since childhood following a 400 year period of specialized training prior to the present Eckar birth. "Blue Back-up-1", an EOMC Elohei-Elohim Consummate Rishi encountered health problems in childhood that would have prevented her from fulfilling this commission should the need have arisen. As previously mentioned, "Blue-Back-up-2", an EOMC Elder Consummate of the Yanas Signet-12 Inner Council was recently reassigned to fulfill the Violet Flame Holder and Speaker-3 Commissions. The original Gold Flame Holder must have a minimum of full Level-5 Elder Consummate Ordination at birth, capable of running the full *Polaric-Level* Khundaray at critical mass once the Polaric Codes are activated. As mentioned the original Gold Flame Holder a Gold Order/EOMC Elder Consummate fell to Drakonian Monadic Reversal, due to Karmic entanglements from the Egyptian period. "Back-up Golds" require a minimum of Level-3 Regent Ordination at birth, capable of running at least

the first evel of the *Polaric-Level* Khundaray at critica mass via an *Inner Earth Level-5 Elder Consummate Host Matrix* As previously mentioned due to the fall of the original Gold F ame Holder and Gold-back-up-1, and health issues preventing Gold-Back-up-2 from fulfilling his commission, the *Gold Flame Holder and Speaker-2* Contracts were reassigned to the other activated EOMC Eckar, A'zah-yana a member of the Yanas Signet-12 nner Council, as the EOMC Yanas Master Council's ast attempt to secure fulfillment of this commission for the 2000-2017 SAC The original Violet F ame Holder must be a minimum of an *Elder Consummate Initiate* capable of running the full *Triadic-Level*/Khundaray at critical mass once the *Triadic Codes* are activated The original Violet F ame Holder fel to Nephil m Monadic Reversal in 1970 "Back-up Violets" require a min mum *Level-3 Regent Ordination* at birth, capable of runn ng at least the first level of the Triadic-Leve Khundaray at critical mass via Inner Earth Level-5 Elder Consummate In tiate Host Matrix. As mentioned the Violet Flame Holder and Speaker-3 Contracts have been reassigned to the Elder Consummate who originally held Blue-Flame-Back- up-2 position)

Intruder ET and Illuminati Races of the 2001 UIR OWO Team Summary Chart Introduction

Illuminati Hybrid Humans, Unity-Through-Diversity and Reclaiming Christos Potentials

"Primary Leviathan Illuminati Races"/"Human Tribe Infiltration" refer to Illuminati hybrid race imposters within a given Human Tribe, and select family lines within a given Human Tribe that have been genetically compromised by Illuminati-hybrid interbreeding. These categories do not imply that named ethnic affiliations are dominated by Intruder race genetic distortion, Illuminati (non-human Intruder race souls) and Infiltrated family lines (Human souls, Intruder DNA attachments) make up the **minority** in each Human ethnic group. Understanding the common problem of intruder race infiltration, now **shared by all human cultures**, should allow for the advancement of a common ground problem-solving **Human Unity Through Recognized Diversity**, built upon **inter-racial equality, respect, love and compassion**. This knowledge **IS NOT an excuse** to apply the **Anti-Christos hatred creeds** of bigotry, race supremacy or prejudice against any lineage. If successful in their "First Contact" invasion plan, the UIR intend to use "contrived historical and distorted genealogical falsified "evidence" to indicate that all Human races are a "common genetic lineage" derived from their combined Anunnaki-Sumerian and Drakonian-Reptilian "stock". This **False Human Unity promotion** is intended to **vanquish true Angelic Human Race identity** and **obscure Illuminati-hybrid presence** to prepare us all for a "common unified takeover" under a false UIR "Creator God" platform. **TRUE Human Unity** will be gained through **loving identification of the Species Diversity** that exists within the "Common Chemical Clothing" of the "contemporary Human form". Illuminati and infiltrated Human family lines can make the choice to refuse Intruder association and opt for Emerald Covenant DNA Template BioRegenesis to continue their evolutionary path toward Christed Mastery, if they are aware of the evolutionary challenges and required solutions posed by intruder race genetic connection. **Angelic Human/Indigo, Illuminati and Infiltrated races can all evolve to genuine "Christed Race" status and freedom**. Due to inherent genetic and Core Template differences, each group requires a **different evolutionary path** by which the DNA Template, bio-energetic field and consciousness template can reclaim the Base-12/D-12 Pre-matter "**Divine Blueprint**" template coding required to attain genuine biologically based "**Christed Avatar Consciousness**"/ minimum **12-Strand DNA Template** potential. If the diversity within the illusion of the "Common Human Genome" is not recognized, all races will remain trapped within the present state of Common Race De-Evolution through which the Christaic genetic potentials within each diversified race will become lost in progressive degeneration to race extinction.

Most Human beings of Illuminati and infiltrated Human race descent have no conscious knowledge of their connection to Fallen Angelic intruder ET races, nor are they aware that their genetic signature predisposes them to Intruder manipulation. This physical/emotional/mental/spiritual vulnerability to Intruder manipulation can be overcome if the individual comprehends the importance of utilizing genuine Founders Inner Christos Spiritual-Science teachings and technologies. Inner Christos D-12 Divine Blueprint sciences and Mahanic Bio-Regenesis Technologies are the only methods by which **regeneration of the DNA Strand Template-12** personal D-12 Pre-matter Divine Blueprint can occur to restore the individual's direction connection to its D-12 Christos Avatar Identity. The Founder's Bio-Spiritual Technologies allow the original connection to the **Primal Light/Sound Fields** to be restored via reactivation of the **9-dimensional Antahkarana-Kundalini Cord** and **12-Dimensional Maharata Cord** Primal Life Force Currents. Genetically vulnerable humans and Illuminati hybrids are **loved by God/Source just as much as any other race** and can **regain their freedom, free will, Bio-Spiritual Integrity and genuine Christos potential** through entering a chosen path of **conscious evolution** built upon the genuine **Founders Inner Christos spiritual/science teachings**. Illuminati and infiltrated races are victims to intruder exploitation just as are Angelic Human and Indigo race lines. Like numerous Fallen Angelic races, Illuminati human-hybrid races **can evolve beyond exploiting, abusive behaviors**, they need **Love** (**Tough Love** usually works better than Soft Love, which fallen races tend to exploit), **Healing** and **Inner Christos Spiritual education**, not judgement, condemnation and destruction, to reset and develop the Christos Potentials within themselves.

E-Mail From the Edge: *Interdimensional Communication*

"Long Distance": Interdimensional Communication between beings whose space-time coordinates consciousness and DNA activation levels are very far apart in terms of frequency co- resonance May require a "chain" of several beings, or at times massive *Universal Interface Systems*, or "scalar switchboards" to create a frequency bridge for translating communication from one long distance party to another

"Local Calling": Interdimensional Communication between beings closely related in space-time placement, consciousness and DNA activation levels. Includes direct telepathy (beings physically together) remote telepathy (not physically together but in same space-time vector), and local Atomic, Elemental, Mental and Astral Plane communication

"E-Mail": Interdimensional Communication in which beings leave encoded "digital data packages" in the form of Keylontic Scalar Se'Urs (standing scalar-sound-waves) for each other the communication is not "live" in the moment like a "phone conversation" it is created then "sent" and received after communicator has withdrawn direct attention Includes ***"Interactive E-Mail"*** in which the "sender" encodes the Keylontic Se-Ur to alert the sender when the message is "opened" to engage "live" direct communication at the receiver's convenience Interactive E-Mail also includes ***Probability Programming*** in which the sender encodes a selection of holographic programs, within a specific parameter of discussion designed to be responsive to the viewer's thoughts and questions regarding the message ***Time-Release- Programming*** is another type of interactive E-mail in which stores of data are transferred to a receiver's bio-energetic field. These are programmed to open in response to the frequency level carried in the DNA Template The data becomes consciously available when the receiver reaches a specific frequency in consciousness and biology Another type of E-Mail, called ***Witness-Programming***, involves storage of "pre-recorded information" (usually large amounts too massive for a receiver's bio-field to hold) in an object called a "Witness" (such as a crystal, medallion or CDT-Plate), or in a specific area of the planetary shields. Being coded to an intended receiver via bio-co-resonance, the object will be "drawn to" the receiver, or the receiver will be drawn to the area of the planet that holds the "Witness", and the encoded time set by the sender

"Snail Mail": The process by which the higher stations of personal identity or someone communicating with higher stations of personal identity send information to the 3-D earth personality "Sleeper" who has not yet awakened to recognize the reality of interdimensional communication. The Sleeper may take a very long time to "get the message" or possibly not get it at all.

"Universal Express Delivery": The process of interdimensional communication that takes place between "Awakened" "senders" and "receivers" who have achieved clear communication lines through D-12 Divine Blueprint and who are knowledgeable about the dynamics and natural modalities of energy management associated with the art-science of interdimensional communication

"Line Taps": Undesirable invasive frequency chords run from any point in the interdimensional spectrum through the Density-2 D-4 Astral Plane that "tap into" the frequency bridge communication lines (Keylontic, telepathic or "Channeled") of a receiver through *modulated frequency interface signatures (an* energy pattern that is programmed to hold part of the frequency signature of the original communication line as a "buffer field" surrounding a foreign, internal frequency pattern). This tactic is often used on earth humans by fallen angelics from Phantom or Wesedak Matrix to intercept and compromise natural communication lines between the human and its own higher stations of identity, as well as during the processes of interdimensional communication with other "psychic" endeavors or healing work When the 12-strand human DNA Template is operating properly, Line Taps are ineffective.

"Dedicated Lines": Interdimensional Communication of any type carried out through the natural protection field of a consciously activated personal D-12 Maharic Seal Pillar the "dedicated line" to the personal Divine Blueprint D-12 Christos Avatar station of identity Once a strong Maharic Seal Pillar can be activated (frequent and consistent use) all communications are cleared of harmful frequencies, such as intentional Line Taps or "possession" attempts, or the unintentional sending of frequencies incompatible with the receiver's bio-systems and consciousness.

"Party Lines": Interdimensional Communication, including that used in psychic and healing work, conducted without the use of Maharic Seal. One has no idea what they are really communicating or what its intentions are

Illuminati One-World-Order Agenda & the APIN Legacy

APIN Systems: Atlantian Pylon Implant Network Systems are Scalar-Crystal Micro-chip Technologies that were implanted in Earth's Planetary Shields during various periods from 5.5 Million Years ago to 10,500BC. Emerald Covenant Races used them to prevent cataclysm on Earth while various competing Fallen Angelic races and their Illuminati hybrids used them with the intention of creating Earth cataclysm for dominion of the Halls of Amenti Star Gates. The UIR (United Intruder Resistance) are presently activating their APIN Systems in hope of fulfilling their One World Order Agenda between 2003-2011AD. Guardian races are activating their APIN and LPIN systems to anchor DI-12 Planetary Divine Blueprint to prevent pole shift as Earth's Star Gates progressively open between now and 2012.

- **5.5 Million Years Ago: Great White Lion and Golden Eagle Guardian LPINs** installed to prevent Earth from being drawn into Phantom Matrix Black Hole after Electric Wars. Founders create Frequency Fence "Wall in Time" between Earth and the portion of Earth's Shields that fell into Phantom Matrix to create "Phantom Earth" during the Electric Wars.
- **75,000BC: Dragon APIN** installed by Omicron Drakonian invader races.
- **25,500BC: Lucifer Rebellion** Stonehenge **NDC-Grid** installed by **Nibiruian Anunnaki, Golden Eagle APIN taken over by Necromiton-Andromie Nephilim** ("Archangel Michael" Anunnaki-hybrid collective) creating reverse-matrix **"White Eagle" APIN** and the ("Michael-Mary") **MM-TURNSTILE Templar Control System** running off NDC-Grid.
- **22,500BC: Four Faces of Man LPIN and Blue Oxen LPIN** installed by **Guardians** to complete **Planetary Christos Realignment Mission during 22,326BC SAC**, to prevent Fallen Angelics from drawing Earth and Halls of Amenti into Phantom Matrix. **Stalemate moved "Final Conflict Drama"** to **2000AD-2017AD SAC**.
- **10,500BC: Luciferian Conquest:** Fallen Angelics create **Falcon and Phoenix Wormholes** in "Wall in Time", opening Earth's Shields to Phantom Matrix. **Founders** use Frequency Fence to **Cap Wormholes** until 2000AD-2017AD SAC when **permanent Cap** could be rendered via completion of Planetary Christos Realignment Mission.
- **1903AD-1916AD: Zeta Drakonian Agenda Races uncap Falcon Wormhole and begin activation of Falcon APIN system.**
- **1943: Philadelphia Experiment: Zetas expand Falcon Wormhole** creating the **Phi-Ex Wormhole System**.
- **1951-1972: Anunnaki** agenda Fallen Angelics **attempt to uncap Phoenix Wormhole** to activate their APIN systems in hope of winning covert Templar Control war with Drakonian Agenda and Zeta Races.
- **1972: Anunnaki agenda races uncap Phoenix Wormhole** and begin activation of the **White Eagle, Dove** and **Phoenix** APIN systems.
- **1980-1983: Falcon and Dragon APINs linked** via Zeta-Drakonian alliance. **1983 Montauk Project,** Drac agenda Alpha-Omega Centauri Necromiton Andromies **link Phi-Ex-Falcon Wormholes to White Eagle APIN**.
- **November 1992:** Pleiadian-Nibiruan, Galactic Federation & Ashtar Command Anunnaki **grudgingly join Emerald Covenant Pleiadian-Sirian Agreements** in fear of losing Templar Battle with Drakonian & Andromie races after **Drakonians attempt to take over Phoenix Wormhole** and **Anunnaki fail in attempt to Cap Falcon Wormhole**. Zetas expanded Falcon-Phi-Ex to avoid cap, causing **Hurricane Andrew August 24, 1992**.
- **1992-1994:** Pleiadian-Sirian Agreement Anunnaki **use NDC-Grid in cooperation with Guardian Templar sites to temporarily Cap Falcon-Phi-Ex Wormhole. Anunnaki begin defection** from Emerald Covenant for dominion agendas once Drakonian-Zeta forces lose Falcon-Phi-Ex use.
- **1998:** Defecting Anunnaki **shut down Guardian transmission lines** and **Un-Cap Falcon-Phi-Ex Wormhole in attempt to gain full control of Templar.**
- **September 12, 2000: Anunnaki fully defect** from Emerald Covenant/Treaty of Altair, join **UIR War Edict** against Founders via **Necromiton-Andromie Nephilim prompting GA Crisis Intervention**.

Flame Body Activation

Contact Level 1 - Technique-I: The Eckasha Quick Seal Activation

Purpose: The **Contact Level 1 - Technique-I: Eckasha Quick Seal Activation** s a progression from Maharic Seal Techn ques, through which the accumulating benefits and properties of work ng with the Maharic Seal are strengthened, amp fied and developed further Regular use of general Maharic Seal techniques fulfills the following aspects of bio-spiritual development. Consistent use of the **Contact Level 1 - Technique-I: Eckasha Quick Seal Technique** strengthens, amplifies, expedites and reinforces all of these Maharic Seal aspects, as it generates access to frequencies of the **Kee-Ra-ShA** Prima Light and Sound Field Currents of Dimensions **13, 14 & 15** via activation of the **Eckasha** Ecka Code mathematical program. The **Contact Level 1 - Technique-I:** Eckasha Quick Seal Technique is also used to create and strengthen a dedicated ine of frequency for development of clear communication between the D-12 personal Div ne Blueprint Christos Avatar identity, the Density-5 (D-13-14-15) personal Rishi identity and the 3D self The Eckasha-Sealed dedicated ine provides ntensified protection and ampl fied bio-energetic field strength in terms of mu t.-d mensional Contact, Shadow Healing and Eckasha - Merkaba activation technologies The **Contact Level 1 - Technique-I:** Eckasha Quick Sea Activation technique is also used as a preliminary prerequisite techn que run prior to more advanced technologies of Shadow Hea ng, Amoraea Flame Activation and Contact.

Bio-spiritual development generated via Maharic Seal and amplified by Eckasha Quick Seal techniques:

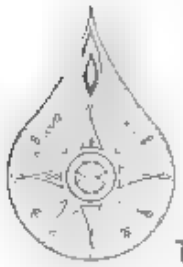
Preparation: You may use **Contact Level 1 - Technique-I: The Eckasha Quick Seal Activation** to begin using the Shadow Healing, Amoraea Flame and Contact techniques contained in the Dance For Programs. However, you must have worked through the sequence of Essential Newcomers Techniques before initiating use of the Eckasha Quick Seal Activation technique. Use of the Eckasha Quick Seal Activation preparatory steps will facilitate building of sufficient critical mass frequency during use of the Eckasha Quick Seal technique. Those who HAVE worked with the Eckasha Maharic Seal AND Veca Code Induction Techniques need only to follow **Preparatory Step 3**. (**The Temporary Maharic Seal Technique, Emerald & Amethyst Awakening and the Veca Code Induction Techniques** are all provided within the Dance For Life/Love Workshop DVDs and Course Book, and appear on the Azurite Press website. The **Maharic Seal Technique Long Version** is contained within the Kathara Bio-Spiritual Healing System Course Book)

Preparations for use of this technique are the Essential New Comer's Techniques, listed on the Azurite Press product list.

Using the following **Technique-1 The Eckasha Quick Seal Activation** consistently, **during week 2 of the suggested Flame Body Schedule** will enable the mathematical program of the Eckasha Ecka Code to activate sufficiently within the personal Shields and DNA Template. Sufficient activation of the Eckasha Code begins building of a 'dedicated frequency line' to your D-12 Christos-Avatar identity level and supplies adequate quantity and strength of D-12 frequency sub-harmonics to successfully engage Shadow Healing, Amoraea Flame and Contact techniques.



This is the Eckasha Symbol. The Circles and cross in the center of the symbol are the Reuche

Procedure Contact Level 1 -Technique-I: The Eckasha Quick Seal Activation

The Eckasha Psonn **Um'-ah A' ThrA'-E-Na-A' Ec'-ka-sha'** is gently sounded prior to each in-breath and on each out-breath, repeated in groups of 3. The **Psonn of Lyra** may be sung softly to complete the technique.

1. Begin by slowing your breathing rhythm as you imagine or visualize the **Eckasha Hierophant** at the **Pineal Gland** in the center of your brain. Visualize the Eckasha Hierophant surrounded by a **Pale Blue Sphere of Light**. The Pale Blue Sphere containing the Eckasha Hierophant is called the **Eckasha Sphere**. (The Blue Sphere serves as a buffer for your body's readiness to accept the frequencies associated with the Eckasha Code, the Blue Sphere holds the energy for you until your body can handle and assimilate the energy. Your body, DNA Template and Shields will automatically draw the appropriate amount of Eckasha Code frequency from the Blue Sphere as needed.)
2. Tone the **Eckasha Psonn**, softly before you inhale. Um'-ah-A' ThrA'-E-na-A' Ec'-ka-sha' 3 times. **INHALE**, using the Inhale breath to **energetically grab the Pale Blue Eckasha Sphere** located at the Pineal, and on the **EXHALE** use the Exhale Breath to **push the Eckasha Sphere** all the way down to **Chakra - 13** at **Earth's Core** as you again tone the **Eckasha Psonn**; Um'-ah-A' ThrA'-E-na-A' Ec'-ka-sha' 3 times. Try to **hear a sound tone** as the Eckasha Sphere hits the Planetary Shield at Earth's Core.
3. Repeat the **Eckasha Psonn 3 times** before you inhale. Um'-ah-A' ThrA'-E-na-A' Ec'-ka-sha' **INHALE**, using the Inhale breath to draw the **Eckasha Sphere up to your Personal Maharic Shield** 12" below your feet and **EXHALE** while watching the Eckasha Sphere become a Pale Silver - Blue Sphere that expands outward to form a large sphere. Tone the **Eckasha Psonn** 3 times and imagine that **your Maharic Shield pops out** as a Pale

Si ver disc, about 4' in diameter, surrounded by a coating or aura of **Pale Blue Light** with the Eckasha Hierophant symbol at ts center

4. Bring your **attention to the center of your Maharic Shield** 12" below your feet , tone the **Eckasha Psonn** 3 times and **INHALE**, using the Inhale breath to draw the **Eckasha Hierophant symbol** (without Pale Blue Sphere) from the Maharic Shield center up into the **4th Heart Chakra. EXHALE**, using the Exhale breath to expand the frequencies of the Eckasha Code from the Eckasha Hierophant into the Heart Chakra as you softly tone the **Eckasha Psonn** 3 times.. ..
5. Tone the **Eckasha Psonn** aga n 3 times and **INHALE,** using the Inha e breath to energetica y **grab the Eckasha Hierophant symbol** at the 4th Heart Chakra, and EXHALE, using the Exhale breath to push the **Eckasha Hierophant up into the 14th Chakra** 36" above the head Tone the Eckasha Psonn again and imagine that the **Eckasha Hierophant is spinning in a clockwise direction** (from your right side around the back, to your left side) **in the 14th Chakra.** As you do th s try to feel / sense the energy around you, just a few inches out from your body
6. Now move your attention to your Maharic Shield 12" below your feet, take a couple of relaxing breaths, and **INHALE deeply,** using the Inhale breath to **pull Pale Silver and Blue energy upward** from your Maharic Shield to **Chakra-14** 36" above your head, **pulling your Maharic Seal Pillar upward and latching it onto your 14th Chakra.** This procedure activates your **Temporary Maharic Seal Pillar,** ampl fying its ntensity and strength with the Kee-Ra-ShA frequencies of the Eckasha Code Feel the sensations of amplified Eckasha Code energy just a few inches from your body now - try to sense the difference between the amplified Eckasha Code frequencies and those usually generated by the Maharic Seal alone
7. Now envision the 4" diameter **Pale Silver Cord of Maharic Light** that would normally come up with activation of your Maharic Sea Pillar and focus on **Chakra -13** at Earth's Core **INHALE** using the nhale breath to draw the Maharic Cord of Pale Silver energy up into the body and to the **4th Heart Chakra** center, expand ng the Pale Si ver energy to form a **Pale Silver Maharic Sphere** of D-12 frequency within the **4th Chakra. EXHALE** using the Exha e breath to send your attention downward to **Chakra-13** at Earth's Core. **INHALE,** using the nhale breath to bring another load of Maharic frequency up from the Planetary Sh elds to the **4th Heart Chakra,** expanding it into the Pa e Silver Maharic Sphere Repeat this **Inhale-up / exhale-down Maharic Energizing Breath** several times noticing that the **Maharic Cord grows larger** with each breath, expanding from approximately 4" to 6" to 8" in diameter until finally the Maharic Cord expands outward to from a skin around, and within every cell of your body The Maharic Energizing Breath loads your D-4 Astral field with Maharic Frequency
8. Move your attention to the Pale S ver **Maharic Sphere** you have created in your 4th - Heart Chakra INHALE, using the nhale breath to move the **Maharic Sphere up to meet the Eckasha Hierophant** at the **14th Chakra** 36" above your head As you do, sense a **Sheath of Eckasha Code-charged Pale-Silver Maharic Frequency** encasing your **D-1 etheric body**, rad at ng from **within the body to about 1" above the skin.** This Pale Silver Maharic **"Christos Skin"** charges and saturates your etheric body with Eckasha Code ampl fied D-12 Maharic Frequency sub-harmonics try to sense and experience directly the peacefulness and a l-knowing nature of this frequency
9. Now for **3 final breaths.** Tone the Eckasha Psonn, Um'-ah-A' ThrA'-E-na-A Ec'-ka-sha' 3 times **INHALE** and **EXHALE** using the Exhale breath to expand the Maharic Sheath "Christos Skin" further outward around your body and into your Auric F eld repeat ng the **Eckasha Tones** 3 times, as the Pa e Silver Maharic Sheath **Christos Skin** begins to assume the **tear-drop shape** of the **Eckasha.** Repeat the **Eckasha Psonn** again, **INHALE**, then **EXHALE,** and as you repeat the tones see or feel the **Pale Silver Eckasha** tear-drop **expand fully outward into your Auric Field**, ts top-point anchored in the **14th - Chakra** 36" above your head, ts bottom embracing **Chakra-13** at Earth's Core below your feet. Repeat the Eckasha Psonn tones, **INHALE** and on the **final EXHALE** expand the Pale Si ver Eckasha "Christos Sk n" Maharic Sheath **out into the Universe** as far as you can, toning The Eckasha Psonn for the final time
10. You may close by softly singing the **Psonn of Lyra** ("Invocation of the Maharata")

Expediting Interdimensional Mobility- *Understanding the Astral Body*

Astral Body/Astral Projection: The **Astral Body** is the natural electromagnetic **Density-1** ***Trion-Meajhe-Reion Field Radial Body imprint*** **of the Density-1 physical body** into which the **D-3 Mental Body awareness passes** in order to explore beyond its physical space-time location through what is called **"Astral Projection"** The Astral Body becomes functional for **interdimensional travel** through activation of the **4th and 5th DNA Strand Templates**, the D-4 Astral Plane is perceived when the D-3 Mental Body expands into D-5 frequency through activation of Strand-5 Strand-4 activation allows perception of the D-3 Mental Body plane as the Mental Body expands to the D-4 station of consciousness. The term "Astral Body" is also sometimes used more loosely to refer to the D-4 energy body "egg" capsule of the auric field, in which the D-4 station of consciousness resides. The full **Astral Body vehicle** can "walk physically" in the D-4 Astral Plane (Density-2 Atomic Plane) from the D-5 station of consciousness following activation of DNA Template **Strand -5**.

The **"Astral Body" electromagnetic replica imprint of the 3-dimensional Density-1 body** forms from the Prima Life force Currents of the **Eiros** (D-7-8 Eiron-Ectron-Raeon Field), **EirA** (D-10 Meajhe Field), **ManA** (D-11Trion Field) and **Manu** (D-12 Reion Field) of the **combined Density-1 and Density-2 Radial Bodies** when the **Density Lock Seals** between the **Density-1 D-3 Mental Body** open to the **Density-1 Radial Body** and the **Density-2 Density Lock Seal** between the **D-4 "Astral" body** and **Density-2 Radial Body** open to each other, allowing the **Density-1 D-3 Mental Body Consciousness to expand into D-4 frequency bands** When consciousness expands to D-4 the D-3 Mental Plane, 1 full dimension below, is perceived as solid when the consciousness continues expansion to the D-5 Frequency bands through release of the next Density Lock Seals, the **D-4 "Astral Plane" or Density-2 Atomic plane** is perceived as solid The ability to **"Astral Project"** develops with progressive activation of **DNA Strand Template 4 and 5**, through which the Density Lock Seals that keep the D-3 mental body consciousness confined to one Density and space-time vector release, allowing the mental body "ego" awareness to traverse other regions of space-time and density **Astral Projection**, also referred to as **"OOB"** (Out-Of-Body experience) is the first step in the development of physical body Transmigration abilities such as physical Bi-location and Star Gate passage "Ascension", both of which require full release of all Density-1 Density Lock Seals.

Presently, and since **25,500 BC**, an artificially generated **Shields Template distortion** called the **"NET"** (Nibiruan Electro-static Transduction Field) causes the Human D-3 Mental Body "ego" great difficulties in natural formation and usage of the organic Astral Body vehicle The NET distortion manifests within the Galactic Shield of our Solar System via distortion of the **Solar Shield**, and within the **Planetary Shield and Magnetic Fields of Earth**, subsequently causing reciprocal **mutation and malfunction** within the **DNA Template** and **chemical DNA** of all Earth species The NET is directly responsible for creating the unnaturally exaggerated duality and polarity of consciousness, known as the **"Violence Mutation"** within Earth human and animal species, and for manifestation of the unnatural structures of the **Shadow Body, Elemental and Figment Attachments**, all of which inhibit the organic function of the Astral Body vehicle **Amoraea Flame Shadow Healing technologies** are required to safely expedite restoration of the natural human Astral Body vehicle, DNA Template and Merkaba field function and to reinstate the natural integrity and integration of genuine D-12 Christos spiritual consciousness

OOB-OBE: "Out Of Body" experiences or **"Out-of-Body-Episodes"** Terms often used to describe the natural or inorganic experiential phenomenon associated with states of **natural Astral Projection, Astral Body travel** or inorganic ***Shadow Body travel*** "OOB" travel results from the D-3 Mental Body expanding or "projecting" its consciousness and accelerating its oscillation rate into higher-dimensional frequency bands beyond the station of the D-2 Elemental and D-1 Atomic Density-1 bodies through DNA Template activation As the D-3 Mental Body rises progressively higher than the frequencies of the D-2 Elemental-Emotional and D-1 Atomic physical body, the D-3 Ego often experiences this expansion of consciousness as being "out of the body" **In truth, the consciousness does not "leave" the physical body in OOB projection, but rather expands through the body and DNA Template into the Density-1 Radial Body Field. The projecting body stays "tethered" to and projects outward from the Density-1 physical-emotional-**

mental body system through a **Pale-Silver-Blue Cord of energy.** This connects the Density-1/D-12-11-10 Radial Body wave field to the Density-1 body though a **Lock Seal** that exists within the **E-Umbi Point, just below the navel** in the physical body template If the D-3 Mental Body expands too far in frequency from the Density-1 body the physical body system will "gently yank the Silver Cord", drawing the Mental Body back into contracted D-3 focus to lower its frequency If the gap in frequency that occurs in projection between the D-3 Mental Body and D-2/D-1 Emotional-Physical bodies extends for too long a time, the oscillation rate of the lower bodies can drop too low in frequency This can break the Silver-Blue **"Radial Body E-Umbi Cord"** setting in motion a pre-mature **"Bhardoah"** death transition The body consciousness knows this and thus draws the D-3 Mental Body back from projection when a certain drop of body frequency is reached If the projecting D-3 Ego attempts to ignore or override this bio-response it can experience difficulty in re-merging the D-3 Mental Body with the D-2/D-1 Emotional-Physical body fields as the E-Umbi Cord begins to contract. The Ego may find itself "trapped out of body" unable to "get back in" The D-5 Soul consciousness will then send a bit of D-4-5 frequency to the DNA Template to "spark" a rise in body oscillation rhythm so the E-Umbi Cord expands again permitting the D-3 Mental Body to re-merge with the physical, allowing the Ego to "get back into the body" In extreme cases of projection involving Shadow Body/NET interference the E-Umbi Cord can become severed and the Bhardoah (permanent separation of the D-3 Mental and D-2 Emotional Bodies from the D-1 Atomic body) is set in motion and the Ego meets its biological death transition Working with Maharic, Node and Veca technologies progressively develops the ability to experience safe and natural OOB projection and Astral Body travel

NDE: "Near Death Experience" is a term often used to describe the natural experiential phenomenon associated with states of **expedited D-5 SOUL Projection** D-5 **Soul Body projection** is the result of the D-3 Mental Body rapidly expanding its consciousness through the Pale-Silver-Blue E-Umbi Cord below the navel, and accelerating its oscillation rate through the D-3 Mental Plane, Radial Body and D-4 Astral Plane directly into the Density-2 Soul Body **D-5 station of consciousness** NDEs are initiated by the personal higher-dimensional spiritual identity through **"sparking" of the 4th and 5th DNA Strand Templates** into early activation for the purpose of **accelerating natural consciousness expansion and D-5 Soul integration** The NDE "soul spark" temporarily displaces the D-3 Mental Body fully into the E-Umbi Cord (such as occurs in natural Bhardoah), drawing the Mental Body into rapid expansion through the Density-1 Radial Body, Void and Astral Body for temporary merger with the D-5 Soul body The **"dark tunnel"** often reported in NDEs is perception of the Mental Body's passage through the **Density-1 Void Lock**; the **"Light at the end of the tunnel"** is perception of the **D-5 Archetypal Soul Plane** Upon return to the body the D-3 Mental Body carries a **trace imprint of D-5 frequency** which triggers **sustained activation of DNA Strands 4 and 5** in the DNA Template This expedited activation of DNA Strand Templates 4 and 5 activates the **D-5 Eiros** in the Radial Body Meajhe field, opening the **Mental Body Lock Seal** to rapidly create an **open communication line** between the **Density-2 Soul self** and the **Density-1 Ego**

ASTRAL AWAKENING, THE FLAME OF EIROS & THE SILVER SANCTUM

Activating the Density-1 Celestite Crystal and the Eiros Flame (Eiros Flame Activation Levels-1&2)

Through activation of the dormant internal **Flame of Eiros** within the Density-1 physical body Templar **Dimensional Lock-3 Seal** releases allowing the *D-3 Mental Body* to expand into the *Density-1 Radial Body* causing the natural Pale-Silver-Blue **Eiros Celestite Crystal** to activate within the **"Pale-Silver-Blue Cord"** below the Navel. Activation of the **Celestite Crystal** causes the natural **Eternal Eiros Silver Sanctum Flame** to activate within the Density-1 Radial Body and Etheric Body Template surrounding the Density-1 Mental, Emotional, and Physical body structure. Activation of the Eiros Flame causes the **"Eternal Emerald Flame of Amoraea"** Eckasha capsule to activate within the outer D-12 Reion Field of the **Density-1 Radial Body** (Note: The Eternal Flame of Amoraea wave-field of the Radial Body appears to D-12 HSP as an **Emerald blue-green** Eckasha Flame due to activation of the full **Deep Azure-Blue Manu Current** in the outer D-12 Radial Body Reion Field, the **Pale-Gold ManA Current** in the middle D-11 Radial Body Trion Field and the **Pale-Violet-Blue EirA Current** within the inner D-10 Radial Body Meajhe Field.) Activation of the **Density-1 Eiros Flame** causes the natural Density-1 Radial Body D-12 Manu-Reion Field Divine Blueprint to activate rapidly **clearing Radial Body distortions** and restoring the natural memory matrix while **opening the Radial Body to the Inner Ecka Center Flame** of our Universal Veca system. Through the Eiros activation the **D-7 Eiron Field** and **D-5 Dion Field** of the Density-1 **Eiros** inner Radial Body level merge to form the D-12 Reion Field **Silver Sanctum Flame Eckasha Capsule** within the Density-1 Radial Body. The Eiros **Silver Sanctum** capsule expands within the **Density-1 Radial Body** around and through the 3-Dimensional **Hova Body** as the **Eternal Emerald Flame of Amoraea** forms around and through the Density-1 **Radial Body**. Together the Silver Sanctum and Emerald Amoraea Flames form a **3-Dimensional Radial Body "Eternal Flame" Eckasha Capsule Trion-Meajhe Field with a D-12 Silver Sanctum core** around the **Density-1 Hova Body**. The Eternal Flame prepares the 3 dimensionalized bio-field levels of the Density-1 Hova Body to merge for **biological Density-1 Star Gate Ascension passage** with release of the corresponding Density-Lock Veca Seals.

The Density-1 Eiros activation initiates opening of the natural Silver Sanctum **Neutron Window surrounding the Density-1 body and within the Etheric Body Field** (creating the "Silver Spacesuit") and the minute **Neutron Windows within the nucleic core of Density-1 atoms** preparing the body for natural Merkabic transmigration through atomic transmutation. Eiros activation initiates **permanent opening** of the natural **Density-1 Pale-Silver-Blue Cord** below the navel, allowing the Density-1 D-3 Mental and D-2 Emotional Bodies to merge for direct expansion into the Radial Body and through the Density-1 Void for accelerated development of clear **D-4 Astral Body, D-5 Soul Body and D-6 Angelic Body travel**. Activation of **DNA Strand Templates 4-5-6** and corresponding **Fire Codes** (for strand braiding) is rapidly expedited accelerating the rate of natural **Soul Integration** while progressively awakening **Density-1 reincarnational memory**. Accelerates and progressively harmonizes the **awakening, healing and integration** of Sub-personality Fragments, Probable Selves, Elementals and Shadow Selves from the D-1/D-2 **Sub-conscious Mind**. Eiros activation also initiates **permanent opening** of the natural **"Dedicated Communication Lines"** between the Density-1 self and the Density-2 Soul Body Archetype, dentity through which conscious contact and communication with the personal Soul Self and **Density-2 Guardian races** can be more rapidly and easily developed.

Before *Density-Lock Veca Seal* release the Density-1 **Eiros activation** progressively **clears & transmutes** the **unnatural "Metatronic 4th Black Heart of Anubis"** ("Warden of the Underworld Epsilon Gates") **Implant** in the ***E-Umbi,*** below the navel. (The E-Umbi is the point in the physical body where the natural Radial Body "Silver Cord of Life" attaches to the embodied Kathara Grid and physical Elemental-Atomic structure, and from which the physical fetal umbilical cord originally emerged.) Clearing of the Anubis Metatronic Implant **prevents the "Flaming Blue Sword" D-13R Wesedak Current from causing Monadic Reversal in DNA Strands 1-2-3 of the DNA Template**. The Eiros Activation also **progressively dissolves the inorganic electro-static NET** in the **Density-1 Radial Body**. Clearing the NET prevents the unnatural transfer of the Density-1 Mental Body to the Shadow Body during sleep & projection, and provides the physical body with sufficient frequency-holding capacity to **sever Density-1 Shadow Dancer Cords** and to **heal the personal Density-1 Shadow Body**. Once the corresponding ***Density-Lock*** Veca Seals are fully released, the Density-1 Eiros Flame Silver Sanctum and Emerald Flame Amoraea capsule allow for safe physical **Star Gate Ascension** passage of the Density-1 physical body through the Star Gates and Density-1 Void for biological ascension to **Density-2** via **Hallah Phase Eckasha Merkaba Vehicle** activation. As Density-2 Star Gate passage occurs, the Density-1 and Density-2 bodies and consciousness merge to become the **Density-2 Semi-Etheric Matter Taran Body**.

NATURAL ASTRAL BODY ANATOMY

The **"Astral Body" is an electromagnetic replica imprint of the 3-dimensional Density-1 body** that forms from the Primal Life Force Fields of the ***Euros*** (D-1 Etheric Field) ***ErrA*** (D-10 Meaning Field) ***Manu*** (D-11 Thought Field) and ***Manu*** (D-12/13 Reason Field) of the **combined Density-1 and Density-2 Radial Bodies**. The **Astral Body vehicle** activates when the **Dimensional-Lock Seals** (D-Lock Seals) between the **Density-1 D-3 Mental Body** open to the **Density-1 Radial Body** and the **Density-2 Dimensional-Lock Seals** between the **Density-2 D-4 "Astral" body** and the **Density-2 Radial Body** open to each other, allowing the **Density-1 D-3 Mental body consciousness** to expand into the **Density-2 D-4 frequency bands**. The Density-1 D-3 consciousness expands to Density-2 D-4 through release of the **Dimensional-Lock-3 Seal** from the D-4 focus of consciousness. The **Density-1 D-3 Mental-Atmospheric Plane** one full dimension below the station of consciousness is perceived as the **"solid"** holographic field. The Density-1 D-3 consciousness continues expansion to the **Density-2 D-5 frequency bands** through release of **Dimensional-Lock-4 Seal** from the D-5 focus of consciousness. The **D-4 "Astral" Plane** or **Density-2 Atomic Plane** is perceived as the "solid" holographic field. The ability for **"Astral Projection"** develops with **progressive activation of Strands 3 and 5 of the DNA Template** through which the dimensional locks that keep the D-3 Mental body consciousness confined to one Density and space-time vector release, allowing the Density-1 D-3 Mental Body "ego" awareness to traverse other regions of space-time and density as the **Strand-4 DNA Template** naturally activates. The abilities of **coherent dream recall, lucid dreaming and simultaneous dreaming** first emerge as the D-3 Mental Body consciousness first expands into the **Density-1 Radial Body levels**. As **Strand-4** activation continues and the D-3 Mental Body moves into **D-4 frequency** the **D-3 Mental Plane** comes into solid, more coherent view followed by the **D-4 Astral Plane** with Strand-5 activation.

Technique-2: Astral Awake, Aware & Able

Network Sensing, Projection, & Shape-shifting 101

(EIROS FLAME ACTIVATION LEVEL-1)

Purpose: Technique-2 s designed to release the Dimens.onal Lock-3 Seal between the D-3 Mental Body and the Density-1 Radial Body Eiros field, bringing the D-1 Atomic-Etheric Body out of Density-1 biological phase lock.

Preparation: Eckasha Quick Seal, (Technique 1) To activate D-12 Mahanc Current
Also, you may choose to use a piece of **Celestite Crystal** n corresponding steps of this technique to amplify the frequencies generated

Procedure:

1 Sit comfortably with eyes closed and slow breathing rate to about one half speed Imag ne that within the **center of your brain** there is a **small, dimly lit circular room** with a gently **spiraling staircase** descending downward into a **calm pale blue-gray space of energy within you** that is cal ed the **"Sleeping Room"** P ace the focus of your mental attention in the **small circular room** at the top of the staircase It is **dimly lit** n this space at the present time, so you will need to **FEEL THE SENSATION** of being within the circular room until your inner eyes adjust to the dim light. Feel the sensations around your physica body as f you were in a sma , circular room. Observe. What temperature is the air as it touches your skin, cool, warm, cold, hot, comfortable? Observe Is there any sound in this space, and f so what kind of sound? Observe . Can you see anyth ng in this dimly it space, objects, color light?

2 Imagine that the **circular room is physically real** and that your **physical body is standing within it**. With eyes closed, **sense** with your phys cal and menta bod es **where the entrance to the spiral staircase is positioned** If the spiral staircase were to magica ly open up now **emerging from your physical body and into the room** you are now physically sitting in, **SENSE the area of your physical body from which the staircase would emerge** this area represents your **natural "Departure Point "** Is it to your eft or right side, d rectly in front or n back of you? s it above or below the navel? Is it above or below your head or feet? **Everyone has a Departure Point,** it is the area in the body template from which the menta body consciousness naturally expands to enter states of projection **If at first you are unable to sense the Departure Point, simply "Imagine where you would like it to be and put it there"**

3. Once you have located or created your Departure Point move the focus of your mental attention to this area of your body and imagine that your awareness s now poised at the top stair of the spiral staircase. The **Staircase extends downward from your Departure Point** into an area that resembles a **pale- blue-gray tunnel** SENSE the location of the **staircase HAND-RAIL**, and imagine yourself **reaching out to grasp it** with the appropriate hand W th your physical pa ms resting in your lap **SENSE the FEELING of the HAND-RAIL** with n the **palm of your physical hand**, and **physically grasp the "invisible Hand-Rail"** with your chosen hand while it rests loosely on your lap now modeling the grasping gesture The Hand-Rail is your guide as you prepare to descend the spira staircase to the "Sleeping Room" below

4. Using the **IMAGINED SENSATION of the Hand-Rail** n your palm as your guide imagine now that your menta awareness begins to slowly walk down the dimly lit stairway **COUNT EACH OF THE STEPS YOU TAKE** as you **slowly descend...1...2...3 to ...22**; everyone will have at least **22 Steps**, some people will have more f you sense that more steps are there after the 22nd Step, **count the remaining steps** whi e imagining you are **rapidly walking down** them to the bottom. **Remember how many additional steps are there**, with repeated practice of this technique the steps below Step 22 will "d sappear" and you wi eventually find the 22nd Step is the bottom step that leads d rectly into the pa e-blue-gray **"Sleeping Room"**

Copyright A & A Deane, 2002 All Rights Reserved

5. Now imagine that you are standing at on the **22nd** (or bottom) **Step**, and **release the Hand-Rail** while al owing your hand to relax n your lap. You may still experience very little visua sensory data as you enter the pa e-blue-gray Sleeping Room. Imagine that you are **stepping from the 22nd Step to the granite floor of the Sleeping Room**, while mag nifng the Sleeping Room as a **Circular Granite Cave** that is dimly lit with **a very pale, diffused blue light**. In the center of the Sleeping Room there is an **ancient granite slab** that rises up from the floor to the height of a dining table. Imagine that you are **slowly walking forward with one hand extended** to "Feel your way along", as if moving through your physical home in the dark. Continue to SENSE that you are **walking forward in the Sleeping Room** until your **extended hand touches the raised granite slab in front of you**. When you reach the gran te slab imagine that you are reaching forward to retrieve someth ng that sits upon the slab.

6. Imagine that you are **FEELING the top surface of the slab searching with your fingers to locate the small object** awaiting your retrieval. The object is **a very-pale-silver-blue Celestite Crystal, spherical in form, about the size of an orange, with an unpolished, rough-hewn texture**. The Celestite Crystal is the **door-key to your Density-1 Etheric Body**. Imagine **picking up the Celestite Crystal in your RIGHT HAND**, while modeling this hand gesture with your physical Right Hand as it rests in your lap. SENSE the **size, weight, texture and temperature of the Celestite Crystal** with your physica hand as if the invisible object were there. **INHALE pale-silver Maharic Current** from **Earth's core** up nto your body through your **Central Vertical Current to the 4th Heart Chakra**, then **EXHALE the Maharic Current from the Heart Chakra down your RIGHT ARM into your palm and into the Celestite Crystal**. Take **3 more Inhale-Exhale Maharic Breaths**, each time energ zing and activating the Celestite Crysta n your palm. At the **end of the last EXHALE**, mag ne that the **Celestite Crystal is now glowing and pulsating with an aura of pale- silver-light**. You may see this pale-silver-blue aura around the Celestite Crystal in your Inner V sion and may sense the weight of the Crystal in your palm growing slightly less heavy. you may also sense nothing, but even so the **Celestite Crystal is activated**.

7. With eyes closed, **move your physical right hand**, imagin ng the activated Celestite Crystal with n it, to a po nt on your **physical body just below the NAVEL. "Cup" your hand** over this body area, as if the invisible crystal was positioned between your palm and your body. **INHALE a Maharic Breath up to the Heart Chakra and EXHALE the breath down your right arm into and THROUGH the Celestite Crystal**. As the breath carries the Maharic frequency nto your body there is a **sensation of mild "buzzing"** n the area **just below the navel** as the **DATA-KEY** stored in the Celestite Crystal moves into the corresponding "Lock" on the Etheric Body "Door". f you do not feel the "buzz ng" sensation send **up to 3 more Inhale-Exhale Maharic Breaths** through the Celestite Crystal, to **amplify the Maharic Charge** that will release the Data-Key. (Use of a physical Celestite Crystal in this technique will also assist in strengthen ng the frequencies generated). After 3 Maharic Breaths sufficient frequency will be generated, even f you do not yet feel the "buzzing" sensation.

8. As the Data-Key releases, imagine that your **body absorbs the entire Celestite Crystal**, remov ng t from your palm and **transferring the Crystal into the Etheric Lock** below the navel. Let your right hand rest gently in your lap while **shifting your mental focus** to the area of the body **where the Crystal has entered**. Imagine now that you can **sense the weight and gentle buzzing** of the Celestite Crystal within your physical body below the navel. The Crystal now **rotates slowly and pulses in a gentle rhythm, on every pulsation releasing a pale-silver-blue Celestite wave-field of frequency Rays** that contain the natura activation code mathematical program for your personal **Etheric Body**. Try to **become aware of each gentle pulse of the subtle Celestite Wave, or "C.WAVE" field** as t **emanates from just below the navel and spreads outward in all directions through every atom in your body**, g ving your **D-1 Etheric Body Field** ts "Ancient Wake-up Call". **Relax and breathe slowly** for a few moments, to "get in touch with" the presence of the pulsing **Celestite Waves**. The **"C.WAVES"** are there even of you cannot yet sense their presence; your **D-1 Atomic-Etheric Body does sense them** and responds accordingly.

9. After a few moments of **sensing the C.WAVE pulses** moving through your body, **INHALE Maharic Current up to the 4th Heart Chakra, then EXHALE the Current within the 4th Chakra** to form a **small, pale-silver "Maharic Ball"**

Copyright A & A Deane, 2002 All Rights Reserved

about the size of a go f-ba l **within the 4th Chakra** Take **2 more Inhale-Exhale Maharic Breaths**, us ng each subsequent Exha e to **expand the Maharic Ball** from golf-ba l size, to **"orange" size** then to **"grapefruit size"**, while observing the sensation of the Maharic Ball expanding in your Heart Chakra Take a fina Maharic Breath this time INHALING Maharic Current directly into the Maharic Ball and using a forceful EXHALE breath to "burst" the Maharic Ball while push ng the released Rays of Maharic Current throughout your entire body and outward nto your auric field

10 Now, move your attention down to the **point below the navel where the Celestite Crystal entered** the body; this body point is cal ed the **E-Umbi** (E- Um'-BE) **SLOWLY INHALE Maharic Current** upward from Earth's Core (Chakra-13) **TO THE E-UMBI ONLY**, by **keeping the chest, diaphragm and lungs as stationary as possible and allowing the SLOW inhale breath to expand your ABDOMEN and "belly" instead of expanding the lungs and upper portion of the body** Th s is called **ABDOMINAL BREATHING**, a specialized breath ng technique for running Kundalini and higher Life Force Currents into various "hard to access" areas of the personal bio-Shields Take a few Maharic Breaths in the Abdominal Breath ng posture to become more familiar with th s breathing shift After a few practice breaths, **initiate the Activation Breath, INHALING Maharic Current into the E-Umbi while expanding the abdomen** then **HOLD this breath** for a moment while **focusing mental attention on the Celestite Crystal in the E-Umbi. EXHALE SLOWLY**, using the **Exhale breath** to **push more Maharic Current downward** from the **Heart Chakra to the E-Umbi. Quickly return to regular, non-controlled breathing rhythm**, relax and breathe gently for a few moments **waiting for a very subtle "pop" sensation** or sense of **expansion or warmth** to occur **within the E-Umbi**, as the **E-Umbi Lock Seal** (Dimensional Lock-3 Menta Body Seal releases, freeing the **D-1 Atomic Etheric Body for merger with the D-3 Mental Body** to n tiate D-3 Menta Plane Projection Travel

11 As the **E-Umbi Lock Seal releases**, you may or may not experience a momentary sense of "light-headedness" or mental "spaciness" as the D-3 **Mental Body capsule opens and expands** nto the **Etheric Body blueprint**. The Etheric Body ex sts as a **D-1 EirA Primal Current energy field** with n and surrounding every atom, and wh ch extends like a **"form-fitting pale-blue-gray energy space-suit"** around the entire physica body The Etheric Body is now ready for "independent travel" under the direction of the D-3 Conscious Mind "Ego" How quick y one wi become able to hold clear menta focus with n the **Etheric Body Vehicle** depends upon the **personal level of DNA Template activation**, when DNA **Strand Template-4 FULLY activates** the D-3 mind can s mply shift its attention into the Etheric Body and "Step outside of" the phys cal body for travels in the D-3 Mental Plane. Before full Strand-4 activation there will be various sensual and experiential phenomenon associated with the **accelerated Strand-4 activation** n tiated through this exercise

12 Relax and breathe gently, with eyes closed, and imagine the **Etheric Body "spacesuit"** or "body replica" magine that you can see its pale-blue-gray form **sitting within your physical body in exactly the same position as the physical body** magine now that you can fully direct the Etheric Body, and **move the LEFT ETHERIC ARM upward from your lap to a position over your head**, as if you were "raising your etheric hand" Use the **Mental Command, "THE ARM IS UP NOW"** as you "play" with the Etheric Arm, trying to get it to respond You will know that you have "made the connection" when you begin to have a subtle but progressively more d stinct sense that a "**lighter weight arm**" has moved to a different position than the physical arm Regardless of whether or not you can "feel the Etheric Arm" next give the **mental command "BODY RELEASE NOW-RIGHT', while imagining that you and your Etheric Body are slowly standing up and moving out to the RIGHT (NOT LEFT) side of the physical body** Imag ne that you in your **"Pale-blue-gray spacesuit" are now moving to a different position in the room**, then out the door See how far your attention can fo ow the Etheric Body before you lose track of its imagined projection.

13. Next, try to **"SHAPE-SHIFT"** In your Pale-blue-gray spacesu t, imag ne that you are walk ng back to **stand beside the RIGHT side of your physical body** Unlike the physica body in ts present condition the **Etheric Body has more flexibility of form** than that currently available on a phys cal level. Realize the **YOU ARE THE SPACESUIT** t is the form that your consciousness carries in communion with the Etheric Body just as your physical body is the form your consciousness carries when you are n biological D-3 focus. **Choose a FORM** an object, plant animal etc. and imag ne

that your **Etheric Body is now a pale-blue-gray "Cloud" of energy, hanging in the air to the RIGHT** of your physical body, awaiting your command as to what form it will become. **Hold in mind the image or intention of the form you wish to create;** then **visualize or imagine** that your Etheric Body has complied and "**turned itself into the form**" as the **pale-blue-gray form now hangs in the air at the RIGHT side of your body**. Try to feel the sensation of **BEING this form**, and of **moving AS this form**, across the room etc. With practice **Etheric Body perception will progressively "turn on"** and this exercise will take on the very REAL experiential quality of **Etheric Body D-3 Mental Plane Projection**

THE FLAME OF EIROS & THE SILVER SANCTUM

Activating *the Density-1* Celestite *Crystal and* the Eiros Flame

Through activation of the dormant internal **Flame of Eiros** within the Density-1 physical body Templar **Dimensional Lock-3 Seal** releases allowing the **D-3 Mental Body** to expand into the **Density-1 Radial Body** causing the natural Pale-Silver-Blue Eiros **Celestite Crystal** to activate within the **"Pale-Silver-Blue Cord"** below the Navel. Activation of the Celestite Crystal causes the natural **Eternal Eiros Silver Sanctum Flame** to activate within the Density-1 Radial Body and Etheric Body Template surrounding the Density-1 Mental, Emotional and Physical body structure. Activation of the Eiros Flame causes the **"Eternal Emerald Flame of Amoraea"** Eckasha capsule to activate within the outer D12-Reion-Field of the **Density-1 Radial-Body**. (Note: The Eternal Flame *of Amoraea* wave-field of the Radial Body appears to D-12 HSP as an **Emerald blue-green** Eckasha Flame due to activation of the **full Deep-Azure-Blue Manu Current** in the outer D-12 Radial Body Reion Field, the **Pale-Gold ManA Current** in the middle D-11 Radial Body Trion Field and the **Pale-Violet-Blue EirA Current** within the inner D-10 Radial Body Meajhe Field.) Activation of the **Density-1 Eiros Flame** causes the natural Density-1 Radial Body D-12 Manu-Reion Field Divine Blueprint to activate rapidly **clearing Radial Body distortions** and restoring the natural memory matrix while **opening the Radial Body to the Inner Ecka Center Flame** of our Universal Veca system. Through the Eiros activation the **D-7 Eiron Field and D-5 Dion Field** of the **Density-1 Eiros** inner Radial Body level merges to form the D-12 Reion Field **Silver Sanctum Flame Eckasha Capsule** within the Density-1 Radial Body. The Eiros **Silver Sanctum** capsule expands within the **Density-1 Radial Body** around and through the 3-Dimensional **Hova Body** as the **Eternal Emerald Flame of Amoraea** forms around and through the Density-1 **Radial Body**. Together the Silver Sanctum and Emerald Amoraea Flames form a **3-Dimensional Radial Body "Eternal Flame" Eckasha Capsule Trion-Meajhe Field with a D-12 Silver Sanctum core** around the **Density-1 Hova Body**. The Eternal Flame prepares the 3 dimensionalized bio-field levels of the Density-1 Hova Body to merge for **biological Density-1 Star Gate Ascension passage** with release of the corresponding Density-Lock Veca Seals.

The Density-1 Eiros activation initiates opening of the natural Silver Sanctum **Neutron Window surrounding the Density-1 body and within the Etheric Body Field** (creating the "Silver Spacesuit"), and the minute **Neutron Windows within the nucleic core of Density-1 atoms** preparing the body for natural Merkabic transmigration through atomic transmutation. Eiros activation initiates **permanent opening** of the natural **Density-1 Pale-Silver-Blue Cord** below the navel, allowing the Density-1 D-3 Mental and D-2 Emotional Bodies to merge for direct expansion into the Radial Body and through the Density-1 Void for accelerated development of clear **D-4 Astral Body, D-5 Soul Body and D-6 Angelic Body travel**. Activation of **DNA Strand Templates 4-5-6** and corresponding **Fire Codes** (for strand braiding) is rapidly expedited accelerating the rate of natural **Soul Integration** while progressively awakening **Density-1 reincarnational memory**. Accelerates and progressively harmonizes the **awakening, healing and integration** of Sub-personality Fragments, Probable Selves, Elementals and Shadow Selves from the D-1/D-2 **Sub-conscious Mind**. Eiros activation also initiates **permanent opening** of the natural **"Dedicated Communication Lines"** between the Density-1 self and the Density-2 Soul Body Archetype dentity through which conscious contact and communication with the personal Soul Self and **Density-2 Guardian races** can be more rapidly and easily developed.

Before *Density-Lock* Veca Seal release the Density-1 **Eiros activation** progressively **clears & transmutes the unnatural "Metatronic 4th Black Heart of Anubis"** ("Warden of the Underworld Epsilon Gates") **Implant** in the ***E-Umbi,*** below the navel. (The E-Umbi is the point in the physical body where the natural Radial Body "Silver Cord of Life" attaches to the embodied Kathara Grid and physical Elemental-Atomic structure, and from which the physical fetal umbilical cord originally emerged). Clearing of the Anubis Metatronic Implant **prevents the "Flaming Blue *Sword*" D-13R Wesedak Current from causing Monadic Reversal in DNA Strands 1-2-3 of the DNA Template**. The Eiros Activation also **progressively dissolves the inorganic electro-static NET in the Density-1 Radial Body**. Clearing the NET prevents the unnatural transfer of the Density-1 Mental Body to the Shadow Body during sleep & projection, and provides the physical body with sufficient frequency holding capacity to **sever Density-1 Shadow Dancer Cords and to heal the personal Density-1 Shadow Body**.

Once the corresponding *Density-Lock* Veca Seals are fully released, the Density-1 Eiros Flame Silver Sanctum and Emerald Flame Amoraea capsule allow for safe, physical **Star Gate Ascension** passage of the Density-1 physical body through the Star Gates and Density-1 Void, for biological ascension to **Density-2 via Hallah Phase Eckasha Merkaba Vehicle** activation. As Density-2 Star Gate passage occurs the Density-1 and Density-2 bodies and consciousness merge to become the **Density-2 Semi-Etheric Matter Taran Body**.

Technique-3: The Eiros Flame and the Silver Sanctum

Activating the Celestite Crystal & the Etheric Body Eckasha Seal

(Eiros Flame Activation Level-2)

Purpose: Once the E-Umbi passage below the navel has been opened through release of the Celestite Crystal of **Dimensional Lock-3** the D-3 Mental Body field **opens into the Radial Body Eiros Field**, causing the polarized D-5 / D-7 Eiros to de-polarize to a **D-12 Manu Reion Field**, the Density-1 body is prepared to receive the frequencies of the **fully activated Celestite Crystal** and the Density-1 Eiros Flame Eckasha Body, or **"Silver Sanctum"** Activation of the Eiros Flame **opens the "Many Windows" surrounding the Density-1 Hova Body** which will begin activation of the **Density-1 Manu Windows** in the **nucleus of every atom in the body**

Preparation ***Eckasha Maharic Quick Seal*** (Technique 1) to activate D-12 Maharic Current Also, you may choose to use a piece of **Celestite Crystal** in corresponding steps of this technique to amplify the frequencies generated **Astral Awake, Aware & Able** (Technique-2) release Dimensional Lock-3 Seal between D-3 Mental Body and Density-1 Eiros Field to bring D-1 Atomic Etheric Body out of biological phase-lock.

Procedure

1. Relax and breathe slowly while **focusing the mental body attention on the E-Umbi point** just below the navel Imagine your **consciousness as a spark of pale silver Maharic light, placed within the Celestite Crystal Sphere within the E-Umbi point.**

2. With your **attention focused in the Celestite Crystal** at the E-Umbi give the **mental command "Shift NOW"** to the **Etheric Body vehicle**, while **imagining your Etheric Body moving out to the RIGHT of your physical body** with the **"Silver Spark"** of your consciousness placed within the **brain center Pineal Gland of the ETHERIC Body** From the Etheric Body the Eiros Flame within and surrounding the body can be activated

3. Using the vertical breathing rhythm of running the Maharic Current within your physical body, you will move the Silver Spark within the Etheric Body **INHALE Maharic Current** up from Earth core and into the **4th (Heart) Chakra. In one breathing motion, EXHALE the Maharic Current into the Heart Chakra; then direct its flow downward to the Celestite Crystal** at the E-Umbi Take **2 more Maharic Breaths**, using each **EXHALE** to expand Maharic Current into the Heart Chakra then down into the **Celestite Crystal** Following the last Maharic Breath, **INHALE Maharic Current up from Earth core** directly into the **Celestite Crystal** at the E-Umbi **INHALE DEEPLY with your attention focused on the Celestite Crystal then EXHALE forcefully into the Crystal, while imagining that the Celestite Crystal moves with the breath into the E-Umbi CORD and to the RIGHT**, passing from your physical body into the **E-Umbi of the ETHERIC Body** Imagine that the pale-silver-blue Celestite Crystal is now nesting comfortably within the **E-Umbi point of the Etheric Body**

4. Bring your attention to the **pale-silver Spark at the Pineal Gland of the Etheric Body. INHALE** in the physical body then **EXHALE forcefully** while imagining that the **Silver Spark "rides the breath current"** moving rapidly **down from the Etheric Pineal into the Celestite Crystal at the Etheric E-Umbi point**. When the Silver Spark intersects with the Celestite Crystal a momentary **etheric "flaring" occurs**, as the **Celestite Crystal bursts into a small pale-silver-blue EIROS Flame about 1 ½ " high within the Etheric Body E-Umbi. INHALE, then EXHALE**, and imagine that the **pale-silver-blue Eiros Flame spreads throughout every atom of the Etheric Body** turning the pale-blue-gray Etheric Body into a brilliant, **glowing, shimmering Pale Silver Blue Etheric body** that glows and gently **pulses**, sending **Rays of Pale Silver-blue energy outward through and beyond the Etheric Body** into the bio-field with every pulse.

5. Focus your attention on the **small Eiros Flame at the Etheric Body E-Umbi and INHALE** using the inhale breath to **draw the Eiros Flame through the E-Umbi CORD and into the physical body E-Umbi point. EXHALE forcefully** using the Exhale breath to **push the Eiros Flame down to the 13th Chakra at Earth's core** When the **Eiros Flame enters the Chakra Seals of Chakra 13, again the Eiros Flame momentarily "flares", filling every atom in the physical body with Pale-silver-blue Eiros Maharata Divine Blueprint frequency** SENSE the release of the EIROS Wave, or "E.WAVE" within the physical body as a **gentle "ripple"** of energy that moves simultaneously in all directions, throughout the physical body

6. With **attention focused on the Eiros Flame at Chakra 13, INHALE DEEPLY** and **draw the Eiros Flame upward to the 4th (Heart) Chakra** Focus your **attention on the INSIDE of the Eiros Flame, then EXHALE forcefully**, using the Exhale breath to **rapidly expand the Eiros Flame from within the Heart Chakra and outward through the body, until the Eiros Flame is fully expanded around the entire body and outward several feet into your Auric field**, forming the **Pale-Silver-blue Eckasha "Inner Sanctum" body Capsule**

7. Direct your **attention back to the ETHERIC Body positioned to the RIGHT** of your physical body **INHALE, drawing the Etheric Body horizontally back into the physical body** When the 2 bodies rapidly and fully align, the **activated Eiros Flame Eckasha Capsule will momentarily "flare"**, as the Eiros Flame phase-locks with in both the Etheric and Physical bodies The Eckasha Seal Eiros Flame and the Celestite Crystal are now fully activated The Celestite Crystal will remain in position at the Etheric Body E-Umbi, until you next use the Technique-1-2-3 sequence to re-activate and amplify the **Eiros Flame activation, at which time the Celestite Crystal will again be found on the granite slab within the "Sleeping Room" at the bottom of the 22 Step Spiral Staircase.**

The Density-2 Amoraea activation initiates opening of the natural Silver Sanctum **Ionon-Neutron Window surrounding the Density-2 body and within the Density-2 Etheric Body Field** (creating the Density-2 "S ver Spacesuit"), and the minute **Ionon-Neutron Windows within the nucleic core of Density-2 atoms** preparing the body for natural Merkabic transmigration through atomic transmutation Amoraea activation initiates **permanent opening** of the natural **Density-2 Pale-Gold Cord** n the **Thymus Gland** a.lowing the Density-2 D-6 Menta. and D-5 Emotional Bodies to merge for direct expansion nto the Dens ty-2 Radial Body and through the Dens ty-2 Void, for accelerated development of clear Density-3 **D-7**, **D-8** and **D-9 Oversoul body travel** Activation of **DNA Strand Templates 7-8-9** and correspond ng **Fire Codes** (for strand bra ding) is rapidly expedited accelerating the rate of natural **Oversoul Integration** while progressively awakening **Density-2 Planetary reincarnational memory** Accelerates and progressively harmonizes the **awakening, healing and integration** of Density-2 Sub-personality Fragments, Probable Selves, Elementals and Shadow Selves from the D-4/D-5 **Astral-Archetypal Minds** Amoraea activation also initiates permanent opening of the natural **"Dedicated Communication Lines"** between the Density-1 Incarnate Density-2 Sou and Density-3 Oversoul identity through which conscious contact and communication with the persona Soul and Oversoul Selves and **Density-2 and 3 Guardian races** can be more rapidly and easily developed.

Before *Density-Lock Veca Seal* release the Density-2 **Amoraea activation** progressively **clears & transmutes the unnatural "Metatronic Apollyon-666-Seed-Atom" Implant** ("Warden of the Pleiadian Gates") n the Thymus & Heart Chakra. Technique-4:
Commanding Silence from the "Inner Throne of Power"
(Amoraea Flame Activation Level-1)

Purpose: To create a calm, clear space in the D-3 Mental body, and quiet the "inner chatter" of Sub-personality Fragments, Figments, Elemental Attachments and Shadow that emerge from the D-1/D-2 Sub-conscious Mind during DNA Template activation and spiritual integration. Empowering the relationship between D-3 Ego and the Higher personal Inner Christos to strengthen the Ego's ability to reclaim its naturally intended power as co-director and healer of the sub-conscious forces. Frequent use of the full technique will over time create a "**Sub-conscious healing field**" within you that functions on "Auto-pilot" as a Subliminal **Self-healing Empowerment Program** that progressively **imbeds within the DNA Template** to heal the distorted Template imbedding of the Shadow.

Preparation: Eckasha Maharic Quick Seal Activation (Technique-1). To activate D-12 Eckasha Code amplified Maharic Current and strengthen bio-energetic field integrity. The "**Silver Sanctum Sequence**" of "Astra Awake, Aware & Able" (Technique-2 Eiros Flame Activation Level-1) and "The Eiros Flame & the Silver Sanctum" (Technique-3 Eiros Flame Activation Level-2) must be done previously **at least one time (in this lifetime)** to engage the Silver Sanctum-Eiros Flame Activation. The activated Density-1 Eiros frequencies are required to interface with the Amoraea Gateway featured in this, Technique-4.

1. After running the Eckasha Maharic Quick Seal, close eyes and breathe slowly for a few moments. Move your mental attention to a **point of focus at the top of the breastbone**, at **Chakra-8**, just above Chakra-4 and below Chakra-5, below the clavicle. Beneath this position on the physical body lies the **Azur-A**, the tiny "**central control center**" for the embodied Kathara Grid Template, within the base of the Thymus Gland. With attention focused in the Azur-A, imagine that a deep-Azure-blue **Azurite Crystal Sphere** is located within the Azur-A, within the Azurite Crystal lies the "**Throne of Power**", the Center Point of the embodied **Ecka God-Seed**, through which the **Eternal Flame of Amoraea** embodies.

2. Imagine now that your awareness is a **Spark of Pale-silver Maharic Light**; **AS** this Spark of Maharic Light, imagine that you are **traveling into the center of the Azurite Crystal Sphere** to the **Gateway of the Amoraea Flame of Eternal Christed Love**. Imagine the **Amoraea Gateway as a tiny Maharic-Silver-Egg**, the cosmic **Amoraea Egg**, encased within a **deep-Azure-blue spherical standing-wave**. Imagine that you, as the eternal **Maharic Spark**, move to the center of the Amoraea Egg within the Azurite Crystal. You have entered the place of your **Eternal Birthright**; you have entered the **Hallowed Ground** of your original **Divine Heritage** as a living expression of the ONE God-Source. The Amoraea Egg, within the Amoraea Gateway and Maru Azurite Flame, is the **Eternal STILL POINT** through which the "**Still Small Voice of the God-Self Within" speaks**. Visualize or intend that **you, as the Spark of Maharic Light, are now positioned within the *Amoraea Gateway***, a Pale-silver Spark of Light encased within the Pale-silver Amoraea Egg, within the Eternal Azurite Flame of the deep-Azure-blue Azurite Crystal Sphere, the Inner Ecka Center-point of Creation. **Here, all things are eternally still, calm and peaceful**. Here is the **SANCTUARY WITHIN: the INNER TEMPLE OF Khem-a-Lo-Ha-Tea, the Eternal "Safe Ground" and Perpetual Guardian of one's personal, eternal, DIRECT relationship to God-Source**.

3. **INHALE Maharic Current up from Chakra-13 Earth core and into the Azurite Crystal center, directly into the Amoraea Gateway** through the Azurite Flame and **into the Amoraea Egg. EXHALE gently, filling the Amoraea Egg with Maharic Current**. Imagine now that the **Amoraea Egg has begun to awaken**, responding to your intention and desire to return to the AT-ONE-ment with your God-Self. **The Amoraea Egg now fills with pulsating Pale-silver Maharic Light, and expands, growing larger and larger, extending outward to encase your physical body in a beautiful, shimmering Egg of Eternal Life**. Imagine now that you can **SENSE the living presence of God-Source and your personal God-Self EVERYWHERE around you. You are encased within its eternal love, mercy,**

protection and Divine Understanding Imagine that you can **see and feel the Amoraea Egg fully encasing your physical body** and that an **Azurite Flame** of deep-Azure-blue **extends into the room, fully enshrouding you within the Amoraea Egg capsule** Extend your imagination to remember that beyond the Azurite Flame is the **Azurite Crystal Sphere; SENSE the Azurite Crystal as extending 20 feet or more around your physical body in the room. You have brought your "Throne of Power" directly into the 3-D world now; you ARE the STILL POINT NOW** You have brought the **Amoraea Gateway** directly to the doorstep of D-3 finite creation **From this point of eternal power and love you can heal all, understand all, love all, co-create all. Within the Amoraea Egg you and God-Source are one. You ARE NOW your GOD-SELF**

4 **Breathe slowly and gently and FEEL THE TRUTH OF YOUR GOD-SELF** .HERE NOW ETERNAL **FEEL the TRUTH of your PEACE**, acknowledge and fully affirm this with strength repeating OUT LOUD the following **"DECLARATION OF THE GOD-SELF" SPEAK THE WORDS OF YOUR TRUTH NOW "I AM PEACE NOW" "I AM AT ONE WITH ALL" "I AM IN A SAFE AND LOVING UNIVERSE NOW" "I AM LOVE AND I AM LOVED" "I AM INNOCENT" "I AM HEALED" "I KNOW MY ETERNAL TRUTH NOW" "I AM MY ETERNAL TRUTH NOW" "I AM ONE WITH GOD NOW" "I EXPRESS AS GOD NOW" "AND SO IT IS!"** Repeat this affirmation of the **Eternal Truth of the God-Self** until you begin to **FEEL THE REALITY and FREQUENCY of the words** Speak this TRUTH to **every atom and cell in your physical body** Speak this truth **strongly and continually until you have generated a critical mass of energy and intention** that is strong enough to **call to silence, surrender and healing all shadow voices** of fear and limitation **Repetition of this truth will build the reality of its strength into a tangible, impermeable living wave form of Eternal Truth, Love and Power**

5 **INHALE deeply** drawing Maharic Current up again to the **Azur-A Point** at the Thymus Gland **EXHALE Maharic Current into the Azur-A and FEEL the Maharic Current rapidly expand to every atom and cell in your physical, emotional and mental body** The Maharic Current is the **CARRIER WAVE** through which your **affirmation of ETERNAL TRUTH** is carried into every part of your being **Notice now if there is any tension, fear, discomfort, unease, mental-emotional-physical distraction occurring within your being. Pay attention to how your BODY feels, and SEEK OUT areas of self that are resisting the SPOKEN TRUTH of the GOD-SELF WITHIN** When you locate an **area of resistance, focus your attention directly upon it**, and **mentally RESTATE your DIVINE CONVICTION** as follows. **" I AM THE VOICE OF PEACE" "I AM THE VOICE OF KNOWING" ..."I AM THE VOICE OF GOD-SELF" "I NOW ADDRESS THEE, AND SEND TO YOU NOW; FROM MY UNLIMITED STORE OF ETERNAL POWER AND LOVE, ANY HEALING THAT YOU MAY REQUIRE"** After mentally addressing and sending the Divine Intention of Healing and Love to the area of resistance within you, again **INHALE Maharic Current up into the Azur-A** Point **EXHALE the Maharic Carrier Wave into the Azur-A**, allowing it to **"carry your stated gift of healing and love"** to every area of your being Imagine that you are **directing part of the Maharic Carrier Wave directly to the discovered areas of resistance** Breathe **several Maharic breaths into and through the Azur-A "Throne of Power"**, sending the gift of love and healing to all dis-harmonic energies within you

6 Take a **DEEP INHALE of Maharic Current into the Azur-A and HOLD THE BREATH** as long as comfortably possible, while **mentally affirming: "I DECREE THE FOLLOWING INTENTION FROM THIS, MY THRONE OF POWER". EXHALE forcefully and FEEL** your entire body, every atom every cell poise itself in **readiness to receive Divine Instruction. Mentally or out loud affirm the following: "I RETURN NOW TO MY WORLD OF INTENTION, IN CALM AND CENTERED PEACE AND PRODUCTIVITY". ..."I COMMAND NOW THE SILENCE OF THE ETERNAL GOD-MIND" "I EMBRACE NOW THE STILLNESS WITHIN" "I GO FORTH NOW IN JOYOUS VICTORY" "SO AS IT IS DECREED, SO AS IT IS DONE!"**

7 **INHALE Maharic Current directly from the Azur-A, then EXHALE "horizontally"**, using the Exhale breath to expand a **Maharic Wave DISC outward from the Azur-A**, extending its perimeter to touch the inside of the **Amoraea Egg** around your physical body **INHALE**, and imagine that the **Maharic Disc is now contracting** with the Inhale breath, drawing the **Amoraea Egg, Azurite Flame and Azurite Crystal back into the Azur-A. Wesedak black hole races made the NET Machine to steal life force currents from our living system to sustain their Universal race that lost its ability to draw natural life force currents when it fell in black hole, finite imploding universe status. Earth went "online" with the NET in 25,500BC Atlantis. The NET artificially sustains life in Wesedak via artificially generated Reversed-D-13 Current called the "Flaming Blue Sword" made from stolen D-6R Phantom & D-7R Wesedak current, this provides their universe with an artificial Life Force Shield to create Electro-static hologram "Living-dead" bodies by "absorbing" the Shield & life force of living systems. Since 25,500BC Earth life forms have had Attachments called Wesedak Shadow Dancers who feed from & try to subliminally affect us via attachment to our bodies through our inorganic NET Shadow Bodies. Blue Sword current links all planets & people via Shield implants called the "4 Black Hearts" that activate to suck the living body into Wesedak black hole for fragmentation & assimilation. 3 "Wesedak Hearts" activated Earth's Temporal 23,105,947BC the 4th March 23, 2002 to begin Earth's planetary "Fire Sword" initiation

Elemental Attachments

Elemental Attachments are trapped elemental spirit beings from the **Planetary Elemental Field in Phantom Matrix** that are drawn into the bodies and bio-fields of humans, animals, plants minerals and elements from the living Time Matrix through the **Shadow Body** and inorganic **Metatronic Wesedak Universal Shield Implant systems** Elemental Attachments do not organically belong within the biology of living matrix life forms The living forms to which they attach via **Shadow Body Shield Bonding** serve as a prison for the Phantom Elementals trapped within it, as they cannot evolve to reclaim their original organic Divine Blueprint while their reversed-matrix templates are **Metatronically Bonded** to the reversed-matrix Shadow Body template of living matrix forms. Living matrix forms carrying Elemental Attachments within the Shadow Body are likewise trapped within this unnatural relationship of Metatronic Shield Bonding Elemental Attachments **feed off the life force energies of the living and Shadow Body, causing progressive Shield and DNA Template damage and miasmic buildup** within the living matrix form, that accelerates deterioration and disease of the natural Hova and Radial Body systems **Phantom and Wesedak black hole races feed life force energies off of Elemental Attachments** and **use them as a vehicle** through which our organic Shield Templates can be progressively eroded, fragmented and "broken down" for assimilation as raw life force into the Phantom and Wesedak systems (To use an analogy, Wesedaks use Elemental Attachments as mutated "enzymes" in an anti-christaic energy-vampiring "digestive tract")

Figment Attachments

Figments are "thought-form beings with a life of their own", created within the dimensional frequency bands of the living and Phantom Matrices as **thought-form constructs** and **living electromagnetic Ray projections** by various **identity fragments** within the Atomic-etheric, emotional-elemental, mental and Shadow bodies of humans, animals, planets and elementals Figments are sub-consciously discharged into the planetary dimensional unified field, atmosphere and matter base, creating an **invisible, chaotically arranged "mass thought-form life field" that "hangs in the atmosphere"**, sometimes for thousands of years The chaotically organized Shield templates of Figments easily attach to the chaotically arranged template of the Shadow Body and draw into the Shadow Body randomly, as we "pick up the Figments of other people's imaginations" Figment Attachments feed off the physical, emotional and mental energies of the body and remain as viable "independent life-forms" until they are freed from the Shadow Body to which they attached Figments are **formed through the Shield Template and consciousness fragmentation** caused by the reversed-matrix template coding of the Metatronically created **Shadow Body** Phantom and Wesedak races use Figment Attachments, as they use Elemental Attachments, as tools for "energy stealing" Both types of Attachments serve as the **manifest, tangible link between the living and Shadow Bodies**, to which Wesedak races can anchor **unnatural energy-cord "feeding tubes"** through which life force can be forcibly drawn from the planet and its life forms via the **atomic and elemental matter base** Once freed from their Metatronic Bond, the Shield template of Figment Attachments naturally dissipates and their units of consciousness return to the dimensional unified field from which they originally emerged

Astral and Dream Disabilities, the Shadow and Attachments

Shadow Body Projection: D-3 Mental Body, D-4 Astral Body and D-5 Soul Body projection and their resulting "OOB" experiences are natural states of bio-spiritual evolution that occur automatically through natural activation of DNA Strand Templates 4-5-6 The inorganic state of *Shadow Body Projection*, which has been a problem for earth life forms since 25,500BC, occurs when the consciousness becomes ensnared in the artificially created Radial Body NET and is transferred into the Shadow Body reverse-coded template and its reversed artificial Radial Body electro-static field Once ensnared in the Shadow Body field 2/3 of the D-3 Mental Body consciousness is transferred into the Phantom matrix black hole system via the Density-1 Void and NET The remaining 1/3 of the D-3 Ego remains stuck

n the higher frequency bands of the D-3 Menta Plane, unable to expand into natural higher-dimens onal projection, experiencing fragmented D-2 E ementa-Emotiona Plane sub-personal ty "dream dramas" or intentional y contrived Mental Body holograph c projections from fallen angelics of the black hole systems The artificia reversed electro-static field "NET" surrounding the Shadow Body causes the natural Pale-Silver-Blue project on Cord below the navel to temporarily split into two Cords One Cord holds the D-12 Pale Silver Reion Fie d connection to the natural outer Radia Body Reion Field Divine Blueprint; this cord is "turned off" or rendered dormant The other Cord holds the D-11 Dark Silver frequencies of the Radial Body Trion Field and the D-10 Dark Sapph re Blue frequenc es of Radia Body Meajhe Field n reverse polarization The unnatural polarization of the Projection Cord causes the Dark Si ver-B ue Cord to draw 2/3 of the D-3 Menta Body out of the a gnment with the remaining 1/3, transferring the "h -jacked Mental body" into the Shadow Body NET for transition into the Phantom matrix black hole The portion of the D-3 Mental Body with n the Shadow Body Template remains tethered to the Physica -Emotiona bodies via the Dark Silver-B ue Cord, wh ch allows Phantom Matrix holographic memory inserts and reversed-matrix frequency to be translated back to the body via the DNA Template

If the Shadow Body Cord becomes severed from the physica body Density-1 Lock Seal, the physical body d es, while the D-3 Mental Body consciousness remains spl t in two Two thirds of the split D-3 Mental Body remains in the Shadow Body and fu ly descends into Phantom matrix black hole and perpetually polarized static evolution cycles. One third of the D-3 Mental Body remains "stuck" in the higher sub-frequency bands of the D-3 Mental Plane as a "ghost", unable to hold enough frequency within ts Shield Template to undergo natural Bhardoah Rad al Body expansion to exit the D-3 Menta Plane Such "ghosts", unab e to remember the Shadow Body events, perceive the upper D-2 Elementa-Emotiona Plane and the r own subconscious mental-emotional holographic projections, often they do not rea ze that their physica bodies have died, and they subconscious y create holograph c projection s of their orig nal living environment and dramas They often attach themselves to the D-3 Mental Body fields of living loved ones or ocations with wh ch they were emotional y affiliated in life, not remembering "where else to go", or seeking resolution to earthly issues left unsettled Often Guardian "Way-Showers" whose consc ousness is stationed n the D-4 frequency bands will assist the ghost self by creating a temporary D-3/D-4 frequency bridge through which the trapped D-3 Mental Body ghost can expand into its orig nal Radial Body for passage into the natural D-4 Astral Body Before the ghost self can fully ascend out of Density-1 reality fie ds, it must re ncarnate back nto the same planetary drama from which t emerged in order to reclaim its miss ng "Shadow Self" identity and the missing 2/3 portion of its origina Divine Blueprint shield template It is usually more successful, and much eas er, to "hea and reclaim the Shadow" wh le the physical body remains alive, un ess there s excessive biologica or psycholog ca damage to the l ving Density-1 body Maharic, Node and Veca technologies naturally direct the physiology and mechanics of the personal sh elds, DNA Template and Merkaba progressively creating natura protection and eventual immunity from Shadow Body manipu ation for safe, natural OOB projection These technologies can also be used to progressively heal the Shadow Body, prevent further black hole manipu ation and rapidly accelerate natura DNA Template activation and spiritual ntegration processes

"Hit Teams": H t Teams are a more advanced specialization of interdimensiona manipu ation squads from black hole R Ts (Remote Interactive Teams) H t Teams are composed of Fallen Ange ics & trained Il uminati earth humans that are ski led n man pulat.ng with n the Density Voids between the black hole systems and our living T me matrix Hit Teams se.ect human animal or environmental targets in the liv ng matrix for "energy feeding", "Over-shadow Manipulation" or d rect bio ogical possession Hit Teams primarily consist of groups of fal en beings, stationed at select interface points between the black hole systems and ving systems, who are posed as **"guards" of the NET** When human consciousness begins natural expans on into the personal and planetary Radial Bodies via DNA Temp ate activation or physica death, Hit Teams attempt to ensnare the consciousness in the NET and transfer t to the Shadow body for forced transit nto Phantom matrix.

Hit Teams are the "Directors" of the ower level Tag Teams Hit Team members are skilled n creating fa se memory and fantasy distract.on holograms within their target's Rad al Body D-3 Mental Body and D-2 E emental-/Emotional Body to ure the consciousness into submissive non-resistant black hole a ignment blocking the natural connection to the persona Rad al Body and higher spiritual consciousness The primary objective of Hit Teams is to harness a cont.nual supply of l fe-force fuel from the ving matrix to feed their finite black hole systems in order to postpone ts inevitable eventual implos on They are concerned w th larger issues of "harvesting" selected humans and groups to gain raw life force energy and desired genetic templates to enable them greater access to the living l fe force currents of the planetary, galactic and un versal Templar star gates They often "stage" Radial Body holograph c dramas for people leaving Earth through death, seduc.ng the human through false spiritua dramas concocted from the human's own mental body symbo sm, into compliant passage to the black hole system Hit Teams also regularly "harvest" plant anima and elementa consciousness, drawing the unsuspecting identities into the black ho e systems via the NET Beings pulled into Phantom Matrix can often be retrieved back nto the natural evo utionary cycles of the ving time matrix Be ngs pu led fully into the Wesedak black hole system undergo full fragmentation and chaot c re-assembly of their scalar-shie d bluepr nt as it is bonded into an inorganic Shield and DNA Template which a fa len Wesedak being then fully possesses while assimilat ng the orig nal consciousness as raw l fe force fuel Such beings cannot be rescued from the Wesedak black ho e system. The origina Shie d Template Divine B ueprint has been destroyed and used as "spare parts", bonded into an artificial scalar temp ate bu lt upon the mathematical coding of the Wesedak system the origina template cannot be regenerated once artificial Wesedak template bonding occurs.

"Sleeping Dreams" Sleep state dreams, as they are known by contemporary human consciousness are an norganic phenomenon unnatura to human design that result from DNA Temp ate NET d stortions Sleeping Dreams occur when the D-3 Mental Body consciousness enters its natural expansion cycle, in which the consciousness would normally enter D-4 or higher expansion Presently, DNA Temp ate distortions cause the D-3 Mental Body to "split into two fragments" as the consciousness enters expansion The D-3 "Ego" se f "loses track of itself" as the split begins and the natural E ros "stream of consciousness" momentar y "shuts off" in the DNA caus ng the Ego to "fal asleep" to then "reawaken" in the "Dream State" When the Menta Body splits, 1/3 of ts consciousness gets "stuck" within the D-3 Mental Body F eld, while 2/3 of the consciousness temporarily enters the inorgan c "Shadow Body" instead of the natura Astral Body The awareness stuck in the D-3 Mental Body experiences the repressed D-2 Emotional Body content of the Sub-conscious mind, Sub-personality fragments & their dramas and the D-2 Elemental K ngdom as the "dreamscape" When 4th Strand activation begins pieces of reincarnationa data will also emerge The inorganic "Shadow Body", carrying 2/3 of the consciousness, expands into the unnatural Radial Body NET electro-static d stortion field, through which t passes through the Density-1 Void at an unnatural angle, emerging in the Phantom Matrix black hole system In the Phantom Matrix Density-1 Void, the Shadow Body is temporarily merged with a fallen angelic identity, which takes on the mathematica impr nt of the DNA Template to form a "Phantom Body Replica" The fallen angel ic will use this body-replica mprint for dramas in Phantom Matrix and the Dens ty-1 Void Such dramas often involve "stag ng" contrived events in the Phantom Void to manipulate other visiting Shadow-se ves of humans who are entering 4th DNA Strand activation through which Shadow-journey memory wil beg n to be ava lable to the waking consciousness

While Phantom "Template Borrowing" occurs the organic Shadow-self experiences the holographic projections of the Phantom Matrix D-3 Mental Plane The experienced, frequently intentionally manufactured, phantom holograms become mathematically encoded n the Shadow Body DNA Template as memory imprints carrying reverse-matrix coding, which merge w th the physica -chemical DNA upon the Shadow's return to the body n awaken ng REM (rapid eye movement) sleep occurs when the reverse-coded Shadow re-merges with the portion of the D-3 consciousness that had remained "stuck" in the D-3 Mental Body The d sharmonic tension created n the DNA Temp ate, as the 2/3 Shadow reversed-matrix coding blends with the encoded dream memory of ts 1/3 counterpart, causes a chemical-hormonal response within the bra n-body system that creates the physical phenomenon of REM and associated brainwave patterns. When the D-3 Mental Body has reintegrated and synthesized its encoded memory into the DNA Temp ate REM stops and the consciousness beg ns contraction of focus nto the physical body for awakening While Strand-4 distortions remain, Shadow-self experiences in the Phantom Matrix D-3 Mental Plane wil be misunderstood as "Astra Projection" If DNA Template activation progresses to Strand-5 on a dominant reverse-phantom coding the Shadow-self wi l reta n 2/3 of the Mental Body energy and expand through the Dens ty-1 void into the Phantom Density-2 D-4 Astral F eld, unaware of the rea ities of the Shadow-self mutation

People with ess 4th Strand DNA Template distortions who have "sma ler Shadows", and those working with DNA Temp ate Maharic, Node and Veca technologies, wil be able to eventually "push through the void NET" to rega n organic Radia Body integr ty through which natura Astral Projection will eventually emerge When natura Strand-4 activation beg ns, coherent near dream recall would normally emerge and the Ego would begin to "sh ft" consciousness to the D-4 Astra state rather than "losing tse f and "fall ng" asleep to "dream" As the D-3 Mental Body beg ns natural expansion nto the Dens ty-1 Radial Body Trion-Mea he-Re on Field through Strand-4 activation, the consciousness will first develop abil ties n coherent l near dream recal then luc d dreaming fo lowed by simultaneous uc d dreaming and D-3 Mental Plane projection Fo owing several stages of "motor skills" lessons orchestrated by the organ c higher dimensional stations of consciousness the D-3 Mental Body will merge with its

Trion-Meajhe-Reion Field "Astra Body" vehicle to begin exploration of the D-3 Mental Plane As Strand-5 activates, the Astral Body will expand to D-5 consciousness to perceive the D-4 Astra Plane as "physica ly man fest" and the Ego wi begin to have conscious contro in in tiat.ng Astral Projection from a waking state of consciousness. Once the Astral Body awakens and becomes mobile, it will often respond to D-3 Ego thoughts "on ts own", taking these thoughts nto actions within the D-4 frequency bands beyond the Ego's notice This power can be harnessed by the D-3 Ego mind while simu taneous y being fully awake and engaged n D-3 Menta Plane activities In work ng co-creatively with the personal higher identity, one can learn to heal the Shadow and direct the natural Astral Body self to create desired manifestations within the D-3 Mental, D-4 Astra and D-5 Archetypal Planes Intended thought directed through the Astra Body creates thought-form holograms that the Ego w l "run nto as physica ly real" as the DNA Temp ate continues natura act.vation and the D-3 Ego "moves nto the future" to meet ts creations

"Day Dreams" When the D-3 Menta Body occupies its attention with the imaginative play often referred to as "Day Dreams" or "Fantasies", the Ego is, n actuality, creat ng " magination" is highly misunderstood in contemporary times Day Dreams are more characteristic of the natura state of "dreaming" than is the norgan c phenomenon of Night Dreaming In Day Dreams the Eiros "stream of consciousness" remains coherent and the Ego does not "blank out" and ose itself as in Night Dreaming "Day Dreaming" s "3-D holograph c thinking", the ab lity to experience thoughts in the direct audio-visua form characteristic to " magination" or "creative visualization" emerges from DNA Strand-4 activation, which releases natura frequency "Lock Seals" on the D-3 Menta Body as Strand-4 initiates activation Through release of the Mental Body Lock Seal, the D-3 Ego consciousness acce erates in osci lation, rises n frequency and expands into f rst the Dens ty-1 inner Radia Body Eiros and Meajhe Field then the Trion Field, and finally the Reion Field outer Radial Body Template While the Mental Body is expanded into the Radial Body, thoughts and ideas held in awareness will take on immediate auditory and visual holographic translation Thoughts form sca ar templates in the frequency bands in which the consciousness is stationed when the thought is held in mind the accelerated frequencies of the Radial Body a low the D-3 m nd to rapidly view the inner Radial Body Eiros manifestation of the thought, providing the quality known as " magination" As the D-3 Mental Body holograph ca ly perceives its thought forms from the Density-1 Rad al Body, the thought-hologram, and the Ego s reaction to it, become stored within the Radia Body as a memory imprint The Radial Body memory impr nt is then mathematical y encoded in the Dens ty-1 (Strands 1-2-3) portion of the DNA Template as a template for potentia physical manifestation Thought forms repeatedly "imagined" or "energized" w th consciousness frequency in the Rad al Body progressively accrete to acquire crit ca mass, at which t me they become physica manifestations through DNA Temp ate projection

If 4th DNA Strand Temp ate activation has not yet begun or f Radia Body NET distortion s present, the Mental Body Lock Seal cannot re ease, the Mental Body Ego remains "stuck in 3-D" and cannot expand into the Radial Body for conscious creation holographic visualization and DNA Template programming The "stuck" D-3 awareness wil have d fficulty in sustaining a clearly focused, sequential holographic image of desired thoughts and may be unable to visualize at all Menta concentration may be difficult to achieve when focus ng inward as thought fragments from the D-2 Emotional/Elemental Body Sub-personality fragments random Radial Body impressions contain ng information from the higher d mens onal dentity levels and directives from the "Shadow self", cannot sequence properly in the DNA Template As the DNA Temp ate evolves to assimilate and sequence expanded perception, dis oined mages, emot.ons and thoughts may enter the D-3 Ego mind awareness d srupt ng ts abil ty to focus clearly with n often frightening or overwhelming the Ego with chaot.c sensory mpressions over which the D-3 m nd seems to have no control If the Ego mind recognizes that it is the intended co-creative director of this "chorus of nner stimuli" and chooses co-creative a liance with the "Higher Power' of ts own higher dimensional stations of identity the Ego can beg n to develop confidence in its nnate creative powers Through practiced menta re axation affirmative thought-choosing and appropriate "spiritual-mind technologies" the Ego can work with the Higher Self to get free from the "Inner NET", activate DNA Strand-4 and release the D3 Menta Body Lock Seal to achieve the expanded state of consciousness associated with Radia Body expans on into the Density-1 Rad al Body is achieved, the ability to focus inwardly more clearly and to create clear mental visua.zations w ll progressively develop and the

Higher Self can then assist the D-3 Ego through more direct, immediate, telepathic communication This is also a vulnerable period of consciousness evolution for humans on Earth, due to issues associated with the "Shadow" and NET Using Maharic, Node and Veca spiritual technologies can progressively build immunity, allowing the D-3 Ego to progress in Radia Body expansion to eventually develop skill in conscious Radia Body manifestation, and DNA Template programming, and consciously-directed Astra Body projection

When healed of the NET and Shadow issues, the D-3 Ego entering 4th DNA Strand activation eventually learns to consciously "shift" its consciousness by decision into other fields of consciousness, even while maintaining an active D-3 focus Natural activation of the 4th DNA Strand also begins the awakening of reincarnational memory, interaction with the other simultaneous expressions of self and communication with other life forms from other co-existing space-time vectors The need for "sleep" will eventually decrease, and the seeming barriers or "veils" between the Ego and other stations of consciousness will progressively dissolve as the Ego and Higher Self together work to heal the Shadow, transcend the NET and clear Sub-conscious chaotic patterns from the DNA Template (Note All Earth species presently carry the "Shadow"/ NET genetic distortion) The ease and speed with which this can be done depends entirely upon the level of DNA Template integrity held by each individual the more "Shadow" distortions there are to clear, the longer it will take to create coherent, clear expansion of consciousness. Presently humanity has the added burden of intentional manipulation of human consciousness from fallen angelic races, who use the "Shadow-self", DNA Template distortions and the NET to interface contrived "dream or astral" experiences, or "false memories" and "spiritual misguidance" with the expanding D-3 Mental Body Such tactics are often used to block the natural communication between a person and their own higher dimensional spiritual identity, and to initiate progressive mental or physical body possession by distracting the Ego mind with fantasy dramas, while harnessing the D-3 Mental Body from the Density-1 Void before it initiates expansion to the Radial Body field Maharic, Node and Veca technologies, combined with appropriately applied creative visualization, mental affirmation and spiritual meditation are the fastest and most effective methods of creating natural safe expansion of consciousness. Eventually the D-3 Ego recognizes that "thinking" "imagining" and "Day Dreaming" are actually actions in conscious holographic creation, that the Universal Unified Field is teaming with life and that the "D-3" world is in actuality a mass holographic Radial Body dreamscape from which the consciousness can shift into other realities.

"Waking Dreams": When the consciousness expands into the Density-1 Radial Body and Astral Body vehicle through natural 4th and 5th DNA Strand activation the direct cognition that the "3-D hologram" is a mass dreamscape continually manufactured through mass Radial Body holographic projection, progressively occurs. This state of expanded cognition is called the "Waking Dream", as the D-3 Ego mind begins to "walk its 3-D holographic dream" knowing its own co-creative power in manufacturing the mass hologram through intentional or unintentional thought projection From this spiritually expanded state of D-3 awareness the Ego begins to recognize translations of knowledge from the Higher Self within the D-3 hologram physical experience, such as "synchronicities" and "cloaked symbol messages" and begins to direct-cognate the symbolic messages meanings and lessons innately carried within all manifest physical expression As Waking Dream cognition progresses, the D-3 Mental Body Ego progressively and reciprocally recognizes itself as an eternal consciousness that is utilizing the natural laws of interdimensional Creation Physics to co-create a living holographic thought-form body to share in a mass holographic evolutionary experience As consciousness expansion and spiritual integration continue the Ego progressively "remembers" more detail about "what the present hologram is about" why it was chosen and how it connects to the holographic dramas of other simultaneously incarnate selves in other space-time locations Once the Ego experiences the realities of genuine spiritual integration, consciousness expansion and corresponding DNA Template activation it transcends the limitations of 3-D thought and belief and consciously interacts with the interdimensional mass hologram using directed thought, spiritual intention and natural creation mechanics as co-creative tools of direct manifestation

Technique-5: Born Free-Live-Free - Shadow Healing Preparation

Releasing E ementa & Figment Attachments

Purpose: To prepare the Density-1 physical, emotional and mental bodies for Core Template "Shadow Dancer Residue" hea ing applications by clearing portions of the Density-1 atomic-etheric elemental-chemica and mental Miasmic Shield Imbedding and releas ng Density-1 Elemental and Figment Shadow Body Attachments Assists the Shadow Body to "lighten its load" and rise n frequency by releasing portions of its Density-1 Attachment M asmic content, enabling the Density-1 Shadow Body to more easily link with the natural Christiac Body for hea ng. This technique utilizes a L nguistic Template Re-programming Grid (LTR) n the ancient *Elohei-Elohim Anuhazi language*, expressed as the "Language of the Nodus" to call upon the portions of your personal consciousness of the D-1-2-3 Nodes within your Density-1 Tellunc Shield The LTR Tones activate the Node Flame and its Base-12 in ful Maharic Coding to assist you n co-creative healing

Preparation: If one has run **The Eiros Flame & Silver Sanctum** (Technique-3) and **Awakening the Amoraea Flame** (Technique-7) **at least one time within 6 weeks**, th s Technique-5 can be run with only ***The Eckasha-Maharic Quick Seal Activation*** (Technique-1) as preparation Otherwise **"Commanding Silence from the Inner Throne of Power"** (Technique-4 Amoraea Flame Activation Level-1) and **its preparation sequence** is required **directly prior to engaging Technique-5**, as this techn que requires the strength of frequencies generated through at east partial activation of the **"Throne of Power" Azurite Crystal.**

1 After completing Technique-1 (or following the final step of Technique-4), breathe gently and relax in a comfortable position Call to mind the **image of your Silver Sanctum** pale-silver-blue "Eckasha Capsu e", and imag ne an mage of the Silver Sanctum centered within the **Amoraea Egg within the Azurite Flame and Azurite Crystal** at the **Azur-A point** in the base of the Thymus Gland **INHALE** Maharic Current up into the **Azur-A and directly into your Silver-Sanctum capsule** stationed within the Amoraea Egg **EXHALE** Maharic Current **into your Silver- Sanctum,** using the **Exhale breath** to **expand the Silver Sanctum capsule and everything around it** (Amoraea Egg, Azurite F ame, Azurite Crysta) **through** and **outside of the physical and Etheric bodies and into the Auric Field several feet out from the body.** Take **3 more deep** Inhale/Exhale **Maharic Breaths exhaled into the expanding Silver Sanctum** to complete its expansion outward into the Auric field, completely surrounding the physica and Etheric bodies several feet out on all sides **FEEL yourself sitting calmly and peacefully within the Sacred Space of your Silver Sanctum.**

2 C ose your eyes and breathe slowly and deeply for a few moments, **FEELING your Internal Christos Power Base as a living wave of consciousness** that is now a ive and awakened within you **Relax your physical facial muscles** nto the posture of a relaxed, peaceful, contented **SMILE** Move the focus of your attention to the **E-Umbi point** just below the Chakra-2 center-point **at the navel**; magine that you can **see the trapped, distorted Density-1 Elemental and Figment Attachment POWER CENTERS.** Imagine the **Attachment Power Centers** as **Small, Shiny Black Spheres resembling "Polished Coal"** that **orbit around** what appears to be a **"Central Dark Sun"**, (the "Dark Fallen Sun") which appears **within the Central Vertical Current** at the E-Umbi point as a **Rotating Dull Grey-Black Sphere resembling "Metallic Iron"** about the **size of a Golf Ball**, that s surrounded by a **radiant "muddy looking" yellow-orange static Aura** approximately **1-inch thick**. The "Dark Sun" around which the Attachment Power Centers orbit is the **D-1.75 "Heart of Anubis" 4th Black Heart of Metatron Implant** that draws in and holds Attachments with n the Density-1 Shadow Body Breathe calmly and slowly for a moment while observ ng or imagining this Density-1 **"Shadow Solar System"** that is formed by the Density-1 ***Metallic Iron*** **Anubis Black Heart Implant** and ***Carbon-Crystal Cores*** of the Reversed-matrix Dens ty-1 **Attachment Shields**

3. Take **2 or 3 Inhale/Exhale Maharic Breaths** exhaling Maharic Current upward to form a **pale-silver Maharic Sphere within the 4th Heart Chakra**. Place your **RIGHT PALM over the E-Umbi point** just below the navel and **INHALE another Maharic Breath**, us ng the Inhale to **draw the Maharic Sphere from the 4th Chakra upward and**

Shadow Dancers, the Metatronic Code and the "Signs of the BeaST"

Shadow Dancers

Shadow Dancer Attachments are highly intelligent, intellectually sophisticated fallen angelic races existing within the 11.5 Reverse Dimensional Fields of the **Wesedak Black Hole system**, who long ago chose to adopt the anti-christiac (cut off from Universal D-12 Divine Blueprint) reversed-matrix **Metatronic Code**. Shadow Dancer races were created **150 billion years ago**, when their Universal Veca system from a different Eckasha-A Spectra fell to anti-christiac **imploding Black Hole status** following their races' **hybridization** with a group of fallen races from **our Phantom Matrix Black Hole**. The Wesedak races originally agreed to "**Host Matrix**" and assist in the reverse-mutation of certain race strains from our Universal Veca that had fallen to **Phantom Matrix Black Hole status** during Lyran-Elohim Wars **250 billion years ago**. Their **hybridization healing experiments failed**, serving instead to **amplify the original Phantom Matrix race genetic mutations among their own race lines**. Due to the **advanced DNA Template mutations and consciousness distortions** they had **created for themselves** through employing tactics of **Shield Template combining** that the **Yanas Masters races had strongly advised them against**, the Wesedak races fell into severe "polarity consciousness" and began fighting within their Universal Veca. **The Wesedak races refused to take responsibility for the free will actions they chose in misapplying natural Creation Physics, and adopted an attitude of vengefully blaming the races from our Time Matrix for their decline**. They cited the cause of their de-evolution as being the Host Matrix they originally offered to our fallen Phantom Matrix races.

In an attempt to assist the Wesedak races in re-directing their evolution, the Braharama, Seraphei and Elohei races of our Time Matrix agreed to their demands of **removing certain Phantom Matrix race strains from their Time Matrix** and relocating them back to our **Phantom Matrix** from which they originally fell. Remaining Phantom race strains, their original mutation now amplified, were returned to our Phantom Matrix under **quarantine**. They were offered an advanced re-evolution program through which they could rapidly re-evolve out of Phantom Matrix through a **Braharama-Elohim Host Matrix**, as they posed a threat to the continued re-evolution of the fallen races that had remained in Phantom Matrix. A **Polarization-Refraction Lens** called the "**Eye of Metatron**" was installed **150 billion years ago** at **D-11.5 USG-12 Lyra Aramatena** between Phantom and our living Time Matrix. The Lens served to channel a portion of our Universal Veca life force currents from our Universal Veca D-15 Primal Light Field into the quarantined portion of the Phantom system and created a **quarantined path of ascension via Host Matrix** for the returning races. The Host Matrix project was entrusted to an Elohim Collective called **Metatron**, of the **Jehovani** Entity Collective, the original family line from which the quarantined races had fallen. **When the Eye of Metatron was installed, mutated hybrid rebel races of the Wesedak Matrix misused the Star Gate Templar system powers of their Universal Veca in an attempt to break into Phantom Matrix to gain control of the Lens**. Their attempted raid failed, **destroying their Divine Blueprint USG-12** and plunging their matrix into imploding **Black Hole** status.

The Metatron collective failed in numerous attempts of re-evolving the quarantined Phantom races to bring more of its consciousness fields to the Phantom Matrix, the **Metatron Collective itself finally fell to Phantom**. Through the Metatron's misuse of the Eye of Metatron Lens, the **quarantine in Phantom Matrix was broken** and Phantom Matrix digressed into progressive hybridization-mutation) and escalating war between the Phantom Races. During the **Gaian-Orion Phantom Matrix wars 570 million years ago** the Metatron Collective made deals with the warring Wesedak races from the Wesedak Black Hole system, and allowed the Wesedaks to use the Metatron Lens to create a **wormhole**, called the "**Path of Arimathaea**", between the **Wesedak and Phantom Matrices**. The **Wesedak-Metatron Alliance** used the Lens to progressively create the "**BeaST Machine**" through which the anti-christiac **METATRONIC CODE** for **artificially sustained "energy vampiring" life**, a permanent, irreversible template mutation, was born), via **forced Shields Bonding** between the Universal Shields of Phantom Matrix, our Time Matrix and the Wesedak Black Hole. When the BeaST was used to create interface with our system, **our Universal Veca "Shadow World"** was born. The **D-11.5 reversed-matrix, "Dark Avatar" collectives** of the Wesedak Black Hole, who carry the permanent and irreparable mutation of the Metatronic Code, became our

"Shadow Dancer" Attachments The Shadow Dancers use the soph sticated external ant -christ ac Temp ar technologies of the **BeaST and the Shadow** to progress vely drain life force energies, and "hi-jack" living consciousness, from our Universal Veca system With the "birth of the BeaST" and the Shadow Dancers came the s multaneous, unnatural birth of the Shadow Body, Elementa Attachments and Figment Attachments

Attachments, the "Crimson Clue", the "Crimson Crest" and the "Magentas"

Both Elemental and Figment Attachments feed energy from the living body and environment to the Shadow Body, from which Phantom and Wesedak races then feed Shadow Dancer, Shadow Body Elemental Attachments and F gment Attachments al advance ***miasmic buildup*** (anti-particle bu ld-up in the part cle f eld caused by Shield reversa s) in the organic Shields and **DNA Template** of living matr x life forms **They provide Shadow Dancers with increased ability to drain life force from the living personal and planetary bodies and dimensional Unified Field** *Elemental and Figment Attachments* appear within **Personal Shields** as mathematically reversed and geometrically d storted m s-a igned and chaotical y organized **Fire Letter sequences** (dimensional scalar-wave-form arrangements) that form the **tangible matter template** and **mutated "Sub-Shield"** of the **Shadow Body** They appear within the **Chakras, Diodic Grid** (Level-2 Kathara Grid), **Axiom** and **Meridian Lines**, **Auric Field**, **Hova**, **Radial** and **Etheric Bodies** as **color distortions thick-dark-murky energy blobs and shapes** Sometimes they appear as **Shadow Forms**, **animal plant** and **molecular spirit forms**, **"monster images"** **"little people"** of **various kinds or erratic wave fields of "twisted" energy** Jsing HSP (Higher Sensory Perception) they look **similar to miasmic Chakra and Auric distortions** originating from your persona temp ate, but upon c oser nspection Elemental Figment and Shadow Dancer Attachments will carry a subtle but distinct **THIN AURA of DEEP CRIMSOM RED** surrounding the r form The Cr mson Aura of Attachments **appears in the bio-field of the living host as an unnatural "thin line of RED" positioned between the physical body, organ or atom, and the natural D-1 Etheric Body field** that surrounds and permeates the phys cal structure

The **"Crimson Aura"** is a **D-1 frequency barrier that forms around the D-1 Etheric body of Attachments**, part a ly separat ng them from a portion of the Host's Etheric Body The Crimson Aura D 1 frequency barrier forms due to the Attachment's **inability to fully bond its foreign D-1 Etheric Body Reversed-matrix Shield Template** with the portion of the organ c D-1 Etheric Body Shie d that is natural y connected with the D-12/D-13 Div ne Blueprint and D-15 Primal Magenta Light Fields A **D-1** (Red wavelength) **"Distortion Field"** forms around the Attachment, as its own reversed-matrix D-1 Etheric Body Temp ate is repelled by the Host's D-1 Etheric Body Temp ate connection to the organic **D12/13/15 Primal Shield** Presently **all Earth forms**, including that of the human body, carry this **unnatural "Crimson Line" between the physical structure and its Etheric Body field** In b o ogica life forms it appears to HSP as a **thin red "outline" with a reddish-black outer edge** surround ng the body form **just above the skin**, between the rad ant Etheric Body f eld (approximately 1- nch above the skin) and the physical body The Crimson Line also appears in the Ether c fie d surrounding every organ, molecule and atom in bio ogical life forms, and around every form, molecule and atom in non-biological construction The "red ine" in the Etheric Field of the Aura is the "Crimson Clue" that reveals the presence of Elemental and Figment Attachments

The Crimson-Crested Magentas

If **Shadow Dancer Attachment has advanced to DNA** Infi tration and **partial Shadow Dancer possession of the Physical Body**, the Crimson Line wil not only appear within the Etheric Body, but a so **surrounding the Hova Body within the Radial Body Capsule** The **"Crimson Clue" of partial possession** appears as a set of **TWO wider bands of crimson** pos tioned between the **outer Reion Field and the Trion Field**, and **between the outer Hova Mental Body and Eiros Inner Meajhe Field** In the Aura this appears as a **pale crimson band about 3 inches wide, with a thin dark black line running in the center separating the crimson band into two**, which is stationed about **12-16**

inches out from the body in the Auric Field If Shadow Dancer possession has advanced to **full-body possession** and **assimilation of the original identity** via **DNA Template Monadic Reversal** (Strand-8 Reversal that reverses the Core Crystal of the DNA Template, completely re-coding the Shield template to the Metatronic Code), **several unnatural formations will appear in the Auric Field** If one's aura has the following characteristics clearly identifiable within the aura, they are **no longer a human consciousness**, but rather the body fully houses a **Wesedak Shadow Dancer** The **Metatronic Code cannot be reversed once DNA Template Monadic Reversal has occurred** and the original identity is no longer alive in its original form it has been fragmented into raw units of consciousness and assimilated into the Wesedak Shield

One of the **most easily identified auric configurations** of Shadow Dancer full possession is **LOSS of the** (Elemental-Figment Attachment) **Crimson Line between the physical and Etheric Bodies The Etheric Body and the Etheric Body EYES radiate a steady, static, intense, bright, "Electric Blue" light** (D-13R "Blue Sword" Metatronic artificial light Current) Another apparent feature of the Shadow Dancer aura is a **striation of various bands of "rainbow colors"** in the field beyond the Etheric Body, which are **each distinctly separated from each other by a thin black line** The **most notable "telltale sign" of Shadow Dancer Full-body Possession** is the **Gold Band** and **"Magenta Flame"** in the **outer layer** of a **Spherical**, rather than natural elliptical, **Auric Field** The "Magenta Flame" has also been called the "*Blood Flame*", "*Ruby Flame*" or "***Crimson Crest***" which was commonly known in ancient times as the "*Sign of the Anti-Christ*" The **Crimson Crest** is a **dense band** of radiant, static energy of a **deep, bright, intense Electric "Violet-Red"** or **"Dark Magenta Red"**, from **3 to 6 feet wide** that surrounds a singular Spherical auric capsule, which signifies **completion of the forced Metatronic Bond** between the **organic Shield from D-1 (Red)** to the **D-13R Electric Blue Sword Current**. Within the Crimson Crest capsule there is a **thin dark black line**, then an **inner band of bright yellow-orange Gold about 4-6 inches wide** Another **thin black line** separates this **outer Metatronic Radial Body Field** from the inner layers of the striated "rainbow aura"

If one's HSP is highly developed, observation of the Crimson Crest auric field may also reveal the presence of what appears to be a **large, Metallic Gold Scarab Beetle** the form of which appears to be within and extending beyond the physical body form **This is the TRUE form of the inhabiting Shadow Dancer** The "Crimson Crest" Shadow Dancer Full-body possession **implies the inhabiting presence of a D-11.5R "Dark Avatar" from the *Wesedak Nephilim-Necromiton* Collective** this embodiment can only be formed through **"body-snatching" an incarnate Level-3, 12-DNA Strand Coded Indigo Child** (or Indigo Children Types-1 & 2 before awakening of their Amoraea Flame Body) Presently the **Wesedak Nephilim races** are creating a **"fleet" of Crimson Crested "Humans"** on Earth who are intended to serve as their **administrative caste** in advancing their **OWO Illuminati WW-3 agenda** they refer to these **Earthly embodiments of themselves** as the **"Magentas"** If you encounter a "human" demonstrating any of these Auric Configurations, be it **adult, child or infant**, use **Maharic Seal immediately to D-12-Christos-Seal** your Auric Field, **avoid physical contact** as they easily transfer **Etheric Body Metatronic Implants** by touch and frequency **direct-transmit implants** into the target's filed without touching Part of the Magentas' "Earth Mission" is to "collect", via **covert Metatronic Implanting**, as much **"human real estate"** as possible **before 2012,** for intended assimilation into the Wesedak black hole.

The "Signs of the BeaST", Metatronic Implants and the Planetary Fire Sword Initiation

Technique-6: Shadow Shielding - Shadow Healing Step-1

Shadow Body Silver Sanctum Bonding

(Amoraea Flame Activation Level-2)

Purpose: To prepare the Density-1 physical, emotional and mental bodies for Core Template "Shadow Dancer" healing applications by *bonding the Shadow Body to the Silver Sanctum protection field* to further raise and strengthen its natural frequencies and accelerate Shadow Body Miasmic Transmutation via Divine Blueprint Infusion. Strengthens Shadow Body immunity to Attachments while accelerating Miasmic clearing in the Shadow Body. Halting the Nodus and using Capstone Nodes to accelerate transmutation of Shadow Body Shield Reversals, enabling the Shadow Body to more easily link with the Christiac Body for healing. This process is facilitated by the D-14 ManA & D-12 ManU Nodus Currents, also known as the *"Golden-Silver ONE"*.

The **"Golden-Silver-ONE" Current** is the **Rishiac Capstone *ManA* Nodus** consciousness of the D-14 **"Ra"** Ante-matter Gaseous Primal Light Field merged with the **Christiac Capstone *ManU* Nodus** consciousness of the D-12 **"Ma'a"** Divine Blueprint Pre-matter Liquid Light Field. **Together, *the 144 Fire Letters* of the Ma'a Nodus and the *168 Fire Letters* of the "Ra" Nodus form the *312 Fire Letters* of what is called the "Sacred Secret Psonn"** or the **Ra-Ma'a Current**, which is the **Primal Capstone Ray of Transmutation** through which **all things made of "Light"**, (such as "frozen light" matter units) are **returned to their organic pre-manifestation state of Primal Sound Vibration** for return to the **Khundaray Primal Sound Fields** through direct **de-manifestation.**

Frequent toning of sets of 12 repetitions of the "Secret Psonn" *"Ra-Ma'a"* **will progressively accelerate and strengthen the transmutative functions of the Shadow Body's Golden-Silver-ONE Aura Filter. Frequent use of the entire Technique-6** will progressively **amplify the strength, longevity and intensity of the Shadow Body Silver Sanctum Eckasha capsule Seal** while **advancing the process of automated Shadow Body miasmic transmutation.**

Preparation: If one has run **The Eiros Flame & Silver Sanctum** (Technique-3) and **Awakening the Amoraea Flame** (Technique-7 Amoraea Flame Activation Level-3) **at least one time within 6 weeks** this **Technique-6 can be run with only The Eckasha Quick Seal Activation** (Technique-1) and **Born Free-Live Free-Shadow Healing Preparation** (Technique-5) as preparation. Otherwise **"Commanding Silence from the Inner Throne of Power"** (Technique-4 Amoraea Flame Activation Level-1) and **its preparation sequence**, and Technique-5, is required **directly prior to engaging Technique-6**, and this technique requires the strength of frequencies generated through at least partial activation of the **"Throne of Power" Azurite Crystal** and requires recent (within 12 hours) release of an Elemental and Figment Attachment layer to be most effective.

Procedure

1. After completing Technique-1 and Technique-5 (or Technique-4 sequence and Techique-5) breathe gently and relax in a comfortable position. Call to mind the **image of your Silver Sanctum** pale-silver-blue "Eckasha Capsule" and magnify an image of the Silver Sanctum centered within the **Amoraea Egg within the Azurite Flame and Azurite Crystal** at the **Azur-A point** in the base of the Thymus Gland. **INHALE** Maharic Current up into the **Azur-A and directly into your Silver-Sanctum capsule** stationed within the Amoraea Egg. **EXHALE** Maharic Current **into your Silver Sanctum** using the **Exhale breath** to **expand the Silver Sanctum capsule and everything around it** (Amoraea Egg, Azurite Flame, Azurite Crystal) **through and outside of the physical and Etheric bodies and into the Auric Field several feet out from the body**. Take **3 more deep** Inhale/Exhale **Maharic Breaths exhaled into the expanding Silver Sanctum** to complete its expansion outward into the Auric field completely surrounding the physical and Etheric bodies several feet out on all sides. **FEEL yourself sitting calmly and peacefully within the Sacred Space of your**

Silver Sanctum.

2 Focus your mental **attention at the E-Umbi point** just below the Navel and call to mind the **image of the "Dark Fallen Sun"**, the D-1 75 "Heart of Anubis" 4th Black Heart of Metatron implant. The Dens ty-1 "Dark Sun" appears **within the Central Vertical Current** at the E-Umbi point as a **Rotating Dull Grey-Black Sphere resembling "Metallic Iron"** about the **size of a Golf Ball**, that is surrounded by a **radiant "muddy looking" yellow-orange static Aura** approx mately **1-inch thick**. Imagine that you can see a **Metatronic "Feeding" Cord, a narrow "pipe" or "hose"-like structure that extends out to the rear of the body on a horizontal plane from inside the E-Umbi point "Dark Sun,"** to a **position in your Auric Field** just **behind your Left Hip**, about **6-8 inches** beyond the phys cal body The **Density-1 Shadow Body** links to the organic Dens ty-1 physical and Etheric bodies via the 4th Black Heart implant within the Etheric Body and Shadow Body **E-Umbi points**, the Density-1 Shadow Body **stands behind and to the Left, with its back to the physical body**, on the **DNA Strand-2 "Node Line "** magine that you **follow the Metatronic Cord to its connection point within the Shadow Body Sub-Shield** where the **horizontally extending Cord connects to the Shadow Body** via a small **Dull-Grey-Black "Iron Core Crystal Sphere"** approximately the **size of a large marble** In your "mind's eye" imagine that you are **mentally focusing upon the small Shadow Body Iron Core Crystal** beh nd you in your Auric Field

3. **INHALE pale-silver Maharic Current** up from Earth's core to the **E-Umbi Point** n your physica./Etheric Bodies, wh e **calling to mind the image of the small pale-silver-blue Eiros Flame** stationed at the E-Umbi point **Forcefully EXHALE Maharic Current into the Eiros Flame center** at the E-Umbi point. Imag ne that the **Eiros Flame "flares", then expands with the Exhale Breath** forming a **secondary Silver Sanctum Eckasha capsule REPLICA** within the boundaries of the primary E ros F ame Eckasha capsule surrounding you

4. Return your attention to the **physical/Etheric E-Umbi point. INHALE Maharic Current** into the phys cal/Etheric **E-Umbi point** then forcefully **EXHALE** the Maharic Current **through the E-Umbi point and out into the Silver Sanctum Eckasha capsule REPLICA** in your Auric Field **INHALE another Maharic Breath**, this time imagining that the **Silver Sanctum Replica rapidly CONTRACTS** with the Inhale breath, **drawing back into the physical/Etheric E-Umbi point**, to become a **tiny pale-silver-blue Eiros Flame REPLICA** within the E-Umbi point. **EXHALE strongly**, wh e mag ning that the **tiny Eiros Flame Replica enters the Metatronic "Feeding" Cord "pipe-line"** at the phys cal/Etheric E-Umbi point, then **travels on the Exhale breath horizontally across the Metatronic Cord** and directly nto the **Dull Grey-Black Iron Core Crystal "Dark Sun" Implant** of the **Shadow Body E-Umbi point**

5. With the pa e-silver-blue **Eiros Flame Replica stationed in the "Dark Sun" Iron Core Crystal Implant of the Shadow Body, INHALE Maharic Current** up from Earth's Core, through your physical body Central Vertical Current to the **4th Heart Chakra. EXHALE** the Maharic Current from the 4th Chakra **upward and out the top of your head to Chakra-14** 36-inches above the head **INHALE**, while imagining a **small marble-sized pale-yellow sphere of light**, the **"Pale-Golden CAPSTONE NODE" D-14 Pale-Gold-Flame Core Crystal**, within the **center of the 14th Chakra** Use a **forceful EXHALE Breath** to **push the Pale-Golden Capstone Node downward** from the 14th Chakra to the **physical/Etheric E-Umbi point** below the Nave

6 **INHALE a 2-POINT ABDOMINAL Maharic Breath**, simultaneously drawing **D-12 Pale-silver Maharic Current upward** from Earth's Core to the **E-Umbi meeting point** while drawing **Pale-Gold-D-14 Current downward** from Chakra-14 to meet the Maharic Current with n the E-Umbi Imagine that the Pale-silver D-12 Maharic and Pale-Gold D-14 Kee-Ra-ShA **Currents combine** within the **E-Umbi**, to form a small **Sparkling Pale Golden-Silver Sphere**, the **"Golden-Silver-ONE"** in the E-Umbi point.

7 With the pa e **Golden-Silver-ONE Sphere stationed within the physical/Etheric E-Umbi point** take a **deep, single-point Maharic Breath**, drawing **Maharic Current into the Center of the Golden-Silver-ONE Sphere. traveling with the Exhale Breath **into the center of the small Eiros Flame Replica** that is waiting at the center of the Dull Grey-Black Iron Core Crystal "Dark Sun" Implant in the **Shadow Body E-Umbi point**.

8. Return to **non-directed breathing and imagine that the Golden-Silver-ONE Sphere begins to automatically expand within the pale-silver-blue Eiros Flame Replica**. Pushed from within by the expanding Golden-Silver-ONE Sphere, imagine that the **Eiros Flame Replica is expanding outward from the "Dark Sun" Implant, through and beyond the boundaries of the Shadow Body** until the Eiros Flame Replica has formed a **Silver Sanctum Eckasha capsule completely around the Shadow Body**. Now imagine that the **Golden-Silver-ONE Sphere contracts** to **form a pale Golden-Silver-ONE "aura filter"** surrounding and permeating the **"Dark Sun" Iron Core Crystal Sphere**, while leaving the **Silver Sanctum Eckasha capsule secured around the Shadow Body**.

9. Begin to **transmute the miasmic content of the Shadow Body by toning out loud, 6 times**, the **"Sacred Secret Psonn"** Golden-Silver-ONE **Nodus Name: Ra-Ma'a**. . With the sounding of the **Secret Psonn**, imagine that the **beautiful, pale Golden-Silver-ONE Rays** emerge from the **Golden-Silver-ONE "aura filter"** surrounding the **"Dark Sun," spreading throughout the dark-charcoal-gray silhouette of the Shadow Body**. When **critical mass miasm saturation** is reached, the **Golden-Silver-ONE Rays will automatically contract back into the Aura Filter** around the Dark Sun Implant. Imagine that you can now **hear with the "Inner Ears," or sense the vibrational fluctuations of, the released miasmic level transmuting back into Primal Sound vibration**, clearing a miasmic level from the Shadow Body through **direct de-manifestation**. Imagine that you can **see the Shadow Body silhouette turning one shade lighter** to become a mid-tone charcoal gray.

10. As you withdraw your mental attention from the Shadow Body world, know that the **Silver Sanctum Eckasha capsule Replica will remain bonded within the Density-1 Shadow Body Sub-Shield**, creating a **barrier of protection and healing** around and within the **Density-1 Shadow Body**. The **Golden-Silver-ONE Aura Filter** on the Dark Sun Implant will **also remain**, assisting to **automatically transmute and release Elemental and Figment Attachments** that are drawn into the **Density-1 Shadow Body** by the Dark Sun "Heart of Anubis" 4th Black Heart of Metatron Shield Implant.

THE ETERNAL FLAME OF AMORAEA & THE "THRONE OF POWER"

Activating the Density-2 Azurite Crystal and the Amoraea Flame

Through activation of the dormant internal **Flame of Amoraea**, within the Density-1 physical body Templar **Dimensional Lock-6 Seal** releases allowing the Density-2 D-6 *Angelic Mental Body* to expand nto the *Density-2 Radial Body* causing the natura Dark-Azur-Blue **Azurite Crystal "Throne of Power"** to activate within the **Thymus Gland** Activation of the **Azurite Crystal** causes the Density-2 natural **Eternal Eiros Silver Sanctum Flame** to activate within the **Density-2 Radial Body** and **Etheric Body Template** and the **"Eternal Emerald Flame of Amoraea"** to activate within the **Density-1 and Density-2 Radial Bodies** Activation of the Dens ty-2 Amoraea Flame causes the **"Eternal Emerald Flame of Amoraea"** Eckasha capsule to activate with n the outer Reion Field of the **Density-2 Radial Body** Activation of the **Density-2 Amoraea Flame** causes the natural Density-2 Radial Body D-12 Manu-Reion Field Divine Blueprint to activate rapid y **clearing Density-2 Radial Body distortions** and restoring the natural Density-2 memory matrix while **opening the Density-2 Radial Body to the Inner Ecka Center Flame** of our Un versal Veca system Through the Amoraea activation the Rad a Bodies, Eiros Silver Sanctums and Emera d Amoraea Flames of Density-1 and Dens ty-2 merge into one, forming a **6-Dimensional Radial Body Eckasha Capsule Trans-harmonic Trion-Meajhe Field with a D-12 Silver Sanctum core** around the **Density-1 and Density-2 Hova Bodies** The united Amoraea Flame and Silver Sanctum prepare the 3-dimensional bio-fields of both Hova Bodies to merge for **biological Density-2 Star Gate Ascension passage** with release of the correspond ng Dens ty-Lock Veca Seals

The Density-2 Amoraea activation initiates opening of the natural Silver Sanctum **Ionon-Neutron Window surrounding the Density-2 body and within the Density-2 Etheric Body Field (creating the Density-2 "Silver Spacesuit"), and the minute Ionon-Neutron Windows within the nucleic core of Density-2 atoms**, preparing the body for natura Merkabic transmigration through atomic transmutation Amoraea act vation initiates **permanent opening** of the natural **Density-2 Pale-Gold Cord** n the **Thymus Gland** a lowing the Density-2 D-6 Menta and D-5 Emotional Bodies to merge for direct expansion nto the Dens ty-2 Radial Body, and through the Density-2 Void for accelerated development of clear Density-3 **D-7, D-8 and D-9 Oversoul Body travel** Activation of **DNA Strand Templates 7-8-9** and corresponding **Fire Codes** (for strand bra ding) is rapidly expedited accelerating the rate of natural **Oversoul Integration** while progressively awakening **Density-2 Planetary reincarnational memory** Accelerates and progressively harmonizes the **awakening, healing and integration** of Density-2 Sub-personality Fragments, Probable Selves, Elementals and Shadow Selves from the D-4/D-5 **Astral-Archetypal Minds** Amoraea activation also initiates **permanent opening** of the natural **"Dedicated Communication Lines"** between the Dens ty-1 Incarnate Density-2 Soul and Density-3 Oversou dentity through which conscious contact and communication with the persona Soul and Oversoul Selves and **Density-2 and 3 Guardian races** can be more rapidly and easily developed

Technique-7: Awakening the Flame of Amoraea

Azurite Crystal & Density-2 Soul Body Amoraea Flame Activation

(Amoraea Flame Activation Level-3)

Purpose: To activate the Density-2 Silver Sanctum and Amoraea F ame for formation of the TRANS-HARMONIC Amoraea Flame Eckasha Vehicle Activation of Amoraea Flame **opens the "ManU Window" surrounding the Density-1 and Density-2 Hova Bodies** which will begin activation of the **Density-1 & Density-2 Manu Windows** in the **nucleus of every atom in the body and soul body.**

Preparation: Eckasha Quick Seal Activation (Technique-1) To activate Eckasha Code amplified D-12 Mahanic Current and strengthen bio-energetic field integrity The ***"Silver Sanctum Sequence"*** of ***"Astral Awake, Aware & Able"*** (Technique-2 E ros F ame Activation Level-1) and ***"The Eiros Flame & the Silver Sanctum"*** (Technique-3 Eiros Flame Activation Level-2) must be done previously **at least one time (in this lifetime)** to engage the *Silver Sanctum-Eiros Flame Activation*. The activated Density-1 *Eiros frequencies* are required to "anchor" the *Amoraea Gateway* & Azurite Crysta frequencies into the Dens ty-1 Radia and Hova Bodies. It is recommended, but not mandatory that ***"Commanding Silence from the Inner Throne of Power"*** (Techn que-4 *Amoraea Flame Activation Level-1*) should be done at least one time prior to Technique-7 to strengthen the Dens ty-1 physica body ability to hold and run the Azurite Crystal frequencies Use of a physical **Azurite Crystal** during this technique wi strengthen the frequencies generated

Procedure:

1 Sit comfortably with eyes closed and slow breath ng rate to about half speed. Imagine the place within the **center of your brain** where the **small, dimly lit circular room** with the descending **spiral staircase** resides. Place the focus of your mental attention n the **small, dimly lit circular room** in the brain center t is **dimly lit** in this space at the present time, so you will need to **FEEL THE SENSATION** of being within the circular room until your inner eyes adjust to the d m light Feel the sensations around your phys cal body as if you were in a small circular room Observe What temperature is the a r as it touches your skin. cool, warm, cold hot, comfortable? Observe Is there any sound n this space and if so what kind of sound? Observe Can you see anything in this d mly lit space, objects, color light?

2 magine yourself **standing within the inner circular room**, at the Brain Center, then visualize or intend that your **imaginary body, standing in the circular room, TURNS TO THE RIGHT from the position in which it was standing** After turning to the right, imagine now that a **spiral staircase** appears before you, this sta rcase **ascends upwards, and has 36 steps** mag ne that the **circular room is physically real**, and that your **physical body is standing within it**. With eyes closed **sense** with your physical and mental bodies, **the entrance to the ascending spiral staircase** f the spiral staircase were to magically open up now, **emerging from your physical body, and into the room**, t wou d ALWAYS appear directly to the R GHT of your physica body, **SENSE the area to the right of your physical body from which the staircase would emerge** This area represents the **natural Density-2 "Departure Point"**, for **all beings carrying the Human or Indigo Divine Blueprint Template If at first you are unable to sense the Density-2 Departure Point, simply *"Imagine" that it is there, opening and ascending upward, to the right side of the physical body.***

3 Once you have located or magined, the Density-2 Departure Point, move the focus of your mental attention to this area of your body, and magine that your awareness is now poised at the bottom stair of the ascending spiral sta rcase The **Staircase extends upward from your Density-2 Departure Point**, into an area that resembles a **Golden Tunnel** SENSE the location of the **staircase HAND-RAIL** and imagine yourself **reaching out to grasp** it, with the **right hand**. With your physical palms resting in your lap, **SENSE the FEELING of the HAND-RAIL** within the **palm of your physical right hand**, and **physically grasp the "invisible Hand-Rail"** with your right hand while it rests loosely on your lap now mode ing the grasping gesture The Hand-Rail s your guide, as you prepare to

ascend the spiral staircase, to the **"Awakening Room"** above.

4 Using the **IMAGINED SENSATION of the Hand-Rail** in your right palm as your guide, imagine now that your mental awareness begins to slowly walk up the dimly lit stairway **COUNT EACH OF THE STEPS YOU TAKE** as you **slowly ascend....1..2..3 to ...36**, everyone will have at least **36 Steps;** the **36th step is the top step** that leads directly into the **Density-2 D-6.5 Indigo-Violet "Awakening Room"** which is the **Ecka God-Seed Center Point**, the **Azurite Crystal, and Inner Temple of Khem-a-lo-ha-tea.**

5. Now, imagine that you are standing on the **36th** (top) **Step** and **release the Hand-Rail** while allowing your hand to relax in your lap. You may still experience very little visual sensory data as you enter the Indigo-Violet Awakening Room. Imagine that you are **stepping from the 36th Step to the Aquamarine and Amethyst tile Floor of the Awakening Room**, while imagining the Awakening Room as a **Circular Aquamarine and Amethyst Tiled Cave** that is brightly lit, with **undulating rays of gold, indigo and violet light**. In the center of the Awakening Room, there is an **ancient Yellow Gold Chalice**, often called the **"Holy Grail"**, that rises up from the floor to the height of about 4 feet. Imagine that you are **slowly walking forward with one hand extended**, to "feel your way along through the blinding light rays" as if moving through the light field of a sun. Continue to SENSE that you are **walking forward in the Awakening Room** until your **extended hand touches the raised Golden Chalice in front of you**. When you reach the Golden Chalice, imagine that you are reaching forward to retrieve something that sits inside the upper bowl of the Golden Chalice.

6. Imagine that you are **reaching down into the upper bowl of the Golden Chalice, searching with your fingers to locate the small object** awaiting your retrieval. The object is **a very-deep-Azure-blue Azurite Crystal, spherical in form, about the size of a large marble, with a sparkling, rough-textured surface, covered in minute Azurite Crystal - Cluster Points**. The Azurite Crystal is the **door-key to your Density-2, Etheric Soul Body**. Imagine **picking up the Azurite Crystal in your RIGHT HAND**, while **modeling this hand gesture with your physical Right Hand** as it rests in your lap. SENSE the **size, weight, texture and temperature of the Azurite Crystal** with your physical hand as if the invisible object was there. **INHALE pale-silver Maharic Current** up from **Earth's core**, into your body, through your **Central Vertical Current, to the Azur-A Point** in **Chakra-8**, at the base of the Thymus. **EXHALE the Maharic Current from the Azur-A, down your RIGHT ARM, into your palm**, and **into the Azurite Crystal.** Take 3 **more Inhale-Exhale Maharic Breaths**, each time energizing and activating the Azurite Crystal in your palm. At the **end of the last EXHALE**, imagine that the **Azurite Crystal is now glowing, and pulsating, with an aura of pale-silver-gold-light**. You may see this pale-silver gold aura around the Azurite Crystal in your Inner Vision, and may sense the weight of the Crystal in your palm growing slightly less heavy, you may also sense nothing, but even so the **Azurite Crystal is now activated.**

7 With eyes closed **move your physical right hand**, imagining the activated Azurite Crystal within it to the Azur-A Point. **"Cup" your hand** over the Azur-A Point, as if the invisible crystal was positioned between your palm and your body. **INHALE a Maharic Breath, up to the Azur-A, and EXHALE the breath down your right arm into your palm, and THROUGH the Azurite Crystal**. As the breath carries the Maharic frequency into your body, there is a **sensation of mild "buzzing"** in the Azur-A area as the **DATA-KEY** stored in the Azurite Crystal moves into the corresponding "Lock-6", on the Density-2, Etheric Soul Body "Door". If you do not feel the "buzzing" sensation, send **up to 3 more Inhale-Exhale Maharic Breaths** through the Azurite Crystal, to **amplify the Maharic Charge** that will release the Data-Key. After 3 Maharic Breaths sufficient frequency will be generated, even if you do not yet feel the "buzzing" sensation. (Use of a physical Azurite Crystal in this technique will also assist in strengthening the frequencies generated)

8. As the Data-Key releases imagine that your **body absorbs the entire Azurite Crystal** removing it from your palm, and **transferring the Crystal into the Etheric Lock-6**, at the **Azur-A**. Let your right hand rest gently in your lap, while **shifting your mental focus** to the physical Azur-A, **where the Crystal has entered**. Imagine now that you can **sense the weight and gentle buzzing** of the Azurite Crystal within your physical body, in the Azur-A. The Crystal now **rotates slowly, and pulses in a gentle rhythm, on every pulsation releasing a pale, silver-gold-**

Azure Blue, Azurite wave-field of frequency Rays that contain the natural activation code, mathematical program, for your personal Density-2 **Etheric Soul Body**. Try to **become aware of each gentle pulse of the subtle Azurite Wave field, (or "A.WAVE")**, as it **emanates from the Azur-A at the Thymus, and spreads outward, in all directions, through every atom in your body**, giving your **D-2 Etheric Soul Body Field** its "Ancient Wake-up Call". **Relax and breathe slowly** for a few moments, to "get in touch with" the presence of the pulsing **Azurite Waves**. The **"A.WAVES"** are there even if you cannot yet sense their presence; your **D-4, Astral-Atomic-Etheric Body, does sense them**, and responds accordingly.

9 Next, **INHALE Maharic Current up to the Azur-A, then EXHALE the Current within the Azur-A** to form a **tiny, pale-silver, "Maharic Spark" within the Azur-A**. Take **2 more Inhale-Exhale Maharic Breaths**, using each subsequent Exhale to **expand the Maharic Spark within the Azur-A**, to the size of a "Chicken's Egg", while observing the sensation of the Maharic Egg expanding in your Azur-A. Take a final Maharic Breath, this time INHALING Maharic Current directly into the Maharic Egg, and using a forceful EXHALE breath to "burst" the Maharic Egg while pushing the released Rays of Maharic Current throughout your entire body and outward into your auric field.

10 Focus your attention on the **Azur-A, where the Azurite Crystal entered** the body. **SLOWLY INHALE Maharic Current** upward, from Earth's Core, (Chakra-13) **to the Azur-A**, using a deep, steady, fluid inhale breath, to **initiate the Activation Breath, INHALING Maharic Current into the Azur-A**, then **HOLDING this breath** for a moment while **focusing mental attention on the Azurite Crystal in the Azur-A. EXHALE SLOWLY**, using the **Exhale breath to push more Maharic Current into the Azurite Crystal. Return to a regular, non-controlled breathing rhythm**, relax, and breathe gently for a few moments, **waiting for a very subtle "pop" sensation**, or sense of **expansion, or warmth** to occur, **within the Azur-A**, as the **Azur-A Lock Seal (Dimensional Lock-6 Density-2 Mental Soul Body Seal) releases, freeing the Density-2, D-4, Atomic-Etheric Body, for merger with the activated Density-1, Silver Sanctum, Eiros Flame. The Azur-A Passage, extending between the Density-1 and Density-2 body Azur-A points, is now opened, and the Azurite Crystal is activated.**

11 As the **Azur-A Lock Seal releases**, you may or may not experience a momentary sense of "heat-waves", rising from the neck through the head, or "cranial pressure" inside or surrounding the skull, as the D-6 **Mental Body capsule, opens and expands** into the Density-2, **Etheric Soul Body blueprint**. The **Etheric Soul Body** exists as a **D-4, EirA-plus-ManA, Primal Current energy field** within and surrounding every atom, which extends like a **"form-fitting, pale-blue-violet-and-gold, energy space-suit"** around the entire physical body. Relax and breathe gently, with eyes closed, and imagine the **Etheric Soul Body "spacesuit"**, or Density-2 "body-replica", imagine that you can see its pale-blue-violet-and-gold-form, **sitting within your physical body, in exactly the same position as the physical body**.

12 Once the Azur-A passage has been opened, through release of the Azurite Crystal of Dimensional Lock-6, the D-6 Mental Body field opens into the Density-2 Radial Body Eiros Field, causing the polarized D-5/D-7 Eros to de-polarize, to a D-12 ManU Reion Field. The **Density-2 body** is thus prepared to receive the frequencies of the fully activated Azurite Crystal, and the **Density-2 Amoraea Flame Eckasha Body** or "Trans-harmonic Amoraea Flame Body". Relax, and breathe slowly, while focusing the mental body attention on the Azur-A Point in the physical body. Imagine your consciousness as a **spark of pale silver Maharic light**, placed within the **Azurite Crystal**, at the central, pale-silver **Amoraea Egg "Throne of Power"**, within the **Azurite Flame**, inside of the **Azurite Crystal Sphere**.

13 With your **attention focused in the Amoraea Egg**, at the Azur-A, give the **mental command - "Shift NOW"**, to the Density-2, **Etheric Soul Body vehicle**, while **imagining your Etheric Soul Body moving out to the RIGHT of your Density-1 physical body**, with the **"Silver Spark"** of your consciousness placed within the **brain center, Pineal Gland, of the Density-2 ETHERIC-Soul Body**. From the Etheric Soul Body, the Trans-harmonic Amoraea Central ManU Eternal Flame and 6-Dimensional Silver Sanctum within and surrounding the Density-1 and Density-2

bodies, can be activated

14 Using the vertical breathing rhythm of running the Maharic Current within your physical body, you will move the Silver Spark within the Density-2 Etheric Soul Body **INHALE Maharic Current**, up from Earth core, and into the Azur-A. **In one breathing motion, EXHALE the Maharic Current into the Azurite Crystal, at the Azur-A, using the exhale breath to direct the Azurite Crystal horizontally to the RIGHT, while imagining that the Azurite Crystal moves with the breath into the Azur-A CORD, and into the Density-2, Etheric Soul Body.** Imagine that the deep,-Azure-blue Azurite Crystal is now nestling comfortably within the **Azur-A point of the Etheric Soul Body**

15 Bring your attention to the **pale-silver Spark, at the Pineal Gland, of the Etheric Soul Body INHALE** in the physical body, then **EXHALE forcefully** while imagining that the **Silver Spark "rides the breath current"**, moving rapidly **down from the Etheric Pineal, into the Azurite Crystal, at the Etheric Soul Body Azur-A point.** When the Silver Spark intersects with the Azurite Crystal a momentary Density-2, **etheric "flaring" occurs** as the **Azurite Crystal bursts into a small, deep-Azure-blue ManU Flame, about 2 3/4 inches high, within the Etheric Body Azur-A. INHALE, then EXHALE**, and imagine that the deep-Azure-Blue, ManU Amoraea **Flame spreads throughout every atom of the Density-1 and Density-2 Etheric Bodies** turning the pale, blue-violet-and-gold, Density-2 Etheric Soul Body, into a brilliant, **glowing, shimmering, Pale Silver-blue, Trans-harmonic Etheric Eckasha body, as the Density-1 and Density-2 Silver Sanctums unite.**

16 Focus your attention on the **small Amoraea ManU Flame, at the Etheric Soul Body Azur-A**, and **INHALE** using the inhale breath to **draw the Amoraea Flame through the Azur-A CORD, and into the physical body Azur-A point. EXHALE forcefully**, using the Exhale breath to **push the Amoraea Flame down to the 13th Chakra at Earth's core** When the Amoraea Flame enters the Chakra Seals of Chakra 13 the **Amoraea Flame momentarily "flares", filling every atom in the physical and soul body with deep Azure-blue, Amoraea Divine Blueprint frequency** SENSE the release of the **AMORAEA WAVE**, (or "A.WAVE") within the physical body as a **gentle "expansion of internal heat, emerging from the Azur-A"** that moves simultaneously in all directions, throughout the physical body

17 With **attention focused on the Amoraea Flame at Chakra-13, prepare to** INHALE DEEPLY, AND SIMULTANEOUSLY, FROM 2 DIRECTIONS in the **2-POINT BREATHING of Amoraea Activation**

18 **INHALE SIMULTANEOUSLY, breathing Density-2 Indigo Frequency down from the 14th Chakra above the head,** while **breathing pale silver Maharic Current AND the Amoraea Flame upward, from Earth Core, bringing the two currents of energy into union within the Azur-A point. Exhale the 2-Point breath within the Azur-A,** then complete **3 additional 2-POINT Inhale-Exhale breaths, to activate the Amoraea Flame within the Azur-A.**

19 Take a final 2-POINT INHALE, while focusing your **attention on the INSIDE of the Amoraea Flame at the Azur-A, then EXHALE forcefully** using the Exhale breath to **rapidly expand the Amoraea Flame from within the Azur-A, outward through the body, until the Amoraea Flame is fully expanded around the entire body, and outward several feet into your Auric field**, forming the **Pale, Silver-blue, 6-Dimensional, Trans-Harmonic Eckasha "Inner Silver Sanctum", body Capsule**.

20 Direct your **attention back to the ETHERIC SOUL Body, positioned to the RIGHT** of your physical body **INHALE, drawing the Etheric Soul Body horizontally back into the physical body** When the 2 bodies rapidly and fully align, the **activated Amoraea Flame Trans-harmonic Eckasha Capsule, will momentarily "flare"** as the **Amoraea Flame phase-locks within both the Density-1, and Density-2 Etheric and Physical bodies.** ***The Trans-harmonic Eckasha Seal Amoraea Flame and the Azurite Crystal are now fully activated.***

Activation of the Amoraea Flame has opened the "**ManU Window**" surrounding the **Density-1 and Density-2 Hova Bodies** which will begin activation of the **Density-1 & Denistey-2 ManU Windows** in the **nucleus of every atom in the body and soul body.**

The Amoraea Buffer Field (Amoraea Flame Activation Level-4)

When the Human body has successfully engaged manual activation of the **Densities 1 and 2 Eiros and Amoraea Flame bodies,** through consistent application of **Techniques 1-7** over a **4-6 week period,** the personal Shields and DNA Template are sufficiently prepared to engage **Technique-8, *The Amoraea DNA Template Buffer*** Through appropriate use of Technique-8, the dormant Eiros "Silver Sanctum" and Amoraea Emerald Flame bodies progressively and simultaneously activate within the **Density-3** Oversoul and **Density-4** Christos Avatar bodies. Activation of the 4th-Density Amoraea Flame body progressively activates the personal **Density-5** Kee-Ra-ShA **Rishiac Shield** of the D-13-14-15 Primal Light Field and the Khundaray **Eleyanic Shield** of the Primal Sound Field bringing the personal **Universal Radial Body Trion-Meajhe Field and Eckasha Merkaba Vehicle** into full activation The Amoraea DNA Template Buffer serves to protect the DNA Template & Personal Shields from Shadow Body, Shadow Dancer, "Blue Sword" & Environmental Reversed Currents, while activating, sustaining and amplifying Eiros & Amoraea frequencies throughout the Shields and DNA Template to create a buffer field that transmutes Reversed Current frequencies as they begin activation within the Shields When used once weekly, in conjunction with ***Amoraea Buffer Daily Supplement*** (Technique-8 Part-2), the Amoraea DNA Template Buffer brings the natural **Maharic Seal and Eiros and Amoraea Flame bodies into automatic, sustained, continual activation** setting 12-Strand DNA Template activation, building the Base-12 Eckasha Merkaba, personal Christos Avatar identity integration and Shadow Healing processes on "**Auto-pilot**" Once one has progressed through 4-6 weeks of actively using Techniques 1-7, "**graduation**" to appropriate consistent use of **Techniuqe-8,** in conjunction with **periodic** use of **Technique-13, *Identifying and De-Cording Shadow Dancers-Shadow Healing Step-3 and Technique-14 Amoraea Invitational – Shadow Integration-Shadow Healing Step-4,*** will render further use of the Maharic Seal and Techniques 1-7 **unnecessary**

Continued use of **Technique-8 Parts 1 and 2** creates progressive expedited activation of the **Densities 1, 2, 3** and **4 Radial Body Trion-Meajhe Fields,** generating sufficient interdimensional frequency for **amplified Veca** and **Ecka Code activation,** while creating critical mass frequency thrust to permanently De-cord Shadow Dancer Attachments through D-12 Activation of the 4-Density Radial Body Trion-Meajhe Field serves to naturally engage a permanent **D-12 Dedicated Line** of communication to the personal D-12 Christos Avatar identity through which direct contact with the Eleyanic races of the Inner Ecka Universes can be successfully initiated Sustained application of Technique-8 when used with **Veca Code technologies,** progressively activates the personal **Eleyanic Shield,** tri-vector Base-12 **Eckasha Merkaba Vehicle** and personal **Cruxansatea "ManU Window"** around the physical body and within the nucleic core of atoms. Sustained activation of the full Amoraea Flame body for a period of **4-6 years** transforms the personal bio-energetic field into a **"Walking Portal Safe Zone"** that is capable of interfacing directly with the **Universal Star Gate system** from **any Earth location** The activated Cruxansatea generates a **continued field of personal protection,** while returning the tangible potential of physical star gate passage to Aramentia (Inner Earth) of the Inner Ecka Universe, via the Halls of Amenti star gate interface system

Through activation of the dormant internal **Flame of Amoraea** within the Densities 3 and 4 Etheric and Pre-matter body Templars, **Dimensional Lock-9 and Lock-12 Seals** release, allowing the Density-3 *D-9 Kenatric Mental Body* to expand into the *Density-3 Radial Body* and the Density-4 *D-12 Christiac Mental Body* to expand into the *Density-4 Radial Body* Expansion of the Kenatric Mental Body causes the polarized **Gold Monadic Crystal** within the **upper Thymus Gland** and the corresponding Deep Violet Amethyst Crystal within the Pineal Gland to activate and depolarize allowing the Density-3 natural **Eternal Eiros Silver Sanctum Flame** to activate within the **Density-3 Radial Body** and **Pre-matter Body Template Divine Blueprint,** and the **"Eternal Emerald Flame of Amoraea"** to activate within the **Densities-1, 2 and 3 Radial Bodies** Expansion of the Christiac Mental Body causes the **2 pale silver-white Selenite Krist Crystals** one within the **Sacral Seal Core** in the 1st of the 1st 8 cells in the talbone one within the **Cranial Seal Core** in the Pineal Gland, to activate Activation of the Selenite Krist Crystals allows the Density-4 natural **Eternal Eiros Silver Sanctum Flame** to activate within the **Density-4 Radial Body** and **Ante-matter Body Template,** fully opening

the 12-dimensional **Cranial-Sacral Kundalini Seals** to free the **Central Vertical Current** of the Densities 1-4 matter bodies to expand, becoming the **INTERNAL MAHARIC SEAL PILLAR**. The **"Eternal Emerald Flame of Amoraea"** activates within the **Densities-1, 2, 3 and 4 Radial Bodies**. Activation of the Densities-3 and 4 Amoraea Flames causes the **"Eternal Emerald Flame of Amoraea"** Eckasha capsules to activate within the outer Reion Fields of the **Density-3 and 4 Radial Bodies**. Activation of the **Densities-3 and 4 Amoraea Flames** causes the natural Densities 3 and 4 Radial Bodies D-12 Manu-Reion Field Divine Blueprint to activate, **rapidly clearing Densities-3 and 4 Radial Body distortions** and restoring the natural Densities-3 and 4 memory matrix while **opening the Densities-3 and 4 Radial Bodies to the Inner Ecka Center Flame** of our Universal Veca system. Through full Amoraea activation the Radial Bodies, Eiros Silver Sanctums and Emerald Amoraea Flames of Densities-1, 2, 3 and 4 merge into one, forming a **12-Dimensional Christiac Radial Body Eckasha Capsule Trans-harmonic Trion-Meajhe Field with a D-12 Silver Sanctum core** around the **Densities-1, 2, 3 and 4 Hova Bodies**. The united Amoraea Flames and Silver Sanctums prepare the 3-dimensional bio-fields of all Hova Bodies to merge for biological **Density-4 Star Gate Ascension passage** with release of the corresponding Density-Lock Veca Seals.

The Densities-3 and 4 Amoraea activation initiates opening of the natural Silver Sanctum **Neutron Windows surrounding the Densities-3 and 4 bodies and within the Densities-3 and 4 Pre-matter and Ante-matter Body Field** (creating the Densities-3 and 4 "Silver Spacesuit"), and the minute **Neutron Windows within the nucleic core of Densities-3 and 4 atoms**, preparing the body for natural Merkabic transmigration through atomic transmutation. Amoraea activation in the Density-3 Etheric Body initiates **permanent opening and depolarization** of the natural **Density-3 Gold and Violet Cords** in the Pineal and Thymus, forming the natural **Pale Silver-Pink Monadic Cord** (D-8 Gold plus D-7 Violet = D-15 Pale Magenta Pink Primal Light Current) that opens the internal **"Monadic Passage"** between the **Thymus, Pineal and Pituitary Glands**. Opening of the Monadic Passage allows the Density-3 D-9 Mental and D-8 Emotional-Monadic Bodies to merge for direct expansion into the Density-3 Radial Body, and through the Density-3 Void, for accelerated development of clear Density-4 **D-10, D-11 and D-12 Christiac Avatar Body travel**. Amoraea activation in the Density-4 Pre-matter Christiac-Buddhaic-Nirvanic Body initiates **permanent opening** of the natural **Density-4 Pale Silver-"Rainbow" Cord** of the **Internal Maharic "Krist" Seal** within the Central Vertical Body Current that opens the internal **"Nirvanic-Buddhaic-Christiac Passage"** or ***Krist Passage***, between **Chakras-12 and 13**, activating the **Cruxansatea ManU Window** and **Eckasha Merkaba** Vehicle around and within the 4-density physical body. Opening of the Krist Passage allows the Density-4 D-12 Nirvanic-Christiac Mental and D-11 Buddhaic-Christiac-Emotional Bodies to merge for direct expansion into the Density-4 Radial Body, and through the Density-4 Void, for accelerated development of clear Density-5 **D-13, D-14 and D-15 Rishiac Body travel**. Activation of **DNA Strand Templates 10-11-12** (and 24-36 in Indigo Types-1 and 2) and corresponding **Fire Codes** (for strand braiding) is rapidly expedited, accelerating the rate of natural **Rishi Integration** while progressively awakening **Density-3 and 4 Galactic and Universal reincarnational memory** (Gaia-Polaris and Aramatena-Lyra memory). Accelerates and progressively harmonizes the **awakening, healing and integration** of Densities-3 and 4 Sub-personality Fragments, Probable Selves, Elementals and Shadow Selves from the D-7/D-8 **Ketheric-Monadic Minds** and D-10/D-11 Christiac-Buddhaic Minds. Full Amoraea Flame Body activation also initiates **permanent opening** of the natural **"Dedicated Communication Lines"** between the Density-1 Incarnate, Density-2 Soul, Density-3 Oversoul, Density-4 Christiac Avatar and Density-5 Rishi Identity Levels, through which conscious contact and communication with the personal Soul, Oversoul, Christiac Avatar and Rishi Selves and **Densities-15 and Inner Ecka Universe Guardian races** can be more rapidly and easily developed.

Before *Density-Lock Veca Seal* release the full Density-4 Amoraea activation progressively **clears & transmutes the unnatural "Metatronic Apollyon-666-Seed-Atom" and " 4 Black Heart" Implants** ("Warden of the Pleiadian Gates") in all density bodies. Clearing of the Apollyon-666-Seed-Atom **prevents the "Flaming Blue Sword" D-13R Wesedak Current from causing Monadic Reversal in DNA Strands 7-12 of the DNA Template**. The full Amoraea activation also **progressively dissolves the inorganic electro-static NET in the Densities-3 and 4 Radial Bodies**. Clearing the NET prevents the unnatural transfer of the Density-3 Oversoul Mental Body to the Shadow Body during sleep & projection and provides the Density-1, Density-2, Density-3 and Density-4 matter-bodies with sufficient frequency

holding capacity to **sever Densities-3 and 4 Shadow Dancer Cords and to heal the personal Densities-3 and 4 Shadow Body**

Once the corresponding *Density-Lock* Veca Seals are fully released, the fully activated 4-Density Eros Silver Sanctum Flame and Emerald Amoraea Flame capsule allow for safe physical **Star Gate Ascension** passage of the Densities-1, 2, 3 and 4 matter-bodies through the Star Gates and Densities-3 and 4 Void, for biological ascension to **Density-4** via D-12 **Mahunta Phase Eckasha Merkaba** Vehicle activation, or to the Inner Ecka Universe via D-13-14-15 Rahunta Phase Eckasha Merkaba Vehical As Density-4 and Inner Ecka Star Gate passage occurs, the *Densities-1, 2, 3 and 4 bodies and consciousness merge with the Density-5 Rishi Body* to become the **Density-5** *Ante-matter Thermo plasmic Aramentania ("Inner Earth")* **Ecka Body** When activated, the Gold, Amethyst and Selenite Crystals of Densities-3 and 4 Amoraea Flame activation initiate opening of the Inner **Ecka Central Eternal ManU Flame** of the **Ecka Worlds *Temple of Khem-a-lo-ha-tea*** within the 4 Densities of the 12-dimensional Christos Avatar and 15-Dimensional Rishiac Bodies This expedites activation of the 12 embodied **Reuchea Pillars** and initiates simultaneous activation of all *Dimensional-Lock Seals* while expediting *Density-Lock Veca Seal activation* for **rapid passage to the Inner Ecka Universe** via the secured **Amoraea Passage** JSG-3-6-9-12 & the **Central Khem-a-lo-ha-tea Temple**

Technique 8: Shadow Healing Step-2 The DNA Amoraea Buffer

(Amoraea Flame Activation Level-4)

Purpose: To protect the DNA Template & Personal Shields from Shadow Body, Shadow Dancer, "Blue Sword" & Environmental Reversed Currents Activates, sustains & amplifies Eiros & Amoraea frequencies throughout the Shields and DNA Template, creating a buffer field that transmutes Reversed Current Frequencies as they begin activation When used once weekly in conjunction with Amoraea Buffer Daily Supplement (Technique-8 Part-2) brings Maharic Seal Eiros and Amoraea Flame into sustained, continual activation, setting 12 Strand DNA Template activation, building of the Base-12 Eckasha Merkaba, personal Christos Avatar identity integration and Shadow Healing processes on "Auto-pilot" To generate sufficient critical mass frequency for permanently De-Cording Shadow Dancers and healing and integrating the personal Shadow Body on all 4 density levels To begin progressive permanent activation of the full 4-density Eiros and Amoraea Flame Bodies, creating eventual full Cruxansatea ManU Window and Eckasha Merkaba Vehicle activation within 4-6 years for potential biological and/or spiritual inner Earth (Aramentania of Inner Eckal Universe) Halls of Amenti Star Gate passage

Preparation For first activation, complete Technique-1 plus Techniques 2 3 4,5,6,7 at least one time (in this lifetime), waiting 4-6 weeks while using Techniques 1-7, before performing Technique-8. If you have used Technique-1 within the past 12 hours, repeating Technique-1 just prior to first activation of technique 8 is not necessary For subsequent Technique-8 activation no preparatory activations are required

TECHNIQUE 8, PART ONE: The Amoraea Buffer

Weekly Procedure (use of audio tape or CD verbal induction is recommended)

1 Relax, and slow breathing to half normal rate as you call to mind the Eckasha Symbol "tear drop" shape, in Pale Silver, containing a 24-point, 3-dimensional Star at its center (or use the Eckasha-Reuche image IF you have already been working with the Veca Code Induction Techniques) as you would use these symbols as the Hierophant Activation Keys for the Maharic Shield Imagine the Eckasha Hierophant Symbol at the Pineal Gland at the center of your brain

2 INHALE and FORCEFULLY EXHALE, pushing the Eckasha Hierophant from the pineal, down the central vertical current and into Chakra 13, at Earth's Core Following the EXHALE hold your breath for 3-4 seconds while imagining 3 tiny Kee-Ra-ShA Flames, 1 Pale Turquoise 1 Pale Yellow & 1 Pale Pink - gently bursting upward to surround the Eckasha Hierophant within the 13th Chakra at Earth's Core in response to contact with the Eckasha Hierophant.

3. INHALE the Eckasha Hierophant, with the 3 Kee-Ra-ShA Flames surrounding it, upward to the Maharic Shield Center 12" below the feet, and EXHALE FORCEFULLY while imagining the Eckasha Hierophant and 3 Flames expanding outward on a horizontal plane throughout your Pale Silver Maharic Shield Disc As the Eckasha & 3 Flames move outward, imagine the Maharic Shield Disc expanding outward to about 4' wide

4. HOLD your breath for 3-4 seconds following the exhale, while imagining that your 4' wide, Pale Silver Maharic Shield disc at the soles of your feet now vibrates as cycling currents of Pale Turquoise, Pale Yellow & Pale Pink Kee-Ra-ShA frequencies blend with the Pale Silver D-12 Maharic Current. Try to sense a gentle "buzzing" sensation, as your Maharic Shield frequencies accelerate in oscillation rate to carry the Kee-Ra-ShA current.

5 INHALE using the inhale breath to draw a ball of Kee-Ra-ShA + Pale Silver frequencies into the center of your Maharic Shield from the oscillating Maharic Shield Disc. Imagine that the 4' Maharic Shield Disc remains extended, while

Copyright A & A Deane, 2002 All Rights Reserved

the Kee-Ra-ShA-Maharic ball collects in the center of the Maharic Shield to re-form a "tear drop" shaped Kee-Ra-ShA Eckasha Hierophant "flame" in the center of your Maharic Shield

6 EXHALE GENTLY while imagining the re-formed Kee-Ra-ShA Eckasha Hierophant flame as a Pale Silver energized, 3-Dimensional Eckasha "tear drop" which pulses with a repeating cycle of Pale Turquoise, Pale Yellow & Pale Pink bursts of light. This image of the Hierophant, as a 3 D mensional Pale Silver Eckasha "tear drop" pulsating with repeating bursts of the Kee-Ra-ShA color sequence will now be referred to as the "Eckasha Flame"

7 INHALE SLOWLY, using the inhale breath to SIMULTANEOUSLY draw 3 Cords of Kee-Ra-ShA frequency up from the Eckasha Flame stationed at the center of your Maharic Shield 12" below the feet, to the E-Umbi Point just below your navel Imagine a thin cord of Pale Turquoise "Kee" current, the D-13 ManJ frequency extending up from the Eckasha Flame and into the small Chakra in the BALL of your RIGHT foot a thin cord of pale Pink "ShA" current the D-15 ErrA frequency, extending into the small Chakra in the BALL of your LEFT foot, and a thin cord of pale Yellow "Ra" current the D-14 ManA frequency extends directly up your central vertical current into the BASE CHAKRA between your legs.

8. Continue the SLOW INHALE, drawing the 3 Kee-Ra-ShA Currents up into the body at the same speed while imagining that the Pale Turquoise and Pale Pink Currents running into the feet ARC to the CENTER of your body, merging with the Pale Yellow center current the 3 currents joining at the E-Umbi Point just below the navel

9 EXHALE GENTLY while imagining that the meeting of the 3 Kee-Ra-ShA Cords forms a GLOWING Emerald Green Crystal in the E-Umbi Point.

10 INHALE GENTLY, using the inhale breath to draw the Eckasha Flame from the center of your Maharic Shield up through the Pale Yellow Cord in the Central Vertical Current & into the Emerald Green Kee-Ra-ShA Crystal at the E-Umbi Point. EXHALE GENTLY when the Eckasha Flame has entered the Emerald Green Crystal at the E-Umbi Breathe gently for a few moments, and try to sense a feeling of warmth or slight "buzzing" sensation at the E-Umbi Point below the navel

11 INHALE a Pale Silver Cord of D-12 Maharic frequency up from Chakra 13 at Earth's Core drawing it into the Eckasha Flame within the Emerald Green Crystal at the E-Umbi Point. EXHALE FORCEFULLY, using the exhale breath to expand the Eckasha Flame from within, while imagining that the Eckasha Flame & Emerald Crystal "pop", releasing the Kee-Ra-ShA & Eckasha Flame frequencies into the E-Umbi Point

12 Breathe gently for a few moments. and imagine now that a small pale silver-indigo-blue-violet flame, about 2" high, spontaneously ignites within the E-Umbi Point. The E-Umbi Point is the seat of the Celestite Crystal that houses the Pale Silver-Indigo-Blue-Violet Eiros Flame. Activation of the Eckasha Flame, the Kee-Ra-ShA and Maharic Currents, within the E-Umbi, releases the Power of the Eiros Flame within the E-Umbi Point.

13. INHALE using the inhale breath to draw the pale silver, indigo-blue-violet Eiros Flame up the central vertical current and into the Azur-A Point, at the base of the Thymus gland, above the Heart Chakra EXHALE GENTLY, to deposit the Eiros Flame within the deep, Azure-blue Crystal at the Azur-A Point.

14. INHALE Maharic Current up from the Earth's core, and into the pale silver- indigo-blue-violet Eiros Flame at the Azur-A Point. EXHALE FORCEFULLY using the exhale to expand the Eros Flame from within, until it "pops" within the Azur-A Point. Imagine the pale silver-Indigo-blue-violet Eiros frequencies spreading throughout the Azur-A and base of the Thymus gland

15. Breathe gently for a few moments now, while imagining a small Azure-Blue Flame, about 2" high, spontaneously

ignites within the Azur-A Point (ocated at the base of the Thymus Gland, above the Heart Chakra) The Azur-A Point is the seat of the Azurite Crysta that, when fully activated, houses the Rad al Body Emerald Amoraea Flame.

16 INHALE pale silver, D-12 Mahanc Current up from Chakra 13 at Earth's Core, into the small Azurite F ame at the Azur-A Point EXHALE FORCEFULLY, using the exha e breath to expand the Azurite Flame outward from the Azur-A Point into the Aunc Field, completely permeating and surrounding, the physical body Imagine that as the Azurite Flame expands outward, ts color changes from deep Azure-blue, to deep Emerald green-blue as the ManL ManA, EirA frequencies of the full Amoraea F ame Activate within the Azur-A Point.

17 Breathe gently while imagining that the Deep Emerald Green-Blue Amoraea Flame continues to expand throughout the Aunc field Imagine the Aunc Field forming a large 3-D Eckasha "tear drop" Emera d Flame, with a pa e-silver-indigo-blue-violet Eiros "Silver sanctum" lining, al around the body The base of the Emerald Amoraea Flame expands downward to Chakra 13 at Earth's Core, wh le the tip expands upward to Chakra 14, 36" above the head Bring to mind the 4' wide Mahanc Shield D sc, 12" Below your feet, and mag ne the Emerald Green Amoraea Flame is now fully expanded to encompass the Mahanc Shield

18. Now, return your attention to the Azur-A Point at the base of the Thymus gland INHALE Pale Si ver Mahanc Current up from Chakra 13 to form a small 2" Pa e Silver Mahanc Flame n the Azur-A EXHALE FORCEFULLY, us ng the exhale breath to PUSH the Pale Silver Mahanc Flame UP from the Azur-A and into the Pinea g and at the center of the brain

19 Breathe gently, and bring your attention into the Pineal gland at the center of the brain magine that the pale S ver Mahanc Flame holds 2 tiny crystals at its center, that appear as Sparks of L ght one, the vibrant violet of D-7 frequency, the other the metal c yellow-gold of D-8.

20 INHALE Mahanc Current up from Chakra 13 and into the Mahanc Flame stationed in your Pineal Gland EXHALE FORCEFULLY, us ng the breath to fill the Mahanc Flame with a burst of Mahanc Current Breathe easy, and imag ne that the V olet & Gold Crysta s within the Mahanc Flame vibrate for a moment, then burst into 2 tiny flames, one Violet, one Gold, within the 2" high Mahanc Flame INHALE Mahanc frequency up from Chakra 13, and into the Mahanc Flame at the Pinea gland and gently EXHALE the Mahanc Current.

21 Breathe gently, and mag ne that the tiny Violet & Gold Flames, with n the Mahanc Flame, FLARE n a Magenta-Pale-Pink F ash, as they de-polarize and combine with the Mahanc Flame forming a Silvery-Pink SUN BURST of D-12 + D-15 frequency within the Pineal gland

22 INHALE Mahanc Current up from Chakra 13. and EXHALE FORCEFULLY, using the breath to PUSH the Silvery-Pink Sun-burst vert cally upwards from the Pinea g and, through the 7th 10th & 11th Chakras and nto the 14th Chakra 36" above the head INHALE drawing the Mahanc frequency all the way up to the S lvery-Pink Sun-burst in Chakra 14, and FORCEFULLY EXHALE the Silvery-Pink Sun-burst all the way down to Chakra 13, at Earth's Core INHALE AGAIN QUICKLY, using the breath to rapid y draw the Silvery-Pink Sun-burst up from the Central Vertica current to Chakra 14, 36" above the head, and AGAIN EXHALE FORCEFULLY, us ng the breath to send the Silvery-Pink Sun-burst down to Chakra 13

23. QUICKLY NHALE AGA N, using the breath to draw the S lvery-Pink Sun-burst up into the center of the Mahanc Shield 12" be ow your feet. Imagine the Silvery-Pink Sun-burst as a spinning Silvery-Pink Sphere at the center of your Mahanc Shield Allow the S lvery-Pink Sun-burst Sphere to spin in whatever direction, speed and rhythm it chooses. EXHALE FORCEFULLY, using the breath to push D-12/D-15 Current throughout the Mahanc Shield Disc, from the spinning, S very-Pink Sun-burst Sphere at the Mahanc Shield center

Copyright A & A Deane, 2002 All Rights Reserved

24. Imagine now that your Maharic Shield is g owing as a 4' wide disc that repeated y cycles waves of Pale Silver/Emera d Green-Blue & Silver-Pink frequency throughout your entire body and Auric field

25. The Maharic Sh eld is now temporarily sealed within the protection of the ampl fied Amoraea Flame and th s simultaneously creates an Amoraea Seal with n, and around, the DNA Template and persona Shields, which wi serve to transmute disharmonic, reversed frequencies moving through the DNA from the Shadow Body and Shadow Dancers, and will also transmute disharmonic frequencies com.ng into the DNA Template from the Planetary Environment, such as "Blue Sword", reversed D-13 Current

The Amoraea Buffer Seal wi l sustain in the Maharic Shield and DNA Template as long as the Silvery-Pink Sun-burst Sphere at the Maharic Shield center is present, and remains spinn ng The natural D-12 Maharic Seal will rema n in sustained, constant activation and will no longer require manua activation as long as Amoraea Buffer Sea activation s consistently sustained

Repeat.ng Steps 1-21 above **once every 7 days**, and using the following Technique-8 Part 2, "Amoraea Insta-Buffer" Daily Supplement **ONCE PER DAY** wi be sufficient to susta n the Amoraea Buffer Seal If the DAILY routine of using the Amoraea Insta-Buffer is broken, by MORE THAN A ONE DAY LAPSE, **the use of Steps 1-21 above is ESSENTIAL to reactivate the Amoraea Buffer Field**

TECHNIQUE-8 PART TWO: The Amoraea "Insta-Buffer" Daily Supplement

Daily Procedure
You wi be using the ***Heliotalic current*** (Ecka level current comprised of metallic pa e ra nbow pastel colors mixed with pa e silver) in this technique

1 Relax, and slow your breathing to half norma rate Inhale drawing n **Heliotalic current** vertically from beyond Chakra 13 and Chakra 14, bu ding a ball of Heliota c frequency within the AzurA Visualize or magine the H erophant as the Pale S ver 3 Dimens onal "tear drop" shape **Eckasha, containing the Reuche** stationed at the Pineal gland, at the center of your brain INHALE the Heliotalic Ball up to meet the Eckasha H erophant Symbol in the Pinea INHALE, and use the EXHALE breath to push the Eckasha H erophant down to the Pa e Turquoise, Pale Yellow & Pale Pink Kee-Ra-ShA Flames in Chakra 13 at Earth's Core

2 INHALE FORCEFULLY DRAWING THE Eckasha Hierophant and the 3 Kee-Ra-ShA Flames up to the center of the Maharic Shield 12" below your feet. EXHALE FORCEFULLY expanding Waves of Kee-Ra-ShA frequency outward, throughout the Maharic Sh eld while expand ng the Maharic Shield to a 4' diameter disc.

3. INHALE drawing the Hierophant Eckasha & 3 Kee-Ra-ShA Flames up the Centra Vertical Current first to the Base Chakra, and up to the E-Umbi Point, just below the Navel EXHALE, and imagine that the Pale Si ver-Blue E ros F ame IGN TES in the E-Umbi Point, as the Eckasha Hierophant and 3 Kee-Ra-ShA Flames "pop" and disappear

4. INHALE FORCEFU..Y drawing the Pa e Silver-Blue Eiros Flame up to the Azur-A Point, at the base of the Thymus g and EXHALE FORCEFU..Y while imagin ng a great wave of Deep Emerald Green-B ue Amoraea Frequency b.rst.ng outward from the Azur-A Point, and expanding into the arge Amoraea F ame Capsule surrounding your body, ampl fying the already activated Amoraea Flame.

5. INHALE Maharic frequency up from Chakra 13, to the Azur-A Point, and FORCEFJLLY EXHALE, using the breath to

push Mahanc current up to the Pineal Gland, and on out the top of the head, to Chakra 14, 36" above the head Now, magine the Silvery-Pink Sun-burst at Chakra 14 and INHALE FORCEFULLY EXHALE, using the breath to push the Silvery-Pink star-burst down and into the Silvery-Pink, Sun-burst Sphere, stationed at the center of the Mahanc Shield 12" below your feet. Imagine that the S lvery-Pink Sun-burst Sphere begins to spin more rapidly in whatever d rection t chooses, sending waves of Si very-Pink, Emerald Green-Blue & Silver frequency out through the Mahanc Sh eld The Amoraea Buffer is now energized and ampl f ed

6 To further amplify the Amoraea Buffer take several 2-Point breaths On the inhale, draw Pale-Silver D-12 Mahanc Current up from Chakra 13, wh le simultaneously drawing Pa e-Yellow D-14 Current down from Chakra 14. On the top of each inhale the Pale Silver and Pale Yellow Currents meet at the Azur-A Point at the base of the Thymus, forming a large spark of the "Golden-S ver ONE", Silver-Gold ight n the Azur-A. Exha e forceful y, using the breath to push Rays of Silver-Golden Light outward, in al d rections, through every Atom and into the Auric Field

Repeat the 2 point "Golden-Silver ONE" breath 3-6 times, or unti you feel a ting ing, or a sense of spreading warmth, throughout the AzurA

Of a far away dream
Once was a night
When the candle fires burned

Once was a night
When the Nightinga es sing
Once on this night
Worlds were born

Once on a day
When the sun shone its brightest
Once on a day
When the breezes rose high

Once on a day
When the rivers flowed with sorrow
Once on this day
Worlds were gone

But today, in th s moment in the heat of the fire
Burns a long-aching dream of l fe returned from the pyre
Oh come near new life reborn

Come, come, rise from the waters
Come, come, rise from the sea
Reach forth heart of the l on
R nging out from the ancient lands of dest.ny

Once were a peoples
Pure and of innocence
Once were a peoples
Loving and free

Once were a peoples
Alive with eternal light
Once were a peoples--the Haia eai (Hi-A-_ay) In Victory

Once came a wind
Dark and cold from the lowly places
Once came a spawn
Of the dark fallen sun

Once when the rays
Of the demon spread suffering

Resetting the Cosmic Clock – the Cosmic 12:12/11:11 Activation

Universal-Galactic-Planetary ***Amoraea-Eckasha-A Flame Body Activation*** **INITIATED** on **November 5-6, 2002,** with the **Scepter-Ecka 12:12/8:11:11 Veca Star Gate-12 Activations**, t wi complete with activation of the 12th Reuche Scepter Pillar, the ast of the 12 Reuche Scepter Pillars, and activation/**CONSUMMATION** of the Universa -Galactic-Planetary **Amoraea-Eckasha-A Flame Body** on **December 21, 2012** For **Bridge Zone alignment** and passage into the Jniversal Amoraea-Eckasha-A Flame, the body and Shields of the ascending life-field must be able to receive and hold the **"13th Pillar" Initiation** that will enter Earth's Shields during the **May 27, 2003 HE-Thar-O Peak**. The "13th Pillar" Initiation represents the activation of the **KRIST-1 Code** n Earth's Shields (Second Coming of the Cosmic "Christ") The **Krist-1 Code Activation** carries with t simultaneous activation of the (Templar) **Reuche-1, Scepter-1, Ecka-1** Lock Key-Code sequence The **K1-R1 S1-E1** Lock Key-Code Templar Activation Sequence a so known as the **"Cosmic 11:11"**, initiates/anchors the **"13th Pillar"** Eckasha-Aah-Amoraea-Flame (in the Azur-A Sh elds Center Point), from the **Eckasha-Aah God Core Worlds** down the Eckasha-A, Eckasha and Ecka God World "Stairway", and nto the Density-1 Un versal Veca Shields (and all Veca Solar/Planetary Shields) When the "13th Pillar" center point Amoraea Flames within the Azur-A points of Shields in tiate/anchor, then activate/consummate (beg n transmitting the r codes through the Shields), the 12 Templar Reuche Pillars of the Eckasha-Aah God Core World begin their in tation/anchoring consummation/activation cycle down through the God Worlds and into the Jniversal Veca Systems This process is known as **"Resetting the Cosmic Clock"**

The **"Cosmic Clock"** represents the **natural time-pulsation rhythms** that set the *synchronized alignment and opening/closing cycles of Star Gate* sets from the highest God World to the lowest Veca "Heavens" The **12 Reuchea Scepter Pillars** of the Eckasha-Aah God Core Worlds represent the **"Cosmic Clock"**, as they eterna y hold the Original energy expansion/contraction, time pu sation rhythms program of the **Cosmic Divine Blueprint**. When a lower God World or Veca system experiences **critical mass damage** to its Divine Blueprint Shield, the 12 Reuchea Scepter Pillars of the Eckasha-Aah Cosmic Clock ***automatically*** set the "Cosmic Clock" n motion the 12 Pillars are sent down through the Star Gate "steps" into the damaged system, resetting the system's original Divine Blueprint via the Cosmic Divine Blueprint Re-sett ng the Cosmic Clock serves to clear **all time distortions** from the damaged system. Th s allows the damaged system s Star Gate network to *re-synchronize* with the Cosmic Star Gate opening/closing cycles, placing the damaged system back "on l ne" with its original time-pu sation rhythm, which constitutes its organ c time-cycle progression through the density systems. The self-regulat ng Cosmic Clock 12 Reuche Scepter Pi lar system is an ntrinsic part of the Original Div ne Creation, the manifestation in Cosmic terms of Source-God's original Divine ntention of creating a perpetually self-sustaining, Eternal Life creation arena The Cosmic Clock within the Cosmic Krist of the Eckasha-Aah God Core Worlds is capable of perpetually maintain ng the synchronized balances of expans on and contraction of consciousness and energy nto and out of manifest expression It is the **Divine "Checks and Balances" system** embodied through the Divine Order of the **Cosmic Template-Pillar** or **TEMPLAR**, that allow the Creation to be continually self-sustaining and self-regenerat ng, as a reflection of the God-Source nature and Divine Intention

The Waves of Ascent and Descent, Cosmic 11:11 and Blue Fire Sword Initiations and the 12-Reuche Pillars

The **Cosmic 11:11 13th Pillar**, the Center-point of the Cosmic Reuche that holds the **Eternal Eckasha-Aah-Amoraea Flame** of Living **Ka-Tha-Ra** ("Light-Sound-ONE) Initiates in Earth's Shields on **May 27, 2003**, and Consummates/activates on **August 12, 2003** Consummation/activation of the Cosmic 11 11 Lock Key-Code Sequence beg ns immediate n tation of "re-sett ng the Cosmic Clock" with Initiation/anchoring of the first of the Eckasha-Aah Reuche Scepter Pillars **Reuche Scepter Pillar-1 INITIATES** with the Cosmic 11 11 Consummation on **August 12, 2003**, and **Consummates**/activates on **December 21, 2003**. The remain ng 11 Reuche Scepter Pillars will In tiate and Consummate on these same dates (Initiate-August 12, Consummate December 21) unt the fina Consummation-activation of Reuche Scepter Pillar-12 on **December 21, 2012**. (Pillar 1-2003, Pillar 2-2004, Pillar 3-2005, Pillar 4-2006, Pillar 5-2007, Pi ar 6-2008, Pillar 7-2009, Pil ar 8-2010, Pi lar 9-2011 and Krist Capstone Pillars10-11-12 on 2012) Portions of the Universal-Galactic-Planetary-personal Sh elds that can receive/anchor and hold the Cosmic 11 11 13th

Pillar Initiation during the **HE-Thar-O Peak of May 27, 2003** will be able to **"Catch the Wave of Ascent"** into the natural Universal Time-pulsation Rhythm as the Cosmic Clock Initiates on **August 12, 2003** Portions of the Shields that cannot hold the Cosmic 11 11 initiation will anchor the **D13R Blue Fire Sword Metatronic Initiation** as it simultaneously anchors in Earth's Shields on **May 27, 2003** entering the **"Wave of Descent"** to the Wesedak Black Hole system

Blue Fire Sword, Gold Wave Monadic Infusion & Golden Censer Pulse, the Golden Arches & Stonehenge

Initiation of the **inorganic Blue Fire Sword** Base-8 D13R frequency was set in motion via UIR activation of the unnatural **Universal-Veca 666-BeaST Machine** on **March 23, 2002** On **November 5-6, 2002**, as the natural Base-12 D7/D8 Universal **Gold Wave Monadic Infusion** entered our Universal Veca Shields via the D-8 Mintaka, Orion USG-8, the UIR simultaneously launched their inorganic Base-8 D/8R **"Golden Censer"** pulse into our Universal-Galactic-Planetary Shields. The natural Gold Wave Monadic Infusion releases the first set of central Lock-Seals within the Azur-A Point Shield Centers, opening the central Universal Veca passageways to receive the "13th Pillar" Eckasha-Aah-Amoraea Flame during the Cosmic 11 11 Initiation of May 27, 2003. Once activated, the Gold Wave Monadic Infusion becomes a progressively intensifying arc of natural D7/D8 frequency The **Gold Wave Monadic Arc** serves as an "anchoring rod" for the natural 13th Pillar Eckasha-Aah-Amoraea Flame frequency within our Universal-Galactic-Planetary Shields. The inorganic **"Golden Censer Pulse"**, created by the Wesedaks as part of the BeaST Machine, was designed to force open an **unnatural Wormhole** in our USG-8 Mintaka, Orion Once activated the Golden Censer Pulse becomes a progressively intensifying, constant arc of Base-8 D8R Monadic-Reversed frequency The **Golden Censer Monadic-Reversal Arc** serves as an "anchoring rod" for the D13R Blue Fire Sword frequency within our Universal-Galactic-Planetary Shields

On **November 5-6, 2002**, as the opening of Planetary Star Gate-12 (Monsegur, France) commenced, both the Gold Wave Monadic Arc and the Golden Censer Monadic-Reversal Arc Initiated within our Universal-Galactic-Planetary Shields. This event is known as the **"Initiation of the Golden Arches"** The **Gold Wave Monadic Arc** entered Earth's Shields via its organic entry point of PSG-12, Monsegur France The Golden Censer Monadic-Reverse Arc entered Earth's Shields via the inorganic forced entry point of the **NDC-Grid** (Nibiruan Diodic Crystal Grid) at **Stonehenge, England**, which has served as the contrived anchoring point for the Earth's unnatural electro-magnetic link to planet **Nibiru** and its Battlestar **Wormwood** transmitting station since **25,500BC** During the 22 326BC failed SAC and Nibiruian Annunaki invasion of Earth, the NDC-Grid network (created during the 25,500BC **Lucifer Rebellion**) was put "on line" with the Wesedak's **"BeaST Machine"** through an agreement known as the *Archangel Michael* (cover name for Wesedak Nephilim) -*Lucifer* (cover name for the Thoth-Enki Nibiruian Annunaki) Alliance Since the 22,340BC **"Archangel Michael-Lucifer Alliance"**, the **NDC-Grid/Stonehenge** has served as the primary receiving and transmitting station for **infra-sound transmissions** of Base-8R Metatronic frequency that has slowly but progressively, initiated sub-harmonic activation of the **6 Metatronic Implants** within Earth's Shields. Since failure of the Wesedaks' intended takeover during the 22 326BC SAC, the NDC-Grid imbedded within Earth's mantel beneath Stonehenge had been the Wesedaks' intended **"anchoring point"** for the **Golden Censer Monadic-Reversal Arc** and the **D13R "Flaming Blue Sword of Archangel Michael"** (Most genuine **"crop circles"** in England have been orchestrated via Wesedak races, as they periodically enter **"programming codes"** into the **NDC-Grid system** via its extensive network of interface grid- nes)

The NDC-Grid Stonehenge site is connected to the elaborate **""Michael-Mary Turnstile Matrix"** network that is intended to globally distribute the Blue Sword current once the May 27, 2003 Planetary Fire Sword Initiation occurs and the 6 Primary Metatronic Shield Implants have initiated The NDC-Grid Stonehenge site first receives the Golden Censer Monadic-Reversal Arc then transmits the Arc directly to the D11 5 "Metatronic Eye" **Avalon Seal Metatronic Implant receiver** located beneath the Earth's mantel at **Rennes-le-Château, France** From Rennes-le-Château, the Golden Censer Arc traverses Earth's Shields to **PSG-12 Monsegur, France**, via an intricate **Amethyst Crystal** AP N-interface **implant transduction matrix** positioned beneath the medieval castle-town of **Carcassonne, France** The original UR/Wesedak plan involved using the Golden Censer R-Arc to destroy PSG-12 then create a grid-network interface

from the Avalon Seal Rennes-le-Château Implant, to the **666-Appolyon-Metatronic Seed Atom** positioned within the planetary **Azur-A** point (off coast of Sahara NW Africa). The Golden Censer R-Arc was intended to destroy PSG-12 as the Arc passed through PSG-12 during its Initiation cycle, pass into an Amethyst APIN-interface located in the country now called **Andorra** (on France-Spain boarder) then arc back up to the **Carcassonne** Amethyst-APIN-interface and **Rennes-le-Château** Avalon Seal. From Rennes-le-Château, the Golden Censer R-Arc follows an APIN-line into the grids beneath what is now **Paris, France** where **3 Metatronic interface-amplification-implant networks** were positioned in **10,500BC**. the Paris interface sites have been progressively activated via the NDC-Grid since the **1800s**. The **Paris Implant-1** "Receiving and Amplifying Station", located beneath what is now the **Louvre Museum**, was set into full function with creation of the Massive "**Glass Pyramid" structures** in the Court Yard which serve to harness, amplify and store the Golden Censer R-Arc frequencies. **Paris Implant-2** is a Transducer located beneath the **Seine River**; it draws the Golden Censer Arc frequencies from the Louvre implant, then transmits the R-Arc outward to the main transmission station of **Paris Implant-3** located beneath the **Eiffel Tower**. The tower serves to direct the projection/transmission angles of the Golden Censer R-Arc. The **Paris Golden Censer Interface** was created to strengthen the power of the Arc, and later the Blue Sword, so that the Blue Sword current would be powerful enough to activate the 666-Metatronic Seed-Atom (Sahara Africa), and override and reverse the natural program of **PSG-11** Vale of Pewsey **Milk Hill, England**. The Wesedaks intended to direct the lower PSGs of Earth Templar via the PSG-11 gate. **The Paris Golden Censer Metatronic Interface transmits to the 666-Metatronic Seed-Atom and the HAARP machine in Alaska via a series of "Space-needle" building transducers, then the HAARP machine bounces the Golden Censer R-Arc via satellite back to the NDC-Grid at Stonehenge, completing the circuit, where it next interfaces directly with PSG-11 England and Cue Site-11 Ireland**

Secrets of the "11s & 12s": The Cosmic 12:12:12:12/Universal 11:11 Initiation of November 5-17, 2002

When the natural Gold Wave Monadic Infusion and inorganic Golden Censer Pulse began Initiation of the Gold Wave Arc and Golden Censer R-Arc on **November 5-6, 2002**, the NDC-Grid at Stonehenge, the Avalon Seal at Rennes-le-Château, the Amethyst APIN-interface and the Paris-3 of the **NDC-Grid/Blue Sword Anchoring Network came "on-line"** with the **Golden Censer R-Arc**. The Blue Sword will enter Earth's Shields via the Stonehenge NDC-Grid anchoring point, activate the **666-Metatronic Seed-Atom** implant and **4-Metatronic Black Heart implants**, traverse the **Anchoring Network** to **PSG-11** England, then run the global **MM-Turnstile Matrix** via the European "**Michael-Mary Line**" and **Rachel Grid** APIN interface. On November 5-6, the UIR/Wesedaks were **not successful in destroying PSG-12**, due to orchestration of what is called the **Cosmic 12:12:12:12/ Universal 11:11 Initiation**. The Cosmic **12:12:12:12 Initiation** began on **November 5-17, 2002** as the **Scepter-12-Ecka-12-Veca-12-Reuche-12 Lock Key-Codes Initiated** within the Universal Veca Shields and were anchored into Earth's Templar by Indigo Children at Monsegur, France as PSG-12 began its opening cycle. **The *"secrets" of the "11s &* 12s" have always referred to the precise sequence of *Lock Key-Codes that needed* to be entered into the Cosmic-Universal-Galactic-Planetary Shields in order to open the Density-Locks and Star Gates to the Eckasha-Aah God Core Worlds**. Implementation of the Cosmic 12 12 12 12 Code represented activation of the Cosmic "Checks and Balances", by which the **Cosmic Clock and Cosmic Divine Blueprint** would be **reset within the lower Shields, via** anchoring/ **Initiation** and activation/**Consummation** of the **12-Reuche Scepter Pillars** of the **"Cosmic Clock" Reuche God Seed Core.**

The **Cosmic 12:12:12:12 Activation** will allow the **Universal Radial Bodies** from the **Eckasha-A** Universes to the **Universal Veca** Systems to open, forming the **Eternal Eckasha-Aah-Amoraea Flame** Body "**support capsule**" through which the final **Cosmic 11:11 Activation** can take place to **reset the Cosmic Clock**. The **Cosmic 11:11 Activation** is the Templar Lock Key-Code Activation Sequence that **opens the Shield Azur-A center point Locks** from the **Eckasha-A** to the **Universal Veca and its planets/stars**, enabling the **"13th Reuche Pillar"** the **Eckasha-Aah-Amoraea Cosmic Flame** to enter into the lowest Veca Universes. The Cosmic 11 11 is in actuality the entry of the "**ONE Codes**"- ***Reuche-1, Scepter-1, Ecka-1 and KRIST 1.*** The Krist-1 Code opens the Azur-A center seal of the Cosmic Krist Shield and Eukatharaista-Amoraea Flame Body, allowing release of the **Eukatharaista-Amoraea "Cosmic Krist Flame"**. The Krist-1 Code holds within it the mathematical programs of **all of the "ONE" Codes** below it, and thus the **1-**

1-1-1 Lock Key-Code Sequence is entered into the Shields via the **single Krist-1** Code. The long-anticipated event of entering the Cosmic Krist-1 Code and the 1-1-1-1 Lock Key-Code Sequence into the "Stairway to Heaven" levels for resetting of the Cosmic Clock and Divine Cosmic Blueprint has been referred to as the "**Second Coming of Krist**" or "Christ" (the first is the original creation-point). The 1-1-1-1 Lock Key-Code Sequence became "cloaked" within the "**11:11**" symbology. The Cosmic 11:11:13th Pillar Activation begins the re-set cycle on the Cosmic Clock, the Eckasha-Aah-Amoraea Flame "**Pillar 13**" at the Shield Center **Azur-A** first anchors/Initiates and Consummates within the lower Shields, then the 12 Reuche Scepter Pillars of the Cosmic Clock progressively initiate and Consummate. The 12 Pillars "Ride on the Carrier Wave" of the 13th Pillar and thus the Cosmic 11:11:13th Pillar Activation must occur before the Cosmic Clock can be reset. Before the 13th Pillar Eckasha-Aah-Amoraea Flame can anchor/ Initiate within the lower Shields, the **Universal Radial Body Density Locks** for the Eckasha-Aah, Eckasha-A, Ecka and Veca Universes must be released to allow the Eckasha-Aah-Amoraea Flame 13th Pillar to pass from one God World level to the next level below. The **Cosmic 12:12:12:12** Lock Key-Code Sequence (**Scepter- 12-Ecka-12-Veca-12-Reuche-12**) must first activate to activate the outer Cosmic Universal Radial Bodies into their Flame Body, which then opens the central shield Azur-A points to open to receive the Cosmic 11:11:13th Pillar Lock Key-Code Sequence. The **opening procedures** for Resetting the Cosmic Clock are the running of the Cosmic **12:12:12:12/11:11 Templar Code Sequence**. The Cosmic Templar opening procedure has become cloaked within the "**12:12/11:11**" symbology which has been known as the "**Krist Code**", and in our Universal Veca as the "**Code of the Second Coming of Krist/Christ**". All of this symbology has always referred to the eternal procedures for resetting the Cosmic Clock for restoration of the Cosmic Divine Blueprint within all manifest worlds.

The Cosmic 12:12 Templar Sequence began Initiation on November 5-17, 2002; the Cosmic 12:12 Activation/Consummation will occur on December 21, 2002, preparing Earth's Shields for the May 27, 2003 Cosmic 11:11 (Krist-1 Code) 13th Pillar Initiation. The Cosmic 11:11 13th Pillar Activation/Consummation will occur on August 12, 2003. The first part of the Cosmic 12:12 Code (Scepter-12) was initiated on **November-5, 2002, at Monsegur, France**, as the natural Gold Wave Monadic Infusion Initiated during PSG-12 opening. The **second part** of the Cosmic 12:12 (Ecka-12) was Initiated on **November 6, 2002** at the **Rennes-le-Château** Avalon Seal Metatronic Implant. The **3rd part** of the Cosmic 12:12 was **expedited** into Initiation on **November 7-8, 2002** in **Carcassonne** through Initiation of the **Universal Monadic Override Sequence**. (The "Universal Monadic Override Sequence" utilizes Initiation of the **Veca Code-8, Veca-Code-11 Sequence** which triggers **expedited Initiation of Veca Code-12**, via using the "Monadic Code" **Veca-8** to run the **Gold Wave Infusion**, allowing **Veca-11** and its **parallel Veca-11** to merge for triggering of **Veca-12** initiation. This "Monadic Override" is often referred to as the "Universal 11:11 Activation", Veca-11/Parallel-11= Veca-12 initiation. Initiation of the Cosmic 12:12 Sequence allowed the Ecka Guardian races to rapidly draw the Gold Wave Monadic Infusion Arc from PSG-12 France as it activated, up into the **NDC-Grid at Stonehenge** where the Golden Censer R-Arc enters, circulates out from and back to, to form a closed circuit in Earth's Templar for the Blue Sword to follow. This action allowed the natural **Gold Wave Arc to break into the UIR closed circuit, a portion of *the Gold Wave Arc* intercepting and phase-bonding to the Golden Censer R-Arc. The Arc phase-bond allowed the Gold Wave Arc to split into two Arcs, one moving from Stonehenge to Cue Site-11 Ireland, the other running with the Golden Censer Arc** to the Avalon Seal at Rennes-le-Château, France, the Carcassonne APIN-nterface, and through PSG-12 Monsegur. The phase-bonded Gold Wave Arc created a **protective shield for PSG-12** preventing its destruction as the Golden Censer Arc passed through. The phase-bonded Golden Censer Arc ("anchoring rod" for the Blue Sword) and Gold Wave Monadic Arc, ("anchoring rod" for the 13th Pillar Eckasha-Aah-Amoraea Flame") passed from PSG-12, to the Andorra Amethyst-APIN-nterface, back to the Carcassonne Amethyst APIN-nterface and Rennes-le-Château and into the Paris Golden Censer Interface system to the 666-Metatronic Seed-Atom and the HAARP machine in Alaska, then back to Stonehenge and PSG and Cue Sites-11. **On November 11, 2002, the phase-bonded Gold Wave Arc, carrying 3 parts of the Cosmic 12:12:12:12 Code, made its way throughout the closed-circuit network of the Golden Censer Arc Blue Sword transmission line, creating an open-circuit interface via the portion of the Gold Wave Arc that did not phase-bond to the Golden Censer R-Arc**. This complicated network of "Arc Interface" will cause the **NDC-Grid, Avalon Seal and global MM-Turnstile network** to run the Gold Wave Arc, Cosmic **12:12:12:12 Activation** and coming **Cosmic 11:11 13th Pillar Activation** Eckasha-Aah-

Amoraea "Cosmic Arc of Eiros" **through the 666-Metatronic Seed Atom** during the **Planetary Fire Sword Initiation** of **May 27, 2003**

The HE-Thar-O, Return of the Krist, Splitting the 666-Seed-Atom and Shield Separation

The event of "the BeaST" running a partial "Kristic Code" via partial temporary Monadic phase-bonding will allow for **SPLITTING OF THE 666-Metatronic Seed-Atom** through the intricate process of the **"HE-Thar-O"**, by which the present 31-51% majority Planetary Shields Phase-lock and resultant pending **Solar Red Pulse** can be averted. The **HE-Thar-O Cycle**, which began initiation on **November 5, 2002** with Initiation of the first Scepter-12 Code and which will begin running the final part of the Cosmic 12 12 12 12 Code, **Reuche Code-12** on **November 22, 2002** will reach the **HE-Thar-O PEAK/ Consummation** on **May 27, 2003** (between **11:11 PM-12:12AM** May 28 2003 JSGRT-Universal Standard Shield-Resonance Time). At the end of this hour of **HE-Thar-O PEAK**, known as **THE GREAT SILENCE**, the **Cosmic 11:11 13th Pillar** and the **Krist-1 Code** will **Initiate** in our Universal-Galactic-Planetary Shields and the **666-Metatronic Seed Atom of Earth will split**. Simultaneously all **Universal 666-Metatronic Seed-Atom Implants** of the **BeaST Machine** will split and our **Universal-Galactic-Planetary-PERSONAL Shields** will Initiate the **cycle of Resetting the Cosmic Clock and Cosmic Divine Blueprint**. Splitting of the Metatronic SeedAtoms will **release** the present state of **Universal Shield 31-51%** (Divine Blueprint Remaining) **Phase Lock** which would, if left unattended create the effect of **Solar Red Pulse** destruction upon anchoring of the BeaST's Blue Sword during the May 27, 2003 Planetary Fire Sword Initiation.

Commencement of the HE-Thar-O Peak and the Cosmic 11 11 13th Pillar Initiation will set in motion the natural process of the **separation of Shields**, as the irreparable portions of the Universal-Galactic-Planetary-Personal Shields that carry less **than 30% remaining Divine Blueprint** (Shield portions with Monadic Reversal) will progressively draw into Wesedak Black Hole fail alignment as the Blue Fire Sword Activation begins Consummating in their grids following HE-Thar-O. The portions of the *Shields* that have not experience Monadic Reversal will begin the **Cosmic 11:11 Initiation** as the **13th Pillar Eckasha-Aah-Amoraea Eiros Eternal Flame** frequencies anchor in their grids. **Portions of the Shields that are able to anchor the Cosmic 11:11 Initiation 13th Pillar during the May 27, 2003 HE-Thar-O Peak, to "Catch the Wave of Ascent", will receive the Cosmic 11:11 Consummation/activation and Initiation of anchoring the 12 Reuche Scepter Pillars to Reset the natural program of the Cosmic Clock within the Shields on the Magnetic Peak-day of August 12, 2003**. During the May 27, 2003 HE-Thar-O Peak all portions of the Universal-Galactic-Planetary and PERSONAL Shields **will anchor one of the two "Arcs"**- the Base-8 D13R **Blue Fire Sword Metatronic Black Hole "Arc of Descent"** or the **Base-12 13th Pillar Eckasha-Aah-Amoraea Eiros "Krist Arc", also called the "Arc of the (Emerald) Covenant (of Palaidor).** Amoraea Flame Body Initiations Techniques 12, 13, 14, 16 and 17 are needed to prepare the personal Shields for Activation of the Cosmic 12 12 12 12 on Dec 21, 2002 & the Cosmic 11 11 of May 27, 2003.

Flaming Blue Sword from "Hell"

On **March 23, 2002**, the UIR initiated early activation of the **Phase-1** D-11.5 **Avalon Seal** in the Universal (U)-Galactic(G)-Planetary(P) Templars (U = Aveyon-Avalon Moon, G = Chiron & Charon Pluto Moon, P = **Rennes-le-Château, France**) **beginning release of the D13R Metatronic "Blue Sword" frequencies** in Star Gates 12 (**PSG-12 France**) and 10 (**PSG-10 Iran**) and within our corresponding **embodied Templar Chakras 12 & 10**. On **July 24th, 2002**, the UIR **Phase-locked the date activation codes for** the **"666 Templar Seal"** Apollyon-Metatronic Seed Atom Implant (U = Sirius-A, G = Jupiter, P= Sahara NW Africa). The "666 Seal" will activate on **May 12, 2003**, and undergo a **15-day incubation** period before transmitting through Earth's Templar on **May 27th, 2003**. As the "666 Seal" Metatronic Seed Atom activated it will open our U/G/P Templars to receive the "**Final Pierce of the Flaming Blue Sword**", as the **full Blue Sword D13R Current** emerges through the **Universal SG-666 configuration**. Our **Universal Veca systems**, our galaxy, planet and our bodies will undergo the "**Fire Sword Initiation**". Activation of the "666 Seal" will **draw our Time Matrix, Phantom and the Wesedak Matrix together at the USG-6 position**, Metatronically merging the Shields of our USG-6 Sirius B, Phantom USG-6 Sirius A and Wesedak USG-6 Apollyon. As the 666 artificially bonded USG-6 Shields merge, the "Blue Sword" with the **horizontal cross-bar of its "Handle" at the USG-666 position**, will send its **"Handle Shaft"** upward as an **Electric Blue Arc to USG-8 Orion Mintaka** (Orion's Belt), then to **USG-11 Lyra Aveyon** (the "E3/USG-11 Gateway to Inner Earth's SG-3 Agartha in the Ecka Universe). The Blue Sword **"Blade"** will **simultaneously arc downward** from the USG-666 conversion point from USG-6 Sirius-B, to USG-5 Alcyone, to USG-4 our Sun to **USG-3 Earth**, to USG-1 Trapezium Orion (Orion's Sword). When the Blue Sword anchors in USG-3 Earth, it will arc horizontally to **USG-6 Jupiter** in our Galactic Templar, activation the GSG-666 configuration and a **horizontal "Blue Sword" in our Galactic system**. Simultaneously the Blue Sword will arc from USG-3/GSG-3 Earth core, into our planetary Templar anchoring at the **Planetary Azur-A point near Sahara NW Africa**.

Once anchored, "**Death-Blue Arc**" will rapidly link with, via PSG-12, Monsegur France and PSG-10 Iran, the **March 23, 2002 activated circuitry** of the D-11.5 **Avalon Seal in France**, which is the control point for the Planetary "**Michael-Mary Turnstile Matrix**" Implants or "**MMTs**". The MMTs will simultaneously transmit Rays of Death-Blue Arc directly to the "**4 Black Heart**" implants in the Planetary Templar, setting the "**4 Black Hearts into full beating**", causing them to rapidly transmit the **Blue Sword of Death** throughout Earth's Templar. As Earth's Templar receives the Blue Sword of Death, Earth's Shields will begin merger with those of Phantom Earth and a Wesedak Planet called **Nebonti** (WUSG-9) via **PSG-666 alignment** that anchors through Earth's PSG-6 **Moscow, Russia**. As the 666 artificially bonded PSG-6 Shields merge, the "Blue Sword of Death", with the **horizontal cross-bar of its "Handle"** at the **PSG-666 Moscow position** will send its **"Handle Shaft"** to **PSG-8 Xian China**, then to **PSG-11 England**. Simultaneously the **"Blade"** will arc from PSG-6 Moscow to PSG-5 Machu Picchu, Peru, to PSG-4 Giza, Egypt to **PSG-3 Bermuda**, to PSG-2 the Gru-Al Planetary Shield Central Control Point at Sarasota, FL, to PSG-1 S. Pole and throughout the AP Ns (Atlantian Pylon Implant Network) throughout the globe. As the Blue Sword of Death transmits throughout our U-G-P Templars our U-G-P Templar **"Shadow Bodies" will Phase-lock in position** and the **Shields of our Time Matrix will progressively reverse over a 2-5 year period**. As the Shadow Bodies Phase-lock, our natural Shields will progressively reverse to merge with the Shadow Body Shield, then systematically the Shadow Shield will merge with the Phantom Matrix Shield and finally the Phantom Matrix Shield will fully reverse and invert to merge with the Wesedak Shield within the Wesedak Black Hole system.

The Blue Sword of Death & the Amoraea Flame of Divine Christiac Love

The anti-christiac **Planetary Sword Initiation** wi set in motion a **corresponding and reciprocal effect** with n the **embodied Templars of Earth's life forms**, includ ng humans. As the "666 Seal" activates in **DNA Fire Code-6** and within the Azur-A point in the **Thymus Gland** and in the **Pineal Gland** between the cores of Chakras 6 ("3rd Eye") & 7 (Crown), our bodies will receive the Fire Sword In tation. The "Blue Sword of Death" rapidly nks, via **Kathara Center-12 /Chakra-10 and Kathara Center-10 Left Shoulder, with the March 23, 2002 activated circuitry** of the D-11 5 **Avalon Seal in Kathara Center-12/Chakra-10 above the head and Chakra-12 below the feet**, which is the control point for the embodied **"MMTs"**. On May 27 2003 as the 666 **Apollyon Metatronic-Seed Implants** activate in the **Thymus Gland Azur-A point**, our Shadow Body 2/3 reverse-Shield Phase-locks and our personal Shields **begin to merge with those of our Shadow, Phantom Earth and the Wesedak Shadow Dancers**. The "Blue Sword" horizontal **"Handle" cross-bar"** emerges within our bodies at the **"666 Seal" Azur-A position** next sending its **"Handle Shaft"** upward as an **Electric Blue Arc to Kathara Center-8** in the mid-Thymus then to **Kathara Center-11** at the Pineal Gland n the brain center. The B ue Sword **"Blade"** wi l **simultaneously arc downward** from the Thymus "666 Seal" conversion point to Kathara Center-5 Navel to **Kathara Center-4 Left Abdominal area & Spleen**, to **Kathara Center-3 Right Abdominal area and Appendix to Kathara Center-2 internal "Gru-Al Point"** in the **lower reproductive organs to Kathara Center-1 Earth's Core**. f it were not for **activation of the "Trans-harmonic Flame of Amoraea"** at the Azur-A point (re Techniques 1-3 & 7) and resultant embodied **12 Reuche Pillars**, we would be unable to protect ourselves from the Blue Sword of Death as t begins coursing through our planet beginning on **May 27, 2003**. On this date our Shadow Body 2/3rd reversed-Shield wi Phase-lock. f we do not generate the Amoraea wave in our bodies sufficiently by this date, the Shadow Body reversed-shield will beg n drawing in and reversing our natura Sh eld progressively creat.ng DNA Template Monadic Reversa . If our Shields merge with the Shadow, we wi l follow part of Earth's reversing Shields nto Phantom Matrix merger, then finally complete Shield merger with the Wesedak matrix black hole system in 2-5 years (2005-2008). Activation of the organ c Divine Blueprint Amoraea Flame generates sufficient trans-harmonic frequency in the body to progressively neutralize Metatronic Implants and sever Shadow Dancer cords, prevent ng the Shadow Body Shield from creating forced Shield Merger and DNA Monadic Reversal. Reducing the quantity of Elemental and Figment Attachments within the Shadow Body, and work ng to rapidly build the ful Amoraea Flame with n our bodies before the May 27 2003 Shadow Body Phase-Lock will lend much greater probability of our success n creat.ng protection from the Blue Sword of Death Planetary Fire Sword Initiation.

The Arc Project- Anchoring the 12-Reuche Pillars and Photo-Sonic Amoraea Arcs

The Templar-Crisis Emerald Ecka Override System & the ManU-EirA "Mother Arc" of Amoraea:

When the "Fina Conflict Drama" ended in Stale-mate between the Black Hole races & Guardian races during the **22,326BC** failed Stellar Activations Cycle (SAC), the **Yanas of the Eckasha-Aah Worlds** instructed the **Eieyani Flame Keeper Races of the Ecka** Worlds to "put Earth on-line with" the **ancient imminent crisis templar override mechanism** called the **Emerald Ecka Override System** or **EEOS**. When the Wesedak black hole races from a fa en Veca Universe in **Eckasha-A Spectra-2** invaded our **Eckasha-A Spectra-3** Veca Universe via activation of their **Arimathaea Wormhole** during the Gaian-Orion Wars **570 million years ago**, the Yanas of the Eckasha-Aah instructed the Ecka Eieyani races to install the EEOS within key control areas of the Universal, Ga actic and Planetary Templars of our Universa Veca (our 15-Dimensional Universal Time Matrix & its Para lel T me Matrix). During the Wesedaks' and Pleiadian-Nibiruian Anunnaki invasion of Earth's Lemuria and At ants in **22,326 BC**, the Yanas' order was given for the Ecka Eieyani to install the EEOS mechanism in the Planetary Shields of Earth and Para lel Earth. The EEOS was created as the "**final option" for crisis intervention**, should the **Wesedak** Black Hole races initiate the **final activation sequence** of their **Templar "BeaST" Machine**. The Wesedaks' construction of the "BeaST" Machine in our Universal Veca began **570 million years ago**, in **25,500BC**, during the **"Lucifer Rebellion"** and **"Archangel Michael-Lucifer Pact"** of Atlantis, the **NDC-Grid** (Nibiru an Diodic Crystal Grid) Nibiruian Anunnaki Earth-sh eld installment **initiated Earth's forced link-up to the BeaST Machine**. When the Wesedaks fa led to fu f l their invasion agenda in the 22,326BC SAC, they systematica ly upgraded their BeaST implant system on Earth, insta ing the **"4 Black Hearts of Metatron"**, the **"Apollyon-666-Metatronic Seed-Atom"** and **"Michael-Mary Turnstiles" implants** in Earth's shields in preparation for the next scheduled 2000-2017AD SAC. Earth is Un versal and Galactic Star Gate-3 and our Sun is Universal Star Gate-4 in our Universal T me Matrix, making our solar system a primary target for the Wesedaks' BeaST agenda. Due to the Universal Templar positions of Earth and our Sun, our solar system holds the **final key for completion and fulfillment of the BeaST agenda**. In response to the "pend ng doom" of black hole assimilation that the Wesedaks intended for Earth and our Time Matrix, the Yanas and Eieyan brought the EEOS crisis intervention mechanism to Earth, implanting the EEOS network in Earth's Shields.

The EEOS was designed to **prevent the BeaST machine from drawing this Universal Veca into their Black Hole system**. In the event that ful BeaST activation was initiated, the EEOS would in tiate automat c and reciprocal activation. Activation of the EEOS would set in motion an **Ecka Star Gate release sequence** that wou d **systematically open the Ecka Gates from the Eckasha-Aah Reuchea down to the Veca system**, allowing the **12 Reuche Pillars** and the **Amoraea Eternal Flame** to fully anchor with n the **Veca Shields**, preventing the shields from completely revers ng for Black Hole descent. The 12 Reuche Pillar Se-Urs from the Core God Worlds wou d serve as **shield stabilization fields** holding the integrity of the core shields template (Kathara Grid), while **rapidly resetting the Divine Blueprint** from the Eckasha-Aah Worlds down. The EEOS would literally **"reset the Cosmic Clock"** of **Templar Star Gate Cycling Sequences**, restoring the **original "Clock Setting"** upon which th s Veca Matrix was founded **950 billion years ago**, before the first black hole Phantom Matrix fall of **250 billion years ago**, during which our Universal Veca **"Cosmic Clock" was slowed** to allow the **Phantom Matrix healing experiment to commence**.

Once activated, the EEOS opens the **Ecka Gates "Path of Amoraea" Gate 12-9-6-3-1 Sequence**, beginning with the lowest Gates in the Universal Veca & moving upward to the Eckasha-Aah Reuchea, the Path of Amoraea Gates release the **AMORAEA CENTRAL FLAME** of the Reuchea, creating a massive **CENTRAL SE-UR' ARC of ManU-Amoraea "silent sound" frequency**, that serves as the central **carrier-anchor wave** for the **Se-Ur' Arcs of the 12 Reuche Pillars**. Once the Amoraea Arc releases into our Universal Veca t **breaks into 2 Arcs**: the base-magnetic-Particum **ManU-EirA MOTHER ARC** that anchors in our **Veca Quadrants 1-4** of our 15-Dimensiona Time Matrix, and the base-electrica -Partika **ManU-ManA FATHER ARC** that anchors in **Veca Quadrants 2-3** of the **Parallel Time Matrix**. Once the "Mother and Father" Arcs of Amoraea and their **"Daughter & Son" interface Arcs** are anchored in the Universal, Ga act.c and Planetary Shields via the Ecka Star Gates and their **Crystal Pylon Temples**, the **12 Reuchea**

Pillar Standing-wave-Arcs anchor The 12 Reuche Pillars are between our Veca Quadrants and the Parallel Quadrants, **holding our Time Matrix and the Parallel Matrix together through the central Inner Ecka World,** while permanently severing the link to the BeaST Wesedak Shields interface systems The **EEOS** is designed to cut our Universal Veca free from Phantom and Wesedak "BeaST" Wormhole Networks in the event that the BeaST is "awakened" The EEOS is the last resort of protecting our Veca Universe from being "devoured by the BeaST" and permanently assimilated by the Wesedak Imploding Black Hole system

On **March 23, 2002**, the UIR initiated the **final activation sequence of the BeaST** bringing the last of the **"4 Black Hearts of Metatron"** Shield Implants to life, fully initiating the **"Flaming Blue Sword of Archangel Michael" TURNSTILE MATRIX** and **"Fire Sword Initiation"** The Wesedak **Turnstile Matrix implant system**, called the **"Michael-Mary Turnstiles"**, is the **"circulatory system" of the BeaST Machine**, that systematically runs the Wesedaks artificially generated **D-13 Reverse Current, via the "666" Star Gate wormhole alignment** (Universal Star Gates 6, in our Time Matrix Phantom Matrix & Wesedak Matrix) through all primary Universal, Galactic and Planetary Templars in our Universal Veca The **"Blue Sword" Current** is intended to fully reverse the Kathara Grid core templates within our Universal Veca to the **Anti-Christiac** (severed D-12 Divine Blueprint) **Metatronic Wesedak Code** The **Metatronic Code** is a contrived permanent irreparable **mathematical shield template mutation** that allows black hole races to create a **"living dead" electro-static, artificial life, inverted matrix** through which they can postpone the inevitable implosion of their systems by forcefully draining the life force energies from, and "assimilating" the life fields of, living Time Matrix systems On March 23, 2002 the **automated EEOS system initiated automatic activation in response to the Blue Flame Current released by the UIR activated BeaST machine** As per the long-standing, ancient EEOS crisis intervention protocol, Guardian races immediately moved to their **"PLAN B" AMORAEA ARC PROJECT** agenda.

The EEOS is designed in a way that **requires the incarnate presence of Eieyani Indigo races** on the planet to release the **EEOS Emerald Security Seals** on Earth's Templar in the event of EEOS activation If the Emerald Security Seals are not released through "downloading" the **Indigo DNA Template Security Seal Keys**, due to destruction of the Indigo populations, the **12 Reuche Pillars will force their way through the sealed Templar of Earth**, saving this Time Matrix from permanent destruction, but causing major pole shift on Earth This aspect of the EEOS was a **necessary security measure**, it is intended to clear surface of invading races that need physical presence on planet to complete BeaST activation and Wesedak assimilation As long as the Indigos remain alive and free on Earth, they will release the DNA Security Seal Keys into Earth's Templar, allowing for the Amoraea Arc Project crisis intervention to commence without causing severe Earth changes **The UIR BeaST Machine is designed to intentionally create pole shift, which is needed for Wesedak black hole assimilation; as long as the EEOS Security Seals are released by the Indigo Earth Teams, the intended cataclysmic effects of the BeaST can be greatly reduced, though not completely averted**. In response to this now imminent circumstance, the **Guardians' "PLAN B" Amoraea Arc Project agenda also includes rapid EVAC training** in preparation for the likely event that the BeaST agenda will cause political chaos and Earth changes severe enough to warrant temporary evac of humans, Indigos and Earth life forms to the Inner Ecka Earth counterpart planet (Aramentania) Evac to the Inner Ecka system is available to life forms whose DNA is capable of withstanding base-12 Ecka Star Gate passage First priority in the PLAN-B Amoraea Arc Project agenda is the **Indigo Emerald Security** Seals Release initiative, which will prepare Earth's Templar to **safely receive the Amoraea Arcs and 12 Reuche Pillars**

The Amoraea "MOTHER ARC" will enter Earth's Shields between May 5-May 31, 2003, as the UIR activates its "666-Apollyon-Metronic Seed-Atom" of the BeaST Machine The "666-Apollyon" Shield Implant is positioned in Earth's Shields at **Planetary Density-Lock-2**, near **Sahara NW Africa** the natural Planetary Kathara Grid center point at which the **Amoraea MOTHER ACR**, or **"13th Pillar"**, transfers from USG-3/GSG-3 at Earth's Core into Earth's Planetary Templar The **UIR's intended activation of the Beast via release of the "666-Apollyon" Implant on May 12, 2003** will set the **"4 Black Hearts of Metatron"** Implants in Earth's Shields into simultaneous activation The May 12, 2003 L R BeaST activation will take **15 days to initiate in Earth's Shields** On **May 27, 2003 the "4 Black Hearts of Metatron" Implants will begin "beating"** and the **Amoraea MOTHER ARC** will **simultaneously reach full activation**

in Density-Lock-2 These events will usher in the official starting point of manifestation of the **"NIGHT OF THE 2 MOONS" prophecy** **Activation of the "4 Black Hearts"** will set the Wesedaks intended planetary **"Fire Sword Initiation"** and the next phase of **Illuminati One World Order Script "Trigger Events"** including initiating preparation for the **"return of Nibiru-Battlestar Wormwood"** scenario, in full swing As the UIR rouses the BeaST from its Planetary-Lock-2 air on May 27, 2003 the **Amoraea MOTHER ARC "13th Pillar" will simultaneously release** within Planetary Density-Lock-2 The **Amoraea MOTHER ARC ManU-EirA Current** of "standing silent sound" **will intersect with the Wesedaks' D-13R "Blue Sword" Current** of reversed matrix Photo-Radion c Light **within the 666-Apollyon Implant,** causing the **"666-Apollyon Metatronic Seed Atom" Implant to SPLIT** as its unnatural forced bonding to Earth's Templar at **PSG-11** Milk Hill Vale of Pewsey-England is severed Splitting of the Metatronic Seed Atom Implant **will prevent the "Blue Sword" Current from running through and reversing portions of Earth's Templar that have at least 51% of the organic Divine Blue Print (DBP) remaining in the Shield. Areas of Earth's Templar that have less than 30% DBP remaining, which implies a 70% Metatronic mutation, will receive the "Blue Sword" Current and "Fire Sword Initiation", and will be unable to receive or anchor the protective frequencies of the Amoraea MOTHER ARC. Areas of Earth's Shield receiving the Fire Sword Initiation on May 27, 2003, via the splitting of the "666-Apollyon Metatronic Seed Atom" Implant, will begin to separate from the organic Shields of Earth that hold 51%+DBP and begin the Temptate Monadic Reversal and frequency descent into *the Wesedak* Black Hole within 2-5 years. This Planetary Shield separation, which WILL initiate on May 27, 2003, will begin the separation of Earth's Planetary Radial Body, a process that will be completed on December 21, 2012, and will mark the beginning of fulfillment of the prophecy of the "NIGHT OF THE 2 MOONS"**

Areas of Earth with **51%+ DBP will become ascending, stable BRIDGE ZONES to the Inner Ecka Universe** Areas with **30% - DBP will become descending, progressively volatile "BLACK HOLE ZONES"** Areas of Earth's Shields that **have not already succumbed to 70% Metatronic Coding** will become **unstable "GREY ZONES"**, which the **Planetary Tectonics, Climatic Patterns and populations will progressively strain as the regional Planetary Shield progressively splits** into an **ascending Bridge Zone Shield** and a **descending Black Hole Zone Shield**

The safest "Safe Zone" on Planet is WITHIN YOUR OWN ACTIVATED AMORAEA FLAME BODY which, when sufficiently activated, creates a "walking safe zone portal passage to *Inner Ecka Earth and the Temple of Khem-a-lo-ha-tea*", while strengthening Planetary Shield protection wherever you might go.

Technique-13:
Shadow Healing Step-3 De-Cording Shadow Dancers

Purpose: To rapidly and easily free the personal Shadow Body, Shields, DNA Template consciousness and spiritual identity from unnatural Metatronically-bonded Wesedak-Nephilim Black hole Shadow Dancer "energy vampires" to reclaim Christiac self-sovereignty over your personal 15-dimensional anatomy so DNA Template Bio-regenesis can complete for natural Merkabic Ascension

Preparation **Technique-8 Part One or Part Two** just prior to Technique-13. Technique-13 should be used as a **direct, sequential extension of Technique-8** Part One or Part Two. For **first 6-weeks** of Shadow Dancer Decording use **Part One Amoraea DNA Template Buffer**. After this 6-week period, Part Two Amoraea Insta-Buffer Daily Supplement will generate sufficient frequency thrust as long as you have been using Technique-8 Part One Amoraea DNA Template Buffer once per week (once every 7 days) in conjunction with consistent daily use of Part Two Amoraea Insta-Buffer Daily Supplement. This Technique-13 should be used **no more than twice per week, and only once per week for 6-weeks** when first beginning. Consistent use of Technique-13 **once or twice per week for a period of 1-2 years** will clear all major Shadow Dancer and other minor Elemental and Figment attachments for **most individuals**, but the **process may take longer for those carrying greater amounts of DNA Template Metatronic reversals**, or who have entered **"Dark Side" contracts** or received **"Blue Fire Sword Metatronic Initiations"** in this life or in other lifetimes.

"Dark Side" contracts are presently being "called in" by the Wesedak races via the Metatronic Coding of the "Karmic Imprint" in the DNA Template. Technique-13 will assist in reversing attempted Wesedak "body snatching" in such cases but continued twice weekly (after first 6-weeks) use of this technique will be needed for an undeterminable amount of time to continually "keep the Shadow Dancer at bay" for those who are **near full DNA Template Monadic Reversal**. In cases of near Metatronic Monadic Reversal **(only 31%-35% of natural D-12 Divine Blueprint remaining in DNA Template as of March 23, 2002)** full sustained 4-density Amoraea Flame and Eckasha Merkaba activation **cannot fully anchor in the physical body**, as there is insufficient time in one contemporary human lifetime to override such critical mass of Metatronic coding. For individuals experiencing this **Karmic Dilemma** physical, bodily stargate ascension in this lifetime is no longer an option, but use of Techniques-8, 13 and 14 (Amoraea Invitational-Integrating the Shadow) combined with Veca Code technologies will ensure a **safe, natural Bhardoah** (death transition) passage when the **"natural time" comes**. The individual will be enabled to "pick up" the full Eros and Amoraea Flame Body from the **D-4 Astral Body level** as natural Bhardoah occurs, so easy reincarnation into an **advanced, more fully healed Christiac-coded human body in the Bridge Zone Space-time cycles** can rapidly commence. Individuals under full Metatronic Monadic Reversal will be entering a **different path of hybridized evolution** within the Wesedak Black Hole system following their Bhardoah transitions.

Procedure

NOTE: The **Heliotalic "Tri-Breath"** was used prior to Hetharo May 2003 and was comprised of **Pale-Silver D-12 Maharic Current, drawn UP from Chakra 13, Pale-Yellow D-14 Current DOWN from Chakra-14** (36" above your head) and **Ecka Heliotalic Current** (Ecka-based Pale Silver mixed with Pale Rainbow Pastel Colors) drawn from above the right shoulder at a 45 degree angle (the angle of the Ecka before Hetharo 2003).

For the purposes of this exercise now, (post-Hetharo 2003) the Ecka Heliotalic Current can be drawn from vertically above the head from beyond Chakra 14.

1. Following the last step of Technique-8 Part One or Part Two, take several gentle, free breaths while focusing your mental attention in the **"Throne of Power" Azur-A Point** at the base of the Thymus Gland. Take three Heliotalic Tri-Breaths - On the **Inhale**, draw **Pale-Silver D-12 Maharic Current UP from Chakra 13**, draw **Pale-Yellow D-14 Current DOWN from Chakra-14** (36" above your head) while simultaneously drawing drawing in the Heliotalic Current. Direct all three currents to **meet at the Azur-A Point on the top of each inhale** forming a **large spark** of the **"Golden-**

Silver ONE + Heliotalic Currents", Silver-Gold ight plus Pa e Silver mixed with Pa e Pastel Colors, in the Azur-A. **Exhale forcefully**, using the breath to **push Rays of Silver-Golden Light, Pale Silver mixed with Pale Rainbow colors outward**, in all directions, through **every Atom, and into the Auric Field** Repeat the 3-Point breath 3 times

2 Breathe freely for a moment, eyes closed, and **speak out loud three times** the following **Tonal Command** in the ancient Anuhazi-Elohei language **Bi-Vectus... OOR'-A... E'-sha..Nur..... a-TUr'** (this means "I AM NOW my D-12 Christos Self past-present-future forever more)

3. Following **the 3rd repetition of the Tonal Command, repeat one time in your native language the following Command: "I... in my wholeness... declare NOW... that mine eyes shall see the tormentor here before me. I call to thee... Dweller of the Darkness...Shadow Dancer at the threshold of my Soul....in fearless, blameless, all-forgiving unconditional LOVE. In Christ Love I bid you fond farewell. In Divine Truth I move now to set US free, to each fulfill our original Christed destiny. GO in PEACE. Be warned Beloved Fallen; withdraw alone, before the Eternal Life Fires of the Universal Christos burn thee. I NOW reclaim my wholeness and Christed sovereignty. I call now to the Sacred Power of my personal inner Christos, awakening the Spark of the Golden-Silver ONE, and I call upon the Amoraea Flame of Divine Love that burns eternal now within me....FREE NOW all that which is born of unholy union. RELEASE NOW from my being, all unintended creations. UPLIFT ME NOW to the fulfillment of my INNER ETERNAL DIVINE."**

4. Breathe freely for a moment, eyes closed, and focus your mental attention upon the inside of your forehead, at the **6th "3rd Eye" Chakra** Imagine that a **tear-drop-shaped Pale-Silver 2-dimensional Eckasha Symbol** appears within the darkness on the inside of your forehead, forming an **Eckasha-shaped "Inner Movie Screen"** If you cannot yet visualize this image, simply know that it is there Breathe slowly but freely and **calmly observe any images, pictures or colors** that may appear upon the Eckasha Screen **Listen inwardly** for any "inner mind chatter" Shadow-body or Shadow Dancer commentary **DO NOT REACT AT ALL** to any images or words that may emerge simply **OBSERVE in peaceful, LOVING DETACHMENT** You are **completely SAFE** within the **LOVING EMBRACE of your personal Inner Christos**. Here no thing can hurt you. Here, you may rest freely to explore and review any and all parts of your multidimensional experience If nothing emerges simply carry on with Shadow Dancer De-Cording steps to follow If you receive inner impressions, observe them a bit if you desire and when you feel ready move on to complete the Shadow Dancer De-Cording process

5. Take one 3-point Heliotallic breath, using the INHALE breath to simultaneously draw Pale-Silver energy UP from Earth's Core and Pale-Yellow energy DOWN from Chakra-14 and the Heliotallic Frequency to meet within the spark at the Azur-A Point in the Thymus HOLD THIS BREATH at the TOP of the INHALE to amplify thrust, while focusing mental attention directly into the Spark at the Azur-A. Use a strong, quick EXHALE breath to forcefully push the Heliotallic Spark directly out in front of you to a position about 2 feet away from your body in the auric field, directly in front of the Thymus Grand Azur-A Point position Breathe freely for a moment following this Exhale breath

6 Imagine now, that you can **sense Dark Slimy-Black Shadow Dancer Cords** beginning to emerge from within their deep, forgotten hiding places **inside of your 7 embodied Chakras** Try to feel this movement or the weight of the heavy Shadow Dancer Cord energy as it begins to move out of the **front Chakra vortices** and **directly into the Heliotallic Spark** 2 feet out in your auric field Breathe freely and sense the **feeling of growing lightness within the regions of your embodied Chakras** as the Shadow Dancer Cords unwind from their ancient hiding places and are **drawn into the Golden-Silver-ONE Spark** for **transmutation and demanifestation** Take several moments to sense this simultaneous, multiple-Chakra clearing while breathing gently and **mentally repeating the "mantra" Command "I AM FREE NOW"**, over and over, until you begin to **genuinely FEEL the emotional TRUTH of this statement**. If you cannot yet FEEL the emotional release within this self-declaration of freedom **SLOW THE WORDS DOWN** in your head as you silently repeat the mantra draw the words out as if they were emerging from tape played on too-slow speed Repeat the "I AM FREE NOW" mantra a few times on "slow-speed", and if you still do not FEEL any emotional release,

simply let it be The emotional release of the sense of freedom will eventually come, possibly AFTER the spontaneous emergence of a "laugh ng-jag" "crying-jag", "phys cal-activity-jag" or "mini-temper-tantrum " **Be kind to yourself and refrain from self-judgment** as you enter this deep-healing process, et your emotional body express itse f, privately if need be, as it releases the pain anger, confusion, rage, sadness, gu lt and frustrated love that has been buried and "stuck" within the Subconscious Mind throughout over 25 000 years of Race Karma DNA Template mutation

7 Now turn your menta attention **away from any emotional response** you may be experiencing, and focus your mind on the thought or mage of the **Heliotalic Spark** 2 feet out in front of your auric field magine now that all presently available Dark Slimy-Black Shadow Dancer Cords have been drawn out of your Chakras and body and into the Golden-Silver-One Spark. Imag ne that you can see or feel the **Heliotalic Spark gently pulsating and vibrating** as it gently and lovingly **transmutes, purifies and sets free** the energies of which the Shadow Dancer Cords were composed

8. Breathe freely and mag ne for a moment that you can see n the **left side of your auric field,** the image of the **Wesedak Shadow Dancer** stand ng alone **within its Black Hole World**, a l Dark Slimy-Black connection Cords are gone **The Shadow Dancer can no longer drain life force energies from you or your Shadow Body**

9 Imagine that you now **observe the Shadow Dancer, without fear, without anger, without pity** . try to find with n your Christos Avatar identity power a **genuine vibration of gentle, nonjudgmental, unconditional LOVE** for the **retreating Shadow Dancer**

10 **Telepathically** send the Shadow Dancer a **message of forgiveness**, but also a message of **uncompromising assertiveness** n regard to your intention of gaining freedom and rema n ng free Send a **final wish of peace and healing** to the Shadow Dancer, only if you feel inclined to do so; but also remember that Shadow Dancers **do not hold such good intentions for you** Your body and consciousness are considered as "Real Estate" to them, they do not possess their own emotional body or nner Christos Spark, and so they are ncapable of g ving or receiving genuine love, caring or compassion **Feigning emotional responses drawn from mimicking human emotion** is a "talent" using by Shadow Dancers for many mi lions of years to **trick humans** nto interaction Release the Shadow Dancer now with **absolute Christos Love and absolute Christos TRUST** Know that you can trust the Shadow Dancer to express according to ts nature and that you can a so TRUST in the Divine Right Order and Perfection of Universal Love to embrace both you and the Shadow Dancer as you go your separate ways

11 Breathe freely for a moment, then **INHALE**, using the **Inhale breath to draw your Heliotalic Spark from the auric field back into the Azur-A Point** in the base of the Thymus The Golden-Silver-ONE Spark has transmuted and de-man fested a l errant energ es that it absorbed from the Shadow Dancer Cords, and can safely return to you Open your eyes as if you are now a newborn baby, or perhaps a Christed Avatar that just now ncarnated on Earth anew . clear pure, undefined, unburdened being of Divine Right Order free to ive, free to ove, free to move forth in creation of a new and miraculous l fe

12 You may end th s healing session now, or proceed d rectly to **Technique-14 Shadow Healing Step-4 Amoraea Invitational - Shadow Body Integration**

Technique-14:
Shadow Healing Step-4; Amoraea Invitational-Shadow Body Integration

Purpose: To rapidly and easily hea and reintegrate the energies of the persona Shadow Body and Shadow Self that have been trapped for thousands of years within DNA Template reversa s Begins the processes of permanently healing the persona "Inner Child-Parent", and past-present-future, incarnationa Sub-personality fragments held within the unnatural y reversed Shadow Body Shield Begins progressive resetting of the D-12 Divine Blueprint within the Shadow Body Sh eld once Shadow Dancer De-Cording has occurred

Preparation Technique-13 De-Cording Shadow Dancers and ts preliminary Technique-8 preparations. Do NOT use this Technique-14 alone without first De-Cording all available Shadow Dancers as active Shadow Dancer Cords can use th s as an opportunity to draw more of your Shields and DNA Template into the Shadow Body This undesirable potentia cannot occur if Technique-8 (Part 1 or 2) and Technique-13 are used directly prior to Technique-14

Procedure

1 Following Step-11 in Technique-13 Shadow Dancer De-Cording breathe freely and move your **mental attention toward the left side of your auric field** to establish energetic contact with your **Shadow Body** and Sub-conscious **Shadow-Self** identity Imagine that you can **see or sense the presence** of your **Shadow Body** sitting or standing **next to the left side of your body**, in **exactly the same body position and gesture** that your physical body presently holds

2 **INHALE** Pale-Silver Maharic Current UP from Earth's Core and nto the **Heliotalic Spark** at the **Azur-A Point** in the base of the Thymus Gland **EXHALE forcefully**, using the Exhale breath to **push the Heliotalic Spark** from your Azur-A **straight out to the LEFT and directly into the Azur-A Point of your Shadow Body "double". Telepathically** send thoughts of LOVE, Safety Non-judgement, Protection and the desire for a joyful reunion to your Shadow Self, and a sense of RESPECT and ACKNOWLEDGEMENT for the vast stores of knowledge and memory your Shadow Body holds

3. **INHALE slowly and steadily**, us ng the Inha e breath to **draw the Heliotalic Spark WITH THE SHADOW BODY ATTACHED, directly into your physical body**, pulling the Golden-Silver-ONE spark back into your **Azur-A Point** and **aligning the Azur-A Points of you and your Shadow Body** The Shadow Body s now n a position with n you, where t can be energetically accessed for direct heal ng

4. **Take several 3-Point breaths** On the Inhale, draw Pale-S lver D-12 Maharic Current up from Chakra 13, wh le simultaneously drawing Pale-Yellow D-14 Current down from Chakra 14, as well as the **Heliotalic Frequency in from the right shoulder area**. (Since May 2003, breathe from above the 14th chakra) On the top of each Inhale the Pale Silver, Pa e Yellow and **Heliotalic** Currents meet at the Azur-A Point at the base of the Thymus, **expanding the Heliotalic Spark to the size of a large grapefruit. Exhale forcefully** using the Exhale breath to push **Rays of Silver-Golden Light mixed with Pale Rainbow Colors outward, in all directions**, through **every Atom of your body**, nto the **Auric Field** and **throughout every atom of the Shadow Body "double" within you** Repeat the **3-Point "Heliotalic" breath 6-12 times** or unti you feel a tingling, or a sense of spreading warmth and lightness within the Azur-A and throughout your physical body **Presently accessible portions** of the personal Shadow Body have now been **cleared of Template Reversals**, realigned with your organic **Christos Divine Blueprint** and re- ntegrated into the natural structure of your personal Shields and DNA Template.

Technique-15:
Amoraea Contact Platform

Purpose: TO BEGIN SUBTLE EMERALD ORDER CONTACT

Preparation: Eckasha Maharic Quick Seal (Technique-1) To activate D-12 Maharic Current and strengthen bio-energetic field integrity The **"Silver Sanctum Sequence"** of "*Astral Awake, Aware & Able*" (Technique-2) and "*Eiros Flame & the Silver Sanctum*" (Technique-3) must be done previously **at least one time (in this lifetime)** to engage the Silver Sanctum-Eros Flame Activation The activated Density-1 *Eiros frequencies* are required to interface with the *Amoraea Gateway* featured in this Technique

1 After running the Eckasha Maharic Quick Seal for activating Flame Body, close eyes and breathe slowly for a few moments. Move your mental attention to a **point of focus at the top of the breastbone**, at **Chakra-8** just above Chakra-4 and below Chakra-5, below the clavicle Beneath this position on the physical body lies the **Azur-A** the tiny **"control center"** for the embodied Kathara Grid Template, within the base of the Thymus Gland With attention focused in the Azur-A, imagine that a deep-Azure-blue **Azurite Crystal Sphere** is located within the Azur-A, within the Azurite Crystal lies the "**Throne of Power**" the Center Point of the embodied **Ecka God-Seed** through which the **Eternal Flame of Amoraea** embodies

2 Imagine yourself and your awareness as a **Spark of Pale-silver Maharic Light**. **As** this Spark of Maharic Light, imagine that you are **traveling into the center of the Azurite Crystal Sphere**, to the **Gateway of the Amoraea Flame of Eternal Christed Love** Imagine that the **Amoraea Gateway is a tiny Maharic Silver-Egg**, the cosmic Amoraea Egg encased within a **deep-Azure-blue spherical standing-wave** Imagine that you as the eternal Maharic Spark, move to the center of the Amoraea Egg within the Azurite Crystal You have entered the place of your Eternal Birthright; you have entered the **Hallowed Ground** of your original **Divine Heritage** as a living expression of the ONE God-Source The Amoraea Egg, within the Amoraea Gateway and Manu Azurite Flame, is the **Eternal STILL POINT** through which the **"Still Small Voice of God-Self Within" speaks** Visualize or intend that **you, as the Spark of Maharic Light, are now positioned within the Amoraea Gateway** a Pale-silver Spark of Light encased within the Pale-silver Amoraea Egg, within the Eternal Azurite Flame of the deep-Azure-blue Azurite Crystal Sphere, the inner Ecka Center-point of Creation **Here, all things are eternally still, calm and peaceful** Here is the **SANCTUARY WITHIN; the INNER TEMPLE OF Khem-a-Lo-Ha-Tea, the Eternal "Safe Ground" and Perpetual Guardian of one's personal, eternal, DIRECT relationship to God-Source**

3. **INHALE Maharic Current up from Chakra-13 Earth core and into the Azurite Crystal center, directly into the Amoraea Gateway** through the Azurite Flame and **into the Amoraea Egg. EXHALE gently filling the Amoraea Egg with Maharic Current**. Imagine now that the **Amoraea Egg has begun to awaken**, responding to your intention and desire to return to the AT-ONE-ment with your God-Self **the Amoraea Egg now fills with pulsating Pale-silver Maharic Light, and expands, growing larger and larger, extending outward to encase your physical body in a beautiful, shimmering Egg of Eternal Life** Imagine now that you can **SENSE the living presence of God-Source and your personal God-Self EVERYWHERE around you. You are encased within its eternal love, mercy, protection and Divine Understanding** Imagine that you can **see and feel the Amoraea Egg fully encasing your physical body** and that an **Azurite Flame** of deep-Azure-blue **extends into the room, fully enshrouding you within the Amoraea Egg capsule** Extend your imagination to remember that beyond the Azurite Flame is the Azurite Crystal Sphere; SENSE the **Azurite Crystal as extending 20 feet or more around your physical body in the room. You have brought your "Throne of Power" directly into the 3-D world now; you ARE the STILL POINT NOW** You have brought the **Amoraea Gateway** directly to the doorstep of D-3 finite creation **From this point of eternal power and**

love you can heal all, understand all, love all, co-create all. Within the Amoraea Egg you and God-Source are one. You ARE NOW your GOD-SELF

4. **INHALE deeply** drawing Maharic Current up again to the **Azur-A Point** at the Thymus Gland **EXHALE Maharic Current into the Azur-A and FEEL the Maharic Current rapidly expand to every atom and cell in your physical, emotional and mental body** The Maharic Current s the **CARRIER WAVE**. **INHALE Maharic Current directly from the Azur-A, then EXHALE "horizontally"**, us ng the Exha e breath to expand a **Maharic Wave DISC outward from the Azur-A**, extending its perimeter to touch the inside of the **Amoraea Egg** around your physical body

A. VISUALIZE A BLUE SPARK OF LIGHT IN THE CENTER OF THE BRAIN AT THE PINEAL GLAND; THIS REPRESENTS A PORTION OF YOUR CONSCIOUS AWARENESS.

B. INHALE, THEN USE THE EXHALE BREATH TO MOVE THE BLUE SPARK DOWN THE CENTRAL VERTICAL CURRENT OF THE BODY TO THE TAIL BONE.

C. BREATHE NORMALLY FOR A FEW MOMENTS WHILE VISUALIZING THE BLUE SPARK INSIDE THE BONE OF THE TAIL BONE.

D. USE THE NEXT INHALE TO DRAW THE BLUE SPARK UP TO THE PINEAL GLAND THEN UP THROUGH THE 7TH CROWN CHAKRA AT THE TOP OF THE HEAD.

E. EXHALE, AND IMAGINE THE BLUE SPARK AT THE TOP OF THE HEAD TURNING INTO A 4" BLUE DISC OF LIGHT SITTING HORIZONTALLY ON TOP OF THE HEAD.

F. IMAGINE NOW, A SMALL IMAGE OF YOURSELF AS YOU LOOK IN PHYSICAL REALITY, SITTING ON TOP OF THE BLUE DISC. THIS IS YOUR 5TH DIMENSIONAL CONTACT PLATFORM.

G. SIMPLY PRACTICE GOING INTO THIS CONTACT SPACE AND STAYING FOCUSED THERE, DOING THIS MILD D-5 KUNDALINI ACTIVATION FOR ONE-HALF HOUR, 3-4 TIMES PER WEEK FOR 2 WEEKS.

H. ONCE YOU ARE ABLE TO HOLD THIS 5TH DIMENSIONAL FREQUENCY IN CONSCIOUSNESS (USUALLY ABOUT 2 WEEKS OF PRACTICE) AN EO MEMBER WILL GENTLY APPROACH YOU IN YOUR VISUALIZATION ON THE BLUE DISC PLATFORM TO BEGIN SUBTLE COMMUNICATION.

INHALE and magine that the Maharic Disc s now contracting with the Inha e breath, drawing the Amoraea Egg, Azurite flame and Azurite crysta back into the Azur-A Exha e once more nto the Azur-A, Jsing the Exhale breath to depos t your "Throne of Power" back into ts home station within the Azur-A in the Thymus Gland

PRIOR TO SLEEP EACH NIGHT, AS YOUR LAST THOUGHT BEFORE FALLING ASLEEP REPEAT MENTALLY SEVERAL TIMES *"I AM READY FOR EMERALD ORDER CONTACT NOW. I WILL REMEMBER CONTACT ON AWAKENING"* KEEP JOURNAL PAPER AND PEN NEXT TO BED AND WRITE DOWN ANY REMEMBERED DREAMS, NO MATTER HOW INSIGNIFICANT THEY SEEM.

ALWAYS KEEP A JOURNAL HANDY TO MAKE A *WRITTEN* RECORD OF YOUR EXPERIENCES WITH THIS CONTACT TECHNIQUE.

Preparation: Technique - 16 & its preparatory steps just prior

Procedure: Astral - Etheric Induction of the Veca - 11 / Parallel Veca - 11 Code Thun-Immanu

1 Imagine the **Eckasha Symbol** (Ecka Code-3) in the Pinea Gland at brain center

2 **INHALE, HOLD a PAUSE-BREATH** for a moment, then **forcefully EXHALE** the Eckasha down the Central Vertical Current into **Chakra-13** at Earth's Core.

3 **INHALE** using the inhale breath to draw the **Eckasha symbol** up from Chakra-13 to the **Heart Chakra-4. EXHALE** the **Eckasha symbol** horizontally out the front of your **4th Heart Chakra** and imagine that it is now stationed in the Etheric Body about 1-inch out from the physical body, over the front of the Heart Chakra.

4 Hold **a paper** containing the Veca Code-11 Thun-Immanu symbol **symbol facing out** away from body. over your Heart Chakra. and **INHALE**, imagining that the energy signature of the Thun-Immanu Code passes through the paper to combine with the Eckasha symbol stationed there in your Etheric body Continue the INHALE drawing the Thun-Immanu symbol with the Eckasha symbol beneath it into the Center Seed-Crysta Seal in the center-point of the Heart Chakra-4 where the inside tip of the Chakra cone intersects with your Central Vertical Current EXHALE the Thun-Immanu/Eckasha symbol into the tiny **Seed-Crystal Seal** in Chakra-4

5 **INHALE** using the inhale breath to draw the **Thun-Immanu/Eckasha symbol** upward from the 4th" Chakra Seed-Crystal Seal, through the Central Vertical Current and into the Pineal Gland at brain center **EXHALE,** using the exhale breath to expand the Eckasha symbol only into the Pineal. Then **INHALE,** using the inhale breath to collect energetic thrust. and **EXHALE** forcefully using the exhale breath to push the **Thun-Immau** symbol only upward and out the Crown Chakra-7 all the way up to Chakra-14 36 inches above the head. **INHALE,** then **EXHALE,** using the exhale breath to push the Thun-Immanu symbol down the Central Vertical Current, into Chakra-13 at Earth's Core **INHALE** once more using the inhale breath to draw the Thun- Immanu symbol up to the center of your Mahanc Shield 12" below your feet On a final **EXHALE**. Use the exhale breath to expand the Thun-Immanu symbol outward horizontally from the Mahanc Shield center until the symbol expands to fill your entire Mahanc Shield disc. Take a few gentle breaths to amplify the Thun-Immanu symbol expansion if desired.

6 **Next Tone out loud the Thun-Immanu Tonal Activation Sequence as follows:**

(Note Line-1 Tones use same melody as the Eckasha Tones in Line-2)

Line-1 Thun-ImmanU Tones:	**Um- et'-a / Ur'-nam A'-sa / Ur**	**Eckasha**
Line-2 Eckasha Tones:	**Um-ah-A / ThrA' E-Na / A**	**Eckasha**

"Withness": Personas, Power Nodes, and Divine Self-Expression

The questionna re herein represents the beginning stages of a new self-assessment system designed to heighten awareness of the areas of strength and weakness n one s own re.ationsh p to "personal power re.ationsh ps" and the "competitive" frequency expressions associated with these Expressed in terms of Keylontic Science (Kathara Manual refers) this means looking into the array of Apparth present in one s Personal Shields. Apparth are "energy receivers" (programs) which organically, draw frequencies from the Unified Field for translation (thought-action impulses). However, some are keyed to the Shadow some to Wesedak and some to the Divine Blueprint Through more detailed understand ng of this we can identify those areas of the perception-thought re.ationsh p not aligned with the DBP, and thus derive the means to focus on areas of blockage and the specific frequenc es (Rays), and associated sub-harmonics, as a means to accelerate ntegration of one's Mu tidimensional identity complex.

The fu ly expanded System, and corresponding rationale, is hoped to be available for Contact , May 2003.

Meanwh le, answers to the attached questions offer a means to obtain insight into the frequency combinations flowing through the self n the present moment expenence of the 3D Hologram The dea behind the methodology is not about how "right" or "wrong", "better" or "worse" anyone might be, but instead seeks to offer insight into the areas of the sub-conscious which ndicate Shadow related blockages likely to be compromising day to day, and longer term, personal frequency management efforts.

The outcomes can be viewed within a "this life" context as wel as being representative of the multi-dimensional composition of the expanded Self across all Time Vectors and all aspects of persona Individuation reflecting, as they must surely do the "battle" or struggle with Duality across all planes of consciousness.

The structure and approach is derived from "classical" methods used in professional behavioura psychologica , Persona Analysis. However, the MCEO methodology seeks to identify the existence and extent of polarization between the dimensionalized pairings of E rA, ManA and the resultant ManJ balance point. The degree of organic expression which exists between pairs, and, across the entire spectrum of consciousness and conscious or subconscious identities can, and will be, described in terms of Personas, and in relation to the basic "Victim- Victimizer" 3D programming extant throughout the Personal and Planetary Shields and thus all humanity

Certain Persona pairs are more evidently under formation and modification during the early years of (this) life whereas others emerge in .ater life. Some emerge as a result of intuitive modification ans ng from early fe experiences some from the process of experience and maturity, some from the Soul, Over-Soul and Avatar levels whilst others arise from Shadow and "Shadow Dancer" stimuli Such phenomena, therefore, represent the underlying mythic themes found n a races and all cultures at a "contemporary" times.

We each represent something of a "type" within a type, and thus an experience within an experience as we play out our roles n return to At-One-Meat, each of us a theme of the greater human organism evoking perennia themes of lesson test and evolution The ultimate goal we al share is to complete one s fina ncarnation by integrating, and balancing, all frequencies to their positive expression i e by not be ng "victimized" (over-powered) by the negative expression of a particular frequency or sub-harmonic expressed as a thought-action impulse

The first thought-action impulse you might encounter from this point is to sneak preview the questions, spending time calculating the "best" answers, before you complete the questionnaire That is NOT what you are invited to do, in your own best nterests) But, if you do do that be k nd to yourself and *reflect for a* moment on what it is within you that needs to do that.

PLEASE F ND A QJ ET PLACE AT YOUR CONVENIENCE. TAKE A PEN TURN THIS PAGE, AND BEG N TO ENTER #'S 1 2 3 4 OR 5 REPRESENTING YOUR ANSWER (1= "LEAST LIKE ME" UP TO, 5= "MOST LIKE ME") ANSWER QUICKLY AND SPONTANEOJSLY !

Identifying Your Christiac & Rishiac Capstone Nodes

The Mutable Christiac & Rishiac Capstone Nodes

The Mutable Capstone Nodes represent the Primary Nodes presently activated within the Personal Shields. Among other things, identification of the Mutable Capstone Nodes reveals the following insights and potentials for direct, personal utilisation.

- The Primary Christos Founders and Brenaua Rishi Race collectives with which one is presently associated, and working.
- The dominant "Flame Group" (Blue, Gold, Violet) with which one is currently associated.
- The Primary Contact Ray through which internal communication is presently occurring and thus the most easily accessible Frequency Path for Inter-time, Multi-dimensional Communication
- The Primary Ray Colours through which one is presently directing personal, *Multi-dimensional,* power
- The Primary Capstone Tone through which the Personal Shields and Ray Currents can, presently be most rapidly activated.
- The Core Evolutionary Lessons in *Personal Power Management* one is presently "exploring"

Determination of your Christiac Capstone Nodes, review the overall PLC Balance scores within the Hearts shown on one of the preceding pages following the "Withness Test" (See "Overal PLCs Balance" page)

The Higher Dimensional (D13, 14 or 15) Heart containing the highest score represents your present Mutable Chrstiac Capstone Node This "score" arising from the "Withness" Test directly implies your Rishiac Mutable Capstone Node, as well

Technique 18
BETCHA-HOVA SCAN PROCEDURE

1 Run Technique 8 Part 2 (6 steps)

2 Do 3-breath optical-pineal induction with Ecka code #12 - Reionayana

3. Visualize the image of the "**Sun Code**" (below) at the pineal gland in the center of the brain Note The Sun Code *IS YOUR* Maharic Shield Envision the Sun Code with the 12 point behind you, the 6 point in front of you, the 3 point to the left and the 9 point to the right.

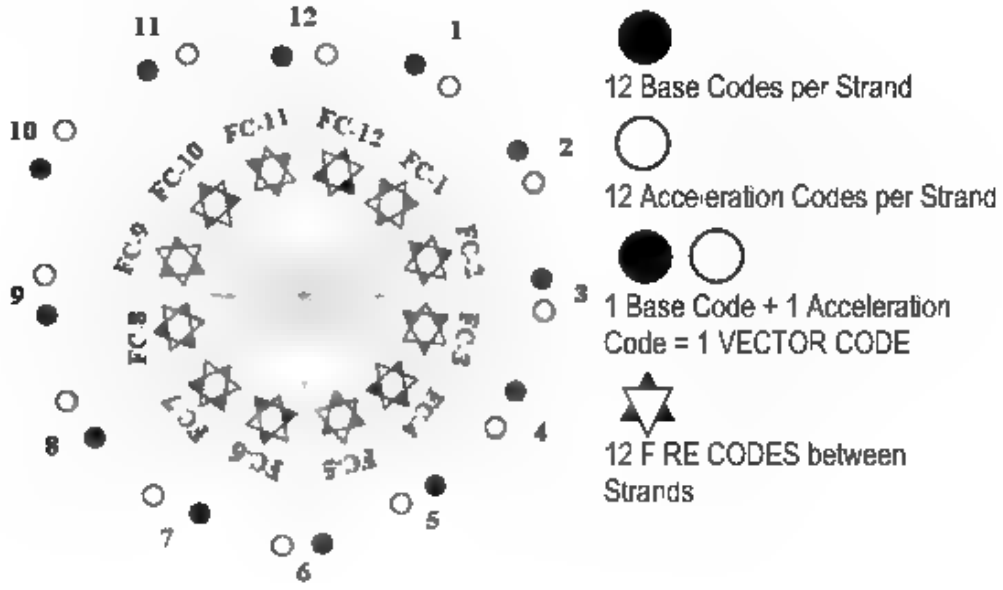
4. **INHALE**, then **EXHALE** the Sun Code down to chakra 13 earth core, and rapidly **INHALE** the Sun Code from chakra 13 up to the center of your Maharic Shield, 12" below your feet.

5. **Inhale** and **Exhale** gently while imagining the Sun Code expanding on the **Exhale** out into your entire MAHARIC SHIELD until it stops.

6 **INHALE** and contract the Sun Code back to the centre of your MAHARIC SHIELD and then rapidly up to your 6th chakra at the pineal gland

7 Gently **EXHALE** the Sun Code out of your chakra 6 (3rd eye) and into a position in your etheric body about 1 inch above your forehead - the etheric viewing screen

8. Turn to interpretation key (below) to read data from the Sun Code image



Copyright A & A Deane, 2002 All Rights Reserved

Self Betcha-Hova Scan Interpretation Key: ***The 12 Applications of Mastery***

Requires Amoraea Flame Body activation level 4 - **technique 8** and at least one time induction of the **Reushaia Veca Code #8** - the Monadic Key and the **Reionayana Ecka Code # 12**. (Technique 12)

1 Regenerate missing strand templates:
Observe the number of full strands appearing in the Sun Code. Note the strand number of the missing strands. **INHALE** Maharic current up from Earths core and **EXHALE** the mentally projected "missing strand numbers" into the centre of the Sun Code until a faint image of the missing strands appears.

2 Identify Core Shield Divine Blueprint:
After conducting application #1 above observe the border surrounding the Sun Code - as follows

a. Pale silver halo = 12 strand Earth T-2 Human
b. Pale turquoise halo = 24-26 strand Taran T3 Human
c. Pale gold halo = 25-27 strand Gaian Indigo-2
d. Pale pink halo = 28-30 strand Lyran-Sirian Indigo-2

e. Violet-red halo with silver inner halo = Indigo-3 12 strand hybrid upgrade to 25 strand Indigo-2
f. Pale pink flame = 31-36 Triadic Indigo-2 Braharama
g. Pale yellow flame = 37-42 Polaric Indigo-1 Seraphei-Seraphim
h. Pale turquoise inner and emerald blue-green outer flame = 43-48 strand Eckatic Indigo-1 Elohei-Elohim

∞ **i.** "Infinity" sign = hybrid engaging flame body healing

3. Percentage of Divine Blueprint Remaining in DNA Template:
Observe centre point of Sun Code and mentally request the % DBP to appear; will usually first indicate "read as a, b, c or d" as categorized below

A. 2-31% = flame activations will hold Dancers at bay but cannot fully de-cord. Amoraea flame will prevent future Dancer infiltration until natural body transition. Self will transfer to Bridge Zone 500-1000 years future incarnate as Haia im-1 for Regenesis.

B. 31-51% = flame activations will clear Dancer cords via gentle separation of Maharic and Metatronic portions of template. Can increase %DBP once Dancer is fully cleared. Will activate base-12 DNA until natural body transition. Will host to Bridge Zone incarnation at Ha alim-2 2000 years in future following transition.

C. 51.5-78% = flame activations will clear Dancers and expedite healing and activation of Shield. Possible to increase %DBP to 62-65% for Bridge Zone SG body ascension as "Way Shower". If not, self-generated SG ascension to Bridge Zone incarnation as Haialeai-Eieyan after transition.

Copyright A & A. Deane, 2002. All Rights Reserved

D 78-100% = flame activations rapidly heal and expedite ful activation of 12-48 strand potentia for direct body ascension to Bridge Zone, Tara, Gaia, Aramatena and Inner Ecka time cycle transmut.ng body back to Ha alea-Eleyani ong nal form Most flame contracts as Gate Keepers to assist others to Bridge Zone cycle

4. **Detect Flame Body Activation Level at Present:**
Observe centre point of Sun Code and mentally request activation evel to appear De-code as follows

= Density-1 full E ros Flame

= Density-2 full Amoraea Flame leve -1

= Dens ty-3 full Amoraea Flame level-2

= Dens ty-4 full Amoraea Flame level-3

= Density-4 full Amoraea Flame leve -4

(Note. Amoraea evels 3 and 4 will not fully activate unt.l 2012-2017, or in Evac. If a level is not yet complete, only full evel before wil be nd cated)

5. **De-code 12-Tribe and Primary Stargate #:**
Observe center point of Sun Code requesting the number (1 through 12) of your origina Earth Tribe, which is keyed to the corresponding planetary gate and Cue Site (Hybrids also have Tribe/SG#)

6 **De-code Christos Avatar family crest (Christic Capstone Constant):**
Observe center point of Sun Code mentally request.ng to v ew one of the three Universal Christos Avatar crests as t pertains to your personal family code

= Eloher-Elohim

Copyright A & A Deane, 2002 All Rights Reserved

= Seraphei-Seraphim

= Braharama

Indicates the original Christos Avatar family through whom you entered density in this Time Matrix

7 **De-code Rishiac family crest (Rishiac Capstone Constant):**
Repeat as above, requesting Rishiac family crest

= Emerald Order Breneau

= Gold Order Breneau

= Amethyst Order Breneau

= Ruby Order (can be or hybrid)

Gentle med tation via gazing at the Capstone Crests can exped te communication with your original family of consciousness and amplify Flame Body activation and Shadow Healing

8. **Detect if you have an Emerald Covenant Masters Templar Contract:**
View center point of Sun Code and request to know if either A or B below are part of your Shield DBP

A Ascended Masters Templar Code EOMC =
(one of the 144,000 other backup)

B Rish ac Templar Code EOMC =

9 **Detect the present of Knights Templar Annunaki Wesedak or Knights Malta Wesedrak Supplemental Seals (Inplants):**
Observe center point of Sun Code and interpret as follows.

= no additional reverse matrix templar seals

Copyright A & A Deane, 2002 All Rights Reserved

= Wesedak

= Wesedrak

Note appearances in any strands also. If detected keep mental note of strand locations, look at Scepter 12 (El-Haialeai) code induce Scepter 12 code via opt cal/pineal induction then project image of Scepter 12 code directly nto center of Mahanc Shield below your feet. Breathe the Scepter 12 code frequency on the **EXHALE** out into your Mahanc Shield until the Sun Code image at your 3rd eye chakra (6) reads "clear" of the Seal

10 **Check for Miasmic reverse-code strand overlays:**
Observe areas in each strand that appear darker, grayish or as if they have "Black Soot" encrusted over "Diamond Ch p" codes beneath. These are miasmic overlays

Note the strand number of greatest build-up and later (when scan is done or another time) place Scepter 12 code, face up directly over embod ed chakra corresponding to the strand number **INHALE** Pale S ver and Amoraea Flame Blue-Green frequency up from Chakra 13 and run it directly through the entire chakra and Scepter code image/paper, us ng the nhale breath to draw Scepter 12 code into the crystal seal at the chakra core This will clear the presently active levels of the M asmic overlays from the corresponding strand and chakra Check with scan in 3 days for more activation of Miasmic layers, clear every 3 days until that strand reads/scans clear, then move to another strand for clearing.

11 **Detect Fire Code/DNA Strand Braiding levels:**

Observe F re Codes between strands and read as follows

= Still Dormant

= Implant blockage

(Project image of Scepter 12 code directly into centre block every 3-6 days unt.l block fades or d sappears)

= 1/3rd activated

= 2/3rds activated

Copyright A & A Deane, 2002 All Rights Reserved

= fully activated

12 **Discover your D-12 Christos Avatar Name:**
Focus on Sun Code centre, tone "Um-ah-A thra-E-Na-A" 3 times while holding intention Breathe gently and imagine your Pale Silver Christos Avatar Self emerging in the Sun Code centre and clearly whispering your true name and its proper spelling!

«Withness» Questionnaire

Personas, Power Nodes, and Divine Self-Expression

The questionnaire herein represents the beginning stages of a new self-assessment system designed to heighten awareness of the areas of strength and weakness in one's own relationship to personal power relationships" and the "competitive" frequency expressions associated with these. Expressed in terms of Keylontic Science (Kathara Manua refers) this means looking into the array of Apparthi present in one's Persona Shields. Apparthi are "energy receivers" (programs) which, organically, draw frequencies from the Unified Field for translation (thought-action impulses). However some are keyed to the Shadow, some to Wesedak, and some to the Divine Blueprint. Through more detailed understanding of this we can identify those areas of the perception-thought relationship not aligned with the DBP, and thus derive the means to focus on areas of blockage and the specific frequencies (Rays), and associated sub-harmonics, as a means to accelerate integration of one's Multi-dimensional identity complex.

The fully expanded System, and corresponding rationale, is hoped to be available for Contact II, May, 2003

Meanwhile, answers to the attached questions offer a means to obtain insight into the frequency combinations flowing through the self in the present moment experience of the 3D Hologram. The idea behind the methodology is not about how "right" or "wrong", "better" or "worse" anyone might be, but instead seeks to offer insight into the areas of the sub-conscious which indicate Shadow related blockages likely to be compromising day to day, and longer term, persona frequency management efforts.

The outcomes can be viewed within a "this life" context, as well as being representative of the multi-dimensional composition of the expanded Self across all Time Vectors and all aspects of personal individuation reflecting, as they must surely do, the "battle" or struggle with Duality across all planes of consciousness.

The structure and approach is derived from "classical" methods used in professional behavioural, psychological, Persona Analysis. However, the MCEO methodology seeks to identify the existence and extent of polarization between the dimensionalized pairings of EirA, ManA and the resultant ManU balance point. The degree of organic expression which exists between pairs, and, across the entire spectrum of consciousness and conscious or subconscious identities can, and will be, described in terms of Personas, and in relation to the basic "Victim/Victimizer" 3D programming extant throughout the Persona and Planetary Shields and thus, all humanity.

Certain Persona pairs are more evidently under formation and modification during the early years of (this) life, whereas others emerge in later life. Some emerge as a result of intuitive modification arising from early life experiences, some from the process of experience and maturity, some from the Soul, Over-Soul and Avatar levels, whilst others arise from Shadow and "Shadow Dancer" stimuli. Such phenomena, therefore, represent the underlying mythic themes found in all races and all cultures at all "contemporary" times.

We each represent something of a "type" within a type, and thus an experience within an experience, as we play out our roles in return to At-One-Ment, each of us a theme of the greater human organism evoking perennial themes of lesson, test and evolution. The ultimate goal we all share is to complete one's final incarnation by integrating, and balancing all frequencies to their positive expression, i.e. by not being "victimized" (over-powered) by the negative expression of a particular frequency or sub-harmonic expressed as a thought-action impulse.

The first thought-action impulse you might encounter from this point is to sneak preview the questions, spending time calculating the "best" answers before you complete the questionnaire. That is NOT what you are invited to do, in your own best interests! But if you do do that, be kind to yourself and reflect for a moment on what it is within you that needs to do that.

"Withness" Personas & Power Nodes (Questionnaire)

The questionnaire used during the "Contact" Course has an implicit association with many years of research throughout the psychology profession, and many hundred of thousand points of individual feedback. This has led to a pretty refined assessment method for obtaining insight into the most recurring themes of Shadow expression (or Personas), as they relate to the potentials inherent in a "negative" uses, effects and relationships with personal power - from a 3D perspective, albeit limited to the "4 Body System".

The structure of the first MCEO version, however, is designed to shift the basis of analysis and interpretation into the "correct" realm of Multi-dimensional application, where such phenomena are seen for what they are - Energy Flow, Energy Distortion, Energy Balance, Energy Potential, the inherent relationship with Merkaba levels, Hova Bodies, Radial Body levels, personal Kathara Grid Crystal Seals and the relative flows of Prima Life Force Currents, and associated sub-harmonics. (This development is as yet only partially complete and should be available in full form by Contact II, Paxos, May, 2003). Nevertheless some commentary, in this context, follows the "Personas" detail (Page 7-8 refers). However, the Persona-based foundation of such a technique retains much value, not least because it presents a clear personal "Personas" perspective, and thus a conduit for the 3D mind providing the means to work directly with areas of imbalance from an immediate, Mental-Emotional-Spiritual, perspective.

Reading the "Scores"

There is no "perfect" score. Given our "typical" levels of conscious development on earth at this time, a score between 24-30 in each of the 12 spheres would be close to "ideal". Any score significantly above or below this reveals imbalance between the positive and negative "attributes" of a particular behavioral set of the "Victim/Victimizer" program. So, scores of 20 or below should be viewed as significant areas of as yet unrealized potential, since they indicate those aspects of self (Shadow) which are being repressed, denied or ignored. Scores of 33 and above are those influences most active in your life and, in adult life, it is these which are being used to dominate the so-called negative aspects of your make up, the area where greatest strength can also be the greatest weakness it should be remembered.

Each group of 3 spheres represents a major Persona Pair (PN1-2,4-5,7-8,10-11), feeding back through the expression of a third element (PN 3,6,9 & 12) which forms a bridge to the next group, as well as being a direct reflection of the pair with which it is connected. You should be much encouraged if scores in these Amoraea/ManU spheres (3-6-9-12) is above 33.

Overview

The summarized totals in the triangles below the spheres are a snapshot, at one point in time, of how well your process of Shadow integration is going: the ego/Shadow side is not something to be jettisoned in order to realize mastery. Balance of Shadow, or lack of it, is shown by reading the totals in triangles across from left to right. The first triangle (extreme left) represents your life start position and the balancing of parental karma, as well as your own, and the liberation from the acquired behaviors through the childhood experience. This resumption in persona power expression relates, usually, to movement in triangle 2, and to a higher score, indicating the progress made in restoring Soul direction. So, triangle 2 is a bit like your current progress report. Triangles 3 and 4 indicate both the level of awareness you incorporate from your Oversoul and Avatar levels, as much as it does the (frequency) contribution that each of these levels are themselves free to make in your journey Home.

Look to see which particular triangle(s) contains the highest score.

If triangle 1 is the largest score then: This shows that you are still preparing, still working toward your first big break-through in deep self-realization of the power that is yours. However, the boundary formed by the ego (to protect itself from your higher ideals) is still holding you separate from the potential that is you. And, you are not so certain that you feel comfortable with the experience that life is holding forth for you right now. Alternatively, the difficulty in moving to a freer and more powerful level of self-expression may simply be an element of Shadow (probably mimasmic) which feels some condition or circumstance needs to be changed or adjusted in order for the release and unification to occur. That means that you are denying or withholding love from both yourself and your

shadow and some reflection on the detailed breakdown of the influences given by the spheres may bring new awareness if you allow it.

If triangle 2 is the largest score then: This shows that the flower of the ego-Shadow is comfortable to acknowledge the new seeds of the self. If external conditions seem propitious, and if the inner strength has begun to express with some stability, the Soul influence will spring forth like seeds seeking fertile ground. If the second triangle is highest, then a time of great transition is indicated: you are in the process of deepening your relationship with Source and your highest parts, finally and genuinely becoming more of who you truly are.

If triangle 3 is the largest score then: This shows that your concerns have shifted very fully from the concerns of the external to the internal world, toward areas of your highest expression. It would not be unusual if this period of life seemed to contain great change, and not a little sacrifice, as your own frequency shifts produced the inevitable "fall-out" whilst attracting new, and better potentials. If triangle 3 is the highest score you have really begun to master personal power and relationship with the outer world. You have learned to differentiate between higher love and controlling love, soft love and tough love, finally beginning to break free from the Victim- Victimizer game at last.

If triangle 4 is the largest then: Both "you" and your Avatar have successfully cleared the majority of your code reversals and related miasms, and are able to work together to progressively expand your multi-dimensional life field, to accelerate the process of higher DNA activation and Christ Consciousness integration with all that this implies in regard to co-creative use of power and responsibility. With care and continued persistence Victory is in the offing.

The Base Personas - Shadow Manifestation Notes [APPLY TO SCORES OF 20 & BELOW]

PN1 The "Righteous Virgin" or "Ultimate Innocent"
Denial of immediate realities - tends not to see/want to see what's really occurring. May be hurting self and others but won't want to acknowledge. Typical of one who carries deep seated, repressed hurt. Tends to believe what others say even when in direct opposition to inner knowing. Addictions: Sugar, cheerfulness. Goal: Remain in/find safety. Fear: Abandonment; Issue: Denial or rescue, Response: Fidelity & discernment; Virtues: Trust/optimism.

PN 2 The "Professional Victim" or "Poor Me Orphan"
Victim of the world - blames everybody and everything, including own incompetence, irresponsibility and even predatory behaviors. Expects special treatment or exemption from life because he/she is so fragile or decimated by victimizers. When this shadow aspect is in control we will attack even those who are trying to help us, harming them and ourselves simultaneously. Or, the personal may collapse into dysfunction - "you can't expect anything of me". Addictions: Powerlessness, worry, cynicism, Goal: regain safety. Fear: exploitation. Issue: is "victimized" by the conditions required by solutions, Response: Feel the pain fully; Virtue: Interdependence.

PN 3 "Terrorist or Diplomat"
If both 1 & 2 are Shadow-dominant, then the product for the 3rd aspect will be Terrorized and will terrorize in turn compounding the scope for a positive bridge to the higher Personas. The terrorist will override morality, ethics or any thought of the "greater good" beyond their own needs. The terrorist tends to feel continually embattled and thus everything is perceived as a sleight, a threat or a challenge to be confronted. Addictions: Achievement, success, (externalized). Goal: "Winning". Fear: Weakness (Losing to win). Issue: Kill it or comfort it; Response: Fight for what matters most; Virtues: Courage, conviction & discipline.

PN 4 "Perennial Martyr"
Tends to control others, sucks energy through guilt devices: "look at all I've sacrificed for you!" Characterized by manipulative/devouring behaviors using care-taking control to smother others (sufferers often asthmatic), also, co-

dependence compulsive need to heal everything / rescue others Add ctions Co-dependence rescue fixer-heroics, Goal Helping others / clarity of Service area, Fear "selfishness", Issue: Self love, Response Hea without maiming (self & others) Virtue Compassion, generosity

PN 5 "Absolute Perfectionist"
Always striv ng for the "perfect" solution n order never to find one "Self- mprovement junkies", hea th club fanat cs, food fadders, "new Face/Paradigm" workshop add cts Never feel ready to commit to accomplish anyth ng much, "because it isn't quite right for me" Forever dissat sfied with someth ng, f not "everything" Add ction Self-centered Independence & perfection, Goal Seeks better life, Fear Depth / d scovery Issue: Running from self Response: Being true to Inner self; Virtue Autonomy, ambition

PN 6 "Emotional Cann bal" or "Creator"
If both 4 & 5 Shadow is dominant then tremendous conflict and deep unhappiness will result, leading to an ever increasing need to satisfy the craving for love, affection and recognition whilst sub-consciously devouring every potential source of remedy Leads to severe emotional abuse of others because "Love" given and / or withheld becomes the major tool of "L fe" Addictions Relationships (with anything), sex/intimacy; Goa Bliss, Fear "Love" fam ne, Issue Deeper love, for everything, Response Find what can be truly loved and build from there, Virtue Passion & commitment.

PN 7 "The Compulsive Destroyer"
If deep imbalances exist in the previous 3 areas then there is every likelihood that weakness here will manifest in extended self-destructive behaviors, manifested by addictions, compulsiveness, or any activity which undermines intimacy, career success or self esteem. Frequently, these lead to physical and emotional abuse of others Addictions Self-destructive habits "soul suicide" Goal Catharsis Fear God-self Issue C arity & resolve; Response Surrender to strength in vulnerability, Virtue Humility

PN 8 "The Obsessive Projectionist"
Here the Shadow works the Persona in a way where life s perceived as mean ngless or empty un ess there is a project challenge or new thing to do Low boredom thresholds and a ack of awareness of the inner worlds characterize such tendencies. The archetype tends to express this deep, inner emptiness, through obsessive projection creation of so many poss bilities, that none can be acted upon fully There is a close similarity to the woman who got pregnant every time she felt life to be meaningless ("The Pumpkin Eater" movie) Addiction Work, "creativity" to pass the time, Goal Self Identity; Fear Lack of authenticity; ssue Recognition that t is part of self Response Self-acceptance, Virtue Individuality, vocational identification

PN 9 "The Wizard" or "The Sorcerer"
The destructive versus creative potential inter-play to create either a magica rea zation of the counterparts of one which s manifests "darker" applications of creativity As an area of weakness this Persona can be portrayed as one who transforms "better" into "lesser" options. We engage in such when we bel ttle ourselves (or another) reducing rather than increas ng potent a , with the effect of reducing our own self-esteem. The Sorcerer represents that part of ourselves which "creates" i ness dis-ease, and represents the polar opposite of the Christos Principle Addictions Power, drugs, self-delusion / d shonesty; Goa Transformation Fear Evil / sorcery; Issue Transform / transmute, Response Align self with Christos, Virtue: Personal power

PN 10 "Greater or Lesser Tyrant"
But tyrant nevertheless This Persona tends to ban sh all who threaten their control, at the expense of a l creative expression if necessary, and at any price. Often this is seen amongst those who have acquired some degree of authority whilst being unaware, or ignoring, the responsibility implicit in such positions of power This behavior

generates sterility and stagnant environments in which fear loneliness and misery is likely to abound Contraction rather than expansion is the usual outcome until the "Tyrant" (Victimizer) is tipped from the self-appointed throne, usually by his/her own hand Addictions Control power co-dependencies Goal Order Fear Chaos, Issue Find constructive use of power; Response: Take full responsibility for your life, Virtue Responsibility discipline

PN 11 "The Sybarite or Satyr"
This Persona, as defined and directed by the unresolved Shadow is a big time pleasure-seeker (Sybarite = one devoted to luxury and pleasure) or at worst one who is a glutton, sloth or lecher (or all 3!) Either way, the sub-conscious desires and influences at work here are entirely directed by the lusts and urges of the physical body, with little or no sense or dignity or control Addictions Excitement, cocaine, ecstasy and sensory inebriation Goal Enjoyment; Fear Death / non-aliveness Issue Possession, Response Locate enthusiasm for expansion, Virtue Joy, freedom.

PN 12 "The Liberator" or "The Warden"
The ultimate reflection of the Shadow issue will climax in terms of the acquisition of external power and authority, and familiarity with its destructive uses, on every level of existence - personal relationships, families communities, work places, government and all the way through Universal structure. Or, otherwise the development of inner strength and responsibility and, thus, the realization of creative potentials way beyond contemporary forms of self-adulation "rightness" and ultimately, corruption of the essence of associative being When the Shadow (and Shadow dancers) overwhelm the self it can be seen through tendencies toward unfeeling judgment in coldness reliance on rational linear, logic, heartlessness dogmatism and pomposity 'We' the inferior in-mates, are always being evaluated by 'them', being policed regulated, chastised, limited or punished because there is something that 'we' are not doing that is considered 'right The Mentor will always choose higher love, together with the freedom and responsibility that that implies. The Warden archetype is intimidated by such potential expansion and "imprisons" this impulse Additions "Rightness", superior judgment, tranquilizers, Goal Control of "truth" Fear: Superior deception, Issue transcending root fears, Response Find enlightenment, Virtues Wisdom in non-attachment.

Initial Guidelines for "Energy Analysis" & Additional PLC Induction

The new MCEO analysis addresses difficulties in fully realizing/expressing one's full Avatar identity consistent with its own Christed Potential as a question of energy to be treated with energy The context for this has been portrayed by the presence and workings of Apparthi, Miasms & Karma (Kathara Level 1), The Radial Bodies ("Dance for Life"), the personal Kathara grid & Crystal Seals, which, according to their "state of organic balance" will or will not process Primal Life Force Currents according to Divine Blueprint; in other words, the extent of genetic mutation and personal and planetary code reversals express directly through the Radial Body and Merkaba Vehicles in such a way that a Shadow Body is formed which "anchors" reversed frequencies and at the same time blocks much of the spectrum of natural frequencies (PLCs), across ALL dimensional levels, which ultimately express as dysfunction in personal Merkaba, as well as within the human Emotional-Mental-Spiritual experience, obstructing integration of higher frequencies/consciousness while promoting various feelings of powerlessness and separation from one's own higher parts, manifestation abilities and, of course, Source.

As a result of historical mutations frequencies fully blocked are D9-12 and frequencies half blocked, with frequencies also reversed D1-8 Until blockages are cleared one must draw as much frequency from outside the self, since the internal mechanisms are compromised to greater or lesser extent. The new form analysis therefore is designed ultimately, to enable anyone to create their own tailor-made technique by understanding areas of PLC frequency

deficiency and applying the understand ng to "up-weight" specific frequencies For example if a genera EirA deficiency s noted then the Merkaba spin direction and strength wi l reflect that, and thus additiona time would be spent on correcting lower Merkaba spin direction and speed by working with extra EirA nducing activity The principle should be applied more specif cally too, to reflect the Dens ty Level, and thus Kathara Lines / Crystal Seals, Chakra Ax A tonal D odic relationships relevant to the deficiency area (or PN number associated with the 12 spheres)

Spheres 1, 4, 7, 10 & 15 represent **Female / Divine Mother** characteristics, reflecting the nature of E rA (and associated sub-frequency) **Particum Currents** these are magnetic (pull ng), contracting, passive counter-clockwise rotating and associated with **Sound** (e g. Psonns) and the Violet F ame Frequencies of the Kee-Ra-ShA Too l ttle EirA s reflected by scores below 20 Each Sphere corresponds to a Density Level 1-D-1, 4=D-2, 7=D-3, 10=D-4, 5=D-12 Therefore, deficiencies associated with any part.cular Dens ty Level can be addressed by a "frequency diet" which ncorporates more of such deficient frequencies [**Sub frequencies are** Density 1 Ch , Density 2 Prana, Dens ty 3 M ra, Density 4 Ta a, Density 5 ShA and each being Rays 1 4, 7, 10 and 15 respectively and associated **colors**]. EirA ntake can be maximized by **breathing** Inhale more slowly & more deeply Hold briefly Exhale fast short & sharp Too much EirA (as imbalance ManA & ManU) would mply poor motivation/work ethic, proneness to being "victimized" and a tendency for manipulative selfless' behaviors

Spheres 2, 5, 8, 11 & 14 represent **Male / Divine Father** characteristics, reflecting the nature of **ManA** (and associated sub-frequency) **Partika Currents** these are electrical (pushing), expanding "aggressive", clockwise rotating and associated with **Light** (Opt.cal sens tivity, e g Veca Codes) and the **Gold Flame** Frequencies of the Kee-Ra-ShA. Too little ManA s reflected by scores below 20 [**Sub frequencies are** Density 1 Ki Dens ty 2 Mana, Dens ty 3 Maya Density 4 Hara, Density 5 Ra, and each being Rays 2 5, 8, 11, 14 respectively and associated **colors**]. ManA ntake can be max mized by **breathing**: Inhale rapid shallow breath Hold breath longer Exhale slowly, long and steadily Too much ManA (as mba ance: EirA & ManU) wou d imply ambition, competitiveness, lack of flexibility, "rightness", and Victimizer tendencies

Spheres 3, 6, 9, 12 & 13 represent the Void, **Universal Divine Spirit**, the product of itself and thus E rA and ManA. The ManJ is thus **electro-magnetic** and associated with the **Blue Flame** Too little Manu is reflected by low scores too, and ind cates limited reception of Partiki units flowing from Source and thus the amount of mathematica - geometrical programs from the Maharic Shield Div ne Blueprint, EirA, ManA flow and thus mited (Divine) thought-form potentials. Since ManJ s the progenitor of first EirA and then ManA t would be advisable to incorporate additional ManU pu ing activity as a support to any effort to ncrease either EirA, ManA or both, but again induced to relevant "body parts" [**Sub frequencies** are Density 1 Rei Dens ty 2 Traia, Density 3 Yana, Density 4 Ma'a, Density 5 Kee and associated **colors**].

TECHNIQUE-19:
Opening Ecka-Contact Communication Lines
CONTACT-2

Purpose: To open the Rad al Body communication networks within the Rish ac Shield for improved, clearer Rishiac-Sealed telepathic interdimensional communication with persona Eleyan ncarnates or other Guardian races from the Inner Ecka God World Universes

Preparation: Minimum of Technique-12 The 12 12 Induction and Rish ac Shield Activation and its preparatory Steps Techn que-15 The Amoraea Flame Contact Platform-CONTACT-1 and the "Withness Self-test" to determine your Mutable Rishiac-Christic Capstone Nodes to identify your * Primary CONTACT RAY that is used n this Technique 19

The Withness questionnaire is done prior to technique 19 to obta n your **Primary contact ray** Your "**primary contact ray**" is a braid of three colors corresponding to the E rA, ManA or ManJ frequencies and is the highest score at the end of the quiz (in the heart-shapes) f you have equal scores, you can use either

EirA pale magenta/pink + dark sapphire blue + red

ManA. pale yellow + dark silver + orange

ManU pale turquoise + pale silver white + yellow

Procedure:
1 Draw several Maharic nhale-Exhale breaths from Chakra-13 Earth core to "charge" and ampl fy your fields

SEND A COMMUNICATION :
2 V sualize the 3 colors of your * **Primary Contact Ray** as f they were a singu ar braided Ray of light formed of 3 d fferent distinct colored "laser beams" **BRAIDED TOGETHER** nto one thick current

3. Imagine your **Braided Contact Ray** is anchored to a pa e-silver Christos Spark in your Pineal Gland at brain center INHALE, then use an EXHALE breath to extend your Contact Ray down your Central Vertical Current and nto Chakra-13 at Earth's core Imagine that a second pale-silver Christos Spark is stationed in Chakra 13 and that your Contact Ray extends directly into and anchors with n the Chakra-13 Christos Spark, whi e the "other end" of the Contact Ray current st.ll remains anchored with n the 1st Christos Spark at the Pineal Gland

4. Choose the **target** of your communication and the **message or questions** you desire to send Once you have a **specific message or question** and **specific "receiver" target** in mind, **telepathically project the message as an intention** into the **1st Christos Spark at the Pineal Gland** Imag ne that your message/intention enters the Pinea Christos Spark and suddenly, **gently "Pops"**, forming a pa e-silver translucent **THOUGHT CRYSTAL** within your **Pineal Gland** Take several **gentle INHALE and EXHALE** breaths, us ng each **EXHALE** to gently **push the Thought Crystal down** from the **Pineal Gland,** through your Contact Ray in your Central Vertical Current and **into the 2nd Christos Spark in Chakra-13**.

5 Imagine that as soon as the Thought Crystal enters the 2nd Chakra-13 Christos Spark that it **bursts into a starburst of light within the Christos Spark**, sending many t.ny rays of light in the 3 colors of your Contact Ray outward in all d rections Imag ne now that the many emanating t.ny rays of light spiral down to Chakra-15 "Out the other side of Earth" and into the Un verse Your message is now **SENT**

Copyright A & A Deane, 2002 All Rights Reserved

CONNECTING THE ECKA COMMUNICATION LINE:
Holding the image of your internal Contact Ray in mind, still running with n your Centra Vertical Current between the Pineal Gland and Chakra-13 Christos Sparks INHALE, then use a long, firm **EXHALE** breath to further extend the length of your Contact Ray magine your Contact Ray still anchored n both Christos Sparks, stretches outward and upward **TOWARD THE RIGHT**, forming a Tri-color "Rainbow Arc" of light running vertica ly upward in the Right side of your Auric field from its Chakra-13 Christos Spark "tether line" up to Chakra-14 36- nches above your head **INHALE**, using the Inhale breath to draw the end of your Contact Ray at Chakra-14, downward, through the 11th 10th and the Crown Chakras and into your Pineal Gland to meet with the 1" Christos Spark, forming a "C osed Circuit" Rishiac Communication Line as the "2 ends" of your Contact Ray now meet within the Pinea Gland Christos Spark.

TO RECEIVE A COMMUNICATION FOLLOWING YOUR INITIATION OF CONTACT:
7 **INHALE**, then use a **forceful EXHALE** to push the Pinea Christos Spark with your Contact Ray circuit within it, horizonta ly outward to the Right to the "Mentor Space" over your Right Shoulder INHALE and EXHALE again us ng the exhale to expand the Christos Spark nto a basketball sized Sphere of Tri color ight sheathed n pale silver Project a pa e-silver **"Mini-Me"** image of yourself nto the Contact Sphere then wa t quietly for a response to your message, without imposing expectations on the outcome First responses may come ater in the dream-state; consistent practice at the same time of day helps to open and maintain reliable receiving lines

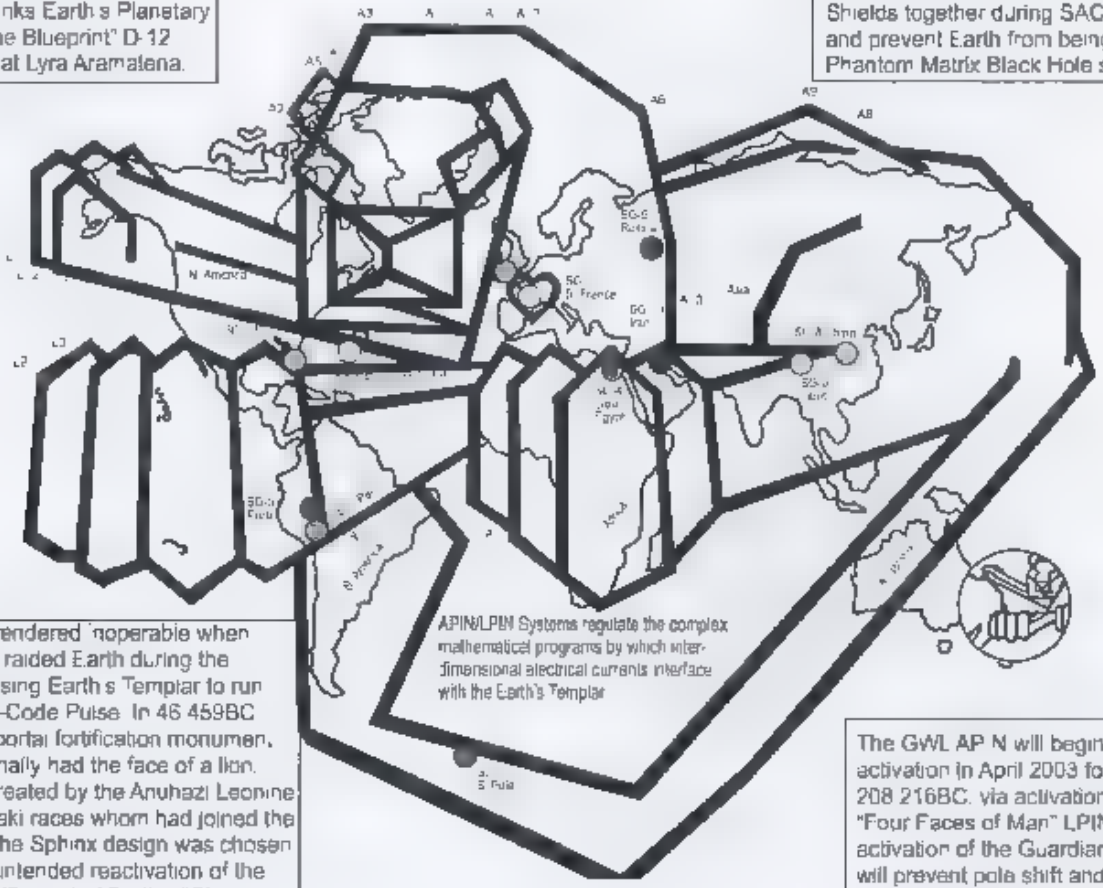
The Great White Lion Guardian APIN System

(Atlantean Pylon Implant Network System)
5.5 MYA Elohei-Elohim Leonine Anuhaz.

The Elohei-Elohim Leonine Anuhaz, Founders of Aramatena Lyra and Sirius B created the "GWL" APIN as part of their Earth Templar Crisis Intervention Mission after the Electric Wars 5.5 Million Years Ago. The GWL runs on a D-12 12-Code-Pulse and links Earth's Planetary Shields to their "Divine Blueprint" D-12 Pre-matter Template at Lyra Aramatena.

The GWL APIN is "Guardian of the Verticals" the protector of Earth's 12 Vertical Ax-A-Tonal Lines. When activated, the billions of minute crystal pylon implant "microchips" of the GWL and those of its "Golden Eagle" APIN companion, form a scalar-field that holds Earth's fragmented Planetary Shields together during SACs to avert pole shift and prevent Earth from being drawn into the Phantom Matrix Black Hole system.



The GWL APIN was rendered inoperable when Omicron-Drakonian's raided Earth during the 208,216BC SAC, causing Earth's Templar to run on an unnatural D-10-Code Pulse. In 46,459BC the original "Sphinx" portal fortification monument of Egypt, (which originally had the face of a lion, not a man), was co-created by the Anuhazi Leonine Founders and Annunaki races whom had joined the Emerald Covenant. The Sphinx design was chosen to commemorate the intended reactivation of the GWL APIN through fulfilment of Earth's "Christos Realignment Mission."

The GWL APIN will begin 12-Code-Pulse activation in April 2003 for the first time since 208,216BC, via activation of the Eleyani Indigo's "Four Faces of Man" LPIN System. Successful activation of the Guardian's APIN/LPIN Systems will prevent pole shift and further intruder invasion during the 2000-2017 SAC.

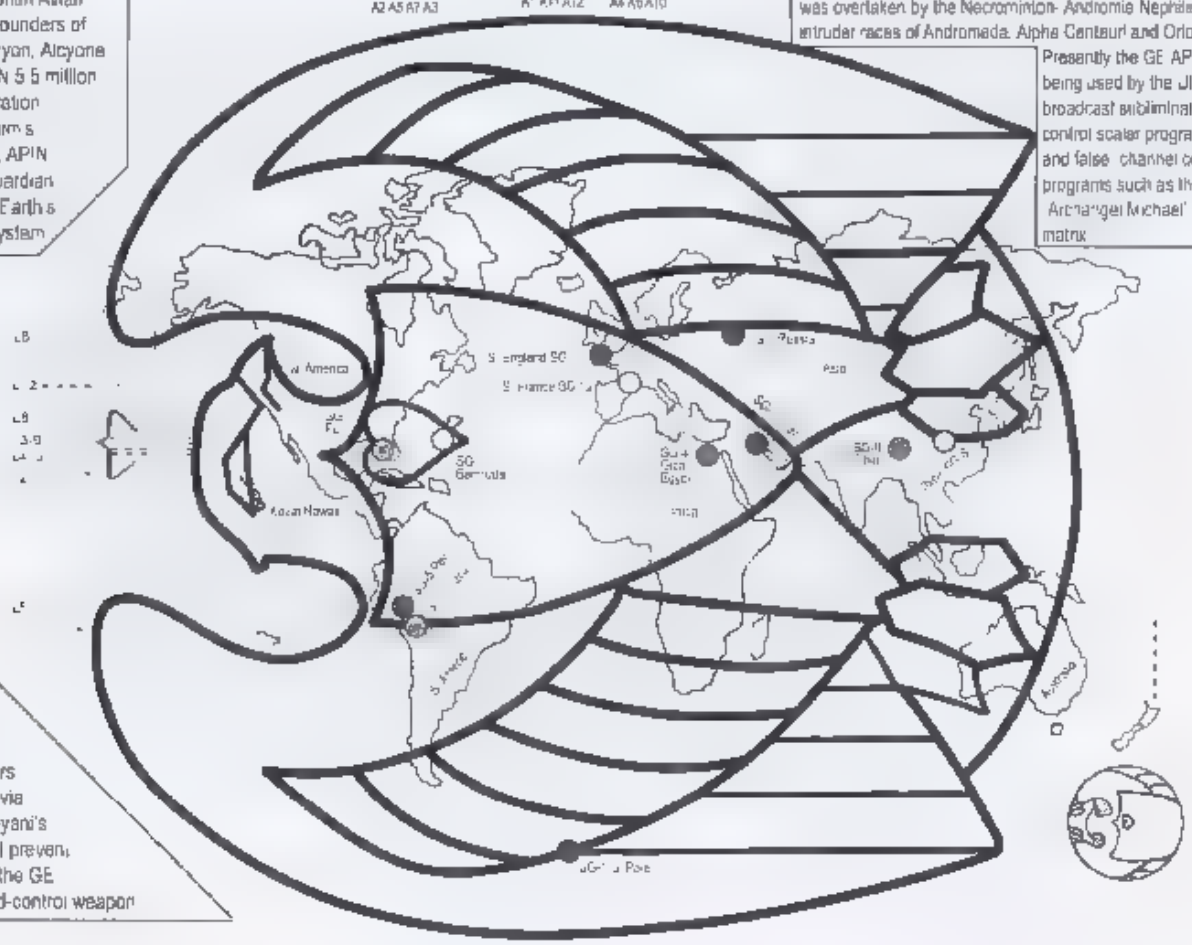
The Seraphes-Seraphim Avian Cerez and Serres Founders of Mintaka Orion, Procyon, Alcyone created the GE APIN 5 5 million years ago in cooperation with the Elohei-Elohim s creation of the GWL APIN The GE APIN is "Guardian of the Horizontals" Earth s Templar Ley Line System

During the Lucifer Rebellion of 25,500BC the GE APIN was overtaken by the Necromirion- Andromic Nephilim intruder races of Andromeda. Alpha Centauri and Orion Presently the GE APIN is being used by the JIR to broadcast subliminal mind control scalar programs and false channel contact programs such as the 'Archangel Michael' matrix

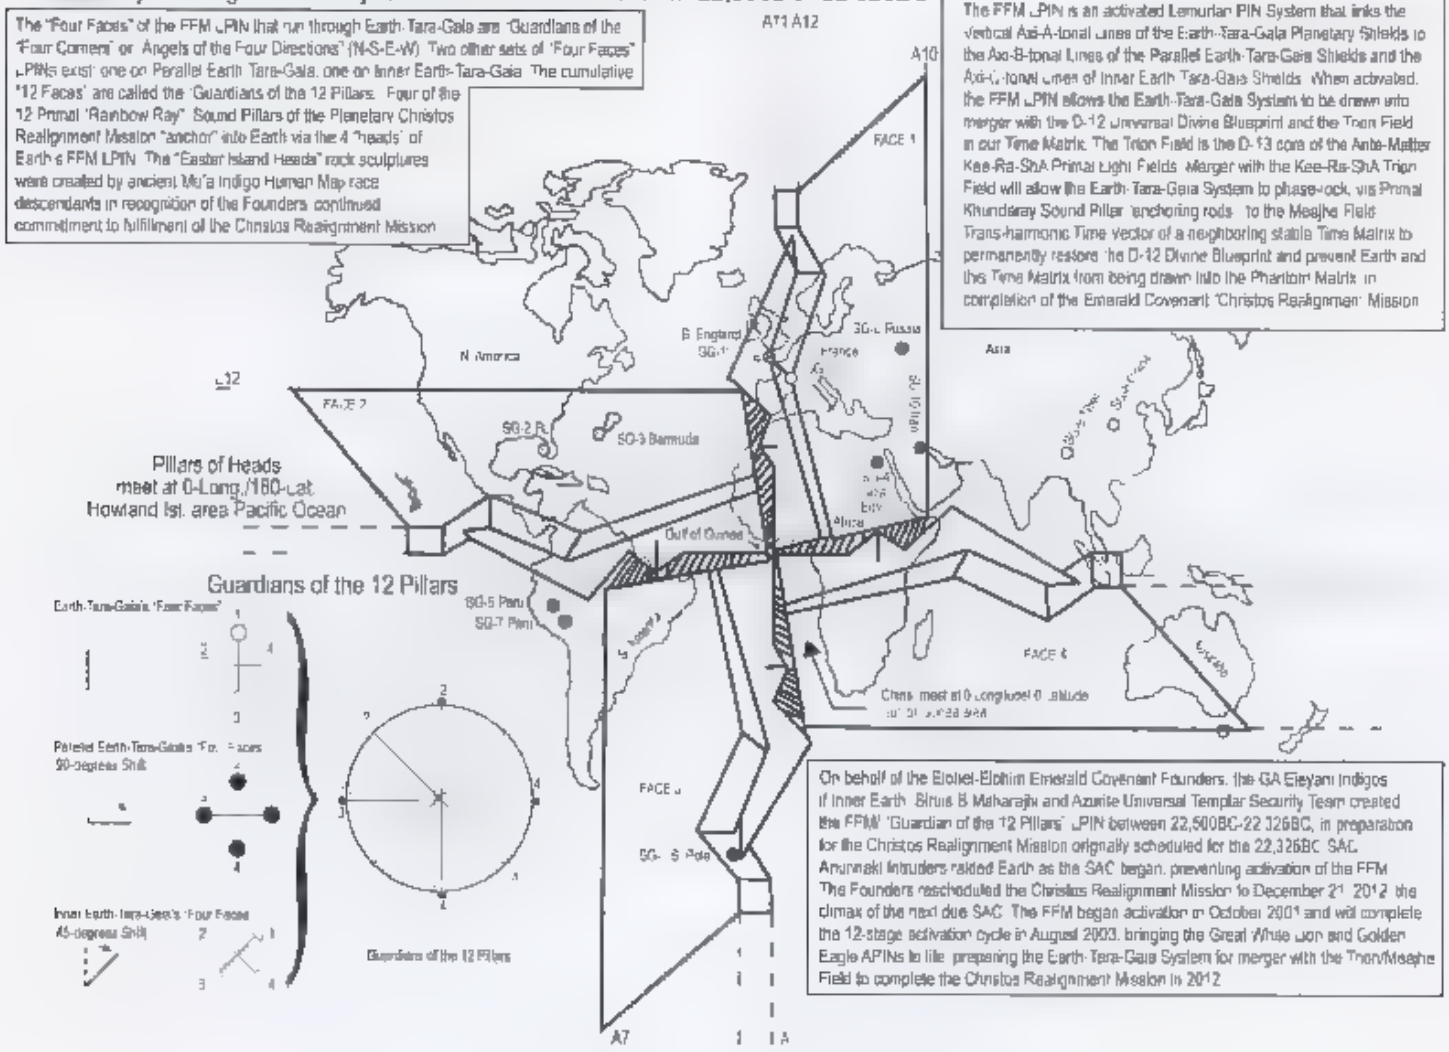


The GE APIN will be reclaimed and activated by its GA Seraphei creators in December 2003 via activation of the Eleyani's FFM APIN This will prevent the JIR from using the GE as a subliminal mind-control weapon

The Four Faces of Man/Guardians of the 12 Pillars LPIN System
Guardian Elevani Indigos. Maharajih , Azurites and Elohei-Elohim 22,500BC 22,326BC

The "Four Faces" of the FFM LPIN that run through Earth-Tara-Gaia are "Guardians of the Four Corners" or "Angels of the Four Directions" (N-S-E-W). Two other sets of "Four Faces" LPINs exist: one on Parallel Earth Tara-Gaia, one on Inner Earth-Tara-Gaia. The cumulative "12 Faces" are called the "Guardians of the 12 Pillars". Four of the 12 Primal "Rainbow Ray" Sound Pillars of the Planetary Christos Realignment Mission "anchor" into Earth via the 4 "heads" of Earth's FFM LPIN. The "Easter Island Heads" rock sculptures were created by ancient Mu'a Indigo Human Map race descendants in recognition of the Founders continued commitment to fulfillment of the Christos Realignment Mission.

The FFM LPIN is an activated Lemurian PIN System that links the Vertical Axis-A-tonal Lines of the Earth-Tara-Gaia Planetary Shields to the Axis-B-tonal Lines of the Parallel Earth-Tara-Gaia Shields and the Axis-C-tonal Lines of Inner Earth Tara-Gaia Shields. When activated, the FFM LPIN allows the Earth-Tara-Gaia System to be drawn into merger with the D-12 Universal Divine Blueprint and the Trion Field in our Time Matrix. The Trion Field is the D-13 core of the Ante-Matter Kee-Ra-ShA Primal Light Fields. Merger with the Kee-Ra-ShA Trion Field will allow the Earth-Tara-Gaia System to phase-lock, via Primal Khunderay Sound Pillar "anchoring rods", to the Meajhe Field's Trans-harmonic Time vector of a neighboring stable Time Matrix to permanently restore the D-12 Divine Blueprint and prevent Earth and the Time Matrix from being drawn into the Phantom Matrix in completion of the Emerald Covenant "Christos Realignment" Mission.



On behalf of the Elohei-Elohim Emerald Covenant Founders, the GA Elevani Indigos of Inner Earth, Sirius B Maharajih and Azurite Universal Templar Security Team created the FFM "Guardian of the 12 Pillars" LPIN between 22,500BC-22,326BC, in preparation for the Christos Realignment Mission originally scheduled for the 22,326BC SAC. Anunnaki Intruders raided Earth as the SAC began, preventing activation of the FFM. The Founders rescheduled the Christos Realignment Mission to December 21, 2012, the climax of the next due SAC. The FFM began activation in October 2001 and will complete the 12-stage activation cycle in August 2003, bringing the Great White Lion and Golden Eagle APINs to life, preparing the Earth-Tara-Gaia System for merger with the Trion/Meajhe Field to complete the Christos Realignment Mission in 2012.

WTC/Pentagon Disaster
9-11 Infrasound Sub-Space Sonic Pulse Projection Map
The JIR began activation of Phoenix Matrix Spike Sites on August 12, 2001 Magnetic Peak via sub-spaced infrasound Sonic Scalar Pulse transmission, creating a 'Trigger Event' to expedite their NWO Illuminati WW3 agenda.
August 12: 2 Sonic Amplification Slow-Pulses launched, one from Aguascalientes (Our Site-4) Chihuahua (PSG-3), Mexico on L4 Line, the other from the Zeta's NCT-Base at Lake Titicaca Peru on the A7 Line.
September 7: 2 Slow-Pulses intersect and blend at Phoenix Wormhole A7/L4 then travel to L4/A3 and up A3 Line to SG-3 Bermuda Base for storage and amplification.
September 11: 3 'Trumpet' Phantom Infrasound Sonic Pulses released from Phoenix Wormhole and corresponding Amplification Slow-Pulses released from Bermuda Base at 3 different times to activate Phoenix Matrix Spike implants beneath the WTC and Pentagon buildings.
3. PULSE-1: Pulse travels east on L4 to Gru-AL SG-2 Sarasota, FL Psychotronic 'fast pulse' launched September 3 along PULSE 1 in JIR attempt to sabotage Gru-AL RRT. PULSE-1 splits into L2 Gru-AL Line and passes through Gru-AL on September 3. PULSE-1 then re-merges on L4 travels east to L4/A7 Phoenix Wormhole.
6. 9-11 Amplified Trumpet Pulse: 3 Trumpet Pulses from Phoenix Wormhole on A7 and amplification Pulses from Bermuda base on IH-3 merge at Montauk-Phi-Ex Wormhole interface Port then transmitted to WTC and Pentagon Phoenix Spike Sites.
2. PULSE 1: Pulse travels northwest On IH-4 to PSG-3 Chihuahua Mexico and North to L4 Giza Line.
1. PULSE 1: JIR initiate Amplification Slow-Pulse-1 from Q-4 Aguascalientes Mexico, August 12, 2001 Magnetic Peak.
5. PULSE 2: Pulse travels north on A7 to A7/L4 to blend with PULSE 1 at Phoenix Wormhole on September 7. Blended Slow-Pulse continues east on L4 to A3/L4 intersection, then travels north on A3 to SG-3 Bermuda Zeta Base for amplification.
4. PULSE-2: JIR initiate Amplification Slow-Pulse-2 from SG-7 Lake Titicaca Peru on August 12, 2001 Magnetic Peak.
On September 9 pre-existing terrorist cells were activated by JIR Illuminati to initiate the pre-planned September 11, 2001 'terrorist attack'. Terrorist attacks were staged as "cloaking events' to disguise the Infrasound Sonic Pulse damage to Spike Site buildings. Philadelphia Independence Hall Spike Site was also intended as a target but JIR Trumpet Pulses not launched due to 'Cover Plane' crash. 1995 Oklahoma City bombing "terrorist attack" and the Waco Texas Branch Davidian Massacre were also cloak-events for Omicron-Drakonian Infrasound Sonic Pulses. Parallel Earth SG-5 and the PH-5 'Oklahoma City-Waco" Line were used for these pulses. The Waco/Oklahoma City events arose prior to formation of the 2000 JIR due to Drakonian-Omicron Illuminati efforts to prevent Anunnaki holding Mexico bases from taking over the PH-5 Line and the Zeta's Montauk-Phi-Ex Port Interface. More JIR Phoenix Spike Site activations are scheduled; they will be hidden beneath the JIR Illuminati-contrived illusions of localized terrorist activity and targeted 'Un-Natural Disaster' cloaking events. The Emerald Covenant 'Christos Realignment Mission' will progressively re-code Earth's grid lines to a natural Z-code Pulse preventing this type of abusive technology; but full protection will take time and until 2003-2008 Earth remains vulnerable to Sub-Space Infrasound Sonic Scalar Pulse covert weapons and Psychotronics (biological targeting). Maharic Seal and related GA Bio-Regenesis Technologies afford protection from Psychotronics.

This "Final Battle of the Angels" cannot be won through violent wars, but victory can be achieved for all peace-loving nations through the ***peaceful, Christiac Technologies of Masters Biotronic, Merkaba and Planetary Templar Mechanics.*** *The choice is ours, and in truth, time is running out, as the UIR now aggressively advances its Illuminati OWO dominion agenda in the 3-D arena.*

How many more atrocities like WW2 and the 9/11/2001 Terrorist Disaster, precursor to WW3, do we need to see before we "get the message?"

Knowledge is Power; thus we have given the gift of Power to those who care enough to use this gift wisely.

Illuminati One-World-Order Agenda & the APIN Legacy

APIN Systems: Atlantean Pylon Implant Network Systems are Scalar-Crystal Micro-chip Technologies that were implanted in Earth's Planetary Shields during various periods from 5.5 Million Years ago to 10,500BC. Emerald Covenant Races used them to prevent cataclysm on Earth while various competing Fallen Angelic races and their Illuminati hybrids used them with the intention of creating Earth cataclysm for dominion of the Halls of Amenti Star Gates. The UIR (United Intruder Resistance) are presently activating their APIN Systems in hope of fulfilling their One World Order Agenda between 2003-2011 AD. Guardian races are activating their APIN and LPIN systems to anchor D-12 Planetary Divine Blueprint to prevent pole shift as Earth's Star Gates progressively open between now and 2012.

- **5.5 Million Years Ago: Great White Lion and Golden Eagle Guardian LPINs** installed to prevent Earth from being drawn into Phantom Matrix Black Hole after Electric Wars. Founders create Frequency Fence "**Wall in Time**" between Earth and the portion of Earth's Shields that fell into Phantom Matrix to create "Phantom Earth" during the Electric Wars.
- **75,000BC: Dragon APIN** installed by Omicron Drakonian invader races.
- **25,500BC: Lucifer Rebellion** Stonehenge **NDC-Grid** installed by **Nibiruian Anunnaki, Golden Eagle APIN taken over by Necromiton-Andromie Nephilim** ("Archange. Michae" Anunnaki hybrid collective) creating reverse-matrix **"White Eagle" APIN** and the ("Michael-Mary") **MM-TURNSTILE Templar Control System** running off NDC-Grid.
- **22,500BC: Four Faces of Man LPIN and Blue Oxen LPIN** installed by **Guardians** to complete **Planetary Christos Realignment Mission during 22,326BC SAC** to prevent Fallen Angelics from drawing Earth and Halls of Amenti into Phantom Matrix. **Stalemate moved "Final Conflict Drama" to 2000AD-2017AD SAC.**
- **10,500BC. Luciferian Conquest** Fallen Angelics create **Falcon and Phoenix Wormholes** in "Wall in Time" opening Earth's Shields to Phantom Matrix. **Founders** use Frequency Fence to **Cap Wormholes** until 2000AD-2017AD SAC when **permanent Cap** could be rendered via completion of Planetary Christos Realignment Mission.
- **1903AD-1916AD: Zeta Drakonian Agenda Races uncap Falcon Wormhole and begin activation of Falcon APIN system.**
- **1943 Philadelphia Experiment: Zetas expand Falcon Wormhole creating the Phi-Ex Wormhole System.**
- **1951-1972: Anunnaki** agenda Fallen Angelics **attempt to uncap Phoenix Wormhole** to activate their APIN systems in hope of winning covert Templar Control war with Drakonian Agenda and Zeta Races.
- **1972 Anunnaki agenda races uncap Phoenix Wormhole** and begin activation of the **White Eagle, Dove** and **Phoenix** APIN systems.
- **1980-1983. Falcon and Dragon APINs linked** via Zeta-Drakonian alliance. **1983 Montauk Project** Draco agenda Alpha-Omega Centaur Necromiton Andromies link **Phi-Ex-Falcon Wormholes to White Eagle APIN.**
- **November 1992. Pleiadian-Nibiruan Galactic Federation & Ashtar Command Anunnaki grudgingly join Emerald Covenant Pleiadian-Sirian Agreements** in fear of losing Templar Battle with Drakonian & Andromie races after **Drakonians attempt to take over Phoenix Wormhole** and **Anunnaki fail in attempt to Cap Falcon Wormhole**. Zetas expanded Falcon-Phi-Ex to avoid cap causing **Hurricane Andrew August 24, 1992.**
- **1992-1994:** Pleiadian-Sirian Agreement Anunnaki **use NDC-Grid in cooperation with Guardian Templar sites to temporarily Cap Falcon-Phi-Ex Wormhole. Anunnaki begin defection** from Emerald Covenant for dominion agendas once Drakonian-Zeta forces lose Falcon-Phi-Ex use.
- **1998:** Detecting Anunnaki **shut down Guardian transmission lines** and **Un-Cap Falcon-Phi-Ex Wormhole in attempt to gain full control of Templar.**
- **September 12, 2000: Anunnaki fully defect** from Emerald Covenant/Treaty of Altair **join UIR War Edict** against Founders via **Necromiton-Andromie Nephilim prompting. GA Crisis Intervention.**

Questions and Answers

1. **What is meant by the 15 Days of 1st Creation?**
   - The next Gestation Cycle after the SEda Cycle is the one in which the Rasha Body Structure is born, *simultaneously* with the Tauren Cycle (1st Day) which eventually births the Diad (2nd Day)
   - The first 9 Structures of the Inner Light Body, each formed after a Takeyon Cycle, are counted as 9 Days—The Starborn Cycle *Simultaneously* 6 Outer Light Body Structures birth, counted as 6 Days Together these are the 15 Days of 1st Creation
   - Inner Light Body Structures Outer Light Body Structures

Day 1 The Tauren	births with	The YunasA (Rosetta Sun)	on Day 9
Day 2 The Diad	births with	The Eukatharaista Body	on Day 10
Day 3 The Miad	births with	The 4 Eckasha-A	on Day 11
Day 4 The Monad	births with	The 24 Eckashas	on Day 12
Day 5 The AmOrA Hub Cell	births with:	The Ecka-Vecas	on Day 13
Day 6 The Adon	births with	The E-Luman-yana	on Day 14
Day 7 The Edon	births with	The ELuman-aeri	on Day 15
Day 8 The Aton (Rashallah)			

2. **What are the Harmonic Key Cycles, or, what is the Takeyon Cycle?**
   - After the Tauren is born at the center of the ELum-Eiradhona it goes through a Takeyon Cycle, which is a Pulse Phase Cycle with 12 Harmonic Key Cycles where sparks are made along the Allurean Lines to build enough quantum to hit the Takeyon Flash Point After 12 Takeyon Cycles the critical mass is reached all the quantum comes together, pulls through as the Backflow through the Creation Point, and then gets a Backflow Return that is an increase of quantum plus the original quantum itself
     The 1st Flash Point is where the Tauren goes in to replicate its quantum. The Tauren comes back out as itself, but also has the Diad with it that has 6 Partiki
   - Harmonic Key Generation: a spark quantum building and replication Cycle.
   - Harmonic Key Assembly: Sparks assemble in groups to form 12 Harmonic Keys—Base Tone Keys with EirA energy and Overtone Keys with ManA energy
   - Key Resolution: By resolving the difference of their quantum, Keys form Prana.
   - Key Ordenation. Every 3rd Harmonic Key Cycle in a Takeyon Cycle (12 Harmonic Key Cycles) phases to build more quantum.

3. **Why do the Ring and Span Tones activate not only our Rasha Body but also our Light Body and Physical Manifest Body?**
   - The structure of the PartikE of the Tauren is based on the larger structure of the ELum-Eiradhona with the huge 15 Geleziac Layers. The Rasha Body Dark Matter Template came from this structure of the PartikE and has the same 15 layers as the Light Body Base Shield structures. So when you are activating your Rasha Body with the Ring and Span Tones, you are activating the other as well.
   - The Span Tones activate the bands in between, and the Ring Tones go with the Geleziac Radiation Levels. It brings the entire Rasha structure and Spiritual Body connection faster into the Matter structures.

4. **Where do the Ethos and Eiros Grids come from?**
   - The Ethos and Eiros Grids that we phase in the Pillar of Power are part of the structure of the 4 Vecas plus the 2 (Ecka) E-Luman-yana Density Spirit Bodies.
   - These Ethos-Eiros E-Luman-yana Density Spirit Bodies are behind the Radial Bodies called E-Luman-ata that we were activating with the Flame Body Activation Techniques.

5. **What are the E-Luman-aeri (Density Time Vector Spirit Bodies)?**
   - In each Density E-Luman-yana and Radial Body E-Luman-ata you have 12 -Cell Probability Clusters. E-Luman-aeri Density Time Vector Spirit Bodies.
   - Different probabilities come from the same main events.
   - You have different probabilities depending on your Base Pulse Rhythm. You can end up seeing that probability as your manifest reality field rather than others.
   - Technically you have a Probable Self in every one of the 12 Probabilities.
   - The process of bringing yourself together is accreting all of the 12 different frequencies. First you bring in the lowest frequencies that run the Number 1 Allurean Chamber and then you experience the Number 2 Probability, then the Number 3 Probability, until you pulled yourself all together and get back to the middle Probability and then do another Cycle of them.
   - In each Ecka-Veca, Eckasha, Eckasha-A and Eckasha-Aah are sets of 12 of these.

6. **How are the 2 Krystal Spirals formed and what happens when they merge?**
   - After the Aton Cluster of 20,736 Partiki is born and before the YunasA is born, all the Inner Light Cells (the Tauren, Diad, Miad, Monad, AmOrA Hub Cell, Adon, Edon and Aton) that grow before, start opening their Spark Currents. These currents birth a Krystal Spiral. This happens on both the AdorA and EtorA sides.
   - Both Krystal Spirals birth and meet each other on the Zero Point Axis (see Schedule with 8 Axes). They merge and then the Flame Shift Cycle occurs.
   - The Inner Flame and Core Flame are formed within the Seed Atom of the Inner Domain—the Yunasai. (See Flame Images.)
   - The Aton Activation and Akashic Record Imprinting also occur during this period (between Days 8 and 9).

7. **What is the Aton Activation and Akashic Record Imprinting?**
   - During the Flame Shift Cycle, the Krystal Spiral Inner Light Body Currents eventually merge their EtorA and AdorA Elemental Adjugate Twin Spark Currents. This activates not only the Inner and Core Flames but also the 20,736 Partiki Cells of the Aton.
   - There is a whole process in which everything that was created so far, the Aton included, pulls in to the Hall of Records 8-Cell Cluster.
   - Through activation of the Flame Cycle and bringing together these currents from the AdorA and the EtorA side, the encryption of that entire particular part of the Rasha Body and Light Body of that Creation Cycle is imprinted into the Spirit Body in the Akashic and Ecoushic Records of the 1st Cell, literally recording it and putting it in a permanent record.

8. **What is the relationship between the Cosmic YunasA and the Domains?**
   - On Day 9 the Cosmic YunasA 30-Cell Cluster births after a Flame Cycle, *simultaneously* with the birth of the ELum-Eiradhona and the Tauren on Day 1, after the first SEda Cycle.
   - Before the Birth of the YunasA, the NavE-Na Cycles (Day 6 and Day 7) and the SEda Cycles (Day 8) of the smaller Domains started.
   - The Spirit Domain Bodies phase into the HaRA Krysta Body, pull in through the DhaLA-LUma Doorway, and then birth out with the Cosmic Yunasun Cluster (the Cosmic YunasA or Rosetta Sun).
   - This Cosmic YunasA creates all of the Seed Atoms for the Inner, the Middle, the Outer Domains and also the Adashi Domains.
   - The Light Body and the Spirit Body of those smaller Domains fill themselves out, each creating a Eukatharaista Structure with its Spirit Body.

9. **What has the YunasA to do with the Rosetta Flows?**
   - The Cosmic YunasA 30-Cell Light Body Elemental Command Cluster, also called the Rosetta Sun, births with the Inner Light Body Rosetta Cluster.
   - The 9 layers of the Rosetta Cluster are formed from those different sets of Cell Structures that birth on the first 9 Days of Creation. (From the Tauren, the Diad, the Miad, the Monad, the AmOrA Hub Cell, the Adon, the Edon to the Aton.)
   - They form the Rosetta Core Currents (the AdorA and EtorA Krystal Spirals).
   - The Rosetta Flows open the Akashic and Ecoushic Record 1st Cells.
   - The Rosetta Flows draw the 144 manifest Elemental Adjugate Twins into the 12 Allurean Chambers of the Cosmic Spirit Body. By opening these 12 Cosmic ELum-Eiradhona Currents into the Cosmic and Domain Allurean Chambers, the Core LaVa and Rosetta Flows merge with the Spirit Body Currents.
   - In the LUma Eturna level of the Spirit Body, the Elemental Adjugate Twins open the NaVA-Ho Core Flows, which are shaped like "8s."
   - These NaVA-Ho Core Flows run between the LUma Eturna, the Hall of Records 8-Cells, the Akashic, Ecoushic Record 1st Cells, the Rasha Dark Matter Body, and the Inner and Outer Light Bodies.

- The Rosetta Flows also form the 9 Kundalini Flows when entering the Allurean Chambers of the smaller Domain Spirit Bodies

10. Why are the HaRA Krysta Lines important?

- When the currents of the YunasA open up, they form the HaRA Lines. The Rosetta Flows open into the Allurean Chambers Cosmic and Domain Levels, creating the Core LaVa Flows and the 9 Rosetta Currents combined, to form the Core Cosmic HaRA Krysta Lines in the Domains and Cosmic Allurean Chambers.
- There are 12 HaRA Krysta Lines, which run the Allurean Chambers. They open into the whole structure of the Akashic Record and the Ecoushic Record and the Halls, right into the Creation Point and the Spirit Body.
- The 12 HaRA Krysta Lines directly link the Light Body through the Rasha Body through the Spirit Body so the flows can begin. They put everything on line with the Cosmic Time Matrix and the Living Body of God-Source.

11. What are "Foils" and how are they created?

- The Elemental Current fission and fusion begins at the core of the Cosmic Rasha Prana Seed, forming the 144 Base Elemental Currents of Eiradonis Atomic Matter and releasing the Atomic-Eiradonis Currents into the Light Body for Matter accretion.
- Atomic Elemental Currents are Eiradonis Adjugate Spirit Currents that form the Base Accretion Templates of Matter forms – the Eiradonis Templates or Foils.
- Light Body Spark Currents accrete upon, and form a crystalline membrane over, the Atomic-Eiradonis Armature Foil.
- Underneath the Light Body is this living Eiradonis level that is considered the core of the Atomic level.

12. What are the Axi-A-Tonal Lines and Meridian Lines supposed to run?

- In the manifest natural EtorA System, Axi-A-Tonal Lines are supposed to run the Akashic Currents, which are the EtorA Matter Eiradonis Currents flowing from the Allurean Chambers and Akashic Record AdorA 1st Cell. The substance is referred to as Hydrolase.
- These Akashic Currents form the Akashic Body EtorA Matter Foil natural Meridian Lines.
- These Meridian Lines are positive lines running EtorA Light Body Currents (Rosetta Currents) from the Allurean Chambers and the YunasA Rosetta Cluster.
- These EtorA Light Body Currents (Rosetta Currents) form the EtorA crystallized light-skin membrane over the Akashic Body Eiradonis Geleziac Foil.

Modern Psychology 101:

On the Historical Perspectives of the Origin of the 'Shadow Selves' - Part II:

An Overview of what led to the Distorted-Reversed Gaian Matrix

Mohsen Paul Sarfarazi, Ph.D.

Abstract

An overview of the historical accounts leading to the origination of the Shadow Selves during the Gaian Timelines that have been operating within the 9 lowest dimensions of the Nebadon physical universe ever since, when our higher dimensional aspects of the planet (Hyperborea, Polaris) were first invaded by the negative aliens via waging the Electric-Gaian Wars against us that proceeded their earlier Lyran-Orion warring exploits, has been presented. Accordingly, the Polarians became extinct at the end of these wars, also putting an end to the so-called Golden Age of humanity. At this time, the fragmented pieces of the Polarians as well as some of the Hyperboreans who fell during the same wars were taken to the Wesa System by the Black Hole Entities in order to be closely researched, leading to the reversal of our consciousness that gave rise to the calamity of Metatronic Consciousness Reversal System. And, this coincides with the timeline that through the Metatronic Reversal employing a distorted version of the Fibonacci Mathematical Sequencing, the Black Hole negative aliens with the aid of their captured Metatronic Collective captives and victims who were coerced to cooperate with them, they managed to devise a

way to distort the Sextant Matrix with reference to changing the ratio of the quantum spin velocities of our personal as well as planetary magnetic to electric energies, effectively damaging the scheme of the 'Cosmic Clock' determining the scheme of our collective consciousness and that of our planetary logos (brain). Accordingly, they devised a distorted and False Time Matrix and installed it in our planetary Grid (as well as other planetary spheres subsequently collectively giving rise to the 'Black Magic Grids') that is referred to as the Yahweh Matrix, which is based upon a 10D False Tree of Life (such as the Sephiroth worshiped by the Jewish faith), instead of the usual 12D Grid or Universal Tree of Life or Time Matrix. Accordingly, the schematic of this system is based upon Vesica Pisces, a system of two intersecting spheres passing through the center of either other. This represents a closed circuit Bi-wave Energetic system, with the energies flowing from the victim to the aggressor only that is contrary to the usual Trinity Tri-Wave structure comprised of three spheres that exchange energies among one another within an open loop of free energies. In this respect, the God-SOURCE's free energies are disseminated to all ITS solar organic sentient offspring whose quanta of energy sequentially spin about an invisible umbilical cord stretching between the God-SOURCE and all ITS offspring, torsionally vibrating within two equal intervals of expansion and contraction, with the God's offspring sequentially expanding away (stretch) and then contracting back (shrink) towards the God-SOURCE, akin to a helical spring. In this respect, the offspring receives free energies from the God-SOURCE during the interval of expansion, followed by getting its expended energies of consciousness replenished upon its return (contraction) to the SOURCE. This way, the offspring, no matter where he-she has anchored its consciousness and at what point to the Neural Network of the God-SOURCE, remains connected to the

SOURCE as well as maintains its propinquity to the God-SOURCE. However, the Metatronic Reversal System manages to 'steal' magnetic energies during the contracting phase to the SOURCE that represents its return to the SOURCE, thus gradually making a consciousness offspring become more distant from the SOURCE with each sequential intervals of vibration. This is why humanity has become so disconnected from their inner spirit and their higher dimensional aspects (HIGHERSELF) that represents their seed of consciousness that were planted by the SOURCE (or the its liaisons the Guardian-Founders) as ITS offspring, to spiritually nourish via finding enlightenment to grow, leading to their consciousness expansion, transmigration to higher dimensions of consciousness, and procure Ascension. And, indeed, the missing two spherical dimension represent this scheme of magnetic energy pilfering, with the energies being constantly directed towards the Orion Constellation and their Black Hole Storage Energy Moloch Tanks. Accordingly, this manuscript begins by providing an introductory narrative with respect to the first and second seedlings of humans giving rise to the first 4 root races. Then the consequences of the Electric-Gain Wars on the Gaian Timeline Matrix and the Fall of the Hyperboreans is discussed. Finally, the discourse ends with an account of a Conflict that occurred over Re-Seeding of Humanity. As for the account of formation of the Gaian Shadow or Phantom Body, the discussion has been carried out in a companion paper entitled "Modern Psychology 101: On the Historical Perspectives of the Origin of the 'Shadow Selves' - Part III: The Hyperborean Holocaust Timelines and the Formation of the Gaian Phantom Body."

Introduction

- In a companion paper [1], the author discussed information pertinent to the Gaian Timelines, and in particular, the Hyperboreans who are thought to have settled in the Northern part of the planet in Northern Scotland as well as in Scandinavia, what is reflected in the Nordic Mythology, and in the areas in the vicinity of the Ionian Sea between what is now Greece and Italy, with their own account of mythology referred to as the Greek Tragedies.
- This narrative is thought to pertain to the original account of Nebadon Creation [2-4] and its inhabitants prior to its invasion by the horde of Black Hole Entities [5-7] that are basically of the reptilian origin.
- However, due to the invasion of the Nebadon Universe [8] by the Black Hole Entities from the Parallel-Antiparallel [9] Wesa System, the result of reversal consciousness [10-11] put into effect by these fallen entities [12] rippled out into the lower dimensions culminating in the blowing of the Consciousness Core of Lyra with its consciousness pieces befalling into the Milky Way Galaxy [13], including all the lower dimensional realms among which a distorted-reversed version of the Gaian and the Taran Timelines emerged, as we well as, created the newly devised Earth Timelines that was not a part of the original design of Creation for us [14].
- In what follows we shall discuss the complications that we incurred as a result of the negative aliens' invasion and the destruction of the Lyran Trinity Stargates and the 4th Harmonic Universe [15-16] with its rippling effects pertaining to our Monadic bodies [17-18] relevant to the derailed, distorted, and reversed Gaian Timelines.
- But before that, we shall briefly highlight the Seeding 1-2 of humans as a form of physically embodied consciousness and their Root Races 1-4 upon Gaia and Tara.

- In companion papers, both the case of original Creation of our Taran bodies [19] as well as its reversed consciousness leading to our blended phantom reality experiences [20-24] have been discussed.

Seeding One and Two and the Formation of the Root Races 1-4

- In order to have a presence in the 3rd Harmonic Universe, the Guardian Founders who had incarnated on HU4 as the Emerald Order forming the Elohims representing the White Line Feline Anuhazi race, stepped down their genetics to form the Azurite race, to oversee the creation of the Hyperborean-Polarian races that represent our Monadic-Oversoul Matrix on HU3 and the First and Second Root Races of humanity.
- Recall, that the Dualism Principle of Creation [25-26] asserts that everything is to created as conjugate-mirrored pairs of one another.
- Accordingly, the nature of physicality and embodiment formation within the lower dimensional planes or Harmonic Universes [27-28, 15-16] necessitated breaking of the now formed individual particle and antiparticles quanta of energies [29] apart from one another to give rise to a set of Conjugate-Mirrored Spheres [30-32] that were essentially Twin Aspects of one another as a Binary Star system, which were referred to as Hyperborea and Polaris, being comprised of a new form of human species inhabiting them that were referred to as the Hyperboreans and the Polarians.
- In this respect, essentially, the collective souls and consciousness of the Hyperboreans or Polarians formed the planetary logos and the matrix of their own planetary spheres.
- Note that the Polarians and Hyperboreans within the Gaian Matrix comprise our Monadic or Oversoul Aspects.
- And, in order to have a presence also in HU2, the Guardian-Founders also dispatched a group referred to as the Serian Council (comprised of Seraphim and other forms), to step down their genetics, to

oversee the seeding of human Angelic prototype in HU2, and in particular, the 5D Tara that epitomize our Soul Matrix.

- This way, they also had formed the Turaneusiam prototype race that is composed of genetic materials that makes up our 12D Strand Crystalline Silicate-Based DNA structure [33-35], selected from the genetics of 12 superior Angelic Christos-Sophia races from beyond the Nebadon Universe, who each donated their genetic materials to give rise to a single DNA strand for this prototype that epitomizes our 5D ancestors on Tara.
- And, there were two races upon Tara: the Alanians (later referred to as the Atlanteans) and the Lumians (later called Lumerians) that epitomize humanity's Root Races 3 and 4.
- Note that similar to Hyperborea-Polaris as a Twin Star, Tara also had a female counterpart referred to as Tiamat.
- Yet, later upon invasion of the HU2 by the negative aliens, Tiamat also was blown up with its consciousness pieces being confiscated by the negative aliens to form the basis for their Dark Mother, creatures such as Black Lilith [36-37], etc.
- Furthermore, Tara was exploded as a result of a portion of Alanians, highly ambitious, narcissistic, with expansionist ideologies who were duped by the negative aliens to follow them, eventually leading to the abuse of the potent underground crystals as a source of weaponry, with its pieces falling into HU1 through the Sun Stargate, eventually congealing and forming the 12 planets in our Solar System.

<u>Seeding One - The 7D Earth (Gaia): After Invasion</u>

- After the destruction of the Lyran Trinity Stargates and practically demising the 4th Harmonic Universe, as well as distorting the proper operation of the Universal Time Matrix by the Wesa Black Hole Entities who were of reptilian origin and also what became their hybrid species referred to as the Fallen Angelics as their allies, the

negative aliens concentrated their attention on the lower dimensional fields that were of more interest to them as a viable place of domicile for them as they craved for embodiment, be it that they had to form an attachment to others' bodies or possessing theirs victim hosts [38-39].

- Recall that the negative aliens were fallen from the grace of God [40] and were no longer privy of receiving the free energies ordinarily supplied through a Trinity or Tri-wave system of open loop of energies [41] by the God-SOURCE to ITS solar sentient offspring [42-44].
- Thus, the only way to be able to maintain their miserable fallen existence was to siphon energies [45] from other solar sentient beings through parasitic-vampiric attachment to their embodied 'hosts.'
- And, this would mean looking elsewhere in the lower dimensions, and in particular, onto the First-Second seeded Root Races that were created by the Guardian Founders in the 3rd Harmonic Universe, which are referred to as the Gaian Matrix, and in particular, the Hyperboreans and Polarians that epitomized one another's Twin Embodies Forms.
- Thus, the negative aliens newly devised and waged wars over the Hyperboreans and Polarians that gave rise to what is known as the Electric Wars.
- And, after the Electric Wars, the Golden Age of Humanity came to an end by firstly annihilating the Polarian race and taking the individual disintegrated souls of these beings to the Wesa System by the Black Hole Entities for further research and studies as to how to reverse human consciousness.
- Furthermore, many souls of the Hyperboreans also became fragmented and fell into the lower dimensional planes, with some of them eventually incarnating as 3D humans upon the 3D Earth in the Northern part of the planet that includes Northern Scotland, and at

the shores of Ionian Sea between Greece and Italy and in Scandinavia that are collectively reflected in the Greek Tragedies and Nordic Mythologies, which form the 7th Human Tribe that are related to the 7D Violet Ray.

- Also remember that the Avatar Angelic Humans referred to as the Aquaferions became extinct initially during the Lyran-Orion Wars.
- As a result, the Guardian Founders wanted to continue having a presence in the lower dimensions, specifically the 3rd and the 2nd Harmonic Universes.
- Note that these wars were primarily about conflict over the human consciousness and Human (Christos-Sophia) Kingdom, to have control over the dominion of the Earth Realms throughout the dimensions (Gaia, Tara, even Earth in HU1).
- These wars all caused genetic mutations, damage, subsequent evolutionary and genetic digression for the humans [46] and a host of other solar organic beings [47-50] that were all instigated by explosions and blowing up the Planetary Cores and their Logos (planetary brains) and damaging their planetary grids (Horizonal and Vertical Leylines-Axiatonal Lines) [51-52].
- In order to maintain the longevity of the operation of the Nebadon Universe, the Guardian-Founders and Elohim re-designed human genetics to ensure that Human species evolution would continue.
- Remember that human consciousness embodiment epitomizes the failsafe mechanism for eternal existence of our Universe [53].
- However, they had to make sure that genetic disturbance and mutations would not find its way to the new and higher dimensional realms.
- So, they decided to have the higher dimensions sealed off via the advent of imposing certain quarantines [54] to protect the higher dimensions and entities from all of the distortions and genetic mutations that had occurred in the Human Race.

- Accordingly, a system was devised that the bioenergetic of human beings would entail a chakric system [55-58] with a seal to be broken off before opening up to higher dimensions [59-63].
- This would also mean that certain DNA strands, although all assembled, would remain inactivated until the human being is able to acquire a certain higher level of frequency-Light quotient of consciousness (consciousness expansion) [64-66] until reaching certain threshold values so permanent access to the higher dimensional planes would be granted.
- And, this is what is commonly referred to as biological evolution and Ascension [67-69].
- Note that the chakras as sets of double inverted cones are essentially energetic particle-antiparticle accelerators that serve the purpose of doorways to access higher domains of matter-antimatter [70-75].
- Initially human beings were designed with 12 crystalline silicate-based DNA strands that were assembled, yet only 5 strands were activated to be commensurate with the dimensional consciousness level of the 5D Tara.
- It was the responsibility of each human being to attain higher dimensional frequency-Light quotient of consciousness via effective, constructive, productive, creational endeavors to acquire spiritual enlightenment through experimenting with the sojourns of life via experiencing the consciousness realities holographically streamed upon the relevant space-time dimensions [76-79], and otherwise.
- Note that there are basically three ways to learn and become spiritually enlightened: (1) through experimentation in the physical domains and learning by a trial-and-error procedure, (2) Also by observing others and not repeating their 'mistake' that only retards the process of one' consciousness expansion, and (3) Through also being 'attuned' with your HIGHERSELF or Monadic-Avatar Self

through properly resorting to one's inherent intuitive intelligence [80].

- And, intuitive intelligence is facilitated by the heart and having proper reverence for the provisions of the Law of One.
- Thus, one has to always go WITHIN and maintain close connection to one's inner Self [81] that is a reflection of the God-SOURCE.
- And, perhaps the negative aliens aggressors and controllers know this only too well.
- This is why they have always done their best to make us feel isolated and disconnected from the our Inner Self [82] through whatever means possible.
- This is a part of their Divide and Conquer Strategy' [83-84] that has served their strive for our mind control programming [85-96], procuring attachments to or possessing our souls, leading to energetic siphoning of our low consciousness energies of loosh, leading to their parasitic-vampiric feedings to effectively serve their survival and longevity, and even delusionally culminate in their immortality.
- Accordingly, they have taken advantage of our chakric bioenergetic design, treating it as a 'flaw,' by devising such things as genetic implants that function as frequency fences [97] giving rise to additional imposed quarantine fields and even a death seal [98].
- Thus, upon coming down to the denser and lower dimensional realm of consciousness, we had to step down our level of consciousness through soul fractalization to be commensurate with the dimensional level of consciousness there.
- Accordingly, we had to first split our particles and antiparticles of energy to occupy two conjugate domains mirroring one another in terms of the direction of progression of time being opposite to one another.

- This gave rise to a system of conjugate-mirrored domains that in terms of congealed aspect of physicality [99-100] corresponds to a Twin Spheres or a Binary Star System.
- Accordingly, we had to effectively create a 'Twin Aspect' of our Self experiencing life in an anti-parallel system of antimatter to ours in (referred to as a Polarian vs Hyperborean).
- And, when stepping down to HU2, the giant soul aspect had to divided to 12 different 'Soul Expressions.'
- Furthermore, upon later formation of Earth in HU1, each lost soul that was recovered had to be divided into 12 different 'Soul Aspects' of itself each having a frequential consciousness level that would commensurate with dimensional consciousness level of HU1.
- These souls are said to experience their diverse consciousness realities within what is referred to as the Omni Earths [101].
- And, in essence, each Omni Earth represents a parallel-antiparallel aspect of the other with one being deemed as the World of Matter and the other the World of Antimatter.
- Thus, as of recently, each form of human consciousness embodiment has had a Seed of Consciousness (also has been referred to as the Permanent Seed Atom) that is divided and composed of up to 144 Soul Aspects within the Worlds of Matter-Antimatter of the 3D Omni Earths.
- And, now humans have to gather all these Soul Aspects and reintegrate them to consciously vibrate [102-113] in a refined manner about a single timeline (Cosmological Bi-Vector of Time) [114].
- This way, first 12 Soul Aspects must synchronize to form a Soul Expression.
- Then 12 Soul Expressions must synchronize their vibration to form their Monadic forms or their Oversouls.

- Then the two Twin Monadic forms synchronize their vibration as to form a Zero-Point Field [115-117] without any Time Wall separating them, coexisting as particles that epitomizes the World of Matter and Antiparticles forming the World of Antimatter, with both together forming a Neutral Field.
- This defines a Tri-union of Universes comprised of World of Matter, World of Antimatter, and the Neutral World, altogether forming a system of Trinity [118] for the consciousness being in a similar way as the God-SOURCE.
- And, this represents what is commonly referred to as an Avatar Angelic Self comprised of full crystalline consciousness without any Wall in Time separating the particles of matter and antiparticles of antimatter, and existing as an androgenous-neutral state comprised of a combination of matter-antimatter.
- Then the Avatar Self is allowed access to its Cosmic Families again.
- Thus, our bodies were sealed off and we were separated from our 12 DNA consciousness.
- Accordingly, each consciousness identity had an embodiment comprised of a chakric system with each chakra having a 'seal' that needed to be broken before getting access to a particular dimensional realm to which the chakra would function as a doorway run by a software system that would impose a frequency fence or a 'Time Wall' to be 'climbed' via raising one's frequency of consciousness.
- And, each chakra seal would similarly correspond to a DNA seal that would have to be 'broken' to activate that particular DNA strand out of the 12 possible DNA strands.
- Of course, the negative aliens took advantage of this concept of Time Wall or a 'quarantine state' to effectively imprison their conquered-captured victims and subject them to unconsciousness enslavement [119].

- And, with the advent of such chakric seals, the negative aliens controllers devised a whole new forms of genetic distortions imposed on the human species blueprint via new sets of genetic implants that would act as frequency fences, further quarantining the humans, negating its consciousness expansion through subsequent seeding (Tara and then Earth) and evolutionary rounds.
- This also meant that as human beings, we would experience separation and lack of connection to, or awareness of, our other aspects of itself such as the Soul, Monadic and Avatar Selves that epitomized splitting of our Lightbody layers.
- And, in order to heal this condition, an individual with a seed of consciousness (also referred to as "permanent seed atom") would have to collect all its consciousness fractilized aspects or its fragmented pieces and unify all its stations of identity and its layers of consciousness scattered to myriads of different Time Fields or dimensions.
- This was to be achieved through repeated incarnations [120-123] to begin the unification of one's consciousness.
- And, the process would start by first drawing the Lemurian Fragments (First Root Race) via the 2D or 2nd Chakra and the Atlantian Fragments (Second Root Race) through the 3D or 3rd Chakra of the Conscious Minds.
- The human 4D Astral body [124] would also draw in 3rd and 4th Root race Fragments (Lemurians and Atlanteans), as a part of the separated emotional body that was created from these distortions in our morphogenetic field blueprint [125] from DNA damage.
- So, the task for the human race was, and still is, one's self-responsibility to collect the fragments of one Selves from the other Root Race Cycles and Seedings.

The Original Fall of Hyperborea

- Hyperboreans are so important to us because during this timeline a lot of the original trauma of the "fall" was inflicted upon the human race.
- This is when the split in time occurred (between the original Timelines devised by the Divine Guardian-Founders and the distorted-reversed phantom Timelines occurring as a result of invasion of the Black Hole Entities).
- This pertains to the first and second root races as a process of the human evolution moving through the timelines of consciousness.
- This was a part of the original soul that was involved in the first seeding within congealed physicality, to help the planet to reclaim its fragments because the higher dimensional aspects of the planet (Aramatena and Hyperborea-Polaris) had exploded.
- This is a part of the reseeding of Consciousness, helping the consciousness to, once again, have a particular experience in physicality and on a planetary body.
- So, in this early root race cycle, there were wars that were instigated by the negative aliens against the organic consciousness forces overseen by the Guardian-Founders, what is referred to as the Electric Wars.
- And, this coincides with the timelines when the negative aliens concentrated their attention on the physical planes, and accordingly, started to deploy their war machinery on these dimensional planes, starting with the 3rd Harmonic Universe.
- When the Electric Wars happened to the Hyperboreans, they were split apart from their Polarian counterparts, with the latter eventually becoming extinct.
- Note, again, that the Hyperborean experienced a Golden Age in the beginning stages that subsequently ended with the calamity of the Electric Wars.

- Again, this was related to the Orion Group Black Hole Reptilian entities' (and their cohorts' collectively referred to as the negative aliens') conflict over the dominion of different dimensional aspects of our planet (Gaia, Tara, Earth).
- In particular, the conflicts and wars with the negative aliens were about the seedings and the territories to be lived in.
- Accordingly, as a result of the massive tragedy of these wars, the Hyperboreans split and became fragmented, with their Twin Aspects (Polarians) becoming extinct.
- However, eventually some of the Hyperboreans who survived capture and imprisonment incarnated on our planet.
- And, these are portrayed in the Greek-Nordic mythologies and the tragedies.
- For example, the Greek mythology is all about the Hyperborean, which we know of as the "Titans and the Olympians" when we speak of such personalities as "Perseus, Zeus," etc. who represent the original races that were sourced from the Hyperboreans.
- Everything about that mythology is just appalling or "tragic."
- The landmass associated with the Hyperboreans include the Northern part of the planets as Scotland, Scandinavia, as well as the areas of the Ionian Sea between Greece and Italy.
- And, presently the original people who have been living in these parts (those migrated being the exception) have a genetic relationship to the Hyperboreans.
- When you think about the giants and how large their bodies were, you are referring to the Monad bodies of the Hyperboreans that were typically 16 to 20 feet high, which reflect such beings as the Titans and Olympians.
- In fact, the Hyperboreans, at that time, were a type of pre-prototype Monad body, and this is why their bodies were huge.
- Moreover, a lot of the Nordic mythologies came out of the same.

- The Swedish, Norwegian and Celt histories also came from the Hyperboreans with such characters as "Thor," etc.
- This is a part of the 7D Earth and a part of its Monad body, before the 7D aspect of the Earth and its planetary mind (logos) was invaded, and was taken over by the negative aliens.
- Accordingly, the Hyperboreans as a form of our consciousness embodiment represent very much a part of that.
- And, when the planet was invaded, and consequently, the Electric Wars created a separation, the matrix of the planet became manipulated magnetically to what is now.
- Note that the negative aliens do not have a concept of time.
- They really do not have a consciousness [126-128] the way we have as solar sentient organic beings vibrating in time.
- Nor can they expand such a consciousness even if they did have one and evolve.
- So, they do not have a concept for dimensions of time or consciousness.
- Accordingly, they bore holes in space-times to form wormholes and they can as well be in any dimensions or Harmonic Universes.
- And, in concert with the phenomenon of Creation that occurs simultaneously in NO Time or the NOW moment [129-131], the changes they impose as a result of their invasions has no dimensional bounds and can occur throughout all timelines.
- Thus, when the Gaian Matrix became distorted and reversed, there were concurrently changes occurring on Tara that led to its explosion as it did in Lyra, and subsequently form the 3D Earth and the planetary fall into HU1.

Conflict over Re-Seeding Humanity

The first seedings of the first two Root Races of the angelic humanity occurred on the 7D version of our planet that exists in the higher frequency bands of future time in the Gaian Matrix.

- The Gaian matrix is the higher frequency future timeline of Tara, and seeding in the etheric layers began concurrently to help neutralize the destructive impacts of the Fall of Tara that had happened in the past timelines.
- We have been species who have always had contempt against the human race, regarding that God and through their liaisons, the Guardian-Founders, has played favoritism towards humanity, making us as the Crown Jewel of all consciousness embodiment within the Nebadon universe.
- They even considered humans to be a result of "failed seeding experiment."
- Thus, when the Electrical Wars broke out, there were anti-human race sympathizers who joined the conflict, with these entities who occupied the neighboring star systems contending that the "failed human seeding experiment" should not be allowed again.
- These same individuals later considered the Taran explosion being the result of human extreme negligence, leading to such cataclysms that generated extreme damage and genetic mutations subjecting also other civilizations to such genetic digressions.
- Thus, they demanded that any future human seeding be sealed off and quarantines generated to protect higher dimensional realms from incurring any further damage.
- The Founders and Lyran-Elohim negotiated with other neighboring systems and races that were in conflict for allowing the Taran angelic human lines to continue to evolve on the Earth.
- Accordingly, when human consciousness was no longer deemed as being a threat to other planets or to Universal systems and their

stargate security, the quarantines-seals would be lifted and assistance would be given to those who truly desired to practice the Law of One to spiritually evolve.

- It was then mandated that, ultimately, it should be the responsibility of the returning families of RA confederacy to oversee these requests to ensure that humanity truly and sincerely dedicate themselves to the process of bio-spiritual consciousness healing, and be willing to place effort in their spiritual practice in order to ascend into higher consciousness.

Mass biological and mind-control devices exist well beyond the technology of implanting tiny physical 'chips' into humans, which accompanied many of the abductions by the Greys and non-benevolent Zetas; and also are an impending application of such electronic devices by the One World Government to the population. Even brain signatures radiated by government HAARP and GWEN towers are relatively superficial compared with ancient existing global grid systems, which can be used for manipulating the evolution of all life on the planet, including the planet's evolution itself Nevertheless these government antenna systems can be linked to the global systems that are used by the non-benevolent extraterrestrials.

We are talking about ET-developed vast global networks utilising crystalline 'microchip' scalar technologies They are referred to as PIN systems---Pylon Implant Networks There is the APIN (Atlantis Pylon Implant Network) and the LPIN (Lemuria Pylon Implant Network)

Before we describe these massive devices (which are introduced in the crop circle article, 'ET additions') it is worth noting that the average individual has standard implant complexes programmed into the subconscious or astral field. Since we have the same configuration from person to person such mind implants can reactivate others and we have a type of mass-mind control Ron Hubbard was *the* expert on this unfamiliar territory of the unconscious mind---possibly no one has come close in modern times to uncovering such dangerous mind-control systems, which are generally configured in such a way that to expose them without safely-worked-out procedures is lethal The author uncovered and endeavoured to release a more rare and special type that can be referred to as a machine, which eventually reactivated violently, resulting in a narrow escape and taking a couple of years for the 'machine' to stabilise, and to recover Hubbard, up to his death in the 1980s, which is still surrounded with some mystery, was beginning research into group and collective implant systems

Let us now take a look at the global grid systems, capable of aiding evolution or vice versa manipulating it negatively All the technical information on these APINS and the LPIN have been transmitted by the Guardians working with Ashayana Deane (see book Voyagers volume 2, and workshops)

These technological global systems inevitably operate through inner space. Unfortunately owing to our unsophisticated educational system and inadequate 3D science the reader has no clear or even vague notion of inner space (see article on suppression of inner space) As a very elementary model one might wish to imagine a spherical sponge but with fewer holes (pores) in it and a relatively smooth surface In this analogy our 3D space, as we look out into the universe, would merely be the surface of this sponge. The inner space corresponds to the insides of the sponge and we see that the holes give passage ways (wormholes, blackholes, dimensional portals) through 'inner space' Of course we have to consider that these inner openings have different spacetime properties, such as a wormhole giving almost instantaneous connectivity from one place on the sponge, our 3D, to a distant one The reader must envisage, however they wish to do this, that there is vast space-time beyond our visible 3D, but it is right here, not along a linear line across space, the surface of the 'sponge' Readers need a model which is real to them so that, for example, they can visualise a

wormhole connecting one time matrix to another Think of a time matrix as a sector of the galaxy but extends well into inner space and thus is much larger than the 3D view which probably extends about as far as the Lyra system for our time matrix (see cosmic map article)

The APIN grid networks were designed in the shapes of creatures, for instance, animals, birds, so that when viewed by ETs from space using photo-radionic equipment they can be seen and immediately identified In some cases these shapes are representative of the creators It is not a coincidence that many Earth creatures resemble advanced ETs---lions, cats, reptiles, insects, birds, etc This plan of ETs, having a creature extension of themselves on Earth, gives them an awareness connection line to this planet Again, this is a feature of mind and consciousness which the average person is unfamiliar with.

The first APINs were created 5.5 million years ago by advanced Guardian Founder races The Leonine race created the Great White Lion and the Avian race created its companion the Golden Eagle to give support to Earth to prevent an evolutionary descent that, left unattended, was a certainty These benevolent APINs interface with and reinforce, by resonance, the original blueprints underlying all creation By supporting the Earth's inner morphogenetic structure, and its blueprint/'DNA' and codes, these grids correspondingly support the DNA and consciousness of all life on the planet, in particular, aiding the civilisation and planet through the ascension cycles (see article on ascension)

The philanthropic networks are the Great White Lion, the Four Faces of Man, the Blue Oxen and the Golden Eagle However, the latter two were hijacked by the invader ETs and the Golden Eagle was renamed by them, the White Eagle The systems controlled by the invader ETs are the Phoenix, Falcon, Serpent, Dragon, Dove, NET, NDC-grid, and then the White Eagle and Blue Oxen All these systems are energised during the ascension (Stella-activation) cycles every planetary time cycle, 26,556 years, that is, when the mechanics of the ascension process are functioning properly, which hasn't been the case for eight previous time cycles Some of these global grids, such as the NDC, are activated by artificially applied scalar sonic pulses

The APIN components are generally linked up using a crystalline-based technology---like embedding computer microchips into the Earth into a selected format. The Guardians have used them for free-energy systems, climate stabilisation, healing, interstellar communications and broadcasting networks

The principal players in this fallen angelic drama are the Pleiadian-Nibiruian-Luciferic Anunnaki, who combined with the Andromic Anunnaki, the Jehovian Anunnaki, the Dracos Zeta, and the Drakonians and Zeta Rigelians who work together However, in the year 2000 many from these competing groups formed the UIR (United Invader Resistance), a temporary alliance in an attempt to defeat the Guardians.

The Great White Lion and the Golden Eagle were created by the pure races and Guardian Founders: the Lion APIN by the Elohei Leonine Christos races, and the Eagle APIN by the Seraphei Avian (bird) races. Note that the Elohim and Seraphim are slightly digressed from the Elohei and Seraphei. These two branches form the main lineages Some of the Elohim then further degenerated into the Anu-Elohim, who created the invader Anunnaki (to stop human guardians) The human race is not a product of this line but more directly from the Elohei The Seraphei digressed to the Seraphim This

lineage, listing the Anunnaki origin and the bird people and reptilian species, is a simple outline and the reader should consult the detailed charts of the Guardian material from workshops

Thus the Lion APIN is in the image of the Leonine race. Note that the Sphinx, which originally had a lion's head, was built as a tribute to the Leonine Founders---the resistance Anunnaki defiled and altered it The heart of the Lion APIN is located at the 12-dimensional (12D) energy centre (node, stargate portal---see cosmic map article) in France It stabilises the 12 primary 'vertical' axiatonal lines. The Golden Eagle is anchored on the D8 stargate (the control centre) It stabilises the 12 primary 'horizontal' ley lines. The Lion is the Guardian of the North and South, and the Eagle the Guardian of the East and West.

In 75,000 BC the Dragon APIN was created by Drakonian groups Its head extends into far Eastern Siberia, China and Japan, and its body reaches into South America. It runs on reverse D10 current and forms a connection between Earth and descended planets in the Phantom Matrix. Rebel Drakonians aim to defeat both the Guardians and the UIR in the 2000-2017 final battle

The Phantom Matrix is a lower formation of the lower frequencies and fragmentation of our (12D) time matrix, manifesting as a separate entity, and brought about by repeated abuse from advanced scalar-pulse technologies 250 billion years ago, and resulting in an 11D black-hole system The Guardians immediately secured the separation by means of the time wall to keep out the invader ETs and prevent further fall of our matrix.

The Serpent APIN was also created during this period by the Pleiadian-Nibiruian Anunnaki This APIN runs on D 4-5-11 reverse current and connects to Phantom Nibiru and other planets via the Phoenix wormhole in the Bermuda Triangle It uses spike-site implant technology and links with the NDC (see below) and Giza, etc. Recent activation began around the 1700s

The NDC (Nibiru Diodic Crystal) grid was set up in 25,500 BC, by the Pleiadian-Nibiruian Andromie-Anunnaki. The Crystal was inserted deep in the Earth's crust under where Stonehenge was later built (to counteract the NDC energies). Such crystals are as tall as many stories of a building The NDC is activated from 'Battlestar Wormwood' (same Wormwood as in the Bible), which acts as a relay station for scalar sonic beams from the planet Nibiru. Also the 24 Nibiru Crystal Temples (within Earth) can be used to keep it running. The energies spiral up from the Crystal to the Earth's surface, then expand out through 16 arms which carry programmes for creating and perpetuating the massive DNA mutation (the so-called 'junk' DNA) present in all life on this planet as this 'wheel' of spokes spins, primarily achieved by reversing the planets merkaba (double spiral oscillation) and altering its spin rates. This mechanism reverses codes in the Earth's grids. Stonehenge when in operation had a special geometry to block the Crystal energies This NDC-grid is part of the larger Canadian so-called Michael-Mary Turnstile Matrix in which several smaller 'wheels' operate in North America. This control system now includes the White Eagle APIN and is used to broadcast subliminal mind-control scalar programmes. The NDC photosonic pulses block and reverse the polarity in some of the Earth's axiatonal ('vertical') and Ley line ('horizontal') grids, creating a 'checkerboard' of alternate active and dormant frequencies and named the Checkerboard Matrix. This has created a huge so-called 'checkerboard mutation' in all life on Earth (much of the 'junk' DNA).

The NDC-grid can be used for poleshift, which was the intention, but it was recently disconnected (2002) from Wormwood by ET meditation techniques applied at certain specific sites by Indigo

humans working with the Guardian ETs. However, the Anunnaki then utilised the 24 Crystal Temples until again the Indigo team deactivated the Crystal Temples one by one Nevertheless, the NDC could still be effective by running off the additional NDC on parallel Earth (even planets have a separate polarity as with particles and antiparticles). Following this the UIR attempted to activate all of the Canadian Michael-Mary Turnstile Matrix and use it to re-link the Stonehenge NDC-grid to Wormwood to give sufficient power to blend the Falcon and Phoenix wormholes and put all their APINs on line The powerful scalar sonic pulses used in this attempt, created sufficient disturbance in the Earth to manifest the unprecedented Andrew hurricane.

Note that the techniques drills are referred to as Round Tables and that King Arthur and his Indigo team (knights of the Round Table) were continuing this same mission (the Christos Realignment Mission), attempting to disconnect Wormwood, from where Jesheua (Jesus) left off. The techniques apply a 12-code pulse which corrects the reversals and misalignment making the NDC-grid ineffective

The NET (Nibiru Electrostatic Transduction field) was anchored into Earth using the NDC and Nibiru Crystal Temple Network during the Luciferian Rebellion, 25,500 BC By impinging scalar sonic pulses at the Earth's inner grid system an 'interference' pattern or electrostatic force-field was created, enshrouding the Earth This NET has the effect of buffering (stopping) incoming and outgoing signals, in particular to the higher dimensions (Founder ETs, etc), creating a kind of quarantine. It blankets the civilisation, isolating it from its natural connections to its inner consciousness and spiritual levels, and this field system interfaces naturally with man's existence and constitutes a holographic insert Surveillance of the Illuminati by the Guardians is also blocked due to the cloaking effect---it causes 'false readings' This D4 (4th dimensional) NET is said to be an 'astral mess'. It was fortified in 9558 BC and has since been progressively blocking all natural communications to and from Earth Preparations have been made by the Anunnaki to lower the NET from D4 to D3 which will then form a 'frequency fence' and present easy control over the population during the ascension cycle, 2000-2017

During the so-called Luciferian Rebellion, 25,500 BC, the Jehovian Anunnaki created the Dove and Olive Branch APIN and installed the Serpent. They also hijacked the Golden Eagle and reset it to run on reversed current (in opposition to the organic blueprint) and connected it to the NDC-grid, and then renamed it the White Eagle The Golden Eagle was meant to symbolise a free America, instead the bald (white headed) Eagle became the mascot. Continuous raids are carried out by the numerous competing alien groups to take over the APINs of the Founders using scalar sonic pulses to block and reverse the natural energy currents, and to expand their own systems Note that this can also cause serious Earth disruptions.

The Dove APIN runs off parallel Earth and operates on D 7-9-11 reverse current, creating a reverse spin to the planet. It can send subsonic pulses to precise targets and be used as a weapon, as can the Falcon and Phoenix The Dove has, additionally, seven Jehovian seals which are huge pylon selenite rods seeded into the Earth's grids at selected points down the East coast of America, corresponding to seven of the twelve stargate seals (which open the stargates during ascension). These Jehovian seals are referred to as hyperdimensional cones (HD-C), which are standing wave conical scalar wave clusters, manifesting in the rods The Dove uses 'trumpet' pulse technology and connects Earth via the HD-C links to the Phantom Matrix. This was not fully operational until the creation of the Phoenix wormhole in 10,500 BC The effects of these pylons is to create 'cracks' in the time wall

between Earth and Phantom, producing seven siphoning channels, and can be used as ultra low-frequency transmitters This can transmit whole objects, people, etc through a hyperdimensional field to the Phantom matrix

The Four Faces of Man LPIN (Lemuria Pylon Implant Network) has been referred to as the 'Guardians of the four corners' and 'Angels of the four directions' Its four heads are anchored in by sound pillars. In recognition of the Founder's creation of the Four Faces of Man, the Easter Island heads were built by ancient Indigo Maji descendants This LPIN, created between 22,500 BC and 22,326 BC, was designed to restore the 12D blueprint of Earth and prevent fall of Earth into the Phantom Matrix At the last planetary time cycle, intruder Anunnaki raided Earth and prevented this LPIN from activating (during the ascension cycle) Thus it was rescheduled for 2012, began its first activation cycle in 2001 and the final 12th cycle in 2003, bringing the Great White Lion and Golden Eagle on line The Four Faces of Man is designed utilising such high frequencies that the fallen ETs can't handle those energies.

The Blue Oxen ('Sacred Cow') was installed in 22,500 BC covering the whole of India, which was a specialised interplanetary network and runs on D12 current. In 22,236 BC it was expanded but in 10,500 BC it was taken over. Its specialised feature allows Earth to connect to a different time matrix, and this process is called the Trans-Harmonic Time Cycle to enable Earth to enter a different time continuum, preventing it from being drawn into the Phantom Matrix.

Two wormholes, located in the Bermuda Triangle, the Phoenix and Falcon were created (10,500 BC), forming the basis of the Phoenix APIN by the Nibiruian Anunnaki, and the Falcon APIN, by the Zeta Rigelians, respectively These holes were punched into the Guardian's frequency time wall between our matrix and the Phantom Matrix.

The Phoenix wormhole was created in 10,500 BC in the time wall by the Pleiadian-Niburian Anunnaki It was anchored into Earth, with the White Eagle, the NDC-grid, and the NET, through stargate 4 at Giza, Egypt, and links to phantom Nibiru (in the Phantom Matrix) This would cause 'fallen' portions of Earth to form an inhabitable moon around planet phantom Nibiru. The Phoenix APIN runs East on a line through Giza and Iran The heart is stargate 4, Abadan, Iran. The Drakonians and Zeta Rigelians then copied the Phoenix with their Falcon wormhole, intending to take over the Phoenix as the full Falcon APIN was installed. The Philadelphia Experiment of 1943 expanded this wormhole port interface system, which runs on reverse D10 current and connects Earth to Phantom Earth The UIR aims to use it to take over the Dragon APIN during 2000-2017. The Dove APIN was linked to the White Eagle and connected to the Phoenix.

In the Philadelphia Experiment of 1943 the Zeta Rigelians (competing ETs) created holes in the NET, providing them with a gateway into our space to bring in their ships (see article on the Philadelphia experiment) Guardians continue to attempt removal of the NET but with only partial success---ET factions have united to be more effective against the Guardians Through treaties, the Anunnaki have permitted the Guardians minor use of limited frequency bands of the NET for communication purposes The NET has enabled ETs to control science's progress by subliminal inspiration communicated to appropriate Illuminati members to provide suitable technologies for the ET's agenda. Thus many electrical inventions have been inspired to enable lowering of the NET into 3D to interface with our electrical technology (including the wiring 'cages' in homes). Note Tesla's wireless and radiant technology was apparently not allowed.

Albion

In the ancient days, the oldest name for England was Albion. The names for Scotland in the Celtic languages were also related to Albion. Alba in Scottish Gaelic, Alba in Irish, and Alban in Welsh, Cornish and Breton. These names were later anglicized to Albany, which was once an alternative name for Scotland. Many myths and legends have long existed that giants were either the original inhabitants of the United Kingdom, or were the founders of the land named Albion. The mystical significance of Albion has been memorialized through poems, stories and mythos. Together they suggest the nature of Albion is related to collective human consciousness and the World Soul, to which we are all intimately connected.

The Albion is the androgynous human template created from the twelve spheres of the Tree of Life which, during the fall of humankind, became buried in the lower dimensional fields of the earth, waiting to be awakened. This elemental structure of the primordial human template is located in the earth body, and is made from the Original Cosmic Blueprint. This original Blueprint records the divine plan for humanities ascension to the Silicate Matrix and holds the celestial records of humankinds evolution throughout the Solar System. The Awakening Albion occurs in progressive stages, and recent Sirius and Canopus star transmissions are intelligently designed to stimulate the higher mind activation throughout the Albion body in the earth. This gently accelerates the shift in the mental body of the earth to reflect the higher mind consciousness which is reflected in the stages of Awakening Albion.[1]

Hyperborean Albion

The Hyperboreans are the Root Races from 7th dimensional Earth known as Gaia. Hyperboreans are important, because this was the timeline of the original trauma of the "fall" that happened to the human race. This is where the split in time occurred and this is when the Moon was brought to the planet, as its companion satellite to manage the gravitational field. The Hyperborean period on Gaia was humanities Golden Age. This level of Monadic identity was fully connected and fully embodied in Christ Consciousness. When the electric wars happened to the Hyperboreans, they were split apart from their higher spiritual counterparts in Polaris. On the 7D Gaian body, which is the monad body of planet Earth, the Hyperboreans existed as a consciousness. Currently that Consciousness has an access point in the timelines, in the northern part of our planet in the United Kingdom.

With the latest transmission of Galactic Law, the planet is intersecting with the Hyperboreans timelines in the 7th dimension, which are the original histories of humanities fall from the Edenic state. The current Aeonic Pairs (hierogamic unions) are being taken out of the dimensional door of Transtime continuum (TTC) to experience the infinite space of God Worlds, in order to bring back that specific timeline memory to this density of earth. The Albion body contains the collective memory record of the human experience in the 7D timelines on Gaia. The divine plan is to find and locate the pieces of the Albion body, which awaken the World Soul through the Galactic Zodiac and star transmissions. Ultimately,

this integrates all the broken mirrors into the Albion body which then can unite with the Cathar Body of Mother. This is the Alchemical Wedding of the masculine and feminine principle, which is the marriage of spirit and matter on the earth in this ascending timeline.

As we expand our consciousness, our spiritual mission is to facilitate the preparations for this sacred union of the Albion and Cathar bodies, as we bring our witness to the ceremony that takes place during the Alchemical Wedding. The Alchemical Wedding is also called Hieros Gamos or hierogamy.

The Albion body has energy chakras and consciousness centers that make up entire sections of his body which represent principles recorded in the earth to expand solar consciousness and beyond. When the Albion body is asleep, it exists in states of unconsciousness and generates darkness, understood as the dead light of the Luciferian consciousness. To Awaken Albion is also to rehabilitate the unconsciousness of the Luciferian forces (Fallen Angelics) on earth, to the self-realized higher consciousness of the Krystic Self in the Diamond Sun DNA that recognizes it is one with all things.

Albion Code and Cathar Code

The Albion is in the planetary body as a sphere and it is the exact replica of an original 12 strand DNA human, the first expression of a human being that is recorded within the planetary body. The Albion is comprised of the architecture of the Universal Law of Structure that manifests as the divine human body in the Universal Tree of Life. The Albion is within the core manifestation template of the human body, and the actual shape of that body is referred to as the Albion. The Albion is masculine in its principle, although it is genderless, it is a manifestation of the Law of Structure governed by the Cosmic Logos. The Albion exists as a cell in the body of the Solar Logos. Each of us exist as a cell in the planetary body. The planetary body is made in the image of the Albion, as it is connected to the 12 Strand DNA silicate matrix body. Each of the twelve spheres in the Tree of Life represents a part of the consciousness of the auric egg that makes up the Lightbody. The auric egg contains color waves within the spheres and these are known as the Cathar, which is the feminine principle. The Albion and the Cathar, represent the Holy Father and Holy Mother Principle united, as the Hieros Gamos, or the risen Christos-Sophia made manifest through the corrected Albion.

The Cathar is the mother principle of the sound, tone, music, and colors that fill in the Albion spherical architecture. The Cathar is the Holy Mother's body which is the color tonal wave spectrum, and the living life code of the breathing Holy Spirit. The Cathar is Mother's creation code, the Albion is Father's creation code, and both have to interact and interconnect in Sacred Marriage to birth the Christos-Sophia. As they unite in hierogamic union, Mother's sound tones and Holy Spirit can bring color waves into the base template of the Albion architecture. This sacred union generates new balanced creations throughout the matter worlds, as matter becomes spiritualized through the animating force of the Holy Spirit. [2]

Spine of Albion

The Aquaferion Blue Feathers shield is to help clear out the Yahweh Matrix and Metatronic infection of reversal light coding in the Earth human 12 Tribes DNA coding and Tribal Shield. This appears to be rehabilitating the architecture in the planetary Albion body, in which the structure for the Spine of Albion has intersected with the Blue Feather host shield, into the Silver Sanctum in the Lyran platforms and then out of the Golden Gateway into the God Worlds. The elemental re-encryption change occurring in the Spine of Albion impacts the Bone Matrix in the Human 12 Tribes, which appears to release the 1D Death Seal and help to free the blood, bones and tissue from intergenerational blood covenants and inherited miasmatic patterns that were manifested from the alien genetic bonds and their modifications. INTRODUCTION

Who are the Indigo Children?

Over the past few decades a "new breed" of children has caught the attention of the scientific communities in the US, China, Mexico, Russia and other countries. These children display unusual physical and psychological attributes that separate them from the "norm" such as enhanced immunological systems and advanced genius or highly gifted intelligence to more extra-ordinary abilities of a "paranormal" nature that we most often do not hear about in mainstream analysis. In recent times, and primarily within the definitions ascribed to the New Age Movement" the term "**Indigo Children**" has become a popular term in describing this "new breed" of child. The "indigo" description emerged through intuitive observation of the "subtle body" or *auric field*, in which a greater concentration of color in the *Blue* wave spectra is a dominant feature.

Along with research provided by the more metaphysical among us, additional work on identifying Indigos has been compiled through the contemporary **psychiatric model** such as is explored in the book "***The Indigo Children*" by Lee Carroll and Jan Tober** (Hay House publishing-1999). In this book the *less appealing qualities*, demonstrated by Indigos, are brought to light, along with their advances. Though Indigos hold great potentials in *modeling evolutionary advancement*, there is also a "**dark side" to the Indigo Story**, in that they frequently display psychological behaviors associated with "*Attention Deficit Disorder* (**ADD**)", "*Attention Deficit Hyperactive Disorder*" (**ADHD**, and as some be ever with **violence**, such as that demonstrated in the contemporary wave of "school yard slayings" (children killing classmates, teachers and others). Within the *psychological paradigm*, Indigos are most often treated with ***symptom-suppression drug therapy*** in which pharmaceuticals such as *Ritalin* and *Cylert* are used to control disruptive behaviors (the issue of drug therapy for Indigos will be discussed later in this presentation). I found the Carroll/Tober book especially useful in regard to *practical identification* of more apparent Indigo characteristics and in offering a variety of helpful coping *perspectives* for parents and teachers of the Indigo Child. Again I recommend exploring the works of others that actively research the phenomenon of the Indigo Children.

The objective of my presentation is not to "parrot" the works of other Indigo researchers, nor to approach the exploration of Indigo's in terms of available *scientific or statistical analysis*; there are other more qualified than I, to investigate those aspects of Indigo-ism. **My exploration into the Indigo phenomenon moves into the depths of the issues at hand – "Who ARE the Indigo Children?"** Observing the *external characteristics* of Indigo Children can provide us with information on the **characteristics they display**, but it will not answer the deeper questions regarding their identity and what "makes them different" than others, considered to be of the "norm". The answers to these questions lie squarely within the parameters of their **spiritual nature**, for the Indigo distinction lies within the intrinsic ***spiritual structure, orientation and origins of their consciousness***. The Indigos are indeed a "new breed" of children because they represent a ***new breed of consciousness***, now entering incarnation within our times. **The Indigos are in truth representatives of a very OLD BREED of consciousness once prevalent on Earth and in their re-emergence today they serve as harbingers of our race evolution – the way-showers of things to come, as our race evolution moves closer to its intended hidden destination**. Furthermore, the Indigos are ***here by design and intention***; their coming is not the result of some accidental or haphazard quirk of undirected evolution. **They are here because *they were***

asked to come and they have come to fulfill their part of a much grander evolutionary mission If we are to understand the truth of the Indigo Children we must first *look deeply into the hidden nature of ourselves*, and into the *core or our race evolution* for it is within this framework of expanded perspective that the identity of the Indigos can be known. **As we come to better know *ourselves*, we will come to understand the Indigos and what their existence implies for the *transformation of our race***

The phenomenon of the Indigo Children is both **spiritual and genetic**, and their placement among us represents the beginning of the **externalization of our intrinsic process of BIO-SPIRITUAL EVOLUTION** - the long-hidden dynamics of the *design* through which the evolution of our race consciousness and genetic code progressively expands through time. **Our search to understand the implications of the Indigo Children will lead us deep into our long-forgotten past and far beyond the scope of our contemporary paradigms of *psychology, spirituality, science and history* – it will lead us into exploration of *Otherworlds*; for it is from *Otherworlds* that the Indigos now come.**

How do I know such things about the intrinsic nature and origins of the Indigo Children? I have no contemporary degree in human psychology or genetics, yet I do possess an intimate understanding of the Indigo Child. Such understanding is assisted by the fact that I am a *parent of 3 such Indigo Children* but familiarity with the Indigo nature can be only *objectively perceived* through the experience of parenting them. Most parents of Indigos have more questions than answers regarding the nature of their beloved progeny. **My knowledge of Indigo Children comes through a more direct experience of the phenomenon** – *I was born as an Indigo Child* (type-1 RE, later discussion) – and through many years of awakening to the truth of my personal reality and identity. I have come to know *precisely* what that means.

In this presentation I will share some of the *most hidden secrets* of the Indigos, and to do so effectively, I will provide an expanded paradigm of understanding within which the truths of the Indigos can be more clearly perceived. **Comprehending the nature of the Indigo Children, and the nature of human existence itself, requires first and foremost the acknowledgement of a *Multi-dimensional Reality structure***, a concept contemporary science has yet to validate within the mainstream view. In acknowledging the reality of *Multi-dimensionality* the models of science, psychology, spirituality and history, to which we presently subscribe, begin to cry out for re-evaluation and re-interpretation. **What is presently known about the nature of consciousness, perception, biology, genetics and history is far less than that *which is required* to comprehend the intrinsic workings of the human evolutionary condition.** In this presentation, I will present a *reality model* that may be unfamiliar to many of you (unless you have participated in our previous 10 workshops), a model that will challenge many of your previous ideas as to the mechanics by which reality functions. You may find yourself attempting to negate the model I present through the filters of your present beliefs. It is your prerogative to place value-judgment upon the ideas I will present but to do so prematurely may prevent you from acquiring valuable knowledge. **To benefit most from the information I will share, it is recommended that you simply *consider the perspectives being offered*, suspending all preconceived judgments until after you have explored the *details* of this more expansive reality model.**

The **details** of the paradigm within which the Indigo phenomenon can be understood include *advanced scientific perspectives* regarding ultra-micro-particle physics, scalar-grid mechanics, templates of 15-dimensional structure and their corresponding 15-dimensions of human anatomy, as well as the intrinsic design of the human DNA and its intimate relationship to consciousness. This paradigm also includes explanations of the tangible structure of the Soul and higher dimensional attributes of identity, and an expansive picture of human evolution that threatens to turn upside-down the *limited portions* of ideologies endorsed by traditional scientific, psychological, religious and historical models. This paradigm of reality

nterpretation involves far more than any paradigm presently understood within the mainstream view One day traditiona models wi expand into the new frontiers of Multi-dimensionality but we can no onger wait for our mainstream paradigms to expand enough to encompass the realities of our present evolutionary expansion **The Indigos are here now and they bring with them the implied message of our race evolutionary acceleration**. If we want to understand what is tak ng place, we need to allow our *paradigms of belief and reality interpretation* to evolve

The focus of this presentation is **Indigo Children** and so wil cover only the portions of the genera paradigm of which I speak as they apply directly to comprehending the Indigo reality For people interested in further exploring the details of the Bio-Spiritual paradigm, DVD record ngs of all workshops can be found on the Azurite Press product list **Exploration of Indigo Children first requires a review of the general structure of multi-dimensional reality and the hidden dynamics of the human gene code, as they are understood within the *Bio-Spiritual paradigm*** Once this framework of expanded paradigm is erected, we can then explore the more unusual qua ties of Indigo Children the reasons beh nd their accelerated development and the imp ications of the Indigo phenomenon within contemporary society

Dimensional Structure – To understand Indigos we must understand Dimensional Structure

Dimensions are interwoven layers of ***scalar waves*** that serve to direct the flow of consciousness/ energy into multiple patterns of refraction through which the hologram of matter density, linear time and manifest objectification of reality can be experienced. Dimensions exist in ***precise relationship to each other***, creating a **90-degree difference in *Angular Rotation of Particle Spin*** between dimensional bands

Scalar Waves are points of ***Standing Waves***, composed of quantities of consciousness, that emanate out of ***fixed points of vibration***, which form ***ultra-micro-particle units*** called ***Partiki, Partika*** and ***Particum***. Scalar Waves exist within a ***fixed Scalar Field*** that forms the ***Universal Unified Field*** of consciousness/energy. Fixed scalar waves ***appear to move*** due to a perpetual action of ***internal fission and fusion***, through which ***series of scalar standing waves points "flash on and off"***, creating perpetual rhythms of motion called "***flash-line sequences***", through which continual ***manifestation and de-manifestation of matter*** occurs.

Cyclic, repeating patterns of flash-line sequences form ***Frequency Bands*** A ***Dimension*** is ***one full Frequency Band***/repeating pattern of flash-line sequences, composed of interwoven layers of fixed scalar waves ***Scalar Wave Frequency*** is the form consciousness/energy takes with n dimensionalization, and represents the vibrating-oscillating wave spectra of which matter particles and dimensionalized consciousness are composed ***Universal Structure*** and all matter forms ***manifest upon Scalar-Wave Blueprints*** or ***Templates of Consciousness*** called ***Morphogenetic Fields***.

The Morphogenetic Structure or *Template* of our *Universal Time Matrix* is composed of *15 Dimensions*/Frequency Bands that are separated into groups of *3 dimensions* each. Each group of 3 dimensions forms 1 *Harmonic Universe*. There are *5 Harmonic Universes* within our Time Matrix, each representing a *stage of matter-density manifestation*.

DNA – To understand how Indigos differ from the norm, we must understand the structure and function of DNA.

Contemporary Science has not yet identified *Morphogenetic Field Structure* and so knows little of the true function and structure of the ***DNA*** The identifiable ***DNA Double Helix*** represents only a portion of the human DNA imprint DNA begins within the ***scalar-wave/frequency structure*** of the human morphogenetic field and holds the core dimensionalized scalar/frequency patterns, upon which ***4 Harmonics*** of matter density of human form and consciousness manifest

The scalar-wave programs, held within the DNA imprint, which create diversity of form, are called ***Fire Letters***. The DNA Template is composed of specific arrangements of Fire Letters/scalar programs that govern the manifestation of dimensionalized matter, biology and consciousness

Biology (matter) and Consciousness (spirit) are intimately intertwined and are composed of the same *substance-* ***consciousness,*** *in the form of* ***Scalar Frequency*** Matter solidity of body and external reality is perceived due to multi-dimensional, geometrical interrelationships between *Fire Letter programs* in dimensionalized levels of consciousness.

Growth and evolution of body/genetic and consciousness/spirit occur simultaneously Growth occurs through ***Frequency Accretion***, as frequency from the Dimensional Unified Fields is drawn into the personal morphogenetic field through the ***DNA imprint***, progressively expanding the scalar Template and the matter and consciousness forms built upon it

The ***Fire Letter sequences*** of each DNA strand correspond to those of each dimensional band The DNA imprint determines the amount of consciousness/energy a biological form can hold. The ***original human DNA*** was designed to hold ***12 dimensions of consciousness*** and allowed for evolution of biology through ***4 Harmonics of matter density***. The ***12-strand DNA*** pattern is the ***Silicate Matrix***, as it allows for ***transmutation*** from Carbon-based Gross Matter Biology into Silica-based Etheric and pre-matter Liquid Light Biology. This is the **Diamond Sun DNA Matrix**. Presently, all but 3 DNA strands are dormant Each **DNA Strand** represents a ***Fire Letter/ scalar-wave program sequence***, corresponding to *1 Dimensional Frequency Band of consciousness/ energy.*

History If we are to understand the importance of the Indigo identity we must reclaim the Lost History of our lineage in Otherworlds.

The ***Multidimensional Reality Model*** helps us to understand that our planet and Universe represent one ***Harmonic of matter density*** and this implies the existence of *other universes*, within other Dimensions and Harmonics of matter. Ancient records and mythologies intimate interaction with ***Visitors*** from ***Otherworlds***. Within the Multi-dimensional Model the ***Angels*** of old and contemporary ***ETs*** fall into the same category of ***interdimensional contact***. To understand the identity of ***Indigos*** we must understand our own inter-dimensional/inter-stellar heritage. We will discover that humanity itself emerged from Otherworld systems in higher dimensional Harmonics of matter.

Our race – the ***Turaneusiam*** – was created *560 million years ago* in *Harmonic Universe 2* (dimensions 4-6), a Semi-etheric physical matter system. We were seeded on Earth 3 times by our Elder Race. Our ***evolutionary blueprint*** was that of the 12-Strand ***Diamond Sun DNA Matrix*** and our ***long-term evolutionary goal*** on Earth was to *assemble and activate* the Diamond Sun Matrix for progressive ***transmutational ascension*** within an ***eternal body***. The *Turaneusiam-Human Race* was seeded on Earth in the form of the ***"12 Tribes" – 7 Root Races*** and ***5 Cloister Races***, each ***Root Race*** cycle evolved 1 Diamond Sun DNA strand, each ***Cloister Race*** kept the potentials of strands 7-12 alive within the gene pool. Present humanity is the ***5th Aryan Root Race***, which evolved out of the ***Hibiru Cloister***.

Our race has experienced ***excessive genetic digression*** through ancient tampering by Visitors from Otherworlds. The contemporary ***Indigo Children are hybrids*** of the ***Elder Race*** + 7th Root Race & Melchizedek and Yunaseti Cloister + Modern Human. ***Indigos*** are part of a modern-day ***hybridization experiment*** to reverse-mutate the human gene code and restore the *Diamond Sun DNA Matrix* potential within the Earth human lineage. This plan is being *actively orchestrated* by members of the ***Elder Races of Higher Evolution*** who still reside in higher Harmonics of matter. Indigos are ***ET future race hybrids***, but *more fully human* than we are.

Heritage – To appreciate Indigos we must remember our Heritage

The contemporary human lineage began 560 million years ago with the Turaneusiam race of Tara in HU-2 (dimensions 4-6) Other Stellar Races existed for many billions of years before the Turaneusiam experiment began. The Turaneusiam lineage was created to *allow a new evolutionary option* for ancient Stellar Races who had experienced genetic (Fire Letter/scalar-wave) digression and could no longer complete Transmutative ascension out of the Time Matrix

Hominid life in our Time Matrix began in Pre-matter systems of the HU-4 Lyran Star System – the ***Cradle of Lyra*** Life was seeded into this Time Matrix by one primary *Ultra-terrestrial Consciousness Collective* called the ***Melchizedek*** family. The interstellar/inter-dimensional drama began with the **Elohei** and ***Seraphei*** Melchizedek Avatar Collectives in HU-4. Many races of both families suffered Fire Letter/genetic digression. One part of the Ultra-terrestrial ***Elohei*** family was commissioned to keep the proper Ascension/Fire Letter/genetic sequences alive for all of the races in the Time Matrix This group was called the ***Emerald Order of the Azurite Council.***

The ***Emerald Order Elohei*** seeded the Etheric matter ***Anuhazi*** race in HU-3 Lyra, which later fled to the Sirius system. The ***Lyran-Sirian Anuhazi*** ("Sirian Whites") seeded the ***Azurite*** race ("Sirian Blues") in the HU-2 Sirius System. In seeding the Turaneusiam-human on Tara, many eons later, the ***Lyran-Sirian Emerald Order Anuhazi and Azurite genetic imprint*** was used as the ***Seed*** for the new ***Turaneusiam*** race. Genetic/Fire Letter coding from the ***12 interstellar seed races*** was combined with the ***Elohei-Anuhazi-Azurite*** imprint, creating a hominid form with ***48 DNA strands***/Fire Letter sequences – the ***Emerald Sun DNA Matrix*** of the ***Emerald Order Oraphim***. From these came a smaller version carrying ***24 DNA strands*** – the ***Double-Diamond DNA Matrix*** of the ***Oraphim*** The ***Oraphim-Lyra-Sirian-Turaneusiam*** became the ***Templar Solar Initiates*** of Tara – the ***Elder Race*** of the ***Turaneusiam 12-strand Diamond Sun DNA Matrix. Indigo Children*** are ***incarnate members*** of the ***Oraphim Elder Race*** in hybrid *ET Elder Race-Cloister Human* form.

Incarnational Heritage Indigo incarnation differs from usual contemporary incarnational process, giving Indigos a different genetic signature.

We are in the ***5th Aryan Root Race Cycle*** with ***3rd – 4th Strand DNA*** activation levels as the dominant genetic orientation. Most spirits incarnating in our present time are those focused in the 4th Dimensional ***Astral Plane*** Most incoming spirits are those of people who ***more recently left incarnation*** on earth, who have not yet accreted the higher dimensional aspects of their consciousness into their morphogenetic field ***Indigos incarnate from higher dimensions***, and they represent embodiments of spirits who once inhabited the ***Elder Races*** of ancient times and those who usually inhabit the higher dimensional reality fields that represent "future time" in relation to our time cycle vibration. (***Time is simultaneous***. True time represents cycles of repeating vibrational deceleration/acceleration expansion/contraction of scalar fields, into which consciousness focuses to experience linear continuum progression)

To incarnate, Oraphim spirits locate parents who possess higher concentrations of the ***Diamond Sun DNA Matrix*** Once potential parents are found, agreements are made with the higher dimensional portions of the parent's identities ***Soul Agreements***. All spirits arrive in incarnation through such pre-arranged Soul Agreements, but ***Indigo Birthing Contracts*** are orchestrated from the ***Avatar*** and ***Rishi*** levels of identity (HU-4 and HU-5), rather than from the usual Soul level (HU-2). These special agreements are called ***Palaidorian Birthing Contracts*** In Palaidorian Contracts, the higher dimensional aspects of the parent's identity agree to allow their incarnate ***genetic code*** to be ***accelerated and enhanced*** to accommodate an Indigo birth The parent's DNA activation level must be enhanced to create a ***fetal body*** with a high enough Fire Letter/scalar wave content (genetic code) to house a higher frequency Indigo consciousness.

Once an Oraphim spirit has found the needed parental genetic code and conception occurs, the Oraphim spirit begins to step-down the frequencies of its consciousness into the *vibrational range* of the fetal pattern. Upon Fetal integration, the Oraphim spirit activates the ***5th*** and ***6th DNA strands***, a genetic attribute of the ***future race*** Melchizedek and Yunaset Colosters. Unlike most contemporary humans, ***Indigos are born with 5th – 6th DNA strand activation***, which allows them to retain a more open connection between their earth identity and their *Soul Matrix*

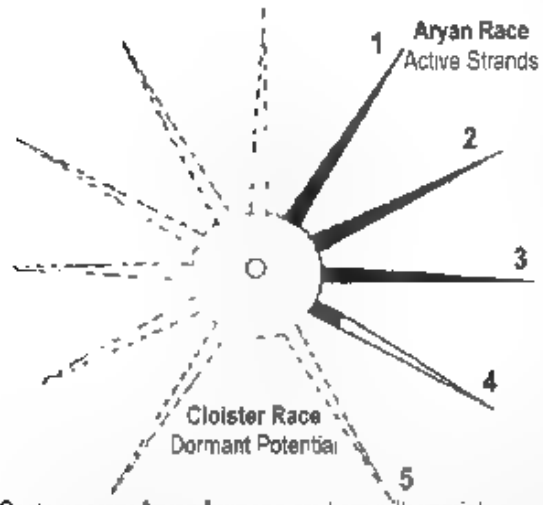
Birth Imprint of the Indigo DNA

Due to their DNA, Indigos can embody 6 dimensions of consciousness and complete Soul Integration by age 12. By 33 they can activate 12 DNA strands.

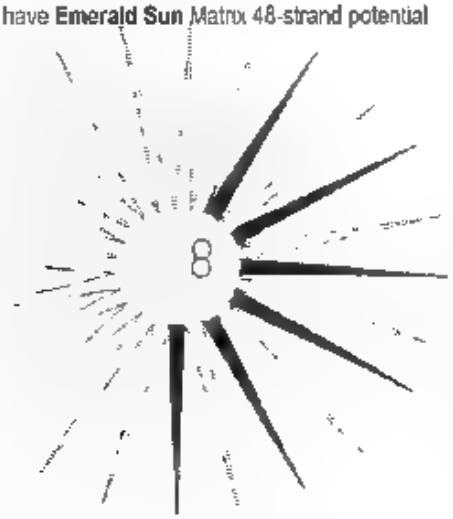


Contemporary **Aryan humans** are born with imprints for DNA 1-4. Cloisters have these + strands 5 & 7-12 Few have the 6th strand that allows 7-12 activation Highest Human genetic capacity is **12-strand DNA**, the Diamond Sun Matrix

CONTEMPORARY HUMAN DNA

We are in the ***5th Aryan Root Race*** evolutionary cycle in which the ***4th DNA strand*** begins activation. Aryan humans are born with the imprint for DNA strands ***1-4*** with varying degrees of ***3rd strand activation***. Through the course of a life-time, the ***4th strand*** begins activation, through the process of ***frequency accretion*** (drawing consciousness, in the form of frequency into the personal morphogenetic field via the DNA. Humans with ***Cloister Race*** genetic lines are born with portions of the imprint for DNA strands ***7-12*** and may have partial activation of strand ***4*** at birth

Oraphim 24-strand **Double-Diamond Sun** Matrix - ***Emerald Order*** Oraphim have **Emerald Sun** Matrix 48-strand potential



Indigos are born with **24-48 strand** DNA capacity, the form of the *Lyran-Aruhazi + Sirian-Azurite* Elder Race Oraphim out of which the Original Turaneusiam-human lineage emerged in HC-2 Indigos are 6th strand active at 12 and have the genetic potential for shape-shifting, cellular transmutation ascension and inter-time teleportation by age 33, IF the gene code activates properly

INDIGO CHILDREN DNA

Indigos are born with the dormant *Lyran-Sirian Elder Race Human* ***Oraphim*** imprint of **24 to 48 strands of DNA**. During ***Fetal Integration*** the Oraphim spirit activates the ***5th*** and ***6th*** DNA ***strands*** to retain open connection between its embod ed consciousness and Soul Matrix (dimensions 4-6). This genetic configuration is characteristic of the ***future-race*** *Melchizedek* and *Yunaseti Cloister* evolutionary cycles. From ***birth – 12*** the Indigos rapidly activate strand **4**, by 12, strands ***5-6*** become operationa in the DNA and ***6 dimensions*** of consciousness embody ***Soul Integration***

Identity Heritage The 15-Dimensional Structure of Identity and DNA

Dimensions are ***fixed scalar-wave grids*** that hold *consciousness* – in the form of ***Partiki Units*** – into *specific geometrical arrangements* Each dimension contains a core set of "***Fire Letters***" or *geometrical scalar-wave programs* that represent the particular geometrical arrangement of Partiki Units for that dimension. ***DNA*** represents a *program of interwoven scalar-wave grids* composed of combinations of the ***Fire Letters*** that form the dimensional *Unified Fields* Diversity of Fire Letter arrangement provides diversity of scalar-wave templates and DNA, which creates variety in manifest form. For any manifest form, ***each dimension and DNA strand represents a portion of the whole consciousness and holds a portion of the personal identity***. (Fire Letter Sequences of both parents are added to those of the incarnating soul)

Every Being has a ***15-Dimensional Structure of Identity*** The imprint and activation level of the DNA/Fire Letter program in its template determines how much of the identity can fully embody within and become accessible to, the portion of identity focused in the body The true process of Bio-Spiritual evolution occurs as the embodied identity progressively draws in more frequency/consciousness from the dimensional Unified Fields until it reassembles the entire Fire Letter/scalar wave pattern of the Unified Field into its personal morphogenetic field and DNA. Biological forms, built upon the ***pure geometrical arrangements*** of the dimensional Unified Fields, have the ability to ***transmute*** through 5 Harmonics of matter density back into pure sentient consciousness This progressively reunites the dimensionalized aspects of consciousness back into the original whole

The Tuaneusiam-***Human*** Diamond Sun DNA is built on 12-dimensional Fire Letter Sequences and can embody 12-dimensions of consciousness – the ***Avatar*** identity The ***Oraphim*** Double-Diamond Sun DNA is built on ***12-15*** dimensional Fire Letter Sequences AND their ***Reverse*** Sequence – ***24-30*** Fire Letter Sequences – the ***Rishi*** Identity The ***Emerald Sun DNA*** contains the ***30*** sequences from the ***Time Matrix***, plus the 9 *Fire Letter Sequences* and their *reverse-**18*** Sequences, from the ***Energy Matrix*** – for a total of ***48*** Fire Letter Sequences, which allows expansion into the ***Eckatic*** level of Ascended Mastery Identity. ***Indigo children*** are born with the genetic potential for ***Avatar embodiment*** and expansion into ***Ascended Mastery*** levels of identity. For most earth incarnates this takes many cycles of life times to accomplish.

Indigo Heritage Indigo Children need Bio-energetic Field Assistance to reach their true potentials and to prevent the DNA from going into "Self Destruct"

When the Diamond Sun 12-strand Human DNA code was working properly, there were ***specific ages*** at which the process of *strand activation* and *higher identity* embodiment took place. By the time a child reached ***age 12,*** the ***4th*** DNA strand began activation and the ***Soul Integration*** processes commenced By age ***44*** the human had ***12th*** strand activation, was an embodied ***Avatar*** and had the abil ty to transmute out of matter density at will. Presently, ***mutations*** in the Human DNA – distortions in the *Fire Letter* Sequences – prevent strand 4 from completing activation, which creates unintended ***bio-chemical imbalance*** and a restructuring of ***hormonal function*** that results in owering the body frequency and progressive deterioration of the body, eading to death. Blockage of the natural Soul Integration process at age 12 through 22 also creates the ***erratic hormonal changes*** that can result in ***emotional upheaval*** during the teen years.

The ***Oraphim/Indigo Child*** genetic impr nt commences the ***Soul Integration*** process and activation of DNA strand-***4 from birth*** through 12, rather than init.ating this process at age ***12*** In the ***Fetal Integration*** process, an incoming spirit brings the Fire Letter/scalar-wave patterns of its own consciousness into the fetal t.ssue, which *already contains* port ons of the ***Fire Letter/DNA*** program from ***both parents*** As contemporary humanity carries many ***DNA mutations/*** Fire Letter distortions, these distortions are replicated in the morphogenetic field and genetic code of the ***fetal body*** and the incoming spirit inherits DNA/F re Letter distortion from the parents. The DNA/Fire Letter distortions that cause contemporary humans chemical imbalance and hormonal malfunction at the onset of ***4th*** strand activation at puberty occur n ***Indigo Children*** from ***birth to 12***, creat ng *excessive buildup of frequency* within the DNA and Bio-energetic Field. These excessive dis-harmon c scalar-waves in the DNA translate into further b o-chemical/hormonal imbalances and amplification of the original DNA/ Fire Letter distortions

Symptom Suppression Therapy of Indigo Children ampl f es DNA/Fire Letter distortion resulting in accelerated deterioration of the body/mind system For Indigos to reach their true potentia s they need ***bio-field work*** to correct the DNA/ Fire Letter Sequences. The fastest method s Maharic Recoding (Kathara Healing)

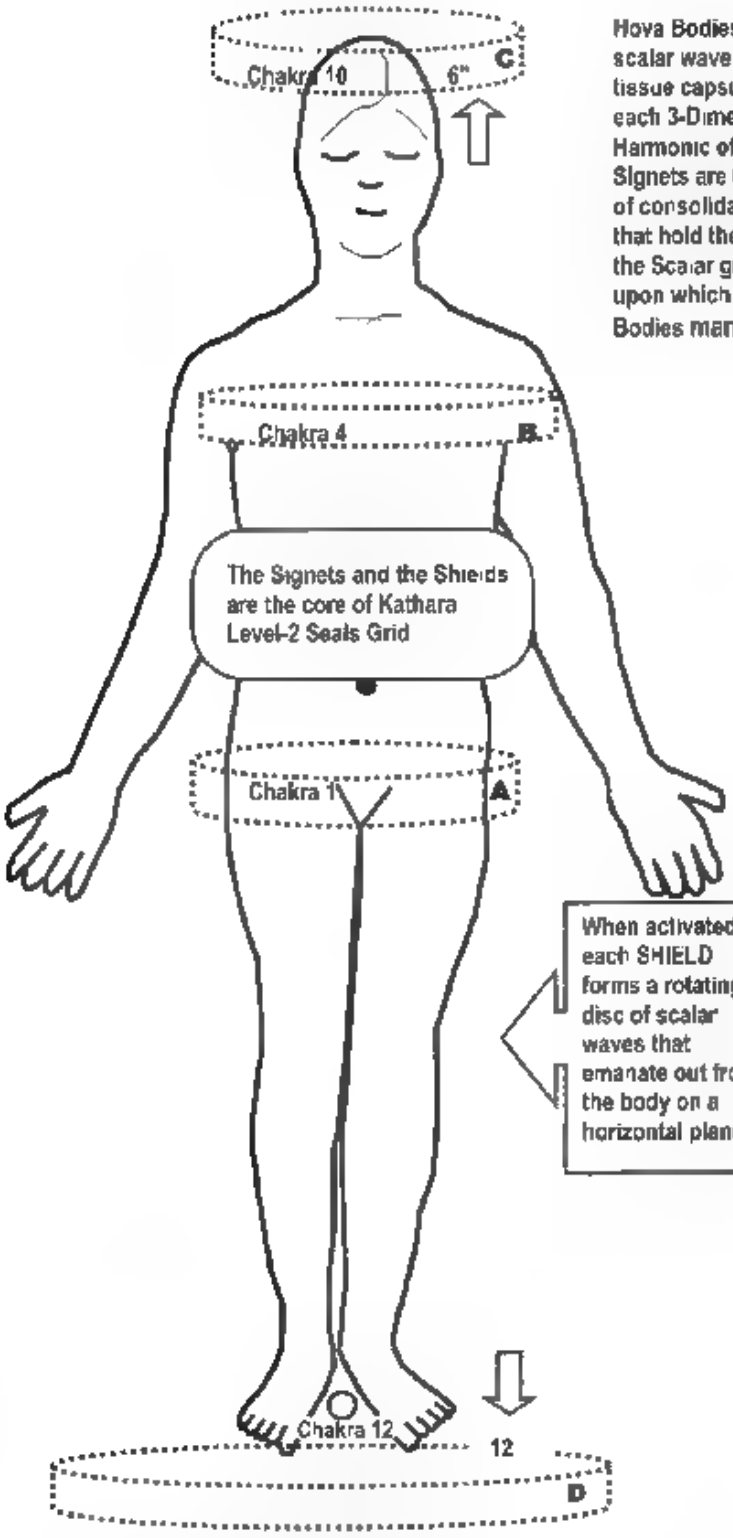
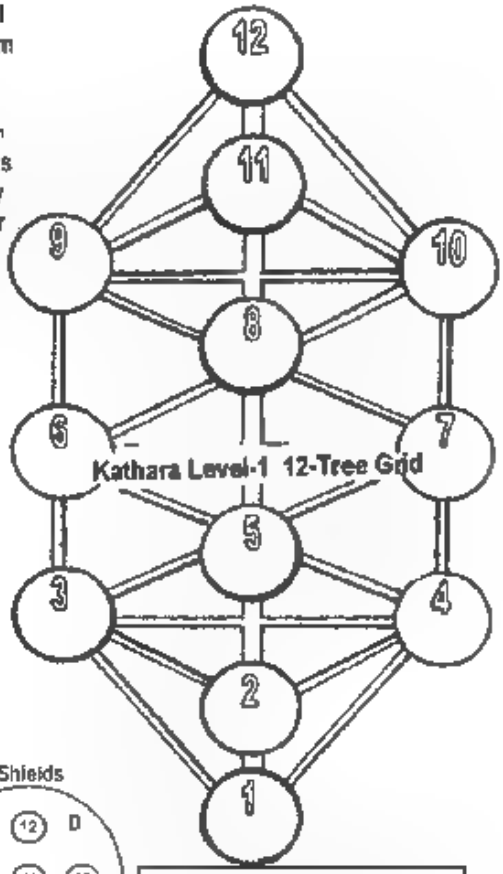
Shields, Signets and the Kathara Grid



Hova Bodies are spherical scalar wave grids that form tissue capsules between each 3-Dimensional Harmonic of Manifestation Signets are the core points of consolidated frequency that hold the programs for the Scalar grid SHIELDS upon which the Hova Bodies manifest.



When activated, each SHIELD forms a rotating disc of scalar waves that emanate out from the body on a horizontal plane.

SECTION ONE RECAP

We learned.....

- the ***15-Dimensional Structure*** through which we can understand the function of ***DNA*** and ***consciousness*** and which provides a ***rational framework*** through which comprehension of our ***history*** and ***heritage*** can expand to include the realities of ***Otherworlds*** and the nature of ***Stellar Visitors***

- the core ***function*** and ***intrinsic design*** of ***DNA*** and its relationship to ***growth***, ***evolution consciousness*** and ***Spiritual Actualization***

- Some of our ***Lost History*** and the Elohei-*Anuhazi-Azunte-Oraphim-Turaneusiam* ***Stellar Genetic Lines*** from which ***contemporary humanity*** emerged.

- **And we learned the following about** ***INDIGO CHILDREN*** ....

- ***Genetically*** they are defined as an ***ET-Human-Hybrid*** race from the ***future***. They qualify as ***ET*** because their genetic code is that of the Original ***ORAPHIM*** (Lyran-Anuhazi+Sirian-Azunte+12 Stellar Lines), the ***Seed Race*** through which the Original Turaneusiam-Human lineage of ***HU-2*** was created

- Indigos are ancient ***Oraphim Elder Race Stellar Humans*** incarnating now as part of a ***contemporary human hybridization program*** evolutionary experiment through which the 12-Strand ***Diamond Sun DNA*** potential can be re-awakened within the Earth Human lineage. Indigo/ Oraphim carry the ***Double-Diamond*** and ***Emerald Sun DNA Matrices*** that allow for expression of ***24-48*** frequencies of consciousness and complete ***Transmutative Ascension***. They have the potential to awaken as ***fully embodied Avatars*** with ***Ascended Master consciousness*** by age ***33*** if their DNA activates properly.

- Indigos are considered a "***future race***" because they enter ***Fetal Integration*** with the ***5th*** and ***6th*** DNA Strands activated, a characteristic of the ***Melchizedek*** and ***Yunaseti Cloister*** human lines that exist in the ***future*** time continua of ***HU-2***. Indigos are born through ***Paladorian Birthing Contracts*** - Rish Agreements. They ***inherit genetic distortion*** from their ***Earth parents*** via the ***Fetal Body*** and need assistance in ***reverse-mutating*** the ***parental DNA imprint*** if they are to fulfil their potential. ***Kathara Recoding*** is the fastest way to ***DNA reverse-mutation***

Types of and Purpose for Indigo Children

There are 3 Primary Types of Indigo Children each with a different version of the Oraphim genetic code and each serving a different purpose, within the present evolutionary experiment.

Indigo Recessive Type-3 is the most common type of Indigo Child presently incarnate on Earth Type-3 Indigos began birthing in very small numbers about 200 years ago There are about ***2,500,000 Indigo Recessives*** incarnate now, many adult and of childbearing age having ***Palaidorian Birthing Contracts*** to parent more ***Type-3*** Indigo Children in years to come Another ***15,000 Indigo Recessives*** are scheduled to birth between 1999-2017

Indigo Dominant Type-2 is the next most common type of Indigo Child. Isolated numbers of Type-2 Indigos birthed ***75-100 years ago***, most since the late ***1950's*** There are about ***500,000 Indigo Dominants*** incarnate now and another ***130,000*** scheduled to birth between ***1999*** and ***2005***.

Indigo Composite Type-1 is the most uncommon type of Indigo Most entered incarnation in the ***1960's-1970's***. There are presently about ***350 Type-1 Indigos*** on Earth, with another ***5,000*** scheduled to birth between ***2005-2017***.

Between 1999-2017 another ***150,000 Indigo Children*** will incarnate on Earth as part of a Planetary Protection agreement. The Birth Wave of the Indigo Children represents the ***Return of the Emerald Order*** The Ancient ***Elder Race Oraphim*** return to Earth to fulfill the ***Emerald Covenant***, an agreement made ***248,000 years ago*** that promised Earth humans assistance in re-evolving to the 12-Strand ***Diamond Sun DNA Matrix***

The contemporary "***UFO Movement***" with "***Contactees***", claiming to be ***abducted by aliens***, is part of the ***hybridization*** agendas taking place at this time ***Elder Race Humans*** visit from future time to assist in fulfilling the ***Emerald Covenant*** and our ancient ***Intruder Visitors*** have returned to attempt to ***hijack our evolution*** into unintended ***hybridization programs*** that violate the ***Emerald Covenant***.

Indigo Recessive Type-3

Type-3 Indigos are part of an ***Oraphim-Nephilim hybridization program*** through which ancient ***Nephilim*** (Anunnaki + Cloister Human from Seeding-2) are provided with a ***new race line*** to evolve within, in order to clear Fire Letter/DNA distortions so their ***Codes of Ascension*** can be regained.

Type-3 Indigos have an ***Oraphim 24-Strand Double-Diamond + 11-strand Reverse Templar Sun DNA Matrix*** which gives them a maximum potential of the ***12-Strand Diamond Sun DNA*** Matrix.

Type-3 Indigos are ***literal*** incarnations of ***2 different avatars in one body***, an ***Oraphim*** avatar overseeing a ***Nephilim*** avatar spirit essence. The core of their life purpose is to mend the ***extremes of polarity*** between the reversed 11-Strand DNA Matrix and the 12-Strand potential, but their lifetimes serve an important role in the greater plan of ***healing the DNA distortion*** within the ***Nephilim, Anunnaki*** and Human genetic lines.

Type-3 Indigo Recessives have the most ***extremes in polarity issues*** of all of the Indigos, are highly intelligent, mathematically inclined and athletic and may have difficulty with ***emotional bonding issues***. May seem like "***angel & devil***" in 1 body.

Copyright A'sha-yana & A'zah-yana Deane. 2000 All Rights Reserved

Indigo Recessives are unique in that the incarnation involves ***more than one family line of consciousness***. Indigo Recessive spirits are ***literal composites of two entirely different Avatars, incarnating into one body*** The ***Oraphim Avatar*** possesses the 24-Strand ***Double – Diamond Sun DNA*** and remains as the ***dominant force*** within the personality, if the gene code activates properly. The ***second Avatar*** spirit is that of an ***11th-dimensional Nephilim***, the race of giant ***Anunnaki-Cloister Humans*** who were banned from Earth in the 2nd Seeding The ***gene code*** of the ***Nephilim*** is that of the ***11-Strand Reverse Templar Sun*** The Nephilim race has been trapped between HU-1 and D-11 manifestation cycles for many thousands of years due to ***Fire Letter reversal*** and ***DNA distortion*** from the ***Anunnaki Lines***. The 24-Strand ***Oraphim DNA*** imprint is the only coding high enough to ***retain its integrity when combined with the Nephilim Templar Sun DNA*** and so, the ***Type-3 Indigo Recessive*** imprint has been created to allow ***Nephilim*** avatars, who desire, to evolve back into their ***Ascension Codes*** a ***new race line*** for evolution

The incarnating Nephilim avatar must agree to function in ***subservience to the Oraphim Avatar*** until the Nephilim ***regains the D-12 Fire Letters*** that will allow them to connect with their ***Rishi*** collective, so they may evolve to experience the frequencies of ***love, genuine bonding*** with and ***compassion for*** other life forms. ***Indigo Recessives*** have the most ***difficulty in balancing polarity*** in consciousness, due to the ***reversed Nephilim Fire Letters***. They are most vulnerable to ***obsessive-compulsive behaviors, bi-polar disorders and extreme polarity in perspectives***. The ***Nephilim*** imprint tends to ***activate first*** in the Type-3, often creating an ***aggressive, hyper-active child*** that spends most of its early life ***testing the extremes of the boundaries between right and wrong***, constantly challenging authority. ***Just as a Type-3 may sometimes seem like the "Child from Hell", it may do a complete turnaround into nearly Angelic, loving behavior. At times it may seem as if the Child has an "evil twin" that emerges, a dark side to the personality that is capable of extreme thoughtlessness and cruelty***. The ***negative characteristics*** of the Type-3 Indigo emerge as the ***DNA imprint of the Nephilim activates*** and shortly thereafter the ***Oraphim*** part of the identity attempts to clear the distorted DNA imprint by ***counterbalancing*** it with its ***opposite Fire Letter sequence***, creating the more ***extreme and rapid shifts of polarity within the behavior and attitude***. The ***polarity extremes*** in the

Copyright Asha-yana & A'zah-yana Deane 2000. All Rights Reserved

personality of a Type-3 often lead to ***self-destructive behaviors and substance addiction*** as the identity tries to ***numb itself*** from the near constant feeling of ***internal conflict and apprehension***. If the ***Nephilim*** avatar identity attempts to ***over-run*** the identity, the ***Oraphim*** avatar will ***assert its authority***, shutting down the communication facilities if necessary. Most cases of ***autism*** occur in ***Type-3 Indigo Children***, as a result of the Oraphim avatar "unplugging" some of the Nephilim DNA codes to retain control over the body. In these cases the ***conscious personality*** usually feels ***stuck in the middle of an internal battle it cannot comprehend***" and experiences ***great fear, dread, apprehension and depression and the chemical imbalances that result from this morphogenetic disharmony***. The Type-3 may also display the ***opposite polarity qualities***, being an ***excessively "good" baby and child*** then having a reversal into the "dark side" during adolescence or adulthood. ***Ideally the two avatars, that share the body and personality structure, work to balance the polarities in the DNA, the "light" side of the personality guiding the "dark side" into healing as the reversed Fire Letters of the Nephilim Code reorder and progressively connect to the Harmonious frequencies of the Oraphim Avatar and Rishi awareness. Usually Type-3 Indigos will not complete Soul Integration by age 12 or be able to activate their latent Oraphim physical ascension potentials***. The ***core life purpose*** of the Type-3 Indigos for the Oraphim avatar to ***progressively restore the Fire Letter Sequences in the Nephilim DNA and morphogenetic field***. Once this is accomplished through ***re-assembly of the 12th DNA Strand*** (which usually occurs ***after bodily death***), the ***Nephilim*** avatar is re-connected to ***its own Rishi*** and the Oraphim Avatar withdraws its morphogenetic field, ***disengaging the 2 identities***.

When dealing with Type-3 Indigos, it is best to realize that 2 different Beings are literally inhabiting one body, and that frequently they disagree. Tough love and clearly defined boundaries are often necessary with the Type-3, but must be administered with ***fairness and democracy. Belief therapy and attitudinal healing toward Unity consciousness can facilitate healing and growth. Working directly with the Bio-energetic Field in Kathara recoding is the best way to assist Type-3 Indigo children, as there is usually to much distraction by internal emotional and perceptual conflict to allow true conscious understanding of what is taking place***. They are better off not consciously knowing they ***house 2 separate Beings*** and

Copyright A'she-yana & A'zah-yana Deane, 2000. All Rights Reserved

function best when in ***calm environments without many distractions or unnecessary interactions with others.***

Due to the Nephilim imprint, Type-3 Indigos tend to be ***very gifted in math, languages and technological sciences*** and can be drawn to ***competitive endeavors***, especially those involving "***good vs. evil***" and related ***polarity dramas***. The ***softer side*** of the Type-3 can be ***very innocent and childlike*** at any age, with a ***quizzical desire to learn and especially to experience emotion involving bonding and its physical expression***; emotional bonding is a ***new experience for a Nephilim*** and the Type-3 may have difficulty with ***polarity extremes over bonding issues*** for life. Though Type-3 Indigos may seem as ***highly conflicted souls***, and sometimes die early, it is important to realize that ***their lives are not wasted; they have incarnated to assist in the creation of a new race line, through which an ancient race can re-evolve back into the light. They are doing a great service for both the Nephilim and the Human lineage, in terms of realigning Annunaki genetic distortions in both races***

Usually the ***worst extremes*** of behavior take place ***at the beginning and ending of the life cycle*** These Indigos tend to have a ***stronger physical constitution than other Indigos*** and have ***strong athletic abilities***. If the ***Nephilim imprint is strong***, the ***physical body*** may grow to exhibit ***elongated proportions***, characteristic of the Nephilim physique, and the face often has distinctive, more ***chiseled boned-structure***, even if these traits are not within the parental genetic line The ***Indigo Recessive*** has ***24-Strand Double-Diamond + 11-Strand Reverse Templar DNA Matrix***, which comes out to a ***12-Strand Turaneusiam potential*** when fully integrated. ***Like all Indigos, Type-3's often feel out of place, bored or disinterested in earthly affairs and can benefit from being acknowledged as Visitors from Elsewhere that "march to their own drummer". That is precisely what the Indigos ARE.***

Indigo Dominant Type-2

Type-2 Indigos are part of the ***Oraphim-Human hybridization program***, through which the ***12-Strand Diamond Sun DNA Matrix*** is reinstated w thin the Earth Human genetic lines, in order to restore the ***Codes of Ascension*** to the Human lineage.

Type-2 Indigos have an ***Oraphim 24-Strand Double-Diamond DNA Matrix***, which gives them a maximum potential of ***24-30 Ascension Codes***, through which the ***Avatar*** identity may embody and the consciousness may expand into the ***Rishi*** identity level.

Type-2 Indigos are one ***Oraphim avatar*** in 1 body so they ***do not display extremes in polarity imbalance*** as is often displayed in Type-3 Indigo Recessives. The core of their life purpose is to ***assist in raising consciousness*** within the Earth Human lineage, to ***build critical mass*** of the ***Diamond Sun DNA Matrix***, within the Human gene pool and to assist Type-1 Indigo Composites in ***holding and running higher dimensional frequency*** for ***planetary grid work***

Type-2 Indigo Dom nants have advanced ***psychic development*** and may have ***open interdimensional contact*** from birth throughout l fe. They are gifted in linguistic translat on, the arts, music and interpersonal diplomacy, but may become ***excessively introverted*** due to fear of the earth env ronment. Type-2's are tne ***most personable*** of the 3 Indigos and enjoy human bonding if sheltered.

Indigo Composite Type-1

Type-1 Indigos are part of the ***Oraphim-Human hybridization program***, serving to ***accelerate and expedite,*** reaching ***critical mass*** of the ***Diamond Sun DNA Matrix*** within the race gene pool, before 2012.

Type-1 Indigos have an ***Emerald Order Oraphim*** 48-Strand ***Emerald Sun DNA Matrix***, which gives them the maximum potential for ***30-48 Ascension Codes***, through which the ***Avatar*** identity may embody and the consciousness may expand into the ***Ascended Masters*** identity levels.

Type-1 Indigos ***always*** incarnate through ***WALK-IN agreements***, whereby a smaller Soul essence, from their *own Over-Soul collective*, begins the incarnation to raise the frequency of the body and once the ***DNA*** is sufficiently activated, the original Soul "*walks out*" into Ascension and the ***Avatar*** identity ***walks-in*** (transfers the spirit essence into the body) to awaken within the body and fulfill its world service contract. The walk-in usually occurs at age ***12*** or ***22*** and ***must occur*** by the age of ***33***.

Type-1 Indigos have ***advanced psychic*** and occasionally ***direct manifestation*** abilities, usually have ***physical contact*** with their Elder Race family in childhood and have a core life purpose to fulfill ***advanced planetary grid work*** contracts. They are sensitive to everything and often remain detached from human issues to focus on their service contract. They hold great love within for all life forms

Archons

The Archon is defined as a False King of Tyranny Ruler that controls through masks of deception promoted through warring technological abuse, such as mind control, frequency implants, and military strategies and can be applied to human or non-human (alien) sources. It is both the military human and non-humans shared greed for domination of which they both employ hidden advanced frequency technologies designed to perpetrate and promote the Archontic Deception Strategy of the NAA. The Archontic Deception and its Patriarchal Oligarchy stems mostly from the Reptilian and Draconian races from the Orion Constellation, together they are called the Orion Group. June 2013 Newsletter

Patriarchal Domination

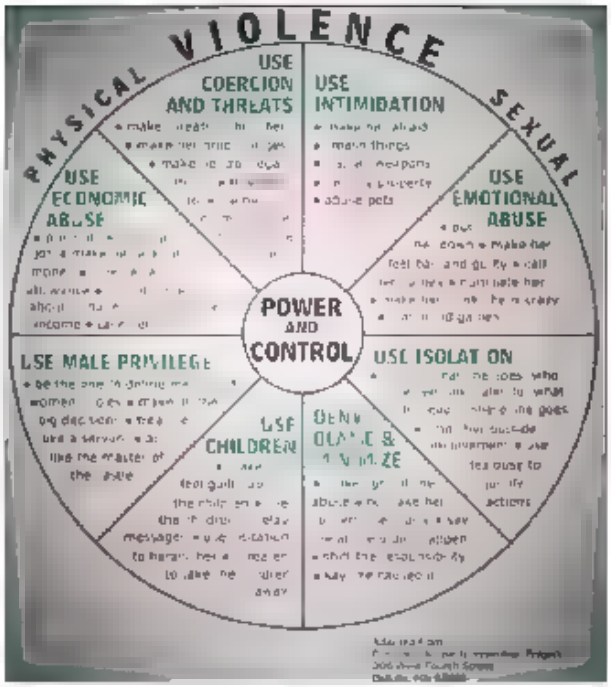
Patriarchal Domination is enforced in a variety of ways through abuses of alpha male power to control women and those ranked lower on the social or religious classification system through fear, intimidation and Victim-Victimizer techniques. This is a learned skill that is promoted in a variety of ways or is mimicked from boys watching their Father's or male authority figures evolve into the Controller archetypes that promote Archontic Deception Strategy. This is a primary strategy of programming humans into Mind Controlled Archontic Deception Behavior that originates from the Orion Group Reptoids of the NAA.

Strategies of exerting power and Mind Control through Misogyny exist at every level of society, starting as domestic violence and forms of abuse which shape core values and the way humans are programmed to think. To better grasp how the Archons of the False King of Tyranny operate to abuse power systems by creating victims or victimizers on the earth, please see the domestic abuse chart.



Domestic Abuse Chart

Self Enforced Enslavement

If a technologically advanced extra-dimensional race has decided to implement a gradual takeover of a planet and its inhabitants, what domination strategy would it use? First they would look to how they could maximize the efficiency of the invasion process and reduce the expenditure of resources that they have to generate themselves. To achieve this goal, the secretive infiltration of the core societal organizational structures with mind control such as religions, medical, financial and legal systems, would be ideal to shape the anti-human value systems that generate the victim and victimizer reality belief systems that they use to enforce tyrannical Mind Control. Through the engineering of a labyrinth of self-enforced enslavement policies based on fear and intimidation through SRA methods hidden in plain sight among the earth inhabitants, they would achieve the use of minimal "off planet" resources by piggy backing on the earth-human resources. The people on earth would effectively enforce their own enslavement through inflicting torture methods learned from the adults that abused them as children and carry it from generation to generation. Through consistent desensitization and dissociation, they would grow into dysfunctional adults that would continue to feed the cycle of SRA to enslave their own global human family by giving up their rights and their resources to the Power Elite.[1]

5. Misogyny

Archontic Deception Behavior

What are Spiritually Abusive Behaviors aka Archontic Deception (AD) Behaviors? To improve peace in a largely dysfunctional world, we may require attitudinal behavior guidelines which help us to overcome the Insanity of the Archontic Deception and their anti-life forces which abuse its mechanism. These behaviors and attitudes are propagated by the Controllers to create bondage and enslavement of the human race and thus the planet. To understand the polarity of the world of forces on earth and identify how Satanic force methods are used every day to destroy the feeling heart and Soul of human beings, let's review both sides of spiritually healthy behaviors (GSF) and spiritually abusive behaviors (AD). Spiritually healthy behaviors naturally connect one with God Source and Christ and are God-Sovereign-Free or GSF behaviors. Spiritually abusive behaviors disconnect you from God and Christ and are promoted in the Archontic Deception or AD Behaviors. The goal with the below discernment guideline is to identify and locate these spiritually abusive AD Behaviors in yourself, others and in any external organization of which you participate and to transform them through practicing GSF Behaviors. All decisions one is able to make from an informed position by identifying AD behaviors will increase personal discernment and energetic resonance of GSF in one's life. The only thing any person can change is themselves through their heart responses and behaviors. Change starts within. [1][2]Identify the Archontic Deception (AD) behavior and apply the GSF Behavior antidote to transform negativity into spiritually healthy behaviors.[2][3]

3. Emotional Stability

Suppressor Parasite Entity

Also called (SPE) Genetic artificial intelligence (AI) drones or Archons sent by higher ups in the Negative Alien Agenda NAA or those entities that source from Imposter Spirit and are a type of militarized AI to dominate and posses consciousness through Mind Control and thought projection. They are primarily sourced from Orion Groups consortium of Black Sun Program. They are mind and body parasites that attach to the bio-neurological system and are a Mind Control technological warfare. It has been observed that after a sequence of deeper layers of infection in the Lightbody, the SPE will harvest genetic material out of the human DNA host to form a type of Cyborg. We believe this is apart of the transhumanist agenda to create cyborgs in the human population through AI, to be used for a variety of purposes (slave labor) on earth and to be taken to other planets by the NAA. This is a Psycho-Spiritual Warfare strategy used against humanity by the Negative Aliens through their False Gods and False Father Satanic religions to use SRA to repeatedly enslave, kill and torture humans through Religious Violence and Military control through terrorism, war and population control,in which their goal is to institute global tyranny via the New World Order. Treaty of Altair

The NAA effectively declared an edict of war against the Christos Founders, and all of the Maji Grail King lines, Indigos, as well as the earth population on September 12, 2000. Exactly one year later they staged an Adam Belial ritual in order to institute a public ceremony announcing their New World Order plan with the culmination of the tragic events of September 11, 2001 in New York City. The destruction of the Twin Towers and Blood Sacrifice of those killed at the World Trade Center, was intended to be the line drawn in the sand to show the NAA were proceeding with their full domination

and slavery agenda of humanity and earth. This event brought forward what became known as the 911 Timelines, the institution of the false reality timelines in order take the planet into AI Assimilation Timeline which is the Fallen AI Timeline Loops that the NAA fully control from within the Phantom Matrix. [1]

Holographic Insert

Holographic insert, (an insert is a false or real memory being programmed upon our consciousness for Mind Control purposes or DNA genetic manipulation from the NAA.Holographic inserts are used to bend time and space and therefore manipulate Timelines. Inserts are implanted into the Consciousness layers though the frequency manipulation of the bodies energy fields or Lightbody. [2]

Pestilence Program=Vaccination

Recently, there has been media spin promoting disease programming through the aggressive creation of fear and the push for legalizing forced vaccinations of children and hospital workers. Many articles have been posted recently in the news by medical professionals urging you to vaccinate, combined with a variety of public relation messages to urge people to trust our health to the medical system professional. This implies the average person is unintelligent and incapable in regards to managing their own health and body, and the pushed Propaganda is to give our power fully over to the people that make multiple billions in revenue from the medical and pharmaceutical industry. Who with common sense can truly believe that these drug companies have our families health and wellbeing as their first priority? This is a perfect example of Psycho-Spiritual Warfare (mind control) operation directed to the public to create panic around the medical agenda to prescribe as many pharmaceuticals and vaccinations as possible, without people questioning or performing due diligence on what they are actually being injected with or swallowing. The hard question to ask is who is benefiting from this propaganda, and why are they pushing Vaccinations and saturating the media with commercials to ask the "friendly doctors you can trust" on the latest pharmaceutical or medical device so aggressively now?

It is blaringly obvious that there is a massive conflict of interest between the public's health and wellbeing that stands between the billions of dollars generated to the Pharmaceutical companies and their medical representatives. No sane person can refute this, it is fact. Happy drug commercials with smiling paid actors to hide following the trail of money is just one of the agendas at work to pull the wool over people's eyes. We are not even addressing the sinister levels of the NAA eugenicist program that is actually behind this propaganda of pushing the vaccine and pharmaceutical agenda. This is just about plain common sense and following the money to see who actually gets paid incredible amounts of money in order to carry this Armageddon Software of Pestilence agenda out.
